**§ 891.17 Notification of shares when shares are in effect.**

Each person filing a request for a share shall be notified in writing on behalf of the State committee of the share established in response to his request (even if "none"), and of any subsequent adjust-

ment or change made in such share, and of his right to appeal under § 891.16. The farm operator of each farm for which a share is redetermined shall be notified in writing on behalf of the State committee of the redetermined share and of the right to appeal therefrom as provided in Part 780 of this title. Where a tentative share is computed pursuant to a preliminary request for a share filed as provided in Part 850 of this chapter, the person filing such request shall be furnished a notice informing him that the acreage stated thereon is a tentative share, does not constitute the establishment of a farm share for the purpose of payment under the Act, and that a farm share for such purpose may be established only upon the filing of a fully completed request for a share within the time and in the manner provided in Part 850 of this chapter.

**§ 891.18 Harvesting within the farm's share when shares are in effect.**

The acreage of sugar beets grown on the farm, marketed (or processed), and used for the production of sugar or liquid sugar shall not exceed the share determined for the farm in accordance with applicable regulations in Part 850 of this chapter, except as provided in § 891.20. However, sugar beets grown on acreage in excess of the share may be marketed (or processed) for the production of sugar or liquid sugar for livestock feed or for the production of livestock feed if the operator of the farm furnishes weight tickets to the county committee evidencing that such sugar beets were sold by him, or were processed by or for him, for the production of sugar or liquid sugar for livestock feed, or for the production of livestock feed, and if so sold, were purchased by the processor for such purpose. Notwithstanding the foregoing provisions of this paragraph, the farm shall be deemed to have met the requirements for payment with respect to marketings (or processings) within the share where sugar beets were marketed (or processed) for sugar from an acreage on the farm exceeding the share: *Provided*, That (a) such excess acreage is not more than the larger of four-tenths acre or 2 percent of the share but not in excess of 5 acres, and (b) the county committee finds that the farm operator did not intentionally market (or process) sugar beets from an acreage in excess of the share for the farm and the State committee concurs in such findings, and (c) within 1 year from the date of the processing of such excess sugar beets, the farm operator has arranged for the raw value equivalent of sugar produced from sugar beets in the Beet Sugar Area which had not been marketed to fill a quota for such area as provided in Part 816 of this chapter to be made subject to a bond given pursuant to the provisions of such Part 816 of this chapter, which provides as a condition of such bond that the sugar shall be used for livestock feed or for the production of livestock feed. The Sugar Act payment in such case shall be limited to the amount of sugar commercially recoverable from the sugar beets marketed

(or processed) from the acreage within such share.

**§ 891.19 Notification of excess sugar beet acreage when shares are in effect.**

If the county committee determines for any crop that the acreage of sugar beets on any farm is in excess of the acreage established as the share for such farm, written notice of such excess acreage and of the eligibility requirements for payment shall be mailed to the person who is listed on the county office records as the operator of the farm.

**§ 891.20 Erroneous notice of share or of excess sugar beet acreage when shares are in effect.**

If through error, an operator is officially notified of a share for his farm greater than the share properly established, or is furnished an incorrect notice of excess sugar beet acreage, or if the determined acreage of sugar beets is in excess of the share for the farm and notice thereof is not mailed to the operator, and it is found by the county committee that such operator, acting solely on the information contained in the erroneous notice or without a notice of excess sugar beet acreage being mailed to him, markets sugar beets from an acreage in excess of the share properly established, the farm will be deemed to be in compliance with the correct share unless sugar beets are marketed for sugar from an acreage in excess of the share stated in the erroneous notice, or unless it is determined by the county committee that the error in the share or notice was so gross, or that, the excess acreage was so gross as to place the operator on notice regarding the error in the share or of the existence of the excess acreage. However, the Sugar Act payment with respect to the farm shall be limited to the amount of sugar determined by the county committee to be commercially recoverable from the sugar beets marketed (or processed) from the acreage within the property established share.

**§ 891.21 Eminent domain.**

The share established for a crop designated by year for a farm which was removed from sugar beet production in its entirety or in part by acquisition within the 3 years immediately preceding the year designating such crop by an agency or entity entitled to exercise the right of eminent domain, shall, upon application by the owner of the land so removed to the appropriate State office, be added to the share established for such crop for any land owned by the owner in the same State to the extent requested in the application. The acreage so added shall not exceed the difference between the share established for the farm from which production was removed and the share established for the part of the farm not lost by the acquisition. Where application is not made as provided in this section for the entire share or part thereof established for the farm, the share or part thereof not applied for shall be reserved by the

State committee for 3 years after the date of acquisition or until application is made by the owner of the land removed, whichever is earlier: *Provided*, That such reserved share or part thereof shall be subject to any adjustments required to be made in establishing shares for old-producer farms under the regulations applicable during the period the share is reserved. The acreage of such reserved shares not applied for may not be reallocated to other old-producer farms.

**§ 891.22 Harvest of illegal drug-producing plants.**

In accordance with Part 796 of Chapter VII, of this title, after August 10, 1971, a Sugar Act payment shall not be made to a farm if any producer with respect to such farm harvests or knowingly permits to be harvested for illegal use, marihuana or other such prohibited drug-producing plants on any lands included in the farm. Such prohibited plants are specified in § 796.2 of Chapter VII of this title.

**Subpart C—Prevented Acreage Credit**

**§ 891.30 Prevented acreage credit.**

(a) The county committee shall determine prevented acreage credits in accordance with the provisions of this section as part of the general determination of performance. The limitations specified in paragraph (b) of this section are applicable in determining prevented acreage credit for farms in all areas including personal history areas.

(b) The prevented acreage of a crop to be credited to a farm shall not exceed the difference between: (1) The sum of the acreage harvested of such crop on the farm plus any bona fide abandoned acreage of such crop on the farm, and (2) the largest sum of the acreage harvested, bona fide abandoned acreage, prevented acreage and approved released acreage credited pursuant to §§ 891.35 through 891.38 of this chapter for any of the three crops immediately preceding the crop for which prevented acreage is to be credited to the farm.

**§ 891.31 Determining and recording prevented acreage credit.**

(a) Subject to the provisions of this section, the county committee shall determine the extent of prevented acreage of a crop to be credited to each farm and in a personal history area to be included in the production records of farm operators, upon the basis of: (1) The prevented acreage reported to the committee with respect to such farm by the operator or owner thereof, and (2) information brought to the attention of the county committee.

(b) For all States except California and Arizona information of prevented acreage shall be reported or brought to the attention of the county committee not later than July 15 of the year used to designate the crop involved in the prevented acreage. In the California counties of Imperial, San Diego, Riverside, Orange, San Bernardino, and that part

of Los Angeles County lying south of the San Gabriel Mountains, and in the Arizona counties of Maricopa, Pima, Pinal, and Yuma, such information shall be reported or brought to the attention of the committee not later than January 15 of the year following the year used to designate the crop involved in prevented acreage. In the California counties not named above, such information shall be reported or brought to the attention of the committee not later than November 15 of the year used to designate the crop involved in prevented acreage. In the Arizona counties not named above such information shall be reported or brought to the attention of the committee not later than July 15 of the year used to designate the crop involved in the prevented acreage. Notwithstanding the foregoing provisions of this paragraph information of prevented acreage may be reported to a county committee after the date specified in this paragraph if the county committee determines that the person reporting such information failed to timely report because of illness or other reason beyond his control.

(c) The prevented acreage credit for each farm for any given crop as determined by the county committee, together with a brief reference to the basis relied upon by the committee in determining the extent of such credit shall be recorded on the appropriate county office records.

**§ 891.32 Notification.**

In each case of denial or reduction of prevented acreage credit the county committee shall notify the person reporting the prevented acreage regarding the credit, if any, approved in his case, and inform him of the basis for denial or reduction and of his right to appeal under Part 780 of Chapter VII of this title.

**Subpart D—Released Share Acreage Credit**

**§ 891.35 Limitation and retention of accredited acreage credit.**

(a) The number of proportionate share acres released and approved by the county committee for credit to a farm or farm operator shall be the share or portion thereof eligible for release.

(b) Accredited acreage credit shall be given to a farm (or farm operator in a personal history area) releasing the acreage, equal to the share or portion thereof eligible for release for a period not to exceed 3 consecutive years including the crop year in which released: *Provided*, That the operator of the farm (or person in a personal history area who has a personal accredited acreage record) releases such share or portion thereof at the county office of the county in which the headquarters of the farm is located. Such a release shall be executed for each individual crop year when proportionate shares are in effect but not to exceed 3 consecutive crop years.

(c) The release must be filed prior to a date determined and published by the State committee as the date beyond which sugar beets are not normally

seeded in the area, except that if the county committee finds that the eligible producer was prevented from filing a release by such date for reasons beyond his control, his claim as filed subsequently may be considered.

**§ 891.36 Notice and right to appeal.**

(a) In each case in which the county committee determines that the facts do not justify approval of the release of a share or part thereof the county committee shall notify the person filing the release of such determination giving the basis for such decision.

(b) Such notification shall inform the producer of his right to appeal, under Part 780 of Chapter VII of this title.

**§ 891.37 Reallocation of released acreage.**

The acreage resulting from the release of all or a portion of the shares pursuant to §§ 891.35 and 891.36 may be reallocated to other farms in the area on which additional acreage may be utilized or to farms in other allotment areas in the State. Reallocation shall be subject to the conditions in § 891.38 and shall be made in the same manner as provided in Part 850 of this chapter for the distribution of unused proportionate share acreage. Only those sections of Part 850 which are effective for the crop year in which the released acreage is reallocated shall apply.

**§ 891.38 No accredited acreage credit for reallocated released acreage.**

A farm on which the reallocated released acreage (as approved pursuant to §§ 891.35 and 891.36) is used, or the operator of such farm in a personal history area, will not receive accredited acreage credit for such utilized acreage. Likewise, recognition will not be given to such reallocated acreage in establishing State allocations or area allotments.

**Subpart E—Determination of Normal Yields and Eligibility for Abandonment and Crop Deficiency Payments**

**§ 891.40 Farm normal yield.**

The normal yield per acre of each sugar beet farm in the Beet Sugar Area shall be established for the 1973 and subsequent crops as follows:

(a) Farms with planted acres in 3 or more years. For a farm on which there were planted acres in 3 or more years in the base period, the farm normal yield shall be the simple average or the annual yields of such crops for the farm: *Provided, however*, That if the normal yield so determined for any farm is less than 90 percent of the county normal yield established pursuant to paragraph (2) of § 891.2 due to the effect solely of drought, flood, insects, storm, freeze, or disease on production of planted acres in one or more of the base-period years, the normal yield for such farm shall be established as follows: (1) Increase the annual yield for the farm which is less than 90 percent of the county average yield for any year in the base period solely because of drought, flood, insects, storm, freeze, or disease to the lesser of

90 percent of the county average yield or the highest annual yield for the farm in the base period; (2) add the increased yields thus determined to the annual yields for the farm for the other years in the base period in which there were planted acres on the farm and divide by the total number of such years.

(b) For a farm on which there were planted acres in only one or two of the next preceding 5 crop-years, the normal yield shall be the product derived by multiplying the county normal yield by the percentage obtained by dividing the simple average of the annual yields for the farm for such year or years by the simple average of the county yields for such year or years, except that the normal yield for such farm shall be not less than 80 percent nor more than 120 percent of the county normal yield.

(c) For a farm on which there were planted acres in none of the next preceding 5 crop-years, the normal yield shall be 90 percent of the county normal yield.

§ 891.11 Eligibility for abandonment and deficiency payments.

(a) For each crop, each farm having abandonment of planted sugar beet acreage, or having a crop deficiency of harvested sugar beet acreage below 80 percent of the normal yield for such acreage as determined in accordance with § 891.40, or having both such abandonment and deficiency, shall be approved by the county committee for payments relating thereto if the following requirements with respect to the farm are met:

(1) The sugar beets were planted on the farm on land suitable for the production of the crop, in a timely and workmanlike manner and under conditions conducive to normal production;

(2) The sugar beets were cared for up to the time of abandonment or harvest, as the case may be, in a manner which could have been expected, under average conditions, to produce a normal crop;

(3) The abandoned acreage could not have been reseeded to sugar beets in the same crop cycle under conditions offering at least a fair opportunity for production;

(4) The abandonment of planted sugar beet acreage on the farm, or the crop deficiency below 80 percent of the normal yield of the harvested sugar beet acreage on the farm, resulted directly from drought, flood, storm, freeze, disease, or insects;

(5) With respect to acreage abandonment, the county office was notified of the intention to abandon the acreage before the sugar beets were destroyed or the acreage was used for other purposes: *Provided*, That the county committee may waive the requirements of prior notification if such committee (i) has knowledge that sugar beets were planted on the abandoned acreage and the extent of such plantings, and (ii) has knowledge of widespread crop damage in the locality where the farm is located, and (iii) is satisfied that the

abandonment on the farm in question resulted directly from draught, flood, storm, freeze, disease, or insects;

(6) There was compliance with all the other conditions for payment prescribed by the Act.

§ 891.12 Approval and certification.

Approval by a member of the county committee on behalf of such committee of an application for an abandonment payment or a crop deficiency payment, or both, shall constitute a determination that the farm with respect to which such application is made is eligible for an abandonment or a deficiency payment, or both, as the case may be.

#### Subpart F—Determination of Sugar Commercially Recoverable

§ 891.15 Determination of sugar commercially recoverable from sugar beets.

(a) *Definitions*. For the purpose of this section, the terms:

(1) "Settlement area" means an area in which the marketing agreements between producers and the processor for each crop of sugar beets contain a common pricing formula.

(2) "Base period" means the first five of the last six crops immediately preceding the crop year for which rates of recoverability are to be established.

(3) "Extraction rate" for a crop means the percentage obtained by dividing the hundredweight of refined sugar recovered from the total quantity of sugar beets marketed for the extraction of sugar in the United States by the hundredweight of total computed sugar content of such beets. The sugar content of such beets shall be computed by multiplying the quantity of beets marketed to each sugar beet processing company by the weighted average sugar content of cosettes sliced in the factories operated by the company and adding the products for all such companies to obtain the total computed sugar content.

(b) *Recoverable sugar*. The amount of sugar, raw value, commercially recoverable from sugar beets shall be deemed to be as follows:

(1) In the case of sugar beets marketed in a settlement area under any type of agreement other than an "individual test" contract or a "combined individual-cosette test" contract, the amount of sugar (expressed in hundredweight) established by multiplying the net tonnage of the sugar beets, at the time of delivery to a processor, by a rate expressed in hundredweight of sugar per ton of beets (rounded to three decimals). Such rate shall be computed by (i) multiplying 20 hundredweight (1 ton) by the weighted average percentage of sugar content of all the sugar beets of the next preceding seven crops marketed on such basis in such settlement area, according to cosette tests made by the processor, and (ii) multiplying the result obtained under paragraph (b) (1) (i) of this section by the simple average of the extraction rates for the sugar beet crops in the base period, as adjusted

to raw sugar value by multiplying by 1.07.

(2) In the case of sugarbeets marketed under an "individual test" contract, the amount of sugar (expressed in hundredweight) established by multiplying the net tonnage of the sugar beets, at the time of delivery to a processor, by a rate expressed in hundredweight of sugar per ton of beets (rounded to three decimals). Such rates shall be computed by (i) multiplying 20 hundredweight (1 ton) by the percentage of sugar content on which settlement under the marketing contract is made, (ii) multiplying the result obtained under paragraph (b) (2) (i) of this section by the simple average of the extraction rates for the sugar beet crops in the base period, as adjusted to raw sugar value by multiplying by 1.07, and (iii) multiplying the result obtained under paragraph (b) (2) (ii) of this section by the ratio which the simple average for the crops in the base period of the annual weighted average percentages of sugar content of all the beets which were marketed under individual test contracts, according to cosette tests and tonnages processed, bears to the simple average of the annual weighted average percentages of sugar content of such beets according to individual tests and marketed tonnages.

(3) In the case of sugar beets marketed under a "combined individual-cosette test" contract, the amount of sugar (expressed in hundredweight) established by multiplying the net tonnage of the sugar beets, at the time of delivery to a processor, by a rate expressed in hundredweight of sugar per ton of beets (rounded to three decimals). Such rate shall be computed by:

(i) Multiplying the weighted average percentage of sugar content of the beets delivered by a producer by a factor computed by dividing the factory cosette test average by the weighted average sugar content of beets comprising at least 97 percent of the current crop delivered to the factory as determined by individual tests. The factory cosette test average shall be the weighted average percentage of sugar content of all the sugar beets of the next preceding seven crops marketed in such settlement area and determined by factory cosette tests. The weighted average sugar content of beets comprising at least 97 percent of the current crop delivered to the factory shall be computed from individual tests of the beets so delivered at such time as the State committee determines that at least 97 percent of the sugar beets of a crop have been delivered and tested for sugar content in the settlement district.

(ii) Multiplying 20 hundredweight (1 ton) by the adjusted average percentage obtained in subdivision (i) of this subparagraph, and

(iii) Multiplying the result obtained in subdivision (ii) of this subparagraph by the simple average of the extraction rate for the sugar beet crops in the base period, as adjusted to raw value by multiplying by 1.07.

(c) *Delegation and effectiveness*. The applicable rate of sugar commercially re-

coverable, as determined herein, shall be established by the Deputy Administrator, and shall become effective for each crop when the specific rate for individual settlement areas, as provided for in paragraph (b) (1) of this section, and directions for computing the rates provided for in paragraph (b) (2) and (3) of this section are published in the *FEDERAL REGISTER*.

[FR Doc. 73-4437 Filed 3-8-73; 8:45 am]

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 291]

#### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period March 9, March 15, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

##### § 907.591 Navel Orange Regulation 291.

(a) *Findings*. (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges remained active this week, with prices slightly higher than a week

[Lemon Reg. 576]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period March 11-17, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

##### § 910.876 Lemon Regulation 576.

(a) *Findings*. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons has slackened, but is expected to improve soon. Average f.o.b. price was \$5.58 per carton the week ended March 3, 1973, compared to \$5.44 per carton the previous week. Track and rolling supplies at 101 cars were up 11 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the *FEDERAL REGISTER* (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is per-

ago. Prices f.o.b. averaged \$3.62 a carton on a reported sales volume of 998 cartons last week, compared with an average f.o.b. price for \$3.56 per carton and sales of 902 cartons a week earlier. Track and rolling supplies at 418 cars were up 92 cars from last week.

(i) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the *FEDERAL REGISTER* (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 6, 1973.

(b) *Order*. (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period March 9, 1973, through March 15, 1973, are hereby fixed as follows:

(i) District 1: 949,302 cartons;

(ii) District 2: 350,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 7, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 73-4757 Filed 3-8-73; 11:30 am]

mitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 6, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period March 11 through March 17, 1973, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled" and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 8, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

#### Title 12—Banks and Banking

#### CHAPTER V—FEDERAL HOME LOAN BANK BOARD

#### SUBCHAPTER A—GENERAL REGULATIONS OF THE FEDERAL HOME LOAN BANK BOARD

[No. 73-302]

#### PART 505—AVAILABILITY AND CHARACTER OF RECORDS

##### Access to Board Records

FEBRUARY 23, 1973.

Section 505.4 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.4) provides for public access to Board records. Paragraph (d) of said

section sets forth procedures for public inspection and copying of those records. The fifth sentence of said paragraph (d) presently provides: "A person requesting access to or copies of particular records shall pay a prescribed fee based upon the estimated cost of locating, preparing for inspection, or copying such records."

The Board considers it desirable to amend said fifth sentence by revising it to specify that the present "prescribed fee" is \$5 per hour for searching and preparing for inspection and 10 cents per page for copying.

In addition the Board considers it desirable to further amend paragraph (d) of said § 505.4 by adding a new sixth sentence in order to specify the instances in which payment of the fee may be waived by the Secretary to the Board or a designated Assistant Secretary. The specified instances are those in which the total charges are less than \$2 or in which unnecessary hardship would be inflicted upon the requesting person or in which waiver would serve the public interest. Accordingly, the Board hereby amends said paragraph (d) of § 505.4 by revising it to read as set forth below, effective March 9, 1973.

Since the above amendments are for the purpose of specifying agency practice regarding access to records, the Board finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendment for the period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would in the opinion of the Board likewise be unnecessary for the same reason, the Board provides that said amendment shall become effective on March 9, 1973.

Section 505.4 is amended by revising paragraph (d) thereof to read as follows:

##### § 505.4 Access to records.

(d) *Obtaining access to records.* Records of this Board subject to this section are available for public inspection or copying during regular business hours on regular business days at the offices of the Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington, DC 20552. Any person requesting access to, or copying of, such records shall submit such request in writing to the state the full name and address of the person requesting access to, or copying of, such records and a description of the records sought that is reasonably sufficient to permit their identification without undue difficulty. Wherever possible requests should be submitted in advance to the Secretary to the Board. The request shall

of the date inspection or copying is desired, preferably by mail. A person requesting access to or copies of particular records shall pay the costs of searching, preparing for inspection, or copying such records at the rate of \$5 per hour for searching and preparing and 10 cents per page for copying. The Secretary or an Assistant Secretary designated by the Secretary is authorized to waive such payment in instances in which total charges are less than \$2 or in which unnecessary hardship would be inflicted upon the requesting person or in which waiver would serve the public interest.

(Sec. 1, 81 Stat. 54; 5 U.S.C. 552; sec. 17, 47 Stat. 736, as amended, sec. 5, 48 Stat. 132, as amended, sec. 402, 48 Stat. 1256, as amended; 12 U.S.C. 1437, 1464, 1725. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] JACK CARTER,  
Secretary.

[FR Doc.73-4601 Filed 3-8-73; 8:45 am]

#### CHAPTER VI—FARM CREDIT ADMINISTRATION

##### FARM CREDIT SYSTEM

In the FEDERAL REGISTER for January 24, 1973, at page 2336, notice was given that the Farm Credit Administration, by its Federal Farm Credit Board, had under consideration proposed amendments of its regulations which, for purposes of nonfarm home lending, would (1) redefine a rural area, (2) provide for the establishment of standards of rural subdivision design, (3) delete the provision for bench marks on rural residences, (4) provide for the identification of housing loans as farm loans under certain circumstances, and (5) delete the definition of a commercial subdivision. Interested persons were afforded an opportunity to file written comments or suggestions thereon not later than March 1, 1973. Two written comments were received. They supported the proposed rule making. A copy is available for examination by interested persons in the Office of the Director of Information, Farm Credit Administration.

The Farm Credit Administration, as authorized by its Federal Farm Credit Board, has adopted as final and issued effective March 5, 1973, the amendments of its regulations relating to nonfarm home lending as proposed in the notice published in the FEDERAL REGISTER on January 24, 1973. The Farm Credit Administration also has adopted as final and issued effective March 5, 1973, fur-

ther amendments of its regulations which (1) correct references to a Credit Manual and procedure which are no longer used, (2) provide for the submission of certain loans to the Farm Credit Administration for prior approval, and (3) include Federal land bank associations within the coverage of a policy insuring the shipment of valuables. Since these further amendments (1) and (2) relate to loans, and (3) relates to instruments involved directly or indirectly in the loanmaking function which are shipped by Federal land bank associations, it is found that as to these further amendments the notice of proposed rule making provided for in 5 U.S.C. 553 is unnecessary, and any delay in their issuance is not in the public interest.

Chapter VI of Title 12 of the Code of Federal Regulations is amended by revising paragraph (g) and adding a paragraph (i) in § 613.3040; by revising paragraph (c) in § 614.4190; by deleting paragraph (b) and renumbering paragraphs (c) and (d) as (b) and (c), respectively, in § 614.4390; by adding a paragraph (c) in § 614.4430; by revising paragraph (b) (2) in § 614.4490; by revising § 615.5500; and by deleting § 619.9070. The revised, added, and renumbered sections, paragraphs, and subparagraphs are as follows:

#### PART 613—ELIGIBILITY AND SCOPE OF FINANCING

##### § 613.3040 Rural residents.

(g) For the purposes of nonfarm home lending only, a rural area is agricultural open country which may include rural subdivisions or any city or village with a population not exceeding 2,500 persons. A rural area does not include subdivisions or villages associated with or adjacent to a larger population center. The intent is to avoid lending in concentrated, high-density residential areas or villages which are a part of an urbanizing area surrounding or immediately adjoining an urban area of a larger population center.

(i) The establishment of standards of rural subdivision design shall encourage an orderly development of economically stable communities in a healthful rural living environment. The bank shall prescribe appropriate standards subject to the approval of the district board for eligible subdivisions located in rural areas. Standards for rural subdivisions shall be designed to assure:

- (1) Conformation where applicable with general planning policies of the planning agency having jurisdiction;
- (2) Compliance with all local regulations, ordinances, and codes;
- (3) Adequate and dependable water and waste disposal system;
- (4) Adequate, economic, safe and dependable streets, lot layout, utilities, grading and drainage; and
- (5) That the location will provide desirable permanent living conditions for the residents so as to insure long-term market demand and acceptability.

#### PART 614—LOAN POLICIES AND OPERATIONS

##### § 614.4190 Federal intermediate credit banks.

(c) *Direct loan limitation.* The total credit extended to a production credit association under a direct loan and by discounting loans may not at any time exceed the total of that portion of the total loans, including participations purchased from other lenders, considered acceptable and problem (as defined in § 614.4051(a)(4)) in accordance with the percentage as classified in the bank's most recent credit review, or such percentages as may equitably represent the same percentages on a current basis, such alternate procedure to be subject to concurrence of the Farm Credit Administration, the total of investments under Commodity Credit Corporation programs, notes insured or guaranteed by Farmers Home Administration, and in farmers' notes to cooperatives and dealers, etc.; and capital and surplus less the total of the amount invested in the Federal intermediate credit bank and any portion of capital and surplus invested in loans to members, and any estimated losses not protected by reserves.

##### § 614.4390 Appraisal of security.

(b) A procedure for classifying security and area shall be a basic part of the appraisal process.

(c) The same appraisal standards, and forms and procedures shall be used by both Federal land bank associations and production credit associations.

##### § 614.4430 Identification of rural housing loans.

(c) *Provided, however,* That housing loans for homes used in farming operations or immediate family needs to farmers and ranchers may be identified as farm loans if the borrower meets the requirements of § 613.3020(g)(1) of this chapter.

##### § 614.4490 Federal land bank and production credit association loans requiring prior approval.

(b) The following shall be subject to the prior approval of the appropriate bank board:

- (2) Loans to a member of the district board unless the bank board has adopted a policy providing for the submission of such loans to the Farm Credit Administration for prior approval.

#### PART 615—FUNDING AND FISCAL AFFAIRS

##### § 615.5500 Shipment of valuables.

Shipments of valuables by the Federal land banks, Federal land bank associations, Federal intermediate credit banks,

banks for cooperatives, and production credit associations, when made to or by the assured or to or by others for the account of the assured, shall be covered by an insurance policy issued in the name of five companies, through John L. Swan & Co., Inc., broker, copies of which have been furnished the land banks, credit banks, and banks for cooperatives. Premium rates per \$1,000 on general shipments of securities and other valuables shall be \$0.04 by registered mail or express (\$0.08 by registered airmail), and on shipments of canceled coupons and canceled securities shall be \$0.01 by registered mail or express (\$0.02 by registered airmail).

#### PART 619—DEFINITIONS

##### § 619.9070 [Deleted]

(Secs. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624)

W. M. HARDING,  
Acting Governor,  
Farm Credit Administration.

[FR Doc.73-4584 Filed 3-8-73; 8:45 am]

#### Title 14—Aeronautics and Space

#### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 73-SW-16, Amdt. 39-1602]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### Bell Model 206A, 206B, 206A-1 and 206B-1

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on February 28, 1973, and made effective immediately as to all known U.S. operators of Bell Model 206A, 206B, 206A-1 and 206B-1 helicopters. The directive requires an inspection of each pylon support link near the top bearing for cracks prior to further flight and a daily visual check for cracks in each link. It also requires disassembly and inspection of each link bearing inner race face within the next 10 hours' time in service after receipt of the message.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Bell Model 206A, 206B, 206A-1 and 206B-1 helicopters by individual messages dated February 28, 1973. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons.

BELL: Applies to Bell Models 206A, 206B, 206A-1 and 206B-1 helicopters certificated in all categories.

Compliance required as indicated. To prevent possible failure of a pylon support link, P/N 206-031-508-5 or P/N 206-031-508-7, accomplish the following:

## RULES AND REGULATIONS

[Docket No. 73NW-1-AD, Amdt. 39-1604]  
**PART 39—AIRWORTHINESS DIRECTIVES**  
**Boeing Model 707 Airplanes**

(a) Prior to further flight after receipt of this message, unless already accomplished within the last 10 hours' time in service, accomplish the following:

(1) Remove the cowlings to gain access to the transmission mount links, P/N 206-031-508.

(2) Visually inspect the exposed portion of the link forging around the top bearing for crack indications using a three power or higher magnifying glass and a mirror.

(3) If a crack is found replace the affected link prior to next flight, with a link having a bearing with the inner race flat surface less than 0.125 inch, in accordance with the pertinent model maintenance and overhaul manual.

(b) Prior to first flight of each day after the inspection in (a) is conducted, accomplish the following check:

(1) Open the cowlings access doors.

(2) Visually check the exposed portion of the link forging around the top bearing for crack indications.

(3) If a crack is found replace the affected link prior to next flight, with a link having a bearing with the inner race flat surface less than 0.125 inch, in accordance with the pertinent model maintenance and overhaul manual.

(4) The checks in item (b)(2) may be performed by the pilot.

Note: For requirements regarding the listing of compliance and method of compliance with this message in the airplane's permanent maintenance record, see FAR 91.173.

(c) Within the next 10 hours' time in service after receipt of this message accomplish the following, unless already accomplished:

(1) Remove the transmission cowlings and remove the cotter pin, nut, and washer from each transmission spindle, P/N 206-031-554, and expose the top link bearing face.

(2) Inspect the exposed portion of the link forging around the top bearing for crack indications using a three power or higher magnifying glass and a mirror.

(3) Measure the flat surface on the inner race of the bearing where it contacts the washer, P/N 206-030-505.

(4) If the flat surface of the inner race exceeds 0.125 inch or if a crack is found replace the affected link and bearing. Replace with a link having a bearing with the inner race flat surface less than 0.125 inch before further flight, in accordance with the pertinent model maintenance and overhaul manual.

Note: Fairair bearing, P/N SBS 24ATC46, has an inner race flat surface less than 0.125 inch.

(5) If no cracks are found the repetitive checks in (b) are to be continued.

This amendment is effective on March 12, 1973, and was effective upon receipt for all recipients of the message dated February 28, 1973, which contained this amendment.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on March 2, 1973.

HENRY L. NEWMAN,  
Director, Southwest Region.  
[FR Doc. 73-4522 Filed 3-8-73; 8:45 am]

Amendment 39-1593 (38 FR 4333), AD-73NW-1-AD, provides for inspection and replacement of the main deck cargo door latch support fittings. After issuing Amendment 39-1593, the agency has determined that the extent of damage permitted for continued safe operation is less than originally determined and should be corrected. If cracks are found emanating from the barrel nut hole on any one of the two most forward or two most aft fittings, the cracked fittings must be replaced prior to further pressurized flight. Therefore, the AD is being amended to provide the correct criteria for fitting replacement.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and (FR 4333), AD-73 NW-1-AD is amended ment effective on March 9, 1973.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1593 (38 FR 4333), AD-73 NW-1 AD is amended as follows:

Amend paragraph (a) to read as follows:

(a) Unless already inspected within the last 1,200 hours' time in service before the effective date of this AD, or unless inspected per Boeing Alert Service Bulletin 3124, dated January 29, 1973, or later FAA approved revisions, inspected per (d) below at the times specified in (b) or (c) below, as applicable.

Amend paragraph (d) to read as follows:

(d) Inspect in accordance with Boeing Alert Service Bulletin 3124 dated January 29, 1973, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, for cracks emanating from the barrel nut hole on each of the eight fittings using visual or dye penetrant or Eddy Current methods.

Amend paragraph (e) to read as follows:

(e) If cracks are found emanating from the barrel nut hole, replace with a serviceable fitting or a 7075-T73 replacement fitting prior to further flight. Except, if cracks are found emanating from the barrel nut hole on any one of the two most forward or two most aft fittings, replace the cracked fitting prior to further pressurized flight. Airplanes with not more than one of the four center fittings cracked at the barrel nut hole, may be continued in service at a reduced cabin operating pressure of not more than 6.0 p.s.i. cabin differential, provided: All fittings are reinspected at intervals not to exceed 200 hours' time in service in accordance with (d) above.

This amendment becomes effective on March 9, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on March 1, 1973.

C. B. WALK JR.,  
Director, FAA Northwest Region.  
[FR Doc. 73-4521 Filed 3-8-73; 8:45 am]

[Docket No. 12323, Amdt. 39-1605]  
**PART 39—AIRWORTHINESS DIRECTIVES**  
**Handley Page HP-137 Mark I Airplanes**

Pursuant to the authority delegated to me by the Administrator, Amendment 39-1548 (37 FR 22846), AD 72-23-1, as amended by Amendment 39-1585 (38 FR 1579), was further amended on January 23, 1973, and made effective immediately as to all known U.S. operators of Handley Page HP-137 Mark I airplanes. The Amendment extends the time for compliance with the AD until March 24, 1973.

After issuing Amendment 39-1585 (38 FR 1579), the FAA determined that a critical shortage of the modification kits required for compliance with AD 72-23-1 still exists. The kits are not available in sufficient quantities to permit compliance with the AD within the time specified and this would result in grounding of airplanes. AD 72-23-1 was issued as a result of reports of ruptures of the horizontal firewall under the engine hot section due to engine rotor failures or combustor torching flame penetrating the combustor case and firewall, in order to provide additional fire shielding to protect the aft nacelle, wing, and fuel tank in case the horizontal firewall is penetrated. Subsequent to the issuance of AD 72-23-1 the FAA has determined that only a single case of in-service rupture of the horizontal firewall has occurred, and that rupture was caused by an uncontained engine rotor disc failure, and that there have been no cases of rupture caused by combustor torching flames.

In view of the foregoing and based on further review of the service history of these airplanes the FAA has determined that the situation is not as severe as originally determined, that the compliance time specified in AD 72-23-1 is unnecessarily restrictive, and that extension of the compliance time for 60 days will not adversely affect safety.

Since it was found that the amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure thereon was unnecessary. These conditions still exist and the amendment is hereby published in the Federal Register as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

In consideration of the foregoing, and pursuant to the authority delegated to

me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1548 (37 FR 22846), AD 72-23-1 as amended by Amendment 39-1585 (38 FR 1579), is further amended by amending the compliance statement therein to read as follows:

Compliance is required on or before March 24, 1973, unless already accomplished.

This amendment is effective on March 9, 1973, as to all persons except those persons to whom it was made immediately effective by the telegram, dated January 23, 1973, which contained this amendment.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 2, 1973.

C. R. MELUGIN, JR.,  
Acting Director,  
Flight Standards Service.  
[FR Doc. 73-4520 Filed 3-8-73; 8:45 am]

[Airspace Docket No. 73-SO-12]  
**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS****Redesignation of Control Zone**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to redesignate the Greenville, Miss., control zone.

The Greenville control zone is described in § 71.171 (38 FR 351), and is effective "from 0700 to 2000 hours, local time, daily." Effective March 4, 1973, to provide the required air traffic control service at Greenville, the effective hours will be extended to "from 0700 to 2200 hours, local time, daily." It is necessary to alter the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 4, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351) the Greenville, Miss., control zone is amended as follows:

"\* \* \* 0700 to 2000 hours, local time, daily \* \* \*" is deleted and "\* \* \* 0700 to 2200 hours, local time, daily \* \* \*" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on February 27, 1973.

DUANE W. FREER,  
Acting Director, Southern Region.  
[FR Doc. 73-4519 Filed 3-8-73; 8:45 am]

## RULES AND REGULATIONS

**Chapter II—Civil Aeronautics Board**  
**SUBCHAPTER D—SPECIAL REGULATIONS**  
[Reg. SPR-66; Amdt. 2]**PART 372a—TRAVEL GROUP CHARTERS**  
**Miscellaneous Interpretative and Technical Amendments**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of March 1973.

By SPR-61, adopted and effective September 27, 1972, the Board issued rules authorizing a new class of charter, called Travel Group Charters (TGC), which are applicable to all direct air carriers and foreign air carriers. This new type of charter enables any 40 or more persons to be formed into a charter group, regardless of any prior affinity among such persons, provided that certain prescribed conditions and limitations are met.

Questions which have arisen in the course of administering the rule have indicated that it would be desirable to issue various interpretative and technical amendments. They are as follows:

1. **Definition of "round-trip."** The term "round-trip" is used in defining a "travel group charter" (§ 372a.2), but is not itself defined. In the absence of a prescribed definition, the meaning of "round-trip" varies with the context in which it is used. For example, in some tariffs on file with the Board, it is defined narrowly as a trip in which the outbound leg stops at one or more points, and the inbound leg stops at the same points in reverse order and terminates at the point of origination. We did not intend to limit TGC's to such a narrow definition of "round-trip"; rather, we sought only to require that a TGC should be "round-trip" in the popular sense of the term, i.e., a trip involving a departure from a particular point and a return to the same point or to a point in the same general area, regardless of the number or sequence of intermediate points served. Thus, a round-the-world trip should clearly qualify for a TGC, as should a trip in which, for example, the outbound leg is from New York to London and the inbound leg is from Rome to New York. In order to remove any ambiguity as to the interpretation of the term "round-trip" in the TGC rule we are now prescribing a broad definition, to encompass "any round, open-jaw or circle trip which includes an outbound flight and an inbound flight returning to a point no more than 50 air miles from the point of origin."

We wish to emphasize that by amending the definition of the term "round-trip" here, so as to expressly negate any narrow or technical denotation, we do not mean to imply that, in the absence of such explicitly broad definition, the term "round-trip" as used in other parts of our regulations is necessarily to be construed narrowly. As noted above, the question of whether the term should be broadly or narrowly defined depends on the

2. **Last day for individual participant's exercise of absolute right to cancel.** Paragraph (a) of § 372a.12 provides that the charter contract and the contract between the charter participants and the charter organizer shall become binding on the participants only upon the occurrence of specified conditions, culminating in the timely filing of the charter contract, i.e., no later than 3 months prior to departure. Paragraph (b) of the same section provides that at any time prior to the 4 months preceding the scheduled flight departure date, a participant may give to the organizer written notice of his cancellation and thereupon be entitled to a full refund of all moneys credited to his account. It has been noted that these two paragraphs appear to be somewhat inconsistent, since paragraph (b) implies that the individual participant has an absolute right to withdraw from the TGC only until four months before the scheduled date of flight departure, whereas paragraph (a) implies that he may do so even after that deadline, so long as all the enumerated conditions have not yet occurred.

We are therefore revising paragraph (a) of § 372a.12 so as to make it clear that although the TGC cannot be effectuated unless and until all the enumerated conditions precedent have occurred within the specified time limits, an individual participant may well be bound from the time he becomes a TGC participant, even if the enumerated conditions have not yet occurred. In short, if the conditions prescribed in § 372.12 (a) are not timely met, the TGC is aborted and full refunds must be made to all participants; but, unless and until the entire TGC is so aborted, the individual participant has a right to withdraw and receive a full refund only pursuant to the provisions of § 372a.12(b), 372a.15(g) or of the particular contract with the organizer.

3. **Requirement that terms of proposed charter contract conform to direct air**

context and the purpose of the rule in which it is used. Thus, for example, in our rules against stranding (e.g., §§ 208.32(e) and 208.202b of Part 208), in which we have required prepayment for the returning flight as well as the departing flight, in order to curtail the stranding of passengers abroad, our reference to "round-trip" charter is to be construed—even in the absence of an explicit definition—as applying to all travel arrangements which involve departure-and-return flights, whether described in an applicable tariff as "round-trip," "open-jaw," "circle-trip" or otherwise.

Paragraph C of the "truth-in-chartering" statement is also being revised, so as to reflect this clarification.

For example, if the organizer has expressly undertaken, in his contract with participants, to file the charter contract at a specified date which is later than the earliest date permitted by the TGC rule, then an individual participant would have until that specified date to give written notice of his withdrawal for whatever reason.

carrier's tariff in effect at time TGC option filed. Consistent with the declaration of agreed principles, worked out jointly by representatives of the United States and various foreign governments,<sup>4</sup> we are amending the TGC rule so as to require that the price and other terms set forth in a filed TGC option must be consistent with the tariff of the direct carrier in effect at time of such filing.

Moreover, we are also taking this occasion to amend § 372a.26 so as to specifically preclude any subsequent tariff filing which would have the effect of changing the rates set forth in the option and proposed charter contract. These amendments will assure timely review by the Board of the lawfulness of TGC charter rates prior to public solicitation thereof.

4. *Expressing all time requirements in terms of days.* In the TGC rule the time for complying with various requirements is in some instances expressed in terms of months, and in other instances is expressed in terms of days. Thus, the final pre-departure filings with the Board are required to be made "[n]o earlier than 4 months but no later than 3 months" prior to the scheduled flight departure date (§ 372a.22(b)), whereas, for example, full payment of each participant's minimum pro rata charter price is required to be paid "[n]o later than 60 days prior to such departure" (§ 372a.15(a)). Upon further consideration, we have concluded that it would be desirable to have time requirements in the rule expressed uniformly in terms of days. This uniformity will facilitate computations of time<sup>5</sup> required to be made under the rule and will also be in conformity with the manner in which comparable time requirements are being expressed in rules adopted by various foreign authorities as counterparts of our TGC rule. We are therefore substituting "120 days" and "90 days" for "4 months" and "3 months," respectively, throughout the text of the rule, including the "truth-in-chartering" statement.

5. *Clarifying when "tentative adjusted" price may be computed.* The text of the present rule is not sufficiently clear as to when the tentative adjusted pro rata charter price may be computed. For example, § 372a.15(d) refers to the tentative adjusted pro rata charter price "as computed on the 45th day prior to the scheduled date of flight departure," thereby implying that the computation

must be made on that date. On the other hand, § 372a.29(d) provides that the contract between organizer and participants must set forth various prescribed terms and conditions, including the specific date on which the tentative adjusted pro rata price shall be computed, "which date shall not be later than 45 days before the scheduled departure date," thereby indicating that the date prescribed in the rule is merely a deadline. It is the latter provision which expresses the Board's intention, and the rule is therefore being amended so as to refer to this adjustment date consistently as being "no later than 45 days" before the scheduled departure date.

6. *Explicit prohibition against receiving money for prospective TGC before lawfully advertised.* Section 372a.22(a) provides that no charter organizer shall sell, or offer to sell, solicit, or advertise a charter trip, until at least 15 days after he and the direct air carrier have jointly made a preliminary filing with the Board of certain prescribed documents, including evidence of appropriate arrangements made to secure customers' deposits. In view of some TGC advertisements which have come to our attention, we are amending the rule so as to provide, expressly and emphatically, that no money is to be received by the organizer from any person in connection with a prospective TGC before that TGC may lawfully be advertised, i.e., only after the Board's staff has had an opportunity to review the filed preliminary documents which, as aforesaid, include evidence of the arrangements made by the organizer to secure customers' deposits.

7. *Explicit prohibition of any additional charges by organizer.* Section 372a.27(a) provides that the charter organizer shall not make any charges to the charter participants other than his service charge for consummating the charter and such transfer fees as may be due from those participants for whom he has effected an assignment. In view of some TGC advertisements which have come to our attention, we have determined to amend the rule so as to underscore that this prohibition is to be read literally. We are therefore adding an appropriate clause, expressly prohibiting any additional charges, however characterized.

8. *Additional provisions related to interlocking relationships.* When the Board adopted SPR-61 (the TGC rule), we made final certain proposed exemptions for charter organizers (other than foreign charter organizers) which we have customarily provided for indirect air carriers, including a limited exemption from sections 408(a) and 409, and from section 412.<sup>6</sup> However, we had inadvertently omitted from our proposal, and thus did not make final, related customary provisions which (a) grant blanket approval of certain interlocking relationships of

an indirect air carrier's officers and directors, and (b) provide that such exemptions and approval do not constitute orders under section 414 of the Act for the purpose of conferring "antitrust law" immunity.<sup>7</sup> We are therefore adding these technical provisions to the TGC rule, so as to cure their inadvertent omission.

9. *Additional provision to be specified in participant-charter organizer contract.* While the TGC rule-making proceeding was in progress, the Board had instituted a separate proceeding, by notice of proposed rule making SFDR-26,<sup>8</sup> in which we proposed miscellaneous amendments to the Board's special regulations with respect to study group charters<sup>9</sup> and inclusive tour charters.<sup>10</sup> That proceeding culminated in the issuance (subsequent to the issuance of the TGC rule) of SPR-62,<sup>11</sup> in which the Board made final a number of the proposed amendments. Among the proposed amendments which were thus made final was a change in Part 378, adding to the enumerated provisions required to be specifically covered in the contract between an inclusive tour charter operator and tour participants, a provision advising participants of any available "trip liability insurance," i.e., health and accident insurance related to the inclusive tour charter. This requirement, which was adapted from an existing requirement applicable to study group charters' contracts (§ 373.18(b)), is designed to assure that tour participants are apprised of insurance which may be available for their benefit in connection with a tour. Thus, for the same reasons that we decided, following public rule making procedures, to require this provision to be specified in tour contracts in connection with study group charters and inclusive tour charters, we have now determined to add it to the provisions which the TGC rule requires to be specified in the contract so as to be brought specifically to the attention of TGC participants, although this particular requirement was not proposed in the instant proceeding.

10. *Contents of the "truth-in-chartering" statement.* In SPR-61, we prescribed as Appendix "A" to the TGC rule a "truth-in-chartering" statement to be distributed by the charter organizer to actual and prospective charter participants. In order to assure that they would be advised, in non-technical terms, of their rights and obligations under the various pertinent provisions of the rule. It is now necessary to revise various portions of that statement so as to reflect the revised text of the TGC rule

<sup>4</sup> See, for example, §§ 378.4 and 378.5 of Part 378, and §§ 373.4 and 373.5 of Part 373, respectively.

<sup>5</sup> Dated October 26, 1971; 36 FR 20895, October 30, 1971.

<sup>6</sup> Part 373 of the Board's Special Regulations (14 CFR Part 373).

<sup>7</sup> Part 378 of the Board's Special Regulations (14 CFR Part 378).

<sup>8</sup> Dated October 10, 1972; 37 FR 22851, October 26, 1972.

<sup>9</sup> See, for example, § 378.3 of Part 378 (governing inclusive tour operators), and § 373.3 of Part 373 (governing study group charter operators).

<sup>4</sup> I.e., Canada and the 10 member states of the European Civil Aviation Conference (ECAC). Paragraph 7 thereof provides in pertinent part: "Not less than 4 months before the commencement of their first operation, carriers should file appropriate tariffs with concerned regulatory authorities. In the absence of a challenge to such tariffs, contracts incorporating them shall be regarded as valid in this respect." See Department of State Release No. 296, Dec. 1, 1972.

<sup>5</sup> We are also adding a new § 372a.6, to expressly provide how computations of time under the TGC rules are to be made, and the "truth-in-chartering" statement is also being amended accordingly to include appropriate illustrations.

resulting from the foregoing amendments.

We are also taking this occasion to otherwise revise the statement, so as to include the following additional information which should be helpful to the traveling public in better understanding the salient provisions of the TGC rule:

(a) The statement presently summarizes the rule's requirement (§ 372a-11) that each main list participant must pay an initial deposit of at least 25 percent of the "minimum pro rata charter price" specified in the contract. The revised statement refers explicitly to the rule's additional provisions with respect to payment: (1) Any unpaid balance of the "minimum pro rata charter price" must be fully paid no later than 60 days prior to the scheduled date of flight departure; and (2) at the same time the organizer may also require (if the contract so provides) payment of a "pro rata reserve deposit," so long as the total payments do not exceed the "maximum pro rata charter price." (§ 372a.15(a).)

(b) The statement presently states (p. 2, fn. 2) that tour conductors may be carried on a TGC flight, if the contract so provides and the number of conductors is not more than one for each 40 participants. The revised statement makes explicit that tour conductors may be carried only if the TGC package includes ground arrangements.

11. *Time of delivery of the "truth-in-chartering" statement.* The present TGC rule requires (§ 372a.22(b)(4)) that, at the time the executed charter contract is filed, there shall also be filed a statement of the charter organizer affirming that a main list participant has been furnished, with a copy of the "truth-in-chartering" statement discussed above, but the time for furnishing the statement is not prescribed. Yet, if the statement is to serve its purpose, the organizer should not be permitted to postpone its delivery until the last possible moment. We have therefore determined to amend the rule so as to require that a copy of the "truth-in-chartering" statement shall be furnished by the organizer to each main list participant no later than the time when the participant enters into a contract with the organizer.

12. *Statement of charges.* The present text of § 372a.28, prescribing the contents of statements of charges in connection with the marketing of TGC's, has given rise to various questions of interpretation. In particular, the present reference to "the total cost of the charter" has created some doubt as to whether or not a TGC advertisement is required to set forth the total price of the charter contract. We are therefore revising the entire text of this section, so as to remove such ambiguities.

13. *Effectiveness of these amendments.* Since the purpose of this rule is only to clarify and interpret various provisions of the TGC rule, as well as to make some minor technical revisions which, while imposing no substantial burden on anyone, should afford further protection to members of the public wishing to partic-

ipate in charters operated hereunder, the Board finds that notice and public procedure are unnecessary and would not be in the public interest. For the same reasons, we find good cause to make all of the within revisions and amendments effective immediately, except as otherwise specified.

Recognizing that some organizers and direct air carriers have already filed with the Board options, proposed contracts and other documents in connection with proposed TGC programs, and may have already distributed "truth-in-chartering" statements, all drafted in conformity with the existing text of the rule, including Appendix "A" thereto, immediate effectiveness of all the amendments herein could impose a burden on such persons. We shall therefore permit them to execute, and otherwise continue to use, in connection with any TGC program pending at the time this rule becomes effective, any document conforming to the existing text of the rule, without requiring revisions to be made to reflect the within technical amendments. For this purpose, we shall regard a TGC program as pending on the effective date hereof if its preliminary filings, under § 372a.22(a), were made before said effective date or are submitted to the Board within 30 days after the within amendments are published in the FEDERAL REGISTER.

Similarly, we recognize that immediate application of the within amendment, insofar as it explicitly requires that the price and other terms set forth in a TGC option must be consistent with tariffs in effect at the time the TGC option is filed, would be disruptive of pending TGC programs, since no tariffs for TGC flights have as yet been filed and any tariff which could be immediately filed could not normally become effective except upon 30 days' notice. Thus, if the instant amendment were to become effective immediately, it would preclude the filing of any TGC option for a period of at least 30 days, and thus the marketing of any new TGC would be barred for a period of at least 45 days, since a TGC may not be offered for sale until 15 days after the option is filed. We shall therefore postpone the effectiveness of this amendment until 30 days after its publication in the FEDERAL REGISTER.

In consideration of the foregoing, the Civil Aeronautics Board amends Part 372a of its Special Regulations (14 CFR Part 372a), effective March 6, 1973, as follows:

1. Amend the Table of Contents to read in part as follows:

Sec.	Termination of part.
372a.5	Computation of time.
372a.6	Jurisdiction over foreign charter organizers.
372a.20b	Approval of certain interlocking relationships.
372a.20c	Effect of exemption on antitrust laws.
372a.21	Suspension of exemption authority.

2. Amend § 372a.2 by adding a definition of "round-trip" as follows:

#### § 372a.2 Definitions.

As used in this part, unless the context otherwise requires—

"Round-trip" refers to any round, open-jaw or circle trip which includes an outbound flight and an inbound flight returning to a point no more than 50 air miles from the point of origin.

3. Add a new § 372a.6 to read as follows:

#### § 372a.6 Computation of time.

In computing any period of time prescribed or allowed by this part, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or legal holiday for the Board, in which event the period runs until the end of the next day which is neither a Saturday, Sunday, nor holiday.

4. Amend § 372a.12 to read as follows:

#### § 372a.12 Conditions precedent to contracts.

(a) The charter contract and the contract between the charter participants and the charter organizer shall become binding on each participant at the time he becomes a party thereto (subject to his right to receive a full refund if he cancels pursuant to paragraph (b) of this section, or defaults for cause pursuant to § 372a.15(g), or if he cancels pursuant to a right specifically granted in the contract with the organizer), but after the expiration date specified in the option of the direct air carrier, filed with the Board pursuant to § 372a.22(a)(1), no new contractual rights and obligations hereunder may be created, and any existing rights and obligations shall become null and void (other than the right of the participants to receive full refund of any payments already made) unless all of the following conditions have been met:

(1) The number of main list participants plus the number of tour conductors (which shall not exceed the maximum number permitted under this part) is equal to the number of seats specified in the charter contract;

(2) Each main list participant has paid at least an initial deposit of 25 percent of the minimum pro rata charter price specified in the charter contract; and

(3) The charter contract has been timely filed with the Board.

(b) At any time prior to 120 days preceding the scheduled flight date, a participant may submit to the organizer written notice of his cancellation, regardless of cause, and he shall thereupon be entitled to receive forthwith a refund of all moneys credited to his account, without deduction or penalty of any kind.

5. Amend the introductory paragraph to § 372a.13 to read as follows:

## RULES AND REGULATIONS

## § 372a.13 Assignments.

At any time during the 120-day period preceding the scheduled flight departure date, a charter participant may assign his interest in the charter, but only in accordance with the following:

6. Amend § 372a.15 (c), (d), (e), and (g) to read as follows:

## § 372a.15 Full payment of charter price; refunds.

(c) If the interest of any defaulting participants has not been assigned prior to the date specified in the contract for the computation of the tentative adjusted price, pursuant to § 372a.29(d), then the initial 25 percent deposit of each such defaulting participant (unless refunded to him pursuant to paragraph (g) of this section) shall be applied toward payment of the charter price, and the pro rata charter price for each remaining participant shall be increased by an amount equal to his pro rata share in the unpaid balance of the defaulting participant's charter price.

(d) If the tentative adjusted pro rata charter price, as computed on the date specified therein in the contract, pursuant to § 372a.29(d), exceeds the specified maximum, then the charter shall be canceled and all moneys paid by the charter participants shall be refunded to them forthwith, without deduction or penalty of any kind: *Provided, however*, That the initial 25-percent deposit of each defaulting participant (unless refunded to him pursuant to paragraph (g) of this section), may be paid over as liquidated damages to the direct air carrier and the charter organizer pursuant to the terms of the charter contract and the contract between the organizer and participants.

(e) If the tentative adjusted pro rata charter price, as computed on the date specified therein in the contract, pursuant to § 372a.29(d), does not exceed the specified maximum, then each participant shall forthwith pay the balance. If any, due on such adjusted pro rata charter price and all moneys theretofore paid by charter participants shall be nonrefundable, except as provided in paragraph (f) of this section: *Provided, however*, That if the charter contract is subsequently canceled for any of the reasons set forth in § 372a.18, then all moneys paid by the charter participants shall be refunded to them forthwith, without deduction or penalty of any kind.

(g) If the charter organizer receives written notice, prior to the date specified in the contract for the computation of the tentative adjusted price, pursuant to § 372a.29(d), that a charter participant has died, or that, as a result of accident or illness, verified by a medical doctor, it appears probable that he will be unable to participate in the travel group charter, then the charter organizer shall refund the charter price payments already made by such participant.

7. Add new §§ 372a.20b and 372a.20c to read as follows:

## § 372a.20b Approval of certain interlocking relationships.

To the extent that any officer or director of a charter organizer would be in violation of any of the provisions of section 409(a) (3) and (6) of the Act by participating in interlocking relationships covered by the exemption granted by § 372a.20, such participation is hereby approved by the Board.

## § 372a.20c Effect of exemption on anti-trust laws.

The relief granted by §§ 372a.20 and 372a.20b from sections 408, 409, and 412 of the Act shall not constitute an order under such sections within the meaning of section 414 of the Act, and shall not confer any immunity or relief from operation of the "antitrust laws" or any other statute (except the Act) with respect to any transaction, interlocking relationship, or agreement otherwise within the purview of such sections.

8. Amend § 372a.22 to read in part as follows:

## § 372a.22 Operating authorization of charter organizer.

A charter organizer . . .  
(a) No charter organizer shall sell, or offer to sell, or solicit persons to participate in, or otherwise advertise, a charter trip, or receive any money from any prospective participant in connection therewith, until at least 15 days after he and the direct air carrier(s) have jointly filed with the Board (Supplementary Services Division, Bureau of Operating Rights) in duplicate:

(1) An option from the direct air carrier(s) under which the carrier(s) obligates itself for a specified period, which shall expire no later than 90 days prior to scheduled date of departure, to enter into a charter contract with the charter organizer as agent for the charter participants: *Provided, however*, That if the air transportation on the departing flight and the returning flight is to be performed by more than one direct air carrier, then there shall be a single option granted to the charter organizer by all such direct air carriers, acting jointly and severally;

(2) A copy of the proposed charter contract, setting forth specific terms and conditions upon which the carrier(s) will perform the charter, including the number of seats (specifically stating, where applicable, the number of seats to be occupied by tour conductors), the type of aircraft, the departure and return dates and points, and the minimum and maximum pro rata charter price, which terms and conditions shall conform to the currently effective tariff or tariffs of the direct air carrier(s), as identified by specific tariff citation;

(b) No earlier than 120 days, but no later than 90 days, prior to the scheduled date of departure, the charter organizer and the direct air carrier(s) shall jointly

file with the Board (Supplementary Services Division, Bureau of Operating Rights) in duplicate:

(4) A statement of the charter organizer affirming that each main list participant (i) has entered into a contract with the organizer as provided in this part, (ii) has paid his initial 25-percent deposit, and (iii) has been furnished, no later than the time when he entered into such contract with the organizer, with an explanatory statement, in the form set forth in Appendix A; and

9. Amend § 372a.26 to read as follows:

## § 372a.26 Prohibition on operations unless tariffs are observed.

No charter organizer shall charter aircraft to provide air transportation to charter participants, and no direct air carrier shall operate such aircraft, except in accordance with the rates, fares, and charges and all applicable rules, regulations, and other provisions for such transportation as set forth in the currently effective tariff or tariffs of the direct air carrier transporting charter participants; and no such organizer shall demand, collect, accept, or receive, in any manner or by any device, directly or indirectly, or through any agent or broker, or otherwise, any portion of the rates, fares, or charges so specified in the tariffs of such direct air carrier, and shall not demand, accept, or receive, either directly or indirectly, any privilege, service, or facility except those specified in the currently effective tariffs of such air carrier: *Provided, however*, That no direct air carrier shall file a tariff which has the effect of changing the charter price specified in any option or proposed charter contract previously filed under § 372a.22.

10. Amend § 372a.27(a) to read as follows:

## § 372a.27 Charter costs.

(a) The charter organizer shall not make any additional charges to the charter participants, other than his service charge for consummating the charter (or liquidated damages, as permitted hereunder, if the charter is canceled upon default of participants), and such transfer fee as may be due him from an individual participant for effecting an assignment, whether or not such additional charge is only nominal or is characterized as a membership fee, registration fee, reimbursement for expenses, or otherwise.

11. Amend § 372a.28 to read as follows:

## § 372a.28 Statements of charges.

(a) Any announcement, statement, or solicitation material to prospective charter participants giving price per seat shall state that the price is dependent upon the number of seats sold, and shall also set forth the minimum and maximum pro rata charter price, as well

as the service charge. It shall also state that the minimum pro rata charter price is subject to an increase of no more than 20 percent as a result of defaults by participants, and that the charter will be canceled if the pro rata charter price increases by more than 20 percent over the minimum pro rata charter price. The cost of ground arrangements, if any, shall be stated separately.

(b) All such announcements, statements, or solicitation material shall also identify the carrier(s) and the type of aircraft to be used for the charter, and shall state that for a person to be eligible to be a passenger on a charter flight he must be included in the main list or the standby list to be filed no later than 90 days before flight departure.

(c) All billings to charter participants shall separately state the pro rata cost of air transportation, the service charge, the transfer fee, and the cost of land accommodations, if any.

12. Amend § 372a.29 by adding new paragraph (e-1) to read as follows:

## § 372a.29 Contract between charter organizer and charter participants.

(e) If applicable, the . . .  
(e-1) Whether trip, health, and accident insurance is available and, if so, that upon request the charter organizer will furnish details thereof;

13. Amend Appendix A to read in part as follows:

## DESCRIPTION OF TRAVEL GROUP CHARTERS

*General Description of TGC.* The basic idea of a TGC is that 40 or more persons may enter into a charter contract, by which they hire an aircraft (or part of an aircraft) to provide themselves with round trip air transportation for a trip which is to last a minimum of 7 days (10 days in some areas) on a pro rata basis, i.e., each charter participant shares equally in the cost of the charter. The charter contract must be filed with the Board several months before the scheduled date of departure. At that time, the charter organizer must also file a "main list" identifying the people who have signed his contract and paid him an initial deposit of at least 25 percent of the "minimum pro rata charter price" (discussed below) specified in the contract. The number of persons on this "main list" must be equal to the number of seats which the contract specifies will be occupied by "charter participants."

The charter contract and other documents are to be filed no earlier than 120 days, and no later than 90 days, before the scheduled date of departure. Thus, for example, if a TGC is scheduled to depart on July 6, 1973, this filing may be made no earlier than March 9, 1973 and no later than April 9, 1973. (Since the 90th day prior to the scheduled departure is April 7, 1973, a Saturday, the filing deadline is extended to the next business day, April 9th, which is only 96 days prior to departure.)

## RULES AND REGULATIONS

ipants." At the same time, there may also be filed a "standby list" identifying any person who wants the opportunity to be substituted for a "main list" participant who might subsequently withdraw or default. The number of persons on the "standby list" may not exceed three times the number of "main list" participants, and a person on the "standby list" is under no obligation of any kind unless and until he actually becomes substituted for a "main list" participant. When the flight is performed, all the charter participants must be persons identified in either the "main list" or the "standby list" on file with the Board; and at least 80 percent of the charter participants must be from the "main list."

*Pro rata charter price.* The "minimum pro rata charter price," . . .

If all the seats intended for participants are sold, fully paid for, and no refunds are made, then the minimum pro rata charter price will be the actual price which each charter participant will pay. However, if a participant defaults (or refund is made because of the death or illness of a participant) then the pro rata price of each remaining participant must be increased accordingly. In order to limit the liability of the remaining participants for an increase in the pro rata charter price, the Board has provided for a "maximum pro rata charter price," which is 20 percent more than the minimum. The minimum pro rata charter price must be paid in full by each charter participant no later than the 60th day before the scheduled date of flight departure. The charter organizer must determine, no later than 45 days before the scheduled departure date, whether defaults and refunds would result in increasing each remaining participant's share beyond the "maximum." If they would, then the charter must be canceled; otherwise each remaining participant must pay the increased "adjusted pro rata price."

*Cancellations and refunds.* . . .  
C. Until 120 days prior to the scheduled flight departure date (or until such later date as may be specified in the contract with the organizer for the filing of the final contracts), any participant may give written notice to the organizer that he wishes to withdraw from the group, regardless of his reasons, and he is then entitled to a full refund of all payments.

*Example 3.* On March 1, 1973, John Jones signs a contract with an organizer and pays a 25 percent deposit for a TGC scheduled to depart from New York to London on July 6, 1973. The 120th day prior to flight departure is March 10, 1973 (which is a Saturday). Until the next regular business day, March 12, 1973, Mr. Jones is entitled to give the organizer written notice of his decision to withdraw, without cause or explanation, and to receive a full refund.

The only other authorized passengers on the charter flight are tour conductors, whose seats are paid for by the charter participants, but these conductors may be carried only when ground arrangements are required as part of the TGC package. The number of tour conductors must be specified in the contract and may not exceed one for each 40 participants.

If not all . . .  
Once this . . .

14. *Effective dates of these amendments.* The foregoing amendments shall become effective upon adoption, except that: (a) The amendment requiring that the price and other terms set forth in a TGC option or in a proposed charter contract filed under § 372a.22(a) shall be consistent with the direct air carrier's applicable tariff in effect at the time of such filing, shall become effective April 9, 1973; and (b) to the extent that any option, contract, or other document, in connection with a pending TGC program (as hereinbelow defined) has been or will be prepared in conformity with the existing text of Part 372a, it may be executed or otherwise continue to be used in connection with such pending TGC program and need not be revised so as to conform with the text of Part 372a as amended hereby. A TGC program shall be regarded as pending, for the purposes hereof, if the preliminary filings in connection therewith, under § 372a.22(a) have been made before, or are submitted to the Board for such filing on or before April 9, 1973.

(Secs. 101(3), 204(a), 401, 402, 407, 416(a) and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766, 771, and 789; 49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386, and 1461)

By the Civil Aeronautics Board.  
[SEAL] HARRY J. ZINK,  
Secretary.

CHAPTER V—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION  
PART 1204—ADMINISTRATIVE AUTHORITY AND POLICY

## Use of the Wallops Station Airstrip by Aircraft Not Operated for Federal Government

Section 1204.1403(c) is revised in its entirety as follows:

## § 1204.1403 Available airport facilities.

(c) *Control tower.* The control tower is manned from 0730-1730 local time, Monday through Friday only, legal holidays excluded. When the tower is manned and in operation, the FAA regulations pertaining to the operation at airports with operating control towers (§ 91.87 of this title) will apply. The tower may be contacted on 394.3 MHz or 126.5 MHz. At all times when the tower is not manned, the Wallops Advisory Service (a 24-hour security service) may be contacted on the same frequencies for essential information. However, during such times the FAA rules pertaining to the operation at airports without control towers (§ 91.89 of this title) will apply.

Section 1204.1406(a) is revised in its entirety as follows:

### § 1204.1406 Procedures in the event of a declared in-flight emergency.

(a) Any aircraft involved in a declared in-flight emergency that endangers the safety of its passengers and aircraft may land at Wallops Station Airstrip. In such situations, the requirements of this Subpart 14 for advance authorizations, etc., need not be followed. However, should time and circumstances permit, the pilot should contact the Wallops Station Airstrip control tower or the Wallops Advisory Service on 394.3 MHz or 126.5 MHz before attempting to land.

ROBERT L. KRIEGER,  
Director, Wallops Station, National Aeronautics and Space Administration.

[FR Doc 73-4560 Filed 3-8-73; 8:45 am]

### Title 16—Commercial Practices CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 8869 o]

### PART 13—PROHIBITED TRADE PRACTICES

Spiegel, Inc.

Correction

In FR Doc. 73-3414 appearing at page 4944 in the issue of Friday, February 23, 1973, the Docket Number should appear as set forth above.

### PART 600—STATEMENTS OF GENERAL POLICY OR INTERPRETATIONS

Civil Service Commission

Correction

In FR Doc. 73-3497 appearing at page 4945 in the issue of Friday, February 23, 1973, the following changes should be made in § 600.6 Civil Service Commission:

1. The material in the third column of page 4947, now designated as paragraphs (b), (c), and (d), should be designated as paragraphs (c), (d), and (e).
2. In the paragraph redesignated (d), in the 14th line the word "unlikely" should read "unlikely".

### Title 18—Conservation of Power and Water Resources

### CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. R-469; Order 467-B]

### PART 2—GENERAL POLICY AND INTERPRETATION

### Order Modifying Statement of Policy, and Denying Motions for Reconsideration

MARCH 2, 1973.

On January 8, 1973, the Commission issued Order No. 467 in Docket No. R-469, statement of policy, adding § 2.78(a) to the Commission's rules of practice and procedure, as subsequently amended by Order No. 467-A, January 15, 1973. Numerous applications or petitions for rehearing, reconsideration, modification

138 FR 1504, 3171 (Jan. 15, 22, 1973).

or clarification of Orders Nos. 467 and 467-A have been filed. Those filing will be termed "applicants".

In Order No. 467 the Commission issued a policy statement setting forth initial priorities to be followed by jurisdictional pipeline companies during periods of curtailed deliveries. The priorities are based on end use of the gas whether by direct purchase from the pipeline or by indirect purchase through a distributing company. Order No. 467 stated:

When applied in specific cases, opportunity will be afforded interested parties to challenge or support this policy through factual or legal presentation as may be appropriate in the circumstances presented.

And the statement of policy further provided that exceptions to the prescribed priority system would be permitted upon a finding of extraordinary circumstances after hearing initiated by a petition filed under § 1.7(b) of the Commission's rules of practice and procedure. Order No. 467-A provided that pipeline companies include provisions in their tariffs permitting them to respond to emergency situations.

The Applicants have made extensive arguments, both procedural and substantive. In a few cases the Applicants requested permission to intervene, and there was one separate Petition for Leave to Intervene (Rochester Gas & Electric Corp.). As discussed below, Order No. 467 is a policy statement and is not intended to initiate a proceeding or to provide a binding rule without further proceedings directed towards curtailment problems on specific pipelines. Therefore petitions to intervene are unnecessary, and petitions for rehearing do not lie. We treat the filings as petitions for reconsideration, and deny the same.

### REASONS FOR ISSUANCE OF ORDERS 467 AND 467-A

Since the promulgation of Order 431, 45 FPC 570 (1971), the need for Commission guidance in curtailment planning has become apparent. The curtailment plans proposed by those pipelines which have filed pursuant to Order 431 reflect sharp differences in curtailment philosophy (e.g., curtailment based on end use versus curtailment based on pro rata reduction of contract entitlements) and curtailment implementation. As a consequence, the hearing records brought before us lack uniformity in the quantum of evidence relating to consumer impact and end use allocation patterns. The articulation and implementation of allocation policies on a uniform national basis are thereby constrained.

Of equal significance, because of the absence of general curtailment guidelines, we have been confronted with emergency situations where emergency action was necessary to prescribe curtailment plans. See Opinion 634 and 634-A, El Paso Natural Gas Co., 48 FPC -----, and order dated December 20, 1972, Mississippi River Transmission Co. In

situations where the need to curtail arises suddenly and without anticipation, and where no curtailment plan has been approved, as was true for El Paso and Mississippi River Transmission, the pipeline is placed in the difficult position of undertaking service cutbacks at the risk of civil liability to direct and indirect customers if the curtailments are not required by Commission order, or if the pattern of curtailment is later adjudicated to be unjust or unreasonable. See International Paper Co. v. FPC, CA5, No. 71-3531, slip opinion issued February 7, 1973. Similarly, in such situations, pipeline customers and those dependent on pipeline service have no clear basis for conducting their operations.

Finally, our experience with curtailment litigation persuaded us that long-range advance planning by pipelines, distributors, and consumers has been rendered most difficult by the absence of a statement by the Commission of its general policy in curtailment cases.

Because of these considerations, we issued, as a policy statement, Orders 467 and 467-A. We recognized that some flexibility is essential as curtailments first occur, in order to ameliorate the economic dislocations which necessarily ensue, and for that reason we made clear in Order 467 that the policy therein stated could, and would, be adjusted in appropriate cases where the hearing record so required.

### PROCEDURAL AND JURISDICTIONAL ARGUMENTS

A. Nature of Order No. 467 and Conformity to the Administrative Procedure Act. It is argued by a number of applicants that Order No. 467, despite its designation as a "Statement of Policy", is really rule making and section 553 of the Administrative Procedure Act requires notice, an opportunity to submit views and to participate. In some cases it is further argued that the action taken by the Commission is actually adjudication rather than rule making in that it abrogates or nullifies existing curtailment priorities in contracts and tariffs. On the other hand, Reynolds Metals Co. interprets Order No. 467 as not imputing to any pending curtailment case any controlling substantive effects; it asks that Order No. 467 be clarified to state that in each case the opportunity for evidentiary hearings will be afforded. Alabama Gas Corp. asks for clarification as to whether Order No. 467 is a flexible guideline against which curtailment would be judged.

Order No. 467 is designated "Statement of Policy." It specifically states that "When applied in specific cases, opportunity will be afforded interested parties to challenge or support this policy through factual or legal presentation . . .". It therefore falls within the exception for "general statements of policy" within section 553 of the APA. Our use of Orders 467 and 467-A as policy guidelines is exemplified in Texas Eastern Transmission Corp., et al., dockets Nos. RP71-130 et al., issued January 29,

1973, requiring Algonquin to show cause why it should not file an amendment to its tariff "to conform with Order 467-A".

Orders in Docket R-469 are not finally determinative of the rights and duties of a given pipeline, its customers or ultimate consumers; it expressly envisions further proceedings. As a statement of policy, it is excepted by section 553 from the requirements of the notice and hearing provisions of the Administrative Procedure Act, and, of course, it is not an adjudication within the meaning of that Act.

B. Effect on Future Tariff Filings. In orders in Docket R-469, we have set forth the form of curtailment plan preferred by the Commission. We have not attempted to impose this plan on all pipelines and their customers, nor have we attempted to delineate all details which should be embodied in proposed tariff changes which propose a curtailment plan. At this time, there is still a need for more flexibility than would be possible were we to insist upon one specific form for all curtailment tariffs.

Accordingly, those pipelines which do not yet have a curtailment plan approved by final order of the Commission are still free to file tariff changes under section 4 in whatever form they choose. Tariffs not in accord with the policies expressed in orders in Docket R-469 will be subject to suspension and hearing, and any curtailments made under nonconforming tariff sheets which have not received Commission approval may be found to be unjust and unreasonable, or preferential or discriminatory, dependent upon the facts proved in an evidentiary hearing. Proposed tariff sheets which conform to the policies expressed in orders in Docket R-469 will be accepted for filing, and permitted to become effective, subject to the rights of intervenors to hearing and adjudication of any claim of preference, discrimination, unjustness or unreasonableness of the provisions contained in the proposed tariff sheets, and subject to the further right of any one adversely affected to seek individualized special relief because of extraordinary circumstances. While our present intention is not to suspend tariff sheets which conform to the policies in orders in Docket R-469, we do not foreclose our discretionary powers to suspend such tariff sheets under section 4(e) under appropriate circumstances.

C. Effect on Pending Cases. Orders in Docket R-469 are not self-operative in pending cases. Initial decisions, and Commission decisions, will be reached on the record made, applying orders in Docket R-469 policies except where deviation therefrom is required by the evidence. Where insufficient end use data are not available, we will continue to make appropriate provision for the collection of such data. See, e.g., Opinion No. 634, El Paso Natural Gas Co., Opinion No. 643, Arkansas-Louisiana Gas Co.; Opinion No. 647, United Gas Pipe Line Co.

Many Applicants, particularly those representing California, argue that a

general rule is inappropriate and that each pipeline system should be treated on an individual basis. With one extremely important exception, we are in general agreement with this thesis, at least at this time in the development of curtailment policies and practices. The one area where we believe uniformity to be essential is with respect to whether contract entitlements should form the basis for curtailment, or whether curtailment should be based on end use factors. As a matter of policy, we have determined that end use must be controlling. Our reasons for so concluding are articulated in Opinion 643, Arkla, supra, and Opinion 647, United Gas, supra.

As a statement of policy, orders in Docket R-469 will serve as a guide in other proceedings, specifically those arising under Order No. 431. By these orders, the parties are on notice that we consider the type of curtailment plan set forth in the Orders to be just and reasonable, nondiscriminatory and nonpreferential. This does not mean that the parties may not propose or the Commission may not adopt variations on the § 2.78 (a) plan, but there must be evidence in the record to support any such variations. Nor does it mean that adversely affected pipeline customers may not claim a right to special relief from the operation of a § 2.78(a) plan, but in such instances there must be evidence to support any such claim. In this way, § 2.78 (a) will assist the parties and the Administrative Law Judge in arriving at a curtailment plan which will meet the problems created by diverse needs for gas in the face of a nationwide gas shortage and at the same time be adapted to the peculiarities, if any, of the particular pipeline system involved.

D. Control of End Use. It is argued that in a curtailment proceeding under sections 4 and 5 of the Act, the FPC cannot control end use. The Applicants cite "Fuels Research Council v. FPC", 374 F.2d 842 (CA 7, 1967), where it was argued that the Commission should have designed rates to discourage use of gas in power plants, and the Court held the Commission had no such authority. Furthermore, in the "Hope" case, the Court said that it failed to find in the power to fix just and reasonable rates the power to fix rates which will disallow or discourage resales for industrial use.

The courts in those cases were not faced with a nationwide gas shortage, and rates were involved, not allocations or curtailments. "FPC v. Louisiana Power & Light Co.", 406 U.S. 621 (1972) confirms the Commission's broad powers to devise effective means of meeting its responsibilities. These include section 16, providing that the Commission "shall have power to perform any and all acts necessary or appropriate to carry out the provisions" of the Gas Act, and sections 4 and 5 dealing with rates, service, and contracts. Section 4 prohibits any "un-

1 F.P.C. v. Hope Natural Gas Co., 320 U.S. 591, 616 (1944).

due preference or advantage" or any "unreasonable difference" in service, and section 5 grants the Commission the power to determine "the just and reasonable . . . classification, rule, regulation, practice, or contract to be observed." The Gas Act says (section 1) "that the business of transporting and selling natural gas for ultimate distribution to the public is affected with a public interest." It is our conclusion that we have ample authority to require that curtailment plans be based on the end use of gas by the direct customers of the pipeline or the customers of the distributing companies.

E. Requested Clarifications and Modifications. Many applicants seek clarification of Order 467 by Commission definition of all terms used, or modification of the substance of Order 467 by a re-ordering of priorities. These applicants err in treating Orders 467 and 467-A as a rule of substance, which precisely defines the curtailment rights and obligations of all pipelines and all pipeline customers. We ascribe no such effect to Orders 467 and 467-A, for, as already stated, these orders are intended only to state initial guidelines as a means of facilitating curtailment planning and the adjudication of curtailment cases.

On the same date Order 467 was issued, we noticed a proposed policy statement in Docket No. R-467, 38 FR 1504. We therein seek comments on stated priorities of service, which priorities the Commission would implement " . . . in all matters arising under the Natural Gas Act." It is not mere coincidence that the priority system noticed in Docket No. R-467 is the same as that set forth in Order No. 467. The comment time has not expired in Docket No. R-467, and we will give due consideration to all comments therein received.

We find it appropriate, however, to modify § 2.78(a) of our regulations in one respect, in order to clarify our intent that while end usage of natural gas is controlling in curtailment situations, for the present the immediate impact of curtailment on small volume interruptible users should be lessened, and, for the present, the alternate fuel capabilities of interruptible users should be considered. As already noted, we will, after receipt and consideration of comments in Docket No. R-467, issue such definitions and clarifications of the terms used in determining priorities of service as may be necessary and desirable. One such area of concern will be a useful and workable demarcation between "interruptible" and "firm" service, bearing in mind that these terms are susceptible of differing interpretations. Pending resolution of this matter on the basis of a full record, we modify § 2.78(a) of our regulations in the particulars hereinafter stated.

The Commission finds:

(1) The notice and effective date provisions of 5 U.S.C. 553 do not apply with respect to the amendment to the policy statement here adopted.

(2) It is appropriate and in the public interest in administering the Natural

Gas Act to adopt the amendment to the policy statement herein ordered.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 4, 5, 7, and 16 (52 Stat. 822, 824, 825; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f, orders:

(A) Part 2 of the Commission's General Rules of Practice and Procedure, General Policy and Interpretations, Subchapter A, Chapter I, Title 18 of the Code of Federal Regulations is amended by adding a new subparagraph at the end of § 2.78(a) and, as amended, it will read as follows:

§ 2.78 Utilization and conservation of natural resources—natural gas.

(a) The national interests in the development and utilization of natural gas resources throughout the United States will be served by recognition and implementation of the following priority-of-service categories for use during periods of curtailed deliveries by jurisdictional pipeline companies:

(1) Residential, small commercial (less than 50 Mcf on a peak day).

(2) Large commercial requirements (50 Mcf or more on a peak day), firm industrial requirements for plant protection, feedstock and process needs, and pipeline customer storage injection requirements.

(3) All industrial requirements not specified in paragraph (a) (2), (4), (5), (6), (7), (8), or (9) of this section.

(4) Firm industrial requirements for boiler fuel use at less than 3,000 Mcf per day, but more than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(5) Firm industrial requirements for large volume (3,000 Mcf or more per day) boiler fuel use where alternate fuel capabilities can meet such requirements.

(6) Interruptible requirements of more than 300 Mcf per day, but less than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(7) Interruptible requirements of intermediate volumes (from 1,500 Mcf per day through 3,000 Mcf per day), where alternate fuel capabilities can meet such requirements.

(8) Interruptible requirements of more than 3,000 Mcf per day, but less than 10,000 Mcf per day, where alternate fuel capabilities can meet such requirements.

(9) Interruptible requirements of more than 10,000 Mcf per day, where alternate fuel capabilities can meet such requirements.

The priorities-of-deliveries set forth above will be applied to the deliveries of all jurisdictional pipeline companies during periods of curtailment on each company's system; except, however, that, upon a finding of extraordinary circumstances after hearing initiated by a petition filed under § 1.7(b) of the Commission's rules of practice and procedure, exceptions to those priorities may be permitted.

The above list of priorities requires the

full curtailment of the lower priority category volumes to be accomplished before curtailment of any higher priority volumes is commenced. Additionally, the above list requires both the direct and indirect customers of the pipeline that use gas for similar purposes to be placed in the same category of priority.

The tariffs filed with this Commission should contain provisions that will reflect sufficient flexibility to permit pipeline companies to respond to emergency situations (including environmental emergencies) during periods of curtailment where supplemental deliveries are required to forestall irreparable injury to life or property.

(B) The amendment provided for herein shall be effective as of March 2, 1973.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4565 Filed 3-8-73; 8:45 am]

#### CHAPTER VIII—SUSQUEHANNA RIVER BASIN COMMISSION

##### PART 801—GENERAL POLICIES

###### Correction

In FR Doc. 73-3155 appearing at page 4662 of the issue for Tuesday, February 20, 1973, the following changes should be made in § 801.7: Paragraph (d) should be deleted and paragraph (e), should be redesignated as paragraph (d).

#### Title 19—Customs Duties

##### CHAPTER I—BUREAU OF CUSTOMS, DEPARTMENT OF THE TREASURY

###### [T.D. 73-55]

##### PART 1—GENERAL PROVISIONS

###### Designation of New Port of Entry

###### Correction

In FR Doc. 73-3037 appearing at page 4507 in the issue for Thursday, February 15, 1973, the following should be inserted in the second line of the third paragraph, immediately before the word "Department": "all that area in the State of Nevada as laid out by the United States".

#### Title 20—Employees' Benefits

##### CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

###### [Reg. 5, further amended]

##### PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED (1965.....)

###### Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-Based Physicians; Appeals by Provider

###### Subpart F—Agreements, Elections, Contracts, Nominations, and Notices

###### PROVIDER RECORDKEEPING CAPABILITY

On April 29, 1972, there was published in the FEDERAL REGISTER (37 FR 8677) a

notice of proposed rule making with proposed amendments to Subparts D and F of Regulation No. 5 of the Social Security Administration. The proposed amendments provide that (1) an intermediary shall determine whether a newly certified provider has adequate record-keeping capability sufficient for determining the cost of services furnished program beneficiaries before making payment to such provider; (2) an intermediary shall suspend Medicare payments at any time it ascertains that a provider's records are no longer adequate; and (3) the Secretary shall not enter into an agreement for participation in the Medicare program with an organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law or with respect to which a court proceeding to make such a judgment is pending.

All comments submitted, with respect to the proposed amendments, were given due consideration. The following changes were made as a result of comments received:

1. A new paragraph (e) was added to § 405.406 requiring an intermediary, before suspending payments to a provider, to send written notice to the provider in accordance with § 405.371(a) notifying the provider that its recordkeeping capability is inadequate to determine the reasonable cost of services rendered to Medicare beneficiaries and identifying the specific recordkeeping deficiencies which are to be corrected before payment can be made. The provider will be given the opportunity in accordance with § 405.371(a) to submit a statement (including any pertinent evidence) as to why program payments should not be withheld or suspended.

2. Comment was also made on the costs that would be incurred by the intermediary in receiving, processing and monitoring copies of patient service charge schedules and changes thereto, as required by proposed § 405.406(d) (3). This subparagraph was revised to require the provider to furnish its charge schedules, along with any subsequent revisions, only when so requested by the intermediary. The change will virtually eliminate the administrative costs involved in continually monitoring provider charge schedules, but will permit the intermediary to acquire charge data when necessary to determine program payments.

3. Comments were received as to the various interpretations that could be given to the words "insolvent" and "insolvency" as used in § 405.454(k). This paragraph was rephrased to clarify their intent.

Accordingly, with these changes, the proposed amendments as set forth below are adopted.

(Secs. 1102, 1814(b), 1815, 1833(a), 1861(v), 1871, 49 Stat. 647, as amended, 79 Stat. 296-297, 79 Stat. 302, 79 Stat. 322, 79 Stat. 331; 42 U.S.C. 1302, 1395 et seq.)

Effective date. These amendments shall be effective on March 9, 1973.

Dated: January 22, 1973.

ROBERT M. BALL,  
Commissioner of Social Security.

Approved: March 1, 1973.

CASPER W. WEINBERGER,  
Secretary of Health, Education,  
and Welfare.

1. Section 405.406 is amended by revising paragraph (a) and adding new paragraphs (c), (d), and (e) to read as follows:

###### § 405.406 Financial data and reports.

(a) General. The principles of cost reimbursement will require that providers maintain sufficient financial records and statistical data for proper determination of costs payable under the program. Standardized definitions, accounting, statistics, and reporting practices which are widely accepted in the hospital and related fields are followed. Changes in these practices and systems will not be required in order to determine costs payable under the principles of reimbursement. Essentially the methods of determining costs payable under title XVIII involve making use of data available from the institution's basic accounts, as usually maintained, to arrive at equitable and proper payment for services to beneficiaries.

(c) Recordkeeping requirements for new providers. A newly participating provider of services (as defined in § 405.605) shall make available to its selected intermediary for examination its fiscal and other records for the purpose of determining such provider's ongoing recordkeeping capability and inform the intermediary of the date its initial health insurance cost reporting period will end. This examination is intended to assure that (1) the provider has an adequate ongoing system for furnishing the records needed to provide accurate cost data and other information capable of verification by qualified auditors and adequate for cost reporting purposes under section 1815 of the Act, and (2) that no financial arrangements exist that will thwart the commitment of the health insurance program to reimburse providers the reasonable cost of services furnished beneficiaries. The data and information to be examined includes cost, revenue, statistical, and other information pertinent to reimbursement including, but not limited to, that described in paragraph (d) of this section and § 405.453.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

3. Subpart F of Part 405 is amended by adding thereto a new § 405.603 to read as follows:

###### § 405.603 Acceptance of agreement by Secretary; bankruptcy and insolvency.

(a) General. An agreement to participate as a provider under the program will not be accepted by the Secretary from an organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law or with respect to which a court proceeding to make such a judgment is pending under such law.

(b) Application. Prior to the Secretary's acceptance of an agreement from an applicant organization, an owner or officer (if a corporation) must furnish a statement in writing indicating whether or not such organization has been adjudged insolvent or bankrupt in any State or Federal court or a court proceeding to make such a judgment is pending. An organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law, or with respect to which a court proceeding to make such a judgment is pending under such law, is excluded from participation because such organization (as distinguished from the court having jurisdiction over the bankruptcy or insolvency proceeding) would be unable to give satisfactory assurances of compliance with the requirements of title XVIII of the Act. However, if a provider participating and receiving payments under the health insurance program subsequently is adjudged insolvent or bankrupt by a court of competent jurisdiction, such financial condition itself would not terminate the provider's participation in the program.

(c) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal, medical, and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider, when requested, shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment.

(e) Suspension of program payments to a provider. When an intermediary determines that a provider does not maintain or no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained. Before suspending payments to a provider, the intermediary shall, in accordance with the provisions of § 405.317(a), send written notice to such provider of its intent to suspend payments. The notice shall, explain the basis for the intermediary's determination and shall identify the provider's recordkeeping deficiencies. The provider will be given the opportunity, in accordance with § 405.371(a), to submit a statement (including any pertinent evidence) as to why the suspension should not be put into effect.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

###### § 405.454 Payment to providers.

(k) Bankruptcy or insolvency of provider. If, on the basis of reliable evidence, the intermediary has a valid basis for believing that, with respect to a provider, proceedings have been or will shortly be instituted in a State or Federal court for purposes of determining whether such provider is insolvent or bankrupt under an appropriate State or Federal law, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

(d) Continuing provider recordkeeping requirements. (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b) (2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

**Title 28—Judicial Administration**  
**CHAPTER I—DEPARTMENT OF JUSTICE**  
**PART 42—NONDISCRIMINATION: EQUAL**  
**OPPORTUNITY: POLICIES AND PROCE-**  
**DURES**

**Subpart E—Equal Employment**  
**Opportunity Guidelines**

By virtue of the authority vested in it by 5 U.S.C. 301, and Section 501 of the Omnibus Crime Control and Safe Streets Act of 1968, Public Law 90-351, 82 Stat. 197, as amended, the Law Enforcement Assistance Administration hereby issues Title 28, Chapter I, Subpart E of Part 42 of the Code of Federal Regulations. In that the material contained herein is a matter relating to the grant program of the Law Enforcement Assistance Administration, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rule making, opportunity for public participation, and delay in effective date are inapplicable.

In accordance with the spirit of the public policy set forth in 5 U.S.C. 553, interested persons may submit written comments, suggestions, data or arguments to the Administrator, Law Enforcement Assistance Administration, U.S. Department of Justice, Washington, D.C. 20530. Attention: Office of Civil Rights Compliance within 45 days of the publication of the guidelines contained in this part. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. Until such time as further changes are made, however, Part 42, Subpart E as set forth herein shall remain in effect, thus permitting the public business to proceed more expeditiously.

**Subpart E—Equal Employment Opportunity**  
**Guidelines**

Sec.	
42.301	Purpose.
42.302	Application.
42.303	Evaluation of employment opportunities.
42.304	Written Equal Employment Opportunity Program.
42.305	Recordkeeping and certification.
42.306	Guidelines.
42.307	Obligations of recipients.
42.308	Noncompliance.

**AUTHORITY:** 5 U.S.C., sec. 501 of the Omnibus Crime Control and Safe Streets Act of 1968, Public Law 90-351, 82 Stat. 197, as amended.

**Subpart E—Equal Employment**  
**Opportunity Guidelines**

**§ 42.301 Purpose.**

(a) The experience of the Law Enforcement Assistance Administration in implementing its responsibilities under the Omnibus Crime Control and Safe Streets Act of 1968, as amended (Public Law 90-351, 82 Stat. 197; Public Law 91-644, 84 Stat. 1881), has demonstrated that the full and equal participation of women and minority individuals in employment opportunities in the criminal justice system is a necessary component to the Safe Streets Act's program to reduce crime and delinquency in the United States.

(b) Pursuant to the authority of the Safe Streets Act and the equal employment opportunity regulations of the Department of Justice relating to LEAA assisted programs and activities (28 CFR 42.201, et seq., Subpart D of this part), the following Equal Employment Opportunity Guidelines are established.

**§ 42.302 Application.**

(a) As used in these guidelines "Recipient" means any State, political subdivision of any State, combination of such States or subdivisions, or any department, agency, or instrumentality of any of the foregoing receiving Federal financial assistance from LEAA, directly or through another recipient, or with respect to whom an assurance of civil rights compliance given as a condition of the earlier receipt of assistance is still in effect.

(b) Each recipient of LEAA assistance within the criminal justice system which has 50 or more employees and which has received grants or subgrants of \$25,000 or more pursuant to and since the enactment of the Safe Streets Act of 1968, as amended, and which is located in a geographic area where the available minority work force is 3 percent or more of the total work force, is required to formulate, implement, and maintain an Equal Employment Opportunity Program relating to employment practices affecting minority persons and women within 120 days after the promulgation of these guidelines, or the initial application for assistance is approved, whichever is sooner. For a definition of "employment practices" within the meaning of this paragraph, see § 42.202(b).

(c) "Minority persons" shall include persons who are Negro, Oriental, American-Indian, or Spanish-surnamed Americans. "Spanish-surnamed Americans" means those of Latin American, Cuban, Mexican, Puerto Rican, or Spanish origin. In Alaska, Eskimos and Aleuts should be included as "American Indians."

(d) For the purpose of these guidelines, the relevant "geographic area" will be considered to be the State for State agencies, institutions, and facilities; the Standard Metropolitan Statistical Area, as that area is defined by the U.S. Bureau of Census for those county and municipal agencies, institutions, and facilities within a Standard Metropolitan Statistical Area; and the county for county and municipal agencies, institutions, and facilities not located in a Standard Metropolitan Statistical Area.

(e) "Fiscal year" means the 12 calendar months beginning July 1, and ending June 30, of the following calendar year. A fiscal year is designated by the calendar year in which it ends.

**§ 42.303 Evaluation of employment opportunities.**

(a) A necessary prerequisite to the development and implementation of a satisfactory Equal Employment Opportunity Program is the identification and analysis of any problem areas inherent in the utilization or participation of minorities and women in all of the recipient's employment phases (e.g., recruitment, selection, and promotion) and the evaluation of employment opportunities for minorities and women.

(b) In many cases an effective Equal Employment Opportunity Program may only be accomplished where the program is coordinated by the recipient agency with the cognizant Civil Service Commission or similar agency responsible by law, in whole or in part, for the recruitment and selection of entrance candidates and selection of candidates for promotion.

(c) In making the evaluation of employment opportunities, the recipient shall conduct such analysis separately for minorities and women. The evaluation should include, but not necessarily be limited to, the following factors:

(1) An analysis of present representation of women and minority persons in all job categories;

(2) An analysis of all recruitment and employment selection procedures for the preceding fiscal year, including such things as position descriptions, application forms, recruitment methods and sources, interview procedures, test administration and test validity, educational prerequisites, referral procedures and final selection methods, to insure that equal employment opportunity is being afforded in all job categories;

(3) An analysis of seniority practices and provisions, upgrading and promotion procedures, transfer procedures (lateral or vertical), and formal and informal training programs during the preceding fiscal year, in order to insure that equal employment opportunity is being afforded;

(4) A reasonable assessment to determine whether minority employment is inhibited by external factors such as the lack of access to suitable housing in the geographical area served by a certain facility or the lack of suitable transportation (public or private) to the workplace.

**§ 42.304 Written Equal Employment Opportunity Program.**

Each recipient's Equal Employment Opportunity Program shall be in writing and shall include:

(a) A job classification table or chart which clearly indicates for each job classification or assignment the number of employees within each respective job category classified by race, sex, and national origin (include for example Spanish-surnamed, Oriental, and American Indian). Also, principal duties and rates of pay should be clearly indicated for each job classification. Where auxiliary duties are assigned or more than one rate of pay applies because of length of time in the job or other factors, a special notation should be made. Where the recipient operates more than one shift or assigns employees within each shift to varying locations, as in law enforcement agencies, the number by race, sex, and national origin on each shift and in each location should be identified. When relevant, the location assignments should characterize the racial/ethnic mix of the

recipient's employment phases (e.g., recruitment, selection, and promotion) and the evaluation of employment opportunities for minorities and women.

(b) The number of disciplinary actions taken against employees by race, sex, and national origin within the preceding fiscal year, the number and types of sanctions imposed (suspension indefinitely, suspension for a term, loss of pay, written reprimand, oral reprimand, other) against individuals by race, sex, and national origin.

(c) The number of individuals by race, sex, and national origin (if available) applying for employment within the preceding fiscal year and the number by race, sex, and national origin (if available) of those applicants who were offered employment and those who were actually hired. If such data is unavailable, the recipient should institute a system for the collection of such data.

(d) The number of employees in each job category by race, sex, and national origin who made application for promotion or transfer within the preceding fiscal year and the number in each job category by race, sex, and national origin who were promoted or transferred.

(e) The number of employees by race, sex, and national origin who were terminated within the preceding fiscal year identifying by race, sex, and national origin which were voluntary and involuntary terminations.

(f) Available community and area labor characteristics within the relevant geographical area including total population, workforce, and existing unemployment by race, sex, and national origin. Such data may be obtained from the Bureau of Labor Statistics, Washington, D.C., State and local employment services, or other reliable sources. Recipients should identify the sources of the data used.

(g) A detailed narrative statement setting forth the recipient's existing employment policies and practices as defined in § 42.202(b). Thus, for example, where testing is used in the employment selection process, it is not sufficient for the recipient to simply note the fact. The recipient should identify the test, describe the procedures followed in administering and scoring the test, state what weight is given to test scores, how a cut-off score is established and whether the test has been validated to predict job performance and, if so, a detailed description of the validation study. Similarly detailed responses are required with respect to other employment practices, procedures and practices used by the applicant.

(1) The statement should include the recipient's detailed analysis of existing employment policies, procedures and practices as they relate to minority employment (see § 42.303) and equal opportunities for women, and, where improvements are necessary, the statement should set forth in detail the specific steps the recipient will take for the achievement of full and equal employment opportunity. For example, The Equal Employment Opportunity Commission, in carrying out its responsibilities

in insuring compliance with title VII has published "Guidelines on Employee Selection Procedures" (29 CFR, 1607) which, among other things, proscribes the use of employee selection practices, procedures and devices (such as tests, minimum educational levels, oral interviews and the like) which have not been shown by the user thereof to be statistically related to job performance and where the use of such an unvalidated selection device tends to disqualify a disproportionate number of minority individuals or women for employment. The EEOC "Guidelines" set out appropriate procedures to assist in establishing and maintaining equal employment opportunities. Recipients of LEAA assistance using selection procedures which are not in conformity with the EEOC "Guidelines" shall set forth the specific areas of nonconformity, the reasons which may explain any such nonconformity, and, if necessary, the steps the recipient agency will take to correct any existing deficiency.

(2) The recipient should also set forth a program for recruitment of minority persons based on an informed judgment of what is necessary to attract minority applications including, but not necessarily limited to, dissemination of posters, use of advertising media patronized by minorities, minority group contracts and community relations programs. As appropriate, recipients may wish to refer to recruitment techniques suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.25(e).

(h) Plan for dissemination of the applicant's Equal Employment Opportunity Program to all personnel, applicants and the general public. As appropriate, recipients may wish to refer to the recommendations for dissemination of policy suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.21.

(i) Designation of specified personnel to implement and maintain adherence to the Equal Employment Opportunity Program and a description of their specific responsibilities. As appropriate, recipients may wish to refer to the responsibilities suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.22.

**§ 42.305 Recordkeeping and certification.**

The Equal Employment Opportunity Program and all records in its preparation shall be kept on file and retained by each recipient covered by these guidelines for subsequent audit or review by responsible personnel of the cognizant state planning agency or the LEAA. Applications to fund new or continuing programs under the Omnibus Crime Control and Safe Streets Act of 1968, shall be accompanied by a certificate stating that equal employment opportunity program is on file with the recipient. In the case of grants made at the discretion of LEAA in excess of \$100,000 in amount,

a copy of the certification required by this paragraph shall be mailed to the LEAA office in Washington, D.C., charged with responsibility for enforcement of civil rights compliance obligations of LEAA recipients. The form of the certification shall be as follows:

I, \_\_\_\_\_ (person filing the application) certify that the \_\_\_\_\_ (criminal justice agency) has formulated an equal employment opportunity program in accordance with 28 CFR 42.301, et seq., Subpart E, and that it is on file in the Office of \_\_\_\_\_ (name), \_\_\_\_\_ (address), \_\_\_\_\_ (title), for review or audit by officials of the cognizant state planning agency or the Law Enforcement Assistance Administration, as required by relevant laws and regulations.

The criminal justice agency created by the Governor to implement the Safe Streets Act within each State shall certify that it requires, as a condition of the receipt of block grant funds, that recipients from it have executed an Equal Employment Opportunity Program in accordance with this subpart, or that, in conformity with the terms and conditions of this regulation no equal employment opportunity programs are required to be filed by that jurisdiction.

**§ 42.306 Guidelines.**

(a) Recipient agencies are expected to conduct a continuing program of self-evaluation to ascertain whether any of their recruitment, employee selection or promotional policies (or lack thereof) directly or indirectly have the effect of denying equal employment opportunities to minority individuals and women.

(b) Postaward compliance reviews of recipient agencies will be scheduled by LEAA, giving priority to any recipient agencies which have a significant disparity between the percentage of minority persons in the relevant population workforce and the percentage of minority employees in the agency. Equal employment program modification may be suggested by LEAA whenever identifiable referral or selection procedures and policies suggest to LEAA the appropriateness of improved selection procedures and policies. Accordingly, any recipient agencies falling within this category are encouraged to develop recruitment, hiring or promotional guidelines under their equal employment opportunity program which will correct, in a timely manner, any identifiable employment impediments which may have contributed to the existing disparities.

(c) A significant disparity between minority workforce population in the relevant geographical area and the minority workforce of the agency may be deemed to exist if the percentage of a minority group in the employment of the agency is not at least seventy (70) percent of the percentage of that minority in the workforce population in the relevant geographical area.

**§ 42.307 Obligations of recipients.**

The obligation of those recipients subject to these guidelines for the maintenance of compliance with title VII has published "Guidelines on Employee Selection Procedures" (29 CFR, 1607) which, among other things, proscribes the use of employee selection practices, procedures and devices (such as tests, minimum educational levels, oral interviews and the like) which have not been shown by the user thereof to be statistically related to job performance and where the use of such an unvalidated selection device tends to disqualify a disproportionate number of minority individuals or women for employment. The EEOC "Guidelines" set out appropriate procedures to assist in establishing and maintaining equal employment opportunities. Recipients of LEAA assistance using selection procedures which are not in conformity with the EEOC "Guidelines" shall set forth the specific areas of nonconformity, the reasons which may explain any such nonconformity, and, if necessary, the steps the recipient agency will take to correct any existing deficiency.

(2) The recipient should also set forth a program for recruitment of minority persons based on an informed judgment of what is necessary to attract minority applications including, but not necessarily limited to, dissemination of posters, use of advertising media patronized by minorities, minority group contracts and community relations programs. As appropriate, recipients may wish to refer to recruitment techniques suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.25(e).

(h) Plan for dissemination of the applicant's Equal Employment Opportunity Program to all personnel, applicants and the general public. As appropriate, recipients may wish to refer to the recommendations for dissemination of policy suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.21.

(i) Designation of specified personnel to implement and maintain adherence to the Equal Employment Opportunity Program and a description of their specific responsibilities. As appropriate, recipients may wish to refer to the responsibilities suggested in Order No. 4 of the Office of Federal Contract Compliance, U.S. Department of Labor, found at 29 CFR 60-2.22.

**§ 42.305 Recordkeeping and certification.**

The Equal Employment Opportunity Program and all records in its preparation shall be kept on file and retained by each recipient covered by these guidelines for subsequent audit or review by responsible personnel of the cognizant state planning agency or the LEAA. Applications to fund new or continuing programs under the Omnibus Crime Control and Safe Streets Act of 1968, shall be accompanied by a certificate stating that equal employment opportunity program is on file with the recipient. In the case of grants made at the discretion of LEAA in excess of \$100,000 in amount,

a copy of the certification required by this paragraph shall be mailed to the LEAA office in Washington, D.C., charged with responsibility for enforcement of civil rights compliance obligations of LEAA recipients. The form of the certification shall be as follows:

I, \_\_\_\_\_ (person filing the application) certify that the \_\_\_\_\_ (criminal justice agency) has formulated an equal employment opportunity program in accordance with 28 CFR 42.301, et seq., Subpart E, and that it is on file in the Office of \_\_\_\_\_ (name), \_\_\_\_\_ (address), \_\_\_\_\_ (title), for review or audit by officials of the cognizant state planning agency or the Law Enforcement Assistance Administration, as required by relevant laws and regulations.

nance of an Equal Employment Opportunity Program shall continue for the period during which the LEAA assistance is extended. In the case of an application for Federal financial assistance to provide real property or structures thereon, or personal property or equipment of any kind, such assistance shall obligate the recipient for the period during which the property is used for a purpose for which the Federal financial assistance is extended.

#### § 42.308 Noncompliance.

Failure to implement and maintain an Equal Employment Opportunity Program as required by these guidelines shall subject recipients of LEAA assistance to the sanctions prescribed by the Safe Streets Act and the equal employment opportunity regulations of the Department of Justice. (See 42 U.S.C. 3757 and § 42.208.)

**Effective date.** This guideline shall become effective on March 9, 1973.

Dated: March 6, 1973.

JERRIS LEONARD,  
Administrator, Law Enforcement  
Assistance Administration.

Dated: March 5, 1973.

CLARENCE M. COSTER,  
Associate Administrator.

#### Title 32—National Defense CHAPTER XIV—THE RENEGOTIATION BOARD

#### PART 1460—PRINCIPLES AND FACTORS IN DETERMINING EXCESSIVE PROFITS

##### Contribution to the Defense Effort

The Renegotiation Board hereby adopts the proposed amendment to Part 1460 which was published on January 23, 1973 (38 FR 2219-2220), certain changes having been made therein. Said regulation, as adopted, reads as set forth below.

Dated: March 6, 1973.

RICHARD T. BURRESS,  
Chairman.

This Part 1460 is amended by deleting § 1460.13 *Contribution to the defense effort* in its entirety and inserting in lieu thereof the following:

§ 1460.13 Contribution to the defense effort.

(a) **Statutory provision.** Section 103 (e) of the act provides that in determining excessive profits there shall be taken into consideration the following factor:

(4) Nature and extent of contribution to the defense effort, including inventive and developmental contribution and cooperation with the Government and other contractors in supplying technical assistance.

(b) **Comment.** Every contractor contributes to the defense effort when he

performs or assists others to perform a defense contract or subcontract, or when, in connection with such a contract or subcontract, he otherwise renders a service of value to a defense program or objective. Credit will be given under this factor, in such degree as the facts may warrant, for (1) superior performance in excess of contract requirements, such as completion of urgent work ahead of schedule at the request of the procuring department, or exceeding specifications in a manner beneficial to the defense effort; (2) ingenuity in providing new uses for products or production machinery or equipment; (3) overcoming difficulties, which others have failed to overcome, in providing materials or services for the defense effort; (4) experimental and developmental work of high value to the defense effort; (5) new inventions, techniques, and processes of unusual merit; (6) performance under difficult environmental or geographical conditions or hazardous working conditions; (7) cooperation with the Government and with other contractors in contributing proprietary data or in developing and supplying technical assistance to alternative or competitive sources of supply; or (8) performance, assistance, or service considered otherwise exceptional.

(Sec. 109, 65 Stat. 22; 50 U.S.C.A.; App. sec. 1219)

#### Title 33—Navigation and Navigable Waters

#### CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72-178R]

#### PART 117—DRAWBRIDGE OPERATION REGULATIONS

##### Debbies Creek, Manasquan, N.J.

This amendment changes the regulations for the Monmouth County drawbridge across Debbies Creek at Brielle Road to permit closed periods from Memorial Day through Labor Day from 7 a.m. to 8 p.m. when the draw need open only on the hour and half hour if vessels are waiting to pass. This amendment was circulated as a public notice dated September 20, 1972, by the Commander, Third Coast Guard District and was published in the *Federal Register* as a notice of proposed rule making (CGD 72-178P) on September 14, 1972 (37 FR 18634). Twelve comments were received. Five favored the proposal and one had no objection. Six objections were received. Those opposing were concerned with safety of navigation, the increase in the number of vessels in the vicinity and the erosion of the free navigation of waterways by the imposition of restrictions of drawbridge operations. The Coast Guard has considered these objections and while they are valid, it is felt that the regulations, as proposed, are reasonable. This change will be closely monitored and if modifications of these regulations are indicated, action to accomplish this will be initiated.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new subparagraph (5) to paragraph (j) to § 117.215 to read as follows:

§ 117.215 Navigable streams flowing into Raritan Bay (except Raritan River and Arthur Kill), the Shrewsbury River and its tributaries, and all inlets on the Atlantic Ocean including their tributaries and canals between Sandy Hook and Bay Head, N.J.; bridges.

(j) . . . . .

(5) Debbies Creek, Manasquan, N.J. The draw shall open on signal except that from Memorial Day through Labor Day from 7 a.m. to 8 p.m. the draw need open only on the hour and half hour if any vessels are waiting to pass.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 40 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

**Effective date.** This revision shall become effective on April 15, 1973.

Dated: March 2, 1973.

W. M. BENKERT,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Environment and Systems.

#### Title 40—Protection of Environment

#### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

##### SUBCHAPTER B—GRANTS

#### PART 35—STATE AND LOCAL ASSISTANCE

#### Grants for Construction of Treatment Works

##### Correction

In FR Doc. 73-3756 appearing at page 5329 for the issue for Wednesday, February 28, 1973, the phrase in the second line of § 35.930-1(a) (4) now reading "920(c); or" should be deleted. The first word in § 35.935-6 now reading "General" should read "Generally".

#### Title 41—Public Contracts and Property Management

#### CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### PART 3-1—GENERAL

#### Debarred, Suspended, and Ineligible Bidders

Chapter 3, Title 41, Code of Federal Regulations, is hereby amended to take cognizance of (a) the revisions to Subpart 1-1.6, Chapter 1, Title 41, of the Code of Federal Regulations published in the *Federal Register*, November 2, 1972, Volume 37, No. 212, and (b) organizational changes within the Department.

It is the general policy of the Department of Health, Education, and Welfare, to allow time for interested parties to take part in the rule making process. However, since the amendment herein involves minor technical matters, the

public rule making process is deemed unnecessary in this instance.

(5 U.S.C. 301, 40 U.S.C. 486(c))

Subpart 3-1.6 is amended to read as follows:

#### Subpart 3-1.6—Debarred, Suspended, and Ineligible Bidders

Sec.  
3-1.600 Scope of subpart.

3-1.602 Establishment, maintenance and distribution of a list of concerns or individuals debarred, suspended, or declared ineligible (Debarred Bidders List).

3-1.602-1 Bases for entry on the HEW debarred, suspended, and ineligible list.

3-1.603 Treatment to be accorded firms or individuals in debarred, suspended, or ineligible status.

3-1.604 Causes and conditions applicable to determination of debarment.

3-1.604-1 Procedural requirements relating to the imposition of debarment.

3-1.605 Suspension of bidders.

3-1.605-1 Causes and conditions under which HEW may suspend contractors.

3-1.605-4 Notice of suspension.

AUTHORITY: 5 U.S.C. 301, 40 U.S.C. 486(c).

#### Subpart 3-1.6—Debarred, Suspended, and Ineligible Bidders

##### § 3-1.600 Scope of subpart.

(a)-(d) (Reserved)

(e) The Department Contract Compliance Officer directs that action prescribed by FPR 1-1.602-1(e) be taken.

§ 3-1.603 Treatment to be accorded firms or individuals in debarred, suspended, or ineligible status.

(a) **Total restrictions.** The Director, Office of Procurement and Materiel Management, OS-OASAM, makes the essential determinations required by FPR 1-1.603 (a) and (e).

§ 3-1.604 Causes and conditions applicable to determination of debarment.

Determination to debar or take other action concerning a firm or individual for a cause or condition for a specified period of time as provided in § 1-1.604 of this title shall be made by the Director, Office of Procurement and Materiel Management, OS-OASAM. Whenever cause for debarment becomes known to any contracting officer, he may submit recommendations for debarment to the Director, Office of Procurement and Materiel Management, OS-OASAM, through administrative channels. Such recommendations shall be accompanied by the documented file of the case.

§ 3-1.604-1 Procedural requirements relating to the imposition of debarment.

(a) **Initiation of debarment action.** The Director, Office of Procurement and Materiel Management, OS-OASAM, after consultation with the Office of General Counsel, shall determine whether the facts are sufficient to warrant debarment. If the decision is not to debar, he will notify the contracting officer recommending the action. If he decides to institute debarment proceedings, he shall

(b) Collectively, the following documents shall constitute the HEW Debarred Bidders List:

(1) Consolidated List of Current Administrative Debarments by Executive Agencies, and amendments thereto, compiled and published by the Office of Investigation—OA, General Services Administration (GSA). This publication is a combined list of debarred, suspended, and ineligible bidders, compiled from notifications furnished to GSA by executive agencies of the Federal Government.

(2) Consolidated List of Persons or Firms Currently Debarred for Violations of Various Public Contracts Acts Incorporating Labor Standards Provisions, and

amendments thereto, compiled by the Comptroller General of the United States.

(3) Consolidated List of Concerns and Individuals Debarred, Suspended, or Declared Ineligible by the Department of Health, Education, and Welfare to participate in its procurement program under one or more of the bases set forth in FPR 1-1.602-1 and in accordance with the regulations in this Subpart.

(4) Contract, Ineligible List of persons and firms declared ineligible by the Office of Federal Contract Compliance (OFCC) of the Department of Labor to participate in Government contracting or subcontracting by reason of noncompliance with the Equal Opportunity clause.

(c) The Director, Office of Procurement and Materiel Management, OS-OASAM, will effect direct distribution of the consolidated GSA, GAO, OFCC, and HEW lists among holders of the HEW Procurement Regulations in this Department.

§ 3-1.602-1 Bases for entry on the HEW debarred, suspended, and ineligible list.

The Director, Office of Procurement and Materiel Management, OS-OASAM, makes the administrative debarment determinations prescribed in FPR 1-1.602-1 (d), (f), and (g).

(a)-(d) (Reserved)

(e) The Department Contract Compliance Officer directs that action prescribed by FPR 1-1.602-1(e) be taken.

§ 3-1.603 Treatment to be accorded firms or individuals in debarred, suspended, or ineligible status.

(a) **Total restrictions.** The Director, Office of Procurement and Materiel Management, OS-OASAM, makes the essential determinations required by FPR 1-1.603 (a) and (e).

§ 3-1.604 Causes and conditions applicable to determination of debarment.

Determination to debar or take other action concerning a firm or individual for a cause or condition for a specified period of time as provided in § 1-1.604 of this title shall be made by the Director, Office of Procurement and Materiel Management, OS-OASAM. Whenever cause for debarment becomes known to any contracting officer, he may submit recommendations for debarment to the Director, Office of Procurement and Materiel Management, OS-OASAM, through administrative channels. Such recommendations shall be accompanied by the documented file of the case.

§ 3-1.604-1 Procedural requirements relating to the imposition of debarment.

(a) **Initiation of debarment action.** The Director, Office of Procurement and Materiel Management, OS-OASAM, after consultation with the Office of General Counsel, shall determine whether the facts are sufficient to warrant debarment. If the decision is not to debar, he will notify the contracting officer recommending the action. If he decides to institute debarment proceedings, he shall

(b) Collectively, the following documents shall constitute the HEW Debarred Bidders List:

(1) Consolidated List of Current Administrative Debarments by Executive Agencies, and amendments thereto, compiled and published by the Office of Investigation—OA, General Services Administration (GSA). This publication is a combined list of debarred, suspended, and ineligible bidders, compiled from notifications furnished to GSA by executive agencies of the Federal Government.

(2) Consolidated List of Persons or Firms Currently Debarred for Violations of Various Public Contracts Acts Incorporating Labor Standards Provisions, and

send a letter by certified mail (return receipt requested) to the firm or individual proposed for debarment. The letter shall (1) state that debarment is being considered, (2) set forth the reasons for the proposed debarment, and (3) state that such party will be accorded an opportunity for a hearing within 30 days from the date of receipt of such letter.

(b) **Hearings.** Hearings requested in connection with debarment proceedings shall be conducted before the Director, Office of Procurement and Materiel Management, OS-OASAM, or his designee. An opportunity shall be afforded to the firm or individual to appear with witnesses and counsel to present facts or circumstances showing cause why such firm or individual should not be debarred. If the firm or individual elects not to appear, the reviewing authority will make its decision based on the facts on record and such additional evidence as may be furnished by the parties involved. After consideration of the facts, the reviewing authority shall notify the firm or individual of the final decision.

§ 3-1.605 Suspension of bidders.

§ 3-1.605-1 Causes and conditions under which HEW may suspend contractors.

Any contracting officer may recommend suspension of bidders for the causes and conditions set forth in FPR 1-1.605-1. These recommendations shall be accompanied by the documented file of the case and be submitted through administrative channels to the Director, Office of Procurement and Materiel Management, OS-OASAM, for a determination of suspension.

§ 3-1.605-4 Notice of suspension.

The Director, Office of Procurement and Materiel Management, OS-OASAM, or his designee, is responsible for notifying bidders of suspensions in accordance with the provisions of FPR 1-1.605-4.

§ 3-1.606 Departmental procedure.

The Director, Office of Procurement and Materiel Management, OS-OASAM, is responsible for complying with the provisions of FPR 1-1.606.

**Effective date.** This amendment shall be effective March 9, 1973.

Dated: March 1, 1973.

N. B. HOUSTON,  
Deputy Assistant Secretary  
for Administration.

#### PART 3-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

##### Subpart 3-4.54—Procurement Clearance of Audiovisual Materials

Chapter 3, Title 41, Code of Federal Regulations, is amended as set forth below. The purpose of this amendment is to conform the terminology and definitions found in Subpart 3-4.54 to Chapter 1-121 of the General Administration Manual, provide that noncompetitive

## Title 49—Transportation

## CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 71-7; Notice 8]

## PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

## Truck-Camper Loading; Correction

procurement requests for audiovisual materials be processed in the same manner as other noncompetitive procurements, and set forth the supplemental requirements for review of audiovisual materials intended for use with the general public.

It is the general policy of the Department of Health, Education, and Welfare to allow time for interested parties to take part in the rule making process. However, the amendment herein involves a change in internal administrative procedures. Therefore, the public rule making process is deemed unnecessary in this instance.

## §§ 3-4.5401, 3-4.5402 [Amended]

1. In the following, the word "production(s)" is hereby changed to read "materials":

(a) The title of the subpart as set forth above.

(b) The first, second, and third sentences of § 3-4.5401.

(c) In paragraph (a) of § 3-4.5402.

(d) The first sentence of paragraph (b) of § 3-4.5402.

(e) The second sentence of paragraph (c) of § 3-4.5402.

2. Section 3-4.5400 is revised to read as follows:

## § 3-4.5400 Scope of subpart.

This subpart provides for prior clearance and methods of contracting for the procurement of audiovisual materials. Chapter 1-121 of the General Administration Manual sets forth supplementary requirements for review of audiovisual materials intended for use with the public. The term "audiovisual materials," as used in this subpart, refers not only to the completed product but also to all steps and techniques leading to the realization of the completed product. The term includes motion pictures, video tapes, slide shows, film strips, audio recordings, exhibitory, or similar materials; design, layout, preparation of scripts, filming or taping, sound recording, editing, fabrication, or other activities leading to the acquisition or creation of audiovisual materials regardless of intended use. Instructions relating to such material obtained with grant funds are contained in Chapter 1-450 of the HEW Grants Administration Manual.

3. Paragraph (a) of § 3-4.5404 is revised to read as follows:

## § 3-4.5404 Competition.

(a) Contracts shall be awarded after competition and on a fixed price basis whenever feasible. Requests for sole source procurement shall be processed in accordance with § 3-3.802-50, however, ASPA-OS, shall concur in the request prior to processing the "Justification."

(5 U.S.C. 301, 40 U.S.C. 486(c))

Effective date. This amendment shall be effective on March 9, 1973.

N. B. HOUSTON,  
Deputy Assistant  
Secretary for Administration.  
[FR Doc. 73-4586 Filed 3-8-73; 8:45 am]

Section 1056.6(d), Title 49, Code of Federal Regulations (35 FR 5551, April 3, 1970) is corrected by amending the first sentence of the above as follows:

## § 1056.6 Determination of weights.

(d) *Reweighting of shipment.* The carrier, upon request of shipper, or his representative, made prior to the delivery date, will reweigh the shipment.

ROBERT L. OSWALD,  
Secretary.

FEDERAL REGISTER, VOL. 38, NO. 46—FRIDAY, MARCH 9, 1973

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## SUBCHAPTER A—GENERAL

## PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

## "Cents-Off" and "Economy Size" Package Promotions

In the matter of establishing new enforcement regulations (21 CFR 1.1d, 1.1e) to control "Cents-Off," "Economy Size," and other savings representations, a revised final order was published in the FEDERAL REGISTER of December 30, 1971 (36 FR 25219). The Commissioner ruled in the FEDERAL REGISTER of July 15, 1972 (37 FR 13976), on the objections to the final order. Included in the ruling was the finding that coupon offers accompanied by labeled savings representations are "merely another form of stating or implying that a commodity is offered at a price lower than the ordinary and customary retail price . . . ."

In the July 15, 1972, issue of the FEDERAL REGISTER (37 FR 13998) the Commissioner also proposed a change in the frequency limitation on "Cents-Off" coupon or other savings representations. The proposal was made in order to achieve consistency with the regulations on "Cents-Off" promotions of the Federal Trade Commission, and the guide of the Commission concerning "free" merchandise.

A total of eight comments were received on this proposal consisting of two from trade associations, one from a food manufacturer, and five from consumers. One trade association urged that the proposal be adopted. It was argued that there is no rationale for discriminating or categorizing price promotions on the basis of whether the triggering words "Cents-Off" are used or not. Therefore, a simple six promotion limitation without subcategories of limit based on the phraseology of the promotion was urged. The Commissioner is rejecting this suggestion in order to achieve consistency with the regulations and guidelines of the Federal Trade Commission.

A trade association and one of its members agreed that the proposed limitation is reasonable and beneficial. This association repeated its earlier objections to the inclusion of coupons in "Cents-Off" regulations, and urged eliminations of coupons from the entire "Cents-Off" regulations. The member made the same suggestion.

Two consumers objected to the attempt of the Food and Drug Administration to regulate coupons. One consumer objected to "Cents-Off" promotions entirely. One consumer objected to the practices in handling coupons by retail grocery stores. One consumer urged complete discontinuance of the use of coupons.

It is the policy of the Food and Drug Administration to insure that the regulations promulgated under section 5 of the Fair Packaging and Labeling Act (Public Law 98-755), on commodities

regulated by the Agency are in consonance with regulations promulgated by the Federal Trade Commission under the same legislation, on commodities regulated by the Federal Trade Commission. On January 9, 1973, the Commissioner was advised by the Federal Trade Commission that the decision had been made by the Commission to not issue regulations on coupons under the Fair Packaging and Labeling Act. The decision of the Commission was based on the conclusion that consumers would be better off without attempting a massive regulation program. Since there was no showing of abuse, the Commission believed regulations on coupons could either severely restrict or discourage the use of an effective pricing device. The Commission considers its policy statement published in the FEDERAL REGISTER of December 16, 1969 (34 FR 19840), an adequate answer to whatever problems exist in couponing.

As a result of the decision of the Federal Trade Commission, and the comments received on the frequency limitation proposal, the Commissioner has reviewed his earlier decision to regulate coupons under the Fair Packaging and Labeling Act, and has decided to amend 21 CFR 1.1d by deleting all reference to coupons and by deleting § 1.1d(f) in its entirety while finalizing the frequency limitations proposal.

The Commissioner concludes that those portions of the final order of December 30, 1971, which apply to coupon promotions should be withdrawn, and therefore, pursuant to provisions of the Fair Packaging and Labeling Act (secs. 5, 6, 80 Stat. 1298-1300; 15 U.S.C. 1454-1455) and the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371), and under authority delegated to him (21 CFR 2.120), all references to coupons in § 1.1d are deleted and paragraph (f) is deleted in its entirety. In addition the provisions regarding frequency limitations proposed July 15, 1972 (37 FR 13998) are being finalized.

Section 1.1d is revised to read as follows:

## § 1.1d "Cents-off," or other savings representations.

Any food, drug, cosmetic, or device that bears on the label or labeling a representation that the consumer commodity is being offered for retail at a reduction in retail price is subject to the following conditions: *Provided, however*, That such conditions do not apply to any such savings representations initiated by persons who do not manufacture, package, or import such commodities and who do not prescribe or specify by any means the manner in which such commodities are packaged or labeled by a manufacturer, packager, or importer:

(a) A "cents-off," or other savings representation that states or implies a reduction in the ordinary and customary retail price may be used by a manufacturer, packager, distributor, or retailer, hereinafter known as the sponsor, initiating such promotion only if:

(1) An ordinary and customary selling price of such consumer commodity has

been established at the retail level.

(2) The sponsor's selling price and the selling price at all subsequent levels of commerce such as wholesalers and jobbers has been reduced by at least the savings differential represented on the package or labeling, and

(3) The sponsor and all subsequent levels of commerce keep and maintain invoices or other records for each promotion and for all successive promotions which occur within a 12-month period for at least 1 year subsequent to the end of the year (calendar, fiscal, or market) in which the promotion occurs in order to show that the invoice cost to the retailer has been reduced in an amount sufficient to enable the retailer to pass the savings on to the purchaser.

(b) (1) Each "cents-off" price reduction representation imprinted on the package or label shall be limited to a phrase which reflects that the price marked by the retailer represents the savings in the amount of the "cents-off" the retailer's regular price, e.g., "Price Marked Is --- Cents Off the Regular Price," "Price Marked Is --- Cents Off the Regular Price of This Package." *Provided*, The package or label may in addition bear in the usual pricing spot a form reflecting a space for the regular price, the represented "cents-off," and a space for the price to be paid by the consumer. The sponsor who sells the commodity at retail shall display the regular price, clearly and conspicuously designated as "regular price," on the package or label of the commodity or on a sign, placard, or shelf-marker placed in a position contiguous to the retail display of the "cents-off" marked commodity. The sponsor who does not sell at retail shall provide the retailer with a sign, placard, shelf-marker, or other device for the purpose of clearly and conspicuously displaying the retailer's regular price, designated as "regular price," in a position contiguous to the "cents-off" marked commodity.

(2) Other savings representations which appear on the label or labeling of a package, e.g., "bonus offer," "two-for-one sales," "one-cent sales," etc., are subject to the provisions of this section. Due to the infinite variety and scope of such promotions, the label format of such representations may differ from that set forth in paragraph (b)(1) of this section for "cents-off" promotions; however, such representations shall include all material facts relative to the offer and shall in no way be misleading.

(3) For the purposes of this section, the terms "ordinary and customary" and "regular" when used with the term "price" mean the price at which a consumer commodity has been openly and actively sold in the most recent and regular course of business in a particular retail outlet or a trade area for a reasonably substantial period of time (at least 30 days). For consumer commodities that fluctuate in price, the ordinary and customary price shall be the lowest price at which any substantial sales were made during said 30 days.

(c) Shipments of consumer commodities bearing "cents-off," or other savings

representations to a given geographic trade area made by the sponsor initiating such promotion shall be in no greater volume than 50 percent of the total units of that identical consumer commodity distributed in the same geographic trade area during any period of 12 consecutive months comprising a calendar, fiscal, or market year.

(d) The "cents-off," or other savings promotion may not be employed by a sponsor on consumer commodities for distribution to a specific geographic trade area until after 1 month has elapsed since their last distribution of that identical consumer commodity bearing a savings representation to the same geographic trade area. The number of such promotions for that identical consumer commodity that may occur within a 12-month period comprising a calendar, fiscal, or market year shall not exceed a total of six with no more than three of any one type or kind (e.g., "cents-off," "bonus offer," "two-for-one sale," "1-cent sale," etc.), and the total period of time for all such promotions shall not exceed 6 months within that 12-month period.

(e) A newly developed consumer commodity, one which has been changed in a functionally significant respect, or one which is newly introduced into a given geographic trade area may be the subject of an "introductory offer" type promotion. Such offers are not considered subject to the provisions of paragraphs (a) through (d) of this section, provided:

(1) Each such labeled offer is clearly and conspicuously qualified with the phrase "Introductory Offer," and

(2) If the introductory offer promotion is in the form of a "cents-off" representation, each such labeled offer shall include clearly and conspicuously in immediate conjunction therewith the phrase "--- Cents Off the After-Introductory-Price"; and

(3) Labeled representations do not exceed a period of 6 months duration.

Any subsequent price reduction promotion of the consumer commodity is subject to the provisions of paragraphs (a) through (d) of this section and shall be preceded by the 30-day period required for a determination of the ordinary and customary selling price in that retail establishment. At the time of making the introductory offer promotion, the sponsor must intend in good faith to offer the commodity alone, immediately following the introductory offer promotion, for a reasonably substantial period of time (at least 30 days) at the anticipated after-introductory-offer price. The sponsor of the introductory offer promotion and all subsequent levels of commerce shall sell the commodity at a reduction from their anticipated after-introductory-offer price which reduction shall be at least equal to the savings differential represented on the package or labeling. The sponsor and all subsequent levels of commerce shall maintain invoices and records for at least 1 year subsequent to the end of the year (calendar, fiscal, or market) in which such introductory offer occurs.

FEDERAL REGISTER, VOL. 38, NO. 46—FRIDAY, MARCH 9, 1973

No. 46—Pt. I—5

## RULES AND REGULATIONS

Any person who will be adversely affected by the foregoing order may at any time on or before April 9, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** This order shall become effective on May 8, 1973, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 5, 6, 80 Stat. 1298-1300; 15 U.S.C. 1454-1455; sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371)

Dated: March 7, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

# CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## SUBCHAPTER A—GENERAL

## PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

### Subpart M—Organization

#### WASHINGTON HEADQUARTERS

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 2 is amended by revising § 2.171 to reflect organization changes, as follows:

### § 2.171 Washington headquarters.

The central organization of the Food and Drug Administration consists of the following:

#### OFFICE OF THE COMMISSIONER

Commissioner of Food and Drugs.  
Deputy Commissioner.  
Associate Commissioner for Compliance.  
Associate Commissioner for Medical Affairs.  
Associate Commissioner for Science.  
Associate Commissioner for Administration.  
Assistant Commissioner for Public Affairs.  
Assistant Commissioner for Planning and Evaluation.

#### BUREAU OF FOODS

Director.  
Deputy Director.  
Office of the Assistant Director for Management.  
Office of the Assistant Director for Scientific Coordination.  
Office of Sciences.  
Office of Product Technology.  
Office of Compliance (Foods).  
Office of Food Sanitation.

#### BUREAU OF RADIOLOGICAL HEALTH

Director.  
Deputy Director.  
Division of Biological Effects.  
Division of Electronic Products.  
Division of Medical Radiation Exposure.

#### BUREAU OF PRODUCT SAFETY<sup>1</sup>

Director.  
Deputy Director.  
Division of Compliance.  
Division of Chemical Hazards.  
Division of Mechanical, Electrical, and Thermal Hazards.  
Division of Children's Hazards.  
Injury Data and Control Center.

#### BUREAU OF BIOLOGICS

Director.  
Deputy Director.  
Associate Director for Regulatory and Administrative Management.  
Division of Virology.  
Division of Blood and Blood Products.  
Division of Control Activities.  
Division of Pathology.  
Division of Bacterial Products.

#### NATIONAL CENTER FOR TOXICOLOGICAL RESEARCH

Director.  
Assistant Director for Plans, Programs, and Systems.  
Assistant Director for Administrative Services.  
Office of Operations.  
Office of Pathology Services.  
Office of Toxicological Research.

#### EXECUTIVE DIRECTOR OF REGIONAL OPERATIONS

Executive Director of Regional Operations.  
Deputy Executive Director of Regional Operations.

<sup>1</sup> The majority of the functions of this Bureau will transfer to the Consumer Product Safety Commission pursuant to provisions of the Consumer Product Safety Act (Public Law 92-573, Oct. 27, 1972).

Division of Field Operations.  
Division of Planning and Analysis.  
Division of Federal-State Relations.

#### BUREAU OF VETERINARY MEDICINE

Director.  
Deputy Director.  
Division of Veterinary Research.  
Division of New Animal Drugs.  
Division of Veterinary Medical Review.  
Division of Compliance.  
Division of Nutritional Sciences.

#### BUREAU OF DRUGS

Director.  
Deputy Director.  
Office of the Assistant Director for Planning and Analysis.  
Office of Compliance (Drugs).  
Office of Pharmaceutical Research and Testing.  
Office of Scientific Coordination.  
Office of Scientific Evaluation.

Current locations and addresses of these units may be obtained from the Food and Drug Administration, Information Center, 200 C Street SW., Washington, D.C. 20204.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a))

Dated: March 2, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

## SUBCHAPTER B—FOOD AND FOOD PRODUCTS PART 121—FOOD ADDITIVES

### Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

O,O-DIMETHYL 2,2,2-TRICHLORO-1-HYDROXYETHYL PHOSPHONATE; CORRECTION

In FR Doc. 73-1622 appearing at page 2681 in the FEDERAL REGISTER of Monday, January 29, 1973, the subpart letter and section number are incorrect. Accordingly, the following changes are made:

1. In the headings, change "Subpart D—Food Additives . . ." to "Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals".

2. In the sixth paragraph, last line, change "D" to "C".
3. In the section heading immediately following the above item 2, change "§ 121.1247" to "§ 121.344".

Dated: March 1, 1973.

HENRY J. KOPF,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc. 73-4505 Filed 3-8-73; 8:45 am]

# Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

#### [ 26 CFR Part 1 ]

#### INCOME TAX

### Qualified Export Receipts and Producer's Loans of a Domestic International Sales Corporation (DISC)

On October 4, 1972, notice of proposed rule making was published in the FEDERAL REGISTER in regard to regulations under section 993 of the Internal Revenue Code of 1954, relating to qualified export receipts and producer's loans of a domestic international sales corporation (DISC), as added by section 501 of the Revenue Act of 1971 (37 FR 20853). Notice is hereby given that the proposed regulations contained in § 1.993-1(d)(1), as set forth in the notice of proposed rule making, are hereby withdrawn.

Further notice is hereby given that, in lieu of the proposed rules which are so withdrawn, the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of the Internal Revenue, Attention: CC-LR:T, Washington, D.C. 20224, by March 26, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by March 26, 1973. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,  
Commissioner of Internal Revenue.

By a notice of proposed rule making appearing in the FEDERAL REGISTER for Wednesday, October 4, 1972, (37 FR

20853), proposed regulations were published under section 993 of the Internal Revenue Code of 1954, relating to qualified export receipts and producer's loans of a domestic international sales corporation (DISC). This document withdraws the proposed regulations contained in § 1.993-1(d)(1) and in lieu of the proposed regulations which are so withdrawn sets forth new proposed regulations under § 1.993-1(d)(1).

The proposed regulations previously published under § 1.993-1(d)(1) allow a corporation, if it meets the necessary requirements to be treated as a DISC for a taxable year, to take advantage of the intercompany pricing rules of section 994(a)(1) or (2) in the case of any transactions described in § 1.994-1(b) (as proposed in 37 FR 19625 for September 21, 1972) between the DISC and its related supplier, provided that the relationship between the DISC and its related supplier is defined by an agreement which is written and which meets the requirements described in § 1.993-1(d)(2). In the case of a transaction pursuant to a sales or other agreement entered into before April 9, 1973, the new proposed regulations under § 1.993-1(d)(1) modify the strict requirements regarding the agreement between the DISC and its related supplier by providing that such agreement is the understanding relating to the participation of the DISC in such transaction, provided that such understanding is reduced before April 9, 1973, to a writing executed by the DISC and its related supplier containing the terms of such understanding. A transaction pursuant to a sales or other agreement entered into on or after April 9, 1973, will be subject to the rules originally proposed under § 1.993-1(d)(1).

#### AMENDMENT TO PROPOSED REGULATIONS

On October 4, 1972, notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 20853) regarding the amendment of the Income Tax Regulations (26 CFR Part 1) to conform such regulations to section 993 of the Internal Revenue Code of 1954, relating to qualified export receipts and producer's loans of a domestic international sales corporation (DISC), as added by section 501 of the Revenue Act of 1971. The proposed regulations contained in § 1.993-1(d)(1), as set forth in the appendix to the notice of proposed rule making, are hereby withdrawn. The above-mentioned notice of proposed rule making is amended as follows, and the following rules are hereby prescribed in lieu of the rules which are so withdrawn:

### § 1.993-1 Definition of qualified export receipts.

(1) *DISC's entitlement to income.*—(i) *Application of section 994.* A corporation which meets the requirements of § 1.992-1(a) (as proposed in 37 FR 10368 for May 20, 1972) to be treated as a DISC for a taxable year is entitled to income, and the intercompany pricing rules of section 994(a)(1) or (2) apply, in the case of any transactions described in § 1.994-1(b) (as proposed in 37 FR 19625 for September 21, 1972) between such DISC and its related supplier (as defined in § 1.994-1(a)(3)) (as proposed in 37 FR 19625 for September 21, 1972), provided that the relationship between the DISC and its related supplier is defined by a supplier's agreement described in this paragraph. A supplier's agreement must be a written agreement described in paragraph (i)(2) of this section except that with respect to a transaction pursuant to an agreement for the sale or lease of property, or the furnishing of services, to a person other than the DISC or its related supplier, entered into before April 9, 1973, a supplier's agreement is the understanding relating to the participation of the DISC in such transaction, provided that such understanding is reduced before April 9, 1973, to a writing executed by the DISC and its related supplier containing the terms of such understanding (whether or not such writing conforms to the requirements of paragraph (i)(2) of this section and whether or not the transaction was completed before such date). For purposes of this paragraph, such DISC need not have employees or perform any specific function.

[FR Doc. 73-4561 Filed 3-8-73; 8:45 am]

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

#### [ 7 CFR Part 981 ]

### ALMONDS GROWN IN CALIFORNIA Credit for Paid Advertising of Almond Products

Notice is hereby given of a proposal to amend § 981.441 of Subpart—Administrative Rules and Regulations (7 CFR 981.450-981.481; 37 FR 13790; 16930) to permit crediting handlers' assessment obligations for advertising almond products. The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 37 FR 3983), regulating the

intentional medical exposure. Although incidents involving medical exposures have not been required to be reported, 12 instances of misadministrations of radioactive materials involving 20 patients have been brought to the Commission's attention. Since these incidents have generally involved accidental or erroneous exposures of patients to radiation, in amounts or forms other than intended, it does not appear appropriate to continue the past practice of not requiring reports of such misadministrations of radioactive materials to medical patients. The proposed new paragraphs (a) and (c) of § 35.33 would require licensees to report misadministrations of radiopharmaceuticals or radiation from by-product material sources to the Commission. Paragraph (b) of § 35.33 would also require a notification to the patient or to a responsible relative of the patient of a misadministration which could cause a demonstrably adverse effect on the patient unless in the physician's professional judgment such notification would be contrary to the best interests of the patient or a surviving relative of the patient. (In accordance with the Freedom of Information Act and 10 CFR Part 9 of the Commission's rules and regulations, copies of reports filed under these proposed rules, except for any details which would identify the patient, will be available for public inspection.)

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 35 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C., 20545, Attention: Chief, Public Proceedings Staff by April 23, 1973. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, DC.

1. The title of 10 CFR Part 35 is amended to read as follows: "Medical uses of radioisotopes (byproduct material)."

2. A new § 35.32 is added to 10 CFR Part 35 to read as follows:

§ 35.32 Conditions of licenses for medical uses of radioisotopes.

(a) The user of radioisotopes in or applied to humans for diagnostic, therapeutic, or investigational purposes shall be a physician authorized by a condition of a general license or a specific license, including a specific license of broad scope, issued by the Commission (authorized physician).

(b) No authorized physician may delegate to persons who are not physicians under the supervision of the authorized physician, the following:

(1) The approval of procedures involving the administration to patients of radiopharmaceuticals or the application

to patients of radiation from radioisotope sources.

(2) The prescription of the radiopharmaceutical or source of radiation and the dose or exposure to be administered.

(3) The determination of the route of administration.

(4) The interpretation of the results of diagnostic procedures in which radiopharmaceuticals are administered.

(c) Subject to the provisions of paragraphs (b), (d), (e), (f), and (g) of this section, an authorized physician may permit technicians and other paramedical personnel to perform the following activities:

(1) Preparation and quality control testing of radiopharmaceuticals and sources of radiation.

(2) Measurement of radiopharmaceutical doses prior to administration.

(3) Use of appropriate instrumentation for the collection of data to be used by the physician.

(4) Administration of radiopharmaceuticals and radiation from radioisotope sources to patients, within limits otherwise permitted under applicable Federal, State or local laws.

(d) Authorized physicians who permit activities to be performed by technicians and other paramedical personnel pursuant to paragraph (c) of this section shall:

(1) Prior to such permission, determine that such technicians and other paramedical personnel have been properly trained to perform their duties. This training shall include training in the following subjects, as applicable to the duties assigned:

(i) General characteristics of radiation and radioactive materials.

(ii) Physical, chemical, and pharmaceutical characteristics of each radiopharmaceutical to be used.

(iii) Mathematics and calculations basic to the use and measurement of radioactivity, including units of quantity of radioactivity (curies, millicuries, microcuries) and units of radiation dose and radiation exposure.

(iv) Use of radiation instrumentation for measurements and monitoring including operating procedures, calibration of instruments, and limitations of instruments.

(v) Principles and practices of radiation protection.

(vi) Additional training in the above subjects, as appropriate, when new duties are added.

(2) Assure that such technicians and other paramedical personnel receive appropriate retraining in the subjects listed in paragraph (d) (1) of this section to maintain proficiency and to keep abreast of developments in the field of nuclear medical technology.

(3) Keep records showing the bases for such determinations of proper training, and

(4) Retain responsibility as licensee or authorized user for the satisfactory performance of such activities.

(e) Certification in nuclear medicine technology by the American Registry of

Radiologic Technologists or in nuclear medical technology by the Registry of Medical Technologists of the American Society of Clinical Pathologists will be deemed to satisfy the training requirements of paragraph (d) (1) and (2) of this section.

(f) An applicant for a license or for amendment or renewal of a license shall state whether he desires to permit technicians or other paramedical personnel to perform activities pursuant to paragraph (c) of this section and, if so, shall include in his application for license, license amendment, or license renewal a statement of the activities to be so performed and a description of an adequate program for training (including retraining as required to keep abreast of developments in technology) such personnel or for otherwise determining that such personnel are properly trained to perform their duties. With respect to licenses in effect on (effective date of rule), a licensee who is permitting or who desires to permit technicians or other paramedical personnel to perform activities pursuant to paragraph (c) of this section shall file the information required by this paragraph with the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545, with his next application for amendment or renewal of the license or within 1 year of (effective date of rule), whichever occurs first.

(g) Whenever a technician or other paramedical person administers a radiopharmaceutical to a patient by injection, a physician (not necessarily a physician authorized by the Commission to be a user of radioisotopes) shall be immediately accessible.

3. A new § 35.33 is added to 10 CFR Part 35 to read as follows:

§ 35.33 Notifications and reports of misadministrations.

(a) Each licensee shall notify the Director of the appropriate Atomic Energy Commission Regulatory Operations Regional Office listed in Appendix D of 10 CFR Part 20 of the Commission's regulations by telephone and telegraph of any misadministration of radiopharmaceuticals or any misadministration of radiation from teletherapy and brachytherapy sources. This notification shall be made within 24 hours after such misadministration is known. For the purpose of the requirements of this section, misadministration is defined to include the administration of:

(1) A radiopharmaceutical, or radiation from a source other than the one intended,

(2) A radiopharmaceutical or radiation to the wrong patient, or

(3) A dose of a radiopharmaceutical, or exposure from a radiation source, outside of the intended dose range prescribed by the physician or by a route of administration other than that intended by the physician.

(b) (1) Whenever a misadministration of a radiopharmaceutical or radiation from a teletherapy or brachytherapy

source could cause a demonstrably adverse effect on the patient to whom it was administered, the licensee or the authorized physician shall promptly notify the patient or a responsible relative of the patient of the misadministration unless in the physician's professional judgment such notification would be contrary to the best interests of the patient or a surviving relative of the patient.

(2) If death occurs after a judgment is made by the physician that notification to the patient or a responsible relative of the patient of the misadministration would be contrary to the best interests of the patient and the misadministration may have been a contributory cause of the death, the licensee or the authorized physician shall notify a responsible relative of the patient of the misadministration unless the physician makes an additional determination that such notification would be contrary to the best interests of a surviving relative of the patient.

(c) In addition to the notification required by paragraph (a) of this section, each licensee shall make a report in writing within 30 days to the Director of Regulatory Operations, U.S. Atomic Energy Commission, Washington, D.C. 20545, with a copy to the Director of the appropriate Regulatory Operations Regional Office specified in Appendix D of 10 CFR Part 20, of each misadministration. The report required under this paragraph need not include the name of the patient but shall describe the nature, extent, and cause of the misadministration and the corrective steps taken or planned to assure against a recurrence. If the misadministration could cause a demonstrably adverse effect on the patient or if death occurs and the misadministration may have been a contributory cause of the death, the report shall either confirm that the patient or a responsible relative of the patient has been notified of the misadministration as required by paragraph (c) (1) and (2) of this section or shall state that notification was not given because in the physician's judgment such notification would be contrary to the best interests of the patient or a surviving relative of the patient. If the patient or relative is not notified, the physician shall confirm that this decision was reviewed by a local Ethics Committee or an equivalent group of peers and shall state whether or not the committee or group concurred with the decision.

(d) Any notification or report filed with the Commission pursuant to paragraphs (a) and (c) of this section shall be prepared so that any details which would identify the patient will be stated in a separate part of the notification or report.

(Secs. 81, 161, 68 Stat. 935, 948, as amended; 42 U.S.C. 2111, 2201)

Dated at Washington, D.C., this 28th day of February 1973.

For the Atomic Energy Commission,

PAUL C. BENDER,  
Secretary of the Commission.

[FR Doc. 73-4436 Filed 3-8-73; 8:45 am]

## FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-473; Order 415-C]

## APPLICANTS' ENVIRONMENTAL REPORTS

## Proposed Preparation Guidelines

MARCH 2, 1973.

Pursuant to 5 U.S.C. 553, the Commission gives notice it proposes to amend Part 2 of its general rules by adding guidelines for preparation of applicants' environmental reports pursuant to Order No. 415-C. On December 18, 1972, the Commission issued Order No. 415-C (37 FR 28412, Dec. 23, 1972), further prescribing regulations for the implementation of the National Environmental Policy Act of 1969 (83 Stat. 852) (NEPA), and amending §§ 2.80, 2.81 and 2.82 of the general rules (18 CFR 2.80-2.82), § 4.41 of the regulations under the Federal Power Act (18 CFR 4.41), and §§ 157.7 and 157.14(a) of the regulations under the Natural Gas Act (18 CFR 157.7 and 157.14(a)).

The current energy situation has spotlighted the need for speedy and creative solution of environmental problems in the sectors of the energy industry regulated by the Federal Power Commission. The Commission wishes to provide as much guidance as possible to those filing applications under the procedures promulgated in Order No. 415-C. These guidelines are proposed to be added in the form of Appendices to Part 2 of Title 18 CFR to supplement §§ 2.81(a) and 2.82(a). Amendments are also proposed for §§ 2.81(a) and 2.82(a) in order to add the appropriate cross references to the new guidelines.

The guidelines seek to identify information to be supplied by applicants, to provide a basis for the preparation of an environmental report prepared pursuant to §§ 2.81(a) and 2.82(a) of the Commission Regulations, and to provide an insight into the scope of environmental reports required to assure a balanced interdisciplinary analysis of actions significantly affecting the quality of the human environment. The guidelines will also assist the Commission's staff in assessing deficiencies in applicant's environmental reports in cases which involve major Federal actions.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426 not later than April 12, 1973, data, views, comments, or suggestions in writing concerning all or part of the amendments proposed herein. Written submissions will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C. 20426, during regular business hours. An original and 14 conformed copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference at the Federal Power Commission to discuss the proposed revision. The Commis-

sion will consider all such written submissions and responses before issuing an order in this proceeding. The staff, in its discretion, may grant or deny requests for conference.

The proposed amendments to Part 2 of the Commission's general rules would be issued under the authority granted the Federal Power Commission under the Federal Power Act, particularly sections 4, 10, 15, 307, 309, 311, and 312 (41 Stat. 1065, 1066, 1068, 1070; 46 Stat. 798; 49 Stat. 839, 840, 841, 842, 843, 844, 856, 857, 858, 859, 860; 61 Stat. 501; 82 Stat. 617; 16 U.S.C. 797, 803, 808, 825f, 825h, 825j, 825k), and the Natural Gas Act, particularly sections 7 and 16 (52 Stat. 824, 825, 830; 56 Stat. 83, 84; 61 Stat. 459; 15 U.S.C. 717f, 717g), and the National Environmental Policy Act of 1969, Public Law 91-190, approved January 1, 1970, particularly sections 102 and 103 (83 Stat. 853, 854).

Accordingly, it is proposed to amend Part 2, General Policy and Interpretations, in Subchapter A—General Rules, Chapter 1, Title 18 of the Code of Federal Regulations as follows:

(1) Amend § 2.81(a) so that it will read:

§ 2.81 Compliance with the National Environmental Policy Act of 1969 under Part I of the Federal Power Act.

(a) All applications for major projects (those in excess of 2,000 horsepower) or for reservoirs only providing regulatory flows to downstream (major) hydroelectric projects under Part I of the Federal Power Act for license or relicensing, shall be accompanied by exhibit W, the applicant's detailed report of environmental factors specified in §§ 2.80, 4.41, and Appendix A of Part 2 of this chapter. All applications for surrender or amendment of a license proposing construction, or operating change of a project shall be accompanied by the applicant's detailed report of environmental factors specified in § 2.80 and Appendix A. Notice of all such applications shall continue to be made as prescribed by law.

(2) Amend § 2.82(a) so that it will read:

§ 2.82 Compliance with the National Environmental Policy Act of 1969 under the Natural Gas Act.

(a) All certificate applications filed under section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) for construction of pipeline facilities, except abbreviated applications filed pursuant to § 157.7(b), (c), and (d) of this chapter and producer applications for the sale of gas filed pursuant to §§ 157.23-29 of this chapter, shall be accompanied by the applicant's detailed report of the environmental factors specified in § 2.80 and Appendix B. Notice of all such applications shall continue to be made as prescribed by law.

(3) Append to 18 CFR Part 2 Guidelines for Preparation of Environmental Reports as follows:

## APPENDIX A

## GUIDELINES FOR THE PREPARATION OF APPLICANTS' DETAILED REPORTS OF ENVIRONMENTAL FACTORS ON ACTIONS UNDER THE FEDERAL POWER ACT

These guidelines: Identify information to be supplied by applicants to assist Federal Power Commission staff in an independent assessment of major Federal actions significantly affecting the quality of the human environment;

Pertain to actions under the Commission's Order 415-C (issued Dec. 18, 1972) amending §§ 2.80-2.82, Title 18, Code of Federal Regulations;

Provide the basis for the preparation of an environmental report (or exhibit W) being prepared pursuant to § 2.81(a) by applicants for hydroelectric and related developments under the jurisdiction of the Commission, and

Provide an insight into the rationale and scope of environmental reports to assure a balanced interdisciplinary analysis of actions significantly affecting the quality of the human environment.

It is the general policy of the Federal Power Commission to expect applicants to take the following actions in carrying out their environmental evaluation responsibilities:

Consult with the appropriate Federal, regional, State and local entities during the preliminary planning stages of the proposed action to assure that all environmental factors are identified;

Conduct any studies which are necessary to determine the impact of the proposed action on the human and natural resources and the measures which may be necessary to protect the values of the affected area. This analysis of impacts upon living and nonliving elements which make up the environment shall be to the depth necessary for a valid assessment of the impacts;

Utilize a sufficiently imaginative, comprehensive, interdisciplinary approach—utilizing a broad physical, biological, and social overview—during the development of the plans for a project; and

Prepare an environmental report for any proposed action that would be a major Federal action significantly affecting the quality of the human environment. The environmental report should contain information and analyses, to the extent appropriate to the proposed action. For proposed actions that are assumed not to be major Federal actions significantly affecting the quality of the human environment, applicants may file abbreviated reports with only sufficient detail to demonstrate that assumption. Applicants may confer with staff prior to submission of an application for guidance as to whether or not a specific proposed action would likely be classified as a major Federal action significantly affecting the quality of the human environment.

These guidelines have been prepared to relate to a wide range of possible actions that could come before the Commission for action. The applicant is expected to make the detail of the environmental report commensurate with the complexity of the possible environmental impact of the proposed action. Upon review of the applicant's environmental report, staff may request additional information. It is important to recognize that there is some redundancy in the information requested. Often a section asks for an evaluation from a different viewpoint rather than for absolutely new information.

## ENVIRONMENTAL REPORT FORMAT

1. *Description of proposed action.* Describe fully the action under application, including:

1.1 *Purpose.* Describe the primary purpose

of the proposed action and such secondary purposes as water supply, navigation, flood control, low flow augmentation, recreation, fish, and wildlife. Describe how these purposes, both primary and secondary, fit into existing and future utility systems or aid in meeting system reliability or regional and national needs. List the increases in productivity and values for each purpose described, e.g., power capacity in kw. and generation in kw-hr./year, navigation in tonnage, recreation in visitor days, water use in cfs and AF.

1.2 *Location.* Describe the location of the action and its relationship to other similar programs or developments in the same river basin. Locate the proposed action with respect to State boundaries, counties and major cities and, if necessary, by more specific geographical identification such as township and range; provide a map or maps of the area and such other graphic materials as are needed to locate the action.

1.3 *Proposed facilities.* Provide dimensions where pertinent:

1.3.1 *Project works.* Describe and locate on functional drawings the project works proposed for construction, including dams, dikes, reservoirs, spillways, powerhouses, switchyards, and transmission facilities, water intakes and outlets and conduits, navigation works, visitor centers and other public use facilities, fish ladders, fish hatcheries, and fish protective facilities. Provide dimensions, elevations, data on geological foundations, and other technical data as necessary to give functional design characteristics for safety and adequacy.

1.3.2 *Reservoir.* Describe the reservoir and its outlet works giving dimensions in capacity, area, depth, thermal stratification if present, or anticipated; mixing actions or flow-through of inflowing waters as related to water densities; and locate any water intake structures in relation to the occurrence of a reservoir thermocline.

1.3.3 *Tailwater features.* Locate the center line of the turbine or pump runners at maximum and minimum tailwater elevations with a description, using a profile drawing, of any tailrace excavations related to these elevations.

1.3.4 *Transmission facilities.* Describe any transmission lines, rights-of-way, and substations not considered a part of the action under application but a necessary adjunct thereto.

1.4 *Land requirements.* Locate and indicate the area and use of lands to be used by the proposed action and any measures, other than construction procedures, involved in its use, including clearing, borrow and spoil areas, rip-rap, settling ponds or basins, development of roads, recreation and wildlife management programs, drilling of wells for water supply or aquifer recharge, and reserving project lands for future uses. Describe the length and width of all existing, joint, or new rights-of-way required by the proposed action and any land treatment programs proposed thereon, including activities on adjacent lands.

1.5 *Construction procedures.* Describe procedures to be taken prior to or during construction of project works such as the relocation of homes and commercial and industrial facilities, clearing, preparation of any diversion works, surveying, land acquisition, and environmental planning. List any special measures to be taken in these procedures to protect property and environmental values. Provide a schedule of construction of major project works and how this will meet future power needs and avoid such limiting factors as floods, severe climatic conditions, or migrations of fish. Include schedules for needed relocations of transportation and other public facilities and methods of main-

taining service during these relocations, and for development of public use facilities.

1.6 *Operational procedures.* Describe the proposed operational modes and how these will provide for protection of natural resources and values. Show how the water resources of the area are to be utilized (provide usable reservoir storage capacities for respective purposes, area-capacity curves, hydrology data, drawdowns, and flow duration curves applicable to project operation during dry, average, and wet years). Include a discussion of the quantity and quality of water flows as they enter, pass through the project, and are released to maintain the downstream aquatic habitat; and of any discharges of water for other uses including municipal or industrial uses, or fish ladders or hatcheries.

Describe circulation of waters as related to the location of water intake structures and the occurrence of a reservoir thermocline. For pumped storage projects describe the weekly and seasonal exchanges of waters between upper and lower reservoirs and the water currents and temperature changes produced by this pseudotidal action.

Include also a discussion of any pollutants (and their sources) which would be discharged as a result of the proposed action. Describe measures to be undertaken to minimize problems arising from malfunctions and accidents (with estimates of probability of occurrence).

1.7 *Maintenance.* Describe maintenance of proposed project works under normal conditions; include types of expected maintenance, anticipated maintenance problems, how system or area needs will be met during shutdown for maintenance, and standard procedures for protecting environmental values during maintenance work. Describe capacity of project works to withstand both usual and unusual, but possible, natural phenomena and accidents (e.g., floods, hurricanes or tornadoes, slides) and provide estimates of probability of occurrence; describe any related geological or structural problems, and measures to be taken to minimize problems arising from malfunctions and accidents.

1.8 *Health and safety measures.* Describe measures to be taken for protecting the health and welfare of workers and the public at the project during its construction, operation, and maintenance, including structures to exclude people from hazardous areas or to protect them during changes in operations; include sanitary and solid waste disposal facilities for workers and the public during construction and operation.

1.9 *Future plans.* Describe plans or potential for future expansion of facilities including land use and the compatibility of these plans with the proposed action.

2. *Description of the existing environment.* Provide an overall description of existing conditions or resources which might be affected directly and indirectly by the proposed action; include pertinent topics.

2.1 *Land features and uses.* Identify present uses and describe the characteristics of the land area.

2.1.1 *Land uses.* Describe the extent of present uses, as in agriculture, business, industry, recreation, residence, wildlife, and other uses, including the potential for development; locate major nearby transportation corridors, including roads, highways, ship channels, and air traffic patterns; locate transmission facilities and their placement (underground, surface, or overhead); identify water resources.

2.1.2 *Topography, physiography, and geology.* Provide a detailed description of the topographic, physiographic, and geologic features within the area of the proposed action. Include U.S. Geographical Survey Topo-

graphic Maps, aerial photographs (if available), and other such graphic material.

2.1.3 *Soils.* Describe the physical characteristics and chemical composition of the soils, including the relationship of these to land slope.

2.1.4 *Geological hazards.* Indicate the potential occurrence of geological hazards in the area, such as earthquakes, slumping, landslides, subsidence, permafrost, and erosion.

2.2 *Species and ecosystems.* Identify those species and ecosystems that will be affected by the proposed action.

2.2.1 *Species.* List in general categories, by common and scientific names, the plant and wildlife species found in the area of the proposed action and indicate those having commercial and recreational importance.

2.2.2 *Communities and associations.* Describe the dominant plant and wildlife communities and associations located within the area of the proposed action. Provide an estimate of the population densities of major species. If data is not available for the immediate area of the proposed action, data from comparable areas may be used.

2.2.3 *Unique and other biotic resources.* Describe unique ecosystems or communities, rare or endangered species, and other biotic resources that may have special importance in the area of the proposed action.

2.3 *Socioeconomic considerations.* If the proposed action could have a significant socioeconomic effect on the local area, discuss the socioeconomic future of the area without the implementation of the proposed action; describe the economic development in the vicinity of the proposed action, particularly the local tax base and per capita income; and identify trends in economic development and/or land use of the area, both from a historical and prospective viewpoint. Describe the population densities of both the immediate and generalized area. Include distances from the site of the proposed action to nearby residences, cities, and urban areas and list their populations. Indicate the number and type of residences, businesses, and industries that will be directly affected and those requiring relocation if the proposed action occurs.

2.4 *Air and water environment.* Describe the prevailing climate and the quality and quantity of the air and water resources of the area.

2.4.1 *Climate.* Describe the historic climatic conditions that prevail in the vicinity of the proposed action: Extremes and means of monthly temperatures, precipitation, and wind speed and direction. In addition, indicate the frequency of temperature inversions, fog, smog, and destructive storms such as hurricanes and tornadoes.

2.4.2 *Hydrology and hydrography.* Describe surface waters, fresh, brackish, or saline, in the vicinity of the proposed action and discuss drainage basins, physical and chemical characteristics, water use, water supplies, and circulation. Describe the ground water situation, water uses and sources, aquifer systems, and flow characteristics.

2.4.3 *Air, noise, and water quality.* Provide data on the existing quality of the air and water (indicate the distance(s) from the proposed action site to monitoring stations) and the mean and maximum noise levels at the site boundaries.

2.5 *Unique features.* Identify unique or unusual features of the area, including historical, archeological, and scenic sites and values.

3 *Environmental impact of the proposed action.* Describe all known or expected significant environmental effects and changes, both beneficial and adverse, which will take place should the action be carried out. In-

clude the impact caused by (a) construction, (b) operation, including maintenance, breakdown, and malfunctions, and (c) termination of activities, including abandonment. Include both direct and primary indirect changes in the existing environment in the immediate area and throughout the sphere of influence of the proposed action. Assess the overall relationships between the environment and the proposed action as the total impact of obtaining and using the resources necessary for the proposed action.

3.1 *Construction.* 3.1.1 *Land features and uses.* Assess the impact on present or future land use, including commercial use, recreational areas, public health and safety, and the aesthetic value of the land and its features. Describe any temporary restrictions on land use due to construction activities. State the effect of construction related activities upon local traffic patterns, including roads, highways, ship channels, and air patterns.

3.1.2 *Species and ecosystems.* Assess the impact of construction on the terrestrial and aquatic species and habitats in the area, including clearing, excavation, and impoundment. Discuss the possibility of a major alteration to the ecosystem and the potential loss of an endangered species.

3.1.3 *Socioeconomic considerations.* Discuss the effect on local socioeconomic development in relation to labor, housing, local industry, and public services. Discuss the need for potential relocations. Describe the beneficial effects, both direct and indirect, of the action on the human environment, such as benefits resulting from the services and products, and other results of the action (include tax benefits to local and State governments, growth in local tax base from new business and housing developments, and payrolls). Describe the adverse impact on human elements, including the need for increased public services (schools, police and fire protection, housing, waste disposal, markets, transportation, communication, and recreational facilities and uses in the proposed project area, including any changes which will occur in recreational use and potential of the local area or region due to the proposed action; provisions for public access to and use of project lands and waters, including the impacts, these uses will have on the area; project lands reserved for future recreation development and the types of facilities which will be or which may need to be provided thereon and how the incremental uses of these lands will affect the area, including the effects of any increased recreational use on the land and water resources and on the public service facilities which presently exist or which would need to be developed to provide for public needs. Discuss the impact of the proposed action on national and local historic and archeological sites, any existing scenic, cultural and other similar values;

3.1.4 *Air and water environment.* Estimate the qualitative and quantitative effects of changes in the environment throughout the sphere of influence of proposed action. Direct and indirect effects are those effects which can be discerned as occurring primarily because the proposed action would occur. For example: (1) The impact of a borrow pit would be evaluated to the extent that it would be developed or expanded but the manufacture of conventional trucks to work the pit would not; (2) the impact of construction workers moving into the area would be evaluated but not the impact of their leaving present homes. However, the impact of their subsequent leaving this place must be considered.

feets on air, noise, and water quality and whether regulatory standards in effect for the area will be complied with.

3.1.5 *Waste disposal.* Discuss the impact of disposal of all waste material such as spoils, vegetation, and construction materials.

3.2 *Operation and maintenance.* 3.2.1 *Land features and uses.* Outline restrictions on existing and potential land use in the vicinity of the proposed action, including mineral and water resources. State the effect of operation related activities upon local traffic patterns including roads, highways, ship channels, and air patterns, and the possible need of new facilities.

3.2.2 *Species and ecosystems.* Assess the impact of operation upon terrestrial and aquatic species and habitats, including the importance of plant and animals species having economic or aesthetic value to man that would be affected by the action; provide pertinent information on animal migrations, foods, and reproduction in relation to the impacts; and, describe any ecosystem imbalances caused by the action and the possibility of major alteration to an ecosystem or the loss of an endangered species.

3.2.3 *Socioeconomic considerations.* Discuss the effect on the local socioeconomic development in relation to labor, housing, relocation, local industry, and public service. Describe the beneficial effects, both direct and indirect, of the action on the human environment such as economic benefits resulting from the services and products, energy, and other results of the action (include tax benefits to local and state governments, growth in local tax base from new business and housing developments, and payrolls). Describe adverse impacts on human elements, including the need for increased public service (schools, police and fire protection, housing, waste disposal, markets, transportation, communication, and recreational facilities). Indicate the extent to which maintenance of the area is dependent upon new sources of energy or the use of such vital resources as water.

3.2.4 *Air and water environment.* Assess the impact on present air quality due to process discharge quantities, and other discharging operational units. Assess the impact on present noise quality due to resultant noise levels. Assess the impact on present water quality due to reservoir operation, downstream water releases, power peaking operations, location of outlet works, and sanitary, waste, and process effluents. Indicate compliance with all regulatory standards in effect for the area.

3.2.5 *Solid wastes.* Describe the types and volumes of all solid wastes and by-products that will be produced and what methods would be used to dispose of these substances. Indicate compliance with regulatory standards in effect for the area.

3.2.6 *Operational resources.* Assess the impact of obtaining and using the resources necessary for operational uses.

3.2.7 *Maintenance.* Discuss the impact of maintenance programs, such as subsequent clearing or treatment of rights-of-way. Estimate the impact of possible major breakdowns and shutdowns of the facilities and how service will be maintained during shutdowns.

3.2.8 *Accidents and catastrophes.* Assess the potential for, and the nature of, accidents and natural catastrophes, the degree of engineering integrity associated with the proposed action, and provide an analysis of the capability of the area to absorb predicted impacts.

3.3 *Termination and abandonment.* Describe the possibility of, or plans for, the termination and/or abandonment of the project.

ect. Discuss the impact on land use and aesthetics.

4. *Measures to enhance the environment or to avoid or mitigate adverse environmental effects.* Identify all measures which will be undertaken to enhance the environment or eliminate, avoid, mitigate, protect, or compensate for adverse and detrimental aspects of the proposed action, as described under Part 3, above, including engineering planning and design, design criteria, contract specifications, selection of materials, construction techniques, monitoring programs during construction and operation, trade-offs, research and development, and restoration measures which will be taken routinely or as the need arises.

4.1 *Preventative measures and monitoring.* Discuss provisions for pre- and post-monitoring of the proposed action, including programs for monitoring changes in operational phases. Describe measures for detecting and modifying noise levels, monitoring water quality, e.g. dissolved oxygen and nitrogen concentrations, and air quality, for inventorying key species in food chains, and for detecting induced changes in the weather. Describe all health and safety procedures, including equipment, training, and procedures, including vector control, to be used in the area of the proposed action. List measures to be taken to protect workers and the public from hazards of construction and operation. Discuss measures to be undertaken to minimize problems arising from malfunctions and accidents (with estimates of probability of occurrence). Describe capacity of proposed action to withstand both usual and unusual but possible natural phenomena and accidents (e.g., floods, hurricanes or tornadoes, slides, etc.). Identify standard procedures for protecting services and environmental values during maintenance and breakdowns. Discuss proposed and alternative construction timetables to prevent significant environmental impacts and plans for implementation of process changes whenever possible to reduce environmental impact.

4.2 *Environmental restoration and enhancement.* Discuss all measures to be taken to restore and enhance the environment, including measures for restoration, replacement, or protection of flora and fauna and of scenic, historic, archeological, and other natural values; describe measures to facilitate animal migrations and movements to protect their life processes (e.g., spawning of fish); describe programs for landscaping including selective clearing, floral feathering of the edges of timbered rights-of-way, and other horticultural practices; describe selection and use of any chemicals needed during construction, operation, and maintenance so as to prevent their entry into waters in the area; discuss programs to assist displaced families and businesses in their relocations; describe provisions for public access to, and use of, lands and waters in the area of the proposed action; and discuss the preparation of lands prior to and following their use.

5. *Unavoidable adverse environmental effects.* Indicate those human and natural resources and values which will sustain significant, unavoidable adverse effects, and discuss whether the impact will be transitory, a one-time but lasting effect, repetitive, continual, incremental, or synergistic to other effects and whether secondary adverse consequences will follow. Focus on human health and safety, aesthetic, and culture values and standards of living which will be sacrificed or endangered. Where possible, provide quantitative evaluations of these effects.

5.1 *Uses preempted and unavoidable changes.* Discuss all significant, unavoidable environmental impacts on the land and its

present use, caused by inundation, clearing, excavation, and fills; losses to wildlife habitat, forests, unique ecosystems, minerals, and farmlands; effects on fish habitat and migrations; on relocation of populations and man-made facilities, such as homes, roads, highways, and trails; on historical, recreational, archeological, and aesthetic values or scenic areas.

5.2 *Loss of environmental quality.* Discuss any significant, unavoidable adverse changes in the air, including dust and emissions to the air, and noise quality; impacts resulting from solid wastes and their disposal; effects on the water resources of the area, including consumptive uses; effects on man and his health, safety, and well-being, including his displacement by the proposed action and its social, economic, and aesthetic implications.

6. *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* Compare the benefits to be derived from the immediate or short-time use of the environment, with and without the proposed action, and the long-term consequences of the proposed action.<sup>1</sup> Actions which diminish the diversity of beneficial uses of the environment or preempt the options for future uses or needs require detailed analysis, to assure that short-sighted decisions are not made which may commit future generations to undesirable courses of actions.

6.1 *Short-term uses.* Assess the local short-term uses of man's environment in terms of the proposed action's benefit to man, land use, alterations to the ecosystem, use of resources, and public health and safety.

6.2 *Long-term productivity.* Discuss any cumulative long-term effects which may be caused by the proposed action in terms of land use, alterations to the ecosystem, use of resources, and public health and safety.

7. *Irreversible and irretrievable commitments of resources.* Discuss, and quantify when possible, any irrevocable commitments of resources which would be involved in the implementation of the proposed action.

7.1 *Land features and uses.* Discuss any permanent changes in land features and/or land use.

7.2 *Endangered species and ecosystems.* Assess the possibility of eliminating any endangered species or the loss of an ecosystem.

7.3 *Socio-economic considerations.* Discuss probable indirect actions (e.g., highway systems, wastewater treatment facilities, housing developments, etc.) made economically feasible by the implementation of the proposed action that would be triggered and irrevocably commit other resources under our free enterprise system. Identify the destruction of any historical, archeological, or scenic areas.

7.4 *Loss of environmental quality.* Discuss possible irrevocable impacts, as in actions which affect resources indirectly, foreclosing their usage within present state-of-the-art methods.

7.5 *Resources lost or uses preempted.* Analyze the extent to which the proposed action would curtail the range of beneficial uses of the environment and whether the

<sup>1</sup> *Duration of Impacts.*—Short-term impacts and benefits generally are those which occur during the development and operation of a project. Long-term productivity related to an effect that remains many years (sometimes permanently) after the cause. As examples, strip mining without restoration and land inundation by reservoirs have obvious long-term effects.

proposed action could be reversed if future environmental effects prove too serious.

7.6 *Finite resources.* Indicate the irreversible and/or irretrievable resources that would be committed as a result of the proposed action, such as gas, naphtha, coal, oil, and construction materials.

8. *Alternatives to the proposed action.* Discuss the systematic procedure used to arrive at the proposed action, starting with the broadest, feasible objectives of the action and progressively narrowing the alternatives to a specific action at a specific site or right-of-way. This systematic procedure should include the decision criteria used, the information weighed, and an explanation of the conclusion at each decision point. The decision criteria must show how environmental benefits/costs are weighed against economic benefits/costs and technology and procedural constraints. All realistic alternatives must be included, even though they may not be within the jurisdiction of the Commission or the responsibilities and capabilities of the applicant. Modification of the proposed action may be among the alternatives.

8.1 *Scope of alternatives.* Discuss appropriate alternatives for accomplishing the objective of the proposed action; the impact of these alternatives and the reason(s) why each is not now proposed. If the proposed action has significant timeliness, compare this feature with that of other alternatives, including the scale of possibilities.

8.2 *Energy sources.* Discuss the potential for substitution of alternative energy supplies, including energy conservation and other sources of natural or artificial gas, oil, coal, and nuclear fueled powerplants; and conventional or pumped storage hydroelectric plants. Provide an analysis of economic and ecological benefits and costs.

8.3 *Sites and locations.* Discuss considerations given to alternative proposed sites and locations. Include a description of each site, environmental factors of each site, the final reasons for rejection, and an analysis of economic and ecological benefits and costs.

8.4 *Designs, processes, and operations.* Describe alternative facility designs, processes, and/or operations that were considered and discuss the environmental consequences of each, the reasons for rejection, and an analysis of economic and ecological benefits and costs.

8.5 *No action.* Discuss the alternative of no action with an evaluation of the consequences of this option on a national, regional, State, or local level, as appropriate. Present a perspective of what future use the proposed site (area) may assume if the proposed facilities are not constructed and provide an analysis of ecological and economic benefits and costs.

9. *Permits and compliance with other regulations and codes.*—9.1 *Permits.* Identify all necessary Federal, regional, State and local permits, licenses, and certificates needed before the proposed action can be completed, such as permits needed from State and local agencies for construction and waste discharges. Describe steps which have been taken to secure these permits and any additional efforts still required.

9.1.1 *Authorities consulted.* List all authorities consulted for obtaining permits, licenses, and certificates, including zoning approvals needed to comply with applicable statutes and regulations.

9.1.2 *Dates of approval.* Give dates of consultations and of issuance thereof.

9.2 *Compliance with health and safety regulations and codes.* Identify all Federal, regional, State, and local safety and health regulations and codes which must be complied with in the construction, maintenance, and operation of the proposed project. Also

identify other health and safety standards and codes that will be complied with, such as underwriter codes and voluntary industry codes.

9.2.1 *Authorities consulted.* List all authorities and professional organizations consulted in identifying pertinent regulations and codes.

9.2.2 *Procedures to be followed.* Explain the specific procedures or actions that will be taken to assure compliance with each such regulation and code.

9.3 *Compliance with other regulations and codes.* Identify all other Federal, regional, State, and local regulations and codes which must be complied with in the construction, maintenance, and operation of the proposed project.

9.3.1 *Authorities consulted.* List all authorities and professional organizations consulted in identifying pertinent regulations and codes.

9.3.2 *Procedures to be followed.* Explain the specific procedures or actions that will be taken to assure compliance with each such regulation and code.

10. *Sources of information.*—10.1 *Public hearings.* Describe any public hearings or meetings held, summarize the general tenor of public comments with the proportions of proponents to those in dissent, and include any public records resulting from these meetings.

10.2 *Other sources.* Identify all other sources of information utilized in the preparation of the environmental report, including:

10.2.1 *Meetings with governmental and other entities.* List meetings held with Federal, regional, State, and local planning, commerce, regulatory, environmental and conservation entities, the subjects discussed (e.g., recreation, fish, wildlife, aesthetics, other natural resources, and values of the area, and economic development), and any environmental conclusions reached as a result of the meeting.

10.2.2 *Studies conducted.* Identify the studies conducted, including those by consultants, the general nature and major findings of those studies, and the title and availability of any reports thereon.

10.2.3 *Consultants.* Give the names, addresses, and professional titles of all consultants who contributed to the environmental report.

10.2.4 *References consulted.* Provide a full citation of books, other publications, reports, documents, and maps and aerial photographs consulted for background information, including county land use and other planning reports.

10.2.5 *Bibliography.* Indicate with an asterisk those references cited in Section 10.2.4 which were used in the preparation of the detailed environmental report.

10.3 *Provide copies of supportive reports.* Supply copies of all technical reports prepared in conjunction with the preparation of the environmental report, such as model, heat budget, plankton, fish, and benthic sampling studies.

#### APPENDIX B

GUIDELINES FOR THE PREPARATION OF APPLICANTS' DETAILED REPORT OF ENVIRONMENTAL FACTORS ON ACTIONS UNDER THE NATURAL GAS ACT

These guidelines:

Identify information to be supplied by applicants to assist Federal Power Commission staff in independent assessments of major Federal actions significantly affecting the quality of the human environment;

Pertain to actions under the Commission's Order 415-C (Issued Dec. 18, 1972) amending

§§ 2.80-2.82, Title 18, Code of Federal Regulations;

Provide the basis for the preparation of environmental reports being prepared pursuant to § 2.82(a) by applicants for the construction of pipeline facilities under the jurisdiction of the Commission, and

Provide an insight into the rationale and scope of environmental reports to assure a balanced interdisciplinary analysis of actions significantly affecting the quality of the human environment.

It is the general policy of the Federal Power Commission to expect applicants to take the following actions in carrying out their environmental evaluation responsibilities:

Consult with the appropriate Federal, regional, State and local entities during the preliminary planning stages of the proposed action to assure that all environmental factors are identified;

Conduct any studies which are necessary to determine the impact of the proposed action on the human and natural resources and the measures which may be necessary to protect the values of the affected area. This analysis of impacts upon living and nonliving elements which make up the environment shall be to the depth necessary for a valid assessment of the impacts;

Utilize a sufficiently imaginative, comprehensive, interdisciplinary approach—utilizing a broad physical, biological, and social overview—during the development of the plans for a project; and

Prepare an environmental report for any proposed action that would be a major Federal action significantly affecting the quality of the human environment. The environmental report should contain information and analyses, to the extent appropriate to the proposed action. For proposed actions that are assumed not to be major Federal actions significantly affecting the quality of the human environment, applicants may file abbreviated reports with only sufficient detail to demonstrate that assumption. Applicants may confer with staff prior to submission of an application for guidance as to whether or not a specific proposed action would likely be classified as a major Federal action significantly affecting the quality of the human environment.

These guidelines have been prepared to relate to a wide range of possible actions that could come before the Commission for action. The applicant is expected to make the detail of the environmental report commensurate with the complexity of the possible environmental impact of the proposed action. Upon review of the applicant's environmental report, staff may request additional information. It is important to recognize that there is some redundancy in the information requested. Often a section asks for an evaluation from a different viewpoint rather than for absolutely new information.

#### ENVIRONMENTAL REPORT FORMAT

1. *Description of proposed action.* Describe fully the proposed action under application, including:

1.1 *Purpose.* Describe the primary purpose of the proposed facilities (onshore/offshore pipelines, LNG, gas storage fields, SNG, and others) and how the proposed action fits into Federal, regional, State, and local energy demand and supply requirements.

1.2 *Location.* Identify site(s) including all existing natural gas pipelines in the general vicinity of the proposed action; locate with respect to State boundaries, counties and major cities; and illustrate with a suitable general location map(s).

1.3 *Proposed facilities.*—1.3.1 *Plant/operational facilities.* Identify all plant and/or operation unit(s) to be constructed, such as compressors, unloading and storage facilities, liquefaction/gasification facilities, and meters. Provide plan, elevation, and perspective views of all plant facilities.

1.3.2 *Pipeline facilities.* Describe the length and size of all transmission, lateral, looping, and gathering pipelines to be constructed, the method(s) of pipeline construction to be used (such as the push method, flotation method, Bay method, and barge laying).

1.4 *Land Requirements.* Indicate the length and width and location of all existing, joint, or new right of way required by the proposed action; identify the size of each proposed plant and/or operational site; designate what portion of the land at the operation site which will remain unaffected by construction and operation; and identify auxiliary construction activities on adjacent land.

1.5 *Construction Procedures.* Describe procedures to be taken prior to or during construction of proposed action such as the relocation of homes and commercial or industrial facilities, clearing, surveying, land acquisition, and environmental planning. List any special measures to be taken in these procedures to protect property and environmental values. Provide a schedule of construction of major facilities and how this will meet future energy needs and avoid such limiting factors as floods, ground slides, or severe climatic conditions. Include schedules for needed relocations of transportation and other public facilities and methods of maintaining service during these relocations, and for development of public facilities.

1.6 *Operational Procedures.* Describe fully the technical and operational considerations of the proposed action, including details of the process, catalyst involved, design, mass, heat and energy balances, flow diagrams, water purification treatment and facilities, waste product disposal facilities, and days and hours of operation.

1.7 *Maintenance.* Describe maintenance under normal conditions; include types of expected maintenance, anticipated maintenance problems, and how system or area needs will be met during shut down for maintenance.

1.8 *Health and safety measures.* Describe measures to be taken for protecting the health and welfare of workers and the public at the site of the proposed action during construction, operation, and maintenance, including structures to exclude people from hazardous areas or to protect them during changes in operations; include sanitary and solid waste disposal facilities for workers and the public during construction and operation.

1.9 *Future plans.* Describe plans or potential for future expansion of facilities including land use and the compatibility of these plans with the proposed action.

2. *Description of the existing environment.* Provide an overall description of existing conditions or resources which might be affected directly and indirectly by the proposed action; include pertinent topics.

2.1 *Land features and uses.* Identify present uses and describe the characteristics of the land area.

2.1.1 *Land uses.* Describe the extent of present uses, as in agriculture, business, industry, recreation, residence, wildlife, and other uses, including the potential for development; locate major nearby transportation corridors, including roads, highways, ship channels, and air traffic patterns; locate transmission facilities and their placement (underground, surface, or overhead); identify water resources.

2.1.2 *Topography, physiography, and geology.* Provide a detailed description of the topographic, physiographic, and geologic features within the area of the proposed action. Include U.S. Geological Survey Topographic Maps, aerial photographs (if available), and other such graphic material.

2.1.3 *Soils.* Describe the physical characteristics and chemical composition of the soils, including the relationship of these to land slope.

2.1.4 *Geological hazards.* Indicate the potential occurrence of geological hazards in the area, such as earthquakes, slumping, landslides, subsidence, permafrost, and erosion.

2.2 *Species and ecosystems.* Identify those species and ecosystems that will be affected by the proposed action.

2.2.1 *Species.* List in general categories, by common and scientific names, the plant and wildlife species found in the area of the proposed action and indicate those having commercial and recreational importance.

2.2.2 *Communities and associations.* Describe the dominant plant and wildlife communities and associations located within the area of the proposed action. Provide an estimate of the population densities of major species. If data is not available for the immediate area of the proposed action, data from comparable areas may be used.

2.2.3 *Unique and other biotic resources.* Describe unique ecosystems or communities, rare or endangered species, and other biotic resources that may have special importance in the area of the proposed action.

2.3 *Socioeconomic considerations.* If the proposed action could have a significant socioeconomic effect on the local area, discuss the socioeconomic future of the area without the implementation of the proposed action; describe the economic development in the vicinity of the proposed action, particularly the local tax base and per capita income; and identify trends in economic development and/or land use of the area, both from a historical and prospective viewpoint. Describe the population densities of both the immediate and generalized area. Include distances from the site of the proposed action to nearby residences, cities, and urban areas and list their populations. Indicate the number and type of residences, businesses, and industries that will be directly affected and those requiring relocation if the proposed action occurs.

2.4 *Air and water environment.* Describe the prevailing climate and the quality and quantity of the air and water resources of the area.

2.4.1 *Climate.* Describe the historic climatic conditions that prevail in the vicinity of the proposed action; extremes and means of monthly temperatures, precipitation, and wind speed and direction. In addition, indicate the frequency of temperature inversions, fog, smog, and destructive storms such as hurricanes and tornadoes.

2.4.2 *Hydrology and hydrography.* Describe surface waters, fresh, brackish, or saline, in the vicinity of the proposed action and discuss drainage basins, physical and chemical characteristics, water use, water supplies, and circulation. Describe the ground water situation, water uses and sources, aquifer systems, and flow characteristics.

2.4.3 *Air, noise, and water quality.* Provide data on the existing quality of the air and water (indicate the distance(s) from the proposed action site to monitoring stations) and the mean and maximum noise levels at the site boundaries.

2.5 *Unique features.* Identify unique or unusual features of the area, including historical, archeological, and scenic sites and values.

3. *Environmental impact of the proposed action.* Describe all known or expected significant environmental effects and changes, both beneficial and adverse, which will take place should the action be carried out. Include the impact caused by (a) construction, (b) operation, including maintenance, breakdown, and malfunctions, and (c) termination of activities, including abandonment. Include both direct and indirect effects and changes in the existing environment in the immediate changes in the existing environment if the immediate area and throughout the sphere of influence of the proposed action. Assess the overall relationships between the environment and the proposed action as the total impact of obtaining and using the resources necessary for the proposed action.

3.1 *Construction—3.1.1 Land features and uses.* Assess the impact on present or future land use, including commercial use, recreational areas, public health and safety, and the esthetic value of the land and its features. Describe any temporary restrictions on land use due to construction activities. State the effect of construction-related activities upon local traffic patterns, including roads, highways, ship channels, and air patterns.

3.1.2 *Species and ecosystems.* Assess the impact of construction on the terrestrial and aquatic species and habitats in the area, including clearing, excavation, and impoundment. Discuss the possibility of a major alteration to the ecosystem, and the potential loss of an endangered species.

3.1.3 *Socioeconomic considerations.* Discuss the effect on local socioeconomic development in relation to labor, housing, local industry, and public services. Discuss the need for potential relocations. Describe the beneficial effects, both direct and indirect, of the action on the human environment, such as benefits resulting from the services and products, and other results of the action (include tax benefits to local and state governments, growth in local tax base from new business and housing development and payrolls). Describe the adverse impact on human elements, including the need for increased public services (schools, police and fire protection, housing, waste disposal, markets, transportation, communication, and recreational facilities).

3.1.4 *Air and water environment.* Estimate the qualitative and quantitative effects on air, noise, and water quality and whether regulatory standards in effect for the area will be complied with.

3.1.5 *Waste disposal.* Discuss the impact of disposal of all waste material such as spoils, vegetation, construction materials, and hydrostatic test water.

3.2 *Operation and maintenance—3.2.1 Land features and uses.* Outline restrictions on existing and potential land use in the vicinity of the proposed action, including mineral and water resources. State the effect of operation related activities upon local

Changes in the Environment Throughout the Sphere of Influence of Proposed Action. Direct and indirect effects are those effects which can be discerned as occurring primarily because the proposed action would occur. For example: (1) The impact of a borrow pit would be evaluated to the extent that it would be developed or expanded but the manufacture of conventional trucks to work the pit would not; (2) the impact of construction workers moving into the area would be evaluated but not the impact of their leaving present homes. However, the impact of their subsequent leaving this place must be considered.

traffic patterns including roads, highways, ship channels, and air patterns, and the possible need of new facilities.

3.2.2 *Species and ecosystems.* Assess the impact of operation upon terrestrial and aquatic species and habitats, including the importance of plant and animals species having economic or aesthetic value to man that would be affected by the action; provide pertinent information on animal migrations, foods, and reproduction in relation to the impacts; and, describe any ecosystem imbalances caused by the action and the possibility of major alteration to an ecosystem or the loss of an endangered species.

3.2.3 *Socioeconomic considerations.* Discuss the effect on the local socioeconomic development in relation to labor, housing, relocation, local industry, and public service. Describe the beneficial effects, both direct and indirect, of the action on the human environment such as economic benefits resulting from the services and products, energy, and other results of the action (include tax benefits to local and state governments, growth in local tax base from new business and housing developments, and payrolls). Describe adverse impacts on human elements, including the need for increased public service (schools, police and fire protection, housing, waste disposal, markets, transportation, communication, and recreational facilities). Indicate the extent to which maintenance of the area is dependent upon new sources of energy or the use of such vital resources as water.

3.2.4 *Air and water environment.* Assess the impact on present air quality due to process discharge quantities and other discharging operational units. Assess the impact on present noise quality due to resultant noise levels. Assess the impact on present water quality due to cooling or heating system discharges, process effluents, sanitary and waste effluents, water use for hydrostatic testing, and water use for other operational units. Indicate compliance with all regulatory standards in effect for the area.

3.2.5 *Solid wastes.* Describe the types and volumes of all solid wastes and by-products that will be produced and what methods would be used to dispose of these substances. Indicate compliance with regulatory standards in effect for the area.

3.2.6 *Operation resources.* Assess the impact of obtaining and using the resources necessary for operational processes; e.g., water (human needs and processes), energy requirements, raw products, and specialized needs.

3.2.7 *Maintenance.* Discuss the impact of maintenance programs, such as subsequent clearing or treatment of rights-of-way and hydrostatic testing and shutdowns. Estimate the impact of possible major breakdowns and shutdowns of the facilities and how service will be maintained during shutdowns.

3.2.8 *Accidents and catastrophes.* Assess the potential for, and nature of, accidents and natural catastrophes, the degree of engineering integrity associated with the proposed action, and provide an analysis of the capability of the area to absorb predicted impacts.

3.3 *Termination and abandonment.* Describe the possibility of, or plans for, the termination and/or abandonment of the project. Discuss the impact on land use and esthetics.

4. *Measures to enhance the environment or to avoid or mitigate adverse environmental effects.* Identify all measures which will be undertaken to enhance the environment or eliminate, avoid, mitigate, protect, or compensate for adverse and detrimental aspects of the proposed action, as described under Part 3, above, including engineering planning

and design, design criteria, contract specifications, selection of materials, construction techniques, monitoring programs during construction and operation, trade-offs, research and development, and restoration measures which will be taken routinely or as the need arises.

4.1 *Preventative measures and monitoring.* Discuss provisions for pre- and post-monitoring of the proposed action, including programs for monitoring changes in operational phases. Describe measures for detecting and modifying noise levels, monitoring water quality, e.g., dissolved oxygen and nitrogen concentrations, and air quality, for inventorying key species in food chains, and for detecting induced changes in the weather. Describe all health and safety procedures, including equipment, training, and procedures, including vector control, to be used in the area of the proposed action. List measures to be taken to protect workers and the public from hazards of construction and operation. Discuss measures to be undertaken to minimize problems arising from malfunctions and accidents (with estimates of probability of occurrence). Describe capacity of proposed action to withstand both usual and unusual but possible natural phenomena and accidents (e.g., floods, hurricanes or tornadoes, slides, etc.). Identify standard procedures for protecting service and environmental values during maintenance and breakdowns. Discuss proposed and alternative construction timetables to prevent significant environmental impacts and plans for implementation of process changes whenever possible to reduce environmental impact.

4.2 *Environmental restoration and enhancement.* Discuss all measures to be taken to restore and enhance the environment, including measures for restoration, replacement, or protection of flora and fauna and of scenic, historic, archeological, and other natural values, describe measures to facilitate animal migrations and movements and to protect their life processes; describe programs for landscaping, including selective clearing, floral feathering of the edges of timbered rights-of-way and other horticultural practices; discuss programs to assist displaced families and businesses in their relocations; and describe provisions for public access to, and use of, lands and waters in the area of the proposed action.

5. *Unavoidable adverse environmental effects.* Indicate those human and natural resources and values which will sustain significant, unavoidable adverse effects and discuss whether the impact will be transitory, a one-time but lasting effect, repetitive, continual, incremental, or synergistic to other effects and whether secondary adverse consequences will follow. Focus on human health and safety, esthetic, and culture values and standards of living which will be sacrificed or endangered. Where possible, provide quantitative evaluations of these effects.

5.1 *Uses preempted and unavoidable changes.* Discuss all significant, unavoidable environmental impacts on the land and its present use, caused by inundation, clearing, excavation, and fills; losses to wildlife habitat, forests, unique ecosystems, minerals, and farmlands; effects on fish habitat and migrations; on relocation of populations and manmade facilities, such as homes, roads, highways, and trails; on historical, recreational, archeological, and esthetic values or scenic areas.

5.2 *Loss of environmental quality.* Discuss any significant unavoidable adverse changes in the air, including dust and emissions to the air, and noise quality; impacts resulting from solid wastes and their disposal; effects on the water resources of the area, including consumptive uses; effects on man and his

health, safety, and well-being, including his displacement by the action and its social, economic, and esthetic implications.

6. *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* Compare the benefits to be derived from the immediate or short-time use of the environment, with and without the proposed action, and the long-term consequences of the proposed action. Actions which diminish the diversity of beneficial uses of the environment or preempt the options for future uses or needs require detailed analysis, to assure that shortsighted decisions are not made which may commit future generations to undesirable courses of actions.

6.1 *Short-term uses.* Assess the local short-term uses of man's environment in terms of the proposed action's benefit to man, land use, alterations to the ecosystem, use of resources, and public health and safety.

6.2 *Long-term productivity.* Discuss any cumulative long-term effects which may be caused by the proposed action in terms of land use, alterations to the ecosystem, use of resources, and public health and safety.

7. *Irreversible and irretrievable commitments of resources.* Discuss, and quantify when possible, any irrevocable commitments of resources which would be involved in the implementation of the proposed action.

7.1 *Land features and uses.* Discuss any permanent changes in land features and/or land use.

7.2 *Endangered species and ecosystems.* Assess the possibility of eliminating any endangered species or the loss of an ecosystem.

7.3 *Socioeconomic considerations.* Discuss probable indirect actions (e.g., highway systems, wastewater treatment facilities, housing developments, etc.) made economically feasible by the implementation of the proposed action that would be triggered and irrevocably commit other resources under our free enterprise system. Identify the destruction of any historical, archeological, or scenic areas.

7.4 *Loss of environmental quality.* Discuss possible irrevocable impacts, as in actions which affect resources indirectly, foreclosing their usage within present state-of-the-art methods.

7.5 *Resources lost or uses preempted.* Analyze the extent to which the proposed action would curtail the range of beneficial uses of the environment and whether the proposed action could be reversed if future environmental effects prove too serious.

7.6 *Finite resources.* Indicate the irreversible and/or irretrievable resources that would be committed as a result of the proposed action, such as gas, naphtha, coal, oil, and construction materials.

8. *Alternatives to the proposed action.* Discuss the systematic procedure used to arrive at the proposed action, starting with the broadest, feasible objectives of the action and progressively narrowing the alternatives to a specific action at a specific site or right-of-way. This systematic procedure should include the decision criteria used, the information weighed, and an explanation of the conclusion at each decision point. The decision criteria must show how environmental benefits/costs are weighed against economic benefits/costs and technology and procedural

9. *Duration of impacts.* Short-term impacts and benefits generally are those which occur during the development and operation of a project. Long-term productivity relates to an effect that remains many years (sometimes permanently) after the cause. As examples, strip mining without restoration and land inundation by reservoirs have obvious long-term effects.

constraints. All realistic alternatives must be included, even though they may not be within the jurisdiction of the Commission or the responsibilities and capabilities of the applicant. Modification of the proposed action may be among the alternatives.

8.1 *Scope of alternatives.* Discuss appropriate alternatives for accomplishing the objective of the proposed action; the impact of these alternatives and the reason(s) why each is not now proposed. If the proposed action has significant timeliness, compare this feature with that of other alternatives, including the scale of possibilities.

8.2 *Energy sources.* Discuss the potential for substitution of alternative energy supplies, including energy conservation and other sources of natural or artificial gas; oil, coal, and nuclear fueled powerplants; and conventional or pumped storage hydroelectric plants. Provide an analysis of economic and ecological benefits and costs.

8.3 *Sites and locations.* Discuss considerations given to alternative proposed sites and locations. Include a description of each site, environmental factors of each site, the final reasons for rejection, and an analysis of economic and ecological benefits and costs.

8.4 *Designs, processes, and operations.* Describe alternative facility designs, processes, and/or operations that were considered and discuss the environmental consequences of each, the reasons for rejection, and an analysis of economic and ecological benefits and costs.

8.5 *No action.* Discuss the alternative of no action with an evaluation of the consequences of this option on a national, regional, State, or local level, as appropriate. Present a perspective of what future use the proposed site (area) may assume if the proposed facilities are not constructed and proper plants. Provide an analysis of economic benefits and costs.

9. *Permits and compliance with other regulations and codes—9.1 Permits.* Identify all necessary Federal, regional, State, and local permits, licenses, and certificates needed before the proposed action can be completed, such as permits needed from State and local agencies for construction and waste discharges. Describe steps which have been taken to secure these permits and any additional efforts still required.

9.1.1 *Authorities consulted.* List all authorities consulted for obtaining permits, licenses, and certificates, including zoning approvals needed to comply with applicable statutes and regulations.

9.1.2 *Dates of approval.* Give dates of consultations and issuance thereof.

9.2 *Compliance with health and safety regulations and codes.* Identify all Federal, regional, State, and local safety and health regulations and codes which must be complied with in the construction, maintenance, and operation of the proposed project. Also identify other health and safety standards and codes that will be complied with, such as underwriter codes and voluntary industry codes.

9.2.1 *Authorities consulted.* List all authorities and professional organizations consulted in identifying pertinent regulations and codes.

9.2.2 *Procedures to be followed.* Explain the specific procedures or actions that will be taken to assure compliance with each such regulation and code.

9.3 *Compliance with other regulations and codes.* Identify all other Federal, regional, State and local regulations and codes which must be complied with in the construction, maintenance, and operation of the proposed project.

9.3.1 *Authorities consulted.* List all authorities and professional organizations consulted in identifying pertinent regulations and codes.

## PROPOSED RULE MAKING

9.3.2 *Procedures to be followed.* Explain the specific procedures or actions that will be taken to assure compliance with each such regulation and code.

9.4 *Special cases—9.4.1 Liquefied natural gas facilities.* Provide detailed design specifications for all facilities to be used for the liquefaction, transport, storage and regasification of liquefied natural gas. Provide information on the flammability and flame resistance of all tank lining and insulation materials. Describe all construction, maintenance, and operational procedures with particular emphasis on procedures to protect public and worker safety and health. Identify and describe all pertinent safety regulations and codes and any revisions thereto including the Department of Transportation Regulations issued by the Office of Pipeline Safety as Amendment 192-10 (Liquefied Natural Gas Systems) to Part 192, "Transportation of Natural and other Gas by Pipeline: Minimum Federal Safety Standards" and by the U.S. Coast Guard as 33 CFR 6.14-1 (safety measures for waterfront facilities and vessels in port), 33 CFR 124.14 (notice in advance of arrival of a vessel laden with a dangerous cargo), 33 CFR Part 126 (permits for handling of dangerous cargoes within or contiguous to waterfront facilities), and 46 CFR Subchapter D (regulations governing tank vessels). Describe detailed procedures that will be used to comply with these safety regulations and codes. Identify all Federal, regional, State, and local government agencies that have responsibilities for assuring compliance with these construction, maintenance, and operation regulations and codes. Describe safety reporting procedures, schedules, and recipients.

9.4.2 *Ancillary facilities.* Provide detailed design specifications for all ancillary facilities, owned and operated either by applicant or other parties, which will be constructed or operated in relation to the proposed project, such as processing plants and docking facilities. Describe all construction, maintenance, and operational procedures with particular emphasis on procedures to protect public and worker safety and health. Identify and describe all pertinent safety regulations and codes and describe detailed procedures that will be used to comply with these safety regulations and codes. Identify all Federal, regional, State, and local government agencies that have responsibilities for assuring compliance with these construction, maintenance, and operation regulations and codes. Describe safety reporting procedures, schedules, and recipients.

10. *Sources of information—10.1 Public hearings.* Describe any public hearings or meetings held, summarize the general tenor of public comments with the proportions of proponents to those in dissent, and include any public records resulting from these meetings.

10.2 *Other sources.* Identify all other sources of information utilized in the preparation of the environmental report, including:

10.2.1 *Meetings with governmental and other entities.* List meetings held with Federal, regional, State, and local planning, commerce, regulatory, environmental, and conservation entities, the subjects discussed (e.g., recreation, fish, wildlife, aesthetics, other natural resources, and values of the area, economic development, etc.), and any environmental conclusions reached as a result of the meeting.

10.2.2 *Studies conducted.* Identify the studies conducted, including those by con-

sultants, the general nature and major findings of those studies, and the title and availability of any reports thereon.

10.2.3 *Consultants.* Give the names, addresses, and professional vitae of all consultants who contributed to the environmental report.

10.2.4 *References consulted.* Provide a full citation of books, other publications, reports, documents, and maps and aerial photographs consulted for background information, including county land use and other planning reports.

10.2.5 *Bibliography.* Indicate with an asterisk those references cited in section 10.2.4 which were used in the preparation of the detailed environmental report.

10.3 *Provide copies of supportive reports.* Supply copies of all technical reports prepared in conjunction with the preparation of the environmental report, such as plume dispersion models, temperature dispersion models, and benthic sampling studies.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,  
Secretary.

## INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1036]

[Ex Parte No. 252 (Sub-No. 1)]

## BOXCARS

## Incentive Per Diem Charges

*Order.* At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 6th day of March 1973.

It appearing, that by order of the Commission, dated December 15, 1967, this rule making proceeding was instituted for the purpose of implementing those provisions of the law relating to the Commission's authority to encourage the acquisition and maintenance of an adequate car supply as specified in Public Law 89-430, which, effective May 26, 1966, amended section 1(14)(a) of the Interstate Commerce Act;

And it further appearing, that pursuant to the prior reports and orders of the Commission appearing at 337 ICC 183 and 337 ICC 217, the Commission promulgated certain regulations, which regulations now appear as Part 1036, Incentive Per Diem Charges on Boxcars, of Chapter X of Title 49 of the Code of Federal Regulations, and that § 1036.5 provides that, "The rules set forth in §§ 1036.1 and 1036.2 shall be effective from September of each year through February of the following year."

And it further appearing, that based upon statistics supplied by the Association of American Railroads, as summarized in the chart attached as Appendix A, the weekly plain boxcar shortages beginning from the week ending July 1 has persisted through the week ending February 17, and that based on statistics also

supplied by the Association of American Railroads, the number of plain boxcars installed new and rebuilt has continued to decline, while the number retired during the 5-year period, 1968-72 has increased, as shown in the chart attached as Appendix B;

And it further appearing, that these statistics demonstrate that the Nation is facing an increasingly critical plain boxcar shortage, which shortage has escalated drastically during the last 8 months to the point where it is now greater than at any other time in the history of the Commission, that the car supply crisis has been occasioned primarily by the unprecedented demand for movement of grain brought about by the Russian wheat sale agreement, that despite the existence of funds earmarked for the purchase, building or rebuilding of unequipped boxcars, the railroads, during the last 4 years, have retired more than three times as many plain boxcars as they have installed or rebuilt, and that the seasonal abatement in the shortage which normally occurs after February is not in evidence and, on the contrary, the demand for equipment is greater than at any time during the past six months;

And it further appearing, that, under § 1036.5 of the Commission's regulations, as presently constituted, the incentive per diem charges prescribed by §§ 1036.1 and 1036.2 of said regulations have ceased to be operative since February 28, 1973, and will continue to be inoperative until September 1, 1973; and that § 1036.5 as now constituted makes the collecting of incentive per diem charges mandatory only during 6 months of the year; and that at present there is a continuous shortage of cars throughout the year;

And it further appearing, that in order to encourage the acquisition and maintenance of a car supply adequate to meet the needs of commerce and the national defense and to contribute to sound car service practices, including efficient utilization and distribution of cars, it is necessary for the above described incentive per diem charges to be made effective throughout the year, until such time as the Commission determines the present inadequacy in the boxcar supply has been sufficiently abated;

And it further appearing, that for the above-stated reasons, the Commission has tentatively concluded that § 1036.5 should be amended by deleting the words "from September 1 of each year through February of the following year"; and substituting therefor the words "until further order of the Commission";

And it further appearing, that due to the increasing car supply shortage and the fact that, as above noted, as of February 28, 1973, no further incentive

per diem charges will be collected until after September 1, 1973, good cause exists for making the proposed amendment effective in less than 30 days from the date of its publication in the FEDERAL REGISTER:

It is ordered, That verified statements of fact, briefs, and statements of position respecting the proposed amendment described above are hereby invited to be submitted on or before March 23, 1973, by any interested person whether or not such person is already a party to this proceeding.

It is further ordered, That any party requesting oral hearing shall set forth with specificity the need therefor and the evidence to be adduced.

And it is further ordered, That a copy of this order be served upon each respondent, all other parties, each public utility commission or board or similar regulatory body of each State, the Secretary of the Department of Transportation, the Association of American Railroads—Car Service Division, and the American Short Line Railroad Association; that a copy be posted in the Office of the Secretary of this Commission and in each field office; and that a copy of this order and of the appendixes hereto be delivered to the Director, Division of Federal Register, for publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 210, 231, 241]

[Release Nos. 33-5342, 33-5343, 33-5344]

## ACCOUNTING POLICIES, CHANGES IN ACCOUNTING AND IN ASSUMPTIONS USED IN DETERMINING INCOME AND EXPENSE, AND DIFFERENCES IN CALCULATING INCOME FOR TAX AND FINANCIAL REPORTING PURPOSES

## Extension of Time for Submitting Comments on Disclosure Requirements

On December 18, 1972, the Commission invited public comments on proposals to amend guidelines under the Securities Act of 1933, to adopt guidelines under the Securities Exchange Act of 1934, and to amend Regulation S-X (17 CFR 210.1-01 et seq.) (Securities Act Release 5342, 5343, and 5344 (Dec. 18, 1972)) (38 FR 1733-1735, 37). That release stated that comments on the proposed amendments should be submitted to specified persons on or before February 15, 1973. In view of certain delays in printing and distributing copies of the above releases, and in response to a number of requests for extension of the public comment period, the Commission hereby extends the time for submitting comments on the above proposals to March 19, 1973. All such comments will be considered available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

FEBRUARY 7, 1973.

[FR Doc. 73-4599 Filed 3-8-73; 8:45 am]

## SMALL BUSINESS ADMINISTRATION

[13 CFR Part 120]

[Rev. 6]

## LOAN POLICY

## Notice of Proposed Rule Making

Notice is hereby given that the Small Business Administration proposes to revise Part 120 (revision 5) of Chapter I of Title 13 of the Code of Federal Regulations. Prior to adoption of revision 6 consideration will be given to any comments, suggestions, or objections submitted in writing, in triplicate, to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416, on or before March 29, 1973.

Proposed revision 6 will consolidate revision 5 and its several amendments. It will delete policy relating to disaster loans, which is being added to Part 123 of these regulations. It will restrict the requirement for at least two refusals by lending institutions to direct loans. The gambling prohibition would be modified for the sale of official State lottery tickets. It will incorporate the policy that an otherwise eligible small business concern owned by a nonprofit organization continues to be eligible. The adoption of the one-time guaranty fee is incorporated. Certain other clarifications and modifications would be included.

If adopted in final form the new revision 6 would read as follows:

Sec.  
120.1 Introduction.  
120.2 Business loans and guarantees.  
120.3 Terms and conditions of business loans and guarantees.

AUTHORITY: 72 Stat. 387, as amended, 15 U.S.C. 636; sec. 5, 72 Stat. 385, 15 U.S.C. 634 (b) (6).

## § 120.1 Introduction.

(a) This part is established by the SBA to set forth principles and policies which will be followed in the granting and denial of financial assistance for business loans to small business concerns. It is not intended that this general statement of policy provide answers to all questions which may arise in connection with specific applications.

(b) "Financial assistance" as used in this part shall include direct loans made by SBA, immediate participation loans, and guaranteed loans.

(c) "Financial institutions" as used in this part shall include, but not be limited to, banks and other lending institutions whose regular course of business entails the making of commercial, industrial and/or other loans of the type authorized to be made by SBA to eligible small business concerns, and who otherwise meet the criteria specified in § 120.3(c).

## § 120.2 Business loans and guarantees.

Basic principles governing the granting and denial of applications for financial assistance:

(a) Applications for financial assistance may be considered only when there

is evidence that the desired credit is not otherwise available on reasonable terms. The financial assistance applied for shall be deemed to be otherwise available on reasonable terms, unless it is satisfactorily demonstrated that:

(1) Proof of refusal of the required financial assistance has been obtained from—

(i) The applicant's bank of account;  
(ii) If the amount of financial assistance applied for is in excess of the amount that the bank normally lends to any one borrower, then a refusal from a correspondent bank or from any other lending institution whose lending capacity is adequate to cover the financial assistance applied for; and

(iii) Not less than two financial institutions for direct loans in cities where the population exceeds 200,000.

(a) Proof of refusal must contain the date, amount, and terms requested, and the reasons for not granting the desired credit. Bank refusals to advance credit should not be considered the full test of unavailability of credit and, where there is knowledge or reasons to believe that credit is otherwise available on reasonable terms from sources other than such banks, the financial assistance applied for cannot be granted notwithstanding the receipt of written refusals from such banks.

(2) The financial assistance required does not appear to be obtainable:

(i) On reasonable terms through the public offering or private placing of securities of the applicant;

(ii) Through the disposal at a fair price of assets not required by the applicant in the conduct of its existing business or not reasonably necessary to its potential healthy growth; and

(iii) Without undue hardship through utilization of the personal credit or resources of the owner, partners, management, or principal shareholders of the applicant;

(iv) Through other applicable Government financing.

(b) It is the policy to stimulate and encourage loans by banks and other lending institutions.

(1) An applicant for a direct SBA loan must show that an immediate participation or guaranteed loan is not available. An applicant for an immediate participation loan must show that a guaranteed loan is not available.

(2) SBA's share of immediate participation loans shall not exceed 75 percent of the loan. Exceptions may be made in cases when the participant's legal lending limit precludes a 25-percent participation. In such cases the participant will be required to share in the loan to the extent of its legal lending limit but in no event less than 10 percent. In guaranteed loans the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(3) No agreement to extend financial assistance under the Small Business Act shall establish any preferences in favor of a bank or other lending institution.

(c) Assurance of repayment, change of ownership, and recreational and amusement enterprises.

(1) No financial assistance shall be extended unless there exists reasonable assurance that the loan can and will be repaid pursuant to its terms. Reasonable assurance of repayment will exist only where the past earnings record and future prospects indicate ability to repay the loan and other obligations. It will be deemed not to exist when the proposed loan is to accomplish an expansion which is unwarranted in the light of the applicant's past experience and management ability, or when the effect of making the loan is to subsidize inferior management.

(2) Where the purpose of the loan application is to effect a change in the ownership of the applicant small business concern, the loan may usually be approved where there is a reasonable justification for the change in ownership on the ground that the change will promote the sound development or preserve the existence of a small business concern; or will contribute to a well-balanced national economy by facilitating ownership of small business concerns by persons whose participation in the free enterprise system has been prevented or hampered because of economic, physical or social disadvantages, or because of disadvantages in the business or residential locations.

(3) Where the purpose of the financial assistance is to finance the construction, acquisition, conversion, or operation of recreational or amusement enterprises, any such enterprise must be open to the general public, it must be properly licensed by appropriate State or local authority, and the character and reputation of the applicant will be given special consideration.

(d) Financial assistance will not be granted by SBA:

(1) If the direct or indirect purpose or results of granting such assistance would be to—

(i) Pay off a creditor or creditors of the applicant who are inadequately secured and are in position to sustain a loss.

(ii) Provide funds, directly or indirectly, for payment, distribution, or as a loan to owners, partners, or shareholders of the applicant which do not change ownership interests in applicant. This shall not apply to ordinary compensation for services rendered.

(iii) Refund a debt owed to a Small Business Investment Co.

(iv) Replenish funds theretofore used for such purposes.

(2) If the financial assistance will provide or free funds for speculation in any kind of property, real or personal, tangible or intangible;

(3) If the applicant is an eleemosynary institution or other nonprofit enterprise: *Provided, however*, That this provision shall not be construed to bar financial assistance to a cooperative if it carries on a business activity and the purpose of such activity is to obtain

pecuniary benefit for its members in the operation of their otherwise eligible small business concerns. An otherwise eligible small business concern will not become ineligible because it is owned in whole or in part by a nonprofit organization.

(4) If the applicant is a newspaper, magazine, book publishing company, radio broadcasting company, television broadcasting company, film production company, or similar enterprise;

(5) If any part of the gross income of the applicant (or of any of its principal owners) is derived from gambling activities, except in those cases where an otherwise eligible small business concern obtains less than one-third of its gross income from its income or commission from the sale of official State lottery tickets under a State license.

(6) If the financial assistance is to provide funds to an enterprise primarily engaged in the business of lending or investments or to any otherwise eligible enterprise for the purpose of financing investments not related or essential to the enterprise;

(7) If the purpose of the financial assistance is to finance the acquisition, construction, improvement, or operation of real property which is, or is to be, held primarily for sale or investment;

(8) If the effect of the granting of the financial assistance will be to encourage monopoly or will be inconsistent with the accepted standards of the American system of free competitive enterprise;

(9) Generally, if the financial assistance would be used primarily in agricultural activities. Agricultural activities include, but are not limited to, the production of food and fiber. Where the applicant is engaged in an agricultural activity and financial assistance has been formally declined by an agency of the Federal Government or an agricultural credit service supervised by the Farm Credit Administration, such applicant may be eligible for financial assistance from SBA: *Provided, however*, That an activity will not be eligible for financial assistance if it (i) produces (or in the last growing season produced) one or more crops currently eligible for a U.S. Department of Agriculture support payment or production loan; (ii) is engaged in the production of livestock or poultry, including eggs, except for (a) the operation of a hatchery for the production of baby chicks for sale to others, provided that the hatchery purchases from others more than 50 percent of its eggs; or (b) the operation of a commercial feed yard for cattle or hogs where its income is derived from the service operation of housing and feeding animals, either owned by others or purchased from producers solely for the purpose of fattening and resale prior to slaughter; or (c) the operation of a commercial poultry feed yard where its income is derived from the service operation of housing and feeding poultry owned by others, even when such operation results in the production of eggs; or (iii) is engaged in

the production of fish, unless the production process or type of fish is novel, innovative, or experimental in nature.

(10) Generally, if the financial assistance to be provided is for use in multi-level sales distribution plans.

#### § 120.3 Terms and conditions of business loans and guaranties.

(a) *Maturities.* The maturity of business loans made under the Small Business Act shall be restricted to the minimum consistent with sound business practice. The maturity may not exceed 10 years, except that such portion of a loan made for the purpose of constructing facilities may have a maturity not in excess of 15 years.

(b) *Charges and interest rates.*—(1) *Charges.* In guaranteed loans (those made by a financial institution with which SBA has entered into an agreement to guarantee as set forth in Part 122 of this chapter), a guaranty charge shall be payable by the financial institution to SBA for such agreement. The guaranty charge shall be one-fourth of 1 percent per annum of the portion of the loan which SBA has guaranteed, for guaranties approved prior to January 1, 1973. Effective January 1, 1973, the guaranty charge is set on a one-time basis at 1 percent of the amount of the authorized guaranteed portion of the loan, and is payable at first disbursement by the participating bank. For loans made under a revolving line of credit, the guaranty charge is one quarter of 1 percent per annum of the guaranteed portion payable initially by the participating bank at the time of SBA approval of the line of credit.

(2) *Interest.* (i) Except as provided in paragraph (b) (2) (iii) of this section, interest on SBA's share of immediate participation loans shall not exceed 5½ percent per annum and where the rate of interest on the share of the loan of the bank or other financial institution is less than 5½ percent per annum then the rate of SBA's share of the loan shall be at the same rate, but not less than 5 percent per annum. Subject to the approval of SBA, a participating financial institution may establish such rate of interest on its share of a loan as shall be legal and reasonable. Subject to the above guidelines, lending institutions may be given the option of utilizing a fluctuating rate of interest. The fluctuations may occur no more than semiannually, and must rise or fall on the same basis.

(ii) Direct loans: Except as provided in paragraph (b) (2) (iii) of this section, interest on all direct loans which may be made by SBA shall be at the rate of 5½ percent per annum except as may be otherwise required by reason of the provisions of the Servicemen's Readjustment Act of 1944, as amended.

(iii) Interest on SBA's share of financial assistance, which may be extended to Group Corporations shall be at the rate of 5 percent per annum. Subject to

the approval of SBA, financial institutions may establish such rate of interest on their share of participation or guaranteed loans as shall be legal and reasonable.

(iv) Except as provided in paragraph (b) (2) (iii) of this section, the interest rate on guaranteed loans, subject to the approval of SBA, may be established by the participating financial institution at a rate that shall be legal and reasonable. Subject to the above guidelines, lending institutions may be given the option of utilizing a fluctuating rate of interest. The fluctuations may occur no more than semiannually, and must rise or fall on the same basis. When purchased by SBA, the rate of interest to the borrower on SBA's share of the loan shall be 5½ percent per annum, except where the rate of interest on the share of the loan of the financial institution is less than 5½ percent per annum then the rate on SBA's share of the loan shall be at the same rate, but not less than 5 percent per annum. When SBA purchases its guaranteed share, its payment to the guaranteed participant of accrued interest to the date of purchase shall be at the interest rate established by participant but shall not exceed an effective rate of interest of 8 percent per annum, and without any future adjustment for any unpaid accrued interest in excess of 8 percent per annum.

(v) The interest which a financial institution pays SBA for temporary advances under the liquidity privilege in a guaranty loan agreement varies according to the approval date of SBA's guaranty on a given loan.

(vi) From time to time SBA may publish in the FEDERAL REGISTER notices of the maximum rates acceptable to SBA under the immediate participation and guaranty programs.

(3) *Service fees.* In immediate participation loans, and guaranteed loans where SBA has purchased its portion, made and serviced by a financial institution, the financial institution may deduct a service fee only out of interest collected for the account of SBA so long as the bank is servicing the loan: *And provided*, That such fee shall not be added to any amount which borrower is obligated to pay under the loan. Where SBA's share of the loan is 75 percent or less, the service fee shall be three-eighths of 1 percent per annum on the unpaid principal balance of SBA's share of the loan. Where SBA's share is in excess of 75 percent of the loan, the service fee shall be one-fourth of 1 percent per annum on the unpaid principal balance of SBA's portion of the loan.

(4) *Closing fees.* A closing fee equivalent to one-eighth of 1 percent of SBA's approved portion of the loan, or \$10, whichever is the greater, shall be imposed upon all direct loans and immediate participation loans made and serviced by SBA which are authorized pursuant to section 7(a) of the Small Business Act, as amended. The fee shall be paid to

SBA prior to disbursement of the loan and shall be exclusive of any other closing costs (such as recording fees and taxes; costs of title examination and title insurance, and other charges incident to the transaction) which are customarily paid by the borrower.

(c) *Eligible loan participant.* SBA is authorized by appropriate enabling legislation to make participation loans to small concerns in cooperation with banks or other lending institutions through agreements to participate on an immediate or deferred basis. In order to serve as an eligible loan participant in a particular loan transaction with SBA, the financial institution must—

(1) *Capacity to service loan.* Have the continuing capacities for processing, evaluating, disbursing, and servicing commercial term, and other loans authorized to be made by SBA to small concerns.

(2) *Capital structure and financial standing.* Have an adequate capital structure aggregating not less than \$200,000, which must be so unimpaired or of such tangible nature to be considered sound (except that the \$200,000 minimum shall not apply to institutions which are subject to supervisory and examining control of State or Federal chartering, licensing or similar regulatory authority) and, together with its existing or proposed directors, officers, other employees, and other persons connected with its organization and operations, possess good character as well as general standing and reputation in the community based on their lending and other established financial ability and experience.

(3) *Qualified management.* Have and maintain in charge of operations qualified management which shall be available to the public during regular business hours, and hold itself out to the public as engaged in the making of commercial, industrial and other loans of the type authorized to be made by SBA to eligible small concerns.

(4) *Supervisory and examining authority.* Be operating subject to applicable supervisory and examining control of State or Federal chartering, licensing or similar regulatory authority, or, in the absence of such control, be authorized to and shall enter into a written agreement with SBA to submit appropriate financial reports to SBA or to make available for SBA examination its books, records, accounts and affairs deemed necessary and appropriate by SBA to the protection of its interest in the transaction.

(5) *Absence of other financial or self-dealing interest in borrower concern.* Not possess, nor may any of its officers, directors, stockholders owning ten (10) or more percent of any class of shares, investment advisers, or other associates or affiliates, possess any interest directly or indirectly, in the small business concern (or in the case of a loan to a Local Development Company, the small business concern to be assisted) by reason of a stock or warrants position, or as a result

## PROPOSED RULE MAKING

of financing its own sales or business operations (except that any such interest in the borrower by a small business investment company, duly licensed by SBA, associated or affiliated with a loan participant shall not disqualify such otherwise eligible loan participant). Concern: operating as a subsidiary or affiliate engaged primarily in lending for the purpose of financing the sale or products or services or other business operations of

an affiliate or parent concern are not considered eligible. In the event the borrower shall be required to obtain personal insurance coverage (as contrasted with hazard insurance to protect collateral), it shall be only in such minimum amounts and costs as are necessary to protect the loan. Such insurance coverage shall be limited to declining term policies, providing a decrease in coverage

consistent with the decreasing loan balance outstanding.

(6) *Ineligibility of SBIC's.* Not operate as a small business investment company duly licensed by SBA.

Dated: February 26, 1973.

THOMAS S. KLEPPE,  
Administrator.

## DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms  
NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding 1 year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Bittner, Bradley D., 411½ South Second Street, Aberdeen, SD, convicted on October 21, 1970, in the Circuit Court, Second Judicial Circuit, Sioux Falls, S. Dak.

Boncher, Thomas H., 1007 Smith Street, Green Bay, WI, convicted on December 14, 1961, in Brown County Municipal Court, Green Bay, Wis.

Cooper, Alphonso J., 732 Rose Street, Jackson, MS, convicted on December 29, 1948, and April 11, 1953, by the City Court of Jackson, Miss., and on November 13, 1962, by the U.S. District Court, Jackson, Miss.

Cotton, David J., 5920 Hughes Road, Lansing, MI, convicted on July 18, 1958, in the Circuit Court for the county of Ingham, Mich.

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

Cramer, Daniel A., 2419 Brownell Boulevard, Flint, MI, convicted on May 20, 1966, in the Circuit Court for Genesee County, Mich.

Deason, James O., Box 281, Brent, AL, convicted on June 17, 1968, in the U.S. District Court, Northern Judicial District, Birmingham, Ala.

Donahue, Thomas H., 3450 Xerxes Avenue North, Minneapolis, MN, convicted on July 16, 1967, in the District Court, Fourth Judicial District, county of Hennepin, Minn.

Edgar, Lester P., Rural Route 2, Box 169, Fennimore, WI, convicted on November 25, 1970, Waukesha County Court, Branch Two, Waukesha, Wis.

Engle, Billy Gene, Williamsburg, Miss., convicted on November 16, 1967, in the Second Judicial District Circuit Court, Carroll County, Miss.

Fisher, Stanley L., 6302 O Street, Omaha, NE, convicted on December 11, 1968, in the District Court of Iowa, Story County.

Free, Grover Willie, Post Office Box 26, Tiger, GA, convicted on October 29, 1958, in the U.S. District Court, Northern District of Georgia, Gainesville Division.

Gautreau, William J., Jr., Post Office Box 597, Kenner, LA, convicted on October 24, 1968, in the 24th Judicial District Court, parish of Jefferson, La.

Hart, Sidney A., 1430 Ebert Street, Winston-Salem, NC, convicted on October 5, 1961, in U.S. Western District Court, Charlotte, N.C.

Office of the Secretary  
**HAND-OPERATED, PLASTIC PISTOL-GRIP  
TYPE LIQUID SPRAYERS, FROM REPUBLIC OF KOREA**

Antidumping Proceeding Notice

MARCH 5, 1973.

On January 23, 1973, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs regulations (19 CFR 153.26, 153.27), indicating a possibility that hand-operated, plastic pistol-grip type liquid sprayers from the Republic of Korea are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the Bureau of Customs is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less, or likely to be less, than the prices either for home consumption or to third countries, as appropriate.

This notice is published pursuant to § 153.30 of the Customs regulations (19 CFR 153.30).

[SEAL] EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

**STEEL WIRE ROPE FROM JAPAN**  
Withholding of Appraisal Notice

Information was received on July 11, 1972, that steel wire rope from Japan was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an antidumping proceeding notice which was published in the FEDERAL REGISTER of August 18, 1972, on page 16683. The antidumping proceeding notice indicated that there was evidence on record concerning injury to or likelihood of injury

to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price or exporter's sales price, as applicable (sections 203 and 204 of the Act; 19 U.S.C. 162 and 163), of steel wire rope from Japan is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

**Statement of Reasons.** The investigation revealed that the proper basis of comparison for fair value purposes is between purchase price or exporter's sales price and the adjusted home market price of such or similar merchandise.

Purchase price was based on the f.o.b. Japanese port price with deductions for inland freight and other shipping charges, as applicable.

Exporter's sales price was calculated by deducting from the resale price of the related firm to the unrelated purchaser in the U.S. bank charges, transportation charges in the United States and Japan, ocean freight and insurance, selling commission, and U.S. duty.

The home market price was calculated on the basis of a weighted-average delivered price of such or similar merchandise with deductions for inland freight and other shipping charges, as applicable. Appropriate adjustments were made for differences in packing and credit costs.

Using the above criteria, there are reasonable grounds to believe or suspect that the purchase price or exporter's sales price, as appropriate, will be lower than the home market price.

Customs officers are being directed to withhold appraisal of steel wire rope from Japan in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations, interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20229, in time to be received by his office on or before March 19, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before April 9, 1973.

This notice, which is published pursuant to § 153.54(b), Customs Regulations (19 CFR 153.54(b)), shall become effective on March 9, 1973. It shall cease to be effective on September 10, 1973, unless previously revoked.

[SEAL] EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

MARCH 6, 1973.

## NOTICES

**DEPARTMENT OF DEFENSE**  
**Department of the Army**  
**HISTORICAL ADVISORY COMMITTEE**  
**Notice of Meeting**

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following Committee meeting:

Name: Department of the Army Historical Advisory Committee.

Date: April 6, 1973.

Place: Conference Room, Wing 2, Second Floor, Tempo C, Second and R Streets SW., Washington, DC.

Time: 1015-1130; 1345-1515.

Proposed agenda:

1020-1130 Review of historical activities.

1345-1515 Discussion of activities and executive session of the committee.

**Purpose of meeting:** The committee will review the past year's historical activities based on reports and manuscripts received throughout the year and formulate recommendation to the Secretary of the Army for advancing the purposes of the Army Historical Program.

Meeting of the Advisory Committee is open to the public. Public attendance depending on available space, may be limited to those persons who have notified the Advisory Committee Management Office in writing, at least 5 days prior to the meeting, of their intention to attend the April 6 meeting.

Any member of the public may file a written statement with the Committee before, during or after the meeting. To the extent that time permits the Committee Chairman may allow public presentation of oral statements at the meeting.

All communications regarding this Advisory Committee should be addressed to LTC C. F. Moore, Advisory Committee Management Officer for Office Chief of Military History, Room 2009, Tempo C, Second and R Streets SW., Washington, DC 20315.

For the Chief of Military History.

C. F. MOORE,  
LTC, Infantry, Executive Officer,  
Plans, Programs and  
Administration.

**DEPARTMENT OF JUSTICE**

**Law Enforcement Assistance  
Administration**

**EQUAL RIGHTS GUIDELINES**

**Effect on Minorities and Women of Minimum Height Requirements for Employment of Law Enforcement Officers**

1. **Purpose.** This guideline is issued to assist in the elimination of discrimination based on national origin, sex, and race caused by the use of restrictive minimum height requirements criteria where such requirements are unrelated to the employment performance of law enforcement personnel.

2. **Scope.** The provisions of the guideline apply to all recipients of LEAA

funds. This guideline is of concern to all State Planning Agencies.

3. **Background.** The use of minimum height requirements as criteria for employee selection, assignment, or similar personnel action may tend to disqualify disproportionately women and persons of certain national origins, and races. Discrimination on the ground of race, color, creed, sex, or national origin is prohibited by the Department of Justice regulations concerning employment practices of State agencies or offices receiving financial assistance extended by the Department (28 CFR Part 42, Subpart D).

4. **Requirement.** The use of minimum height requirements, which disqualifies disproportionately women and persons of certain national origins and races, such as persons of Mexican and Puerto Rican ancestry, or oriental descent, will be considered violative to this Department's regulations prohibiting employment discrimination.

5. **Exceptions.** In those instances where the recipient of Federal assistance is able to demonstrate convincingly through the use of supportive factual data, such as professionally validated studies that such minimum height requirements used by the recipient is an operational necessity for designated job categories, the minimum height requirement will not be considered discriminating.

6. **Definition.** a. The term operational necessity as used in this guideline shall refer to an employment practice for which there exists an overriding legitimate operational purpose such that the practice is necessary to the safe and efficient exercise of law enforcement duties; is sufficiently compelling to override any discriminatory impact; is effectively carrying out the operational purpose it is alleged to serve; and for which there are available no acceptable alternate policies or practices which would better accomplish the operational purpose advanced, or accomplish it equally well with a lesser discriminatory impact.

b. The term law enforcement as used in this guideline is defined at section 601(a) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and means all activities pertaining to crime prevention or reduction and enforcement of the criminal law.

**Effective date.** This Guideline shall become effective on March 9, 1973.

Dated: March 6, 1973.

JERRIS LEONARD,  
Administrator, Law Enforcement  
Assistance Administration.

CLARENCE M. COSTER,  
Associate Administrator.

## DEPARTMENT OF THE INTERIOR

Bureau of Land Management  
NATIONAL ADVISORY BOARD ON WILD  
FREE-ROAMING HORSES AND BURROS

## Notice of Meeting

Notice is hereby given that the National Advisory Board for Wild Free-Roaming Horses and Burros will hold its second meeting March 21 and 22, 1973, at the Continental Denver Motor Inn, Valley Highway and Speer Boulevard, Denver, Colo. The agenda for the meeting will include consideration and review of proposed regulations, a draft environmental impact statement and comments and recommendations received from the general public subsequent to the last meeting.

The meeting will be open to the public. Seating will be available for about 25 observers. Time will be available for a limited number of brief statements by members of the public. Those persons wishing to make an oral statement must inform the Advisory Board chairman in writing prior to the meeting of the Board. Any interested person may file a written statement with the Board for its consideration. The Advisory Board chairman is Dr. C. Wayne Cook. Written statements should be submitted to Dr. Cook c/o the Director (330), Bureau of Land Management, Washington, D.C. 20240.

BURT SHELCOCK,  
Director.

ARIZONA STATE MULTIPLE USE ADVISORY  
BOARD

## Notice of Annual Business Meeting

Notice is hereby given that the Arizona State Multiple Use Advisory Board will hold its annual business meeting March 27, 1973, at the Adams Hotel, Central and Adams, Phoenix, Ariz. The agenda for the meeting will include election of board officers, proposed Federal legislation effecting national resource lands, discussion and recommendations on proposed off-road vehicle regulations, status of bureau management plans, management of Aravaipa Canyon Primitive Area, and wild horse and burro legislation and management.

The meeting will be open to the public to the extent seating is available. Seating will be available for about 30 persons. Time will be made available for a limited number of brief statements from the public. Those desiring to make public statements must notify the chairman in writing of this desire prior to the meeting date. Any interested party may file a written statement with the Board for its consideration. Written statements and requests to give an oral statement to the Board should be directed to Ted Lee, Chairman, c/o State Director, Bureau of Land Management, Room 3022, Federal Building, 230 North First Avenue, Phoenix, AZ 85025.

Dated: March 2, 1973.

## NOTICES

## DEPARTMENT OF AGRICULTURE

Office of the Secretary  
UINTAH AND OURAY INDIAN LANDS IN  
NORTHEAST UTAH

## Feed Grain Donations

Pursuant to the authority set forth in section 407 of the Agricultural Act of 1949, as amended (7 U.S.C. 1427), and Executive Order 11336, I have determined that:

1. The chronic economic distress of the needy members of the Uintah and Ouray Indian lands in northeast Utah has been materially increased and become acute because of excessive snowfall and sub-zero temperatures depleting supplies of livestock feed, thus creating a critical need for supplemental feed. These lands are reservation or other lands designated for Indian use and are utilized by members of the Indian tribes for grazing purposes.

2. The use of feed grain or products thereof made available by the Commodity Credit Corporation for livestock feed for such needy members of the tribes will not displace or interfere with normal marketing of agricultural commodities.

Based on the above determinations, I hereby declare the reservations and grazing lands of these tribes to be acute distress areas and authorize the donation of feed grain owned by the Commodity Credit Corporation to livestock men who are determined by the Bureau of Indian Affairs, Department of the Interior, to be needy members of the tribes utilizing such lands. These donations by the Commodity Credit Corporation may commence upon signature of this notice and shall be made available through the duration of the existing emergency or to such other time as may be stated in a notice issued by the Department of Agriculture.

Signed at Washington, D.C. on March 2, 1973.

EARL L. BUTZ,  
Secretary.  
[FR Doc. 73-4614 Filed 3-8-73; 8:45 am]

Rural Electrification Administration  
COOPERATIVE POWER ASSOCIATION  
Draft Environmental Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Draft Environmental Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with the use of available loan funds by Cooperative Power Association of 6700 France Avenue, South, Minneapolis, Minn. 55435. This action will finance the construction of a switching station, a substation, and approximately 12 miles of 230-kV transmission line from a location near Henning to a location near Rush Lake. Both locations are in Otter Tail County, Minn.

Additional information may be secured on request, submitted to the Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Statement have been sent to various Federal, State, and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Draft Environmental Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC, Room 4310, or at the borrower address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to the Assistant Administrator-Electric at the address given above. Comments must be received on or before April 9, 1973 to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 5th day of March 1973.

DAVID A. HAMILL,  
Administrator,  
Rural Electrification Administration.

[Docket No. B-560]

## HIGHPOINT TRAWLERS, INC.

## Notice of Loan Application

Highpoint Trawlers, Inc., Gooseberry Road, East Matunuck, R.I. 02879, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new wood vessel, about 76-foot in length, to engage in the fishery for crabs, lobsters, herring, mackerel, cod, flounders, whiting, hake, menhaden, scup, butterfish, squid, fish for industrial uses, swordfish, and clams.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine

## NOTICES

Fisheries Service on or before April 9, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

Social and Economic Statistics  
AdministrationCENSUS ADVISORY COMMITTEE ON  
POPULATION STATISTICS

## Notice of Public Meeting

The Census Advisory Committee on Population Statistics will convene on March 23, 1973, at 9:30 a.m. The Committee will meet in room 2113, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee on Population Statistics was established in 1965 to advise the Director, Bureau of the Census, on current programs, on plans for the 1970 Census of Population and on other matters dealing with the collection and issuance of population statistics.

The Committee is composed of 15 members appointed by the Secretary of Commerce.

The agenda for the meeting includes: (1) Status of 1970 Decennial Census reports, (2) issues in defining statistical areas for census presentations, (3) changes and alternatives in the Consumer Buying Expectation Survey, (4) content of the mid-decade sample survey, and (5) 1970 Census—completeness of coverage and quality of data.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Guidance and Control Officer at least 3 days prior to the meeting.

Persons wishing additional information concerning this meeting should contact the Committee Guidance and Control Officer, Mr. Daniel B. Levine, Associate Director for Demographic Operations, Bureau of the Census, Room 2061, Federal Building 3, Suitland, MD. (Mail address: Washington, D.C. 20233.) Telephone (301) 763-5167.

Dated: March 6, 1973.

JOSEPH R. WRIGHT, JR.,  
Acting Administrator, Social  
and Economic Statistics Administration.

## Food and Drug Administration

## ADVISORY COMMITTEES

## Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972, (Public

Law 92-463, 86 Stat. 770-776), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the Act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Bacterial Vaccines and Bacterial Antigens.	Mar. 16 and 17, 11:30 a.m., Rm. 115, National Institutes of Health, 9000 Rockville Pike, Bethesda, MD.	Open Mar. 16, 11:30 a.m. to 1 p.m., closed Mar. 16 after 1 p.m., closed Mar. 17. Jack Gerzberg (H-5), 5600 Fishers Lane, Rockville, MD 20852, 301-496-1676.

**Purpose.** Reviews and evaluates available data concerning the safety, effectiveness, and adequacy of labeling of currently marketed bacterial vaccines and bacterial antigens for which there are no U.S. standards of potency.

**Agenda.** Continuing review of bacterial vaccines and bacterial antigens under investigation.

Committee name	Date, time, place	Type of meeting and contact person
2. National Advisory Food Committee.	Mar. 26 and 27, 9 a.m., Room 1400, 200 C Street SW., Washington, D.C.	Open—Robert A. Littleford, Ph.D., Room 7-67, 5600 Fishers Lane, Rockville, MD 20852, 301-443-4468.

**Purpose.** Advises the Commissioner of Food and Drugs on policy matters of national significance as they relate to assuring safety of foods. Reviews and makes recommendations on applications for grants-in-aid for research and research training projects relevant to the mission of FDA.

**Agenda.** Funds available for research grants—current situation, and FDA's research activities (contracts, grants, and intramural).

**Agenda items** are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal dis-

cussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided that this type of discussion would remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public

participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.  
[FR Doc. 73-4541 Filed 3-8-73; 8:45 am]

[DESI 2354; Docket No. FDC-D-559;  
NDA 2-354]

CHARLES C. HASKELL DIVISION,  
ARNAR-STONE LABORATORIES, INC.  
Combination Drug Containing Phenobarbital, Acetaminophen, Phenacetin, Atropine Sulfate, Scopolamine Hydrobromide and Hyoscyamine Hydrobromide; Notice of Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of December 23, 1972 (37 FR 28436), extending to Charles C. Haskell Division, Arnar-Stone Laboratories Inc., 601 East Kensington Road, Mount Prospect, IL 60056 and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 2-354 for Hasamal Tablets (phenobarbital, acetaminophen, phenacetin, atropine sulfate, scopolamine hydrobromide and hyoscyamine hydrobromide).

The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

Neither the holder of the application nor any other person filed a written appearance or election within the 30 days provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355) and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 2-354 and all amendments and supplements thereto is withdrawn effective on March 9, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: March 2, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.  
[FR Doc. 73-4542 Filed 3-8-73; 8:45 am]

[DESI 11503]

KANAMYCIN SULFATE INJECTION  
Drugs for Human Use; Drug Efficacy Study Implementation; Follow-Up Notice

In a notice (DESI 11503) published in the FEDERAL REGISTER of January 10, 1970 (35 FR 397), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following preparation containing kanamycin sulfate, stating that this drug is regarded as effective, possibly effective, and as lacking substantial evidence of effectiveness for the various labeled indications.

Kanamycin sulfate, marketed as Kantrex Injection equivalent to 1.0 gm. kanamycin base per 3 milliliters or 500 milligrams kanamycin base per 2 milliliters; Bristol Laboratories, Syracuse, N.Y. 13201.

Kantrex Pediatric Injection, also marketed by Bristol Laboratories, equivalent to 75 milligrams kanamycin base per 2 milliliters, was not submitted to the Academy for review, but is regarded as subject to the announcement of January 10, 1970, and this notice.

Based on a further reevaluation of the reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, and other available evidence, the Commissioner of Food and Drugs finds it appropriate to amend the announcement of January 10, 1970, by:

1. Reclassifying the following possibly effective indications for kanamycin sulfate injection as effective when the condition is caused by staphylococci: Chronic pyelonephritis; pulmonary complications of cystic fibrosis; infected grafts; staphylococcal enterocolitis; acute pyelonephritis, cystitis, and prostatitis.

2. Reclassifying the following possibly effective indications for kanamycin sulfate injection as lacking substantial evidence of effectiveness where the condition is not caused by staphylococci: Chronic pyelonephritis; pulmonary complications of cystic fibrosis; infected grafts; anthrax; acute pyelonephritis, cystitis, and prostatitis.

3. Rewording the kanamycin sulfate injection "Indications" section as follows:

#### INDICATIONS

Kanamycin sulfate is indicated for short-term treatment of serious infections caused by susceptible strains of microorganisms. Bacteriology studies to determine the causative organisms and their susceptibility to kanamycin should be performed. Therapy may be instituted prior to obtaining the results of susceptibility testing.

Kanamycin sulfate may be indicated in the treatment of infections where one or more of the following are the known or suspected pathogens: *E. coli*, *Proteus* species, *Enterobacter aerogenes* (formerly *Aerobacter aerogenes*), *Klebsiella pneumoniae*, *Serratia marcescens* and *Mima-Herellea*. The decision to continue therapy with the drug should be based on results of the susceptibility tests, the severity of the infections, and the important additional concepts contained in the "Warning" box.

Although kanamycin sulfate is not the drug of choice for staphylococcal infections, it may be indicated under certain conditions for the treatment of known or suspected staphylococcal disease. These situations include the initial therapy of severe infections where the organism is thought to be either a gram-negative bacterium or a staphylococcus, infections due to susceptible strains of staphylococci in patients allergic to other antibiotics, and mixed staphylococcal, gram-negative infections.

Batches of drugs with labeling bearing indications for which substantial evidence of effectiveness is lacking are no longer acceptable for certification or release.

Any person who will be adversely affected by the deletion from labeling of

the indications for which the drug has been reclassified from possibly effective to lacking substantial evidence of effectiveness may on or before April 9, 1973, petition for the issuance of a regulation providing for other certification of the drug for such indications. The petition must be supported by a full factual and well documented medical analysis which shows reasonable grounds for the issuance of such regulation.

The petition for issuance of said regulation should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1051-51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: March 3, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.  
[FR Doc. 73-4544 Filed 3-8-73; 8:45 am]

#### ACUPUNCTURE DEVICES LABELING Notice to Manufacturers, Packers and Distributors

The Commissioner of Food and Drugs is aware of the current interest in the United States surrounding the use of acupuncture needles, stimulators, and other accessories for medical purposes. Acupuncture paraphernalia are being imported into this country and are also being manufactured domestically for various medical uses, including the treatment and diagnosis of serious diseases, anesthesia, and pain relief. These products are devices and must comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act.

It is the position of the Food and Drug Administration that the safety and effectiveness of acupuncture devices have not yet been established by adequate scientific studies to support the many and varied uses for which such devices are being promoted, including uses for analgesia and anesthesia. Although various theories have been advanced as to how medical results can be obtained through the use of acupuncture, none has been proved or generally accepted, and there is a body of scientific opinion which questions the safety and effectiveness of acupuncture in many of the uses for which it is now being applied.

Under the Federal Food, Drug, and Cosmetic Act, all devices must be properly labeled to be in compliance with the law. Devices which are not safe for use by the laity, or for which adequate directions cannot be written for safe use by the laity, must be labeled as prescription devices and must be accompanied by labeling which provides the prescribing practitioner with adequate directions for their safe and effective use. Because the

safety and effectiveness of acupuncture devices have not yet been adequately demonstrated, and labeling therefore cannot be devised, which would provide adequate directions for safe and effective use, they may not be labeled in accordance with the requirements for prescription devices as stated in 21 CFR 1.106(d). Until evidence is obtained demonstrating that acupuncture is a safe and effective medical technique, acupuncture devices must be limited to investigational or research use.

Current Food and Drug Administration regulations do not contain specific provisions governing the shipment of investigational devices in interstate commerce for clinical research or experimental use. The Commissioner of Food and Drugs is aware of the need for such regulations to provide adequate guidance as to the labeling for experimental devices to be used on human beings. Therefore, the Commissioner intends to publish at a later date proposed regulations which would govern all investigational devices. In the interim, this notice will apply to all acupuncture devices.

In order to establish guidelines under which manufacturers, packers, and distributors can properly label acupuncture devices for investigational use, the Food and Drug Administration met on September 22, 1972, with individuals concerned with the use of acupuncture in the United States. These included representatives of the States of California and New York, the city of New York, the American Society of Anesthesiologists, the National Institutes of Health, the Federation of State Medical Boards, the American Medical Association, medical practitioners, and the Food and Drug Administration Medical Device Advisory Committee. It was the consensus of this group that acupuncture devices should be restricted to investigational use by licensed practitioners and that the labeling for these devices should include this restriction in addition to other information.

Accordingly, the Commissioner of Food and Drugs concludes that until substantial scientific evidence is obtained by valid research studies supporting the safety and therapeutic usefulness of acupuncture devices, the Food and Drug Administration will regard as misbranded any acupuncture device shipped in interstate commerce if the following information does not appear in the labeling:

- The name of the device.
- The name and place of business of the manufacturer, packer, or distributor.
- An accurate statement of the quantity of the contents.
- The composition of the device and whether it is sterile, nonsterile, reusable, or disposable.
- The dimension or other pertinent physical characteristics of the device.
- The following statement: "Caution: Experimental device limited to investigational use by or under the direct supervision of a licensed medical or dental practitioner. This device is to be used only with informed consent under conditions designed to protect the patient as a research subject, where the scientific protocol for investigation has been reviewed and approved by an appropriate institutional review committee, and where conditions for such use are in accordance with State law."

Instructions for the use of the device for the purpose for which it is being investigated and, to the extent such information is known, any human hazards, contraindications, precautions, or side effects associated with its use, should be provided to researchers and investigators. The Food and Drug Administration, however, will regard as misbranded any acupuncture device shipped in interstate commerce if accompanied by claims of diagnostic or therapeutic effectiveness.

Pending promulgation of separate regulations for conducting clinical investigations of investigational devices, researchers and investigators shall assure adequate informed consent and institutional committee review for such investigations, utilizing as a guideline the standards established for investigational drugs in 21 CFR 130.37 and in Division 10, unit C of form FD-1571, in 21 CFR 130.3 (a) (2).

Dated: February 21, 1973.

SHERWIN GARDNER,  
Deputy Commissioner  
of Food and Drugs.  
[FR Doc. 73-4540 Filed 3-8-73; 8:45 am]

[Docket No. FDC-D-255; NDA 11-370 etc.;  
DESI 10732]

#### LAVEMA COMPOUND SOLUTION AND LAVEMA ENEMA POWDER

Final Order on Objections and Request for a Hearing Regarding Withdrawal of Approval of New Drug Application

In the FEDERAL REGISTER of September 30, 1971 (36 FR 19184), the Food and Drug Administration announced its evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on several preparations containing oxyphenisatin, including Lavema Compound Solution and Lavema Enema Powder. Winthrop Laboratories, Division of Sterling Drug, Inc., 90 Park Avenue, New York, NY 10016 (NDA's 12-587 and 11-370; DESI 10732).

The announcement stated that new evidence of clinical experience, not contained in the new drug applications or evaluated together with the evidence available to the Commissioner until after the applications were approved, evaluated together with the evidence available to the Commissioner when the applications were approved, reveals that oxyphenisatin base and acetate are not shown to be safe for use under the conditions of use contained in the approved applications. The announcement further stated the conclusion of the Food and Drug Administration that in view of the hazards associated with the use of oxy-

phenisatin, including hepatitis and jaundice, and the availability of alternative drugs having a wider margin of safety, the ratio of benefit-to-risk with either orally or rectally administered drugs containing oxyphenisatin base or acetate, does not justify their continued marketing.

#### II. RECOMMENDED USES

Lavema Compound Solution is recommended: For use as a cleansing enema for fecal impaction; for removal of barium following barium enema; for constipation on isolated occasions; prior to proctosigmoidoscopic examination; for preoperative preparation of the lower bowel; and postoperatively. Lavema Enema Powder is recommended: For use as a cleansing enema before roentgenography; before proctosigmoidoscopic and fluoroscopic examination of the colon; for preoperative preparation of the large intestine; and for administration on isolated occasions to patients with severe constipation not relieved by aqueous enemas. Lavema Enema Powder is also recommended for use as a barium enema adjuvant.

#### III. GENERAL OBJECTIONS

In its request for an opportunity for a hearing, Winthrop Laboratories contends that FEDERAL REGISTER notice of October 29, 1971, is defective and/or incorrect in several important respects: Lavema contains oxyphenisatin base compared to oxyphenisatin acetate which is present in the oral laxative preparations which were also subject to the October 29, 1971, order; the Lavema drugs are administered by the rectal rather than the oral route; Lavema drugs are prescription drugs rather than over-the-counter drugs, as is the case with the laxatives; the laxatives contain the wetting agent, dioctyl sodium sulfosuccinate, which is not present in the enemas; the laxative is intended for repeated administration while the enemas are intended for single dose administration; the orally administered preparation is present in the bowel for at least 8 hours; the enema is administered in the hospital while the laxative may be taken outside of the hospital; there have been no reports associating the use of Lavema with liver toxicity; and the alternative enemas, mainly saline, have been associated with toxic reactions. Winthrop has submitted the affidavit of Monroe Trout, M.D., Medical Director of Sterling Drug, Inc., in support of these contentions. Each of these points will be discussed in order.

The announcement provided an opportunity for a hearing on withdrawal of the new drug applications for Lavema Compound Solution and Lavema Enema Powder (NDA's 12-587 and 11-370). Thirty days were allowed for filing a written appearance requesting a hearing by any interested persons giving the reasons why approval of the new drug applications should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data they were prepared

#### NOTICES

to prove in support thereof. A request for a hearing was submitted by Winthrop Laboratories, Division of Sterling Drug, Inc., on October 29, 1971.

The medical presentation of Winthrop Laboratories has been considered, and the Commissioner of Food and Drugs concludes that there is no genuine and substantial issue of fact requiring a hearing and that the legal arguments offered are insubstantial, all as explained in more detail below.

#### I. THE DRUGS

Lavema Compound Solution is a disposable enema kit, supplied in 180 ml. bottles, containing a liquid solution which has oxyphenisatin base as its active ingredient. Lavema Enema Powder is a powder preparation, supplied in 3 gm. packets, which has oxyphenisatin base as its active ingredient.

1. *Lavema contains oxyphenisatin in the unacetylated compound while the orally administered laxatives contained oxyphenisatin acetate.* The sponsor states that the acetate is more soluble while the unacetylated base form is less soluble, and implies that the base is less absorbed than the acetate from the gastrointestinal tract. However, Winthrop does not present adequate scientific evidence to support this suggestion or to show that, in fact, it results in greater safety. While the acetate form of various compounds is frequently more soluble, in the case of oxyphenisatin both the acetate and the base are quite insoluble and are not readily absorbed. The "U.S. Dispensary and Physicians' Pharmacology," J. B. Lippincott Co., 1967, pages 796-797. It has been found that the unacetylated form of oxyphenisatin is more readily absorbed than the acetate form and evidence indicates that the oxyphenisatin acetate has to be deacetylated and converted to the unacetylated form in order for detectable absorption to occur. G. Ferlmann and W. Vogt, "Deacetylation and Absorption of Phenolic Laxatives," Arch. Exptl. Pathol. Pharmacol. 250(4), 479-487 (1965). Since Winthrop has failed to present adequate scientific data to refute this evidence or to support its own contention, the Commissioner finds a lack of evidence of safety on this point.

2. *Lavema is administered rectally while the laxatives are administered orally.* The sponsor attaches two points of significance to this fact, both of which are discussed under points 5 and 6 below.

3. *The Lavema drugs are prescription items administered in the hospital under the supervision of a physician which will severely decrease the likelihood of toxic liver reaction.* Winthrop presented no evidence to support this contention, and fails to show that the administration of the drug under a doctor's supervision may severely decrease the likelihood of toxic liver reaction if the toxic liver reaction is based on hypersensitivity (see point 5 below). The close observation by a physician may facilitate the early diagnosis of toxic liver reaction, but would not prevent the occurrence of such re-

action. The Commissioner therefore finds inadequate evidence of safety with respect to this point.

4. *The oral preparation contains a wetting agent (dioctyl sodium sulfosuccinate).* Winthrop asserts that the presence of this wetting agent is likely to enhance the absorption of the drug. This is a theoretical possibility. However, Winthrop presents no scientific evidence to document this theory. The wetting agent is irrelevant with respect to absorption since oxyphenisatin acetate largely remains in the unabsorbable acetate form in the bowel. The Commissioner therefore finds a lack of adequate evidence of safety to support the theoretical contention made in this point.

5. *Frequency of administration.* Winthrop states, that, based on the literature reports, the liver toxicity apparently is dependent on number of doses and that if the liver toxicity is due to hypersensitivity reaction, one would not expect it to occur with Lavema, which is usually given as a single treatment. This point is based on Winthrop's speculation of a decreased likelihood of Lavema being associated with toxic liver reaction whether this reaction is on a dose-related basis or on a hypersensitivity basis. However, as Winthrop readily admits, the exact mechanism of the toxic action of oxyphenisatin has not been determined at the present time. The law requires the sponsor to determine by scientific evidence that a drug is safe, rather than relying upon speculation and hypothesis. It is therefore incumbent upon Winthrop to show the mechanism for this toxicity. In the absence of well-documented evidence for the mechanism of the toxic reaction, it cannot be assumed that the drug administered as a single rectal dose will not cause hepatic toxicity. The Commissioner therefore finds a lack of adequate safety data to support this point.

6. *The rectally administered preparation is expelled within 15 to 30 minutes while the oral preparation is subject to absorption for at least 8 hours.* Two important facts must be taken into consideration here. First, the orally administered drug, as pointed out above, apparently must undergo deacetylation prior to any significant amount of absorption as the base. On the other hand, the rectally administered drug is already in the base and it is more suitable for absorption immediately after insertion in the body. Second, the dose administered is quite different. The oral product contains 3 milligrams of oxyphenisatin and the recommended dose is one capsule twice a day. In contrast, the rectally administered product contains 20 milligrams of oxyphenisatin base. In spite of these facts, Winthrop has submitted no scientific data to support its theory that the shorter period of exposure associated with the rectal product results in less absorption or greater safety. The Commissioner therefore finds a lack of proof of safety on this point.

#### NOTICES

7. *The enema is administered in the hospital.* This contention is discussed under point 3 above.

8. *There are no reports of association of liver toxicity with the use of Lavema.* The lack of adverse reaction reports, which are available on an ad hoc basis, does not constitute or substitute for adequate scientific evidence of safety. Toxic reactions may go unnoticed or unreported, or may not properly be associated with the causative drug. Only scientific studies can adequately show safety. Potential toxicity exists with Lavema as well as with the orally administered agents, and the law requires the sponsor of the drug to prove safety.

9. *The alternative methods which may be used instead of Lavema are not without toxicity.* Winthrop states that the saline type of enemas may be associated with aberrations of electrolyte balance in anuric patients. But this potential danger exists primarily in patients who already have extremely severe renal disease, and a physician using enemas in the hospital will be able to identify and exclude that type of patient very easily.

Furthermore, there are enemas safer than the Lavema drugs that are available for use for the conditions for which the Lavema drugs are recommended. First, for use before proctosigmoidoscopy and before roentgenography examination of the colon, an ordinary saline enema, a warm water and soap suds enema, a tap water enema if renal problems are expected, a glycerine suppository or any safe cathartic that does not contain oxyphenisatin are safer for use than the Lavema drugs. Second, for preoperative preparation of the large intestine, a warm saline enema or a warm water and soap suds enema is safer than the Lavema drugs. Third, for isolated cases of severe constipation not relieved by aqueous enemas, a stimulant cathartic (other than oxyphenisatin) with or without a saline or soap suds and water enema is safer for use than the Lavema drugs. Fourth, for fecal impaction, an oil retention enema, containing mineral, cottonseed or olive oil, or manual dilatation are safer for use than the Lavema drugs. Fifth, as a barium enema adjuvant, air insufflation is safer than use of the Lavema drugs. Sixth, for removal of barium following a barium enema, an oral cathartic laxative not containing oxyphenisatin is safer for use than the Lavema drugs. Finally, use of enemas postoperatively is uncommon. When an enema is needed for this indication, the saline enema and soap suds and water enema are safer for this use than the Lavema drugs.

#### IV. THE DATA TO SUPPORT THE CLAIMS OF SAFETY

Winthrop has submitted the reports of three unpublished studies conducted for it, which it contends constitute substantial evidence of safety of the Lavema products, and a lengthy list of medical endorsements.

#### A. THE STUDIES

1. The first report submitted consists of a study conducted by J. O. Hoppe con-

taining the following information from animal studies concerning dihydroxyphenylisatin: toxicity, irritation, information on mode of action, and how it differs from tannic acid. The Commissioner notes that tannic acid is a highly toxic drug. It is assumed that the researcher had hoped to show dihydroxyphenylisatin less toxic than tannic acid.

The acute toxicity studies were conducted with dihydroxyphenylisatin both intravenously and orally on mice. The oral dosage was a suspension form of the drug, while the clinical form of the drug is a solution.

The dihydroxyphenylisatin irritation tests were conducted on rabbits. The study shows a degree of irritation which may be clinically significant.

The investigator himself concluded that he lacked sufficient data to permit a free discussion of the mode of action of dihydroxyphenylisatin and stated that he had not conducted a comparative study of the drug with tannic acid.

2. The second report was submitted by F. Coulston, H. P. Drobeck, and M. Renne, who conducted a study for Winthrop to determine the irritant effect of 0.02 percent of dihydroxyphenylisatin on the rectal mucosa of monkeys. The results of this study showed that a single rectal installation of 0.02 percent solution (only two times the maximum clinical concentration) had the potential for causing slight to moderate visible hyperemia of the rectal mucosa while an equal volume of saline solution administered in a similar manner had no effect.

3. The third study, conducted for Winthrop by J. O. Hoppe and Mr. Brosseau, was conducted to duplicate experimentally a collapse syndrome detected in elderly patients following a barium enema containing Lavema. The authors state that five experiments were conducted on dogs, although the report indicates that one experiment was carried out on five dogs by administration of varying amounts of Lavema.

Although the results failed to confirm the clinical reports of adverse cardiovascular effects, an adequate evaluation of the potential cardiovascular activity of oxyphenisatin would require parenteral studies as well.

4. *Summary.* The animal data are not sufficient to give a proper characterization of the potential toxicity of Lavema. They do indicate that oxyphenisatin base is irritating enough for one to be legitimately concerned about potential clinical irritancy. No data were submitted to show that Lavema is not toxic to the liver. Based on these studies, the Commissioner finds that Winthrop Laboratories has not submitted adequate evidence of safety of Lavema.

#### B. THE MEDICAL ENDORSEMENTS

Winthrop has submitted comments from approximately 66 physicians who have administered the Lavema drugs to their patients at Winthrop's request. These comments are testimonials at best and do not comprise in any manner adequate proof of safety. Moreover, none of these physicians makes any reference to

any adequate scientific studies having been conducted on the Lavema drugs to establish their safety in use. No pre- or post-clinical data for the evaluation of the safety of the Lavema drugs is presented in any of these statements. The large numbers of clinical cases referred to in the comments are not documented with actual patient data.

#### V. LEGAL OBJECTIONS

For the reasons discussed below, Winthrop's objections are insubstantial and inapplicable to this withdrawal.

Winthrop cites "Bell v. Goddard," 366 F. 2d 177, 181 (C.A. 7, 1966) for the proposition that the Commissioner must show that one or more of the grounds for withdrawal under section 505(e) have been met. Winthrop contends that this condition has not been met since there is no new evidence of clinical experience relating to Winthrop's product which reveals that it is unsafe in use. However, as discussed in detail in the introduction to this order and under Part III above, jaundice, hepatitis, and liver hypersensitivity have been demonstrated to occur in the acetate form. The acetate when orally ingested is converted to the base, the form in which the drug is absorbed and which is responsible for its laxative action. The base form is the sole active ingredient in the Lavema drugs. Winthrop has presented no scientific evidence whatever to show how this evidence is inapplicable to the Lavema products.

Winthrop also objects to the Commissioner's conclusion that the ratio of benefit-to-risk with either orally or rectally administered drugs containing oxyphenisatin, base or acetate, does not justify their continued marketing, on the ground that this is an opinion. Winthrop has filed the affidavit of Dr. Monroe Trout, in support of this contention. Dr. Trout's affidavit has already been discussed (Part III, above). Moreover, the law requires that Winthrop submit evidence consisting of adequate tests by all methods reasonably applicable to demonstrate that the Lavema drugs are safe for use for their labeled conditions. Since new evidence of clinical experience reveals that the Lavema drugs are not shown to be safe and Winthrop has failed to submit any adequate scientific studies to demonstrate the Lavema drugs to be safe, the Act mandates that the new drug applications be withdrawn. The Commissioner has reached a legal conclusion, not merely issued an advisory opinion.

The Winthrop position appears to be bottomed on the contention that, once a drug is marketed, the Commissioner must permit it to remain on the market absent of clear proof of harm. The statute, however, provides that the burden of proving safety remains forever on the drug's sponsor. The Commissioner need find, as he did in this case, only that new evidence shows that the sponsor has failed to satisfy its burden of proving safety, in order to withdraw the new drug application. 21 U.S.C. 355(e) (2).

In this instance, Winthrop relies solely upon theory and hypothesis unsupported by scientific tests; upon animal studies

not even related to the toxicity question involved; and upon testimonials from physicians that do not purport to be based on scientific tests. Winthrop has failed to identify even one scientific study to support its contentions. Accordingly, there is no possible basis for a finding that the drug has been proved safe.

#### VI. FINDINGS

The Commissioner, based on the review of the medical documentation offered to support the claims of safety for Lavema compound solution and Lavema enema powder finds that Winthrop Laboratories, Division of Sterling Drug, Inc., has failed to present adequate evidence of safety for these products. Therefore, pursuant to 21 CFR 130.14(b), the request of Winthrop Laboratories for a hearing on the withdrawal of the new drug application for Lavema compound solution and Lavema enema powder is denied. No objection or documentation was presented by any other firms and, in accordance with the provisions of 21 CFR 130.15, this failure is construed as an election by any other firm not to avail itself of the opportunity for the hearing.

The Commissioner further finds that the approval of the new drug application heretofore approved for Lavema compound solution and Lavema enema powder (NDA's 12-587 and 11-370) should be withdrawn on the basis of a lack of substantial evidence of safety.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052-1053, 1055-1056, as amended, and 76 Stat. 781-785, as amended; 21 U.S.C. 355, 371), and under authority delegated to the Commissioner (21 CFR 2.120), notice is given that the approval of the new drug applications for Lavema compound solution and Lavema enema powder (NDA's 12-587 and 11-370) are withdrawn, effective immediately.

Dated: March 6, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

#### DEPARTMENT OF TRANSPORTATION

##### Coast Guard

[CGD 73-39N]

##### SHELL OIL CO.

##### Notice of Qualification as Citizen of United States

This is to give notice that pursuant to 46 CFR 67.23-7, issued under the provisions of section 27A of the Merchant Marine Act, 1920, as added by the Act of September 2, 1958 (46 U.S.C. 883-1), the Shell Oil Company of 1 Shell Plaza, Houston, TX 77001, incorporated under the laws of the State of Delaware, did on February 14, 1973, file with the Commandant, U.S. Coast Guard, in duplicate, an oath for qualification of a corporation as a citizen of the United States following the form of oath prescribed in Form CG-1260.

The oath shows that:

(a) A majority of the officers and directors of the corporation are citizens of

the United States (list of names, home addresses, and citizenship attached to the oath);

(b) Not less than 90 percent of the employees of the corporation are residents of the United States;

(c) The corporation is engaged primarily in a manufacturing or mineral industry in the United States, or in a territory, district, or possession thereof;

(d) The aggregate book value of the vessels owned by the corporation does not exceed 10 percent of the aggregate book value of the assets of the corporation; and

(e) The corporation purchases or produces in the United States, its territories, or possessions not less than 75 percent of the raw materials used or sold in its operations.

The Commandant, U.S. Coast Guard, having found this oath to be in compliance with the law and regulations, on February 19, 1973, issued to the Shell Oil Co. a certificate of compliance on Form CG-1262, as provided in 46 CFR 67.23-7. The certificate and any authorization granted thereunder will expire 3 years from the date thereof unless there first occurs a change in the corporate status requiring a report under 46 CFR 67.23-7.

Dated: March 2, 1973.

W. F. REA, III,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Merchant  
Marine Safety.

#### Federal Aviation Administration

##### APPLICATION OF AREA NAVIGATION IN NATIONAL AIRSPACE SYSTEM

##### Policy Regarding Implementation of Area Navigation Concepts Recommended by Joint FAA/Industry Task Force

##### Correction

In FR Doc. 73-4366, appearing at page 6093 for the issue for Tuesday, March 6, 1973, the fifth paragraph should read as follows:

Any interested person who wishes to express his views or comment with respect to this report may do so by submitting them in writing to the Federal Aviation Administration, Air Traffic Service, Chief, Automation Division, AAT-500, 800 Independence Avenue SW., Washington, DC 20591. Individual copies of the report may be obtained from the above address. All communications received prior to May 31, 1973, will be considered in the formulation of a final policy.

##### ADVISORY COUNCIL ON INTERGOVERNMENTAL PERSONNEL POLICY

##### RECOMMENDATIONS REGARDING PERSONNEL POLICIES AND PROBLEMS

##### Notice of Closed Meeting

Pursuant to the provisions of section 10 of Public Law 92-463, effective Jan-

uary 5, 1973, notice is hereby given that a meeting of the Advisory Council on Intergovernmental Personnel Policy will be held on: Wednesday and Thursday, March 14 and 15, 1973.

The meeting will convene at 1 p.m. and will be held in the Tack Room, Airlie House, Warrenton, Va.

The Advisory Council's responsibility is to study and make recommendations regarding personnel policies and programs for the purpose of—

Improving the quality of public administration at State and local levels of government, particularly in connection with programs that are financed in whole or in part from Federal funds;

(2) Strengthening the capacity of State and local governments to deal with complex problems confronting them;

(3) Aiding State and local governments in training their professional, administrative, and technical employees and officials;

(4) Aiding State and local governments in developing systems of personnel administration that are responsive to the goals and needs of their programs and effective in attracting and retaining capable employees; and

(5) Facilitating temporary assignments of personnel between the Federal Government and State and local governments and institutions of higher education.

At this scheduled meeting the Council will establish its specific priority areas of concern for the next several months and develop work plans for study and deliberations with regard to those areas.

The meeting will be closed to the public under a determination to do so, made under the provisions of section 10(d) of Public Law 92-463.

However, members of the public are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Council's attention. Such material should be addressed to: Chairman, Advisory Council on Intergovernmental Personnel Policy, Room 2315, 1900 E Street NW., Washington, DC 20415, Attention: Executive Secretary.

E. C. WAKHAM,  
Executive Secretary, Advisory  
Council on Intergovernmental  
Personnel Policy.

[Docket No. 50-263]

#### NORTHERN STATES POWER CO.

##### Notice and Order Scheduling Prehearing Conference

In the matter of Northern States Power Co. (Monticello Nuclear Generating Plant), Docket No. 50-263.

Notice is hereby given that, in accordance with the Commission's "Notice of Hearing on a Facility Operating License", dated December 19, 1972, and published in the FEDERAL REGISTER on December 27, 1972 (37 FR 28544), a prehearing conference will be held in the above-captioned proceeding on Wednesday, March 28, 1973, at 10 a.m., local time, in Courtroom 4, U.S. Federal Courthouse, 316 North Roberts Street, St. Paul, MN 55101.

The prehearing conference shall deal with the following matters:

1. Further identification and clarification of the issues.
2. The status of any discovery initiated by the parties.
3. The need for further discovery, and the time required to complete preparation for the evidentiary hearing.
4. Any pending motions.
5. Scheduling of the evidentiary hearing.

The attorneys for the respective parties are directed to confer in advance of the prehearing conference, in such manner as they deem appropriate, and to report to the licensing board at said conference on any stipulations regard-

ing matters in controversy, on any informal discovery that can be arranged between the parties, and on any other mutually agreeable procedures to expedite this proceeding.

Members of the public are welcome to attend the prehearing conference. However, no evidence will be received at the prehearing conference on March 28, 1973, which will consist of a conference of counsel for the various parties with the board to develop procedures for the evidentiary hearing which will be scheduled for a later date. Members of the public are invited to attend the evidentiary hearing, at which time statements of persons making limited appearances will be received. Notice of the date of the commencement of the evidentiary hearing will be given, both by publication in the FEDERAL REGISTER and by notice sent by mail directly to all members of the public who have requested to be so notified.

Issued at Washington, D.C., this 5th day of March 1973.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD,  
ROBERT M. LAZO,  
Chairman.

[Dockets Nos. 50-259, etc.]

#### TENNESSEE VALLEY AUTHORITY

##### Notice of Conclusion With Respect to Issuance of Operating License and Continuation of Construction Permits

The Tennessee Valley Authority (the licensee), an agency of the Federal Government, is the holder of Provisional Construction Permits Nos. CPFR-29, CPFR-30, and CPFR-48, issued by the Atomic Energy Commission (Commission) on May 10, 1967, and July 31, 1968, respectively. The construction permits authorize the licensee to construct three boiling-water nuclear reactors designated as the Browns Ferry Nuclear Plant Units 1, 2, and 3, at the licensee's site in Limestone County, Ala. Each reactor is designed for initial operation at steady-state power levels not to exceed 3,293 megawatts thermal.

On September 1, 1972, in accordance with the provisions of the National Environmental Policy Act of 1969, the licensee issued an environmental statement prepared by it which evaluated the effects on the environment of the construction and operation of units 1, 2, and 3. A notice of availability of the environmental statement was published in the FEDERAL REGISTER on September 23, 1972 (37 FR 20052).

In accordance with the provisions of section C of Appendix D of 10 CFR Part 50 of the Commission's regulations and based on the information contained in that environmental statement which includes the weighing of the environmental, economic, technical, and other benefits against environmental costs and considering available alternatives, the Director of Regulation has concluded

with respect to environmental matters that the construction permits issued for units 2 and 3 should be continued and that an operating license should be issued for unit 1. Copies of the licensee's document entitled "Environmental Statement, Browns Ferry Nuclear Plant, Units 1, 2, and 3—Volumes 1, 2, and 3," are available for inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545 and at the Athens Public Library, South and Forrest, Athens, Ala. 35611.

Dated at Bethesda, Md., this 5th day of March 1973.

For the Atomic Energy Commission.

A. GIAMBUSSO,  
Deputy Director, for Reactor  
Projects, Directorate of Li-  
censing.

#### TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

##### Notice of Availability of Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the final environmental statement prepared by the Commission's Directorate of Licensing, related to the proposed continuation of the construction permit for the Davis-Besse Nuclear Power Station, currently under construction by The Toledo Edison Co. and The Cleveland Electric Illuminating Co. in Ottawa County, Ohio, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in the Ida Rupp Public Library, Port Clinton, Ohio 43452. The final environmental statement is also being made available at the Office of the Governor, State Clearinghouse, 62 East Broad Street, second floor, Columbus, OH 43215.

The notice of availability of the draft statement for the Davis-Besse Nuclear Power Station, and requests for comments from interested persons was published in the FEDERAL REGISTER on November 25, 1972, 37 FR 25065. The comments received from Federal, State, and local officials and interested members of the public have been included as appendices to the final statement.

Single copies of the final statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this fifth day of March 1973.

For the Atomic Energy Commission.

[Docket No. 24412]

##### SERVICE TO RICHMOND CASE

##### Notice of Postponement of Hearing

Notice is hereby given that the hearing in the above-entitled proceeding originally noticed for March 20, 1973 (38 FR 4284, Feb. 12, 1973), has been postponed. It will be held on April 10, 1973, at 10 a.m. (local time), in room 503, Universal Building, 1825 Connecticut Avenue NW, Washington, DC.

The time for filing answers is extended to March 30, 1973.

Dated at Washington, D.C., March 6, 1973.

FRANK M. WHITING,  
Administrative Law Judge.

[FR Doc. 73-4618 Filed 3-8-73; 8:45 am]

[Docket No. 25279; Order 73-3-6]

##### SHULMAN AIR FREIGHT, INC. AND EMERY AIR FREIGHT CORP.

##### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 5th day of March 1973.

By tariff filed February 2 and marked

11. Shulman Air Freight, Inc. Tariff C.A.B. No.

to become effective March 6, 1973, Shulman Air Freight, Inc. (Shulman) proposes to establish rules and rates for expedited movement of small packages under a service to be called "SkyCab Service." The service would be limited to shipments of 50 pounds or less, and having a total circumference (length plus width plus height) of 90 inches and a value of \$50 unless a higher value, not exceeding \$10,000, is declared. The special services provided are indicated in the tariff to consist of (1) special dispatch of pickup and/or delivery vehicle, (2) forwarding to provide earliest arrival, (3) "constant" surveillance and protection of the shipment through segregation from other shipments, (4) pickup within 75 minutes from time forwarder receives the shipper's instructions and dispatch of delivery vehicle within 30 minutes from the time that the shipment is made available by the direct air carrier, and (5) at shipper's request and subject to an additional charge, telephone notification of time of delivery.

The rates proposed are quoted in three ways: Door-to-door, origin airport-to-destination airport, and consignor's door-to-destination airport. The rates would be roughly twice the rates for standard general commodity shipments, with the door-to-door rates somewhat higher than the rates including only pickup or delivery service. The tariff provides that, in cases that the forwarder does not provide all of the foregoing services, a refund of half of the charges would be made for door-to-door shipments and of \$15 per shipment for those transported on a door-to-airport or airport-to-door basis.

The refund for shipments on a door-to-airport or airport-to-door basis appears inadequate and raises question of reasonableness and unjust discrimination. The anomaly in the refund schedule is further brought out by a comparison with the refund for door-to-door shipments. In the case of nonperformance of any of the special services offered in the tariff, the charges for door-to-door shipments will actually be less than the charges for the former. For example, the door-to-door tariff charge proposed for markets in Shulman's scale 8 is \$111, of which half will be refunded in case of nonperformance, leaving \$55.50 as the charge paid. For service without pickup or delivery, the charge proposed is \$105.50, of which \$15 is refunded, leaving \$90.50 as the charge paid, or 65 percent more for less service. Shulman presents no support for the foregoing differences.

In the above circumstances, the Board finds that the proposed tariff may be unjust, unreasonable, unjustly discriminatory, unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that the tariff should be suspended pending investigation.

\* Additional charges are provided for values above \$50.

Emery Air Freight Corp. (Emery) already has in effect a tariff rule offering at additional charges expedited small package service, called VIP service. This rule provides for services similar to Shulman's proposal, but does not contain any provision offering any refund in case of nonperformance of the special services listed.

We believe that there is no justification for Emery's omission of a refund rule with respect to a premium service for which additional charges are made. The Board, by Order 70-10-140, dated October 29, 1970, suspended pending investigation a small package tariff rule proposed by Western Air Lines, Inc., that contained no refund provision, stating, inter alia, that it "sees no reason why a carrier should be allowed to offer a special service at a premium rate, and then not provide for a refund to shippers in the event of nonperformance of that service."

Consistent with the above, and upon consideration of all relevant matters, the Board also finds that Emery's VIP Service rule may be unjust, unreasonable, unjustly discriminatory, unduly preferential or unduly prejudicial or otherwise unlawful, and should be investigated.

Accordingly, pursuant to the Federal Aviation Act of 1958 and particularly sections 204(a) and 1002 thereof,

It is ordered that:

1. An investigation is instituted to determine whether the provisions in Rule No. 150 on 2d Revised Page 14-A, 2d Revised Page 14-B, 1st Revised Page 14-C, 1st Revised Page 14-D, 3d Revised Page 14-E, 3d Revised Page 14-F, and 10th Revised Page 15 of Emery Air Freight Corp.'s C.A.B. No. 45 including subsequent revisions and resubmissions thereof, and Shulman Air Freight, Inc.'s C.A.B. No. 11, and rules, regulations, or practices affecting such provisions are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, Shulman Air Freight, Inc.'s C.A.B. No. 11 is suspended and its use deferred to and including June 3, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 25379 be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with Shulman Air Freight, Inc.'s tariff and served upon Emery Air Freight Corp. and upon Shulman Air Freight,

\* Emery Air Freight Corp., Tariff C.A.B. 45, Rule 150.

## NOTICES

Inc., which are hereby made parties to Docket 25279.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,  
Secretary.

#### COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SE- VERELY HANDICAPPED

##### PROCUREMENT LIST

##### Notice of Proposed Additions to the Initial List

Notice is hereby given pursuant to section 2(a)(2) of the Act to Create a Committee on Purchases of Blind-Made Products, as amended, 85 Stat. 79, of the proposed addition of the following commodities to the Initial Procurement List published on pages 16982 through 16997 of the FEDERAL REGISTER of August 26, 1971.

CLASS 6530

Bag, Patient's Effects..... 6530-715-0915

CLASS 8460

Suitcase, Cotton Duck, Sage Green..... 8460-391-0502

Not later than April 9, 1973, comments and views regarding the proposed addition may be filed with the Committee. Communications should be addressed to the Executive Director, Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, VA 22201.

By the Committee.

CHARLES W. FLETCHER,  
Executive Director.

#### COST OF LIVING COUNCIL

[Cost of Living Council Order No. 15A]

#### COMMISSIONER OF INTERNAL REVENUE

##### Delegation of Authority

Pursuant to the authority delegated to the Director by Cost of Living Council Order No. 14 (38 FR 1489, Jan. 12, 1973), it is hereby ordered as follows:

There is hereby delegated to the Commissioner of Internal Revenue (the Commissioner), or his duly authorized agent, the authority to sign and issue subpoenas for the attendance and testimony of witnesses and the production of relevant books, papers, and other documents, and to administer oaths, all in accordance with Section 206 of the Economic Stabilization Act of 1970, as amended, for the purpose of exercising, with respect to rentals of residential real property, any authority delegated to the Commissioner by Cost of Living Council Order No. 15 (38 FR 1489, Jan. 12, 1973).

The authority hereby delegated is in addition to the authority delegated to the Commissioner by Cost of Living Council Order No. 15.

Issued in Washington, D.C., on March 5, 1973.

JAMES W. McLANE,  
Deputy Director,  
Cost of Living Council.

[FR Doc. 73-4613 Filed 3-8-73; 8:45 am]

#### COUNCIL ON ENVIRONMENTAL QUALITY

##### ENVIRONMENTAL IMPACT STATEMENTS

##### Notice of Public Availability

Environmental impact statements received by the Council from February 26 through March 2, 1973.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

##### DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, 202-447-7603.

##### AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

Final, February 22

New Beet Sugar Area, Hillsboro, N. Dak., and Minnesota. The proposed action is the commitment (under the Sugar Act of 1948) of 30,000 acres of Red River Valley to the production of sugar beets, which will serve a new beet processing facility in Hillsboro, N. Dak. Counties involved are Traill, Cass, and Walsh in North Dakota, and Norman in Minnesota. (31 pages) Comments made by: EPA. (ELR Order No. 00294) (NTIS Order No. EIS 73 0294-F)

##### FOREST SERVICE

Draft, February 27

Herbicide Use \* \* \* Malheur, Umatilla, Walla-Walla, Whitman, Oreg. Counties: Several. The statement refers to the proposed use of the herbicides 2,4-D, 2,4,5-T, 2,4,5-TP, Amitrole T, Dicamba, and Picloram on the three national forests in north-eastern Oregon. Counties affected will be Baker, Harney, Morrow, Grant, Malheur, Umatilla, Union, Walla, and Wheeler. The chemicals will be used in reforestation, site preparation, utility and road right-of-way maintenance, range revegetation and noxious weed and poison plant control. The herbicides will be put into the environment in varying amounts; nontarget species will be affected. (381 pages) (ELR Order No. 00323) (NTIS Order No. EIS 73 0323-D)

Final, February 28

Fish Creek Winter Sports Site, Alaska. The statement refers to the proposed development of 3,400 acres of the Tongass National Forest as a winter sports site. The area will have a potential capacity of from 4,000 to 5,000 skiers. Development of the area, which is 3 miles from the Juneau Airport, will affect soil and water quality, displace some wildlife, and could lead to uncontrolled development on adjacent (private) lands. (191 pages) Comments made by: DOC, COE, EPA, HUD, DOI, DOT, State and regional agencies.

and concerned citizens. (ELR Order No. 00322) (NTIS Order No. EIS 73 0322-F)

#### Final, February 9

Port of Cascade Locks Aerial Tramway, Oregon, County: Hood River. The statement refers to the proposed issuance of a Special Use Permit to the Port of Cascade Locks for the construction, operation, and maintenance of an aerial tramway in the Columbia River Gorge. Some species of wildlife would be displaced in the immediate vicinity of the upper terminal. The introduction of visitors by mechanical means to a point of land now seldom visited will affect the ecosystem of the area. (289 pages) Comments made by: USDA, DOC, COE, EPA, DOI, DOT, State, local, and regional agencies of Oregon and Washington, and concerned citizens. (ELR Order No. 00258) (NTIS Order No. EIS 73 0258-F)

#### Final, February 27

Herbicide Use \* \* \* Siuslaw, Umpqua, and Siskiyou National Forests, Oregon, and Calif. The statement refers to the proposed use of herbicides on the Siuslaw, Umpqua, and Siskiyou National Forests, in order to reduce the volume of native vegetation where it hampers forest management activities. The agents to be used (on approximately 40,000 acres of forest) are 2,4-D; 2,4,5-T; 2,4,5-TP, Amitrole-T, Atrozin; Picloram; and Dicamba. The spraying will temporarily reduce forage for big game, subject nectar feeding insects to toxic effects, and eliminate food and cover for those small animals which have limited home ranges. (approximately 500 pages) Comments made by: USDA, COE, HEW, HUD, DOI, EPA, State and local agencies, and concerned citizens. (ELR Order No. 00307) (NTIS Order No. EIS 73 0307-F)

#### Draft, February 27

Caney Creek Watershed Project, Kentucky, Counties: Butler and Gray. The statement refers to a proposed flood protection project on the 97,130 acre watershed. Project measures include 18 miles of channel works, two single purpose structures, and public recreation facilities. The project will reduce the average annual floodwater and sediment damage by 65 percent. Approximately 657 acres (some of which will be inundated), of land will be committed to the project, with adverse impacts to wildlife and agricultural uses; two residences will be displaced. (21 pages) (ELR Order No. 00311) (NTIS Order No. EIS 73 0311-D)

#### Draft, February 1

Knife Lake Improvement R. C. & D. Measure, Minnesota, County: Kanabec. The statement refers to a proposed project involving the use of land treatment measure on 3,570 acres and the construction of one multipurpose structure. Approximately 132 acres of land and 1 mile of stream fishery would be inundated. (43 pages) (ELR Order No. 00170) (NTIS Order No. EIS 73 0170-D)

#### Draft, February 1

Paint Creek Watershed Project, Oklahoma, County: Harper. The statement refers to a proposed protection project on the 15,929 acre watershed. Project measures include the use of land treatment on 3,847 acres, and the construction of one floodwater retarding structure, 1.1 miles of waterway works, and 450 feet of dike. Twenty-one acres of land will be committed to project structures; 51 acres will be inundated for use as a sediment pool. (15 pages) (ELR Order No. 00172) (NTIS Order No. EIS 73 0172-D)

#### Draft, February 8

Buffalo River Watershed, Virginia, County: Amherst. The statement refers to a pro-

## NOTICES

posed protection project on the 60,500 acre watershed. Land treatment measures will be utilized, along with two single purpose floodwater retarding structures and two multiple purpose structures, in order to reduce floodwater and sediment damage by 88 percent. Sediment entering the James River channel will be reduced by 22,000 tons annually. Four hundred and twenty-nine acres will be committed to project structures; an additional 290 acres will be intermittently inundated. (23 pages) (ELR Order No. 00215) (NTIS Order No. EIS 73 0215-D)

#### RURAL ELECTRIFICATION ADMINISTRATION

##### Draft, February 28

Transmission Lines, 230 kv., South Carolina, Counties: Several. The statement refers to the proposed use of REA loan funds for the construction by Central Electric Cooperative of: 34 miles of 230 kv. transmission line from Pinopolis to Kingstree and a 230/69 kv. substation at Darlington; 62 miles of 230 kv. line from the Robinson plant to Blythewood with a switching station at Camden; and 30 miles of line from Batesburg to Newberry. Counties involved are Berkeley, Williamsburg, Darlington, Kershaw, Richland, Saluda, and Newberry. (223 pages) (ELR Order No. 00321) (NTIS Order No. EIS 73 0321-D)

#### SOIL CONSERVATION SERVICE

##### Draft, February 9

Kiokee Creek Watershed, Georgia, Counties: Columbia and McDuffie. The statement refers to a proposed protection project on the 65,290 acre watershed. Project measures include the use of conservation land treatment and the construction of two floodwater retarding structures, three multiple-purpose structures, and channel works. Erosion, siltation, and floodwater damages will be reduced. Approximately 398 acres will be permanently inundated; 521 acres will be intermittently inundated; 119 acres will be committed to project structures. (31 pages) (ELR Order No. 00222) (NTIS Order No. EIS 73 0222-D)

##### Draft, February 9

Narge Creek Watershed, Kentucky, County: Hopkins. The statement refers to a proposed flood protection project on the 4,205 acre watershed. Project measures include 6.2 miles of channel works. Seventy acres will be committed to the action. (20 pages) (ELR Order No. 00227) (NTIS Order No. EIS 73 0227-D)

#### ATOMIC ENERGY COMMISSION

Contact: For Nonregulatory Matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202-973-5391.

For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, Washington, D.C. 20545, 202-973-7373.

##### Final, February 22

Cooper Nuclear Station, Nebraska, County: Nemaha. The statement refers to the proposed continuation of a construction permit and the issuance of an operating permit to the Nebraska Public Power District for the new station. The station will employ a boiling water reactor to produce 2,381 Mwt and 778 MWe(net), with future levels of 2,486 Mwt and 813 MWe anticipated. Cooling water will be drawn from and discharged to the Missouri River (at 18° F. above ambient). The estimated total body dose to the population within 50 miles from operation of the station is 59 man-rem/yr.

(302 pages) Comments made by: USDA, DOC, EPA, FPC, HEW, DOI, and DOT. (ELR Order No. 00303) (NTIS Order No. EIS 73 0303-F)

#### DEPARTMENT OF DEFENSE

##### ARMY

##### Final, February 28

EXOTIC DANCER VI, North Carolina, Counties: Several. The statement refers to the sixth in a series of joint exercises directed by the Joint Chiefs of Staff and conducted by the Atlantic Command. The maneuvers, expected to take place in the time period of mid-March to mid-April 1973, will involve an estimated 40,000 troops, 50 ships, and 550 aircraft. Portions of 14 counties will be affected. Adverse impacts will include increases in local ambient air, water, noise, solid wastes, rubbish, and sewage production levels. There is some danger of forest fire, which will be anticipated by the prepositioning of firefighting equipment. (118 pages) Comments made by: EPA, USDA, DOC, HEW, DOI, and DOD. (ELR Order No. 00329) (NTIS Order No. EIS 73 0329-F)

##### ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attention: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202-693-7168.

##### Draft, February 8

Lawrence Flood Protection Project, Kansas, Counties: Douglas and Leavenworth. The statement, a revised draft, refers to the construction of two remaining units of a flood control project near the city of Lawrence. Project measures include levees, channel works, bridge replacements, road relocations, and interior drainage structures. Approximately 220 acres (95 acres of timber) and 4.7 miles of natural stream habitat would be committed to the project. Depletion of the forest cover would hinder bird migration patterns through the area. The project may encourage development on flood plain lands. (45 pages) (ELR Order No. 00218) (NTIS Order No. EIS 73 0218-D)

##### Final, February 6

Temporary Navigation Lock 53, Kentucky and Illinois. The statement refers to the proposed construction of a temporary navigation lock at existing Lock and Dam 53, in order to remove river traffic congestion. Riparian habitat will be adversely affected. (15 pages) (ELR Order No. 00187) (NTIS Order No. EIS 73 0187-F)

##### Draft, February 9

Charles River Locks and Dam, Mass. The statement refers to the proposed construction of a multipurpose earth and concrete dam, with river pumping facilities, three navigation locks, a fish ladder, and an overhead highway viaduct. Dredging will adversely affect aquatic life. (34 pages) (ELR Order No. 00226) (NTIS Order No. EIS 73 00226-D)

Huron Harbor, Ohio, County: Erie. The proposed project is the construction of a diked disposal area to receive polluted harbor sediment resulting from annual dredging operations. The action is intended to eliminate a source of pollution to Lake Erie. (33 pages) (ELR Order No. 00221) (NTIS Order No. EIS 73 0221-D)

##### Draft, February 13

Beaver Drainage District, Columbia River, Oregon, County: Columbia. The proposed project involves the improvement of existing flood control works. Included are

the construction of a new pumping plant and the removal of two existing plants; the raising and strengthening of levees; the installation of seepage drains; and the renovation of a tide box. Dredging operations will adversely affect riparian habitat. (42 pages) (ELR Order No. 00252) (NTIS Order No. EIS 73 0252-D)

##### Final, February 1

Maintenance dredging of Rochester Harbor, N.Y. The statement refers to the proposed maintenance dredging of the harbor, with the 360,000 cubic yards of spoil being deposited in Lake Ontario. Aquatic life will be adversely affected. (39 pages) Comments made by: EPA, DOC, USCG, DOI, DOT, and State, local, and regional agencies. (ELR Order No. 00169) (NTIS Order No. EIS 73 0169-F)

##### Final, February 28

Buena Vista, Va. The statement refers to a proposed flood protection project consisting of an 11,700-foot-long levee and floodwall, a 200-foot-wide, 2,800-foot channel, a 5,700-foot drainage canal, and three closures. The covering of 65 acres with levee and the dredging of 850,000 cubic yards of fill will adversely affect local biota. (51 pages) Comments made by: USDA, EPA, and DOT. (ELR Order No. 00336) (NTIS Order No. EIS 73 0336-F)

#### ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202-755-0940.

##### Draft, February 28

Cobb County Sewerage Project (Supplement), Georgia, County: Cobb. The document is a supplement to the final statement, which was filed on July 28, 1971 (NTIS Order No. PB-189 858-F; ELR Order No. 259). The supplement provides additional information on the system's expected impact to Sope Creek Watershed, and elaborates on the steps that have been taken to preserve the historic and scenic aspects of Sope Creek. (76 pages) (ELR Order No. 00339) (NTIS Order No. EIS 73 0339-D)

#### DEPARTMENT OF INTERIOR

#### BUREAU OF RECLAMATION

##### Draft, February 6

Deep Geothermal Test Well (Supplement), California. The statement, a supplement to the final statement which was filed on May 3, 1972 (ELR Order No. 4357, NTIS Order No. PB 206 162-F), covers the drilling of eight slim temperature recording holes to depths of 6,000 feet, and 30 additional temperature recording holes to depths varying between 100 and 1,500 feet. Approximately 23.5 acres of desert will be leveled at the site; 25 miles of access road will be constructed. (10 pages) (ELR Order No. 00188) (NTIS Order No. EIS 73 0188-F)

#### NATIONAL PARK SERVICE

##### Draft, February 28

Saguaro National Monument, Ariz. The statement refers to the proposed legislative designation of 42,000 acres within the monument as wilderness, and the designation of an additional 27,100 acres as potential wilderness to be added by the Secretary of the Interior at such time that the lands qualify. There may be some restrictions placed upon visitor use of the area. (30 pages) (ELR Order

## NOTICES

No. 00325) (NTIS Order No. EIS 73 0325-D)

##### Draft, February 9

Little Miami River and Caesar's Creek, Ohio. The statement refers to the proposed inclusion of 64 miles of the Little Miami River and 2 miles of Caesar's Creek in the National Wild and Scenic Rivers System. The inclusion is contingent upon application from the State of Ohio as required by section 2(a)(ii) of the Wild and Scenic Rivers Act (Public Law 90-542), in which the States, by adoption of an adequate development plan and initiation of action, commits itself to protect the river in perpetuity. (46 pages) (ELR Order No. 00223) (NTIS Order No. EIS 73 0223-D)

#### DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202-466-4357.

#### FEDERAL AVIATION ADMINISTRATION

##### Draft, February 20

Cincinnati Municipal-Blue Ash Airport, Ohio, County: Hamilton. The statement refers to the proposed construction of a 3500' x 75' northeast/southwest runway, a connecting taxiway, holding aprons, and other supporting facilities. There will be an increase in the noise level for residents near the airport. (58 pages) (ELR Order No. 00286) (NTIS Order No. EIS 73 0286-F)

#### FEDERAL HIGHWAY ADMINISTRATION

##### Draft, February 27

Markham Street Parkway, Arkansas, County: Pulaski. The proposed action is to extend West Markham Street westward for 2.25 miles to intersect with Kanis Road. The roadway will provide four lanes divided by a median containing Rock Creek. Adverse effects include channel changes to Rock Creek, loss of wildlife, and increased noise and air pollution. (12 pages) (ELR Order No. 00314) (NTIS Order No. EIS 73 0314-D)

Madison North and South (US 81), Nebraska, County: Madison. The proposed project is the reconstruction of a 7.39 mile segment of U.S. Highway 81, including a proposed bypass section east of Madison. The improvements include grading, full safety sections, (roadway drainage structures, and a crossing of Union Creek. (19 pages) (ELR Order No. 00313) (NTIS Order No. EIS 73 0313-D)

##### Draft, February 9

I-787 Connection (Hoosick Street Bridge), New York, Counties: Albany and Rensselaer. The proposed project is the construction of a multilane (eight lanes) facility (including a bridge over the Hudson River) known as the Hoosick Street Bridge. The 0.8 mile project will extend from Maplewood to Troy. Depending upon alternate chosen, the project will displace between 135 and 213 families and 34 to 41 businesses. Relocation of existing public utilities and the acquisition of a part of a church will occur. Noise and air pollution levels will increase. (179 pages) (ELR Order No. 00228) (NTIS Order No. EIS 73 0228-D)

##### Draft, February 27

L.R. 148, Section A17, Pennsylvania, County: Berks. The proposed project, designated as L.R. 148, Section A17, involves the relocation and reconstruction of T.R. 22 as a four-lane, divided, limited access highway from the Berks-Lancaster County line to Mohnton. Project length is 4 miles. Approximately 31 families

and eight businesses will be displaced. An additional 150 acres of land is required for right-of-way. (23 pages) (ELR Order No. 00312) (NTIS Order No. EIS 73 0312-D)

##### Draft, February 14

I-664-Hampton Roads, Va., County: Several. The statement considers alternate corridors for the construction of proposed I-665, a bridge-tunnel water crossing of Hampton Roads. The project is proposed to connect the cities of Hampton and Newport News on the north of Portsmouth, Norfolk, and Nansemond on the southern side of Hampton Roads. The project, a six-lane, limited access divided highway, will be between 11.4 and 14.1 miles long, depending upon the route selected. Encroachment upon section 4(f) land, displacement of families and businesses, and increased air, noise, and water pollution are adverse effects of the action. (358 pages) (ELR Order No. 00265) (NTIS Order No. EIS 73 0265-D)

##### Final, February 8

Ahukini-Nawiliwili Cutoff Road, Route 51, Hawaii, County: Kauai. The statement refers to the proposed construction of a 1.07-mile section of highway beginning at a point on Rice Street adjoining the Lihue Industrial Park and ending at Ahukini Road west of the Lihue Airport. Right-of-way will be acquired from land that is now used exclusively for sugarcane production. Adverse effects include increased air and noise pollution and loss of local tax base. (43 pages) Comments made by: USDA, DOI, EPA, and State and local agencies. (ELR Order No. 00205) (NTIS Order No. EIS 73 0205-F)

TIMOTHY ATKESON,  
General Counsel.

## ENVIRONMENTAL PROTECTION AGENCY

### BENOMYL

#### Notice of Extension of Temporary Tolerance

E. I. du Pont de Nemours & Co., Wilmington, Del. 19898, was granted a temporary tolerance (PP 2G1197) for residues of the fungicide benomyl (methyl 1 - (butylcarbamoyl) - 2 - benzimidazolecarbamate) in or on the raw agricultural commodity citrus fruit intended for the fresh fruit market at 10 parts per million (from preharvest and post-harvest application) on January 11, 1972 (notice was published in the FEDERAL REGISTER Jan. 18, 1972 (37 FR 751)). This temporary tolerance expired January 11, 1973. The firm has requested a 1-year extension of the temporary tolerance to obtain additional experimental data.

It has been determined that:

1. This extension will protect the public health.

2. The 0.1 part per million tolerances for residues of benomyl in milk and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep established November 29, 1972, eliminate the need to restrict application under this temporary tolerance to citrus intended for the fresh fruit market.

3. The temporary tolerance should be expressed in terms of total residues of

benomyl and its metabolites including the benzimidazole moiety (calculated as benomyl).

The tolerance is therefore extended as requested on condition that the fungicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the E. I. du Pont de Nemours & Co. name. This temporary tolerance, as extended, expires January 11, 1974.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated: March 1, 1973.

HENRY J. KOPP,  
Deputy Assistant Administrator  
for Pesticide Programs.

#### ENVIRONMENTAL PROTECTION AGENCY

##### PAX COMPANY ARSENIC ADVISORY COMMITTEE

###### Notice of Meeting

Pursuant to Public Law 92-463 notice is hereby given that a meeting of the PAX Company Arsenic Advisory Committee has been scheduled for March 12, 1973. The meeting will convene at 9 a.m., on March 12, in room 3908, Waterside Mall, 401 M Street SW., Washington, DC.

This is the second meeting of the committee. The agenda includes the executive secretary's report, committee member reports, and committee discussion and deliberation.

The meeting will be open to the public. Any individual wishing to attend and present relevant material to the committee should contact Mr. Clayton Bushong, executive secretary, PAX Company Arsenic Advisory Committee (202) 447-7823.

DAVID D. DOMINICK,  
Assistant Administrator for  
Categorical Programs.

[FR Doc 73-4679 Filed 3-8-73; 8:45 am]

#### FEDERAL COMMUNICATIONS COMMISSION

##### RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

###### Notice of Public Meetings

MARCH 6, 1973.

In accordance with Public Law 92-463, "Federal Advisory Committee Act," the following is a listing of March meetings of the Radio Technical Commission for Marine Services (RTCM):

Special Committee No. 64, "MF, HF, and VHF Maritime Radioteleprinter and Data Systems and Operations," 34th meeting, Tuesday, March 13, 1973, 9:30 a.m.-4 p.m., Conference Room 205, 1229 20th Street NW., Washington, DC.

###### Principal agenda items:

- a. Report on MarAd developmental program for a Digital Selective Calling System.
- b. Preparation of Comments on FCC Notice of Inquiry for 1974 Maritime Conference.
- c. Discussion of Direct Printing and Data Systems.

Chairman, SC-64, H. T. Blaker, Collins Radio Co., Dallas, Tex. 75207 (Phone: 214-235-9511 (Ext. 7500)).

Special Committee No. 66, "Receiver Standards for the Maritime Mobile Service," 10th meeting, Wednesday, March 14, 1973, 9 a.m. (all day meeting), Conference Room 205, 1229 20th Street NW., Washington, DC.

###### Principal agenda items:

- a. Status Reports on Work Assignments.
- (1) Interaction between VHF guard receiver and multichannel VHF receiver.
- (2) Values for Modulation Acceptance Bandwidth and Adjacent Channel Selectivity.
- (3) Optional method of measuring audio power output in terms of sound pressure.
- (4) Salt Fog Test.
- b. Continued review of VHF Receiver Standards.

Chairman, SC-66, H. R. Smith, ITT Mackay Marine, 441 U.S. Highway 1, Elizabeth, NJ 07202 (Phone: 201-527-0500).

Special Committee No. 68, "Ship Radar," 22d meeting, Wednesday, March 14, 1973, 1:30 p.m., Conference Room 847, 1919 M Street NW., Washington, DC.

###### Principal agenda items:

- a. Progress Reports of Working Groups on Collision Avoidance, Basic Radar Specifications, Transponders, and Reliability.
- b. Status Reports on Other Working Groups.

Chairman, SC-68, Irvin Hurwitz, Federal Communications Commission, Washington, D.C. 20554 (Phone: 202-632-7197).

RTCM Executive Committee, Thursday, March 15, 1973, 1:45 p.m., Conference Room 847, 1919 M Street NW., Washington, DC.

###### Principal agenda items:

- a. Progress Reports on Currently Active Committees.
- b. Status Reports on Other Committees.
- c. Summary Review of Recent FCC Dockets.
- d. Summary Review of Preliminary Views of the United States relative to the 1974 Maritime WARC.

e. Approval of SC-64 Recommendations: (1) Narrow-Band Direct-Printing Telegraph Equipment.

- (2) Narrow-Band Direct-Printing.
- (3) VHF Radioteleprinter.
- f. Election of RTCM Technical Advisors.
- g. Report of the Nominating Committee for Chairman of RTCM.

h. Establishment of RTCM Award for outstanding RTCM Secretariat, 202-632-6490.

i. Report on 1973 and 1974 RTCM Assembly Meetings.

Agendas, working papers, and other appropriate documentation for each

committee meeting are available at that meeting. Those desiring more specific information may contact either the designated Committee Chairman or the RTCM Secretariat, 202-632-6490.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

#### FEDERAL COMMUNICATIONS COMMISSION

[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc 73-4603 Filed 3-8-73; 8:45 am]

[Docket No. 19696; FCC 73-212]

#### WESTERN UNION TELEGRAPH CO.

##### Memorandum Opinion and Order Instituting Investigation

In the matter of the Western Union Telegraph Co. (Western Union), Transmittal No. 6834; and revisions of Telex Tariff FCC No. 240 and Teleprinter Exchange (TWX) Tariff FCC No. 258, Docket No. 19696.

1. On December 29, 1972, revised tariff schedules were filed by Western Union under Transmittal No. 6834 to become effective February 28, 1973. These revised schedules apply to the Interstate Telex and TWX services provided by Western Union throughout the United States. In the case of both Telex and TWX the basic rate elements will include an access charge, an installation charge for such access, and message or usage charges that vary with time and distance of transmission of messages. Additionally, charges will be applicable where a customer desires Western Union terminal equipment.

2. The specific changes made in the revised tariff are described briefly as follows:

a. Customers will be permitted to provide their own teleprinter terminal equipment from sources other than Western Union subject to certain technical limitations to prevent electrical interference in the Telex and TWX services;

b. Two new rate elements are added to the tariff; an "access charge" which will be applicable to all customers, and a "terminal charge" which will be applicable only to customers who choose to lease terminal equipment from Western Union.

c. The installation, move, and monthly rental charges for both Telex and TWX terminal equipment are increased;

d. The Telex usage charge is increased by eliminating a quantity discount now allowed under the present tariff; and

e. A new regulation is added to the effect that customers may terminate

A petition for suspension and investigation was filed by the Secretary of Defense on Feb. 14, 1973, as was a petition for rejection and suspension by Western Union International, Inc. A reply was filed by Western Union on Feb. 20, 1973. These petitions have been considered in our disposition of this matter.

Telex and TWX services on 30 days' written notice to Western Union.

3. Western Union estimates that (a) the overall effect of the entire package tariff revisions will be to produce additional revenues of about \$12 million in 1973, \$14.5 million in 1974 and \$16.3 million in 1975; (b) the increased revenues will increase the overall level of earnings of Western Union from a current level of 5.4 percent to 6.7 percent in 1973; (c) the Telex rate proposals would increase the Telex pretax earnings from 14.8 percent to 18.0 percent in 1973; and (d) the TWX rate proposals would increase the TWX pretax earnings from 8.6 percent to 12.3 percent in 1973.

4. To support its tariff revisions herein, Western Union has submitted the cost data and other information required by section 61.38 of our rules. There are two principal reasons advanced by the carrier for the revisions. With respect to the liberalization of the interconnection provisions in the Telex and TWX tariffs, the carrier states that this is being done to implement its commitment to do so at the time of the Commission's approval of Western Union's acquisition of TWX from the Bell System (24 FCC 2d 664 676). As to the rate increases and related changes the carrier contends that its current overall earnings are inadequate; and that, unless rate relief is granted in these two services where shrinkage and shifts from rate increases would be at a minimum, Western Union is faced with a decline in its overall return.

The decline is caused by revisions in settlement agreements with the international Telex carriers which will reduce Western Union's Telex revenues by about \$2.2 million in 1973, and the need to finance already committed new plant and equipment totaling about \$3.9 million in 1973 and \$12.4 million in 1974 in the Telex and TWX services.

5. The increase in the Telex rates amounts to an increase of about 10 percent. This is the fourth increase in the rates for that service over the past 6 years (4 percent in 1967; 10.6 percent in 1969; 8.8 percent in 1971). Western Union estimates a pretax earnings for Telex of 19.2 percent in 1972 and 18 percent in 1973 with the proposed increase. The TWX rate increase is the first by Western Union following the acquisition of that service from the Bell System. The estimated pretax returns from TWX is 7.8 percent for 1972 and 12.3 percent for 1973 with the proposed increases. On the basis of Western Union's current earnings level of 5.4 percent applicable to its total operations, it would appear that there may well be justification for appropriate revenue relief. However, we are of the opinion that the magnitude and nature of these increases present questions of lawfulness that should be resolved by investigation and hearing.

6. The liberalization of the tariffs for interconnection of customer-provided terminal equipment appears in general

to be in keeping with the principles of our decision in Carterfone and we regard it as a forward step toward more effective use by the public of Western Union's services. There are, however, certain questions raised with respect thereto. For example, the new "access charge" will apply to all customers whether they use carrier or noncarrier terminal equipment, even though the "access charge" covers, in part, costs that are generated only by customers using noncarrier terminals; the Telex subscribers in some cases may provide their own network signaling unit whereas no TWX subscriber may do so; Western Union appears to disclaim all liability for transmission of signals sent or received by noncarrier terminal equipment; and Western Union proposes to maintain customer-provided terminal equipment on an undefined lease or maintenance basis at charges not shown in the tariffs. Accordingly, we are of the opinion that these questions should be resolved on the basis of a hearing record.

7. In view of the foregoing, we are unable to conclude at this time that all features of the tariff revisions are just and reasonable and free of undue discrimination within the meaning of section 201(b) and 202(a) of the Act or that the proposal of the carrier to impose charges not in the tariffs is in the conformity with section 203 of the Act. We shall therefore designate the revised tariff schedules for investigation and shall suspend the effectiveness thereof and enter an accounting order providing for possible refund. However, in view of the carrier's current earnings situation, the desirability of allowing customers the benefit of the proposed liberalized interconnection policy at an early date, and the protection afforded customers by the accounting and refund order we are providing herein, we will suspend the said tariff schedules for a period of 1 day.

8. In the present case, we believe it desirable that the Administrative Law Judge render an initial decision and that the trial staff of the Common Carrier Bureau be separated from both the Commission and the Administrative Law Judge. As we have previously explained, 32 FCC 2d at page 90, the separation of the trial staff simply means that such staff: (1) Will not make any oral presentations to the Administrative Law Judge or the Commission without the other parties being present, and (2) will not make any written presentations to the Administrative Law Judge or the Commission which are not served on the other parties.

9. Accordingly, it is ordered, That, pursuant to the provisions of sections 201, 202, 203, 204, 205, and 403 of the Communications Act of 1934, as amended, an investigation is instituted into the lawfulness of the tariff schedules filed by the Western Union Telegraph Co. submitted with Transmittal No. 6834 including any cancellations, amendments, or reissues thereof; and no changes shall

be made in such tariff schedules during the pendency of this proceeding without prior approval by the Commission;

10. It is further ordered, That, pursuant to the provisions of section 204, the tariff schedules filed by the Western Union Telegraph Co. submitted with Transmittal No. 6834 are hereby suspended until March 1, 1973, and that Western Union, as to the operation of such tariff schedules, shall, in the case of all increased charges and until further order of the Commission, keep accurate account of all amounts received by reason of such increase, specifying by whom and in whose behalf such amounts were paid, and upon completion of the hearing and decision therein, the Commission may by further order require the refund thereof, with interest, pursuant to section 204 of the Act, and the carrier shall file such reports on the amounts accounted for as aforesaid as the Chief, Common Carrier Bureau, shall require;

11. It is further ordered, That, without in any way limiting the scope of the investigation, it shall include consideration of the following:

(1) Whether the charges, classifications, practices, and regulations published in the aforesaid tariffs are or will be unjust and unreasonable within the meaning of section 201(b) of the Act;

(2) Whether such charges, classifications, practices, and regulations will, or could be applied to, subject any person or class of persons to unjust or unreasonable discrimination or give any undue or unreasonable preference or prejudice to any person, class of persons, or locality, within the meaning of section 202(a) of the Act;

(3) Whether the aforesaid tariffs conform to the requirements of section 203 of the Act and part 61 (47 CFR Part 61) of our rules implementing that section;

(4) If any of such charges, classifications, practices, or regulations are found to be unlawful, whether the Commission, pursuant to section 205 of the Act, should prescribe charges, classifications, practices, and regulations for the service governed by the tariffs, and if so, what should be prescribed.

12. It is further ordered, That, the hearing in this proceeding shall commence at the Commission offices in Washington, D.C., at a time to be specified by the presiding Administrative Law Judge; and that such Administrative Law Judge shall, upon the closing of the record, prepare an initial decision which shall be subject to the submittal of exceptions and requests for oral argument as provided in 47 CFR 1.276 and 1.277, after which the Commission shall issue its decision as provided in 47 CFR 1.282 and that the trial staff of the Common Carrier Bureau be separated both from the Commission and from the Administrative Law Judge;

13. It is further ordered, That, the petitions for suspension and investigation and for rejection or suspension are

granted to the extent noted herein and otherwise denied.

14. It is further ordered, That, the Western Union Telegraph Co. is named party respondent.

Adopted: February 21, 1973.

Released: March 6, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
BEN F. WAPLE,  
Secretary.

[FR Doc. 73-4602 Filed 3-8-73; 8:45 am]

[Docket Nos. 19468, etc.; FCC 73R-69]

WIOO, INC., ET AL

#### Memorandum Opinion and Order Enlarging Issues

In regard applications of WIOO, Inc., Carlisle, Pa., Docket No. 19468, File No. BPH-6572; Howard J. Hilton, John E. McGowan, and John E. Hilton, doing business as Hilton, McGowan & Hilton, Carlisle, Pa., Docket No. 19469, File No. BPH-6631; Alexander Contract and Sylvia Contract, doing business as Cumberland Broadcasting Co., Carlisle, Pa., Docket No. 19471, File No. BPH-7404, for construction permits.

1. In a petition to enlarge issues, WIOO, Inc., argues for the addition of an issue questioning whether Cumberland Broadcasting Co., in its original application, incorrectly represented the terms and conditions of a loan commitment from Mr. James Line.<sup>1</sup> The petition is supported by an affidavit from Mr. Line stating that he agreed to make the loan because he was promised an ownership interest in the station after it was granted. The application made no reference to an ownership interest. Mr. Contract, the principal of Cumberland who made the agreement with Mr. Line, denies that any ownership interest was promised. While good cause for the late filing of this petition has not been established, a serious public interest question bearing on the qualifications of Cumberland Broadcasting to be a licensee of the Commission has been raised which cannot be resolved except through a hearing in view of the conflicting statements revealed in the affidavits. Therefore, an appropriate issue will be added.

2. Accordingly, it is ordered, That the petition to enlarge issues, filed by WIOO, Inc., on November 7, 1972, is granted and the issues are enlarged as follows:

<sup>1</sup> Chairman Burch issuing a separate statement in which Commissioners Robert E. Lee, H. Rex Lee, Reid, Wiley, and Hooks join; Commissioner Johnson concurring in part and dissenting in part and issuing a statement. Both statements filed as part of the original document.

<sup>2</sup> The petition was filed on Nov. 7, 1972; Cumberland filed an opposition on Nov. 22, 1972; on Nov. 22, 1972, the Broadcast Bureau filed comments supporting the petition; and a reply was filed by WIOO on December 11, 1972. Memorandum and order enlarging issues was published Mar. 2, 1973 (38 FR 5683).

#### NOTICES

To determine whether in filing its original application, Cumberland Broadcasting Co. misrepresented the terms and conditions of the loan commitment from Mr. James Line and to determine the effect thereof on Cumberland Broadcasting Company's basic and/or comparative qualifications to be a licensee of the Commission.

3. It is further ordered, That the burden of proceeding with the introduction of evidence on this issue shall be upon WIOO, Inc., and that the burden of proof shall be upon Cumberland Broadcasting Co.

Adopted: February 7, 1973.

Released: February 7, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
BEN F. WAPLE,  
Secretary.

#### FEDERAL POWER COMMISSION

##### NATIONAL POWER SURVEY; TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY TASK FORCE ON ENVIRONMENTAL ASPECTS

###### Agenda and Notice for Meeting

Meeting to be held at the Federal Power Commission Offices, 441 G Street, NW., Washington, DC; 9:30 a.m., March 15, 1973, room 2043.

1. Meeting called to order by FPC Coordinating Representative.

2. Objectives and purposes of the meeting.

A. Discuss and implement the decision taken by the Technical Advisory Committee on Conservation of Energy relating to proposed policy recommendations.

B. Discuss the policy aspects of conservation of energy.

C. Other business.

D. Date of next meeting.

3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—written statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4727 Filed 3-8-73; 11:53 am]

##### NATIONAL GAS SURVEY; TRANSMISSION-TECHNICAL ADVISORY TASK FORCE-REGULATION AND LEGISLATION

###### Agenda of Meeting

Meeting to be held in conference room 2043 of the Federal Power Commission, 441 G Street NW., Washington, D.C., March 13, 1973—9 a.m.

Presiding: Mr. Thos. H. Jenkins (Acting), FPC Survey Coordinating Representative and Secretary.

1. Meeting call to order—Mr. Jenkins.

2. Objectives and purposes of meeting:

A. Review of recent developments of the transmission-technical advisory task force-regulation and legislation—Dr. George F.

Kirby, Director, transmission-technical advisory task force-regulation and legislation.

B. Review of draft report of transmission-technical advisory task force-regulation and legislation—Dr. Kirby.

C. Status of assigned work and estimated date for completion—Mr. Jack D. Head, Deputy Director, transmission-technical advisory task force-regulation and legislation.

D. Discussion of environmental aspects concerning the work of the transmission-technical advisory task force-regulation and legislation—Mr. Head.

E. Other business and next meeting date.

3. Adjournment—Mr. Jenkins.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the task force—written statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the task force.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4578 Filed 3-8-73; 8:45 am]

[Docket No. R-432]

ALABAMA POWER CO. ET AL

#### Order Denying Petition for Amendment of Regulations

MARCH 2, 1973.

On January 16, 1973, Petitioners<sup>1</sup> filed a Petition for Amendment of § 141.61 of the Commission's regulations under the Federal Power Act.<sup>2</sup> Petitioners request that the filing requirements of Form 423, as promulgated under Order No. 453, be revised to (1) require the reporting of average cost of fossil fuels, rather than actual prices, and (2) eliminating the reporting of identity of the fuel supplier and that date of contract expiration. In the alternative, Petitioners request that Form 423 data should be made available only to Commission members or other Federal agencies.

Petitioners filed comments under Docket No. R-432, from which Order No. 453 and Form 423 emanated. Petitioners did not seek rehearing of Order No. 453, but instead are utilizing § 1.7(b) of the Commission's rules of practice and procedure to collaterally attack that order. Order No. 453 is pending on review before the U.S. Court of Appeals for the District of Columbia Circuit,<sup>3</sup> which court has exclusive jurisdiction to affirm, modify or set aside that order.<sup>4</sup> Petitioners

<sup>1</sup> Alabama Power Co., Carolina Power & Light Co., Central Hudson Gas & Electric Corp., Consumers Power Co., Duke Power Co., Jersey Central Power & Light Co., Metropolitan Edison Co., The Montana Power Co., New England Power Co., New Jersey Power & Light Co., Pennsylvania Electric Co., Public Service Electric & Gas Co., Rochester Gas & Electric Corp., South Carolina Electric & Gas Co., Utah Power & Light Co., Wisconsin Electric Power Co.

<sup>2</sup> Such petitions are permitted under § 1.7 (b) of the Commission's rules of practice and procedure.

<sup>3</sup> National Coal Association v. F.P.C., CADC, No. 72-1919.

<sup>4</sup> Section 19(b) of the Natural Gas Act.

tioners, due to their failure to seek rehearing of Order No. 453, are precluded from seeking court review.<sup>5</sup> We are of the opinion that to amend regulations prescribed under an order subject to judicial review is tantamount to our usurpation of the appellate court's jurisdiction to amend for lack of jurisdiction.

In support of their position, Petitioners contend that (1) they will be at a competitive disadvantage in negotiating contracts since fuel suppliers will have access to specific price data under Form 423, (2) disclosure of such data violates "U.S. v. Container Corp. of America," 393 U.S. 333 (1969), and (3) the purposes of Form 423 can be achieved without public disclosure. Assuming *arguendo* our jurisdiction to grant the relief requested by Petitioners, we deny the proposed amendments for the reasons stated herein.

Petitioners argue for strict application of antitrust laws to electric utilities and would preclude the Commission from considering whether or not disclosure of such data serves the overriding public interest. In regulated industries, increased competition may sacrifice efficiency and retard the investment required for orderly growth and development so as to be contrary to the public interest. Competition among utilities need not be the primary consideration in determining how to achieve our economic, social, and environmental objectives.<sup>6</sup> The application of antitrust policy to public utilities requires a balancing of the public interest in energy supply at a reasonable price so as to achieve the most efficient allocation of our limited resources against the potential anticompetitive effects of the proposed action.

Under Form 423, there is no agreement to exchange price information in violation of the Supreme Court's holding in "U.S. v. Container, supra," when, as here, such information is made available to buyers as well as sellers, and to regulatory commissions, other Government agencies, and the public, generally. We refuse to apply a per se antitrust rationale to electric utilities, without further inquiry into the competitive effects of the disclosure of such data. To the extent that fuel suppliers tacitly agree among themselves to fix or interfere with the prices paid by utilities, the Department of Justice can invoke the sanctions of the Sherman Act. Our determination is not in the context of immunizing any alleged antitrust violations,<sup>7</sup> but is a determination

<sup>5</sup> Section 19 (a) of the Natural Gas Act.

<sup>6</sup> E.g., F.C.C. v. RCA Communications, Inc., 346 U.S. 86, 91-96 (1953); Utility Users League v. F.P.C., 394 F. 2d 16 (CA7), cert. denied 393 U.S. 953 (1968); Union Leader Corp. v. Newspapers of New England, Inc., 284 F. 2d 582 (CA1, 1960); S.S.W., Inc. v. Air Transport Association, 191 F. 2d 658, 668 (1951), cert. denied 343 U.S. 855 (1952); New State Ice Co. v. Liebman, 285 U.S. 262 (1932), dissent of Justice Brandeis at 281.

<sup>7</sup> Cf. Silver v. NYSE, 373 U.S. 341, 360-61 (1963); Pan American World Airways, Inc. v. U.S., 371 U.S. 296, 305-09 (1963). See also Port of Boston Marine Terminal Assn. v. Rederiaktiebolaget Transatlantic, 400 U.S. 62, 71-72 (1970).

#### NOTICES

tion that disclosure of such data, absent a showing to the contrary, serves the public interest.

Assuming *arguendo* that the Container rationale is applicable to Form 423 and that certain anticompetitive restraints do develop, Petitioners ignore the "Government action" of the Commission in requiring such disclosure for the benefit of the public.<sup>8</sup> Moreover, Petitioners cannot allege, as is implied in their motion, that the Commission violated the antitrust laws through the disclosure of Form 423.<sup>9</sup>

In the alternative, Petitioners contend that Form 423 is entitled to confidential treatment under exception 4 of the Freedom of Information Act, 5 U.S.C. section 552(b) (4), which covers trade secrets and commercial or financial information. We reject this contention.<sup>10</sup> Disclosure will not undermine the competitive positions of utilities. Moreover, inasmuch as electric utilities perform a public service, any determination of the need for confidentiality must recognize that distinction from the nonregulated sector.

Petitioners offer to prove that Form 423 has injured electric utilities and their customers in fuel contract negotiations and request that a public hearing be convened. We will grant petitioners the opportunity to submit a written offer of proof. However, even if injury has occurred, petitioners must show that such injury outweighs the public benefit from full disclosure.

The Commission orders that:

(A) The petition of certain electric utilities for amendment of Commission's regulations with respect to Form No. 423 is denied for lack of jurisdiction, or in the alternative, denied for the reasons set forth above.

(B) Petitioners may file an offer of proof, under oath, on or before April 2, 1973, setting forth facts and other circumstances to support its allegation that disclosure of data under Form 423 has resulted in injury to electric utilities and that such injury outweighs the public benefit from full disclosure and the relief which the Commission can grant, if any.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. E-7925]

CINCINNATI GAS & ELECTRIC CO.

#### Order Accepting for Filing and Suspending Proposed Tariff Sheets, Providing for Hearing and Granting Intervention

MARCH 1, 1973.

On December 19, 1972, Cincinnati Gas & Electric Co. (CG&E) tendered for filing a revised rate applicable to the Union Light Heat & Power Co.<sup>1</sup> (Union), a wholly owned subsidiary. The amount of the proposed rate increase in \$1,460,302 based on test year 1971 data. The proposed filing supersedes the present agreement<sup>2</sup> as supplemented. CG&E has proposed an effective date of March 1, 1973.

The proposed rate increase raises both demand and energy monthly charges from \$1.80 per kw. to \$2.726 per kw. and 4.28 mills per kw.-hr. to 5.012 mills per kw.-hr. respectively. In addition, the proposed filing introduces a tax clause and revises the fuel clause to increase the basing point and reflect current system efficiency. The fuel clause revision results in up dating the base cost of fuel and reducing the size of adjustment from 0.5 cents to 0.1 cent per MBTU. Also, CG&E requests a rate of return of 8 percent.

A copy of the filing was served on Union. The filing was noticed on January 23, 1973, with comments due on February 16, 1973. Union filed a petition to intervene on the grounds that Union's customers will ultimately bear the impact of the proposed increased rates, and therefore it should be a party to the proceedings to assure its customers adequate representation.

Our review of CG&E's filing indicates that certain issues are raised which may require development in an evidentiary proceeding. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

Finally, so that the Commission will have a full, complete and up-to-date record on all of the issues presented we shall require CG&E to submit cost and revenue data for calendar year 1972. In this connection we would point out that our caveat on page 7 in "Duke Power Company", Opinion No. 641 in Docket No. E-7557, is particularly appropriate, wherein we stated:

... our filing requirements are not to be construed as a limitation on evidence which may be proffered as an aid to us in determining just and reasonable rates. All evidentiary material relevant to a fair determination of cost and revenue expectations may be appropriately presented in filings before us.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in CG&E's Rate Schedule FPC No. 35, as

<sup>1</sup> Designated Rate Schedule FPC No. 35.

<sup>2</sup> Designated Rate Schedule FPC No. 2 as supplemented.

proposed in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(4) Participation of the above-named petitioner for intervention in this proceeding may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held, commencing with a prehearing conference on July 24, 1973, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in CG&E's Rate Schedule FPC No. 35 as proposed herein.

(B) At the prehearing conference on July 24, 1973, CG&E's prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice.

(C) On or before April 16, 1973, CG&E shall file cost and revenue data for the 1972 calendar year. On or before July 16, 1973, the Commission staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before July 30, 1973. Any rebuttal evidence by CG&E shall be served on or before August 13, 1973. The public hearing herein ordered shall convene on August 28, 1973, at 10 a.m., e.d.t.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(E) Pending hearing and a final decision thereon, CG&E's proposed tariff sheets are suspended for 5 months and the use thereof deferred until August 1, 1973.

(F) The above-named petitioner is hereby permitted to intervene in these proceedings, subject to the rules and reg-

ulations of the Commission: *Provided, however*, That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in the petition to intervene: *And provided, further*, That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in these proceedings.

(G) Pursuant to § 2.59(c) of the Commission's rules of practice and procedure, CG&E shall promptly serve a copy of all filings upon the above-mentioned intervenor.

(H) The Secretary shall cause prompt publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. CP73-220]

EL PASO NATURAL GAS CO.

Notice of Tariff Filing

MARCH 2, 1973.

Take notice that on February 16, 1973, El Paso Natural Gas Co. (El Paso), filed, pursuant to Part 154 of the Commission's regulations under the Natural Gas Act, certain revised tariff sheets to its FPC Gas Tariff, Third Revised Volume No. 2.

El Paso states that such initial special rate schedule is comprised of a gas purchase and sales agreement dated January 31, 1973, between El Paso and Northern Natural Gas Co. (Northern) providing for, among other things, the limited-term sale of natural gas by El Paso to Northern in Lea County, N. Mex., and Pecos County, Tex. The special operating arrangements contemplated thereunder provide for the sale and delivery, on a best efforts basis, by Northern to El Paso of up to 75,000 Mcf per day of raw, unprocessed gas produced in Lea County, N. Mex., for which El Paso will pay a negotiated rate of 18.87 cents per Mcf. El Paso will deliver and sell to Northern, in Lea County, N. Mex., and Pecos County, Tex., on a best efforts basis, a quantity of gas equivalent to the residue gas remaining after processing the raw gas delivered by Northern. Northern shall pay El Paso a rate equivalent to the rate in effect from time to time under Rate Schedule X-1 of El Paso's FPC Gas Tariff, Original Volume No. 1. The limited-term of the special rate schedule is for the period continuing through January 31, 1976.

El Paso requests that the tariff sheets become effective on a date coincident with the date of issuance of the authorization in the concurrent application for a certificate of public convenience and necessity under section 7(c) of the Natural Gas Act.

A copy of the filing has been mailed to Northern.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's

rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP73-221]

EL PASO NATURAL GAS CO.

Notice of Tariff Filing

MARCH 2, 1973.

Take notice that on February 16, 1973, El Paso Natural Gas Co. (El Paso), filed, pursuant to Part 154 of the Commission's regulations under the Natural Gas Act, certain tariff sheets which are designed to establish initial special Rate Schedule X-30 to its FPC Gas Tariff, Third Revised Volume No. 2.

El Paso states that such initial special rate schedule is comprised of a gas purchase and sales agreement dated January 31, 1973, between El Paso and Northern Natural Gas Co. (Northern) providing for, among other things, the limited-term sale of natural gas by El Paso to Northern in Lea County, N. Mex., and Pecos County, Tex. The special operating arrangements contemplated thereunder provide for the sale and delivery, on a best efforts basis, by Northern to El Paso of up to 75,000 Mcf per day of raw, unprocessed gas produced in Lea County, N. Mex., for which El Paso will pay a negotiated rate of 18.87 cents per Mcf. El Paso will deliver and sell to Northern, in Lea County, N. Mex., and Pecos County, Tex., on a best efforts basis, a quantity of gas equivalent to the residue gas remaining after processing the raw gas delivered by Northern. Northern shall pay El Paso a rate equivalent to the rate in effect from time to time under Rate Schedule X-1 of El Paso's FPC Gas Tariff, Original Volume No. 1. The limited-term of the special rate schedule is for the period continuing through January 31, 1976.

El Paso requests that the tariff sheets become effective on a date coincident with the date of issuance of the authorization in the concurrent application for a certificate of public convenience and necessity under section 7(c) of the Natural Gas Act.

A copy of this filing has been mailed to Northern.

Any person desiring to be heard or to make any protest with reference to said filing should, on or before March 16, 1973, file with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and

procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 15.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestant parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CI73-568]

INEXCO OIL CO.

Notice of Application

MARCH 6, 1973.

Take notice that on February 26, 1973, Inexco Oil Co., 12th floor, Houston Club Building, Houston, Tex. 77002, filed in Docket No. CI73-568 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America from the Seven Oaks-Hortense area, Polk County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 1,400 Mcf of gas per day for 2 years at 45 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1973, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further

notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4563 Filed 3-8-73; 8:45 am]

[Docket No. CP73-224]

KANSAS-NEBRASKA NATURAL GAS CO.,  
INC.

Notice of Application

MARCH 2, 1973.

Take notice that on February 23, 1973, Kansas-Nebraska Natural Gas Co., Inc. (Applicant), Post Office Box 608, Hastings, NE 68901, filed in Docket No. CP73-224 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing a new Winter Period Service (WPS) for Applicant's jurisdictional customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes to provide WPS to its jurisdictional customers during the period from December 1 through the following March 31 of each winter under a two-part rate consisting of a WPS demand charge and a commodity charge. The application indicates that the WPS demand charge, payable in four equal installments, is equivalent to the annual contract demand charge for the appropriate rate zone currently in effect and the commodity rate is equal to the appropriate zone commodity charge currently in effect.

Applicant states that the WPS would be available to any of Applicant's existing contract demand customers who have executed a service agreement therefor providing for firm gas of a specific amount to be available to the customer in excess of the contract demand during the period between December 1 and March 31 of each heating season. Applicant proposes that this service be made available beginning with the 1973-74 heating season and estimates that the demand thereunder would be approximately 5,000 Mcf per day for said heating season.

Applicant further states that the proposed service is in accordance with the Commission's efforts to conserve natural gas since it will permit Applicant's jurisdictional customers to add new domestic and small commercial loads that develop in their respective service areas but will not encourage use of off-peak or valley gas for inferior uses.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 15.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-23]

LAWRENCEBURG GAS TRANSMISSION  
CORP.

Notice of Filing of Substitute Tariff Sheets  
To Comply With Commission Order

MARCH 2, 1973.

Take notice that Lawrenceburg Gas Transmission Corp. (Lawrenceburg) on February 14, 1973, tendered for filing substitute gas tariff sheets to its FPC Gas Tariff, Original Volume No. 1.

The proposed revisions are described by company's transmittal letter as Substitute Original Sheets Nos. 18-C, D, and E, and Substitute First Revised Sheet No. 3-A. The substitute original sheets are stated to be revisions necessary to comply with ordering paragraph (A) of "Commission Order Conditionally Accepting Purchase Gas Adjustment Clause," issued February 5, 1973, in this docket, and are purportedly effective September 1, 1972, as per the order. The company states that these revisions delete references to unaccounted-for charge and credit calculations in determining rate adjustments under the PGA clause and provide for the flow-through of re-

funds from suppliers applicable to purchases on or after September 1, 1972. The substitute first revised sheet was purportedly designed to reflect a reduction in the commodity tariff rate of Rate Schedule EX-1 due to the revisions previously mentioned. The rate schedule with the reduction has an effective date of February 1, 1973, according to the company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4527 Filed 3-8-73; 8:45 am]

[Docket No. R-432]

**MONTHLY REPORT OF COST AND QUALITY OF FUELS FOR STEAM ELECTRIC PLANT**  
**Order Denying Motion for Confidential Treatment**

MARCH 2, 1973.

On December 22, 1972, Petitioners filed a motion with the Commission to stay pendente lite the public dissemination of information required by Commission Order No. 453 to be provided on Monthly Form 423 and to hold the Forms 423 confidential. Petitioners also point out that Order No. 453 is currently on appeal with the U.S. Court of Appeals with the District of Columbia, such appeal having been taken by the National Coal Association in case No. 72-19197. In support of the Motion, Petitioners make four arguments:

- (1) Order No. 453's requirement for the divulgence and dissemination of specific price information is inconsistent with holdings of the U.S. Supreme Court under the Sherman Act.
- (2) Experience has now shown that the price information is being used for purposes contrary to those for which the rule was adopted and for purposes which will cause utilities and their customers to suffer irreparable injury.
- (3) The purposes for which the monthly fuel cost information is purportedly needed can be satisfied by keeping it confidential.
- (4) Lack of any consideration of anti-

Alabama Power Co., Carolina Power & Light Co., Central Hudson Gas & Electric Corp., Consumers Power Co., Duke Power Co., Jersey Central Power & Light Co., Metropolitan Edison Co., The Montana Power Co., New England Power Co., New Jersey Power & Light Co., Pennsylvania Electric Co., Rochester Gas & Electric Corp., South Carolina Electric & Gas Co., Utah Power & Light Co., Wisconsin Electric Power Co.

competitive consequences at the time Order No. 453 was adopted makes a stay of further disclosure pending such consideration appropriate in the public interest.

It should be noted at the outset that Petitioners made no application for rehearing of Order No. 453 itself within the allotted statutory time limit.

The courts have held that: "where an agency or court whose orders are under review has refused to stay its own orders, (they) will consider four factors, namely, whether the party seeking the stay made a strong showing that it was likely to prevail on the merits of its appeal, irreparable injury, whether issuance of a stay would substantially harm other parties, and where lies the public interest." Virginia Petroleum Jobbers Association v. F.P.C., 104 U.S. App. D.C. 106, 110, 259 F.2d 921, 925 (1958). We are of the opinion that this test may be similarly applied in cases where motions to stay are sought before this Commission.

Petitioners have certainly not met the first test of making a strong showing that it is likely to prevail on the merits of an appeal. Appeal in this case is in fact lodged by the National Coal Association rather than by the Petitioners. Consequently it is impossible for Petitioners to meet this standard. Even viewing the standard in broader terms, Petitioners have not shown that the National Coal Association is likely to prevail on appeal.

Petitioners likewise have not shown that without such relief it will be irreparably injured. Although an allegation of irreparable injury is made, Petitioners' only attempt to support that allegation consists of a discussion of how popular Form 423 is in the Office of Public Information and an assertion that information from that form has been used in negotiating contracts. In our view neither of these establishes a case of irreparable injury.

The third criteria in the Jobbers Case requires an answer to the question: "Would the issuance of a stay substantially harm other parties interested in the proceedings?" We will assume for the sake of argument that Petitioners' third contention attempts to meet this criteria. The matter of confidentiality was raised early in the proceedings leading up to the adoption of Order No. 453. In exercising its discretion in this rule-making, the Commission determined that it was in the public interest not to hold the information provided on Form No. 423 confidential. If we were to adopt Petitioners' view in this regard, we would simply be substituting their concept of public interest for our own and their discretion of our own. We shall not do this.

Finally, we are of the opinion the stay should not be granted because Petitioners' have failed to show that it is in the public interest to do so. The court stated in the Jobbers Case, supra, page 925:

In litigation involving the administration of regulatory statutes designed to promote the public interest, this factor necessarily becomes crucial. The interests of private litigants must give way to the realization of

public purposes. The public interest may, of course, have many faces—favoring at once both the rapid expansion of utilities and the prevention of wasteful and repetitive proceedings at the taxpayers' or consumers' expense; both fostering competition and preserving the economic viability of existing public services; both expediting administrative or judicial action and preserving orderly procedure.

Petitioners have wholly failed to show that granting a stay for this case would be in the public interest within the context of this language. The stay will therefore be denied.

The Commission orders:  
The motion for confidential treatment of Form No. 423 pending further proceedings is denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4570 Filed 3-8-73; 8:45 am]

[Docket No. RP73-83]

**NORTHERN NATURAL GAS CO.**

**Notice of Filing of Revisions of Proposed Rate Schedule**

MARCH 2, 1973.

Take notice that Northern Natural Gas Co. (Northern) on February 20, 1973, tendered for filing revisions of its Proposed Rate Schedule X-32 of its FPC Gas Tariff, Original Volume No. 2. The revision provides for an increase in rates from 27 cents per Mcf to 33 cents.

Northern states that Proposed Rate Schedule X-32 is a sales agreement between Northern and Southern Union Gas Co. and is pending Commission approval. The revised sheets are being submitted, according to the company, to bring the rate into borrowing with those Volume 2 rates that purportedly became effective December 3, 1972, by motion filed by Northern, November 27, 1972, in Docket No. RP72-127.

The company requests that the Commission waive the notice requirements of § 154.22 of the Commission's regulations and further asks that the Commission accept the revised sheets simultaneously with its acceptance of Proposed Rate Schedule X-32, if such acceptance is forthcoming.

Any person desiring to be heard or to protest said revisions should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 15, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4572 Filed 3-8-73; 8:45 am]

[Docket No. E-7706]

**OHIO EDISON CO.**

**Notice of Filing of Settlement Agreement**

MARCH 2, 1973.

Take notice that the Presiding Administrative Law Judge, on February 14, 1973, certified and transmitted to the Commission the joint motion of Ohio Edison Co. (Edison) and the Municipal Intervenor (filed February 12, 1973) for approval of a settlement agreement and the hearing record in this proceeding. The agreement would resolve all issues in this proceeding. The agreement attached to the motion includes a reduction in the rate increase proposed by Edison herein and provides for refunds computed on the basis of the proposed settlement rates for the period commencing September 1, 1972, until those rates become effective.

The settlement rates would yield annual revenues from wholesale electric service of \$6,904,400, representing an annual increase of \$742,100, based upon sales for the 12 months ended December 31, 1970. The proposed increased rates which became effective subject to refund on September 1, 1972, were estimated by Edison to yield an annual increase of approximately \$1,140,000, based upon sales for the same operating period. The parties to the agreement agree that the presently effective loadshedding provisions will be deleted and that the parties will undertake a joint study to determine the manner in which loadshedding will be carried out in the future. The parties further agree to undertake a joint effort to realign their long-term power supply relationships.

Copies of the filing have been served on all wholesale customers and interested State regulatory agencies. Responses or comments relating to the proposed settlement agreement may be filed with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, on or before March 16, 1973.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4576 Filed 3-8-73; 8:45 am]

[Docket No. CI72-773]

**OFFSHORE CO.**

**Notice of Application**

MARCH 2, 1973.

Take notice that on February 20, 1973, the Offshore Co. (Applicant) Post Office Box 2765, Houston, TX 77001, filed in Docket No. CI72-773 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Sea Robin Pipeline Co. (Sea Robin) from Block 225, Ship Shoal Area, Offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Sea Robin from Block 225 at an initial rate of 35 cents per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment. The basic contract for the subject sale dated April 27, 1972, provides for 2.5 cents per Mcf price escalations every 3 years for reimbursement to the applicant for any new or increased taxes, and for a contract term extending until January 1, 1973.

Applicant states that it was granted a temporary certificate for the subject sale of gas in Docket No. CI72-773, but that deliveries have not commenced from its interest in the subject acreage. If this application is granted, Applicant requests that its original application in this docket filed on May 26, 1972, be considered withdrawn.

Applicant asserts that the instant contract prices were reasonable at the time of execution of the contract and that contracts executed since then provide for much higher prices, including some executed intrastate sales contracts for Louisiana at prices in excess of 50 cents per Mcf. Applicant also asserts that the cost of liquefied natural gas and other nonconventional supply sources are much higher than the present proposal. Applicant alleges that the instant contract prices are needed to provide funds for increasing lease sale costs in the Southern Louisiana area and otherwise to provide funds for exploration, development, and production of needed gas supplies, thereby maintaining Applicant's financial integrity.

In the alternative, Applicant requests that this application be treated as an amendment to its existing, pending certificate application in Docket No. CI72-773 to accomplish the above-described results on a permanent basis. In such case Applicant requests that its notice of withdrawal of application be disregarded.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commis-

sion on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-78]

**ORANGE AND ROCKLAND UTILITIES, INC.**

**Order Accepting for Filing and Suspending Revised Tariff Sheets and Providing for Hearing**

MARCH 1, 1973.

On January 31, 1973, Orange and Rockland Utilities, Inc. (O&R), filed in this docket proposed changes in its FPC Gas Tariff, Original Volume No. 1. Also included for filing were executed service agreements between O&R and New York State Electric & Gas Corp. and a wholly owned subsidiary, Pike County Light & Power Co. The proposed changes would increase revenues from jurisdictional sales and service by \$66,194 based on a volume of sales for the 12 months period ending September 30, 1972. The company requests the proposed changes be made effective as of March 2, 1973. The filing was noticed on February 12, 1973, with comments due by February 22, 1973. No applications for intervention were received.

The three schedules presently in effect are Cost of Service (General) Rate CS-1, Interruptible I-1, and S-1. O&R states that the proposed changes alter the methods of allocation somewhat in order to reflect more accurately O&R's current cost of serving its wholesale customers. The rates for service delivered under Rate Schedule CS-1 have been altered to reflect a two-part demand-commodity rate. O&R further states that the two-part rate has removed the necessity of an interruptible rate and therefore O&R proposed to cancel its tariff Interruptible Service I-1. It is proposed that Rate Schedule S be maintained at its historical level. The company states in its filing that the rates have been negotiated and that the company's non-affiliated customer, New York State Electric & Gas, has agreed to all aspects of the filing relating to service it receives with the exception of rate of return.

We find that the proposed change in allocation and rate design and the requested increases as to a proposed rate of return of 9 percent for O&R's jurisdictional sales to New York State Electric & Gas and Pike County Light &

## NOTICES

Power raise certain issues which may require development in an evidentiary hearing. The proposed changes in O&R's FPC Gas Tariff, Original Volume No. 1, have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in O&R's FPC Gas Tariff Original Volume No. 1 as proposed to be amended in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

The Commission orders:

(A) The tariff sheets filed by O&R on January 31, 1973, are accepted for filing and suspended as hereinafter ordered.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held, commencing with a prehearing conference on May 11, 1973, at 10 a.m., e.d.t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness and reasonableness of the rates and charges contained in O&R's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended herein.

(C) At the prehearing conference on May 11, 1973, O&R's prepared testimony (Statement) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference.

(D) On or before April 30, 1973, the Commission staff shall serve its prepared testimony and exhibits. Any rebuttal evidence by O&R shall be served on or before May 18, 1973. The public hearing herein ordered shall convene on May 30, 1973, at 10 a.m., e.d.t.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see delegation of authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Pending hearing and a decision thereon the O&R tariff sheets as amended are suspended for the full statutory period and the use thereof deferred until August 1, 1973, and until such further time as they are made effective in the manner provided in the Natural Gas Act.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. E-7086]

## PUBLIC SERVICE COMPANY OF INDIANA

## Notice of Proposed Changes in Delivery Points

MARCH 2, 1973.

Take notice that the Public Service Company of Indiana (PSI) on January 10, 1973, tendered for filing a document entitled second supplemental agreement. Entered into by PSI and Jackson County Rural Electric Membership Corp. (REMC), this agreement was purportedly entered into on June 1, 1972.

PSI indicates that the purpose of this agreement is to amend exhibit "A" of a document entitled the revised principal agreement by adding two delivery points. PSI further indicates that all other terms and conditions of the revised principal agreement remain in effect.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-47]

## SEA ROBIN PIPELINE CO.

## Notice of Extension of Procedural Dates

MARCH 2, 1973.

On February 9, 1973, Sea Robin Pipeline Co. (Sea Robin) filed a motion for a revision of the procedural dates as established by the order issued November 13, 1973, in the above matter. On February 14, 1973, the Commission staff counsel filed an answer concurring conditionally to the motion but submitting a further revision of the procedural dates.

On February 26, 1973, Sea Robin filed a response to the answer by the staff. Sea Robin does not oppose the procedural dates suggested by the staff but requested that the date for the service of its revised statement be extended to May 1, 1973.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Revised Statement P by Sea Robin, May 1, 1973.

Staff service date, June 12, 1973.

Intervener service date, June 26, 1973.

Sea Robin rebuttal service date, July 13, 1973.

Prehearing date, July 10, 1973 (10 a.m., e.d.t.).

Hearing date, July 24, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP66-43]

## TEXAS EASTERN TRANSMISSION CORP.

## Order Instituting Investigation

MARCH 2, 1973.

On August 9, 1965, Texas Eastern Transmission Corp. (Texas Eastern), filed an application in this docket for a certificate of public convenience and necessity, inter alia, authorizing the construction and operation of a liquefied natural gas (LNG) storage facility to be located near the terminus of its system and for authorization to provide additional service to its customers, pursuant to its storage rate schedule. Notice of the application was issued on August 13, 1965, and published in the FEDERAL REGISTER, August 18, 1965 (30 FR 10260).

By order issued April 29, 1966, the Commission issued a certificate of public convenience and necessity to Texas Eastern authorizing the construction and operation of the LNG facility and authorization to render the proposed storage service to its customers (35 FPC 655).

By letter dated October 23, 1970, Texas Eastern notified the Commission that the LNG facility had been constructed in accordance with the plans and specifications previously submitted to the Commission. It also advised the Commission that the shutdown operation of the plant was continuing and that the plant should be ready for service for the 1970-71 heating season.

On February 10, 1973, an accident occurred at the aforesaid LNG facility, resulting in extensive loss of life and property damage.

Texas Eastern is a "natural-gas company" within the meaning of the Natural Gas Act and is, therefore, subject to the jurisdiction of the Commission.

Proper administration of our responsibilities under the Natural Gas Act, and particularly our duties to protect the public interest in actions arising under sections 3, 4, 5, and 7 thereof, require the prompt collection and preservation of evidence relating to the accident of February 10, 1973.

We are cognizant that various investigations of the accident have been instituted by appropriate governmental agencies, but none of these is directed to the particular public interest concerns vested with this Commission by act of Congress. We have no desire or intention to duplicate other investigations. The investigation hereinafter shall be of sufficient scope to fulfill our statutory responsibilities, but shall not reach matters, such as a determination of negligence or nonnegligence, which are outside of our statutory responsibilities.

The Commission finds:

It is necessary and proper in the public interest that an investigation of the aforesaid LNG facility accident be instituted by the Commission.

The Commission orders:

An investigation of Texas Eastern Transmission Corp. pursuant to the provisions of the Natural Gas Act, particularly section 14 thereof, is hereby instituted for the purpose of investigating the facts, conditions, practices or matters relating to the accident at the Staten Island, New York, LNG facility. The Commission's Bureau of Natural Gas is directed to carry on the investigation of this matter in cooperation with other public agencies involved. Texas Eastern is directed to furnish all information relating to its own investigation of this accident to the Commission.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-4529 Filed 3-8-73; 8:45 am]

[Docket No. CP73-225]

## TEXAS GAS TRANSMISSION CORP.

## Notice of Application

MARCH 2, 1973.

Take notice that on February 23, 1973, Texas Gas Transmission Corp. (Applicant), 3800 Frederica Street, Owensboro, KY 42310, filed in docket No. CP73-225 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of up to 2,000 Mcf of natural gas per day with Terre Haute Gas Corp. (Terre Haute) during the period ending December 15, 1973, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant and Terre Haute have entered into an agreement, dated December 8, 1972, providing for the proposed exchange. Applicant states that it will deliver natural gas to Terre Haute at certain existing delivery points in Indiana and that Terre Haute will redeliver gas on Applicant's system near Applicant's existing Terre Haute Sales Meter Station No. 5 near Brazil, Ind. Applicant states further that the only facility required will be an additional meter run at Terre Haute Station No. 5.

The application indicates that the estimated cost of the proposed facility is \$3,350, which cost will be financed

through available funds on hand. Terre Haute will reimburse Applicant in full for the cost of said facility.

Applicant alleges that as a result of the instant proposal, Terre Haute will be in a better position to meet its requirements, and Panhandle Eastern Pipe Line Co. will be permitted to test, during said exchange, the feasibility of the Calcutta Carbon Storage Field in Parke and Clay Counties, Ind.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-4528 Filed 3-8-73; 8:45 am]

[Docket No. RP73-3]

## TRANSCONTINENTAL GAS PIPE LINE CORP.

## Notice of Purchased Gas Cost Adjustments to Rates and Charges

MARCH 2, 1973.

Take notice that Transcontinental Gas Pipe Line Corp. (Transco) on February 14, 1973, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1 to become effective April 1, 1973. Pursuant to the purchased gas adjustment clause (PGA clause) provision contained in its tariff, Transco proposes to increase its rates effective April 1, 1973, to purportedly re-

flect both a current purchased gas cost increase and a deferred adjustment increase.

Substitute Third Revised Sheet No. 5 and substitute First Revised Sheet No. 6 included in Appendix A of the filing reflect a rate change of 1.4 cents per Mcf which includes 0.9 cent per Mcf for a purported current gas cost increase and a deferred adjustment increase of 0.5 cent per Mcf which, according to the company, is to recoup the balance in its unrecovered purchased gas cost account. According to Transco, the 0.5 cent per Mcf deferred adjustment increase will not fully clear the unrecovered purchased gas cost account in the 6-month period subsequent to April 1, 1973, and Transco requests a waiver of its PGA clause to make this increase effective.

Should there be any objection to the 1.4-cent-per-Mcf increase, Transco, in the alternative, tendered for filing alternate substitute Third Revised Sheet No. 5 and alternate substitute First Revised Sheet No. 6 included in Appendix A reflecting a rate change of 1.7 cents per Mcf which includes the same 0.9 cent per Mcf current gas cost increase and 0.8 cent per Mcf deferred adjustment increase purportedly calculated strictly in accordance with Transco's PGA clause.

The company states that copies of the filing have been mailed to each of the company's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspections.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-4577 Filed 3-8-73; 8:45 am]

[Docket No. CP71-166]

## UNITED GAS PIPE LINE CO. AND SOUTHERN NATURAL GAS CO.

## Notice of Petition To Amend

MARCH 1, 1973.

Take notice that on February 23, 1973, United Gas Pipe Line Co., 1500 Southwest Tower, Houston, Tex. 77002, and Southern Natural Gas Co., Post Office Box 2563, Birmingham, AL 35202, filed in Docket No. CP71-166 a petition to amend the order issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act in said docket on May 3, 1971 (45 FPC 629), by vacating in part the authorization therein granted, all as more fully set

## NOTICES

forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioners are authorized in the order of May 3, 1971, to exchange natural gas at three existing points of interconnection and to construct and operate facilities and to exchange gas at a fourth point of interconnection. Petitioners state that sufficient pipeline capacity exists on the systems of each company to accommodate the exchange of gas required by each without the proposed fourth exchange point in Bienville Parish, La. Accordingly, they request that the order be vacated in part with regard to the Bienville Parish exchange point.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[F.R. Doc. 73-4530 Filed 3-8-73; 8:45 am]

[Docket No. G-13385, et al.]

# CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

## Findings and Order After Statutory Hearing

MARCH 1, 1973.

Findings and order after statutory hearing issuing certificates of public convenience and necessity, amending orders issuing certificates, terminating certificates, making successors correspondent, accepting rate schedules for filing, and granting petition to intervene.

Each applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, or add natural gas service in interstate commerce as indicated in the tabulation herein.

The Commission's staff has reviewed each application and recommends each action ordered as consistent with all substantive Commission policies and required by the public convenience and necessity.

After due notice by publication in the FEDERAL REGISTER, a petition for leave to intervene was filed and withdrawn by Ralph H. Meriwether in Docket No. CI71-865 and a petition for leave to intervene in the event of a formal hearing was filed by Pioneer Gas Products Co. in Docket No. CI71-894. No notices of intervention, protests to the granting of the applications and petitions to amend, or further petitions to intervene have been filed.

At a hearing held on February 27, 1973, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record.

The Commission finds:

(1) Each applicant herein is a natural-gas company within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a natural-gas company within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefore, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) The predecessor of applicant in Docket No. CI66-301 has not collected any amounts subject to refund in Docket No. RI70-1779 in excess of the just and reasonable area ceiling rate established by the Commission.

(7) The rates proposed to be charged and collected by applicant in Dockets Nos. CI68-1231 and CI68-1232 are effective subject to refund in Dockets Nos. RI71-136 and RI72-118.

(8) The rate proposed to be charged and collected by applicant in Docket No. CI73-64 is effective subject to refund in Docket No. RI70-49.

(9) Participation by Pioneer Gas Products Co. in Docket No. CI71-894 may be in the public interest.

(10) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing or are redesignated as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity are issued upon the terms and conditions of this order authorizing sales by applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of the service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act.

The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in various dockets are amended by adding thereto authorization to sell natural gas or by substituting successors in interest as certificate holders as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) Applicants in the dockets indicated shall charge and collect the following rates, subject to B.t.u. adjustment where applicable:

Docket No.	Rate (cents per Mcf)	Pressure base (p.s.i.a.)
CI61-1182	25.0	15.025
CI66-410	26.5	14.65
CI66-301	17.0637	14.65
CI68-926	17.0637	14.65
CI68-936	17.0637	14.65
CI71-665	22.0	14.65
CI71-894	10.0	14.65

<sup>1</sup> Sales under the basic contract.  
<sup>2</sup> Sales from acreage dedicated by Supplement Nos. 2 and 5 to the rate schedule.  
<sup>3</sup> For sales of gas-well-gas; subject to prospective modification upon the conclusion of the proceeding in Docket No. A1870-1 et al.

(F) Within 90 days from the date of this order, applicants in Dockets Nos. G-13385, G-16870, G-16870, CI66-301, CI68-926, CI68-1231, CI68-1232, CI72-311, CI72-835, and CI73-64 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion No. 586 or 607, as applicable.

(G) Within 90 days from the date of initial delivery, applicants in Dockets Nos. G-16764, CI61-1182, CI66-410, CI67-1834, CI71-865, CI71-894, CI72-521, CI72-696, CI72-824, CI73-2, CI73-12, CI73-38, CI73-44, and CI73-68 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion No. 468-A, 586, 598, or 607, as applicable.

(H) The certificates and certificate authorization granted in Dockets Nos. G-13385, G-16764, G-16870, CI61-1182, CI65-406, CI66-301, CI66-410, CI67-1834, CI68-926, CI68-1231, CI68-1232, CI71-865, CI71-894, CI72-311, CI72-521, CI72-696, CI72-824, CI72-835, CI73-2, CI73-12, CI73-38, CI73-44, CI73-64, and CI73-68 are subject to the Commission's findings and orders accompanying Opinion Nos. 468, 468-A, 586, 586-A, 598, 598-A, 607, and 607-A, as applicable. If the quality of the gas deviates at any time from the quality standards set forth in the regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant to section 4 of the Natural Gas Act; *Provided, however*, That adjustments reflecting changes in B.t.u. content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(I) The proceeding pending in Docket No. RI70-1799 is terminated.

(J) The certificates in Docket Nos. G-16548 and CI68-904 are terminated.

(K) The orders issuing certificates in Docket Nos. G-14380, CI65-781, CI69-821, CI64-857, and G-6814 are amended by deleting therefrom authorization to sell natural gas from the interests acquired by applicants in Docket Nos. G-13385, CI65-406, CI72-311, CI72-835, and CI73-64, respectively. In all other

## NOTICES

6439

respects said orders shall remain in full force and effect.

(L) Applicant in Docket No. CI71-865 shall comply with § 2.71 of the Commission's general policy and interpretations with respect to the transportation of liquids and liquefiable hydrocarbons.

(M) Applicants in the following dockets are made correspondents in their predecessors' rate proceedings and said proceedings are redesignated accordingly:

Successor's certificate	Rate proceeding
Docket No.	Docket No.
CI68-1231	RI71-136
CI68-1232	RI72-118
CI73-64	RI70-49

Applicants shall comply with the refunding provisions of the Natural Gas Act and § 154.102 of the regulations thereunder.

(N) The rate schedules and rate schedule supplements related to the au-

thorizations granted herein are accepted for filing or are redesignated, all as set forth in the tabulation herein. Where the effective date is the date of initial delivery, Applicant shall advise the Commission of said date within 10 days thereof.

(O) Pioneer Gas Products Co. is permitted to intervene in Docket No. CI71-894 subject to the rules and regulations of the Commission: *Provided, however*, That participation of such intervenor shall be limited to matters affecting rights and interests as specifically set forth in the petition to intervene; and, *provided, further*, That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

<sup>1</sup>Two of the applications were originally filed pursuant to § 225.4(b) (3) which was suspended prior to action on the applications.

tions in Massachusetts at which Worcester Bancorp., Inc., or its subsidiaries are otherwise engaged in business, through a subsidiary known as Wornat Insurance Agency, Inc.

#### FEDERAL RESERVE BANK OF NEW YORK

2. The Chase Manhattan Corp., New York, N.Y., to engage de novo in certain insurance agency activities at offices of Dovenmuehle New York, Inc., New York, N.Y., a subsidiary of Dovenmuehle, Inc., New York, N.Y., which is a wholly owned subsidiary of the Chase Manhattan Corp.

3. The Chase Manhattan Corp., New York, N.Y., to engage de novo in certain insurance agency activities at seven offices in Florida at which its subsidiary, Housing Investment Corporation of Florida, Miami, Fla., engages in business.

#### FEDERAL RESERVE BANK OF CLEVELAND

4. Pittsburgh National Corp., Pittsburgh, Pa., to engage de novo in certain insurance agency activities at a location in Pittsburgh, Pa., through a subsidiary known as Bankers Insurance Services, Inc.

#### FEDERAL RESERVE BANK OF RICHMOND

5. Dominion Bankshares Corp., Roanoke, Va., to engage in certain insurance agency activities through the acquisition of Fittion Insurance Agency, Inc., Alexandria, Va. (Dominion Bankshares Corp. has filed a companion application to acquire the Fittion Co., Alexandria, Va., which, if denied or withdrawn, would moot the above application.)

#### FEDERAL RESERVE BANK OF ATLANTA

6. Barnett Banks of Florida, Inc., Jacksonville, Fla., to engage de novo in certain insurance agency activities at 28 offices in Florida at which Barnett Banks of Florida, Inc., or its subsidiaries are otherwise engaged in business.

7. Barnett Banks of Florida, Inc., Jacksonville, Fla., to engage de novo in certain insurance agency activities at six locations in Florida and one location in Texas through a subsidiary to be known as Barnett Winston Insurance Agency, Inc.

8. First National Holding Corp., Atlanta, Ga., to engage de novo in certain insurance agency activities at two locations in Georgia through a subsidiary, Tharpe & Brooks, Inc., Atlanta, Ga., and its registered trade style, First South Insurance Agency.

9. Central & State National Corp. of Alabama, Birmingham, Ala., to engage de novo in certain insurance agency activities at a location in Birmingham, Ala., through a subsidiary known as CSN Underwriters, Inc.

10. The Alabama Financial Group, Inc., Birmingham, Ala. (formerly known as BTNB Corp.), to engage de novo in certain insurance agency activities at a location in Birmingham, Ala., through a subsidiary known as Alabama Financial Insurance Agency, Inc.

11. Citizens & Southern Holding Co., Atlanta, Ga., a subsidiary of Citizens & Southern National Bank, Atlanta, Ga.,

to engage de novo in certain insurance agency activities at offices of the Citizens & Southern National Bank or Citizens & Southern Holding Co., and at the offices of subsidiaries thereof, through a subsidiary known as the Citizens & Southern Agency. (Applicant seeks to expand the activities of the Citizens & Southern Agency which were approved prior to the 1970 Amendments of the Bank Holding Company Act. See 55 "Federal Reserve Bulletin" 673 (1969).)

12. Palmer Bank Corp., Sarasota, Fla., to engage de novo in certain insurance agency activities at offices in Sarasota, Fort Myers, and Naples, Fla., through a subsidiary known as Coastal Mortgage Co.

13. Pan American Bancshares, Inc., Miami, Fla., to engage in certain insurance agency activities through the acquisition of Atico Financial Corp., Miami, Fla.

#### FEDERAL RESERVE BANK OF ST. LOUIS

14. Financial Development Co., Southaven, Miss., to engage de novo in certain insurance agency activities in Southaven, Miss., through a subsidiary known as FNB Insurance Agency.

15. County National Bancorporation, Clayton, Mo., to engage in certain insurance agency activities through the acquisition of General Mortgage Company of St. Louis, St. Ann, Mo. (Applicant has requested separate Board consideration of the insurance agency activities. Withdrawal or denial of the application to acquire the mortgage company would moot the insurance agency issues.)

#### FEDERAL RESERVE BANK OF KANSAS CITY

16. Affiliated Bankshares of Colorado, Inc., Boulder, Colo., to continue to engage in certain insurance agency activities through the retention of Insurance Professionals, Inc., Loveland, Colo. Applicant will engage in such activities at 17 offices of its banking and nonbanking subsidiaries in Colorado.

17. NBC Co., Lincoln, Nebr., to engage de novo in certain insurance agency activities at an office in Lincoln, Nebr., through a subsidiary known as NBC Agency, Inc.

18. The First National Bancorporation, Inc., Denver, Colo., to engage de novo in certain insurance agency activities at offices of The First National Bancorporation, Inc., and its subsidiaries in Colorado, through a subsidiary to be known as First Denver Assurors Co.

#### FEDERAL RESERVE BANK OF SAN FRANCISCO

19. Southern California First National Corp., San Diego, Calif., to engage de novo in certain insurance agency activities at an office in San Diego, Calif., through a subsidiary known as S. C. National Associates.

20. Marine Bancorporation, Seattle, Wash., to engage de novo in certain insurance agency activities at two offices in Seattle of its wholly owned subsidiary, Commerce Credit Co., Seattle, Wash.

21. Orbanco, Inc., Portland, Oreg., to engage in certain insurance agency ac-

tivities through the acquisition of Far West Securities Co., Spokane, Wash., at offices of Far West Securities Co. (Applicant has requested separate Board consideration of the insurance agency activities from the mortgage company activities involved in the application. Withdrawal or denial of the proposed mortgage company acquisition would moot the insurance agency issues.)

22. Patagonia Corp., Tucson, Ariz., to engage in certain insurance agency activities through the acquisition of Western American Insurance Agency, Phoenix, Ariz.

It is hereby ordered, That, pursuant to section 4(c)(8) of the Bank Holding Company Act, a hearing be held with respect to each application listed above, to be conducted in accordance with the Board's rules of practice for formal hearings (12 CFR 263). Administrative Law Judge Paul N. Pfeiffer has been designated as the hearing officer by the U.S. Civil Service Commission. Hearings on the individual applications will be held at such Federal Reserve Bank offices and at such times as may be designated by the Administrative Law Judge. The right is reserved to the Board and the Administrative Law Judge to designate any other places for such hearings or any part thereof that may be determined to be necessary and appropriate.

Section 263.6(d) of the Board's rules of practice for formal hearings (12 CFR 263.6(d)) provides in part "Unless otherwise specifically provided by statute or by rule of the Board, a hearing shall ordinarily be private and should be attended only by the parties, their representatives or counsel, representatives of the Board, witnesses while testifying, and other persons having official interest in the proceedings: *Provided, however*, That on written request by a party or a representative of the Board, or on the Board's own motion, the Board in its discretion and to the extent permitted by law may permit other persons to attend or may order the hearing to be public."

Any person, including those who have already filed objection to an application, desiring to give testimony, present evidence, or otherwise participate in these proceedings should file with the secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, on or before March 30, 1973, a written request containing a statement of the nature of the petitioner's interest in the proceedings, the extent of the participation desired, a summary of the matters concerning which petitioner wishes to give testimony or submit evidence and the names and identity of witnesses who propose to appear. All requests received, together with the applications and the objections and requests to intervene heretofore received, will be presented to the Administrative Law Judge, who will thereafter schedule such prehearing conferences as are necessary.

The applications may be inspected at the respective Federal Reserve Bank of the applicants or at the Federal Reserve

Building, 20th Street and Constitution Avenue NW., Washington, DC.

By order of the Board of Governors,  
March 6, 1973.

[SEAL]

TYNAN SMITH,  
Secretary of the Board.

### SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-10028]

#### NEW YORK, AMERICAN, MIDWEST, PBW, AND PACIFIC COAST STOCK EXCHANGES AND NASD

##### Notice of Receipt of Plan

The Division of Market Regulation announced on March 2, 1973, the New York, American, Midwest, PBW and Pacific Coast Stock Exchanges and the NASD filed a joint plan (the Plan) with the Commission pursuant to Rule 17a-15 (17 CFR 240.17a-15) (37 FR 24173), under the Securities Exchange Act of 1934, providing for reporting of prices and volume of completed transactions with respect to securities registered on exchanges. The plan will be available for public inspection in the Commission's public reference room, and all interested persons may submit written comments on the plan. All comments should be directed to John M. Liftin, Associate Director, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street, Washington, DC 20549, on or before March 23, 1973, and should refer to File No. S7-433.

The staff also announced that the Commission will consider any comments received in connection with its review of the plan and its determination whether, having due regard for the maintenance of fair and orderly markets, the public interest and the protection of investors, to declare the plan effective and, if it does so, whether to require any changes thereto or to impose any terms or conditions thereon. Before requiring any changes or imposing any terms or conditions, the Commission will afford the plan's proponents an opportunity to respond to such proposed changes, terms or conditions. Any such proposed changes, terms or conditions, and any response thereto by the plan's proponents, will also be made publicly available.

By the Commission.

[SEAL]

RONALD F. HUNT,  
Secretary.

#### [812-3375] CNA-LARWIN INVESTMENT CO. AND CNA FINANCIAL CORP.

##### Notice of Filing of Application

FEBRUARY 28, 1973.

Notice is hereby given that CNA-Larwin Investment Co., 9100 Wilshire Boulevard, Beverly Hills, CA 90212 (the "Company"), a diversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act), and CNA Financial Corp., 310 South Michigan Avenue, Chicago, IL 60604 (CNA), (hereinafter referred to collectively as Applicants), have filed an application pursuant to section 17(d) and Rule 17d-1 thereunder for an order of the Commission permitting the transaction described below, and exempting the described transaction from the provisions of section 17(a) of the Act pursuant to section 17(b) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

CNA, through its wholly owned subsidiary, The Larwin Group, Inc., and its wholly owned subsidiary CNA-Larwin Advisors, Inc. (Advisor), caused the formation of the Company. Advisor will be the Company's investment adviser. The Company, which will have a leveraged capital structure, intends to invest at least 50 percent of its investment portfolio in securities of real estate investment trusts (REITs). The Company will also invest in debt and equity securities of other issuers. The objectives of the Company are to provide current income and capital appreciation for common shareholders after providing current income sufficient to pay the dividend on its preference shares.

In order to provide the Company with the opportunity to purchase securities of REITs at market prices which the Advisor considered attractive, CNA has granted the Company an option to purchase any or all of a \$10 million portfolio of securities, which CNA has committed to purchase, at CNA's cost (the Option).

In accordance with its option commitment, CNA purchased a portfolio of securities of REITs at a cost of approximately \$10 million (Option Securities).

The option price per unit of the Option Securities has been derived from CNA's actual average purchase cost for each unit, including brokerage commissions, and is subject to downward adjustment by the amount of profit, if any, derived

from reciprocal brokerage received by CNA or any of its subsidiaries on account of the purchase of the Option Securities. The Option Securities subject to the Option, and the option price per unit of such securities are as follows:

##### SHARES OF BENEFICIAL INTEREST

No. of units	Issuer	Average Option price per unit	Aggregate option price
57,000	Continental Illinois Realty	\$21.89	\$1,230,494.73
11,000	Guardian Mortgage Investors	45.64	502,076.35
31,300	Gulf South Mortgage Investors	19.08	597,066.25
12,000	Hamilton Investment Trust	18.00	216,000.00
33,100	Hanover Square Investors	19.72	652,862.50
105,000	Heltman Mortgage Investors	14.03	1,472,875.90
10,471	HNC Mortgage & Realty	21.81	225,270.93
21,700	Hospital Mortgage Group	21.80	473,088.85
7,900	Justice Mortgage Investors	20.70	161,475.00
56,000	Median Mortgage Investors	13.50	756,000.00
55,000	NJB Prime Investors	20.28	1,114,511.98
11,400	PNB Mortgage & Realty Inv.	24.71	281,645.55
14,000	Palomar Mortgage Investors	16.02	224,271.20
7,000	State Mutual Investors	24.78	188,303.35
32,800	Texas First Mortgage REIT	19.96	655,561.82
20,000	USF Investors	25.62	512,500.00
24,500	Unionamerica Mortgage & Equity Trust	22.86	559,107.41
			9,738,131.82

##### WARRANTS

No. of units	Issuer	Option price per unit	Aggregate option price
30,100	Citizens & Southern Realty	\$7.12	\$214,231.20
20,000	Guardian Mortgage Investors	8.16	163,170.88
27,100	Gulf South Mortgage Investors	1.99	53,910.63
5,000	Texas First Mortgage REIT	2.27	11,375.00
			442,687.76
Total option prices			10,180,819.58

The Option terminates 90 days after January 24, 1973, the effective date of a registration statement filed by the Company under the Securities Act of 1933 covering an offer of common and preferred shares of the company at an aggregate offering price of \$50 million, or 15 days after the receipt of an order from the Commission with respect to this application, whichever is later. The Option is irrevocable during the option period.

In the event of a risk of loss or a decline in the value of the Option Securities

## NOTICES

ties, it may be desirable that they be sold. Consequently, the Option provides that CNA has the right in the exercise of its sole discretion to effect sales of all or any part of the Option Securities, and that upon any such sale the Option terminates with respect to the securities sold. In the event of any such sale, CNA shall, at its option, either (i) reinvest the net aftertax proceeds in one or more substitute securities of REIT's selected by CNA or, (ii) segregate the amount of any net aftertax profit attributable to the net aftertax proceeds not so reinvested so that upon the purchase of any of the Option Securities by the Company, the full amount of such unreinvested net aftertax profits shall be credited to the option price of such purchased Option securities. In lieu of such crediting, the Company has the right to require CNA to pay the Company the full amount of any net aftertax profit attributable to the net aftertax proceeds which are not so reinvested, regardless of whether the Company exercises the Option. The option price per unit of any substitute securities will be equal to the average cost per unit, including brokerage commission to CNA of such substitute securities, reduced pro rata by the amount of CNA's net aftertax profit attributable to the reinvested net aftertax proceeds of the sale.

The Company may exercise the Option by giving 5 days' written notice to CNA. The securities purchased are to be delivered by CNA to the custodian designated by the Company upon payment by the Company within 5 days of the exercise of the Option. The Company will not be required to pay any transfer fees. Applicants state that the purchase of any or all of the Option Securities will at the time of exercise of the Option meet the Company's investment policies and restrictions as determined by the disinterested directors of the Company; that it is the intent of the Advisor to exercise the Option as soon as possible following the receipt of an order permitting such action; that the Option Securities are of the type which the Company would have desired to acquire when they were purchased if the Company could have done so then; that the Option Securities were selected for purchase by CNA upon the advice of officers of the Advisor who will have primary responsibility for making investment recommendations to the Company; that any substitute securities will be selected on the same basis; that if the application for exemption is granted, the Advisor will recommend, subject to a determination by the disinterested directors, which of the Option Securities, if any, should be acquired by the Company; and that the Company is not under any obligation to purchase any of the Option Securities. Applicants also represent that none of the management of CNA will personally benefit from the proposed transaction except to the extent that they may be shareholders of CNA or the

Company, and then in no way differently from any other shareholder.

Applicants have agreed that any order the Commission may issue pursuant to this notice may be conditioned upon the following:

1. Applicants will file with the Commission within 15 days after any exercise of the Option a copy of all records with respect to the Option and the subject securities required to be kept pursuant to Rule 31a-1(b) (10) and Rule 31a-1(b) (11) promulgated under the Act; and

2. The Company will not exercise its Option with respect to any securities if, at the time of the exercise, the Option price is greater than the market price plus commission.

Section 17(a) of the Act, as here pertinent, provides that it is unlawful for any affiliated person of a registered investment company, or any affiliated person of such an affiliated person, to sell to, or purchase from, such investment company any security or property unless the Commission, upon application pursuant to section 17(b), grants an exemption from the provisions of section 17(a) after finding that the terms of the proposed transaction are fair and reasonable and do not involve any overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, and that the proposed transaction is consistent with the general purposes of the Act.

Section 17(d) and Rule 17d-1, as here pertinent, make it unlawful for any affiliated person of a registered investment company, or any affiliated person of such person to effect any transaction in connection with a joint enterprise or other joint arrangement in which such registered investment company, or a company controlled by such registered investment company, is a participant unless an application regarding such joint enterprise has been filed with, and an appropriate order has been granted by, the Commission. Rule 17d-1 provides that in passing upon such application the Commission will consider whether the participation of such registered or controlled company in such joint enterprise or arrangement on the basis proposed is consistent with the provisions, policies, purposes of the Act and the extent to which such participation is on a basis different from, or less advantageous than, that of other participants.

Notice is further given that any interested person may not later than March 23, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by

mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address set forth above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

#### ACCURATE CALCULATOR CORP. Order Suspending Trading

MARCH 5, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.01 par value, and all other securities of Accurate Calculator Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from March 6 through March 15, 1973.

By the Commission.

#### AMERICAN RESEARCH AND DEVELOPMENT CORP.

##### Notice of Filing of Application for Order

MARCH 5, 1973.

Notice is hereby given that American Research and Development Corp., c/o Gaston, Snow, Motley & Holt, 82 Devonshire Street, Boston, MA 02109 (Applicant), a Massachusetts corporation and a nondiversified, closed-end management investment company registered under the Investment Company Act of 1940

## NOTICES

(Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

On May 17, 1972, a special meeting of stockholders of Applicant was held, at which shares representing more than two-thirds of the outstanding common stock of Applicant were voted in favor of a proposed merger of Applicant and Textron, Inc. (Textron), a Delaware corporation, as a result of which merger Textron would be the surviving corporation, and each stockholder of Applicant would receive 0.3 shares of Textron common stock for each share of Applicant. On May 18, 1972, the merger of Applicant and Textron was effected, thereby resulting in Applicant's ceasing to exist as a separate corporate entity.

Applicant asserts that it has ceased to be an investment company since it is no longer an independent corporate entity.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[811-1643]

#### AMERICAN ENTERPRISE DEVELOPMENT CORP.

##### Notice of Filing of Application

MARCH 5, 1973.

Notice is hereby given that American Enterprise Development Corp., c/o Gaston, Snow, Motley & Holt, 82 Devonshire Street, Boston, MA 02109 (Applicant), a Massachusetts corporation and a nondiversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

As of May 17, 1972, Applicant was a wholly owned subsidiary of American Research & Development Corp. (Research), which was registered under the Act as a nondiversified, closed-end management investment company. The stockholders of Research, at a special meeting held on May 17, 1972, approved a proposed merger of Research and Textron, Inc. (Textron), a Delaware corporation, as a result of which merger Textron would be the surviving corporation, and each stockholder of Research would receive 0.3 shares of Textron common stock for each share of Research. In connection with, but prior to the Research-Textron merger, Applicant was to be merged into its parent, Research, thereby ceasing to be a separate corporate entity. On May 18, 1972, just prior to the merger of Research and Textron, Applicant was merged into Research, and thereby ceased to be a separate corporate entity. Research, prior to the Textron merger, became the surviving corporation.

Applicant asserts that it has ceased to be an investment company since it is no longer an independent corporate entity.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a

statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

# MCI COMMUNICATIONS CORP. AND BAKER, FENTRESS & CO.

## Notice of Filing of Application for Order Exempting Certain Transactions

MARCH 5, 1973.

Notice is hereby given that MCI Communications Corp., 1150 17th Street NW., Washington, DC 20036 (Micom), a Delaware corporation, and Baker, Fentress & Co., 208 South La Salle Street, Chicago, IL 60604 (B-F), a nondiversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act) (hereinafter sometimes referred to collectively as Applicants), have filed an application pursuant to section 17(b) of the Act for an order of the Commission exempting from the provisions of section 17(a) of the Act a proposed transaction whereby B-F would transfer to Micom, stock held by B-F in certain Micom affiliates, together with options to purchase additional stock in such affiliates, and commit itself to make certain loans to Micom, in exchange for shares of Micom stock, a warrant to purchase additional Micom stock, and the assumption by Micom of certain loan obligations of B-F, as more fully described below. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

In December of 1971, Micom and B-F were affiliated persons of each other since B-F then owned 6.5 percent of the outstanding voting stock of Micom, a company that had been formed to service companies that had applied, or intended to apply, for permits from the Federal Communications Commission (FCC), to operate common carrier communications systems providing point-to-point private line communication services by microwave between certain designated major cities in the United States, but which was then endeavoring to acquire such companies following an FCC ruling in May of 1971, that permission would no longer be granted to operate such facilities on a case-by-case basis upon a showing of public need, but, instead, qualified new common carriers would be permitted to serve in competition with existing common carriers.

At the present time, seventeen corporations affiliated with Micom (the MCI Carriers) have applied to the FCC for permits and licenses to construct and operate microwave communication systems connecting various points. Some applications have been granted and some are still pending.

B-F has the following rights and obligations with respect to the MCI Carriers:

- (i) B-F owns 4.1 percent of the outstanding shares of Microwave Communications, Inc. (Microwave), 22.2 percent of the outstanding shares of MCI Michigan, Inc. (Michigan), 6.5 percent of the outstanding shares of Interdata Communications, Inc. (Interdata), and 9 percent of the outstanding shares of MCI New England, Inc.

- (ii) B-F holds options to purchase 7,500 shares of Interdata at \$2.30 per share, 25,000 shares of Michigan at \$5.00 per share, and 20,000 shares of MCI Kentucky Central, Inc. (Kentucky Central), at \$2.03 per share.

- (iii) B-F is obligated to loan \$131,250 to Interdata, \$344,000 to MCI—New York West, Inc., \$500,000 to Michigan, and \$400,000 to Kentucky Central.

B-F acquired its stock in the aforementioned corporations in 1969 and 1970 with an aggregate investment of \$400,000.

B-F and Micom have entered into an agreement dated December 3, 1971 (the Agreement), pursuant to which B-F will transfer all of the stock that it owns in the MCI Carriers, together with the options that it holds to purchase additional stock in the MCI Carriers, and will lend (or commit itself to lend) to Micom an aggregate of \$2,250,000. In exchange, Micom will issue 144,000 shares of its common stock to B-F, will issue a warrant to B-F to purchase an additional 120,000 shares of its common stock at \$8.33 per share, and will assume B-F's loan commitments in the aggregate amount of \$1,375,250, to the MCI Carriers. The closing of the Agreement is conditional upon the Commission's entry of an order exempting the transactions provided for in the Agreement from the provisions contained in section 17(a) of the Act which prohibit an affiliated person of a registered investment company, such as was Micom of B-F at the time of the Agreement, from purchasing property from, or borrowing from, or selling property to, such registered company. Under section 17(b) of the Act, the Commission may exempt a proposed transaction from the provisions of section 17(a) upon finding that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned as recited in its registration statement and reports filed under the Act, and that the proposed transaction is consistent with the Act.

In May of 1971, when the FCC ruled that it would permit qualified new common carriers in microwave communications to compete with existing services,

Micom owned a majority of the voting shares of only one of the MCI Carriers. It now has or has agreed to acquire all, or the majority interests in 16, of the MCI carriers. These interests were acquired for common stock of Micom and certain other consideration. Micom expects to make an exchange offer, to be registered under the Securities Act of 1933, to acquire control of Microwave, the 17th MCI Carrier. Upon completion of its acquisition program, Micom expects to own and operate a national microwave system which will compete directly with the private line (sometimes called leased line) service offered by the American Telephone & Telegraph Co. and by Western Union.

Following the FCC decision in May of 1971, Micom raised over \$10 million by the private sale of equity securities to a limited group of investors. In June 1972, a public offering resulted in the sale of 3.3 million shares of Micom common stock at \$10 per share or an aggregate public offering price of \$33 million. Micom has also entered into bank credit agreements under which it may borrow up to \$64 million for the purpose of constructing and developing the "MCI System," and certain shareholders of the MCI Carriers exchanging their shares for shares of Micom have agreed to lend Micom an aggregate of \$6,450,000. The proposed transactions are represented to be desirable to Micom because they will increase Micom's share of ownership of the MCI Carriers, and to be desirable to B-F because it will result in B-F's having a larger interest in the entire MCI System under development by Micom instead of a smaller interest in Micom and also an interest in just four of the 17 MCI Carriers, and because B-F's entire investment will be in a well capitalized, publicly owned, company, the securities of which (though, in the first instance, unregistered and acquired for investment), will be more readily marketable than securities of the four individual carriers for which there is no market. Since June 1972, when Micom's common stock was first publicly traded, its market price has ranged from a high of \$12.75 to a low of \$6.50.

The Agreement is represented to have been negotiated at arms-length between William McGowan, chairman and chief executive officer of Micom, on behalf of Micom, and James Fentress, president of B-F, and Robert Spicer, senior vice-president of B-F, on behalf of B-F.

The consideration to be exchanged between the parties to the transaction is represented to be reasonable and fair and the transaction is represented to be consistent with the policies of B-F and with the Act.

Notice is further given that any interested person may, not later than March 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a

hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

## METROPOLITAN EDISON CO.

### Notice of Proposed Issue and Sale of Cumulative Preferred Stock at Competitive Bidding

MARCH 5, 1973.

Notice is hereby given that Metropolitan Edison Co., 2800 Pottsville Pike, Muhlenberg Township, Berks County, PA 19605 (Met-Ed), an electric utility subsidiary company of General Public Utilities Corp. (GPU), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 250,000 shares of its Cumulative Preferred stock, ---- percent Series I, par value \$100 per share. The dividend rate of the preferred stock (which will be a multiple of 1/25 of 1 percent) and the price to be paid to Met-Ed (which will be not less than \$100 nor more than \$102.75 per share) will be determined by competitive bidding. The terms of the preferred stock include a prohibition against refunding the preferred stock prior to April 1, 1978, directly or indirectly, with funds derived from the issue of debt securities at a lower effective interest cost or preferred stock at a lower effective dividend cost. Met-Ed is unable to issue additional first

mortgage bonds at this time due to restrictions in its mortgage indenture.

The proceeds from the proposed sale of the preferred stock will be used to pay a portion of Met-Ed's short-term bank borrowings, which were incurred for construction purposes and which are expected to aggregate approximately \$41,400,000 at the time of the proposed sale. Met-Ed's 1973 construction program is estimated at \$150,900,000. Met-Ed plans to finance its 1973 construction program by the sale of preferred stock and bonds, funds provided from operations, and cash contributions by GPU.

The fees and expenses to be incurred in connection with the proposed transaction will be filed by amendment. The application states that the issue and sale of the preferred stock is subject to the jurisdiction of the Pennsylvania Public Utility Commission, the State Commission of the State in which Met-Ed is organized and doing business, and no Federal Commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than March 29, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

## OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

[Docket No. 73-2]

## TRADE INFORMATION COMMITTEE

## Notice of Public Hearing

Notice of public hearing requesting views regarding accession to European Economic Community of United Kingdom, Denmark, and Ireland.

Notice is hereby given pursuant to § 2003.2 of the regulations of the Trade Information Committee of the Office of the Special Representative for Trade Negotiations (15 CFR ch. XX, pt. 2003) that a public hearing will be held beginning at 10 a.m. on April 10, 11, and 12, 1973 to adjourn and reconvene at a later date if needed, in Conference Room 730, 1800 G Street NW., Washington, DC. The purpose of said hearings is to provide an opportunity to the public to present all facts and views pertaining to the effect on U.S. exports of the accession to the European Economic Community of the United Kingdom, Denmark, and Ireland.

Interested parties are invited to express their views on this subject by written brief or other communication, submitted in not less than 20 copies, to the chairman of the Trade Information Committee. Interested parties are also invited to express their views on this subject in person at the aforementioned public hearing, provided they notify the chairman of the Trade Information Committee, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., room 725, Washington, DC 20506. Such notification must be received by March 27, 1973. Requests to appear in person should be submitted in an original and 15 copies which must be legibly typed, printed, or duplicated, and must include the following information:

(a) The name, address, and telephone number of the party submitting the request;

(b) The name, address, telephone number, and official position of the person submitting the request on behalf of the party referred to in paragraph (a);

(c) A brief indication of the interest of, and the position to be taken by, the party;

(d) The name, address, and telephone number of the person or persons who will present oral testimony; and

(e) The amount of time desired for the presentation of oral testimony.

Request to present oral testimony should not contain any confidential information. Any requests marked "For

Official Use Only" or similarly marked will not be accepted.

Each party will be notified if his request to appear in person has been granted. If so, he will be notified of the date on which he is scheduled to appear and the amount of time allotted for his presentation. If not, the reasons for the denial shall be given. (The committee reserves the right to restrict the time allotted for presentation of oral testimony.) Each party desiring to present oral testimony is required to submit a written brief to the chairman of the Trade Information Committee which must be received at least 1 week prior to the commencement of the hearing at which oral testimony shall be presented. The brief must include a statement in nonconfidential form of the position taken and supporting arguments. It must be submitted in not less than 20 copies which must be legibly typed, printed, or duplicated.

Parties are encouraged to support their briefs with all available information, including material that may be of a confidential nature. Reference should be had to § 2003.8 of the regulations of the committee governing information exempt from public inspection. All written materials other than confidential information filed with the committee in connection with the hearing will be open to public inspection by appointment, at room 725, 1800 G Street NW., Washington, DC 20506.

Interested parties should note that pursuant to § 2003.4(d), a "written brief shall state clearly the position taken and shall describe with particularity the evidence supporting such position." Parties should focus their briefs and oral testimony on the following:

(a) Conditions of access of U.S. exports into the markets of the United Kingdom, Denmark, and Ireland before the accession of those countries to the European Economic Community and the European Coal and Steel Community, compared with the conditions of access of U.S. exports to those markets after such accession to the European Communities;

(b) The effects upon U.S. exports of the application to them by the United Kingdom, Denmark, and Ireland of the tariff duties (Common External Tariff) of the European Economic Community and of the European Coal and Steel Community, taking into account, as may be relevant, the effects of competitive imports into the communities at other than most-favored-nation rates of duty; and

(c) The effects upon U.S. exports of the application to them by the United Kingdom, Denmark, and Ireland of non-tariff measures or other regulations of the European Economic Community and the European Coal and Steel Community.

A limited amount of information about the agreements under which the United Kingdom, Denmark, and Ireland will accede to the European Economic Community and the tariff levels which may

## NOTICES

result from such accession may be obtained with respect to industrial products by addressing inquiries to the Ombudsman for Business, Department of Commerce, Washington, D.C. 20230 or telephoning (202) 967-3176. Similar information with respect to agricultural products may be obtained by addressing inquiries to the Director, Trade Policy Division, Foreign Agricultural Service, Department of Agriculture, Washington, D.C. 20250, or telephoning (202) 447-7677.

## TARIFF COMMISSION

[337-L-59]

## SNIPS AND SCISSORS

## Notice of Complaint Received

The U.S. Tariff Commission hereby gives notice of the receipt on February 20, 1973, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by J. Wiss & Sons Co., Newark, N.J., alleging unfair methods of competition and unfair acts in the importation and sale of snips and scissors which are embraced within the claims of U.S. Patents Nos. 3,453,651, 3,524,363, and 3,608,196 owned by the complainant. The complaint names Greenland Studios, Inc., 4500 Northwest 135th Street, Miami, FL 33054; and the May Department Stores Co., Sixth and Olive Streets, St. Louis, Mo. 63101, as either importing or offering for sale the subject product.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the issues raised in the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation, and if so, whether the Commission should recommend to the President the issuance of a temporary order of exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York office of the Tariff Commission located in Room 437 of the customhouse.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than April 20, 1973. Extensions of time for submitting information will not be granted unless good and sufficient cause is shown thereon. Such information should be sent to the Secretary, U.S. Tariff Commission, Eighth and F Streets NW., Washington, D.C. 20436. A

signed original and nineteen (19) true copies of each document must be filed.

Issued: March 6, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc.73-4607 Filed 3-8-73; 8:45 am]

## FOURTH SECTION APPLICATION FOR RELIEF

MARCH 6, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

## NOTICES

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before March 26, 1973.

FSA No. 42638—*Joint Water-Rail Container Rates—Pacific Far East Lines, Inc.* Filed by Pacific Far East Lines, Inc., (No. 3), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Hong Kong, Korea, Taiwan, and Manila, on the one hand, and rail stations and water carrier terminals on the U.S. Atlantic and Gulf seaboard, on the other.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 224]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR, Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 9, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-35450. By order of February 15, 1973, the Motor Carrier Board approved the lease to Wardlaw Transport Express, Inc., Garland, Tex., of Certificate of Registration No. MC-99931 (Sub-No. 3) issued May 3, 1972 to B. L. Ellis, doing business as Ellis Brothers, Dallas, Tex., evidencing a right to engage in transportation in interstate commerce as described in Certificate of Convenience and Necessity No. 7399 dated May 27, 1946, issued by the Railroad Commission of Texas. Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201, attorney for applicants.

No. MC-FC-74123. By order of February 14, 1973, the Motor Carrier Board approved the transfer to C. William Redshaw, doing business as Rushville Truck Lines, Rushville, Ill., of Certificate of Registration No. MC-96935 (Sub-No. 1), issued April 14, 1970, to Virginia R. Redshaw, doing business as Rushville Truck Lines, Rushville, Ill., evidencing a right

to engage in transportation in interstate commerce corresponding in scope to that portion of Certificate of Public Convenience and Necessity No. 9921MC dated October 20, 1954, as was embraced in predecessor's certificate of registration, transferred and reissued January 22, 1969, by the Illinois Commerce Commission. Carson D. Klitz, Rushville, Ill. 62681, applicants' attorney.

No. MC-FC-74132. By order of February 15, 1973, the Motor Carrier Board approved the transfer to Fresno Bass Lake Freight Lines, Inc., Fresno, Calif., of Certificate of Registration No. MC-85724 (Sub-No. 2) issued to Clyde D. Sturges, doing business as Huntington Stage Lines, Fresno, Calif., evidencing a right of the holder thereof to engage in interstate or foreign commerce in the transportation of: Property between specified points and areas solely within the State of California. Michael J. Stecher, attorney, 140 Montgomery Street, San Francisco, CA 94104.

No. MC-FC-74158. By order of February 15, 1973, the Motor Carrier Board approved the transfer to O. & A. Express, Inc., Lubbock, Tex., of Certificates Nos. MC-114737 (Sub-No. 2), MC-114737 (Sub-No. 4) and MC-114737 (Sub-No. 6) issued May 22, 1956, August 1, 1963, and August 18, 1971, respectively, to O. A. Woody, doing business as O. & A. Film Lines, Lubbock, Tex., authorizing the transportation of: Newspapers, motion picture film, and advertising material, recording, reproducing, and amplifying devices, exhibits, tickets, vending machines, and supplies and materials in connection with operation, and maintenance of theatres and places of motion picture exhibition, between specified points and areas in Texas, Oklahoma, and New Mexico. Austin L. Hatchell, attorney, 1102 Perry Brooks Building, Austin, Tex. 78701.

No. MC-FC-74159. By order of February 27, 1973, the Motor Carrier Board approved the transfer to Della Maraszewski, doing business as Billy's Trucking, Pittsfield, Mass., of the operating rights in Permits Nos. MC-110063 and MC-110063 (Sub-No. 1) and Certificate No. MC-115817 issued March 15, 1949, July 5, 1962, and June 13, 1956, respectively, to William Maraszewski, doing business as Billy's Trucking, Pittsfield, Mass., authorizing the transportation of (1) such commodities as are dealt in by chain retail and mail order department stores, from Pittsfield, Mass., to points and places in Connecticut, New York, Massachusetts, and Vermont within 50 miles of Pittsfield, Mass.; (2) toys, in seasonal operations commencing August 1 and extending to December 31, inclusive, of each year, from Pittsfield, Mass., to points in New York, Vermont, New Hampshire, and Connecticut under continuing contract, or contracts, with Kaufman Brothers, Inc., of Pittsfield, Mass., and (3) household goods, as defined by the Commission, between points and places in Berkshire County, Mass.,

on the one hand, and, on the other, points in Connecticut, Rhode Island, New York, New Jersey, and Pennsylvania. Dual operations were approved. John E. Fay, 630 Oakwood Avenue, Suite 127, West Hartford, CT 06110, attorney for applicants.

No. MC-FC-74172. By order of February 14, 1973, the Motor Carrier Board approved the transfer to Tillman F. Rozean, doing business as Rozean Truck Line, Box 64, Green, Kans. 67447, of Certificate No. MC 5098 issued to Lionel G. Clark, doing business as Clark Truck Line, Clay Center, Kans., authorizing the transportation of various commodities, such as, livestock, feed, paint, sheet metal, tires, etc., between specified points in Kansas and Missouri.

No. MC-FC-74220. By order of February 15, 1973, the Motor Carrier Board approved the transfer to Max W. Tunks and Maxie Lee Tunks, a partnership, doing business as Circle M Truck Line, King City, Mo., of Certificate of Registration No. MC-96969 (Sub-No. 2) issued July 2, 1969, to Maurice Merrill Hall and Raymond Dale Wells, a partnership, doing business as Hall & Wells Truck Line, King City, Mo., evidencing a right to engage in transportation in interstate commerce as described in Certificate of Convenience and Necessity No. T-5776 issued by the Public Service Commission of Missouri, July 3, 1968. Thomas P. Rose, Post Office Box 205, Jefferson City, MO 65101, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 227]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 9, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73778. By order of February 27, 1973, Division 3, acting as an appellate division, approved the transfer to Siegel's Hauling, Inc., Cadiz, Ohio, of the operating rights in Certificate No. MC-112798 issued December 21, 1961 to

Badgett Trucking Co., a corporation, South Charleston, W. Va., authorizing the transportation of various commodities from, to, and between specified points and areas in West Virginia. Paul F. Berry, 88 East Broad Street, Columbus, Ohio 43215, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-4611 Filed 3-8-73; 8:45 am]

[Ex Parte No. 241; Rule 19;

Exemption No. 35]

#### NORFOLK SOUTHERN RAILWAY CO. Exemption Under Provision From Mandatory Car Service Rules

It appearing, that there is a substantial movement of traffic originating on the Norfolk Southern Railway Co., destined to points west of the Allegheny Mountains; that the supply of suitable plain boxcars on the Norfolk Southern Rail-

way Co. is inadequate to meet the needs of the shippers of this traffic; that there is a surplus of such cars on the Norfolk and Western Railway Co. which presently are returning empty to the car owners; that use of such cars by the Norfolk Southern Railway for a single trip transporting traffic to, via, or in the direction of the car owners, will enable that line to protect the needs of its shippers, will increase effective car utilization, and will have no significant effect on the boxcar supplies of the car owners.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, cars listed in the Official Railway Equipment Register, ICC RER No. 386, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, which are subject to Car Service Rule 2 while on the lines of the Norfolk and Western Railway, may be delivered empty by that line to the Nor-

folk Southern Railway Co. for subsequent loading of one trip only to, via, or in the direction of the car owners.

When so delivered empty by the Norfolk and Western Railway Co. to the Norfolk Southern Railway Co., such cars shall be exempt from the provisions of Car Service Rule 2.

It is further ordered, That all subsequent use of such cars by the Norfolk Southern Railway Co. shall be subject to all of the provisions of Car Service Rule 2.

Effective March 1, 1973.

Expires March 31, 1973.

Issued at Washington, D.C., March 1, 1973.

INTERSTATE COMMERCE  
COMMISSION,  
[SEAL] R. D. PFAHLER,  
Agent.

**ALASKA NATIVE SELECTIONS—**  
**GENERALLY**  
**Notice of Proposed Rule Making**

On September 21, 1972, on pages 19634-19639 of the FEDERAL REGISTER there was published a notice and text of proposed rule making to add to Group 2600 of Title 43, Code of Federal Regulations, additional sections implementing the Alaska Native Claims Settlement Act of 1971. Interested persons were given until October 23, 1972, to submit comments, suggestions, or objections to the proposed addition to Group 2600. Review of the comments and suggestions resulted in a substantial revision of the proposal.

The purpose of this amendment is to provide regulations for the satisfaction of grants of lands and interests in lands made by the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601-1624). It is hereby determined that the publication of this proposed rule making is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (43 U.S.C. 4332(2)(C)) is required.

In accordance with the Department's policy on public participation in rule making (36 FR 8336), interested parties may submit written comments, suggestions or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until April 16, 1973.

Copies of comments, suggestions or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during the regular business hours (7:45 a.m.-4:15 p.m.).

Chapter II of Title 43 of the Code of Federal Regulations is amended by adding a new Part 2650, as set forth below.

CURT BERKLUND,  
 Deputy Assistant,  
 Secretary of the Interior.

MARCH 6, 1973.

Group 2600 of Chapter II, Title 43 of the Code of Federal Regulations is amended as follows:

**PART 2650—ALASKA NATIVE SELECTIONS—GENERALLY**

Sec.	
2650.0-1	Purpose.

**AUTHORITY:** Sec. 25 of the Alaska Native Claims Settlement Act of December 18, 1971; Administrative Procedure Act (5 U.S.C. 551, et seq.).

**§ 2650.0-1 Purpose.**

The purpose of the regulations in this part is to provide procedures for the orderly satisfaction of selections of lands, interests in lands, and rights derived therefrom, pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601).

**§ 2650.0-2 Objectives.**

The program of the Secretary is to encourage and assist the beneficiaries of the 1971 Act, supra, to make timely selections of the lands and interests in lands for which it is determined they are eligible, consistent with the terms of the Act.

**§ 2650.0-3 Authority.**

Section 25 of the Alaska Native Claims Settlement Act of December 18, 1971, authorizes the Secretary of the Interior to issue and publish in the FEDERAL REGISTER, pursuant to the Administrative Procedure Act (5 U.S.C. 551, et seq.), such regulations as may be necessary to carry out the purposes of the Act.

**§ 2650.0-5 Definitions.**

(a) "Act" means the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601) and any amendments thereto.

(b) "Secretary" means the Secretary of the Interior or his authorized delegate.

(c) "Native" means a Native as defined in section 3(b) of the Act.

(d) "Native Village" means any tribe, band, clan, group, village, community, or association in Alaska, as defined in section 3(c) of the Act.

(e) "Village Corporation" means a profit or nonprofit Alaska Native Village Corporation which is eligible under § 2651.2 of this chapter to select land and receive benefits under the Act, and is organized under the laws of the State of Alaska in accordance with the provisions of section 8 of the Act.

(f) "Regional Corporation" means an Alaska Native Regional Corporation organized under the laws of the State of Alaska in accordance with the provisions of section 7 of the Act.

(g) "Public Lands" means all Federal lands and interests in lands located in

Alaska (including the beds of all non-navigable bodies of water), except:

(1) The smallest practicable tract, as determined by the Secretary, enclosing land actually used, but not necessarily having improvements thereon, in connection with the administration of a Federal installation; and,

(2) Land selections of the State of Alaska which have been patented or tentatively approved under section 6(g) of the Alaska Statehood Act, as amended (72 Stat. 341; 77 Stat. 223; 48 U.S.C. chapter 2), or identified for selection by the State prior to January 17, 1969, except as provided in § 2651.4(a)(1) of this chapter.

(h) "Interim Conveyance" means an instrument confirming the validity of the selection of a described tract of public land under the Act, entitling the transferee to a conveyance by patent of legal title thereto subject to confirmation of boundary descriptions and to easements, rights-of-way, and other reservations to be identified and expressed in the patent.

(i) "Patent" as used in these regulations means the document which conveys to the patentee the legal title to the public lands, subject to such reservations for easements, rights-of-way, or other interests in land, as provided by the Act or imposed on the land by applicable law.

(j) "National Wildlife Refuge System" means all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas.

(k) "Approved Protraction Diagram" means the approved diagram of the Bureau of Land Management mathematical plan for extending the public land surveys, and does not constitute an official Bureau of Land Management survey.

**§ 2650.0-7 References.**

(a) Native enrollment procedures are contained in 25 CFR Part 43h.

(b) Withdrawal procedures are contained in Part 2300 of this chapter.

(c) Application procedures are contained in Part 1821 of this chapter.

**§ 2650.1 Provisions for interim administration.**

(a) (1) Prior to any conveyance under the Act, all public lands withdrawn pursuant to sections 11, 14, and 16 of the Act shall be administered under applicable laws and regulations by the Secretary of the Interior, or by the Secretary of Agriculture in the case of national forest lands, as provided by section 22(l) of the Act. The authority of the Secretary of the Interior and of the Secretary of Agriculture to make contracts and to issue leases, permits, rights-of-way, or easements is not impaired by the withdrawals.

(2) If the lands applied for are unsurveyed, they must be described by approved protraction diagrams of the Bureau of Land Management or State of Alaska protraction diagrams authenticated by the Bureau of Land Management.

(3) If the lands applied for are not surveyed and are not covered by approved or authenticated protraction diagrams, they must be described by metes and bounds commencing at a readily identifiable topographic feature, such as

(2) Prior to making contracts or issuing leases, permits, rights-of-way, or easements, the views of the concerned regions or villages shall be obtained.

(b) As provided in section 17(d)(3) of the Act, any lands withdrawn pursuant to section 17 shall be subject to administration by the Secretary under applicable laws and regulations, and his authority to make contracts, and to issue leases, permits, rights-of-way, or easements shall not be impaired by the withdrawal.

(c) As provided in section 21(e) of the Act, so long as there are no substantial revenues from real property interests conveyed pursuant to this Act and the lands are not subject to State and local real property taxes, such lands shall continue to receive forest fire protection services from the United States at no cost.

**§ 2650.2 Application procedures.**

(a) (1) Applications must be filed on forms approved by the Director, Bureau of Land Management. Applications must be filed in accordance with Part 1821 of this chapter.

(2) Minor errors in submitting applications or in otherwise complying with nonstatutory requirements hereunder may be waived in the discretion of the Secretary.

(b) Each regional corporation must submit with its initial application a copy of the resolution authorizing the individual filing the application to do so.

(c) Each village corporation under Subpart 2651 of this chapter must submit with its initial application a certification of its eligibility and entitlement, a certified copy of its articles of incorporation, evidence of the approval thereof by the regional corporation for that region, a copy of the resolution authorizing the filing, and a copy of the authorization of the individual filing the application to do so.

(d) (1) Regional and village corporations authorized by the Act subsequently filing additional or amendatory applications need only refer to the serial number of the initial filing as reference to the articles of incorporation.

(2) Any change of the officer authorized to act for any corporation, and approved amendments to the articles of incorporation, should be promptly submitted to the appropriate office of the Bureau of Land Management.

(e) (1) If the lands applied for are surveyed, the legal description of the lands in accordance with the official plats of survey must be used.

(2) If the lands applied for are unsurveyed, they must be described by approved protraction diagrams of the Bureau of Land Management or State of Alaska protraction diagrams authenticated by the Bureau of Land Management.

(3) If the lands applied for are not surveyed and are not covered by approved or authenticated protraction diagrams, they must be described by metes and bounds commencing at a readily identifiable topographic feature, such as

**PROPOSED RULE MAKING**

a mountain peak, mouth of a stream, etc., or a monumented point of known position, such as a triangulation station, and the description must be accompanied by a topographic map delineating the boundary of the area applied for.

(4) Where published 1:63,360 U.S.G.S. Quadrangle maps are available with the rectangular grid or approved protraction diagrams plotted thereon, these maps should be used to portray and describe the lands applied for.

(5) If the legal description and the map portrayal do not agree, the written description will be controlling.

(f) The boundaries of selected areas may be adjusted by the Secretary after consultation with the applicant and amendment of the application, provided that the adjustment will not create an excess over the selection entitlement, as follows:

(1) Include any contiguous parcel of public land that would otherwise remain as an isolated parcel of public land;

(2) Include unavailable land which becomes available subsequently for selection.

(g) Each selection application must be accompanied by a nonreturnable filing or service fee of \$25.

**§ 2650.3 Lawful entries and mining claims.**

**§ 2650.3-1 Lawful entries.**

(a) Patent requirements met. Pursuant to sections 14(g) and 22(b) of the Act, all patents issued under the Act shall exclude any lawfully entered land, or entries which have been perfected under, or are being maintained in compliance with, laws leading to the acquisition of title, but shall include land subject to valid existing rights of a temporary or limited nature such as those created by leases (including leases issued under section 6(g) of the Alaska Statehood Act), contracts, permits, rights-of-way, or easements.

(b) The right of use and occupancy of persons who initiated lawful settlement or entry of land, prior to August 31, 1971, is protected: *Provided, That:*

(1) Occupancy has been or is being maintained in accordance with the appropriate public land law, and

(2) Settlement or entry was not in violation of Public Land Order No. 4582, as amended. Any person who entered or settled upon land in violation of that public land order has gained no rights.

**§ 2650.3-2 Mining claims.**

(a) *Possessory rights.* Pursuant to section 22(c) of the Act, on any lands to be conveyed to village or regional corporations, any person who, prior to August 31, 1971, initiated a valid mining claim or location, including millsites, under the general mining laws and recorded notice thereof with the appropriate State or local office, shall not be challenged by the United States as to his possessory rights, if all requirements of the general mining laws are met. However, the validity of any mining claim may be challenged by the United States at any time.

(b) *Patent requirements met.* Any per-

son holding a valid mining claim on lands conveyed to regional or village corporations may proceed to patent, if all requirements under the general mining laws are met, provided that an acceptable mineral patent application has been filed with the appropriate land office not later than December 18, 1976.

(c) *Patent requirements not met.* Any mineral patent application filed after December 18, 1976, will be rejected for lack of Departmental jurisdiction.

**§ 2650.4 Patent reservations.**

**§ 2650.4-1 Existing rights and contracts.**

Any interim conveyance or patent issued for surface and subsurface rights under this Act will be subject to any lease, contract, permit, right-of-way, or easement and the rights of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted him.

**§ 2650.4-2 Succession of interest.**

Upon issuance of any interim conveyance or patent under this authority, the transferee thereunder shall succeed and become entitled to any and all interests of the State of Alaska or of the United States as lessor, contractor, permitter, or grantor, in any such lease, contract, permit, right-of-way, or easement covering the estate conveyed, subject to the provisions of section 14(g) of the Act.

**§ 2650.4-3 Administration.**

Leases, contracts, permits, rights-of-way, or easements granted prior to the issuance of any interim conveyance or patent under this authority shall continue to be administered by the State of Alaska or by the United States after the interim conveyance or patent has been issued, unless the responsible agency waives administration. For lands remaining under the jurisdiction of the Secretary, administration of such less-than-free rights shall be continued by the issuing agency.

**§ 2650.4-4 Revenues.**

(a) If the interim conveyance or patent covers all the lands included in the lease, contract, permit, right-of-way, or easement, the transferee shall be entitled to all the revenues reserved by the State of Alaska or by the United States in the lease, contract, permit, right-of-way, or easement, accrued and payable after the date of such interim conveyance or patent.

(b) If the interim conveyance or patent does not cover all the lands included in any such lease, contract, permit, right-of-way, or easement, the transferee shall be entitled only to the proportionate amount of the revenues reserved under the lease, contract, permit, right-of-way, or easement, by the State of Alaska or by the United States, in accordance with section 14(g) of the Act, accrued and payable after the date of such interim conveyance or patent.

**§ 2650.4-5 National Forest Lands.**

Any interim conveyance or patent issued under this Act for lands located

within the boundaries of a national forest shall contain the following reservations:

(a) For a period of 5 years from the date of the interim conveyance or patent, whichever occurs first, the sale of any timber from these lands shall be subject to the same restrictions relating to the export of timber from the United States as are applicable to national forest lands in Alaska under rules and regulations of the Secretary of Agriculture;

(b) These lands must be managed under the principle of sustained yield and under management practices for the protection and enhancement of environmental quality no less stringent than management practices on adjacent national forest land for a period of 12 years from the date of the interim conveyance or patent, whichever occurs first; and,

(c) In conformity with paragraph (b) of this section, management practices and the basis for computing the sustained yield capacity of the various resources will be specified in a plan made jointly by the transferee and the delegated representative of the Secretary of Agriculture, which plan shall constitute a covenant running with the land. Use of these lands, or the resources thereon, will be in accordance with the plan or its approved revisions during the 12-year period.

#### § 2650.4-6 National Wildlife Refuge System Lands.

(a) Every interim conveyance or patent which includes land in the national wildlife refuge system shall reserve to the United States the first right of refusal for a period of 120 days from the date of notice to the United States that the land is being offered for sale by the village corporation.

(b) Every interim conveyance or patent which covers lands lying within the boundaries of a national wildlife refuge in existence on December 18, 1971, shall provide that the lands shall remain subject to the laws and regulations governing use and development of such refuge.

#### § 2650.4-7 Public easements.

In accordance with section 17(b)(3) of the Act, prior to the issuance of any patent under this Act, the Secretary shall reserve such public easements as he deems necessary, after consultation with the State of Alaska and the Federal-State Land Use Planning Commission. If the recommendations of the State and the Planning Commission are not received within 90 days after notice by the Secretary, he may proceed to issue the patent reserving such public easements as he determines are necessary.

#### § 2650.5 Survey requirements.

##### § 2650.5-1 General.

(a) Surveys under section 13 of the Act are authorized to depart from the regulations governing the survey of the public lands of the United States under the rectangular system of surveys. Any survey or description used as a basis for conveyance must be adequate to identify the lands to be conveyed.

(b) Surveys shall take into account the navigability or nonnavigability of bodies of water. The beds of all bodies of water determined by the Secretary to be navigable shall be excluded from the gross area of the surveys and shall not be charged to total acreage entitlements under the Act. The beds of all bodies of water not determined to be navigable shall be included in the surveys as public lands, shall be included in the gross area of the surveys, and shall be charged to total acreage entitlements under the Act. No ground survey or monumentation shall be done by the Bureau of Land Management along the meander lines of navigable bodies of water.

(c) The entries of all persons who have made a lawful entry pursuant to § 2650.3-1 and who have met all requirements for survey under appropriate law and regulation by April 1, 1974, shall be surveyed and segregated from all selections. The entries of all persons who have not met the requirements for survey by April 1, 1974, shall be considered abandoned and shall not be surveyed.

##### § 2650.5-2 Rule of approximation.

To assure full entitlement, the rule of approximation may be applied with respect to the acreage limitations applicable to conveyances and surveys under this authority, i.e., any excess must be less than the deficiency would be if the smallest legal subdivision were eliminated (see 62 I.D. 417, 421).

##### § 2650.5-3 Regional surveys.

Lands to be patented to a regional corporation, when selected in contiguous units, may be grouped together for the purpose of survey and surveyed as one tract, with monuments being established on the exterior boundary at angle points and at intervals of approximately two miles on straight lines.

##### § 2650.5-4 Village surveys.

(a) Only the exterior boundaries of the total acreage entitlement for each village corporation will be surveyed. The survey will be made after the total acreage entitlement of the village has been selected.

(b) Surveys will be made within the village corporation selections to delineate those occupied tracts required by law to be conveyed by the village corporations pursuant to section 14(c) of the Act.

(c) (1) The boundaries of the tracts described in paragraph (b) of this section shall be established by the affected village corporations and the recipient of the conveyance to be made by the village corporations by written agreement which shall be sent to the appropriate land office of the Bureau of Land Management within 180 days after issuance of the interim conveyance or patent. The written agreement must be accompanied by a map showing the approximate established boundaries. Each corner of the tract must be marked by permanent monuments on the ground, in order to survey the boundaries thereof.

(2) After the Bureau of Land Management has prepared a plan of survey,

the affected village corporation and its potential transferees will be provided 30 days in which to comment. After having considered the comments, final approval of the plan of survey shall be by the Authorized Officer of the Bureau of Land Management. Thereafter, no addition shall be made to the approved plan of survey. Survey needed after the final approval shall not be performed by the Secretary.

##### § 2650.5-5 Cemetery sites and historical places.

Only those cemetery sites and historical places to be conveyed under section 14(h)(1) of the Act shall be surveyed.

##### § 2650.5-6 Adjustment to plat of survey.

All interim conveyances issued for lands not covered by officially approved surveys of the Bureau of Land Management shall note that upon the filing of an official plat of survey, the boundary of the selection area, described in terms of protraction diagrams or by metes and bounds, shall be adjusted to the plats of survey.

##### § 2650.6 Selection limitations.

(a) Notwithstanding any other provisions of the Act, no village or regional corporation may select lands which are within 2 miles from the boundary, as it existed on December 18, 1971, of any home rule or first-class city (excluding boroughs), or which are within 6 miles from the boundary of Ketchikan.

(b) Determination will be by certification by the State of Alaska as to which cities are home rule or first class and as to their boundaries as of December 18, 1971.

(c) Native groups, the cities of Juneau, Sitka, Kenai, and Kodiak, are not considered village corporations within the meaning of this section and are not subject to the 2-mile limit.

(d) If the village corporation for the Native village at Dutch Harbor is found eligible for land grants under this Act, it may select lands pursuant to Subpart 2651 of this chapter and receive patent under the terms of section 14(a) of the Act.

##### § 2650.7 Publication.

The Authorized Officer will order publication of each proposed conveyance in accordance with the following procedures:

(a) Each applicant will be required to publish a notice allowing all persons claiming the land adversely to file in the appropriate land office their objections to the issuance of any interim conveyance. The notice must be published once a week for 5 consecutive weeks in a designated newspaper and format.

(b) Each applicant must file a statement of the publisher, accompanied by a copy of the published notice showing that publication has been had for the required time. The applicant will be required to pay the cost of publication of the notice.

(c) Any protestant must serve on the applicant a copy of the objections and furnish evidence of service thereof to the appropriate land office.

#### PART 2651—VILLAGE SELECTIONS

Sec.	Authority.
2651.0-3	Entitlement.
2651.1	Eligibility requirements.
2651.2	Selection period.
2651.3	Selection limitations.
2651.4	Patent reservations.
2651.5	Airport and air navigation facilities.

AUTHORITY: Secs. 12 and 16(b) of the Act.

##### § 2651.0-3 Authority.

Sections 12 and 16(b) of the Act provide for the selection of lands by eligible village corporations.

##### § 2651.1 Entitlement.

(a) Village corporations eligible for land benefits under the Act shall be entitled to a patent to the surface estate in accordance with sections 14(a) and 16(b) of the Act.

(b) In addition to the land benefits in paragraph (a) of this section, each eligible village corporation shall be entitled to select and receive a patent to the surface estate for such acreage as is distributed to the village corporation in accordance with section 12(b) of the Act.

##### § 2651.2 Eligibility requirements.

(a) Pursuant to section 11(b) of the Act, the Authorized Officer of the Bureau of Indian Affairs shall review and make a determination, not later than June 17, 1974, as to which villages are eligible for benefits under the Act.

(1) *Review of listed native villages.* The Authorized Officer of the Bureau of Indian Affairs shall make a determination of the eligibility of villages listed in section 11(b)(1) of the Act. He shall investigate and examine available records and evidence that may have a bearing on the character of the village and its eligibility pursuant to paragraph (b) of this section.

(2) *Findings of fact and notice of proposed decision.* After completion of the investigation and examination of records and evidence with respect to the eligibility of a village listed in section 11(b)(1) of the Act for land benefits, the Authorized Officer of the Bureau of Indian Affairs shall publish in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska his proposed decision with respect to such eligibility and shall mail a copy of the proposed decision to the affected village, all villages located in the region in which the affected village is located, all regional corporations within the State of Alaska, the State of Alaska, and any other party that may have an interest in the proposed decision. His proposed decision is subject to protest by any interested party within 30 days of the publication of the proposed decision in the FEDERAL REGISTER. If no valid protest is received within the 30-day period such proposed decision shall become final and shall be published

in the FEDERAL REGISTER. If the decision is in favor of a listed village, the Authorized Officer shall issue a certificate as to the eligibility of the village in question for land benefits under the Act, and certify the record and the decision to the Secretary. Copies of the final decisions and certificates of village eligibility shall be mailed to all interested parties.

(3) *Protest.* Within 30 days from the date of publication of the proposed decision in the FEDERAL REGISTER, any interested party may protest a proposed decision as to the eligibility of a village for benefits under the Act. No protest shall be considered which is not accompanied by supporting evidence. The protest shall be mailed to the Authorized Officer of the Bureau of Indian Affairs, with a copy to all interested parties.

(4) *Action on protest.* Upon receipt of a protest, the Authorized Officer shall examine and evaluate the protest and supporting evidence required herein, together with his record of findings of fact and proposed decision, and shall render a decision on the eligibility of the Native village that is the subject of the protest. Such decision shall be rendered within 30 days from the receipt of the protest and supporting evidence by the Authorized Officer. The decision of the Authorized Officer shall be published in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska and a copy shall be mailed to all interested parties. Such decision shall become final, unless appealed to the Director, Office of Hearings and Appeals, Department of the Interior, within 30 days of its publication in the FEDERAL REGISTER.

(5) *Action on appeal.* Appeals to the Director, Office of Hearings and Appeals, shall be filed and governed by the applicable regulations in Part 4, Subpart G of this title, except that the appellant shall have not more than 15 days from the date of filing of his notice of appeal within which to file an appeal brief, and the opposing parties shall have not more than 15 days from the date of receipt of the appellant's brief within which to file an answering brief. No more than 15 days shall be allowed for the filing of additional briefs in connection with such appeals. All hearings held in connection with such appeals shall be conducted in the State of Alaska. Appeals filed hereunder shall take precedence on the docket of the Office of Hearings and Appeals. The decision of the Director, Office of Hearings and Appeals, shall be the final decision of the Secretary.

(6) *Applications by unlisted villages for determination of eligibility.* The head or any authorized subordinate officer of a Native community not listed in section 11(b) of the Act may file on behalf of the unlisted community an application for a determination of its eligibility for land and benefits under the Act. Such application shall be filed in duplicate with the appropriate land office in accordance with Subpart 1821 of this chapter prior to September 1, 1973. The original application shall be immediately forwarded to the Authorized Officer of

the Bureau of Indian Affairs. Each application must describe the location of the community pursuant to § 2650.2(e) of this chapter.

(7) *Segregation of land.* The filing of an application by the authorized representative or representatives of the Native community shall operate to segregate the public land in the vicinity of the community as provided in sections 11(a)(1) and (2) of the Act. The segregative effect of an application for eligibility filed hereunder shall terminate upon final rejection of the application.

(8) *Action on application for eligibility.* Upon receipt of an application for eligibility, the Authorized Officer of the Bureau of Indian Affairs shall have a notice of the filing of the application published in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska and shall promptly review the statements contained in the application. If the application does not adequately describe the community or constitute prima facie evidence of compliance with the requirements of sections 11(b)(3)(A) and (B) of the Act, he shall return the application to the representative or representatives of the Native community with a statement of the reason for return of the application. When a proper application is filed with the Authorized Officer of the Bureau of Indian Affairs, he shall investigate and examine available records and evidence that may have a bearing on the character of the community and its eligibility pursuant to paragraph (b) of this section, and thereafter make findings of fact as to the character of the community. No later than December 19, 1973, the Authorized Officer shall make a determination as to the eligibility of the community as a Native village for land and benefits under the Act and shall issue a decision. He shall publish his decision in the FEDERAL REGISTER and in one or more newspapers of general circulation in Alaska and shall mail a copy of the decision to the representative or representatives of the community, all villages in the region in which the community is located, all regional corporations within the State of Alaska, the State of Alaska, and any other party that may have an interest in the decision.

(9) *Protest to eligibility determination.* Any interested party may protest a decision of the Authorized Officer of the Bureau of Indian Affairs regarding the eligibility of a Native community for land and benefits under the provisions of sections 11(b)(3)(A) and (B) of the Act by filing a notice of protest with the Authorized Officer within 30 days from the date of publication of the decision in the FEDERAL REGISTER. A copy of the protest must be mailed to all interested parties. If no protest is received within the 30-day period, the decision shall become final and the Authorized Officer shall certify the record and the decision to the Secretary. No protest shall be considered which is not accompanied by supporting evidence. Anyone protesting a decision concerning the eligibility or ineligibility of a Native community shall have the

## PROPOSED RULE MAKING

burden of proof in establishing that the decision is incorrect. Anyone appealing a decision concerning the eligibility or ineligibility of a Native community shall have the burden of proof in establishing that the decision is incorrect.

(10) *Action on protest, appeal.* Upon receipt of a protest, the Authorized Officer shall follow the procedure outlined in paragraph (a) (4) of this section. If an appeal is taken from a decision on eligibility, the provisions of paragraph (a) (5) of this section shall apply.

(b) Villages must meet each of the following criteria to be eligible for land benefits under sections 14 (a) and (b) of the Act:

(1) There must be 25 or more Natives enrolled in the villages.

(2) The village must have been in existence as an established village on April 1, 1970, and separate and not connected with or a part of a city, town, or other identifiable community settlement.

(3) The village must not be modern and urban in character. A village will be considered to be of modern and urban character if the Secretary determines that it possesses a majority of the following attributes:

(i) Population over 2,500.

(ii) Centralization of water system or sewage system.

(iii) Five or more business establishments which provide goods or services such as transient accommodations or eating establishments, specialty retail stores, plumbing and electrical services, etc.

(iv) Organized police or fire protection.

(v) Resident medical or dental services, other than those provided by Indian Health Service.

(vi) A school system providing both elementary and secondary education.

(4) A majority of the residents must be native.

(5) The inhabitants of the village must rely upon the natural resources of the area for all or a portion of their livelihood.

(c) In addition to the criteria listed in paragraph (b) of this section, a village must possess a predominance of the following characteristics:

(1) Census place in the 1970 census.

(2) Some type of local government such as: traditional council, receiving Bureau of Indian Affairs services; Indian Reorganization Act—federally recognized village; incorporated under State law.

(3) Community services such as local school, Indian Health Service facilities, postal services, communications.

(4) Physical facilities consisting of permanent structures for residential or business purposes, or both, in more or less compact or proximate relationship.

(5) Established towns and survey.

#### § 2651.3 Selection period.

Each eligible village corporation must file its selection application(s) not later than December 18, 1974, under sections 12(a) or 16(b) of the Act; and not later than December 18, 1975, under section 12(b) of the Act.

#### § 2651.4 Selection limitations.

(a) Each eligible village corporation may select up to the maximum surface acreage entitlement under sections 12 (a) and (b) and section 16(b) of the Act, but may not select more than:

(1) 69,120 acres from land that, prior to January 17, 1969, has been selected by, or tentatively approved to, but not yet patented to the State under the Alaska Statehood Act; and,

(2) 69,120 acres of land from the National Wildlife Refuge System; and,

(3) 69,120 acres of land from the National Forest System.

(b) To the extent necessary to obtain its entitlement, each eligible village corporation must select all available lands within priority Group 1 (below) before selecting lands within priority Group 2, and within priority Group 2 before selecting lands within priority Group 3.

(1) The township or townships within which all or part of the village is located.

(2) Withdrawn land in the two "rings" of contiguous or cornering townships, as specified in sections 11(a) (1) (B) and (C) and 11(a) (2) of the Act;

(3) Deficiency lands withdrawn pursuant to section 11(a) (3) of the Act.

(c) Selections shall be contiguous and in reasonably compact tracts, except as separated by bodies of navigable water or by lands which are unavailable for selection.

(1) Regardless of the number of selection applications filed, the total village corporation selection must be compact and contiguous and should conform as nearly as practicable to the U.S. Land Survey System.

(2) A tract will not be considered compact if it excludes other lands available for selection within its exterior boundaries, or if it is excessively strung out in long narrow strips of more than four times the length to the width. The omission of lands which must be selected by the regional corporation will not be considered a violation of the compactness requirement, unless such omission would require the selection of deficiency lands withdrawn pursuant to section 11(a) (3) of the Act.

(3) Village corporations are not required to select lands within an unpatented mining claim. If the village corporation selection omits lands within unpatented mining claims, this will not be construed as violating the requirements for compactness and contiguity.

(4) The lands selected shall be in whole sections where they are available, or include all available lands in less than whole sections, and, wherever feasible, shall be in units of not less than 1,280 acres.

(5) Except as provided in paragraph (c) (2) of this section, "checkerboard" or alternate tract selections will not be permitted.

(d) Optional selections are permitted to insure full entitlement under the Act. Optional selection applications must meet the criteria of paragraph (c) of this section, and give numerical choice, i.e., first choice, second choice, etc. Such

selections must be filed not later than December 18, 1974. Land descriptions of optional selections may also be adjusted pursuant to § 2650.2(f) of this chapter, if the selections are approved.

(e) Whenever the Secretary determines that a dispute exists between villages over land selection rights, he shall direct the village corporations to arbitrate the dispute in accordance with section 12(e) of the Act, within 120 days of notice to that effect. Optional selections may be made pursuant to paragraph (d) of this section in order to protect selection rights.

(f) Village corporation selections within section 11(a) (1) and section 11 (a) (3) areas shall be given priority over regional corporation selections for the same lands.

§ 2651.5 Patent reservations.

In addition to the patent reservations in § 2650.4 of this chapter, interim conveyances or patents issued to village corporations shall provide for the transfer of the surface estates specified in section 14(c) of the Act, and shall be subject to valid existing rights under section 14(g) of the Act.

§ 2651.6 Airport and air navigation facilities.

(a) Every airport and air navigation facility owned and operated by the United States which the Secretary determines is actually used in connection with the administration of a Federal program will be deemed a "Federal installation" under the provisions of section 3(e) of the Act, and the Secretary will determine the smallest practicable tract which shall enclose such Federal installations. Such Federal installations are not public lands as defined in the Act and are therefore not "lands available for selection" under the provisions of these regulations.

(b) The surface of all other lands used as airport sites, airway beacons, or other navigation aids, together with such additional lands or easements as are necessary to provide related services and to insure safe approaches to airport runways, shall be conveyed by the village corporation to the State of Alaska, and the Secretary will include any and all covenants which he deems necessary in the interim conveyance or patent to any village corporation to insure the fulfillment of this obligation.

#### PART 2652—REGIONAL SELECTIONS

Sec. 2652.0-3 Authority.

2652.1 Entitlement.

2652.2 Selection period.

2652.3 Selection limitations.

2652.4 Patent reservations.

Authority: Secs. 12(a) (1) and 12(c) (3), and secs. 14(e); 14(f); 14(h) (1), (2), (3), (5), and (8).

§ 2652.0-3 Authority.

Sections 12(a) (1) and 12(c) (3) provide for selections by regional corporations; and sections 14(e); 14(f); 14(h)

(1), (2), (3), (5), and (8), provide for the conveyance to regional corporations of the selected surface and subsurface estates, as appropriate.

§ 2652.1 Entitlement.

(a) Eligible regional corporations may select up to the maximum acreage granted pursuant to section 12(c) of the Act. They will be notified by the Secretary of their entitlement.

(b) Where subsurface rights are not available to the eligible regional corporations in lands whose surface has been patented to village corporations, the regional corporations may select an equal subsurface acreage from lands withdrawn under sections 11(a) (1) and 11 (a) (3) of the Act, as provided in section 12(a) of the Act.

(c) As appropriate, the regional corporations will receive patent to the subsurface estate of lands, the surface estate of which is patented pursuant to section 14 of the Act.

(d) If a 13th regional corporation is organized under section 7(c) of the Act, it will not be entitled to any grant of lands.

§ 2652.2 Selection period.

All regional corporations must file their selection applications not later than December 18, 1975.

§ 2652.3 Selection limitations.

(a) To the extent necessary to obtain its entitlement, each regional corporation must select all available lands within priority group 1 (below) before selecting lands within priority group 2, and within priority group 2 before selecting lands within priority group 3:

(1) Withdrawn land in the two "rings" of contiguous or cornering townships, as specified in section 11(a) (1) (B) and (C) of the Act, except that regional corporations may select only even-numbered townships in even-numbered ranges, and only odd-numbered townships in odd-numbered ranges;

(2) Deficiency lands withdrawn for villages pursuant to section 11(a) (3) of the Act;

(3) Deficiency lands withdrawn for the regions pursuant to section 11(a) (3) of the Act.

(b) Village corporation selections within section 11(a) (1) and section 11(a) (3) areas shall be given priority over regional corporation selections for the same lands.

(c) Regional corporation selections should be in reasonably compact tracts considering the intended use and with associated village corporation selections, and in conformity with the regional land selection recommendations of the Joint Federal-State Land Use Planning Commission for Alaska. In no case will such selections be less than one complete township, whether surveyed or projected. Such selections should be in accordance with plans developed with the maximum public participation. The Secretary will cooperate with the Natives and the Land Use Planning Commission regarding areas to be selected with the view of achieving economic growth

## PROPOSED RULE MAKING

and development that is orderly, planned and compatible with State and national environmental objectives.

(d) Optional selections are permitted to insure full entitlement under the Act. Optional selections must meet the criteria of paragraph (c) of this section, and must give numerical choice, i.e., first choice, second choice, etc. Such selections must be filed not later than December 18, 1975. Adjustment in land description and selection may be made in accordance with § 2650.2(f) of this chapter.

§ 2652.4 Patent reservations.

In addition to the patent reservations in § 2650.4 of this chapter, patents issued to regional corporations for the subsurface estate of lands whose surface has been patented to village corporations shall provide that the right to explore, develop, or remove minerals from the subsurface estate in the lands within the boundaries of any Native village shall be subject to the consent of the village corporation.

#### PART 2653—MISCELLANEOUS SELECTIONS

Sec. 2653.0-3 Authority.

2653.1 Conveyance limitations.

2653.2 Application procedures.

2653.3 Lands available for selection.

2653.4 Selection period.

2653.5 Cemetery sites and historical places.

2653.6 Native group selections.

2653.7 Sitka-Kenai-Juneau-Kodiak selections.

2653.8-1 Primary place of residence.

2653.8-2 Acreage to be conveyed.

2653.8-3 Primary place of residence criteria.

2653.9 Patent reservations.

Authority: Secs. 14(h) and 11, and 16 of the Act.

§ 2653.0-3 Authority.

Section 14(h) of the Act authorizes the Secretary to withdraw, and, in his discretion, to convey 2 million acres of unreserved and unappropriated public lands located outside the areas withdrawn by sections 11 and 16 of the Act, as follows:

(a) Fee title to existing cemetery sites and historical places to the regional corporations for the regions in which the lands are located;

(b) Title to the surface estate of not more than 23,040 acres to any Native group that does not qualify as a Native village;

(c) Title to the surface estate of not more than 23,040 acres of lands to the Natives residing in Sitka, Kenai, Juneau, and Kodiak, who meet the requirements; and,

(d) Title to the surface estate is not to exceed 160 acres of land to a Native as his primary place of residence.

§ 2653.0-5 Definitions.

(a) "Cemetery Site" means a burial ground consisting of six or more Native graves.

(b) "Historical Place" means a distinguishable tract of land or area upon which occurred a significant Native historical event, which is importantly asso-

ciated with Native historical or cultural events or persons, or which was subject to sustained historical Native activity.

(c) "Native Group" means a community composed of less than 25, but more than 10 Natives, who constitute two or more families comprising a majority of the residents of a locality and who have incorporated under the laws of Alaska.

(d) "Primary place of residence" means the place where, on August 31, 1971, the applicant had his true, fixed, and permanent home, and principal establishment and to which whenever he is absent he has the intention of returning.

§ 2653.1 Conveyance limitations.

(a) Not more than a total of 2 million acres may be selected by qualified applicants under section 14(h) of the Act for cemetery sites and historical places. Native groups, corporations formed by the Natives residing in Sitka, Kenai, Juneau and Kodiak, for primary places of residence, and for Native allotments approved pursuant to section 18 of the Act within 4 years from December 18, 1971.

(1) One million acres shall be set aside for satisfaction of Native allotments under the Act of May 17, 1906 (34 Stat. 197), the Act of February 8, 1887 (24 Stat. 389), as amended and supplemented, and the Act of June 25, 1910 (36 Stat. 863). Any Native allotment applications pending before the Bureau of Indian Affairs or the Bureau of Land Management on December 18, 1971, will be considered as "pending before the Department." Those allotment applications which have been determined to meet the requirements of the Acts cited herein and for which survey has been requested before December 18, 1975, shall be charged against the 1-million-acre limitation.

(2) The remaining 1 million acres will be prorated among the regional corporations by population for conveyance pursuant to sections 14(h) (1), (2), (3), and (5). Priorities as to use and allocation of these lands will be determined by each regional corporation.

(b) If the Secretary determines that lands are available from the 2 million acres authorized for miscellaneous selections under section 14(h) of the Act for allocation to the regional corporations pursuant to section 14(h) (8) of the Act, the eligible regional corporations will be notified by the Secretary as soon as practicable. Upon such notification, each eligible regional corporation will be entitled to select the acreage from available lands.

§ 2653.2 Application procedures.

(a) All applications must be filed in accordance with the procedures in § 2650.2 (a) of this chapter, and must include the concurrence of the affected regional corporation.

(b) Native groups, and Natives residing in Sitka, Kenai, Juneau, and Kodiak, as provided in sections 14(h) (2) and (3), respectively, must comply with the applicable terms of § 2650.2 (a), (c), (d), (e), and (f) of this chapter.

## PROPOSED RULE MAKING

(c) The filing of an application under the regulations of this subpart and the provisions of section 14(h) of the Act will constitute a request for the withdrawal of the lands, and will segregate the lands applied for from all other forms of appropriation under the public land laws, including the mining and mineral leasing laws, and from selection under the Alaska Statehood Act, as amended, subject to valid existing rights. The segregative effect of such an application will terminate if the application is rejected.

**§ 2653.3 Lands available for selection.**

(a) Selections must be made only from areas subject to withdrawal pursuant to section 14(h) of the Act, and cannot be made from areas withdrawn pursuant to sections 11 and 16 of the Act.

(b) Selections may also be made for existing cemetery sites and historical places. Native groups, corporations formed by the Natives residing in Sitka, Kenai, Juneau, and Kodiak, and for primary places of residence, from any lands which the Secretary may withdraw for those purposes out of the National Wildlife Refuge System lands or the National Forest lands, as provided by section 14(h)(7).

(c) Selections may also be made from lands withdrawn pursuant to sections 17(d)(1) and 17(d)(2) of the Act.

**§ 2653.4 Selection period.**

Applications for selection under this subpart will be accepted until each regional corporation has applied for its entitlement under § 2652.1 of this chapter, or until December 18, 1975, whichever occurs first.

**§ 2653.5 Cemetery sites and historical places.**

(a) The appropriate regional corporation may apply to the Secretary for the conveyance of existing cemetery sites and historical places pursuant to section 14(h) of the Act. The Secretary may give favorable consideration to these applications, provided that the Secretary determines that the criteria in these regulations are met, and provided further that the regional corporation accepts a covenant in the patent that these cemetery sites and historical places will be maintained and preserved solely as cemetery sites and historical places by the regional corporation.

(b) The survey of selected sites shall include only the area actually used and a reasonable buffer zone, not over 66 feet wide around abandoned cemeteries; not over 330 feet wide around an area identified as an historical place; and an area to provide reasonable future expansion around active cemeteries.

**§ 2653.6 Native group selections.**

(a) (1) Native groups in existence on December 18, 1971, who incorporate in accordance with the laws of the State of Alaska may file applications to select the surface estate of not more than 23,040 acres.

(2) The incorporators of a Native group must include not less than three members of the group who are Natives

as defined in § 2650.0-5(c) of this chapter.

(b) Native group selections must meet the criteria of compactness and contiguity specified in § 2651.4 (c) and (d) of this chapter.

(c) Native group selections shall not exceed 1,000 acres for each Native member of the group, or 23,040 acres for each Native group, whichever is less. Non-Native members of the group are not eligible for any benefits hereunder.

**§ 2653.7 Sitka-Kenai-Juneau-Kodiak selections.**

(a) Natives residing in Sitka, Kenai, Juneau, and Kodiak, who incorporate under the laws of the State of Alaska, may select the surface estate of up to 23,040 acres of lands of a similar character located in reasonable proximity to those municipalities.

(b) Selections under this subpart must meet the criteria of compactness and contiguity specified in § 2651.4 (c) and (d) of this chapter.

**§ 2653.8 Primary place of residence.**

(a) An application under this subpart may be made by a Native who occupied land as a primary place of residence on August 31, 1971.

(b) Applications for such lands must be filed not later than December 18, 1973.

**§ 2653.8-1 Acreage to be conveyed.**

A Native may secure title to the surface estate of only a single tract not to exceed 160 acres under the provisions of this subpart, and shall be limited to the acreage actually occupied and used.

**§ 2653.8-2 Primary place of residence criteria.**

The Secretary will consider the following criteria in determining whether the land occupied is a primary place of residence:

(a) *Periods of use.* Casual or occasional use will not be considered as making the tract applied for a primary place of residence.

(b) *Improvements constructed on the land.* (1) Must have a dwelling.

(2) May include associated structures such as food cellars, drying racks, caches, etc.

(c) *Evidence of use.* (1) Must have evidence of continuing use and occupancy.

(2) Does not include such uses as hunting, fishing, berry picking, woodcutting, reindeer husbandry, etc.

**§ 2653.9 Patent reservations.**

(a) Patents issued pursuant to this subpart are subject to the patent reservations described in § 2650.4 of this chapter.

(b) In addition to the reservations provided in paragraph (a) of this section, patents for cemetery sites and historical places will contain a covenant running with the land providing that the regional corporation patentee shall not authorize mining or mineral activities of any type, any commercial activities or any other use which is incompatible with or is in derogation of the values of the area as a cemetery site or historical place. The

covenant will also provide that the United States will be given a right of first refusal for a period of 90 days prior to the purchase from the appropriate regional corporation of any interest in the lands selected as cemetery sites and historical places prior to being conveyed by the regional corporation.

**PART 2654—NATIVE RESERVES**

Sec.	
2654.0-3	Authority.
2654.1	Exercise of option.
2654.2	Application procedures.
2654.3	Conveyances.

**AUTHORITY:** Sec. 19(b) of the Act.

**§ 2654.0-3 Authority.**

Section 19(b) of the Act authorizes any village corporation(s) located within a reserve defined in the Act to acquire title to the surface and subsurface estates in any reserve set aside for the use and benefit of its stockholders or members prior to December 18, 1971. Such acquisition precludes any other benefits under the Act.

**§ 2654.1 Exercise of option.**

(a) Any village corporation which has not, by December 18, 1973, elected to acquire title to the reserve lands will be deemed to have elected to receive for itself and its members the other benefits under the Act.

(b) The election of a village corporation to acquire title to the reserve lands shall be expressed in the manner provided by its articles of incorporation, except that where two or more villages are located on the same reserve an election to acquire title to the reserve lands must be expressed by a majority of the whole number of stockholders or members of such corporations located on such reserve.

(c) The results of any election by a village corporation or corporations to acquire title to the reserve lands shall be certified by the appropriate regional corporation as being in conformity with the articles of incorporation and bylaws of the village corporation or corporations or with the requirements of paragraph (b) of this section, as appropriate.

**§ 2654.2 Application procedures.**

(a) Applications under this subpart must comply with the requirements of § 2650.2 of this chapter, and be accompanied by a copy of the regional corporation's certificate of the election.

(b) If the village corporation elects to reject the reserve lands and take other benefits under the Act, it must apply for those benefits pursuant to Subpart 2651 of this chapter.

**§ 2654.3 Conveyances.**

(a) Conveyances under this subpart are subject to the provisions of section 14(g) of the Act, as provided by § 2650.4 of this chapter.

(b) Conveyances under this subpart to two or more village corporations will be made to them as tenants-in-common.

## DEPARTMENT OF LABOR

Employment Standards Administration  
MINIMUM WAGES FOR FEDERAL AND  
FEDERALLY ASSISTED CONSTRUCTIONArea Wage Determination Decisions;  
Modifications and Supersedes Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a), and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedes decisions to area wage determination decisions.

sions. Modifications and Supersedes Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a), and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

Set forth below in this document are the following New Area Wage Determination Decisions Nos. AP-168 and AP-486 for the States of Kentucky and New York respectively.

Modifications to Area Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

NOTICES

FEDERAL REGISTER, VOL. 38, NO. 46—FRIDAY, MARCH 9, 1973

BUILDING, HEAVY AND HIGHWAY CONSTRUCTION

Truck Drivers, Building:  
Wayland Township  
Addison, Corning, Bath, Hammondsport, Caton, Lindley, Tuscarora, Woodhull, Erwin, Rathbone, Cameron, Thurston, Campbell, Hornby, Bradford, and Wayne Townships  
Remainder of County

Welders - receive rate prescribed for craft performing operation to which welding is incidental.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

- Holidays: A through F; Washington's Birthday, Good Friday, and Christmas Eve providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.
- Holidays: A through F; Washington's Birthday, and Election Day for President of the United States and Election of Governor of New York State, providing employee works the day before and the day after the holiday.
- Paid holidays: A through F; and two hours off with pay on Election Day.
- Paid holidays: A through F.
- Employer contributes \$1.25 per day to Health and Welfare Fund.
- Holidays: A through F; providing employee works the working day before and after the holiday.
- Four hours off with pay at Christmas providing the employee has worked the first four hours.
- Paid Holidays: Independence Day; Thanksgiving Day; Friday after Thanksgiving.
- Paid Holidays: A through F, and Veteran's Day.
- Employer contributes \$2.40 per day to the Health and Welfare fund.

HEAVY AND HIGHWAY CONSTRUCTION

LABORERS:

Laborers and drill helpers  
Concrete aggregate bin, mortar mixer, hand or machine vibrator  
gin buggy, mason tenders, concrete bootmen, chain saw, jackhammer, pavement breaker, and all other gas, electric oil and air tool operators, bull float, tamper, pipelayers  
Drillers, asphalt rakers, stone or granite curb setters and acetylene torch operator  
Blasters, form setters, stone or granite curb setters

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

Footnote:

- Holidays: A through F, providing the employee works the day before and the day after the holiday.

SUPSEDEAS DECISION

STATE: Connecticut  
 COUNTY: Tolland  
 DECISION NO.: AP-477  
 DATE: Date of Publication  
 Supersedes Decision No. AP-434, dated October 6, 1972, in 37 FR 21234.  
 DESCRIPTION OF WORK: Building construction, (excluding single family homes and garden type apartments up to and including 4 stories), heavy and highway construction.

7-CONN-1-2-3-M 1 of 2

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

Asbestos workers:  
 Somers-Stratford-Union  
 Remainder of County  
 Bricklayers  
 Bricklayers, Cement Masons-Finishers,  
 Marble Setters, Plasterers, Stonemasons,  
 Terrazzo Workers, Tile Setters (Building  
 Only)  
 Marble Setters' helpers, Terrazzo Workers  
 helpers, Tile Setters' helpers  
 Bricklayers, Cement Masons-Finishers,  
 Stonemasons (Heavy & Highway)  
 Carpenters & Pile-drivers (Hvy. & Hwy)  
 Carpenters, Soft Floor Layers & Pile-  
 drivers (Building Only):  
 Bolton  
 Remainder of County  
 Electricians  
 Elevator constructors  
 Elevator constructors' helpers  
 Elevator constructors' helpers (Prob.)  
 Glaziers (Outside)  
 Ironworkers: Structural, Ornamental,  
 Reinforcing  
 Laborers (Building, Heavy and Highway):  
 Laborers, Carpenter Tenders, Wrecking  
 Laborers  
 Jackhammer Operator, Mason Tenders,  
 Mortar Mixer, Pipelayers, Plasterer  
 Tenders, Power Buggy Operator  
 Air Track Operators, Wagon Drill Opera-  
 tors and Sandblasters  
 Open Air Caisson, cylindrical Work and  
 Boring Crew:  
 Bottom Man  
 Top Man  
 Lathers:  
 Somers, Stafford, Stratford Spring,  
 Stratfordville, Union, Crystal Lake  
 Remainder of County  
 Lead Burners  
 Line Construction:  
 Linemen, Dynamite Man  
 Equipment Operator  
 Groundman, Truck Driver  
 Groundman, Experienced  
 Groundman, Inexperienced

E-Thanksgiving Day F-Christmas Day

FOOTNOTES: a. Employer contributes 4% of basic hourly rate for over 5 Yrs. service and 1 Yrs. service as vacation pay credit. Six paid holidays A through F.  
b. Out-of-town employers will pay \$8.40 per hour with no fringe benefits.  
c. Employer shall contribute \$25.00 per Mo. for each employee into the Health & Welfare Fund.  
d. Employees with at least 1,700 hours service during the current year & one years service, one week vacation with pay; three years service, two weeks vacation with pay; fifteen years, three weeks with pay.

BUILDING CONSTRUCTION

HELICOPTER OPERATORS (Hoisting material)

TRUCK & CRAWLER CRANES with 200' of boom & over inc. JIB

TRUCK & CRAWLER CRANES with 150' of boom incl. JIB up to 200' of boom

TRAVELING TOWER CRANE

MASTER MECHANIC

DERRICK (GUY & STIFF LEG); Hoist engineer (3 drums or more); Locomotive op., master mechanic; Overhead crane op. (inside building perimeter); Truck & crawler cranes up to 150" of boom incl. JIB

AIR COMPRESSOR OPERATOR, Pump op. &/or Conveyor, 2 or more machines; Hoist engineer (2 drums); Mechanic or welder; Pumpcrete or Compalco type machine op.

FORK LIFT OPERATOR

BOOM TRUCK OPERATOR; Concrete mixer op.; Drill rigs (heavy duty rotary or churn drill when used for caisson drilling or when drilling for elevator cylinder on building construction); Front end loader op.; Hoist engineer (1 drum); Power plant engineer (100 KWH & over); Straddle carrier op.; Tractor op. (over D-2); Well point pump op.

CONCRETE BATCH PLANT OPERATOR; Gunite op.; Tractor op (D-2 or similar size & front end loader operator up to 1 cu. yd.)

AIR COMPRESSOR OPERATOR, Pump &/or Conveyor op.; Fireman, Temporary heat; Brakeman; Pick up sweeper (combustion engine operated); Truck crane oiler

MECHANIC SPACE HEATER (Temporary heat); Oiler or greaser

FEDERAL REGISTER, VOL. 38, NO. 46—FRIDAY, MARCH 9, 1973

Laborers:

Building Construction

Class 1

Common laborer, Steel joist handler (erection), Power buggy operator, Carpenter tender, Earth dumpman, flagman

Class 2

Reinforced Steel Handler

Class 3

Men handling cement 2 Hrs. per day (bulk or sack, excluding mortar mixer), Mason tender, Concrete joint saw Op., Demolition & wrecking laborer

Class 4

Hot tar caulkers & corkers, Labs. on swing stage line scaffold (excl. "Patent" scaffolding), Automatic tamper Op., Chipping hammer Op., Paving buster, Mortar mixer, Concrete vibrator Op., Sheet piling setter & driver on Heavy Bldg. excavation, Jackhammer men

Class 5

Underground work

Class 6

Pipe layer

Class 7

Caisson work, Underpinning

Class 8

Nozzlemen

Class 9

Dynamite men, Power drillers for blasting purposes

PAID HOLIDAYS: A. New Years Day; B. Memorial Day; C. Independence Day; D. Labor Day; E. Thanksgiving Day; F. Christmas Day.

- FOOTNOTES:
- Employer contributes 4% basic hourly rate for over 5 years service, 2% basic hourly rate for 6 months to 5 years as vacation pay credit. Six paid holidays A through F.
  - Out-of-town contractors will pay the rate of \$8.40 per hour with no fringe benefit payments.
  - Employer will contribute \$25.00 per month for each employee into the Health & Welfare Fund.
  - Employees with at least 1,700 hours service during the current year & 1 year's service - 1 week vacation with pay; 3 years' service - 2 weeks vacation with pay; 15 years' service - 3 weeks with pay.

**POWER EQUIPMENT OPERATORS:**  
Site preparation, excavation  
and incidental paving

**GROUP 1**  
Helicopter Pilot

**GROUP 2**

Crane with over 135' Boom, excluding  
jib, Dragline and/or other similar  
equipment w/shovel type controls 3 cu.  
yds. & over Mfg. rated capacity

**GROUP 3**

Cableway Op., Concrete Mixer, Stationary  
Plant over 345, Derrick, Dragline and/  
or other similar equipment with shovel  
type controls up to 3 cu. yds. Mfg.  
rated capacity, Dredge Operator or  
Engineer, Dredge Operator (power) &  
Engineer, Front End Loader Op., 5 cu.  
yds. & over, Grader or Motor Patrol,  
Finishing earthwork & bituminous,  
Locomotive Crane Operator, Master  
Mechanic, Mixer (Paving) Concrete  
Paving Op., Road Mole Op., incl. power  
supply, Mucking Mach., incl. mucking  
operations Conway or similar type,  
Refrigeration Plant Engineer, Tandem  
Scraper, Tractor Op. (Boom Type),  
Truck Crane Op., Tugboat Op. 100 HP &  
over

**GROUP 4**

Dual Tractor Op., Elevating Grader Op.,  
Pumpcrete Op., Scraper Op., Struck  
Capacity 32 cu. yd. & over, Self-Prop.  
Traveling Soil Stabilizer

**GROUP 5**

Air Track Rock Drill, Asphalt Bituminous  
Stabilizer Plant Op., Crushing Plant  
Op., or Gravel Washing, Crushing and  
Screening Plant Op., Dope Machine Op.,  
Drill Rigs, Heavy Rotary or Churn or  
Cable Drill, Engineer in Charge of  
Plant requiring First Class License,  
Fork Lift or Straddle Carrier Op.,  
Fork Lift or Lumber Stacker, Front  
End Loader Op., over 1 cu. yds., Hoist  
Engineer, Hydraulic Tree Planter,

STATE: Nevada

COUNTIES: Statewide (excluding the Nevada  
Test site & Tonopah Test Range)

ORDINANCE NO.: AP-264

DATE: Date of Publication

Ordinance Decision No. AP-264 dated September 22, 1972 in 37 FR 19919

SIGNIFICANCE OF WORK: Heavy and Highway Construction (excluding water well drilling)

## CARPENTERS

Clark, Esmeralda, Lincoln, Nye (south  
of Hwy. #6) and including the town of  
TonopahNye (north of Hwy. #6, excluding the  
town of Tonopah) and all remaining  
Counties

## ELECTRICIANS

Clark & Lincoln Counties, and Nye  
County (south of Mt. Diablo Base Line)

Electricians &amp; Technicians

Cable Splicers

Churchill, Douglas, Elko, Esmeralda,  
Eureka, Humboldt, Lander, Lyon,  
Mineral, Nye (remaining portions),  
Ormsby, Pershing, Storey, Washoe &  
White Pine Counties (excluding Lake  
Tahoe Area)

Electricians

Cable Splicers

Lake Tahoe Area

Electricians

Cable Splicers

IRONWORKERS

Elko, Eureka (Northeast portion  
including Cities of Palisade, Beavawee  
& Fort Hall), Humboldt (Northeast portion  
incl. Town of McDermitt to south-south-  
east border of Humboldt Co.), Lander  
(Northeast portion incl. City of  
Battle Mountain, Lincoln (Northeast  
portion south of 37th parallel), Nye

## LABORERS:

Clark, Esmeralda, Lincoln, & Nye  
Counties

## GROUP I

LABORERS-general or Construction;  
Demolition (cleaning of brick, lumber,  
etc.); Dry packing of concrete, and  
filling of form-bolt holes; Gas and  
oil pipeline; Laborer-Temporary water  
lines (portable type); Window cleaner

## GROUP II

Cutting Torch Op. (Demolition); Terman  
& Mortar men, Kettlemen, Potman and  
man applying asphalt, Lay-Kold  
Creosote, Lime, & similar type  
materials

## GROUP III

Guinea Chaser

## GROUP IV

Fine Grader, highway & street paving,  
airport, runways & similar type heavy  
construction; Landscape gardener &  
nursery-man.

## GROUP V

Laborers-packing rod steel &amp; pans

## GROUP VI

Underground laborer including Caisson  
Bellows

## GROUP VII

Chucktender (except tunnels); Scaler;  
Tank scaler & cleaner

## GROUP VIII

Cesspool Digger &amp; Installer

## GROUP IX

Concrete Curer-impervious membrane &  
coiler of all materials; Riprap stone-  
paver; Sandblaster (Pot Tender);  
Making & Caulking of all non-metallic  
pipe joints

## LABORERS: (cont'd)

## GROUP X

Operators & tenders of pneumatic &  
electric tools, vibrating machines,  
hand propelled trenching machines,  
impact wrench multi-plate & similar  
mechanical tools not separately  
classified herein; Asphalt Raker,  
ironer, spreader, Luteman; Buggy-  
mobile man; Cement dumper (on one  
yard or larger mixers & handling bulk  
cement); Concrete saw man excluding  
Tractor type, cutting, scoring old or  
new concrete; Concrete Core Cutter;  
Gas & oil pipeline wrapper-pot tender  
& form man; Operator of cement grinding  
machine; Roto-scraper; Tree climber,  
Faller, Chain saw opr., Pittsburgh  
Chipper & similar type brush shredders

## GROUP XI

Rock Slinger; Scaler (using Bos'n chair  
or safety belt or power tools)

## GROUP XII

Driller and/or pavement breaker

## GROUP XIII

Oversize concrete vibrator op., 70 lbs.  
& over; Laying of all non-metallic  
pipe, including sewer pipe, drain pipe  
& underground tile

## GROUP XIV

Gas & oil pipeline wrapper - 6 inch  
pipe & over

## GROUP XV

Cribber or Shorer, lagging, sheeting,  
trench bracing, hand guided lagging  
hammer; Powderman-Blaster-all work of  
loading holes, placing and blasting of  
all powder and explosives of whatever  
type regardless of method used for  
such loading & placing

## GROUP XVI

Steel Headboardman

## AREA 1\*

## POWER EQUIPMENT OPERATORS:

## GROUP I

ASSISTANT TO ENGINEER, Including Brake-man, Deckhand, Fireman, Heavy Duty Repairman Helper, Oiler, Partsman (heavy duty repair shops parts room when needed), Switchman, Tar Pot Fireman

## GROUP II

COMPRESSOR (Electrically, diesel or gas powered, etc.) Material Loader and/or Conveyor (handling building materials); Oiler (Truck Crane); Pump; Tar Pot Fireman (power agitated)

## GROUP III

BOX OPERATOR (Bunker): Concrete Curing Machines (streets, highways, airports, canals); Conveyor Belt (Tunnel); Engineer Generating Plant (500 K.W.); Fireman Hot Plant; Hydraulic Monitor; Lubrication and Service Engineer (Mobile and Grease Rack); Mixer Box Operator (Concrete Plant); Motorman; Roadman or Chainman; Retomist; Screedman (except asphaltic or concrete paving)

## GROUP IV

BALLAST JACK TAMPER; Ballast Regulator; Ballast Tamper Multi-Purpose; Boxman (asphalt plant); Concrete Mixer, Skip Type; Dinky (Assistant to Engineer required); Fork Lift (construction job site); Ross Carrier; Skip Loader (under 1 cu. yd.); Tie Spacer

## GROUP V

CONCRETE MIXER (over 1 cu. yd.); Concrete Pumps or Pumpcrete Guns; Elevator and Material Hoist (1 drum); Grader, Grade checker; Screedman (Barber - Greene and similar) (asphaltic or concrete paving); Shuttle car; Signalman

NOTICES

\*\* AREA 2: All areas not included within Area 1 as defined below.

\* AREA 1: All of Northern Nevada within the following lines:

Commencing at the N.W. corner of township 22N, range 18E, Mount Diablo  
Baseline and Meridian at the California-Nevada border;  
Thence Easterly to the N.E. corner of township 22N, range 22E;  
Thence Southerly to the N.E. corner of township 20N, range 22E;  
Thence Easterly to the N.W. corner of township 20N, range 26E;  
Thence Northerly to the N.W. corner of township 22N, range 26E;  
Thence Easterly to the N.W. corner of township 22N, range 29E;  
Thence Northerly to the N.W. corner of township 30N, range 29E;  
Thence Easterly to the N.E. corner of township 30N, range 33E;  
Thence Southerly to the S.E. corner of township 24N, range 33E;  
Thence Westerly to the S.E. corner of township 24N, range 31E;  
Thence Southerly to the S.E. corner of township 16N, range 31E;  
Thence Westerly to the S.E. corner of township 16N, range 30E;  
Thence Southerly to the S.E. corner of township 15N, range 30E;  
Thence Westerly to the S.E. corner of township 15N, range 27E;  
Thence Southerly to the S.E. corner of township 14N, range 27E;  
Thence Westerly to the S.E. corner of township 14N, range 23E;  
Thence Southerly to the S.E. corner of township 13N, range 23E;  
Thence Westerly to the S.E. corner of township 13N, range 22E;  
Thence Southerly to the N.E. corner of township 10N, range 22E;  
Thence Easterly to the N.E. corner of township 10N, range 23E;

Thence Southerly along the Easterly line of range 23E to the intersection of  
the California-Nevada border;

Thence North-Westerly, then Northerly following the California-Nevada border  
to the point of beginning.

Area 1 also includes that portion of Northern Nevada included within the  
following line:

Commencing at the S.W. corner of township 37N, range 52E;  
Thence Easterly to the S.E. corner of township 37N, range 52E;  
Thence Northerly to the N.E. corner of township 37N, range 52E;  
Thence Easterly to the N.W. corner of township 37N, range 53E;  
Thence Southerly to the S.W. corner of township 37N, range 58E;  
Thence Easterly to the S.E. corner of township 37N, range 58E;  
Thence Southerly to the N.E. corner of township 31N, range 58E;  
Thence Westerly to the N.W. corner of township 31N, range 58E;  
Thence Southerly to the S.W. corner of township 31N, range 58E;  
Thence Westerly to the S.E. corner of township 31N, range 52E;  
Thence Northerly to the N.E. corner of township 31N, range 52E;  
Thence Westerly to the S.E. corner of township 32N, range 51E;  
Thence Northerly to the point of beginning.

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
Truck Drivers:						
Ready-mix concrete, sand, gravel and asphalt	\$5.23	.44k	.55k	n + o		
Euclids and turnpull operator	5.385	.44k	.55k	n		
Demolition & Wrecking:						
Straight jobs	4.76	p	q	r		
Trailers	5.01	p	q	r		
Welders - receive rate prescribed for craft performing operation to which welding is incidental.						
PAID HOLIDAYS:						
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.						
FOOTNOTES:						
a. Employer contributes \$.86 per hour to Annuity Fund.						
b. Holidays: A through F; Election Day; Employer's Birthday.						
c. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Armistice Day.						
d. Employer contributes .4% basic hourly rate for 5 years or more of service or 4.2% basic hourly rate for 6 months to 5 years of service as vacation pay credit.						
e. Holidays: A through F; (provided the employee worked one day in the payroll week in which the holiday falls).						
f. Holidays: A through F; Washington's Birthday; Columbus Day; Election Day; Armistice Day; Lincoln's Birthday.						
g. Holidays: A through F; Washington's Birthday; Christmas Eve and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and regular scheduled work days immediately preceding and following the holiday.						
h. \$3.00 per day contribution for each man to a special annuity fund.						
i. Employer contributes \$2.35 per hour to a combined Health & Welfare Pen. and Vacation Fu						
j. Employer contributes \$.857 to a Security Benefit Fund.						
k. Employer contributes \$3.00 per day to a Security Benefit Fund.						
m. Employer contributes \$7.00 per day to an Annuity Fund.						
n. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Veteran's Day, providing the employee works two days in the calendar week in which the holiday falls and each remaining work day during such calendar week.						

BUILDING, HEAVY & HIGHWAY CONSTRUCTION

FOOTNOTES (cont'd):

- o. Vacation with pay, with a maximum vacation of three weeks per year.  
p. Employer contributes \$28.86 per month to Health & Welfare.  
q. Employer contributes \$29.13 per month to a Pension Fund.  
r. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Good Friday; Columbus Day; Armistice Day and Election Day.  
s. Holidays: B, C, D & E, Election Day, Columbus Day, Providing employee works at least 1 day in the week in which the holiday occurs.  
t. Holidays: A through F.  
u. Employer contributes \$.66 per hour to a combined Health & Welfare and Pension Fund.  
v. Employer contribution of \$.47 per hour to a Vacation Fund.  
w. Employers contribute \$.60 per hour to a Trust Fund.  
x. Employers contribute \$.15 per hour to an Annuity Fund.  
y. Employer contributes \$.90 per hour to an Annuity Fund.  
z. Paid Holidays: New Year's Day, Christmas Day provided the employee works a full half day preceding the holiday.

DESCRIPTION OF WORK: Highway Construction

COUNTIES: Statewide  
DATE: Date of Publication

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
LABORERS:						
CARPENTER TENDER; Chip spreader; Levermen; Drill runner helper; Fine Grader; Form grader; General construction laborer; Landscape worker; Pipe handler; Pump op. (per & de-water); Reinforced steel erector; Sack shaker (cement & mineral filler); Salamander heater & blower tender; Sign erector; Tunnel worker	\$2.70					
BITUMINOUS WORKERS (shovel, dumper, raker & floater); Brick & mason tender; Bulk cement handler; Chain saw; Concrete bucket signalman; Concrete curing man (not water); Concrete saw op.; Conduit layer (telephone or electrical); Culvert pipelayer; Form setter (pavement); Gas, electric or pneumatic tool op. (chipping hammer, grinders, & paving breakers) (tamper) (dirt); (Concrete vibrator); Joint filler machine; Kettlemen (bit. or lead); Multi-plate pipelayer; Power buggy; Semi skilled laborer	2.80					
BOTTOM MAN (sanitary sewer, storm sewer, water, & gas lines); Caisson work; Concrete mixer (one bag cap.); Mortar mixers	2.90					
DRILL RUNNER (incl. wagon churn, or air track); Pipelayers (sanitary sewer, storm sewer, water, & gas lines); Powderman, gunite & sand-blast, nozzleman	3.00					

POWER EQUIPMENT OPERATORS

CABLEWAY OPERATOR; Crane Operator with over 135' boom; Derrick (Guy & Stiff leg), (Power), (Skids & Stationary); Front End Loader over 10 cu. yds.; Gantry Crane Operator; Mole Operator, including Power Supply or Tunnel Mucking Machine; Power Shovel and/or other Equipment with Shovel Type Controls 3 - 1/2 cu. yd.

CONCRETE MIXER STATIONARY PLANT OPERATOR over 34E; Dredge Operator or Engineer, Dredge Operator (Power) and Engineer; Elevator Grader Operator; Locomotive, Crane Operator; Master Mechanic; Mixer (Paving) Concrete Paving Operator, road; Power Shovels and/or other Equipment with shovels and/or other Equipment with shovel type controls up to 3 - 1/2 cu. yds.; Scraper Tandem; Tandem Pusher Quad, 9 or similar; Tractor Operator (Pipeline) Side Boom; Truck Crane Operator

DOPE MACHINE OPERATOR (Pipeline); Drill Rigs, Heavy Duty Rotary or Churn or Cable Drill; Front End Loader Operator, 6 cu. yds. & over; Locomotive, all types; Pipeline Wrapping, Cleaning & Bending Machine Operator; Power Actuated Horizontal Boring Machine over 6" Op. (Pipeline); Pumpcrete Operator; Refrigeration Plant Engineer; Slip Form Op. (Power Driven) (Paving); Tandem Scraper-Twin Engine, 50 cu. yds. Struck & over

ASPHALT PAVING MACHINE OPERATOR; Asphalt Plant Operator and Console Board Op.; CMI Grading Operator; Crushing Plant Operator (Gravel & Stone or Gravel Washing, Crushing and Screening Plant Operator); Front End Loader Operator, 1 cu. yd. up to 6 cu. yds.; Grader or Motor Patrol, Finishing Earth Work and Bituminous; Mechanic or Welder (Heavy Duty); Rubber Tired Dozer Napco or similar & over; Rubber Tired Industrial Tractor with Backhoe

LABORERS

Group I  
Carpenter tender; Concrete crewman;  
Concrete signalman; Crusher feeder;  
Demolition; Driller helper; Dumpman;  
Fence erector; General laborer; Grout  
machine header tender; Nipper; Riprap  
man; Scaleman; Stake jumper; Struc-  
tural mover; Tailhoseman (water  
nozzle); Track laborer (RR); Truck  
loader; Timber bucket and faller;  
Window cleaner; Brush Hog Feeder

Group II  
Cement finisher tender; Cement handler;  
Demolition torch; Dope pot fireman;  
nonmechanical; Form cleaning machine,  
feeder, stacker; Form setter, paving;  
Grade checker using level, optional;  
Nozzlemen, water & air or steam; Pipe  
layer, corrugated metal culvert; Pipe  
wrapper; Pot tender; Powderman helper;  
Power tool op.; gas, electric, pneu-  
matic Railroad equipment, power  
driven; Rodder & spreader; Sandblast  
tailhoseman; Scaffold erector, wood  
or steel; Vibrator up to 4"; Wall-  
point man; Wheelbarrow, power driven

Group III  
Asphalt raker; Asphalt roller, walking;  
Chain saw op. w/attachments; Concrete  
saw, walking; Cressote material; High  
scaler; Jackhammer op.; Multi-section  
pipelayer; Nozzlemen; Pavement break-  
er; Taper; Trencher; shawnee; Vibra-  
tor, 4" & over; Wagon drills; Water  
pipe liner

Group IV  
Chain Saw (faller); Pipelayer (Caulker,  
collarman, jointer, mortarman, rigger,  
jacker, shorer & lagger and laser  
beam but not incl. laying corrugated  
metal culvert pipe)

Group V  
Concrete stack, Hod carriers; Mortar  
mixer; Vibrator, 4 inches and over

## LABORERS

## GROUP I

Asphalt plant laborers; Asphalt  
spreaders; Batch weighman; Broomers;  
Brush burners & cutters; Car & truck  
loaders; Carpenter tender; Change-house  
man or dry shack man; Checker setters;  
Clean up laborers; Concrete laborers;  
Crusher feeders; Culvert, hand labor;  
Curing, concrete; Demolition, wrecking,  
& moving laborers; Driller helpers;  
Dumpers, Road oiling crew; Dumpmen  
(for grading crew); Elevator feeders;  
Fence builder (incl. Guard rail,  
Median rail, Reference post, Guide  
post, Right-of-way marker); Fine  
graders; Form strippers (not swing-  
ing stages); General laborers;  
Landscaping or planting laborers;  
Leverman on aggregate spreader  
(Flaherty & similar types); Loading  
spotters; Material yard man (incl.  
electrical); Pittsburgh chipper  
operator or similar types; Powderman  
helper; Railroad track laborers;  
Ribbon setters (incl. steel forms);  
Rip Rap man (hand placed); Road  
pump tender; Sewer labor; Skipmen;  
Signalmen; Slopers, spraymen; Stake  
chaser-Stake setter-Grade checker;  
Stockpiler; Timber faller & Buckler  
(hand labor); Toolroom man (at job  
site); Tunnel bull gang (above  
ground); Weigh man crusher aggre-  
gate (when used)

## GROUP II

Applicator (incl. pot tender for  
same), applying protective material  
by hand or nozzle on utility lines  
or storage tanks on project; Burners;  
Choker splicer; Clary power spreader  
& similar types; Clean-up nozzleman-  
greencutter (concrete rock, etc.);  
Concrete power buggyman; Demolition  
& wrecking charred materials; Gunite  
nozzleman tender; Gunite or sand  
blasting pot tender; Handlers or mixers  
of all materials of an irritating nature  
(incl. cement & lime); Manhole builder;

Power tool op., incl. but not limited  
to: Chipping guns, Jackhammer, Paving  
breakers, Post hole digger, Air, Gas,  
or Electric, Tampers, Vibrating  
screed, Vibrators (less than 4" in  
diameter); Ribbon setter, head; Rip  
Rap man (head), hand placed; Sand  
blasting (wet); Sever timberman; Timber  
buckers & fallers, Brush cutters (power  
saw); Tunnel-muckers, Brakemen, Concrete  
crew, Bull gang (underground)

## GROUP III

Asphalt rakers; Bid grinder; Concrete  
saw op.; Drill doctor; Drill ops.,  
Air tracks, Cat drills, Wagon drills,  
Rubber-mounted drills, & other  
similar types; Gunite nozzleman; High  
scalars, Strippers & Drillers (covers  
work in swinging stages, chairs or  
belts, under extreme conditions usual  
to normal drilling, blasting, barring-  
down, or sloping & stripping); Powder-  
man; Power saw ops. (bucking &  
falling merchantable logs); Pumpcrete  
nozzleman; Sand blasting (dry);  
Sewer pipe layers; Track liners, Anchor  
machines, Ballast regulators, Multiple  
tampers, Power jacks; Tugger op.;  
Tunnel — Chuck tenders, Nippers, & Tin-  
bermen; Vibrators (4" & larger); Water  
blaster; Welder

## GROUP IV

Tunnel miners; Tunnel powderman

## POWER EQUIPMENT OPERATORS

## GROUP I

Bit Grinders; Bolt Threading Machine;  
Brakeman; Compressors, under 1000 cu.  
ft. per minute gas, diesel or elec-  
tric power; Crusher Feeder (mechani-  
cal); Deck Hand; Drillers' Helper;  
Fireman & Heater Tender; Grade  
Checker; Helper (Mechanic or Welder,  
H.D.); Oiler; Pumpman; Rollers, all  
types on subgrade (farm type, Case,  
John Deere and similar — or compact-  
ing or vibrator) except when pulled  
by dozer with operable blade; Weld-  
ing Machines.

## GROUP II

A-Frame Truck (single-drum); Assistant  
Refrigeration Plant (under 1000  
tons); Assistant Plant Operator,  
Fireman or Pugmiller (asphalt); Bag-  
ley or Stationary Scraper; Batch  
Plant & Wet Mix Operator, single  
unit (concrete); Belt Finishing Ma-  
chine; Bending Machine (pipeline);  
Blower Operator (cement); Cement  
Hog; Compressor (1000 cu. ft. or  
over, 2 or more — gas, diesel or  
electric power); Concrete Saw  
(multiple cut); Distributor Leverman;  
Dope Pots (power agitated); Equipment  
Serviceman, Greaser & Oiler; Fork  
Lift or Lumber Stacker, Hydra Lift  
& similar; Gln trucks (pipeline);  
Hoist, single drum; Loaders (bucket  
elevators and conveyors); Longitudi-  
nal Float; Mixer (portable — con-  
crete); Pavement Breaker, Hydra-  
Hammer & similar; Posthold Auger or  
Punch; Power Broom; Railroad Ballast  
Regulation Operator, (self-pro-  
pelled); Railroad Power Tamper Op-  
erator, (self-propelled); Railroad  
Power Tamper Jack Operator, (self-  
propelled); Spray Curing Machine  
(concrete); Spreader Box (self-pro-  
pelled); Straddle Buggy (Ross &

similar on construction job site);  
Tractor (farm type R/T with attach-  
ments except backhoe); Tugger Opera-  
tor.

## GROUP III

A-Frame Truck (2 or more drums);  
Assistant Refrigeration Plant &  
Chiller Operator (over 1000 tons);  
Backfillers (Cleveland & similar);  
Belt-Crete Conveyors with Power Pack  
or similar; Blade Operator (Kocak or  
similar); Boat Operator (Motor  
Patrol and attachments); Boat Opera-  
tors; Boom Cuts (side); Boring Ma-  
chine (earth); Boring Machine (rock  
under 8" bit) (Quarry Master, Joy or  
similar); Bump Cutter (Wayne, Sagi-  
naw or similar); Canal Lining Ma-  
chine (concrete); Cleaning & Doping  
Machine (pipeline); Concrete Pumps  
(squeeze-crete, flow-crete, pump-  
crete, Whitman & similar); Drills  
Drills (churn, core, calys or dia-  
mond); Elevating Belt-type Loader  
(Euclid, Barber Green or similar);  
Elevating Grader-type Loader (Dunor,  
Adams, or similar); Generator Plant  
Engineers (diesel electric); Gunite  
Combination Mixer & Compressor;  
Hoist, (2 or more drums or Tower  
Hoist); Loaders, (overhead & front-  
end, under 4 yds., R/T); Locomotive  
Engineer; Mixermobile; Oilier & Cable  
Tender; Mucking Machine; Paver  
(asphalt and concrete); Pump (Grout  
or Jet); Refrigeration Plant Engineer  
(1000 tons); Roller (finishing  
pavement); Rubber-tired Scrapers  
(one motor with one scraper, under  
40 yds.); Screed Operator; Soil  
Stabilizer (P & H or similar);  
Spreader Machine; Tractor (crawler,  
incl. Dozer, Scraper, Drills, Booms,  
Rollers, etc.); Traverse Finishing

Machine; Trenching Machines (under  
7 ft. depth capacity); Turnhead  
Operator

## GROUP IV

H.D. Mechanic; H.D. Welder; Refrigera-  
tion Plant Engineer (1000 tons &  
over) Semi-automatic Welding  
Machine.

## GROUP V

Asphalt Plant Operator; Crusher &  
Screening Plant Operator; Rubber-  
tired Scrapers Multi-Engine Power  
with one Scraper (Euclid, TS-24 &  
similar); Rubber-tired Scraper, One  
Motor with One Scraper (40 yds. &  
over); Single Engine with two  
Scrapers (Letourneau, Tandem B &  
similar); Surface Heater & Planer  
Machine.

## GROUP VI

Automatic Subgrader (ditches & trim-  
mers) (R.A. Hansen & similar); Back-  
hoes (under 3 yds.); Batch & Wet Mix  
Operator-Multiple Units (2 and incl.  
4); Clamshell Operator (under 3  
yds.); Concrete Slip Form Paver;  
Cranes (under 65 tons); Derricks &  
Stifflegs (under 65 tons); Draglines  
(under 3 yds.); Drilling Equipment  
(8" bit and over) (Robbins & simi-  
lar); Hydra-Cranes (Austin, Western  
Hydra-Hoe and similar with attach-  
ments); Loader Operator (Front End  
& Overhead 4 yds. to 8 yds.); Muck-  
ing Machines; Piledriving Engineers;  
Paver (dual drum); Quad-track or  
similar Equipment; Railroad Track  
Liner Operator (self-propelled);  
Rubber-tired Scrapers, Multiple

Tractor, Rubber-tired with boom  
attachments; Trenching Machine  
maximum digging capacity over 3 ft.  
depth

GROUP X

BULLDOZER, TWIN-ENGINE (TC 12 and  
similar type); Cable-Plow; Com-  
pactor, Multi-engine; Driller-  
Percussion, Diamond, Core, Cable,  
Rotary and similar types; Jack Op-  
erator Elevating Barges; Barge Op-  
erator, self-unloading Combination  
H.D. Mechanic-Welder; Welder-Cert-  
ified; Rubber-tired Dozers and  
Pushers (Michigan, Cat, Hough, type

GROUP XI

MIXER MOBILE; Crane, 25 tons and un-  
der; Shovel, Dragline; Clamshell,  
Hoe, etc., under 1 cu. yd.; Grade-  
all, under 1 cu. yd.; Mucking Mach-  
ine

GROUP XII

BLADE; Batch Plant and/or wet mix,  
3 units or more; Hoist, 2 drums;  
Hoist, 3 or more drums; Elevating  
Loader, Athey and similar types;  
Piledriver (not crane type); Rubber-  
tired Scraper, single engine, single  
scraper; Scraper-Self-Loading,  
paddle wheel ladder type; Rubber-  
tired Scraper, twin engine; Rubber-  
tired Scraper, with push-pull  
attachments; Blade Mounted  
Spreaders, Ulrich and similar types;  
Shield Operator

GROUP XIII

BLADE, FINISH (working with either  
red or blue tops); Blade, Elect-  
ronically controlled by wire or  
laser beams; Blade, Multi-engine;  
Concrete Paving and Road Mixer;  
Bridge Crane, Locomotive, Gantry  
Overhead; Derrick, under 100 tons;  
Hoist Stiffleg, Guy Derrick or  
similar type 50 tons and over;  
Cableway, up to 25 tons; Crane, over  
25 tons and including 40 tons; Tower  
Crane; Piledriver (not crane type);  
Floating Clamshell, etc., under 3 cu.  
yds.;

Area Code 202  
Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

**List of CFR Parts Affected**

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

PROCLAMATION 4193

### Law Day, U.S.A., 1973

*By the President of the United States of America*

#### A Proclamation

Nearly 190 years ago, Alexander Hamilton wrote in *The Federalist Papers* that an independent judicial system is "the best expedient which can be devised in any government, to secure a steady, upright, and impartial administration of the laws."

The theme of the sixteenth annual observance of Law Day, U.S.A., "Help Your Courts—Assure Justice," makes Hamilton's words particularly timely. For it is in our courts that our Constitution and all our laws take on their practical meaning.

The judicial system is the final arbiter of American justice—and the final guarantor of American democracy. The first principle of the judiciary must always be to interpret the law fairly and without prejudice—the rights of the weak must be equally protected with those of the strong, the rights of the poor with those of the rich, the rights of the guilty with those of the innocent.

We honor the law because it preserves civilized society. We revere the law because it protects the dignity of the individual. And we respect our courts because without them the words of law would be words without meaning.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby request the observance of Tuesday, May 1, 1973, as Law Day in the United States of America.

As requested by the Congress, I urge that our people observe Law Day with appropriate public ceremonies, through public bodies and private organizations, in schools, colleges and universities, and in other suitable places. I especially request that the courts, the legal profession, and all media of public information take the lead in such observances so that public understanding of the role of the courts in our society can be broadened. I call upon public officials to display the Nation's flag on public buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

## EXECUTIVE ORDER 11706

**Inspection of Returns by U.S. Attorneys and Attorneys of Department of Justice and Use of Returns in Grand Jury Proceedings and in Litigation**

By virtue of the authority vested in me by section 6103(a) of the Internal Revenue Code of 1954, as amended (26 U.S.C. 6103(a)), it is hereby ordered that returns made in respect of the taxes imposed by chapters 1, 2, 3, 5, 6, 11, 12, and 32, subchapters B and C of chapter 33, and chapter 41 of such Code shall be open to inspection by U.S. attorneys and attorneys of the Department of Justice and for use in grand jury proceedings and in litigation in accordance and upon compliance with the rules and regulations prescribed by the Secretary of the Treasury in Treasury Decision 6543, relating to inspection and use of returns by certain classes of persons and State and Federal Government establishments, approved by the President on January 17, 1961, the amendments thereto approved by the President on April 4, 1963, March 18, 1965, and February 16, 1972, and the amendment thereto approved by me this date.

THE WHITE HOUSE,  
March 8, 1973.

## Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 7—Agriculture CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER C—SPECIAL PROGRAMS [Amdt. 7]

#### PART 780—APPEAL REGULATIONS Special Handling

On page 3071 of the FEDERAL REGISTER of February 1, 1973, there was published a notice of proposed rule making stating that the Agricultural Stabilization and Conservation Service was considering an amendment to the appeal regulations.

Interested persons were given 20 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment to the regulations is hereby adopted without change and is set forth below. The amendment provides that determinations made by a State ASC committee with respect to the quality of the acreage set-aside under the programs for wheat, feed grains, and upland cotton are no longer appealable to the Deputy Administrator.

**Effective date.** This amendment shall be effective on March 12, 1973.

Signed at Washington, D.C., on March 6, 1973.

KENNETH E. FRICK,  
Administrator, Agricultural Stabilization and Conservation Service.

Section 780.11(a) of the appeal regulations, 7 CFR Part 780, is amended by adding a new subparagraph (8). The paragraph, as amended, shall read as follows:

§ 780.11 Requests for reconsideration and appeals requiring special handling.

(a) Determinations made by a State committee with respect to (1) the establishment of farm yields for wheat, feed grain, and cotton, (2) the establishment of wheat allotments, (3) the establishment of farm feed grain bases, (4) the establishment of upland cotton base acreage allotments, (5) the establishment of conserving bases, (6) matters arising under the tobacco discount variety program, (7) eligibility provisions of the livestock feed program, and (8) the quality of the set-aside acreage are not appealable to the Deputy Administrator.

[FR Doc.73-4655 Filed 3-9-73; 8:45 am]

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 290, Amdt. 1]

#### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period March 2–March 8, 1973. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) **Findings.** (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 290 (38 FR 5480). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice,

engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) **Order, as amended.** The provisions in paragraph (b)(1)(ii) of § 907.590 (Navel Orange Reg. 290 (38 FR 5480)) are hereby amended to read as follows:

§ 907.590 Navel Orange Regulation 290.

- • • • •
- (b) **Order.** (1) • • • • •
- (ii) District 2: 350,000 cartons.
- • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 7, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

### Title 9—Animals and Animal Products CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

##### PART 73—SCABIES IN CATTLE

##### Areas Quarantined

This amendment releases Beckham, Greer, Harmon, Jackson, and Tillman Counties in Oklahoma from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, do not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 73.1a. Further, the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 apply to the excluded areas.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the

## RULES AND REGULATIONS

Act of July 2, 1962 (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f), Part 73, Title 9, Code of Federal Regulations, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

In § 73.1a, paragraph (b) is amended to read:

§ 73.1a Notice of quarantine.

(b) Notice is hereby given that cattle in certain portions of the State of Oklahoma are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease:

- (1) Beaver County.
- (2) Cimarron County.
- (3) Texas County.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 78 Stat. 130, 132; 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f; 37 FR 28464, 28477)

**Effective date.** The foregoing amendment shall become effective March 6, 1973.

The amendment relieves restrictions presently imposed but no longer deemed necessary to prevent the spread of cattle scabies, and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of March 1973.

G. H. WISE,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Designation of Transition Area**

On page 28764 of the FEDERAL REGISTER dated December 29, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Fayette County Airport, Washington Court House, Ohio, add:

Interested persons were given 30 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the amendment as so proposed is hereby adopted, subject to the following change:

After line 7 of the transition area description for Fayette County Airport, Washington Court House, Ohio, add: "of the airport".

This amendment shall be effective 0901 G.m.t., May 24, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on February 26, 1973.

H. W. POGGEMEYER,  
Acting Director,  
Great Lakes Region.

In § 71.181 (37 FR 2143), the following transition area is added:

**WASHINGTON COURT HOUSE, OHIO**

That airspace extending upward from 700 feet above the surface within a 6½-mile radius of the Fayette County Airport (latitude 39°34'15" N., longitude 83°25'13" W.) and within 3 miles each side of the 037° bearing from the airport extending from the 5½-mile radius area to 10 miles northeast of the airport.

**Title 18—Conservation of Power and Water Resources**

**CHAPTER I—FEDERAL POWER COMMISSION**

[Docket No. R-451; Order No. 475]

**PART 101—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR CLASS A AND CLASS B PUBLIC UTILITIES AND LICENSEES**

**Electric Plant Instruction 9.D.**

MARCH 1, 1973.

On August 28, 1972, the Commission issued a notice of proposed rule making in this proceeding (37 FR 18041, Sept. 6, 1972) proposing to amend Electric Plant Instruction 9.D. in the Uniform System of Accounts for Class A and Class B Public Utilities and Licensees, prescribed by Part 101, Chapter I, Title 18, CFR. The proposed amendments to Electric Plant Instruction 9.D. would modify the requirement that utilities furnish the Commission with full particulars and justification for test or experimental runs exceeding a period of 30 days to require such reporting when the testing period for nuclear plant exceeds 90 days and the testing for other plants exceed 60 days; and specify data on test periods to be submitted by utilities when they notify the Commission that test periods have exceeded the specified number of days.

Interested persons were given until October 12, 1972, to submit data, views, comments, and suggestions in writing.

## RULES AND REGULATIONS

The Commission received 19 responses<sup>1</sup> representing 35 respondents. There were no requests for a conference.

It was unanimous among the electric utilities responding to the rule making that the 30-day reporting requirement should be modified, with several utilities suggesting it be modified to a greater degree than proposed in the rule making for both nuclear and other type plants. After an analysis of comments to the rule making and information furnished the Commission on test periods by utilities in compliance with the 30-day requirement, we are modifying the proposed 60 and 90 day reporting requirements to read 90 days for all other type plants and 120 days for nuclear plants.

One respondent commenting on the proposed amendment to Instruction 9.D., specifying data to be submitted when the test period exceeded the specified number of days, suggested that the amount of detail required to be reported to the Commission be more general and less specific. Another respondent suggested that the last sentence of the proposed amendment which read " \* \* \* beginning with the first date the unit was tested or synchronized on the line \* \* \* be changed to read " \* \* \* beginning with the first date the unit was synchronized on the line \* \* \* " We recognize that it is necessary to synchronize generating units on the line before they can be tested, but do not believe that the suggestion should be adopted because it is too specific and pertains only to generating equipment. Instruction 9.D covers the testing of all types and kinds of equipment. With respect to the data to be submitted in support of the test period, it is necessary in most cases for the Commission to obtain such information from utilities before the reasonableness of test periods can be evaluated. Submission of the data by a utility at the same time it notifies the Commission it has exceeded the specified number of days should be less costly and time consuming than the present procedure.

Certain suggestions were received on the time a facility should be deemed to be ready for service or when it should be placed in service. Two respondents suggested adoption of an accounting procedure which would permit a facility to be partly in service during the test period, based upon operating capacity being used or allowed to be used. Another respondent suggested that the Commission consider outages that occur during

<sup>1</sup>Alabama Power Co., American Electric Power System Cos., Baltimore Gas & Electric Co., Carolina Power & Light Co., Central Louisiana Electric Co., Cincinnati Gas & Electric Co., Cleveland Electric Illuminating Co., The Commonwealth Edison Co., Consumers Power Co., Florida Power Corp., General Public Utilities Corp., Northern States Power Co., Pacific Gas & Electric Co., Public Service Indiana, Salt River Project, Southern California Edison Co., Southern Services, Inc., Virginia Electric & Power Co., and Arthur Andersen & Co.

the warranty period as serving to extend the test period. These comments pertain to matters to be considered in determining when the test period should be terminated and not on when utilities should notify the Commission on the length of test periods, which is the subject of this instant rule making. We wish to make it clear that the requirement in Plant Instruction 9.D. that utilities notify the Commission when a test period has exceeded a specified number of days does not pertain to the reasonableness of the test period. The Commission will continue to evaluate the reasonableness of all test periods.

The Commission finds:

(1) The notice and opportunity to participate in this rule making proceeding with respect to the matters presently before this Commission through the submission, in writing, of data, views, comments, and suggestions in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments to Part 101 of the Commission's Uniform System of Accounts for Class A and Class B Public Utilities and Licensees herein prescribed by Chapter I, Title 18 of the Code of Federal Regulations, are necessary and appropriate for the administration of the Federal Power Act.

(3) Good cause exists for making this order effective upon issuance.

The Commission, acting pursuant to the authority granted by the Federal Power Act, as amended, particularly Sections 3, 4, 301, 304, and 309 (49 Stat. 854, 855, 858; 16 U.S.C. 796, 797, 825, 825c, 825h), orders:

A. The Commission's Uniform System of Accounts for Class A and Class B Public Utilities and Licensees prescribed by Part 101, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

1. Amend subparagraph D of Electric Plant Instruction "9. Equipment." As so amended the subparagraph reads:

**Electric Plant Instructions**

**9. Equipment.**

D. The equipment accounts shall include the necessary costs of testing or running a plant or parts thereof during an experimental or test period prior to such plant becoming ready for or placed in service. The utility shall furnish the Commission with full particulars of and justification for any test or experimental run extending beyond a period of 120 days for nuclear plant, and a period of 90 days for all other plant. Such particulars shall include a detailed operational and downtime log showing days of production, gross kilowatts generated by hourly increments, types, and periods of outages by hours with explanation thereof, beginning with the first date the

equipment was either tested or synchronized on the line to the end of the test period.

B. This order is effective on March 1, 1973.

C. The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4628 Filed 3-9-73; 8:45 am]

**Title 21—Food and Drugs**  
**CHAPTER 1—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES**

**Subpart H—Delegations of Authority**

**COMMISSIONER OF FOOD AND DRUGS**

Under authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), § 2.120(a) is revised to reflect the revised delegations of authority to the Commissioner of Food and Drugs by the Assistant Secretary for Health (35 FR 606, 3000; 36 FR 8893, 11433, 11770, 12803; 37 FR 27646).

**§ 2.120 Delegations from the Secretary and Assistant Secretary.**

(a) The Assistant Secretary for Health has redelegated to the Commissioner of Food and Drugs with authority to redelegate (35 FR 606 as amended) all authority delegated to him by the Secretary of Health, Education, and Welfare as follows:

(1) Functions vested in the Secretary under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), the Filled Milk Act (21 U.S.C. 61-63), the Federal Import Milk Act (21 U.S.C. 141 et seq.), the Tea Importation Act (21 U.S.C. 41 et seq.), the Federal Cautious Poison Act (44 Stat. 1406), the Federal Hazardous Substances Act (15 U.S.C. 1261 et seq.), The Fair Packaging and Labeling Act (15 U.S.C. 1451 et seq.), the Flammable Fabrics Act (15 U.S.C. 1201(a)), and sections 3, 4, 5, 7, 8, and 9 of the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471 et seq.), pursuant to section 12 of Reorganization Plan No. IV and Reorganization Plan No. 1 of 1953, including authority to administer oaths vested in the Secretary of Agriculture by 7 U.S.C. 2217.

(2) Functions vested in the Secretary under section 301. (Research and investigations); section 308. (International cooperation); section 311. (Federal-State cooperation); section 314(f). (Interchange of personnel with States); and section 315. (Health education and information) of the Public Health Service Act (42 U.S.C. 241, 242f, 243, 246(f), and 247) which relate to the functions of the Food and Drug Administration.

(3) Functions vested in the Secretary under sections 354 through 360F of the Public Health Service Act (42 U.S.C. 263b through 263n) which relate to electronic product radiation control.

(4) Functions vested in the Secretary under section 361 of the Public Health Service Act (42 U.S.C. 264) which relate to interstate travel sanitation (except interstate transportation of etiologic agents under 42 CFR 72.25), milk and food service sanitation, and shellfish sanitation.

(5) Functions vested in the Secretary pertaining to section 351 of the Public Health Service Act (42 U.S.C. 262) which relate to the regulation of biological products.

(6) Functions vested in the Secretary pertaining to section 302(a) of the Public Health Service Act (42 U.S.C. 242(a)) which relate to the determination and reporting requirements with respect to the medicinal and scientific requirements of the United States for controlled substances.

(7) Functions vested in the Secretary pertaining to section 303 of the Public Health Service Act (42 U.S.C. 242a) which relate to the authorization of persons engaged in research on the use and effect of drugs to protect the identity of their research subjects with respect to drugs scheduled under Public Law 91-513 for which a notice of claimed exemption for an investigational new drug is filed with the Food and Drug Administration and with respect to all drugs not scheduled under Public Law 91-513.

(8) Functions vested in the Secretary pertaining to section 4 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (84 Stat. 1241) which relate to the determination of the safety and effectiveness of drugs or to approve new drugs to be used in the treatment of narcotic addicts.

(9) Functions vested in the Secretary pertaining to section 303(f) of the Controlled Substances Act (21 U.S.C. 823(f)) which relate to the determination of the qualifications and competency of practitioners wishing to conduct research with controlled substances listed in Schedule I of the Act, and the merits of the research protocol.

(10) Functions vested in the Secretary pertaining to provisions of the Controlled Substances Act (21 U.S.C. 801 et seq.) which relate to administration of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).

(11) Functions vested in the Secretary under section 409(b) of the Federal Meat Inspection Act (21 U.S.C. 679(b)) which relate to the detention of any carcass, part thereof, meat, or meat product of cattle, sheep, swine, goats, or equines.

(12) Functions vested in the Secretary under section 24(b) of the Poultry Products Inspection Act (21 U.S.C. 467f(b)) which relate to the detention of any poultry carcass, part thereof, or poultry product.

(13) Functions vested in the Secretary under the Egg Products Inspection Act (21 U.S.C. 1031 et seq.).

(14) Functions vested in the Secretary by amendments to the foregoing statutes

subsequent to Reorganization Plan No. 1 of 1953.

(15) Functions vested in the Secretary regarding the issuance of all regulations pursuant to authorities cited in paragraphs (1) through (14) of this section. The reservation of authority contained in Chapter 1A of the Department Organization Manual shall not apply.

(16) Functions vested in the Secretary under Executive Order 11490, section 1103(5), and those portions of sections 1103(1), 1103(3), 1103(4), 3001(2), 3001(3), 3002(1), 3002(2), 3002(3), 3004, and 3009 which relate to food, drugs, and biologicals. In the performance of these emergency functions the Commissioner shall coordinate his activities with the Administrator, Health Services and Mental Health Administration, in order that preemergency plans shall be developed in consonance with postattack organization plans and structure of the Department for the Emergency Health Service.

(17) Function vested in the Secretary of authorizing and approving miscellaneous and emergency expenses of enforcement activities.

(18) Function vested in the Secretary under the Federal Advisory Committee Act, Public Law 92-463, to make determinations that advisory committee meetings are concerned with matters listed in section 552(b) of title 5, U.S.C. and therefore may be closed to the public for those committees under the administrative jurisdiction of the Commissioner of Food and Drugs. This authority may not be redelegated. This authority is to be exercised in accordance with the requirements of the Act and only with respect to the following:

(i) Meetings, to the extent that they directly involve review, discussion or consideration of records of the Department which are exempt from disclosure under 5 U.S.C. 552(b) (4), (6), and (7), namely, (a) records containing trade secrets and commercial or financial information obtained from a person and privileged or confidential; (b) personnel, medical and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (c) investigatory files compiled for law enforcement purposes;

(ii) Meetings to the extent that they involve the review, discussion, and evaluation of specific drugs and devices regulated by FDA which are intended to result in recommendations for regulatory decisions under the Federal Food, Drug, and Cosmetic Act and which are concerned with matters listed in 5 U.S.C. 552(b) (4), (5), and (7);

(iii) Meetings held for the sole purpose of considering and formulating advice which the committee will give or any final report it will render. *Provided:*

(a) The meetings will involve solely the internal expression of views and judgments of the members and it is essential to close the meeting or portions thereof to protect the free exchange of such views and avoid undue interference with agency or committee operations, and such views if reduced to writing would be protected from mandatory disclosure under section 552(b) (5) of title 5 U.S.C.;

(b) The meeting is closed for the shortest time necessary, summarizing the work of the committee during the closed session, and a report, prepared by the executive secretary will be made available promptly to the public.

(c) When feasible, the public is given a timely opportunity to present relevant information and views to the committee; and

(d) Concurrence for closing the meetings for such purpose is obtained from the Office of the General Counsel and the Office of Public Affairs.

*Effective date.* This order shall be effective on March 12, 1973.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a))

Dated: March 5, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4666 Filed 3-9-73; 8:45 am]

**PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES**

**Subpart H—Delegations of Authority**

**AUTHORITY RELATING TO MEAT, POULTRY, EGGS, AND RELATED PRODUCTS**

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 2 is amended to delegate authority regarding detention of meat, poultry, eggs, and related products. Accordingly, § 2.121 is amended by adding paragraph (v), as follows:

**§ 2.121** Redelegations of authority from the Commissioner to other officers of the Administration.

(v) Delegations regarding detention of meat, poultry, eggs, and related products. The Regional Food and Drug Directors and Deputy Regional Food and Drug Directors are authorized to perform and to designate other officials to perform all the functions of the Commissioner of Food and Drugs under:

(1) Section 409(b) of the Federal Meat Inspection Act (21 U.S.C. 679(b)) which relate to the detention of any carcass, part thereof, meat, or meat product of cattle, sheep, swine, goats, or equines.

(2) Section 24(b) of the Poultry Products Inspection Act (21 U.S.C. 467f(b)) which relate to the detention of any poultry carcass, part thereof, or poultry product.

(3) The Egg Products Inspection Act (21 U.S.C. 1031 et seq.).

*Effective date.* This order shall be effective on March 12, 1973.

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a))

Dated: March 5, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4667 Filed 3-9-73; 8:45 am]

**PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION**

**Xylazine Hydrochloride**

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (47-955V) filed by Chemagro, Division of Baychem Corp., Post Office Box 4913, Kansas City, MO 64120, proposing revised labeling regarding the use of the drug xylazine hydrochloride for subcutaneous and intramuscular use in dogs and cats. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135b.58 is amended in paragraph (c) (2) as follows:

**§ 135b.58** Xylazine hydrochloride injection.

(c) . . . . .

(2) It is administered as follows:

(i) To horses from a solution containing 100 milligrams of xylazine hydrochloride per milliliter intravenously at 0.5 mg. per 100 pounds of body weight or intramuscularly at 1.0 mg. per 100 pounds of body weight.

(ii) To dogs and cats from a solution containing 20 milligrams of xylazine hydrochloride per milliliter intravenously at 0.5 mg. per pound of body weight or intramuscularly or subcutaneously at 1.0 mg. per pound of body weight. In dogs over 50 pounds, a dosage of 0.5 mg. per pound administered intramuscularly may provide sufficient sedation and/or analgesia for most procedures.

*Effective date.* This order shall be effective on March 12, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 6, 1973.

C. D. VAN HOUWELING,  
Director,  
Bureau of Veterinary Medicine.  
[FR Doc. 73-4665 Filed 3-9-73; 8:45 am]

**SUBCHAPTER C—DRUGS**  
**PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION**  
**Pyrimamine Maleate**

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (7-404V) filed by Norden Laboratories, Inc., Lincoln, Nebr. 68501, proposing revised labeling for the safe and effective use of pyrimamine maleate as an antihistamine for treating horses. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended by adding a new section as follows:

**§ 135b.75** Pyrimamine maleate injection.

(a) *Specifications.* The drug is a sterile aqueous solution with each milliliter containing 20 milligrams of pyrimamine maleate.

(b) *Sponsor.* See code No. 026 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) It is intended for treating horses in conditions in which antihistaminic therapy may be expected to lead to alleviation of some signs of disease, such as equine laminitis or insect stings.

(2) It is administered intramuscularly, subcutaneously, or intravenously. Local injection at the site of insect bites may be indicated in severe cases. Intravenous injections must be given slowly to avoid symptoms of overdosage. Dosage may be repeated every 6-12 hours whenever necessary. Horses, 40-60 milligrams per 100 pounds body weight; foals, 20 milligrams per 100 pounds body weight.

(3) Do not use in horses intended for food purposes.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

*Effective date.* This order shall be effective on March 12, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 6, 1973.

**Title 41—Public Contracts and Property Management**

**CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS**

**SUPPLY CONTRACT CLAUSES**

This amendment of the Federal Procurement Regulations amends Part 1-7, Contract Clauses, by revising Subpart 1-7.1, Fixed-Price Supply Contracts, as follows: (1) Categorizes the clauses into three groupings: Required clauses, clauses to be used when applicable, and additional clauses to be used when it is desirable to cover the subject matter; (2) provides references to clauses appearing in other subparts which have not previously been referenced in Subpart 1-7.1; and (3) incorporates new and revised references pertaining to minority business enterprises and contract work hours and safety standards. Miscellaneous changes are included in Subpart 1-12.3 to provide necessary revisions of captions, titles, and citations pertaining to the Contract Work Hours and Safety Standards Act. The amendment also includes necessary revisions of cross-references.

**PART 1-3—PROCUREMENT BY NEGOTIATION**

**Subpart 1-3.3—Determinations, Findings, and Authorities**

Section 1-3.302(f) is revised, as follows:

### § 1-3.302 Determinations and findings required.

(f) The determinations required by section 304(c) of the Act (41 U.S.C. 254(c)) and Subpart 1-6.10 with respect to omitting the clause specified in § 1-7.103-3 or § 1-7.602-7 from contracts with foreign contractors or subcontractors regarding the right of the Comptroller General of the United States to examine the contractor's records when it is determined (1) that the omission will serve the best interests of the United States, or (2) that the public interest will best be served by the omission.

### Subpart 1-3.8—Price Negotiation Policies and Techniques

Section 1-3.814-2(e) is revised, as follows:

#### § 1-3.814-2 Audit and records.

(e) Except as otherwise provided in Subpart 1-6.10 of this chapter, or when independent authority exists for the omission of such clause, the clause in §§ 1-7.103-3 and 1-7.602-7 of this chapter shall be inserted in all negotiated fixed-price contracts in excess of \$2,500, including contracts awarded under a total setaside (small business restricted advertising, as defined in § 1-1.701-9 of this chapter) or a partial setaside (see §§ 1-1.706 and 1-1.804 of this chapter), and a clause containing substantially the same provisions shall be included in all other negotiated contracts in excess of \$2,500 (the clause prescribed by § 1-7.103-3 of this chapter satisfies this requirement). In addition, the right of the contracting agency to inspect the plant and to audit the books and records of any prime contractor engaged in the performance of a cost-type contract shall be expressly reserved in any such contract.

### PART 1-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

#### Subpart 1-4.4—Public Utilities

Section 1-4.410-5(a) is revised, as follows:

#### § 1-4.410-5 Uniform clauses for utility service contracts.

(a) The following uniform clauses, as prescribed in the FPR sections referenced or set forth verbatim in this § 1-4.410-5, shall be mandatory for utility service contracts. The clauses shall be inserted in all such contracts, expressly or through incorporation by reference:

- (1) *Definitions.* Section 1-7.102-1.
- (2) *Examination of records by Comptroller General.* Section 1-7.103-3.
- (3) *Equal opportunity.* Section 1-12.803-2.
- (4) *Officials not to benefit.* Section 1-7.102-17.
- (5) *Covenant against contingent fees.* Section 1-1.503.
- (6) *Convict labor.* Section 1-12.203.
- (7) *Contract Work Hours and Safety Standards Act—overtime compensation.* Section 1-12.303.

### RULES AND REGULATIONS

- (8) *Disputes.* Section 1-7.102-12.  
(9) *Certificate of independent price determination.* Section 1-1.317.  
(10) *Conflicts.*

#### CONFLICTS

To the extent of any inconsistency between the provisions of this contract, and any schedule, rider, or exhibit incorporated in this contract by reference or otherwise, or any of the Contractor's rules and regulations, the provisions of this contract shall control.

### PART 1-6—FOREIGN PURCHASES

#### Subpart 1-6.1—Buy American Act—Supply and Service Contracts

Section 1-6.104-5(b) is revised, as follows:

#### § 1-6.104-5 Contract clause.

(b) Where the term "secretary" is inapplicable to the agency, the term "head of the agency" may be substituted in the clause prescribed in § 1-6.104-5(a) when the contract does not contain the clause in § 1-7.102-1.

#### Subpart 1-6.10—Omission of the Examination of Records Clause From Contracts With Foreign Contractors

Section 1-6.1001(a) is revised, as follows:

#### § 1-6.1001 Statutory requirements.

(a) In accordance with section 304(c) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 254(c)), the Examination of Records by Comptroller General clause (see §§ 1-7.103-3 and 1-7.602-7) may be omitted from negotiated contracts and subcontracts with foreign contractors and foreign subcontractors.

### PART 1-7—CONTRACT CLAUSES

The table of contents for Part 1-7 is amended to provide revised and new entries for Subpart 1-7.1, as follows:

#### Subpart 1-7.1—Fixed-Price Supply Contracts

Sec.	Scope of subpart.
1-7.100	Applicability.
1-7.101	Required clauses.
1-7.102	Definitions.
1-7.102-1	Changes.
1-7.102-2	Extras.
1-7.102-3	Variation in quantity.
1-7.102-4	Inspection.
1-7.102-5	Responsibility for supplies.
1-7.102-6	Payments.
1-7.102-7	Assignment of claims.
1-7.102-8	[Reserved].
1-7.102-9	Federal, State, and local taxes.
1-7.102-10	Default.
1-7.102-11	Disputes.
1-7.102-12	[Reserved].
1-7.102-13	Buy American Act.
1-7.102-14	Contract Work Hours and Safety Standards Act—overtime compensation.
1-7.102-15	Equal opportunity.
1-7.102-16	Officials not to benefit.
1-7.102-17	Covenant against contingent fees.
1-7.102-18	Termination for convenience of the Government.

Sec.	Pricing of adjustments.
1-7.102-20	Clauses to be used when applicable.
1-7.103	Clauses for fixed-price supply contracts involving construction.
1-7.103-1	Additional bond security.
1-7.103-2	Examination of records by Comptroller General.
1-7.103-3	Notice and assistance regarding patent and copyright infringement.
1-7.103-4	Convict labor.
1-7.103-5	Walsh-Healey Public Contracts Act.
1-7.103-6	Utilization of small business concerns.
1-7.103-7	Small business subcontracting program.
1-7.103-8	Utilization of labor surplus area concerns.
1-7.103-9	Labor surplus area subcontracting program.
1-7.103-10	Utilization of minority business enterprises.
1-7.103-11	Minority business enterprises subcontracting program.
1-7.103-12	Humane slaughter of livestock.
1-7.103-13	Required source for jewel bearings.
1-7.103-14	Use of excess aluminum.
1-7.103-15	Listing of employment openings.
1-7.103-16	Price reduction for defective cost or pricing data.
1-7.103-17	Audit and records.
1-7.103-18	Subcontractor cost and pricing data.
1-7.103-19	Advance payments.
1-7.103-20	Progress payments.
1-7.103-21	Workmen's compensation insurance (Defense Base Act).
1-7.103-22	Late offers and modifications or withdrawals.
1-7.103-23	Contracts with the Small Business Administration.
1-7.103-24	Supplementary tax clauses.
1-7.103-25	Additional clauses.
1-7.104	Liquidated damages provisions.
1-7.104-1	Changes to "make-or-buy" program.
1-7.104-2	

Subpart 1-7.1, Fixed-Price Supply Contracts, is revised, as follows:

#### § 1-7.100 Scope of subpart.

This subpart sets forth contract clauses for use in fixed-price supply contracts.

#### § 1-7.101 Applicability.

The clauses set forth in this subpart shall be used in fixed-price supply contracts entered into either by formal advertising or by negotiation (other than for small purchases as defined in Subpart 1-3.6).

#### § 1-7.102 Required clauses.

The clauses set forth in this § 1-7.102 shall be inserted in all fixed-price supply contracts.

#### § 1-7.102-1 Definitions.

##### DEFINITIONS

As used throughout this contract, the following terms shall have the meaning set forth below:

(a) The term "head of the agency" or "Secretary" as used herein means the Secretary, the Under Secretary, any Assistant Secretary, or any other head or assistant head of the executive or military department or other Federal agency; and the term "his duly authorized representative" means any person

or persons or board (other than the Contracting Officer) authorized to act for the head of the agency or the Secretary.

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or civilian employee who is a properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of a Contracting Officer acting within the limits of his authority.

(c) Except as otherwise provided in this contract, the term "subcontract" includes purchase orders under this contract.

Additional definitions may be included provided they are not inconsistent with the clause or the provisions of these regulations.

#### § 1-7.102-2 Changes.

##### CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in any one or more of the following: (i) Drawings, designs, or specifications, where the supplies to be furnished are to be specially manufactured for the Government in accordance therewith; (ii) method of shipment or packing; and (iii) place of delivery. If any such change causes an increase or decrease in the cost of, or the time required for, the performance of any part of the work under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change. *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as a result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

#### § 1-7.102-3 Extras.

##### EXTRAS

Except as otherwise provided in this contract, no payment for extras shall be made unless such extras and the price therefor have been authorized in writing by the Contracting Officer.

#### § 1-7.102-4 Variation in quantity.

##### VARIATION IN QUANTITY

No variation in the quantity of any item called for by this contract will be accepted unless such variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified elsewhere in this contract.

#### § 1-7.102-5 Inspection.

##### INSPECTION

(a) All supplies (which term throughout this clause includes without limitation raw materials, components, intermediate assemblies, and end products) shall be subject to inspection and test by the Government, to

### RULES AND REGULATIONS

the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance.

(b) In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity with the requirements of this contract, the Government shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed, or, if permitted or required by the Contracting Officer, corrected in place by and at the expense of the Contractor promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If the Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed, or promptly to replace or correct such supplies or lots of supplies, the Government either (i) may by contract or otherwise replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby, or (ii) may terminate this contract for default as provided in the clause of this contract entitled "Default." Unless the Contractor corrects or replaces such supplies within the delivery schedule, the Contracting Officer may require the delivery of such supplies at a reduction in price which is equitable under the circumstances. Failure to agree to such reduction of price shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(c) If any inspection or test is made by the Government on the premises of the Contractor or a subcontractor, the Contractor without additional charge shall provide all reasonable facilities and assistance for the safety and convenience of the Government inspectors in the performance of their duties. If Government inspection or test is made at a point other than the premises of the Contractor or a subcontractor, it shall be at the expense of the Government except as otherwise provided in this contract. *Provided,* That in case of rejection the Government shall not be liable for any reduction in value of samples used in connection with such inspection or test. All inspections and tests by the Government shall be performed in such a manner as not to unduly delay the work. The Government reserves the right to charge to the Contractor any additional cost of Government inspection and test when supplies are not ready at the time such inspection and test is requested by the Contractor or when reinspection or retest is necessitated by prior rejection. Acceptance or rejection of supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this contract; but failure to inspect and accept or reject the supplies shall neither relieve the Contractor from responsibility for such supplies as are not in accordance with the contract requirements nor impose liability on the Government therefor.

(d) The inspection and test by the Government of any supplies or lots thereof does not relieve the Contractor from any responsibility regarding defects or other failures to meet the contract requirements which may be discovered prior to acceptance. Except as otherwise provided in this contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

(e) The Contractor shall provide and maintain an inspection system acceptable to the Government covering the supplies hereunder. Records of all inspection work by the Contractor shall be kept complete and available to the Government during the performance

of this contract and for such longer period as may be specified elsewhere in this contract.

#### § 1-7.102-6 Responsibility for supplies.

##### RESPONSIBILITY FOR SUPPLIES

Except as otherwise provided in this contract, (i) the Contractor shall be responsible for the supplies covered by this contract until they are delivered at the designated delivery point, regardless of the point of inspection; (ii) after delivery to the Government at the designated point and prior to acceptance by the Government or rejection and giving notice thereof by the Government, the Government shall be responsible for the loss or destruction of or damage to the supplies only if such loss, destruction, or damage results from the negligence of officers, agents, or employees of the Government acting within the scope of their employment; and (iii) the Contractor shall bear all risks as to rejected supplies after notice of rejection, except that the Government shall be responsible for the loss, or destruction of, or damage to the supplies only if such loss, destruction, or damage results from the gross negligence of officers, agents, or employees of the Government acting within the scope of their employment.

#### § 1-7.102-7 Payments.

##### PAYMENTS

The Contractor shall be paid, upon the submission of proper invoices or vouchers, the prices stipulated herein for supplies delivered and accepted or services rendered and accepted, less deductions, if any, as herein provided. Unless otherwise specified, payment will be made on partial deliveries accepted by the Government when the amount due on such deliveries so warrants; or, when requested by the Contractor, payment for accepted partial deliveries shall be made whenever such payment would equal or exceed either \$1,000 or 50 percent of the total amount of this contract.

#### § 1-7.102-8 Assignment of claims.

Insert the clause set forth in § 1-30.703 under the conditions contained therein.

#### § 1-7.102-9 [Reserved]

#### § 1-7.102-10 Federal, State, and local taxes.

Insert either the clause in § 1.11.401-1 or the clause in § 1-11.401-2 and, when appropriate, insert the supplementary clause in § 1-11.401-3(a), in accordance with the conditions contained in those sections.

#### § 1-7.102-11 Default.

Insert the clause set forth in § 1-8.707 under the conditions prescribed in § 1-8.700-2(b)(1).

#### § 1-7.102-12 Disputes.

##### DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the contracting officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the contractor. The decision of the contracting officer shall be final and conclusive unless within 30 days from the date of receipt of such copy, the contractor mails or otherwise furnishes to the contracting officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive

unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the contractor shall proceed diligently with the performance of the contract and in accordance with the contracting officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a), above. Provided, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

#### § 1-7.102-13 [Reserved]

#### § 1-7.102-14 Buy American Act.

Insert the clause set forth in § 1-6.104-5 under the conditions contained therein.

#### § 1-7.102-15 Contract Work Hours and Safety Standards Act—overtime compensation.

Insert the clause set forth in § 1-12.303 under the conditions contained in § 1-12.302.

#### § 1-7.102-16 Equal opportunity.

Insert the clause set forth in § 1-12.803-2 under the conditions contained in § 1-12.803-1.

#### § 1-7.102-17 Officials not to benefit.

##### OFFICIALS NOT TO BENEFIT

No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

#### § 1-7.102-18 Covenant against contingent fees.

Insert the clause set forth in § 1-1.503 under the conditions contained in § 1-1.501.

#### § 1-7.102-19 Termination for convenience of the Government.

Insert the clause set forth in § 1-8.701 in fixed-priced supply contracts in excess of \$2,500 except as permitted by § 1-8.700-2(a)(2) for contracts not in excess of \$100,000.

#### § 1-7.102-20 Pricing of adjustments.

The following clause shall be included in all formally advertised or negotiated contracts other than cost-type contracts:

##### PRICING OF ADJUSTMENTS

When costs are a factor in any determination of a contract price adjustment pursuant to the "Changes" clause or any other provision of this contract, such costs shall be in accordance with the contract cost principles and procedures in Part 1-15 of the Federal Procurement Regulations (41 CFR 1-15) or section XV of the Armed Services Procurement Regulation in effect on the date of this contract.

#### § 1-7.103 Clauses to be used when applicable.

##### § 1-7.103-1 Clauses for fixed-price supply contracts involving construction.

(a) Insert the clauses set forth in § 1-12.403-1 in fixed-price supply contracts under the conditions contained in § 1-12.402-2. The clauses set forth in § 1-12.403-1 are:

Davis-Bacon Act.  
Contract Work Hours and Safety Standards Act—overtime compensation.  
Apprentices.  
Payrolls and basic records.

Compliance with Copeland regulations.  
Withholding of funds.  
Subcontracts.

Contract termination—debarment.

(b) Insert the clause set forth in § 1-18.605 in fixed-price supply contracts under the conditions contained in Subpart 1-18.6.

##### § 1-7.103-2 Additional bond security.

###### ADDITIONAL BOND SECURITY

If any surety upon any bond furnished in connection with this contract becomes unacceptable to the Government, or if any such surety fails to furnish reports as to his financial condition from time to time as requested by the Government, the contractor shall promptly furnish such additional security as may be required from time to time to protect the interests of the Government and of persons supplying labor or materials in the prosecution of the work contemplated by this contract.

##### § 1-7.103-3 Examination of records by Comptroller General.

(a) The following clause shall be included in fixed-price negotiated contracts and may be included in other than fixed-price negotiated contracts, as provided in § 1-3.814-2(c) of this chapter. When contracts involve the use of Standard Forms 2-A and 2-B, or 253, the forms may be amended to provide for the use of the term "lessor" or "architect-engineer," respectively, in lieu of the term "contractor."

###### EXAMINATION OF RECORDS BY COMPTROLLER GENERAL

(a) This clause is applicable if the amount of this contract exceeds \$2,500 and was entered into by means of negotiation, including small business restricted advertising, but is not applicable if this contract was entered into by means of formal advertising.

(b) The Contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of 3 years after final payment under this contract or such lesser time specified in either Appendix M of the Armed Services Procurement Regulation or the Federal Procurement Regulations Part 1-20, as appropriate, have access to and the right to examine any directly pertinent books, documents, papers, and records of the contractor involving transactions related to this contract.

(c) The contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of

the United States or any of his duly authorized representatives shall, until the expiration of 3 years after final payment under the subcontract or such lesser time specified in either Appendix M of the Armed Services Procurement Regulation or the Federal Procurement Regulations Part 1-20, as appropriate, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding \$2,500 and (2) subcontractors or purchase orders for public utility services at rates established for uniform applicability to the general public.

(d) The periods of access and examination described in (b) and (c), above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation or the settlement of claims arising out of the performance of this contract, or (3) costs and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigation, claims, or exceptions have been disposed of.

##### § 1-7.103-4 Notice and assistance regarding patent and copyright infringement.

The following clause shall be included in all contracts which exceed \$10,000:

###### NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT

(a) The contractor shall report to the Contracting Officer, promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this contract of which the Contractor has knowledge.

(b) In the event of any claim or suit against the Government, on account of any alleged patent or copyright infringement arising out of the performance of this contract or out of the use of any supplies furnished or work or services performed hereunder, the contractor shall furnish to the Government, when requested by the contracting officer, all evidence and information in possession of the contractor pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Government except where the contractor has agreed to indemnify the Government.

##### § 1-7.103-5 Convict labor.

Insert the clause set forth in § 1-12.203 under the conditions contained in § 1-12.202.

##### § 1-7.103-6 Walsh-Healey Public Contracts Act.

Insert the clause set forth in § 1-12.605 under the conditions contained in § 1-12.602.

##### § 1-7.103-7 Utilization of small business concerns.

Insert the clause set forth in § 1-1.710-3(a) under the conditions and in the manner prescribed therein.

##### § 1-7.103-8 Small business subcontracting program.

Insert the clause set forth in § 1-1.710-3(b) under the conditions and in the manner prescribed therein.

##### § 1-7.103-9 Utilization of labor surplus area concerns.

Insert the clause set forth in § 1-1.805-3(a) under the conditions and in the manner prescribed therein.

##### § 1-7.103-10 Labor surplus area subcontracting program.

Insert the clause set forth in § 1-1.805-3(b) under the conditions and in the manner prescribed therein.

##### § 1-7.103-11 Utilization of minority business enterprises.

Insert the clause set forth in § 1-1.1310-2(a) under the conditions and in the manner prescribed therein.

##### § 1-7.103-12 Minority business enterprises subcontracting program.

Insert the clause set forth in § 1-1.1310-2(b) under the conditions and in the manner prescribed therein.

##### § 1-7.103-13 Humane slaughter of livestock.

Insert the clause set forth in § 1-4.605 or in § 1-4.606 under the procedures provided in § 1-4.604.

##### § 1-7.103-14 Required source for jewel bearings.

Insert the clause set forth in § 1-1.319 under the conditions and in the manner prescribed therein.

##### § 1-7.103-15 Use of excess aluminum.

Insert the clause set forth in § 1-5.1001-2 under the conditions contained in § 1-5.1001-1.

##### § 1-7.103-16 Listing of employment openings.

Insert the clause set forth in § 1-12.1102-2 under the conditions and in the manner prescribed therein.

##### § 1-7.103-17 Price reduction for defective cost or pricing data.

Insert the appropriate clause set forth in § 1-3.814-1 under the conditions described therein.

##### § 1-7.103-18 Audit and records.

Insert the appropriate clause or clauses set forth in § 1-3.814-2 under the conditions described therein.

##### § 1-7.103-19 Subcontractor cost and pricing data.

Insert the appropriate clause set forth in § 1-3.814-3 under the conditions described therein.

##### § 1-7.103-20 Advance payments.

When advance payments are to be made in accordance with Subpart 1-30.4, insert the appropriate provisions as prescribed in § 1-30.414-2.

##### § 1-7.103-21 Progress payments.

When progress payments are to be made in accordance with Subpart 1-30.5, insert the appropriate clause as provided in § 1-30.510.

##### § 1-7.103-22 Workmen's compensation insurance (Defense Base Act).

Insert the clause set forth in § 1-10.402 under the conditions described therein.

##### § 1-7.103-23 Late offers and modifications or withdrawals.

The following clause is prescribed for appropriate use in accordance with § 1-16.101(b).

###### LATE OFFERS AND MODIFICATIONS OR WITHDRAWALS

(This paragraph applies to all advertised solicitations. In the case of Department of Defense negotiated solicitations, it shall also apply to late offers and modifications (other than the normal revisions of offers by selected offerors during the usual conduct of negotiations with such offerors) but not to withdrawal of offers. Unless otherwise provided, this paragraph does not apply to negotiated solicitations issued by civilian agencies.)

(a) Offers and modifications of offers (or withdrawals thereof, if this solicitation is advertised) received at the office designated in the solicitation after the exact hour and date specified for receipt will not be considered unless: (1) They are received before award is made; and either (2) they are sent by registered mail, or by certified mail for which an official dated post office stamp (postmark) on the original receipt for certified mail has been obtained and it is determined by the Government that the late receipt was due solely to delay in the mails, for which the offeror was not responsible; or (3) if submitted by mail (or by telegram if authorized) it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation: Provided, That timely receipt at such installation is established upon examination of an appropriate date or time stamp (if any) of such installation, or of other documentary evidence of receipt (if readily available) within the control of such installation or of the post office serving it. However, a modification of an offer which makes the terms of an otherwise successful offer more favorable to the Government will be considered at any time it is received and may thereafter be accepted.

(b) Offerors using certified mail are cautioned to obtain a receipt for certified mail showing a legible, dated postmark and to retain such receipt against the chance that it will be required as evidence that a late offer was timely mailed.

(c) The time of mailing of late offers submitted by registered or certified mail shall be deemed to be the last minute of the date shown in the postmark on the registered mail receipt or registered mail wrapper or on the receipt for certified mail unless the offeror furnishes evidence from the post office station of mailing which establishes an earlier time. In the case of certified mail, the only acceptable evidence is as follows: (1) Where the receipt for certified mail identifies the post office station of mailing, evidence furnished by the offeror which establishes that the business day of that station ended at an earlier time, in which case the time of mailing shall be deemed to be the last minute of the business day of that station; or (2) an entry in ink on the receipt for certified mail showing the time of mailing and the initials of the postal employee receiving the item and making the entry, with

appropriate written verification of such entry from the post office station of mailing, in which case the time of mailing shall be the time shown in the entry. If the postmark on the original receipt for certified mail does not show a date, the offer shall not be considered.

##### § 1-7.103-24 Contracts with the Small Business Administration.

(a) Insert the clause set forth in § 1-1.713-3(d)(1) in contracts with the Small Business Administration awarded pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)).

(b) Insert the clause set forth in § 1-1.713-3(e) in subcontracts which will be executed by the Small Business Administration and its subcontractors.

##### § 1-7.103-25 Supplementary tax clauses.

(a) Insert the supplementary clause set forth in § 1-11.401-3(a) under the conditions contained therein.

(b) Insert the clause set forth in § 1-11.401-3(b) under the conditions contained therein.

##### § 1-7.104 Additional clauses.

The clauses set forth in this § 1-7.104 shall be inserted in fixed-price supply contracts if it is desired to cover the subject matter thereof.

##### § 1-7.104-1 Liquidated damages provisions.

Insert the provision set forth in § 1-1.315-3 under the conditions and in the manner prescribed in § 1-1.315.

##### § 1-7.104-2 Changes to "make-or-buy" program.

Insert the clause set forth in § 1-3.902-3 in all contracts containing a "make-or-buy" program.

##### Subpart 1-7.6—Fixed-Price Construction Contracts

Section 1-7.602 is revised, as follows:

##### § 1-7.602-7 Examination of records by Comptroller General.

The clause set forth in § 1-7.103-3 shall be included in all negotiated fixed-price contracts in excess of \$2,500.

##### § 1-7.602-12 Pricing of adjustments.

Insert the clause set forth in § 1-7.102-20 under the conditions contained therein.

##### PART 1-12—LABOR

The table of contents for Part 1-12 is amended to provide a revised caption, as follows:

##### Subpart 1-12.3—Contract Work Hours and Safety Standards Act (Other Than Construction Contracts)

1. Section 1-12.300 is revised, as follows:

##### § 1-12.300 Scope of subpart.

This subpart deals with the requirements of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) insofar as they apply to contracts

## RULES AND REGULATIONS

other than construction contracts dealt with in Subpart 1-12.4.

2. Section 1-12.301 is revised, as follows:

**§ 1-12.301 Statutory requirement.**

The Contract Work Hours and Safety Standards Act provides that the wages of every laborer and mechanic employed by any contractor or subcontractor in his performance of work on any contract of the character specified in section 103 of that Act shall be computed on the basis of a standard workday of 8 hours and a standard workweek of 40 hours. Work in excess of such standard workday or workweek is permissible, provided that the wages of any laborer or mechanic so employed include compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in any workweek in excess of 8 hours in any calendar day or in excess of 40 hours in the workweek, as the case may be. "Laborers and mechanics" include apprentices, trainees, watchmen, guards, and workmen, other than seamen, performing services in connection with dredging or rock excavation in rivers or harbors.

3. Section 1-12.303 is revised, as follows:

**§ 1-12.303 Contract clause.**

The contract clause set forth in § 1-12.303 shall be included in contracts in accordance with the provisions of §§ 1-12.301 and 1-12.302. The clause may be modified as necessary in order to comply with the provisions of § 1-12.304(b).

**CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION**

This contract, to the extent that it is of a character specified in the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333), is subject to the following provisions and to all other applicable provisions and exceptions of such Act and the regulations of the Secretary of Labor thereunder.

(a) *Overtime requirements.* No Contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers, mechanics, apprentices, trainees, watchmen, and guards shall require or permit any laborer, mechanic, apprentice, trainee, watchman, or guard in any workweek in which he is employed on such work to work in excess of 8 hours in any calendar day or in excess of 40 hours in any workweek on work subject to the provisions of the Contract Work Hours and Safety Standards Act unless such laborer, mechanic, apprentice, trainee, watchman, or guard receives compensation at a rate not less than one and one-half times his basic rate of pay for all such hours worked in excess of 8 hours in any calendar day or in excess of 40 hours in any workweek, whichever is the greater number of overtime hours.

(b) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the provisions of paragraph (a), the Contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer, mechanic, apprentice, trainee, watchman, or guard employed in violation of the provisions of paragraph (a) in the sum of \$10 for each calendar day on which such

employee was required or permitted to be employed on such work in excess of 8 hours or in excess of his standard workweek of 40 hours without payment of the overtime wages required by paragraph (a).

(c) *Withholding for unpaid wages and liquidated damages.* The Contracting Officer may withhold from the Government Prime Contractor, from any moneys payable on account of work performed by the Contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the provisions of paragraph (b).

(d) *Subcontracts.* The Contractor shall insert paragraphs (a) through (d) of this clause in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

(e) *Records.* The Contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for 3 years from the completion of the contract.

4. Section 1-12.304 is revised, as follows:

**§ 1-12.304 Variations and tolerances.**

Variations and tolerances from the provisions of this subpart which are granted under section 105 of the Contract Work Hours and Safety Standards Act by the Secretary of Labor in the case of any contract work for which such variations and tolerances have been provided (29 CFR 5.14) shall be deemed to satisfy the requirements of § 1-1.009.

**PART 1-14—INSPECTION AND ACCEPTANCE**

**Subpart 1-14.1—Inspection**

Section 1-14.107(a) is revised, as follows:

**§ 1-14.107 Rejection of nonconforming supplies or services.**

(a) Contractors ordinarily shall be given an opportunity to correct or replace nonconforming supplies or services if this can be done within the required delivery schedule. Unless the contract provides otherwise (as may be the case in some cost-reimbursement type contracts), such correction or replacement shall be without additional cost to the Government. The standard inspection clause in § 1-7.102-5 reserves to the Government the right to charge the contractor the cost of Government reinspection and retests because of prior rejection.

Section 1-14.206 is revised, as follows:

**§ 1-14.206 Acceptance of supplies or services not conforming with contract requirements.**

Except as provided in this § 1-14.206, supplies or services tendered for acceptance which do not conform with contract requirements shall be rejected (see § 1-14.107). However, if it is in the best interest of the Government, for reasons of economy or the urgency of the requirement, acceptance of supplies or services which do not meet all contract requirements may occasionally be desirable. Prior to such acceptance, the contracting officer shall obtain the approval of the

requiring activity. If the nonconformity is a significant deviation from contract requirements, or if the contracting officer determines that a price reduction is appropriate, the acceptance of nonconforming supplies or services shall be covered by an appropriate modification of the contract. A deviation is significant if it adversely affects safety; durability; performance; interchangeability of parts or assemblies; weight, where weight is a significant consideration; or any other basic objective of the specification. Where acceptance of nonconforming supplies or services is to be at a reduction in price, the amount of the reduction shall be fair and reasonable (see paragraph (b) of the standard inspection clause in § 1-7.102-5).

**PART 1-15—CONTRACT COST PRINCIPLES AND PROCEDURES**

**Subpart 1-15.1—Applicability**

1. Section 1-15.102(b) (6) is revised, as follows:

**§ 1-15.102 Negotiated supply, service, experimental, developmental, and research contracts, and contract changes with concerns other than educational institutions.**

(b) . . . . .  
(6) For pricing changes and other contract modifications (§ 1-7.102-20).

2. Section 1-15.104(b) (5) is revised, as follows:

**§ 1-15.104 Construction and architect-engineer contracts.**

(b) . . . . .  
(5) For pricing changes and other contract modifications (§ 1-7.102-20).

**PART 1-16—PROCUREMENT FORMS**

**Subpart 1-16.1—Forms for Advertised Supply Contracts**

Section 1-16.101(c) is revised, as follows:

**§ 1-16.101 Contract forms.**

(c) General Provisions (Supply Contract) (Standard Form 32, November 1969 edition). Pending the publication of a new edition of the form, the Examination of Records by Comptroller General clause prescribed by § 1-7.103-3 of this chapter shall be substituted for the provision entitled Examination of Records in Article 10, the Utilization of Labor Surplus Area Concerns clause prescribed by § 1-1.805-3(a) of this chapter shall be substituted for the provision entitled Utilization of Concerns in Labor Surplus Areas in Article 22, and the Payment of Interest on Contractors' Claims clause set forth in § 1-1.322(b), the Utilization of Minority Business Enterprises clause set forth in § 1-1.1310-2(a), the Pricing of Adjustments clause set forth in § 1-7.102-20, and the Listing of Employment Openings clause set forth in § 1-12.1102-2 shall be added as additional articles of the General Provisions.

**Subpart 1-16.4—Forms for Advertised Construction Contracts**

Section 1-16.401 is revised, as follows:

**§ 1-16.401 Forms prescribed.**

(a) Invitation, Bid, and Award (Construction, Alteration or Repair) (Standard Form 19, October 1969 edition). Pending the publication of a new edition of the form, the Examination of Records by Comptroller General clause prescribed by § 1-7.103-3 of this chapter shall be substituted for the provision entitled Examination of Records in Article 12, and the Payment of Interest on Contractors' Claims clause set forth in § 1-1.322(b) and the Utilization of Minority Business Enterprises clause set forth in § 1-1.1310-2(a) shall be added as additional General Provisions.

(h) General Provisions (Construction Contract) (Standard Form 23-A, October 1969 edition). Pending the publication of a new edition of the form, the Payment of Interest on Contractors' Claims clause set forth in § 1-1.322(b), the Utilization of Minority Business Enterprises clause set forth in § 1-1.1310-2(a), the Pricing of Adjustments clause set forth in § 1-7.602-12, and the Listing of Employment Openings clause set forth in § 1-12.1102-2 shall be added as additional articles of the General Provisions.

(g) The Assignment of Claims clause prescribed in § 1-7.102-8;

(h) If otherwise applicable, the contract clause entitled Walsh-Healey Public Contracts Act as set forth in § 1-12.605; the contract clauses entitled Davis-Bacon Act and Compliance with Copeland Regulations as set forth in Standard Form 19-A (see § 1-16.901-19-A); and the contract clause entitled Contract Work Hours and Safety Standards Act—Overtime Compensation as prescribed in § 1-7.102-15.

**Subpart 1-16.6—Forms of Leases for Real Property**

Section 1-16.601 is revised, as follows:

**§ 1-16.601 Forms prescribed.**

(b) Standard Form 2-A, May 1970 edition, General Provisions, Certification and Instructions, U.S. Government Lease for Real Property. Pending the publication of a new edition of the form, the Examination of Records by Comptroller General clause prescribed by § 1-7.103-3 of this chapter shall be substituted for the provision entitled Examination of Records in Article 11, and the clause set forth in § 1-12.1102-2 shall be added.

(c) Standard Form 2-B, February 1965 edition, U.S. Government Lease for Real Property (Short Form). Pending the publication of a new edition of the form, the Examination of Records by Comptroller General clause prescribed by § 1-7.103-3 of this chapter shall be substituted for the provision entitled Examination of Records in Article 10.

**Subpart 1-16.7—Forms for Negotiated Architect-Engineer Contracts**

Section 1-16.701(b) is revised, as follows:

**§ 1-16.701 Forms prescribed.**

(b) General Provisions (Architect-Engineer Contract) (Standard Form 253, August 1970 edition). Pending the publication of a new edition of the form, the

## RULES AND REGULATIONS

Examination of Records by Comptroller General clause prescribed by § 1-7.103-3 of this chapter shall be substituted for the provision entitled Examination of Records in Article 8, and the Payment of Interest on Contractors' Claims clause set forth in § 1-1.322(b), the Pricing of Adjustments clause prescribed in § 1-7.602-12, and the Listing of Employment Openings clause set forth in § 1-12.1102-2 shall be added as additional articles of the General Provisions.

**PART 1-17—EXTRAORDINARY CONTRACTUAL ACTIONS TO FACILITATE THE NATIONAL DEFENSE**

**Subpart 1-17.2—Requests for Contractual Adjustment**

Section 1-17.206 is revised, as follows:

**§ 1-17.206 Contractual requirements.**

(f) The Equal Opportunity clause prescribed in § 1-7.102-16;

(g) The Assignment of Claims clause prescribed in § 1-7.102-8;

(h) If otherwise applicable, the contract clause entitled Walsh-Healey Public Contracts Act as set forth in § 1-12.605; the contract clauses entitled Davis-Bacon Act and Compliance with Copeland Regulations as set forth in Standard Form 19-A (see § 1-16.901-19-A); and the contract clause entitled Contract Work Hours and Safety Standards Act—Overtime Compensation as prescribed in § 1-7.102-15.

**PART 1-20—RETENTION REQUIREMENTS FOR CONTRACTOR AND SUBCONTRACTOR RECORDS**

**Subpart 1-20.2—General Provisions**

Section 1-20.201(a) is revised, as follows:

**§ 1-20.201 General retention requirements.**

(a) Contractors and subcontractors are required to retain and make available books, records, documents, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agency and the Comptroller General of the United States as set forth in the contract clauses prescribed under §§ 1-3.814-2, 1-7.103-3, 1-7.103-18, 1-7.602-5, and 1-7.602-7.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

*Effective date.* This amendment is effective May 15, 1973, but may be observed earlier.

Dated: March 2, 1973.

ARTHUR F. SAMPSON,  
Acting Administrator  
of General Services.

[FR Doc. 73-4698 Filed 3-9-73; 8:45 am]

**Title 50—Wildlife and Fisheries**  
**CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR**

**SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE**

**PART 16—MIGRATORY BIRD PERMITS**

**SUBCHAPTER G—MISCELLANEOUS PROVISIONS**  
**PART 90—FEEDING DEPREDATING MIGRATORY WATERFOWL**

Present regulations governing the feeding of depredating migratory waterfowl are published in Part 16 of this chapter comprising §§ 16.31 through 16.37. These regulations are not directly related to law enforcement and it is determined that for purposes of clarity and convenience of those persons having an interest in these provisions that a new Subchapter G—Miscellaneous Provisions be added to this Chapter I. Collected and published in this new subchapter in appropriate parts will be those miscellaneous regulations which are not directly related to law enforcement but which are more directly related to the resource.

This new Subchapter G, Part 90, has been organized into suitable subparts for easier reading and uniformity of format. No new requirements or procedures are imposed.

Accordingly, Chapter I of this Title 50 is amended by adding a new subchapter to read:

**§§ 16.31–16.37 [Deleted]**

Sections 16.31 through 16.37 of Part 16 of Chapter I, Subchapter B are deleted.

**Subpart A—Introduction**

Sec. 90.1 General  
90.2 Scope of regulations.  
**Subpart B—Use of Surplus Grain**  
90.11 Statutory provisions.  
90.12 Interpretation.  
90.13 Policy.  
90.14 Waterfowl depredations complaints; where filed.  
90.15 Criteria to govern approval of applications.  
90.16 Actions following investigation.  
90.17 Compliance with other regulations.  
AUTHORITY: 70 Stat. 492, 7 U.S.C. 443.

**Sec. Subpart A—Introduction**

**§ 90.1 General.**

Any person having an interest in a crop and who is suffering damage due to depredations by migratory waterfowl may file a complaint and apply for surplus grain for use in feeding programs to augment the natural source of food available to migratory waterfowl to aid in the prevention of crop damage by such birds, as provided for in these regulations.

**§ 90.2 Scope of regulations.**

The provisions of this part supplement 70 Stat. 492, 7 U.S.C. sections 442-445.

**Subpart B—Use of Surplus Grain**

**§ 90.11 Statutory provisions.**

Section 1 of the Act of July 3, 1956, as amended (70 Stat. 492; 7 U.S.C. 442-445) provides that the Commodity Credit Corporation shall make available to the Secretary of the Interior such wheat, corn,

or other grains, acquired through price support operations and certified by the Corporation to be available for purposes of the Act or in such condition through spoilage or deterioration as not to be desirable for human consumption, as the Secretary shall requisition for the purpose of preventing crop damage by migratory waterfowl. Section 2 of the Act provides that, upon a finding that any area in the United States is threatened with damage to farmers' crops by migratory waterfowl, the Secretary is authorized and directed to requisition from the Commodity Credit Corporation and to make available to Federal, State, or local governmental bodies or officials, or to private organizations or persons, such grain acquired by the Corporation through price support operations in such quantities and subject to such regulations as the Secretary determines will most effectively lure migratory waterfowl away from crop depredations and at the same time not expose such migratory waterfowl to shooting over areas to which the waterfowl have been lured by such feeding programs.

§ 90.12 Interpretation.

The authorization contained in the Act limits the availability of grain acquired through price support operations to the prevention of crop damage by migratory waterfowl (brant, wild ducks, geese, and swans) and such grain may not be made available for the feeding of any other species of migratory birds, whether or not such other species of migratory birds are committing or threatening to commit crop damage. Further, the Act does not authorize the use of such grain to conduct a migratory waterfowl feeding program for the purpose of augmenting natural sources of food available to migratory waterfowl, nor for any purpose incident to migratory waterfowl management not related to the prevention of crop damage. Accordingly, such grain shall not be made available pursuant to the Act to augment or to substitute for natural sources of migratory waterfowl food except as may be determined by the Secretary to be necessary to aid in the prevention of crop damage by such birds.

§ 90.13 Policy.

Whenever it is found necessary to conduct feeding programs under this section for the purposes of preventing crop damage by migratory waterfowl, it shall be the policy of the Secretary for the purposes of economy and efficiency to accord preference to feeding programs proposed to be executed through the placement of grain upon wildlife management areas or other lands or waters owned, leased, or otherwise controlled by an agency of the United States or a State.

§ 90.14 Water fowl depredation complaints; where filed.

Any person having an interest in crops being damaged or threatened with damage by migratory waterfowl in circumstances meeting the criteria prescribed in § 90.15 may make application for grain for use in luring such water-

fowl away from such crops by submitting a written request to the Regional Director of the Bureau of Sport Fisheries and Wildlife regional office having administrative jurisdiction over the wildlife activities in the State where the affected crops are located. (See § 2.2 for geographical jurisdiction and addresses of regional offices.) Such applications may be in letter form but must contain information disclosing the location, nature, condition and extent of the crops being damaged or threatened, and the particular species of migratory waterfowl committing or threatening to commit damage. For the purposes of this section any authorized official of Federal State, or local governmental body shall be deemed to be a "person" and to have such an interest in crops threatened with damages as to qualify him as an applicant.

§ 90.15 Criteria to govern approval of applications.

Upon receipt of a written application for such grain for use in preventing crop depredations, the Regional Director shall promptly cause an investigation to be made, when necessary, to determine whether the applicant is in fact entitled to have such grain made available for such purposes. Whenever feasible the required investigation shall be made jointly by a representative of the game department of the State in which the affected crops are located and a representative of the Regional Director. When conducting such investigations, each of the factors set forth in paragraphs (a) to (d) of this section shall be considered separately. An application for grain shall not be approved if it is determined that one or more of these factors minimizes the extent of crop damage or provides another effective method of preventing the complained of damage.

(a) The migratory waterfowl committing or threatening to commit crop damage must be predominantly of a species which are susceptible of being effectively lured away from the crops by the use of such grain.

(b) The crop damage or threatened crop damage must be substantial in nature (when measured by the extent and potential value of the crops involved and the number of birds threatening damage); and must affect growing crops or mature unharvested crops that are in such condition as to be marketable or have value as feed for livestock or other purposes of material value to the applicant.

(c) It must be shown that the damage or threat of damage cannot be abated through the exercise of any of the privileges granted in permits authorized by this Chapter I to frighten or otherwise herd migratory waterfowl away from affected crops.

(d) During an open hunting season, it must be shown that the area affected by crop damage has been and is now open to public hunting and there has been a clear demonstration that such hunting is ineffective, and cannot be

made effective, to prevent crop damage on such area.

§ 90.16 Actions following investigation.

Upon receipt of a report and recommendations based upon an investigation conducted under § 90.15, the Secretary shall make a determination that the applicant meets the qualifications for receiving grain. He shall then determine the quantity of grain, either bagged or in bulk, to be made available; the means of transportation; and the point of delivery in the vicinity of the crop damage. Before receiving delivery of such grain the applicant shall execute and deliver to any officer authorized to enforce this part written assurances as follows:

(a) That grain made available to him under this part will be used exclusively for the prevention and abatement of crop damage by migratory waterfowl and that no portion of such grain will be sold, donated, exchanged, or used as feed for livestock or other domestic animals or for any other purpose;

(b) That consent is granted to any officer authorized to enforce this part, to inspect, supervise or direct the placement and distribution of grain made available under this part for the prevention of crop damage at all reasonable times;

(c) That free and unrestricted access over the premises on which feeding operations have been or are to be conducted shall be permitted at all reasonable times, by any officer authorized to enforce this part and that such information as may be required by the officer will be promptly furnished; and

(d) That the applicant will not take, nor permit his agents, employees, invitees, or other persons under his control to take migratory game birds on or over any lands or waters subject to his control, during the time such grain is placed, exposed, deposited, distributed, scattered, or present upon such lands or waters, nor for a period of 10 days immediately following the consumption or removal of such grain from such lands or waters.

§ 90.17 Compliance with other regulations.

Nothing in this subpart shall be construed to supersede or modify any regulations relating to the hunting of migratory game birds, nor to permit the transportation, installation or use of grain contrary to any applicable Federal, State, or local laws or regulations.

This amendment recodifies existing regulations, does not impose any new requirements, restrictions, or procedures. Accordingly, notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest, and this amendment is effective March 12, 1973.

E. V. SCHMIDT,  
Director, Deputy Bureau of  
Sport Fisheries and Wildlife.

MARCH 6, 1973.

Title 24—Housing and Urban Development  
CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT  
SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM  
PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE  
Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

**Title 6—Economic Stabilization  
CHAPTER I—COST OF LIVING COUNCIL  
PART 130—COST OF LIVING COUNCIL  
PHASE III REGULATIONS  
Executive and Variable Compensation  
Guidance**

The purpose of the amendments set forth below is to provide rules and guidance in the area of executive and variable compensation during Phase III of the Economic Stabilization Program.

*Decisions and orders of the Pay Board.* Under the rules in effect during Phase II, decisions and orders were issued by the Pay Board with respect to executive and variable compensation plans, practices, and programs. Many decisions and orders did not provide for expiration dates and others required only that certain payments, awards, or grants be charged as wages and salaries when such payments, awards, or grants were made. Under Phase II rules, the payments, awards, or grants which were charged as wages and salaries were applied against the standard in the control year in which they were paid (except in the case of deferred payments). With the progression to the self-administered controls of Phase II, it now becomes necessary to clarify the status of, set expiration dates for, and provide specific rules with respect to, the treatment, of payments, awards, or grants made during Phase III, that were subject to decisions and orders issued under the rules in Phase II.

Accordingly, a new paragraph (d) has been added to § 130.1 to provide specifically that decisions and orders issued by the Pay Board shall be effective only for payments, awards, or grants made with respect to plan, practice or fiscal years (as appropriate), beginning prior to January 11, 1973. Furthermore, new § 130.1(d) provides that such payments, awards, or grants made during Phase III, which are required by decision and order of the Pay Board to be charged as wage and salary increases, should be added to the total of such increases is subject to the general wage and salary standard provided in § 130.12. Thus, any such payments, awards, or grants treated as an increase in wages and salaries may be paid only to the extent the total thereof plus all other wage and salary increases affecting the appropriate employee unit involved is not unreasonably inconsistent with the general wage and salary standard in § 130.12.

Although § 130.12 will apply in many situations where payments, awards, or grants are made during Phase III, that section may not be applicable if another Pay Board decision and order limits wage and salary increases paid in an appropriate employee unit which includes plan, practice, or program participants, and applies to a control year which ends after January 10, 1973. In that situation, new § 130.1(d) requires that if the payments, awards, or grants are to be charged as wage and salary increases and are to be made during the control year covered by such a decision and order, then the total of wage and salary

increases to be paid must be consistent with such other decision and order, in accordance with § 130.1(c)(11). Also, § 130.12 will not apply to pay adjustments affecting employees in the food, health services and construction industries since these pay adjustments are under mandatory controls. For such industries the payments, awards, or grants required to be charged as wage and salary increases, therefore, remain subject to the rules and regulations applicable to those industries.

Where a decision and order with respect to executive and variable compensation does not provide that excess grants are to be charged as wages and salaries (as in cases involving stock options issued at 100 percent of fair market value), the grants made must be consistent with the limitations of the decision and order (i.e., subject to an aggregate share limitation).

*Voluntary controls.* During Phase II, certain payments, awards, or grants under existing executive and variable compensation plans, practices, or programs were permitted to be made under Pay Board rules without being charged as wages and salaries. Also during Phase II, certain other payments, awards, or grants under certain replacement, modified, or revised plans, practices, or programs were permitted to be made without being charged as wages and salaries. A new § 130.14 has been added to state the Council's policies during Phase III for employers subject to voluntary controls. These policies apply whether a plan, practice, or program is an existing one or one that is a replacement, modified, or new plan, practice, or program.

New § 130.14 provides that such employers should use both the Pay Board regulations in effect on January 10, 1973 and the guidance set forth in new Appendix B of Part 130 (as appropriate) in determining whether payments, awards, or grants are charged as wage and salary increases. Chargeable payments, awards, or grants are normally referred to as "excesses" and apportioned to the appropriate employee units which include the plan, practice, or program participants. Under new § 130.14, these "excesses" should be added to other wage and salary increases paid in the appropriate employee unit and the total of all such wage and salary increases is to be applied to the general wage and salary standard as provided in § 130.12.

*Certain stock option plans.* During Phase II, certain stock option plans which met the requirements of § 201.76(b)(1)(i)(a) through (d) of Pay Board regulations (e.g., stock options issued at 100 percent of fair market value) were controlled by imposing an aggregate share limitation. For employers under voluntary controls new § 130.14 provides that stock option grants during Phase III under plans which meet these four requirements should not exceed the applicable aggregate share limitation except to the extent necessary to prevent cross inequities, serious market disruptions, or localized shortages of labor.

*Replacement, modified, and new plans, practices, or programs.* Under Phase II

rules, certain plans, practices, or programs were required to be submitted to the Pay Board for prior approval. This generally was the case when an employer replaced, modified, or revised a plan, practice, or program carried over from Phase I and the amount of compensation to be paid under the new plan, practice, or program exceeded that attributable to the old plan, practice, or program. In addition, under Phase II rules, all new plans, practices, or programs not replacing, modifying, or revising a previous plan, practice, or program were required to be submitted to the Pay Board for prior approval.

In considering submissions for prior approval, the Pay Board applied certain principles, policies, and conditions not set forth in Pay Board regulations. These principles, policies, and conditions (as appropriate) were, however, made a part of each decision and order. Since prior approvals are no longer required (except for economic sectors under mandatory controls) a new Appendix B has been added to Part 130 to provide guidance to employers who implement a replacement, modified, or new executive and variable compensation plan, practice, or program during Phase III. The guidance provided includes the principles, policies, and conditions applied by the Pay Board during Phase II and should be used in determining whether payments, awards, or grants under replacement, modified, or new plans, practices, or programs are to be treated as wage and salary increases and apportioned to appropriate employee units which include the plan, practice, or program participants.

In the food, health, and construction industries the rules and regulations prescribed during Phase II continue to apply. Accordingly, requests for prior approval in the case of certain replacement, modified, and new plans, practices, or programs should now be submitted to the Cost of Living Council.

*Incentive compensation plans or practices.* During Phase III an employer may replace, modify, or revise an incentive compensation plan or practice in effect on November 13, 1971, as defined in §§ 201.74 and 201.75 of Pay Board regulations, without prior approval. However, any payment made under such replacement, revised, or modified plan or practice which is in excess of the allowable amount for such prior plan or practice, as defined in such regulations, or in excess of the payments which would have been made under the prior plan's formula or the prior practice's implied formula (if lower than the allowable amount) should be treated as an increase in wages and salaries and apportioned to the appropriate employee units of participants to determine the amount of wage and salary increase subject to § 130.12.

Where a new incentive compensation plan or practice is adopted which is neither a replacement, modification, or revision, of a plan or practice in existence on November 13, 1971, payments thereunder with respect to the first plan year of operation (the consecutive 12-month

period starting with the effective date of the plan) should be treated as an increase in wages and salaries, should be apportioned in the control year paid to the appropriate employee units of the plan or practice participants, and should be added to other wage and salary increases subject to § 130.12.

*Certain rules for certain types of incentive compensation plans.* In Phase II, the Pay Board regulations did not specify how awards under new performance share plans and phantom stock plans should be valued for purposes of determining the increase in wages and salaries attributable to such awards for participants of such plans. The special rules in new Appendix B describe the valuation which should be used for awards under such new plans adopted in Phase III, to determine the increase in wages and salaries for participants. These rules are consistent with the valuation placed on such awards by the Pay Board during Phase II in decisions and orders on specific cases.

*Stock option plans.* An employer may replace or modify or revise an existing stock option plan which meets the requirements of § 201.76(b)(1)(i)(a) (d) of Pay Board regulations after January 10, 1973, without prior approval. However, the aggregate share limitation which was applicable for the prior existing plan under Pay Board regulations should continue to be the aggregate share limitation for such replacement, modified, or revised plan. If a new stock option plan (i.e., one which is not a replacement, modification, or revision of an existing plan, and one which meets the requirements of § 201.76(b)(1)(i)(a) through (d) of Pay Board regulations), is adopted after January 10, 1973, the aggregate share limitation for the first fiscal year in which such plan operates is 25 percent of the number of shares authorized for stock option grants under the plan.

*Sales or commission plans or practices and certain production incentive programs.* Sales or commission plans or practices and certain production incentive programs, as defined in § 201.77 of Pay Board regulations, which are applicable to employees not subject to a collective bargaining agreement and which were in effect on November 13, 1971, may operate under their terms without being treated as an increase in wages and salaries as long as such plans are not replaced, modified, or revised.

Payments made under a revised, modified, or replacement sales or commission plan or practice or production incentive program adopted in Phase III, which result in an increase in compensation over that which would have been payable under the prior existing plan, etc., when measured against the level of sales or production volume at the time of determining payments under such prior plan, etc., should be treated as an increase in wages and salaries for participants. Payments under a new sales or commission plan or practice or production incentive program (which is not a replacement or modification or revision of a prior existing plan, etc.) adopted during Phase III

should be treated as an increase in wages and salaries to participants covered by such plan, etc.

Payments that should be treated as an increase in wages and salaries under these guidelines should be included in the base compensation rate of the appropriate employee unit for purposes of measuring wage and salary increases for subsequent control years after the control year in which such new, replacement, modified, or revised plan, etc., has been adopted.

Because the purpose of these amendments is to provide immediate guidance for compliance with the Economic Stabilization Program during Phase III, I find that publication in accordance with normal rule making procedures is impracticable and that good cause exists for making this amendment effective in less than 30 days. Interested persons may submit comments regarding these amendments. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, Washington, D.C. 20507.

These amendments are effective as of January 11, 1973.

JAMES W. McLANE,  
Deputy Director,  
Cost of Living Council.

PARAGRAPH 1. Section 130.1 is amended by adding a new paragraph (d) to read as follows:

**§ 130.1 Scope.**

(d) Executive and variable compensation: This part shall not operate to permit prospective payments, awards, or grants under an executive and variable compensation plan, practice, or program, where such plan, practice, or program is subject to a Pay Board decision and order, except to the extent consistent with such decision and order.

(1) Paid under voluntary controls: Notwithstanding the preceding sentence, a decision and order relating to executive and variable compensation, not affecting employees in the food, health services, or construction industry, shall be effective only for payments, awards, or grants made with respect to plan, practice, or fiscal years (as appropriate) which begin prior to January 11, 1973. Where such a decision and order requires that payments, awards, or grants are to be charged as wages and salaries, and such payments, awards, or grants are made after January 10, 1973, such payments, awards, or grants, together with any other wage and salary increases subject to voluntary controls, shall be subject to the general wage and salary standard set forth in § 130.12, unless such payments, awards, or grants are made during a control year covered by a Pay Board decision and order which limits wage and salary increases paid in an appropriate employee unit which includes plan, practice, or program participants. In such latter cases, the payments, awards, or grants which are to be charged as wage and salary increases may be paid only to the extent consistent with such other decision and order, as

provided in paragraph (c)(11) of this section.

(2) Paid under mandatory controls: Where a decision and order relating to executive and variable compensation affecting employees in the food, health services, or construction industry, requires that payments, awards, or grants are to be charged as wages and salaries, then such payments, awards, or grants made after January 10, 1973, together with any other wage and salary increases, shall be subject to the rules for pay adjustments in Subparts F, G, and H of this part.

PAR. 2. Subpart B of Part 130 is amended by adding at the end thereof a new § 130.14 to read as follows:

**§ 130.14 Executive and variable compensation.**

The rules contained in Subpart F of Part 201 of this title, in effect on January 10, 1973, and the guidance set forth in Appendix B of this part, relating to executive and variable compensation, should be used in determining whether payments, awards, or grants are charged as wage and salary increases which, when added to other wage and salary increases, are subject to the general wage and salary standard set forth in § 130.12. Stock option grants under plans which meet the requirements of § 201.76(b)(1)(i)(a) through (d) of this title should not exceed the aggregate share limitation applicable to such plans, except to the extent necessary to prevent gross inequities, serious market disruptions, or localized shortages of labor.

PAR. 3. Part 130 is amended by redesignating the present appendix thereto as Appendix A and by adding new Appendix B to read as follows:

**APPENDIX B—GUIDANCE FOR REPLACEMENT, MODIFIED, AND NEW EXECUTIVE AND VARIABLE COMPENSATION PLANS**

(1) *General.* The guidance set forth in this appendix should be used by employers subject to voluntary controls with respect to the implementation after January 10, 1973, of replacement, modified, or new executive and variable compensation plans, practices, or programs of the types covered in Subpart F of Part 201 of this title. For employers subject to voluntary controls, such implementation no longer requires prior approval. This appendix provides the principles, policies, and conditions that were used by the Pay Board in its consideration of such plans, practices, or programs submitted for approval during Phase II of the Economic Stabilization Program.

(2) *Replacement incentive compensation plans or practices.* When an employer adopts a new incentive compensation plan or practice (other than a stock option plan) replacing such a plan or practice which has expired or terminated on account of the operation of time, the new plan or practice is not considered to increase wages and salaries if the aggregate amount of compensation attributable to the new plan or practice is not an increase over the aggregate amount which would have been granted under the replaced plan or practice had it not terminated. If the amount of compensation is increased over that attributable to the replaced plan or practice, the amount in excess should be treated as an increase in wages and salaries and should be apportioned to the appropriate employee units of the plan or practice participants in the man-

ner provided in §§ 201.74(c)(2) and 201.75(c)(2) of Pay Board Regulations in effect on January 10, 1973.

3. *Modified or revised incentive compensation plans or practices.* When an employer modifies or revises an incentive compensation plan or practice (other than a stock option plan), the modification or revision is not considered to increase wages and salaries if the aggregate amount of compensation attributable to the modified or revised plan or practice is not an increase over the aggregate amount attributable to the plan or practice had it not been modified or revised. If the amount of compensation is increased over that attributable to the plan or practice prior to modification or revision, the amount in excess should be treated as an increase in wages and salaries and should be apportioned to the appropriate employee units of the plan or practice participants in the manner provided in §§ 201.74(c)(2) and 201.75(c)(2) of Pay Board Regulations in effect on January 10, 1973.

4. *New incentive compensation plans or practices.* When an employer adopts a new incentive compensation plan or practice (other than a stock option plan) which is neither a replacement nor modification or revision of an existing plan or practice, the amount granted with respect to the first 12 months of the operation of the plan or practice should be treated as an increase in wages and salaries and should be apportioned to the appropriate employee units of the plan or practice participants as provided in §§ 201.74(c)(2) and 201.75(c)(2) of Pay Board Regulations in effect on January 10, 1973. The amount so granted with respect to the first 12-month period should (within the meaning of §§ 201.74(b)(4) and 201.75(b)(4)) become the "base year amount" for such plan or practice in computing the "allowable amount" with respect to future plan years. Payments in subsequent plan years that exceed the "allowable amount" should also be considered an increase in wages and salaries.

5. *Special rules for certain incentive compensation plans and practices.* For purposes of paragraph 4 above, the amount of certain types of awards should be determined as follows—

(a) *For performance share awards:* In an amount equal to the fair market value of the stock at the time of the award assuming attainment of at least 75 percent of the performance goal allocated over the performance period.

(b) *For phantom stock awards:* In an amount equal to 25 percent of the fair market value of an equivalent number of actual shares of the employer at the time of the award.

6. *Replacement stock option plans.* If an employer subject to voluntary compliance adopts a new stock option plan which meets the requirements of § 201.76(b)(1)(i) (a) through (d) of Pay Board Regulations in effect on January 10, 1973, and the new plan replaces a stock option plan which had met those requirements but which had lapsed—

(a) On account of the operation of time, or  
(b) Because all of the authorized shares had been the subject of option grants, or  
(c) Because the authorized shares available for award were insufficient to grant options covering the applicable aggregate share limitation; then

for purposes of determining the aggregate share limitation applicable to the new plan, the new plan and the replaced plan should be treated as a single plan. If such an employer adopts a new stock option plan described in § 201.76(e) of Pay Board Regulations in effect on January 10, 1973, which replaces a prior plan that has lapsed or terminated, then the increases in wages and salaries attributable to grants and exercises of stock options under the replacement plan should be apportioned to the appropriate employee units of the plan participants as provided in § 201.76(e)(3) of such Pay Board Regulations.

7. *Modified or revised stock option plans.* If an employer modifies or revises a stock option plan which meets the requirements of § 201.76(b)(1)(i) (a) through (d) of Pay Board Regulations in effect on January 10, 1973, the aggregate shares to be granted under the modified or revised plan should not exceed the aggregate shares which would have been granted under the plan had it not been modified or revised. If such an employer modifies or revises a stock option plan described in § 201.76(e) of such Pay Board Regulations, any increase in wages and salaries attributable to awards under such plan should be apportioned to the appropriate employee units of the plan participants as provided in § 201.76(e)(3) of such Pay Board Regulations.

8. *New Stock option plans.* If an employer adopts a new stock option plan which is neither a replacement nor a modification or revision and which meets the requirements of § 201.76(b)(1)(i) (a) through (d) of Pay Board Regulations in effect on January 10, 1973, the aggregate share limitation for the first fiscal year of operation should be 25 percent of the number of shares authorized for stock options at the time the plan was adopted. If such an employer adopts a new stock option plan described in § 201.76(e) of such Pay Board Regulations, the increase in wages and salaries attributable to the options granted or exercised under the plan should be apportioned to the appropriate employee units of the plan participants as provided in § 201.76(e)(3) of such Pay Board Regulations.

9. *Replacement sales or commission plans or practices and certain incentive programs.* When an employer adopts a new sales or commission plan or practice or a production incentive program (other than a program described in § 201.61 of Pay Board Regulations in effect on January 10, 1973) replacing such a plan, practice, or program, the payments under the new plan, practice, or program are not considered to increase wages and salaries if the aggregate amount of compensation attributable to the new plan, practice, or program (using the new formula or

method for determining payments) is not an increase over that which would have been granted (using the old formula or method for determining payment) under the plan, practice, or program had it not been terminated. If the amount of compensation is increased solely due to the change in formula or method for determining payments over that attributable under the replaced plan, practice, or program, the amount in excess should be treated as an increase in wages and salaries in the control year such amounts are paid, should be apportioned to the appropriate employee units of the plan, practice, or program participants as provided in § 201.77(c) of such Pay Board Regulations, and should be included in the respective units' base compensation for subsequent control years.

10. *Modified or revised sales or commission plans or practices and certain incentive programs.* When an employer modifies or revises a sales or commission plan or practice or a production incentive program (other than a program described in § 201.61 of Pay Board Regulations in effect on January 10, 1973), the payments under the modification or revision are not considered to increase wages and salaries if the aggregate amount of compensation attributable to the modified or revised plan, practice, or program (using the modified formula or method for determining payments) is not an increase over that which would have been granted (using the old formula or method for determining payments) under the plan, practice, or program had it not been modified or revised. If the amount of compensation is increased solely due to the change in formula or method for determining payments over that attributable under the modified or revised plan, practice, or program, the amount in excess should be treated as an increase in wages and salaries in the control year such amounts are paid, should be apportioned to the appropriate employee units of the plan, practice, or program participants as provided in § 201.77(c) of such Pay Board Regulations, and should be included in the respective units' base compensation for subsequent control years.

11. *New sales or commission plans or practices and certain incentive programs.* When an employer adopts a new sales or commission plan or practice or production incentive program (other than a program described in § 201.61 of Pay Board Regulations in effect on January 10, 1973) which is neither a replacement, nor modification or revision, of an existing plan, practice or program, the amount granted with respect to the new plan, practice, or program should be treated as an increase in wages and salaries in the control year such amounts are paid, should be apportioned to the appropriate employee units of the plan, practice, or program participants as provided in § 201.77(c) of such Pay Board Regulations, and should be included in the respective units' base compensation for subsequent control years.

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

[7 CFR Part 1121]

[Docket No. AO-364-A6]

#### MILK IN SOUTH TEXAS MARKETING AREA

##### Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the hearing clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the South Texas marketing area.

Interested parties may file written exceptions to this decision with the hearing clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by the 15th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the hearing clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

#### PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as herein-after set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Houston, Tex., on January 17, 1973, pursuant to notices thereof which were issued November 20, 1972 (37 FR 24905) and December 12, 1972 (37 FR 26736).

The material issues on the record of the hearing relate to:

1. Adoption of an advertising and promotion program as authorized under Public Law 91-670; and

2. The specific terms and provisions necessary to implement such a program under the South Texas order.

#### FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evi-

dence presented at the hearing and the record thereof;

1. *Adoption of an advertising and promotion program.* The order should be amended to provide for an advertising and promotion program to be administered by an agency organized by producers and producers' cooperative associations and financed by producer monies deducted from pool proceeds.

The amendments to the Agricultural Marketing Agreement Act under Public Law 91-670 provide that a Federal milk order may, with the approval of producers on the market, include provisions for establishing or providing for the establishment of research and development projects, advertising (excluding brand advertising), sales promotion, and educational and other programs designed to improve or promote the domestic marketing and consumption of milk and its products (hereinafter referred to in this decision as the "advertising and promotion program" or "the program").

The hearing on the matter here under consideration was requested by Associated Milk Producers, Inc., a cooperative association representing a majority of the producers supplying milk for the South Texas market.

Under the proposal supported at the hearing and as herein adopted, the advertising and promotion program will be funded through a 5-cent per hundredweight assessment each month on producer milk pooled during such month. Under this program, the market administrator will deduct the monies from the producer-settlement fund prior to the computation of the uniform price. All of the monies so deducted, except for certain reserves withheld by the market administrator to cover refunds and administrative costs, will be turned over to and administered by an agency organized by producers and producers' cooperative associations under the order. The agency will be responsible for the development and implementation of programs and projects approved by the Secretary and designed to carry out the purposes of the Act as prescribed in the attached amending order.

Any producer not desiring to participate in the program, upon proper application, will be eligible for refund of the assessments made against his proportionate share of total producer marketings of milk, such refunds to be made by the market administrator on a quarterly basis.

The principal reason cited by proponent for the establishment of an ad-

vertising and promotion program under the South Texas order was the need for a sound and comprehensive program of promotion, education and research in the use of milk and dairy products to preserve the market against the competition of substitutes. Proponent stated that dairy farmers cannot hope for a continued healthy or growing market in the future if they do not meet the promotional efforts of their competition. It was pointed out that there has been a continuing downward trend nationally in the per capita consumption of milk and milk products.

Proponent testified that in those markets that have had a promotional program of the magnitude being proposed for the South Texas area, the consumption trends for dairy products have been more favorable than in other markets. In 15 markets that have milk promotion programs with at least a 5-cent deduction per hundredweight, the daily sales of whole milk, lowfat milk and skim milk items increased nearly 3 percent from 1971 to 1972. In 48 markets with lesser funding, or with no program at all, the average daily sales increased only about 1 percent.

The cooperative also indicated that it has been operating a promotion program in the South Texas market for several years. Because of competitive conditions, it lowered its deduction rate in the spring of 1972 (then 5 cents) to 3 cents per hundredweight of member milk. The cooperative believes, however, that a promotion program funded at the 5-cent rate, and with such rate being applicable to the milk of all producers on the market, is essential to a healthy and growing market for milk in the South Texas area. Proponent urged the adoption of an advertising and promotion program under Public Law 91-670 comparable to the programs recently adopted in 15 other southwestern markets in which proponent operates.

Since the program is totally a producer-financed program and is voluntary in that any producer not wishing to participate has assurance of refund of the assessment made against his milk marketings, there can be no compelling reason for not adopting such a program.

In view of the foregoing, it is concluded that the program adopted should be essentially as proposed.

2. *Terms and provisions.* The rate of 5 cents per hundredweight on producer milk, as proposed by proponent, is a reasonable assessment on the marketings of producers under the order and is adopted.

## PROPOSED RULE MAKING

Based on the volume of milk marketed under the South Texas order in 1972, an assessment rate of 5 cents per hundredweight on producer milk will gross approximately \$585,000 annually. (Official notice is taken of the "Market Administrator's Bulletin" for the months of January through December 1972, as issued by the market administrator for the South Texas order, with respect to total receipts of producer milk under the order.) Allowing for refunds to non-participating producers and for the necessary administrative costs, it reasonably can be expected that the money that will be available for advertising and promotion will be somewhat more than that presently being expended in this area by proponent.

The enabling legislation specifically provides that the promotion funds deducted from producer proceeds "shall be paid to an agency organized by milk producers and producers' cooperative associations in such form and with such methods of operation as shall be specified in the order."

A definition of "Agency" therefore is incorporated in the order to identify the administrative body organized by producers and producers' cooperatives that will be authorized to expend the funds for advertising and promotional activities.

The Agency under the terms prescribed herein is responsible for administration of the terms and provisions of the program within the scope of its authority. Subject to the approval of the Secretary, it also is empowered to enter into contracts and agreements with persons or organizations as deemed necessary to carry out the program. In addition, the Agency may recommend to the Secretary amendments to the terms of the program and make such rules and regulations as are necessary to carry out its stated objectives.

The powers, duties, and functions specifically assigned to the Agency under the terms herein adopted are of a nature and scope to provide participating producers on the market full and necessary authority through their representatives on the Agency to develop and administer advertising and promotion programs designed to accomplish the purposes of Public Law 91-670.

The Act states that the Agency "• • • may designate, employ, and allocate funds to persons and organizations engaged in such programs which meet the standards and qualifications specified in the order." The guidelines concerning this matter are set forth in the amendments to the order. Under the terms of such amendments the Agency will develop and submit to the Secretary for approval programs and projects that may provide for: (a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for advertising and promotion of milk and milk products on a nonbrand basis; (b) the utilization of the services of other organizations to carry out Agency programs and projects, if the Agency finds that such activities will benefit producers supplying the market; and

(c) the establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers supplying the market.

There was no testimony on the record in opposition to these Agency guidelines, although one cooperative association stated it is not in favor of the program generally.

Agency members are to be selected from producers who actively support the program. Representation on the Agency as it relates to cooperatives may include, however, individuals not directly engaged in the production of milk, e.g., employees of the cooperative.

Under the terms of the program as herein provided, the selection of cooperative representatives for the Agency will be entirely at the discretion of the cooperative(s). Each cooperative association that is authorized one or more representatives on the Agency shall notify the market administrator of the name and address of each representative selected who shall serve at the pleasure of the cooperative.

The composition of the Agency should be such that it insures fair representation for all participating producers. Proponent represents a substantial majority of the producers on the South Texas market. Since its representatives would be selected by the cooperative's board of directors and serve at the pleasure of the cooperative, the position of such representatives with respect to Agency matters no doubt will reflect the position of the cooperative's members. In view of this, there is no apparent reason why proponent's Agency representation need exceed that number necessary to retain for the cooperative a voting majority on the Agency. Proponent held that Agency representation should be as small as possible, consistent with fair and proportionate representation of producers.

Based on market representation at the time of the hearing, proponent indicated that its proposal would provide for a total of nine Agency representatives. This was determined on the basis that proponent would be eligible to have all but four of the Agency's representatives, and that the minimum number of representatives necessary for proponent to have a voting majority would be five.

It cannot be presumed that the composition of producers on the market will remain static. Ideally, the rules adopted with respect to the composition of the Agency should accommodate changes in the market structure under the guidelines set forth by proponent.

To meet these conditions, it is provided that each cooperative will be authorized one Agency representative for each full 5 percent of the participating producers (producers who have not requested refunds<sup>1</sup>) that such cooperative represents. For the purpose of meeting

<sup>1</sup> Provision is made in the program adopted herein that for the purposes of the Agency's initial formation all producers under the order will be considered as participating producers.

the 5-percent requirement, or multiples thereof, any cooperative association, including a cooperative having less than the required 5 percent of the producers participating in the program, may elect to combine its participating membership with that of one or more other cooperatives.

The participating producer members of any cooperative association having less than the required 5 percent that elects not to combine, as discussed above, and nonmember producers together will be authorized one Agency representative for each full 5 percent that such producers constitute of the total number of participating producers under the order. If such group of producers in total constitutes less than the full 5 percent, the group, nevertheless, will be authorized to select from such group, in total, one Agency representative.

Notwithstanding the above, if any cooperative association or group of associations that elects to combine for purposes of selecting Agency representation has a majority of the participating producers, representatives from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number necessary to constitute a majority of the Agency representatives.

As previously indicated, the selection of cooperative representation will be entirely at the discretion of the cooperative. The market administrator will conduct a referendum annually to determine the representation on the Agency of participating nonmember producers and participating producer members of cooperative associations having less than the required 5 percent of the producers participating in the program and not electing to combine membership for purposes of selecting Agency representation.

Within 30 days after the effective date of the amended order, and annually thereafter, the market administrator shall give notice to all such producers (member and nonmember) of their opportunity to nominate Agency members and shall specify the number of representatives that such nonmember and member producers together are authorized.

Following the closing date for nominations, the market administrator shall notify the nominees who are eligible for Agency membership and then shall conduct a referendum in which each individual producer (member or nonmember) shall have one vote.

Since cooperative associations may freely elect to combine or not combine for purposes of selecting Agency representation, it is provided in the case of a cooperative with less than the 5 percent that does not combine that the balloting of its participating producer members shall be on an individual basis, the same as nonmembers. This procedure will tend to promote equity between member and nonmember producers in the selection of representatives.

Election to Agency membership will be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes.

Each person selected for the Agency shall qualify by filing with the market administrator a written acceptance of his willingness and intention to serve in such capacity. It is anticipated that any eligible nominee included on the list that the market administrator is required to circulate to participating nonmember producers and certain participating member producers in the conduct of the referendum, as discussed elsewhere in these findings, would advise the market administrator promptly if he were not willing to be a nominee. Notwithstanding, it is possible that a person elected to membership or so designated by a cooperative may not be able or may not wish to accept the position. This requirement, therefore, is necessary in order that the market administrator will know whether or not the position has been filled. Such acceptance should be filed promptly after notification in order that the formation of the Agency can be prompt.

The term of office of each member of the Agency as herein adopted is one year or until a replacement is designated by the cooperative association or is elected.

It is possible that an elected representative may leave the market or otherwise be unable to complete his term of office. It is desirable, therefore, that some procedure be provided for filling the vacancy. It is concluded appropriate in such circumstance that the market administrator appoint as his replacement the then currently participating producer who received the next highest number of eligible votes in the referendum.

Actions to be taken by the Agency are of such importance that a majority of the representatives should be required to be present at any meeting to constitute a quorum and any action taken by the Agency should require a majority of concurring votes of those present and voting. The provisions herein adopted so provide.

The Agency's duties set forth in the order are generally necessary for the discharge of its responsibilities. It is intended that activities undertaken by the Agency shall be confined to those reasonably necessary to carry out its responsibilities as prescribed by the program. At the same time it should be recognized that these specified duties are not necessarily all inclusive, and it may develop that there are other duties the Agency may need to perform.

Congress clearly contemplated that producer activities under Public Law 91-670 would be under direct surveillance of the Secretary. It was specifically provided that "all funds collected under this subparagraph (I) shall be separately accounted for and shall be used only for the purposes for which they are collected." It is essential, therefore, that the Agency prepare and submit to the Secretary for his approval budgets showing projected amounts of available funds and how such funds are to be disbursed. Also, in order to make the audit necessary to establish that Agency funds are used only for authorized purposes, the market administrator or other representative of

## PROPOSED RULE MAKING

the Secretary must have access to all of the Agency's records and access to, and the right to examine, any directly pertinent books, documents, papers, and records of any organization performing advertising and promotion activities for such Agency.

Proponent proposed that budgets be prepared and submitted for approval on a quarterly basis. The Agency must be in a position to develop firm plans and make commitments covering a sufficient forward period to insure a continuing viable program. A calendar quarter is concluded to be the minimum practical period for achieving this end and it is provided, therefore, that a budget shall be submitted to the Secretary for his approval prior to each quarterly period.

All of the possible promotion and other authorized activities that the Agency may wish to pursue cannot be anticipated at this time. Therefore, the authority for the Agency to establish programs and projects is purposely left broad and flexible to facilitate the timely development of such programs suitable to prevailing circumstances in the market.

Any promotion program or project the Agency may consider must comport with the terms and conditions of the order and be evaluated in terms of cost, the statutory objectives to be accomplished, the time required to complete the program or project, and other such factors in order to arrive at a sound decision as to whether the program or project is justified.

The required budget submissions will permit the Secretary to evaluate projected programs in terms of the declared policy of the Act and also will serve as policy guidelines for Agency members in the conduct of their operations for each ensuing quarterly period. This will be particularly helpful in the transition of Agency membership as the terms of office of individual members expire.

The Agency appropriately must follow prudent operating procedures in the furtherance of the best interests of producers. It is required, therefore, that it shall keep minutes of its meetings and such other books and records as will clearly reflect all its transactions, and on request shall submit such books and records to the Secretary for his examination. It also shall provide for the bonding of all persons handling Agency funds with surety thereon satisfactory to the Secretary.

The attached order prescribes no specific requirement of the Agency to publish an account of funds collected and the use made thereof, or to make releases of information concerning the operation of the program to producers and other interested parties. Since the activities of the Agency are under the direct supervision of the Secretary, it is not necessary to prescribe such requirements to insure the integrity of the program. However, since the degree of producer participation in the program, and thus its relative success, will depend in large part upon the interest and confidence it generates among producers, the Agency undoubtedly

will keep producers on the market fully informed of its milk promotion plans, projects, and activities. In view of these considerations, it is not necessary to prescribe specific informational releases to producers and other parties.

The Agency should be authorized to incur reasonable expense in its administration of the program, including the employment and the fixing of compensation of any person necessary to the exercise of its powers and performance of its duties. For example, the Agency may find it necessary to retain the services of an attorney from time to time to assist in the preparation of contracts, or to employ a stenographer, or other individual(s) to handle its record keeping and bookkeeping functions. It is possible that the Agency may find it desirable to enlist the services of other individuals with special talents who could aid in program and promotion planning by virtue of their particular knowledge, skills, or expertise in the areas of advertising and promotion. Other Agency costs could be expected to involve miscellaneous office costs usually associated with a business office.

It is, of course, appropriate and necessary that Agency representatives be reimbursed for reasonable expenses incurred in attending meetings and while on other Agency business. This could involve expenses for meals, lodging, and travel in a private car or by public transportation. It would be unreasonable to require members of the Agency to bear such expenses incurred in the interest of all producers on the market.

It was proposed, and it is here adopted, that the amount of money utilized by the Agency for its expenses in administering the program should not exceed 5 percent of the funds received by the Agency from the market administrator. This establishes a reasonable limitation on Agency costs and assurance to producers that the funds collected under the program will be expended prudently on advertising and promotion activities.

The Agency, of course, is handling funds otherwise payable to producers. The Agency members therefore should have assurance that they will not be personally liable for the impact of their official acts except for willful misconduct, gross negligence or any acts that are criminal in nature. To assure that the Agency funds are used only for the purpose contemplated by the Congress, it is provided that such funds shall not be used for political activities or for influencing governmental policy or acts.

It is possible that at some later date producers could request termination of the program or that the order provisions could be terminated by the Secretary on a finding that they no longer tend to effectuate the declared policy of the Act. In the event that the provisions of the advertising and promotion program are terminated in their entirety, any remaining uncommitted funds applicable thereto should revert to producers since such monies are derived

## PROPOSED RULE MAKING

solely from funds otherwise due producers. The uncommitted funds appropriately should be deposited in the producer-settlement fund for distribution to producers.

Expenses incurred by the market administrator in the administration of the advertising and promotion program should be charged against the advertising and promotion fund. Neither the marketing service fund nor the administrative fund should be charged with costs directly related to the administration of the advertising and promotion program. The program is producer originated and should be self sustaining. The expenses attendant to its administration appropriately should be borne by producers.

The statutory authority under Public Law 91-670 supports this position and makes it clear that this is intended to be strictly a producer program. The law provides for "Establishing or providing for the establishment of . . . program . . . to be financed by producers in a manner and at a rate specified in the order, on all producer milk under the order. . . . All funds collected under this subparagraph shall be separately accounted for and shall be used only for the purpose for which they are collected."

Public Law 91-670 provides that "notwithstanding any other provisions of this Act, as amended, any producer against whose marketings any assessment is withheld or collected under the authority of this subparagraph, and who is not in favor of supporting the research and promotion programs, as provided for herein, shall have the right to demand and receive a refund of such assessment pursuant to the terms and conditions specified in the order."

As adopted herein, a producer desiring a refund on the assessments made against his marketings must submit to the market administrator his signed request in the form prescribed by the market administrator within the first 15 days of the month (December, March, June, or September) preceding the calendar quarter for which refund is requested.

Congress clearly intended that producers not wishing to participate in the promotion program should get their money refunded with no unnecessary impediments. It must be recognized, however, that there is necessarily a significant cost in making refunds and, in addition, that any promotion program could have only limited success unless the moneys to be available for it are known in time to make firm forward plans and commitments. Refunding on a quarterly basis was proposed by proponent and is a reasonable basis for implementing the intent of Congress in that it insures refunds on a timely basis and without undue administrative costs.

Without appropriate safeguards it would be possible for any cooperative or individual not in harmony with the program to impede its effectiveness through the filing of refund requests in the name

of individual producers or by solicitation of refund requests from individual producers without their full knowledge or understanding of the nature of their action. To deter this result, reasonable procedures must be set up to clearly establish that any refund request received originated with and is the action of the individual producer.

The provisions as herein adopted will permit the market administrator to develop appropriate procedures to this end. It is provided that the application must be filed in the form prescribed by the market administrator and signed by the producer. However, so that there can be no unnecessary demands placed on producers, only that information necessary to identify the producer and the records relevant to the refund may be required.

Proponent recognized that the refund request procedure as proposed (e.g., a request filed with the market administrator during the first 15 days of the month preceding the beginning of each calendar quarter) could not accommodate new producers who might not wish to participate in the program during their first few months on the market. The cooperative proposed, therefore, that until the initial quarter for which a new producer could comply with the regular refund request procedure such producer be granted a refund on his marketings upon proper application filed with the market administrator at any time during the period. This proposed flexibility in the refund procedure is necessary so that new producers will not be denied refunds during their first few months under the order because of their inability to comply with the quarterly refund request procedure.

Proponent proposed that the market administrator be required to advise each producer promptly of the advertising and promotion program when effectuated and thereafter with respect to new producers. To insure that producers have an awareness of the program and of their rights thereunder, it is provided that the market administrator shall make such notification by forwarding each producer a copy of the program provisions.

Proponent recognized that the production units of some producers under the order could be located in a State that has a mandatory checkoff for a similar advertising and promotion program under State law. Proponent held that in such circumstance a double assessment was not intended and that such producers appropriately should be refunded from the program under the Federal order an amount equal to such State assessment but not in excess of the 5-cent assessment under this program. This procedure is provided for in the statute and should be adopted.

The provisions, as herein adopted, provide that all refunds shall be made by the market administrator. Refund moneys have no relationship to the purpose for which the Agency is formed. Also, refunds to individual producers may vary depending on whether there has been a mandatory deduction from such producer's payments under a State pro-

gram. The Agency could not have the necessary information to make refunds except as it was obtained from the market administrator. By making the market administrator wholly responsible for all refund activities, the overall administrative costs to the program will be minimized and, conversely, the funds available to the Agency for advertising and promotion will be maximized.

Since this is a voluntary program, there should be no provision for disclosure by the market administrator regarding the status of any producer under the program. It will be incumbent upon the participants, through their Agency, to conduct programs in a manner and of a nature to set the climate for maximum participation by producers.

To implement the advertising and promotion program, it is necessary that certain provisions of the current order be modified.

The procedure for computing the uniform price must be modified by the addition of a new paragraph prescribing the deduction from the aggregate value of an amount computed by multiplying the total hundredweight of producer milk included in the computation by 5 cents. It is through this procedure that the advertising and promotion funds are reserved. This, of course, has the result of reducing the uniform price by approximately 5 cents. The advertising and promotion moneys so reserved would be held in the producer-settlement fund for disposition by the market administrator in accordance with the terms and conditions prescribed under the advertising and promotion program order provisions.

It is also necessary to make appropriate corollary changes in the provisions prescribing the obligations of a handler operating a partially regulated distributing plant and the obligations of any handler with respect to other source milk allocated to Class I (on which the pool obligation is the difference between the Class I and the uniform price) so that such handlers' pool obligations will not be increased by 5 cents because of the change in the uniform price.

It is recognized that unless otherwise provided for an audit adjustment involving any handler's balance of payment to or from the producer-settlement fund could also require adjustments in the moneys to be turned over to the program or refunded to producers, as the case may be. However, such adjustment normally would not involve sufficient volumes of milk to significantly affect the moneys available to the program. For this reason, and because of the substantial administrative costs that would be involved in reflecting audit adjustments in adjusted payments to the program, it is intended that such audit adjustments shall not result in adjustments of funds available to the program.

Other order modifications not specifically discussed herein are necessary and incidental to insure the proper functioning of the order to accommodate the advertising and promotion program as here established.

## PROPOSED RULE MAKING

## RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

A brief and proposed findings and conclusions were filed on behalf of a certain interested party. This brief, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by the interested party are inconsistent with the findings and conclusions set forth herein, the request to make such findings or reach such conclusions is denied for the reasons previously stated in this decision.

## GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

## RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the South Texas marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

1. In § 1121.61 (b), subparagraph (5) is revised as follows:

## § 1121.61 Obligation of handler operating a partially regulated distributing plant.

(b) . . . .  
(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

2. Section 1121.63 is revised as follows:

## § 1121.63 Producer-handler.

Sections 1121.40 through 1121.46, 1121.50 through 1121.55, 1121.70 through 1121.72, 1121.80 through 1121.89, and 1121.110 through 1121.122 shall not apply to a producer-handler.

3. In § 1121.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

## § 1121.71 Computation of aggregate value used to determine uniform price.

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1121.84 (b), subparagraph (2) is revised as follows:

## § 1121.84 Payments to the producer-settlement fund.

(b) . . . .  
(2) The value at the uniform price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1121.70 (e).

5. Immediately following § 1121.88, a new centerhead and new §§ 1121.110 through 1121.122 are added as follows:

## ADVERTISING AND PROMOTION PROGRAM

## § 1121.110 Agency.

"Agency" means an agency organized by producers and producers cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1121.121 (b) (1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, and educational and other programs de-

signed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

## § 1121.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1121.113 (b), is authorized one Agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1121.113 (b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one Agency representative. For the purpose of the Agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1121.113 (b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the Agency representatives.

## § 1121.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

## § 1121.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative, who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to

## PROPOSED RULE MAKING

the Agency under the rules of § 1121.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order and annually thereafter the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more Agency representatives as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

## § 1121.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

## § 1121.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1121.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1121.110 and 1121.117.

## § 1121.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business,

(b) Develop programs and projects pursuant to §§ 1121.110 and 1121.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(f) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(g) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

## § 1121.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

## § 1121.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1121.121(b) (1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

## § 1121.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever for any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except

for acts of wilful misconduct, gross negligence, or those which are criminal in nature.

## § 1121.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

## § 1121.121 Duties of the market administrator.

Except as specified in § 1121.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1121.113(c).

(b) Set aside the amounts subtracted under § 1121.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under

authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1121.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1121.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1121.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1121.110 through 1121.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

## § 1121.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1121.83.

Signed at Washington, D.C., on March 7, 1973.

JOHN C. BLUM,  
Deputy Administrator,  
Regulatory Programs.

## DEPARTMENT OF TRANSPORTATION

## Federal Aviation Administration

## [14 CFR Part 71]

[Airspace Docket No. 73-WE-8]

## CONTROL ZONE

## Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a new control zone at Gen. William J. Fox Airfield, Lancaster, Calif.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received on or before April 11, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice

## PROPOSED RULE MAKING

in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Hawthorne, CA 90250.

On or about April 28, 1973, the Federal Aviation Administration (FAA) will commission an air traffic control tower at Fox Field. In order to provide for the control of air traffic the FAA proposes to establish a control zone for Fox Field.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 11.171 (38 FR 351) the following control zone is added:

## FOX FIELD, LANCASTER, CALIF.

Within a 5-mile radius of Gen. William J. Fox Airfield (latitude 34°44'26" N., longitude 118°13'04" W.), and within 2 miles each side of the Palmdale VORTAC 311° radial extending from the 5-mile radius zone to the Palmdale, Calif., 5-mile radius zone. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the Airmen's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on February 28, 1973.

ROBERT O. BLANCHARD,  
Acting Director, Western Region.

## [14 CFR Part 71]

[Airspace Docket No. 73-EA-11]

## CONTROL ZONE AND TRANSITION AREA

## Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Danville, Va., control zone (38 FR 369) and transition area (38 FR 471).

A review of the airspace requirements for the Danville, Va., area indicates a need to alter the control zone and transition area to conform to the criteria of the Terminal Instrument Procedures (TERPS).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before April 11, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal

conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Danville, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Danville, Va., control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 36°-34'30" N., 79°20'11" W., of Danville Municipal Airport, Danville, Va.; within 3 miles each side of the Danville, Va., VOR 044° radial, extending from the 5-mile-radius zone to 8.5 miles northeast of the VOR; within 3 miles each side of the Danville, Va., VOR 208° radial, extending from the 5-mile-radius zone to 8.5 miles southwest of the VOR. This control zone is effective from 0600 to 2200 hours, local time, daily.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Danville, Va., transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the center 36°34'30" N., 79°20'11" W., of Danville Municipal Airport, Danville, Va.; within 3 miles each side of the Danville, Va., VOR 044° radial, extending from the 8-mile-radius area to 8.5 miles northeast of the VOR and within 3 miles each side of the Danville, Va., VOR 208° radial, extending from the 8-mile-radius area to 8.5 miles southwest of the VOR.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on February 23, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.

[Airspace Docket No. 73-EA-12]

## CONTROL ZONE AND TRANSITION AREA

## Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Glens Falls, N.Y., control zone (38 FR 381) and transition area (38 FR 492).

## PROPOSED RULE MAKING

## GLENS FALLS, NEW YORK

Upon a review of the terminal procedures for Glens Falls, N.Y., and the proposed new ILS instrument procedures for Runway 1 at Warren County Airport, it is determined that the control zone and transition area must be altered to provide controlled airspace for aircraft executing the IFR arrival and departure procedures for the airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before April 11, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Glens Falls, N.Y., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71, Federal Aviation regulations, by deleting the description of the Glens Falls, N.Y., control zone and substituting the following in lieu thereof:

## GLENS FALLS, NEW YORK

Within a 5-mile radius of the center, latitude 43°20'32" N., longitude 73°36'35" W. of Warren County Airport, Glens Falls, N.Y., extending clockwise from a 357° bearing to a 275° bearing from the airport; within an 11-mile radius of the center of the airport extending clockwise from a 275° bearing to a 307° bearing from the airport; within a 7.5-mile radius of the center of the airport extending clockwise from a 307° bearing to a 357° bearing from the airport; within 2 miles each side of the Glens Falls VORTAC 005° radial extending from the VORTAC to 5.5 miles north of the VORTAC; and within 4 miles each side of the Glens Falls VORTAC 172° radial extending from the VORTAC to 12.5 miles south of the VORTAC.

2. Amend § 71.181 of Part 71, Federal Aviation regulations, by deleting the description of the Glens Falls, N.Y., 700-foot floor transition area and substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the center, latitude 43°20'32" N., longitude 73°36'35" W. of Warren County Airport extending clockwise from 050° bearing to a 220° bearing from the airport; within an 18.5-mile radius of the center of the airport, extending clockwise from 220° bearing to a 050° bearing from the airport; within 7 miles west and 9.5 miles east of the Glens Falls VORTAC 172° radial extending from the VORTAC to 18.5 miles south of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on February 23, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.

[FR Doc. 73-4649 Filed 3-9-73; 8:45 am]

## [14 CFR Part 71]

[Airspace Docket No. 71-GL-16]

## TRANSITION AREA

## Withdrawal of Proposed Designation

On page 22599 of the FEDERAL REGISTER dated November 25, 1971, the Federal Aviation Administration published a Notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to designate a transition area at Ashland, Ohio.

The proponent is having problems in the construction of the nondirectional beacon upon which the standard instrument approach procedure is based. Consequently, the proposed designation is withdrawn.

Issued in Des Plaines, Ill., on February 14, 1973.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

[FR Doc. 73-4650 Filed 3-9-73; 8:45 am]

## [14 CFR Part 103]

[Docket No. 12574; Notice No. 73-7]

## CARRIAGE OF RADIOACTIVE AND OTHER HAZARDOUS MATERIALS

## Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 103 of the Federal Aviation regulations to specifically set forth the manner in which the distribution of packages of radioactive materials being transported in aircraft may be considered in determining the distance the packages must be kept from a space that is occupied by a person or an animal, to ensure that articles subject to the requirements of Part 103 are adequately secured to prevent their becoming a hazard by shifting and to assure their inaccessibility to anyone but crewmembers.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before June 11, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

Part 103 of the Federal Aviation regulations permits limited amounts of certain radioactive materials to be carried in civil aircraft in the United States and in civil aircraft of U.S. registry anywhere in air commerce provided the individual packages of materials are kept a minimum distance from a space which may be continuously occupied by persons or shipments of animals. The minimum separation distance is specified in a table in § 103.23(a) according to the transport index shown on the label of the package. The transport index is equivalent to the radiation dose rate emitted by the package. If more than one package is present, the minimum separation distance is determined from that table by adding together all of the transport index numbers shown on the labels of the individual packages. The table does not currently provide for taking into account separation between individual packages or groups of packages in computing the minimum separation distance required to be maintained between packages and areas that are occupied by a person or an animal.

The FAA has received a number of inquiries as to how the table of minimum separation distances set forth in § 103.23(a) should be applied when several individual packages of radioactive materials or groups of packages are separated by placing them in different areas of a cargo compartment or in different cargo compartments. The FAA believes, based on Atomic Energy Commission (AEC) statements, that the air transportation of radioactive materials can be safely accomplished utilizing the principle of distribution of the packages to control cumulative radiation levels. In order to assure a uniform application of the table when packages or groups of packages are separated in a cargo compartment or in several cargo compartments, the FAA proposes to redesignate present paragraph (b) as paragraph (c) and to add a new paragraph (b) to § 103.23 that would provide explicit provisions for taking into account the

separation distance between individual packages or groups of packages of radioactive materials in determining the distance the packages must be kept from compartments occupied by persons or shipments of animals.

Under the proposed amendment, the separation distance required to be maintained between packages of radioactive materials and an area occupied by a person or an animal would take into account the fact that packages are separated into groups and each group is separated from each other group in the aircraft by at least the distance determined from the table for the group having the largest total transport index. It should be pointed out, however, that § 103.23 does not currently permit any variation in distance to be made on the basis of exposure time in computing the distance required between packages of radioactive materials and compartments which may be continuously occupied by persons or shipments of animals. No such variation would be permitted under this proposed amendment. Moreover, this proposal would in no way change the applicability of the quantity limitations currently prescribed in § 103.19, which limit the quantity of radioactive materials that may be carried aboard any aircraft to the amount that would be represented by a total transport index of 50.

The distance between any package containing radioactive materials and any space occupied by a person or an animal is measured from the surface of the package nearest the compartment occupied by a person or an animal to the inside limiting surface of the occupied compartment. For example, for a package of radioactive materials carried in the cargo compartment directly below the passenger compartment, the distance would be measured from the top of the package to the surface of the passenger compartment upon which the passenger places his feet or to which, under normal circumstances, the passenger seats are attached.

The FAA is also proposing to amend § 103.31 to ensure that all articles subject to Part 103 are adequately secured to prevent shifting and are inaccessible to passengers. Current § 103.31(a) prohibits the carriage of dangerous articles in a cabin of a passenger-carrying aircraft. The proposed regulation would further restrict the placement of articles subject to Part 103 in an aircraft to require that they be secured to prevent the articles from becoming a hazard by shifting. Furthermore, the proposed regulation would prevent the placement of any article carried in an area accessible to unauthorized persons. This proposed amendment would in no way affect § 103.7 which prohibits the carriage of certain articles in passenger-carrying aircraft under any circumstances whatsoever.

In the event of any incident in which there has been breakage, spillage, or contamination involving radioactive materials shipments, the carrier is currently not be again placed in service or routinely occupied until the radiation dose

to notify the shipper. In addition, any such package or materials should be segregated and loose radioactive materials should be left in a segregated area pending disposal instructions from qualified persons.

In summary, the objective of the current proposal is to clearly specify reasonable spacing and distribution of packages in an aircraft. In connection with this objective, it should be noted that the maximum amount of radioactive materials that can be carried aboard any aircraft is still confined to the amount represented by a total transport index of 50, that such articles are not permitted in the cabin of a passenger-carrying aircraft and, when so amended, that such articles must not only be suitably secured to prevent shifting but that they must be inaccessible to passengers. In view of the foregoing, the FAA believes that for packages or groups of packages that are adequately distributed throughout the aircraft, the distance between any packages or group of packages and a space that is occupied by a person or an animal may be determined from the table in § 103.23 on the basis of the transport index of the package or group of packages.

This notice of proposed rule making is issued under the authority of sections 313(a), 601, 604, and 902 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a),

Total transport index	Minimum distance in feet to area of persons or animals	Minimum separation distances in feet to nearest undeveloped film for various times of transit				
		Up to 2 hours	2-4 hours	4-8 hours	8-12 hours	Over 12 hours
None	0	0	0	0	0	0
0.1 to 1.0	1	1	2	3	4	5
1.1 to 5.0	2	3	4	6	8	11
5.1 to 10.0	3	4	6	9	11	15
10.1 to 20.0	4	5	8	12	16	22
20.1 to 30.0	5	7	10	15	20	28
30.1 to 40.0	6	8	11	17	22	33
40.1 to 50.0	7	9	12	19	24	36

(b) When an individual package of radioactive material is separated from each other such package by at least the minimum distance prescribed in the table in paragraph (a) of this section for the package having the largest transport index, the minimum distance to a space occupied by persons or animals may be determined from the table in paragraph (a) of this section solely on the basis of that package. When individual packages of radioactive materials are grouped together, the transport index of the group and the appropriate separation distance of each group may be determined in the same manner as for an individual package.

(c) In addition to the reporting requirements of § 103.28, the carrier shall also notify the shipper at the earliest practicable moment following any incident in which there has been breakage, spillage, or suspected radioactive contamination involving radioactive materials shipments. Aircraft in which radioactive materials have been spilled may not be again placed in service or routinely occupied until the radiation dose

1421, 1424, and 1472), and section 6(c) of the Department of Transportation Act (48 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 103 of the Federal Aviation regulations as follows:

1. By amending § 103.23 to read as follows:

§ 103.23 Special requirements for radioactive materials.

(a) No person may place a package labeled "radioactive yellow II" or "radioactive yellow III" in an aircraft closer to a space that is occupied by a person or by an animal or a package containing undeveloped film (if so marked), than the distance specified in the following table. The distance is measured from the package surface nearest the compartment occupied by a person or an animal to the inside limiting surface of the compartment, that is, the surface nearest the space occupied by a person or an animal. If more than one package of radioactive materials is aboard an aircraft, the minimum separation distance for each individual package may be determined either from the following table on the basis of the sum of the transport index numbers shown on the labels of each of the individual packages in the aircraft or in accordance with paragraph (b) of this section.

rate at any accessible surface is less than 0.5 millirem per hour and there is no significant removable radioactive surface contamination (see 49 CFR 173.397). In these instances, the package or materials should be segregated as far as practicable from personnel contact. If radiological advice or assistance is needed, the U.S. Atomic Energy Commission should also be notified. In case of obvious leakage, or if it appears likely that the inside container may have been damaged, care should be taken to avoid inhalation, ingestion, or contact with the radioactive materials. Any loose radioactive materials should be left in a segregated area pending disposal instructions from qualified persons.

2. By adding new paragraphs (e) and (f) to § 103.31 to read as follows:

§ 103.31 Cargo location.

(e) No person may carry articles subject to the requirements of this part in an aircraft unless they are suitably secured to prevent their becoming a hazard by shifting. For radioactive materials, such

## PROPOSED RULE MAKING

securing must prevent movement that would permit the package to be closer to a space that is occupied by a person or an animal than is permitted by § 103.23.

(f) No person may carry an article subject to the requirements of this part that is acceptable for carriage in a passenger-carrying aircraft unless it is located in the aircraft in a place that is inaccessible to persons other than crewmembers.

Issued in Washington, D.C., on March 2, 1973.

C. R. MELUGIN, Jr.,  
Acting Director,  
Flight Standards Service.

## [14 CFR Part 139]

[Docket No. 12631; Notice 73-8]

## CERTIFICATION AND OPERATIONS OF AIRPORTS SERVING CAB-CERTIFICATED AIR CARRIERS

## Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 139 of the Federal Aviation Regulations to: (1) Broaden the applicability of Part 139 to make it applicable to all airports serving air carriers certificated by the Civil Aeronautics Board; (2) provide for the issuance of airport operating certificates to the airports that would be required by this proposal to comply with Part 139; and (3) provide separately certain certification and operation rules for heliports that are required by the nature of those airports.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before April 11, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the Rules Docket, for examination by interested persons.

As now in effect, Part 139 is applicable to land airports regularly serving scheduled air carriers that hold certificates of public convenience and necessity issued by the Civil Aeronautics Board (CAB) and operate large aircraft (other than helicopters) into those airports. In order to serve these air carriers after May 20, 1973, the airports must comply with the requirements of Part 139 and be issued an FAA airport operating certificate. The preamble to Part 139, issued June 12, 1972 (37 FR 12278, June 21, 1972) stated that further rules would be developed to comply with the legislative mandate of section 612 of the Federal Aviation Act of 1958, as amended, as to

all airports serving air carriers certificated by the CAB. The amendments proposed herein are intended to accomplish that purpose.

Airports that do not regularly serve CAB-certificated scheduled air carriers operating large aircraft but do provide service to CAB-certificated air carriers include airports that serve (1) certificated supplemental air carriers; (2) certificated air carriers operating small aircraft (12,500 pounds or less maximum certificated takeoff weight); (3) certificated air carrier charter operations; (4) operators that conduct operations pursuant to a CAB approved route substitution agreement with a certificated air carrier; or (5) certificated air carriers operating helicopters. The proposal would enlarge the applicability of Part 139 to include these airports in addition to the airports regularly serving scheduled air carriers which are covered by the present rule. Thus, all airports serving certificated air carriers would be required to comply with Part 139 and to have an airport operating certificate in order to serve these air carriers after May 20, 1973. This would include provisional and refueling airports serving certificated air carriers as provided for in Parts 121 and 127.

Part 139 is presently applicable to the approximately 500 airports serving scheduled air carriers that accommodate about 99 percent of the Nation's passenger service. Substantial improvements in safety of airport operations have been and are expected to be achieved by the certification program now in progress for these airports. However, it should be noted that delays in the certification program of many airports have occurred due to delays encountered in the acquisition of some of the safety equipment required by Part 139, as well as funding problems encountered by many airports. Nevertheless, all these airports should be certificated by May 21, 1973.

It is estimated that another 400 airports may be included within the applicability of Part 139 by this proposal. The FAA recognizes that supplemental and charter air carrier operations are typically responsive to short-term or short-notice demands and that the random and unscheduled character of these operations makes accurate forecasting unrealistic. Thus, the number of airports desiring to service these operations may not be as great as anticipated. In any event, in view of the difficulties that have been encountered by some of the airports presently being certificated, the FAA believes that, for the airports that would be required to comply with Part 139 by virtue of this proposal, it is desirable to provide for the issuance of airport operating certificates to those airports that may not be able to comply with all of the requirements of Part 139 before May 21, 1973. Therefore, it is proposed that the Administrator may issue an airport operating certificate to an applicant for a heliport that serves or is expected to serve certificated air carriers, or an airport that serves or is expected to serve certificated air carriers conducting only

unscheduled operations or operations with small aircraft, if the applicant gives assurances satisfactory to the Administrator that it will comply as soon as practicable, but in any event no later than 1 year from the effective date of the certificate, with all the safety standards prescribed in subpart C, D, and E as applicable to airports, or subpart C, F, and G as applicable to heliports, that it may not meet on the date it files its application. These certificates would be effective for a period of 1 year, unless sooner surrendered, suspended, revoked, or otherwise terminated.

It should be noted that for the purpose of identifying the firefighting and rescue equipment and service requirements under § 139.49, an airport, including heliports, which serves fewer than five scheduled departures per day of large aircraft by air carriers, would fall in Index A. Thus, Index A would be applicable to airports and heliports serving only unscheduled air carrier operations (supplemental air carriers and charter operations by air carriers), or small aircraft operations (scheduled or unscheduled), or both. Where an index has been established, based on scheduled large aircraft departures, additional unscheduled or small aircraft operations would not increase or affect index selection.

In addition, it should be noted that Part 121 of the Federal Aviation Regulations requires that under certain prevailing weather conditions an alternate airport (alternate to the departure or destination airport) be designated in dispatching an air carrier flight, to be used in the event that weather conditions at the departure or destination airport are below landing minimums. With the improved weather forecasting techniques and radio navigation aids currently available, such airports are very infrequently used, and are therefore not considered as "serving" air carriers. Accordingly, Part 139 is not applicable to an airport based on the designation or use of that airport as an alternate.

Finally, it is proposed to establish in new subparts F and G to Part 139 certification and operating requirements applicable to heliports which would be required to have an airport operating certificate under this proposal. These requirements parallel similar requirements for airports in present subparts D and E, with differences appropriate to helicopter operations.

In consideration of the foregoing, it is proposed to amend Part 139 of the Federal Aviation Regulations as follows:

1. By amending the title to read "Part 139—Certification and Operations: Land Airports Serving CAB-Certificated Air Carriers."

2. By amending § 139.1 to read as follows:

§ 139.1 Applicability.

(a) This part prescribes rules governing the certification and operation of land airports serving air carriers that hold certificates of public convenience and necessity issued by the Civil Aeronautics Board and operate aircraft into those airports.

(b) As used in this part—

(1) "Air operations area" means an area of the airport used or intended to be used for landing, takeoff, or surface maneuvering of aircraft;

(2) "Air carrier user" means an air carrier holding a certificate of public convenience and necessity issued by the Civil Aeronautics Board; and

(3) "Certificated airport" means an airport that is certificated under Subpart B of this part.

3. By amending § 139.3 to read as follows:

§ 139.3 Certification: General.

(a) After May 20, 1973, no person may operate a land airport serving any CAB-certificated air carriers operating aircraft into that airport, in any State of the United States, the District of Columbia, or any territory or possession of the United States, without or in violation of an airport operating certificate for that airport, or in violation of this part or the approved airport operations manual for that airport.

4. By amending § 139.11 to read as follows:

§ 139.11 Issue of certificate.

An applicant for the issue of an airport operating certificate under this subpart is entitled to a certificate if—

(a) It serves or is expected to serve scheduled air carrier users; and

(b) The Administrator, after investigation, finds that the applicant is properly and adequately equipped and able to conduct a safe operation in accordance with this part, and approves the airport operations manual submitted with and incorporated in the application.

However, notwithstanding any other provision of this part, the Administrator may issue an airport operating certificate to an applicant for a heliport that serves or is expected to serve air carriers, or an airport that serves or is expected to serve air carriers conducting only unscheduled operations or operations with small aircraft, if the applicant together with its application for the issue of an airport operating certificate gives assurances satisfactory to the Administrator that it will comply as soon as practicable, but no later than 1 year from the effective date of the certificate, with all standards and requirements prescribed in Subparts C, D, and E of this part as applicable to airports, or Subparts C, F, and G of this part as applicable to heliports that it may not meet on the date it files its application.

An airport operating certificate issued under this provision shall be effective for a period of 1 year from the date of issue, unless sooner surrendered, suspended, revoked, or otherwise terminated under section 609 of the Federal Aviation Act of 1958 (14 U.S.C. 1429) and the applicable procedures of Part 13 of this chapter for violation of the terms of the certificate.

5. By amending paragraph (a) of § 139.13 to read as follows:

(a) Each applicant for the issue of an airport operating certificate under this subpart must submit its application on a form and in the manner prescribed by the Administrator, accompanied by and incorporating its airport operations manual prescribed by Subpart C of this part, to the appropriate FAA airport field office in whose area the applicant proposes to establish or has established its airport. Each applicant should submit its application at least 120 days before the intended date of operation.

6. By amending paragraphs (a) and (b) of § 139.19 to read as follows:

§ 139.19 Exemptions: safety equipment.

(a) Any person required to apply for an airport operating certificate under this part may petition the Administrator, under § 11.25 of Part 11 of this chapter (General Rule-Making Procedures), for an exemption from the safety equipment requirements of § 139.49, § 139.53, § 139.65, § 139.105, § 139.109, or § 139.111, on the grounds that compliance would be contrary to the public interest.

(b) Each petition filed under paragraph (a) of this section must be submitted in duplicate to the appropriate FAA airport field office in whose area the applicant proposes to establish or has established its airport.

§ 139.21 [Amended]

7. By inserting the phrase "or G" after the phrase "Subpart E" in the first sentence in § 139.21.

§ 139.33 [Amended]

8. By striking out the phrase "Subpart D of this part," in paragraph (a) (1) of § 139.33, and inserting the phrase "Subpart D or F of this part, as applicable," in place thereof.

9. By striking out the phrase "Subpart E of this part" in paragraph (a) (2) of § 139.33, and inserting the phrase "Subpart E or G of this part, as applicable," in place thereof.

10. By amending the heading of Subpart D to read as follows:

Subpart D—Certification Eligibility: Airports Other Than Heliports

11. By amending the lead-in language in § 139.41 to read as follows:

§ 139.41 Eligibility requirements: General.

To be eligible for an airport operating certificate for an airport other than a heliport, an applicant must—

12. By amending the heading of subpart E to read as follows:

Subpart E—Operations: Airport Other Than Heliports

13. By amending the lead-in language in § 139.81 to read as follows:

## PROPOSED RULE MAKING

§ 139.13 Application for certificate.

(a) Each applicant for the issue of an airport operating certificate under this subpart must submit its application on a form and in the manner prescribed by the Administrator, accompanied by and incorporating its airport operations manual prescribed by Subpart C of this part, to the appropriate FAA airport field office in whose area the applicant proposes to establish or has established its airport. Each applicant should submit its application at least 120 days before the intended date of operation.

6. By amending paragraphs (a) and (b) of § 139.19 to read as follows:

§ 139.19 Exemptions: safety equipment.

(a) Any person required to apply for an airport operating certificate under this part may petition the Administrator, under § 11.25 of Part 11 of this chapter (General Rule-Making Procedures), for an exemption from the safety equipment requirements of § 139.49, § 139.53, § 139.65, § 139.105, § 139.109, or § 139.111, on the grounds that compliance would be contrary to the public interest.

(b) Each petition filed under paragraph (a) of this section must be submitted in duplicate to the appropriate FAA airport field office in whose area the applicant proposes to establish or has established its airport.

§ 139.21 [Amended]

7. By inserting the phrase "or G" after the phrase "Subpart E" in the first sentence in § 139.21.

§ 139.33 [Amended]

8. By striking out the phrase "Subpart D of this part," in paragraph (a) (1) of § 139.33, and inserting the phrase "Subpart D or F of this part, as applicable," in place thereof.

9. By striking out the phrase "Subpart E of this part" in paragraph (a) (2) of § 139.33, and inserting the phrase "Subpart E or G of this part, as applicable," in place thereof.

10. By amending the heading of Subpart D to read as follows:

Subpart D—Certification Eligibility: Airports Other Than Heliports

11. By amending the lead-in language in § 139.41 to read as follows:

§ 139.41 Eligibility requirements: General.

To be eligible for an airport operating certificate for an airport other than a heliport, an applicant must—

12. By amending the heading of subpart E to read as follows:

Subpart E—Operations: Airport Other Than Heliports

13. By amending the lead-in language in § 139.81 to read as follows:

§ 139.81 Operation rules: General.

Each person operating an airport, other than a heliport, for which an airport operating certificate has been issued under Subpart E of this part shall—

14. By adding new Subparts F and G to read as follows:

Subpart F—Certification Eligibility: Heliports

Sec.

139.101 Eligibility requirements: General.

139.103 Marking and lighting.

139.105 Heliport firefighting and rescue equipment and service.

139.107 Traffic and wind direction indicators.

139.109 Public protection.

139.111 Airport condition assessment and reporting.

139.113 Identifying, marking, and reporting construction and other unserviceable areas.

Authority: Secs. 313(a), 609, 610(a), and 612, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1429, 1430; Public Law 91-258, 84 Stat. 234, 235; Public Law 92-174, 85 Stat. 492.

Subpart F—Certification Eligibility: Heliports

§ 139.101 Eligibility requirements: General.

To be eligible for an airport operating certificate for a heliport, an applicant must—

(a) Comply with the applicable requirements of Subparts A, B, and C of this part;

(b) Comply with each applicable section of this subpart; and

(c) Comply with the requirements of §§ 139.51, 139.55 through 139.63, and 139.67 of Subpart D of this part.

§ 139.103 Marking and lighting.

(a) The applicant for an airport operating certificate must show that any items of airport lighting are in operable condition. An airport lighting item is considered inoperable if, during periods of use, it fails to adequately illuminate its area or creates a lighting effect that misleads or confuses the user.

(b) The applicant must show that all vehicle parking, roadway, and building illumination lighting on its airport is so designed, adjusted, or shielded as not to blind or hinder air traffic control or aircraft operations.

(c) The applicant must show that any markings that it has on its airport are clearly visible and in good condition.

§ 139.105 Heliport firefighting and rescue equipment and service.

Except to the extent that the Administrator determines under § 139.19 that it would be contrary to the public interest, the applicant for an airport operating certificate must show that it has, and will have, available during helicopter operations, at least the airport firefighting and rescue equipment with the vehicle response-time capability and trained personnel prescribed in this section.

(a) The applicant must show that it has at least the required firefighting and rescue equipment assigned for Index A

## PROPOSED RULE MAKING

aircraft by § 139.49(b)(1), with the 3-minute response time prescribed by § 139.49(e)(1). A fixed installation, a wheeled vehicle (other than self-propelled), or off-airport firefighting and rescue equipment may be used if the prescribed 3-minute response time is met.

(b) The applicant must show that it has the capability to—

(1) Operate and maintain all required firefighting and rescue equipment owned by it in operable condition; and

(2) Alert by siren or equivalent alarm the firefighting and other personnel having a need to know of any existing or impending emergency that requires, or might require, their use.

(c) The applicant must show that it has available appropriately clothed and sufficiently qualified firefighting and rescue personnel to insure at least 85 percent of the required maximum agent discharge rate of firefighting equipment.

(d) The applicant must show that the firefighting and rescue personnel are familiar with the operation of the firefighting and rescue equipment and understand the basic principles of firefighting and rescue techniques.

#### § 139.107 Traffic and wind direction indicators.

Except to the extent that the Administrator determines under § 139.19 that it would be contrary to the public interest, the applicant for an airport operating certificate must show that it has on its airport a wind direction indicator, installed to provide appropriate wind direction information, and lighted during the conduct of night operations.

#### § 139.109 Public protection.

Except to the extent that the Administrator determines under § 139.19 that it would be contrary to the public interest, the applicant for an airport operating certificate must show that it has on its airport appropriate safeguards against inadvertent entry of persons into any airport operations area.

#### § 139.111 Airport condition assessment and reporting.

(a) The applicant for an airport operating certificate must show that it has appropriate procedures for identifying, assessing, and disseminating information to air carrier users of its airport, by Notices to Airmen or other means acceptable to the Administrator, concerning conditions on and in the vicinity of its airport that affect, or may affect, the safe operation of aircraft.

(b) The procedures prescribed by paragraph (a) of this section must cover the following conditions:

(1) Construction or maintenance work on pavement areas.

(2) The presence and depth of snow on pavement areas.

(3) The presence of parked aircraft or other objects on, or next to, runways, taxiways, or helicopter landing surface.

(4) The failure or irregular operation of all or part of the airport lighting system, including the approach, threshold, and obstruction lights operated by the operator of the airport.

(5) The presence of a large number of birds.

#### § 139.113 Identifying, marking, and reporting construction and other unserviceable areas.

(a) The applicant for an airport operating certificate must show that it has appropriate procedures for the following items when on or adjacent to any airport operations area:

(1) Conspicuously identifying all construction areas and other unserviceable pavement areas by marking and lighting them.

(2) Identifying and marking the location of all utilities in construction areas that, if interrupted, could cause failure of a facility or navaid.

(b) Identifying and marking any areas adjacent to nav aids that, if traversed, could cause emission of false signals or failure of the nav aids.

#### Subpart G—Operations: Heliports

Sec. 139.121 Operational rules: General.  
139.123 Pavement areas.  
139.125 Snow removal and positioning.  
139.127 Airport fire fighting and rescue equipment and service.

AUTHORITY: Secs. 313(a) 609, 610(a), and 612, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1429, 1430; Public Law 91-258, 84 Stat. 234, 235; Public Law 92-174, 85 Stat. 492.

#### Subpart G—Operations: Heliports

##### § 139.121 Operations rules: general.

Each person operating an airport for which an airport operating certificate has been issued under Subpart B of this part shall—

(a) Operate, maintain, and provide facilities, equipment, systems, and procedures at least equal in condition, quality, and quantity to the standards currently required for the issue of the airport operating certificate for that airport;

(b) Have sufficient personnel available, and require that personnel comply with its approved airport operations manual in the performance of their duties;

(c) Comply with the additional rules of this subpart; and

(d) Comply with the requirements of §§ 139.87, 139.91, and 139.93 of Subpart E of this part.

##### § 139.123 Pavement areas.

The operator of each certificated airport shall comply with the following requirements:

(a) It shall promptly repair each crack or hole in the landing area that exceeds 3 inches across or 3 inches deep.

(b) It shall promptly, and as completely as practicable, remove from the landing areas, snow, ice, slush, standing water, mud, dust, sand, loose aggregate, or other contaminants as required by operational considerations.

(c) Where sand is used on ice on the pavement areas, it shall use only sand, free of corrosive salts, that adheres to the snow or ice sufficiently to minimize aircraft engine ingestion of the sand.

(d) It shall promptly prevent ponding on any pavement area on the airport caused by inadequate drainage.

(e) It shall promptly prevent ponding on any pavement area on the airport that has a depth or other dimension that would obscure markings.

##### § 139.125 Snow removal and positioning.

The operator of each certificated airport shall move any drifted or piled snow off the usable landing pad (except as otherwise authorized in its approved airport operations manual). When unable to comply with this requirement, the operator shall promptly notify the users.

##### § 139.127 Airport fire fighting and rescue equipment and service.

The operator of each certificated airport shall at all times comply with the following:

(a) Except as provided in paragraph (b) of this section, it shall provide the required firefighting and rescue equipment and service prescribed in § 139.105 during all periods of scheduled aircraft operations.

(b) When any required firefighting or rescue vehicle becomes inoperable, it shall provide appropriate replacement equipment within 8 hours thereafter. However, if appropriate replacement equipment is not available within that period, it shall promptly issue a Notice to Airmen to that effect. When the equipment is inoperable and the notice has been issued, and the service level is not restored within 10 calendar days, air carrier operations on the airport must be discontinued.

These amendments are proposed under the authority of sections 313(a), 609, 610(a), and 612 of the Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1429, 1430; Public Law 91-258, 84 Stat. 234, 235; Public Law 92-174, 85 Stat. 492.

Issued in Washington, D.C., on March 7, 1973.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

CLYDE W. PACE, JR.,  
Director, Airports Service.

## DEPARTMENT OF THE TREASURY

## Bureau of Customs

## [ 19 CFR Part 1 ]

## CUSTOMS FIELD ORGANIZATION

## Proposed Changes in Customs Region I

FEBRUARY 28, 1973.

A notice was published in the FEDERAL REGISTER on February 1, 1972 (37 FR 2443), of proposed changes in Customs Region I.

In addition to other changes, the notice proposed to designate Island Pond, Vt., and Newport, Vt., as customs stations under the supervision of the port of St. Albans, Vt. It has been determined that present needs do not warrant the designation of Island Pond as a

customs station, and that the station of Newport, Vt., would operate more efficiently under the supervision of the port of Derby Line, Vt.

Therefore, the notice published in the FEDERAL REGISTER dated February 1, 1972 (37 FR 2443), is superseded by this notice of proposed rule making.

By virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 8 (37 FR 18572), it is proposed to make the following changes in the organization of Region I:

1. To designate Norton, Vt., as a port of entry in the St. Albans, Vt., customs district with boundaries coextensive with the corporate limits of the city of Norton, Vt., and revoke its designation as a customs station under the supervision of the Port of Island Pond, Vt.

2. To designate Newport, Vt., as a customs station under the supervision of the Port of Derby Line, Vt., and revoke its designation as a customs port in the St. Albans, Vt., customs district.

3. To revoke the designation of Island Pond, Vt., as a customs port in the St. Albans, Vt., customs district.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Washington, D.C. 20229. To insure consideration of such communications, they must be received in the Bureau not later than May 11, 1973.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)), at the Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] EDWARD L. MORGAN,  
Assistant Secretary of the Treasury.

## VETERANS ADMINISTRATION

## [ 38 CFR Part 1 ]

## RELEASE OF INFORMATION PROCEDURES

## Notice of Proposed Regulatory Development

The Veterans' Administration is considering amending § 1.556, Title 38 of the Code of Federal Regulations to further implement the provisions of 5 U.S.C. 552 concerning the right of the public, subject to certain safeguards, to obtain specified categories of information under Government control upon request. The proposed amendments will insure the availability of data regarding the disposition of such requests, require that requesters denied such information be advised of the basis for the denial, and require coordination of denials at the Central Office level with the Director, Information Service, as well as with the General Counsel. These procedures are

## PROPOSED RULE MAKING

proposed as the result of an exchange of communications between the Chairman of the Foreign Operations and Government Information Subcommittee of the House Committee on Government Operations and the Administrator of Veterans' Affairs regarding several recommendations of the subcommittee for further implementation of the cited law.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (232H), Veterans' Administration Central Office, 810 Vermont Avenue NW., Washington, DC 20420. All relevant material received before April 11, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans' Assistance Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is also given that it is proposed to make any amendments that are adopted effective on the date of final approval.

#### § 1.556 Requests for other identifiable records.

(a) Each department, staff office, and field station head will designate an employee(s) who will be responsible for initial action on (granting or denying) requests to inspect or obtain information from or copies of records under their jurisdiction and within the purview of § 1.553. This responsibility includes maintaining a uniform listing of such requests. Data logged will consist of: Name and address of requester; date of receipt of request; brief description of request; action taken on request—granted or denied; citation of the specific section when request is denied; and date of reply to the requester. Any legal question arising in a field station concerning the release of information will be referred to the appropriate Chief Attorney for disposition as contemplated by § 13.401 of this chapter. In Central Office such legal questions will be referred to the General Counsel. Any administrative question will be referred through administrative channels to the appropriate department or staff office head. All denials or proposed denials at the Central Office level will be coordinated with the Director, Information Service, as well as the General Counsel.

(b) Upon denial of a request, the responsible Veterans Administration official or designated employee will inform the requester in writing of the denial, cite the specific exemption in § 1.554 upon which the denial is based, and advise him that he may appeal the denial. The requester will also be furnished the title and address of the Veterans Administration

official to whom the appeal should be addressed. (See § 1.557.)

Approved: March 6, 1973.

By direction of the Administrator.

## (YORKTOWN, VA.)

## Proposed Table of Assignments

1. The Commission has before it (a) a petition for rule making filed by William H. Eacho, Jr., and William Swartz (E&S) seeking the assignment of Class B Channel 231 to Yorktown, Va., (b) an opposition to the petition filed by Hampton Roads Broadcasting Corp. (Roads), licensee of Stations WGH(AM) and WGH-FM, Newport News, Va., (c) a reply to opposition to petition for rule making filed by E&S and (d) two supplements to their petition filed by E&S.

2. Yorktown, a location famous in American history, is not listed in the census as an incorporated or unincorporated community. The principal dispute between the parties centers on whether Yorktown has the status of a community, and if so, whether it is of such size as to warrant the proposed Class B assignment. At present no commercial stations are licensed to Yorktown but a noncommercial educational FM station is so licensed.

3. According to E&S, Yorktown has a population of 14,593 persons (the sum of two census districts, Nelson and Grafton) and notwithstanding the lack of exact boundaries<sup>1</sup> is said to be a community.<sup>2</sup> E&S have provided information to support the view that local residents consider Yorktown a community and have created various organizations reflecting this conception. It has a post office which in turn has a branch office. Roads asserts that Yorktown is not an incorporated community and lacking boundaries, its population cannot be ascertained with any accuracy. It urges us to perpetuate what it says is our continuing unwillingness to assign channels to unincorporated communities. In Roads' opinion, Yorktown has not been shown to be a viable community to which to assign the channel—citing FM Channel Assignment at Batavia, New York, 16 R.R. 2d 1654 (1969).

4. While most of our assignments are to incorporated communities, we have not refused to make assignments to unincorporated communities where warranted. See, e.g., assignments of Bethesda, Md., and Cathedral City, Calif. The

<sup>1</sup>No question has been raised about the ability to provide a city grade signal to the community regardless of its exact size.

<sup>2</sup>The census districts of Nelson and Grafton about the city of Newport News.

use of the word community is no accident for the key ingredients is that there be a community of interest associated with an identifiable population grouping. A mere geographical location is not enough, there must be a population having needs that the station can address—see Sierra-Pacific Radio Corp. (KOSO), 7 FCC 2d 61 (1967). While status as a community is harder to establish in cases where municipal corporation boundaries are not present, it is not an impossible burden. The principal test is whether the residents function as and conceive of themselves as residents of a community, around which their interests coalesce. In this case we believe that the test has been met. The Batavia case mentioned by Roads is not apt for there the "community" (West Batavia) was at best minute (population 25) and was proposed when the proponent was rebuffed in seeking an assignment for Batavia. On the basis of the information before us we view Yorktown as a community.

5. Roads questions use of a Class B channel, considering it unsuitable even if, as the parties apparently agree, a Class A channel is unavailable. E&S stress Yorktown's needs and those of the surrounding area for a first local service. Although assignments do not always match the theory of assigning Class A channels to smaller communities and Class B or C channels to larger ones, this is not a matter of happenstance. Rather, these assignments have reflected our consideration of the entire situation before us in each case. Here, we are unable to yet determine with any precision the population of Yorktown. While in the absence of a Class A channel to use as a substitute we are willing to proceed with consideration of a Class B channel, we cannot make a final judgment absent a further showing of the size of Yorktown. We need to know the approximate boundaries as well as the

population residing in this area.<sup>4</sup> In addition, we need to know whether establishment of a station on the proposed channel would lead to providing a first or second FM service. For this purpose the procedure outlined in Roanoke Rapids and Goldsboro, N.C., 9 FCC 2d 672 (1967), should be followed. Only with this additional information can we be in a position to determine whether the proposed use of a Class B channel has merit. E&S should provide this information in its comments.

6. E&S have indicated that the only significant precautionary effect would be co-channel and would occur only in the Cape Hatteras area. They state that substitute channels would be available there, and we note that much of the Cape is a National Seashore preserve rather than being densely populated even in the height of the tourist season. In sum, we consider this proposal worth pursuing and seek comments on it, in particular dealing with the questions raised in the preceding paragraph.

7. *Showings required.* Comments are invited upon the proposal discussed above. As indicated, the Commission has questions concerning the proposal, and the proponent of the proposed assignment will be expected to answer them. In addition, it should reaffirm its intention to apply for the channel if assigned, and, if authorized, to promptly build the station. Failure to make these showings may result in denial of the proposal.

8. *Cut-off procedures.* The following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced, in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal

<sup>4</sup> This should not be interpreted as indicating that if Yorktown is not a certain size the proposal must be denied. Rather, it reflects our need, as in all cases, to make a judgment based on a full rather than partial knowledge of the pertinent factual situation.

In this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

9. In view of the foregoing, subject to the conditions and reservations set forth hereinabove in certain respects, and pursuant to authority found in sections 4(i), 303 (g) and (r) of the Communications Act of 1934, as amended, it is proposed to amend § 73.202(b) of the Commission's rules, the FM Table of Assignments, as follows:

City	Channel No.	
	Present	Proposed
Yorktown, Va.		231

10. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before April 16, 1973, and reply comments on or before April 26, 1973. All submissions by parties to this proceeding, or persons acting in behalf of such parties, must be made in written comments, reply comments or other appropriate pleadings.

11. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's public reference room at its headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: March 2, 1973.

Released: March 7, 1973.

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF DEFENSE

#### Department of the Navy CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

##### Notice of Meetings

Notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee has scheduled closed meetings on March 15 and 16, 1973, at the Program Evaluation Center, Room 4D710, the Pentagon, Washington, D.C. The meetings will commence at 0915 daily and are scheduled to terminate at 1700. Items to be discussed will include: Navy strategic policy and plans; future Navy force levels, and recent developments in the Soviet Navy.

Dated: March 6, 1973.

### DEPARTMENT OF THE INTERIOR

#### Bureau of Land Management [Colorado 17528]

##### COLORADO

#### Notice of Proposed Withdrawal and Reservation of Lands

MARCH 8, 1973.

The U.S. Atomic Energy Commission has filed an application, Serial No. Colorado 17528, for the withdrawal of the public lands and the reserved minerals in the patented lands as described below from all forms of disposition, and from the leasing under the mineral leasing laws.

The applicant desires to use the lands as a site for phase one of its Project Rio Blanco Phase I experiment in connection with the detonation of nuclear explosives to stimulate natural gas production.

Until April 11, 1973; all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the Director, Bureau of Land Management, Washington, D.C. 20240.

The Director, Bureau of Land Management, will prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary of the Interior on the application will be published in the FEDERAL REGISTER.

If the circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced. The application is for the withdrawal, subject to valid existing rights, of:

A. The following described public lands from all forms of disposition under the public land laws, including the U.S. mining laws, and from leasing under the mineral leasing laws:

##### SIXTH PRINCIPAL MERIDIAN

T. 3 S., R. 98 W.,  
Sec. 10, SE $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 11, SW $\frac{1}{4}$ SW $\frac{1}{4}$ ;  
Sec. 14, NW $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
Sec. 15, E $\frac{1}{2}$ NE $\frac{1}{4}$ .

The areas described aggregate 200 acres.

B. All minerals reserved to the United States in the following described patented lands from disposition under the mining laws, and from leasing under the mineral leasing laws:

##### SIXTH PRINCIPAL MERIDIAN

T. 3 S., R. 98 W.,  
Sec. 11, SE $\frac{1}{4}$ SW $\frac{1}{4}$ ;  
Sec. 14, E $\frac{1}{2}$ NW $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$ .

The areas described aggregate 160 acres.

The total of the areas described aggregates 360 acres in Rio Blanco County.

GEORGE L. TURCOTT,  
Acting Director.

[FR Doc. 73-4803 Filed 3-9-73; 8:45 am]

#### Office of Hearings and Appeals [Docket No. M 73-28]

##### DIXON RUN COAL CO.

#### Petition for Modification of Application of Mandatory Safety Standard

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), notice is given that Dixon Run Coal Co. has filed a petition for modification of section 307(a) of the Federal Coal Mine Health and Safety Act and 30 CFR 75.701-4 of the Secretary's implementing regulations in the operation of Dixon Run Coal Co.'s Dixon Run No. 3 mine. The petition for modification was filed with the Office of Hearings and Appeals on January 30, 1973.

Section 307(a) of the Federal Coal Mine Health and Safety Act provides as follows:

All metallic sheaths, armors, and conduits enclosing power conductors shall be electrically continuous throughout and shall be grounded by methods approved by an authorized representative of the Secretary.

Metallic frames, casings, and other enclosures of electric equipment that can become "alive" through failure of insulation or by contact with energized parts shall be grounded by methods approved by an authorized representative of the Secretary. Methods other than grounding which provide no less effective protection may be permitted by the Secretary or his authorized representative.

This statutory standard has been supplemented by 30 CFR 75.701-4 of the regulations which provides in part:

Where grounding wires are used to ground metallic sheaths, armors, conduits, frames, casings, and other metallic enclosures, such grounding wires will be approved if: (a) The cross sectional area (size) of the grounding wire is at least one-half the cross sectional area (size) of the power conductor where the power conductor used is No. 6 A.W.G. or larger.

Petitioner requests approval of a grounding system which uses a number 4 A.W.G. grounding wire approximately one-quarter the cross sectional area of the power conductor. It is contended that the alternate method for which approval is requested will at all times guarantee no less than the same measure of protection afforded the miners at the subject mine by the mandatory standard.

Petitioner sets out several arguments in support of its application for modification. In addition, petitioner has submitted a detailed sketch of the proposed electrical system.

Parties interested in this petition should, on or before April 11, 1973, file their answers or comments with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

Dated: March 2, 1973.

JAMES M. DAY,  
Director,  
Office of Hearings and Appeals.

#### Office of the Secretary NEWLANDS RECLAMATION PROJECT, NEV.

#### Operating Criteria and Procedures; Truckee and Carson Rivers

The following Judgment and Order and accompanying Operating Criteria and Procedures for Coordinated Operation and Control of the Truckee and Carson Rivers for Service to Newlands Project (Nevada), are published pursuant to order of the U.S. district court in the case

## NOTICES

entitled "Pyramid Lake Paiute Tribe of Indians v. Rogers C. B. Morton, Secretary of the Interior," U.S.D.C., D.C., Civil Action No. 2506-70. The explanatory Memorandum which was issued with the Judgment and Order is also published.

Dated: March 2, 1973.

JOHN C. WHITAKER,  
Acting Secretary of the Interior,  
IN THE UNITED STATES DISTRICT COURT  
FOR THE DISTRICT OF COLUMBIA  
[Civil Action No. 2506-70]

PYRAMID LAKE PAIUTE TRIBE OF INDIANS,  
PLAINTIFF  
v.  
ROGERS C. B. MORTON, SECRETARY OF THE IN-  
TERIOR, DEFENDANT

## MEMORANDUM

During the pendency of this litigation, the Secretary placed into effect operating criteria to govern the water year ending October 31, 1973, it being understood that these criteria would be subject to possible revision and change based on the determinations of the court. The court has today entered a judgment and order approving different operating criteria which the court finds more consistent with the Secretary's legal and fiduciary obligations to the tribe. The parties are in accord with respect to many aspects of the approved operating criteria, but the court has had to resolve controversies over other substantial portions.

This judgment and order is entered midway in the water year. It will not be practical to implement fully all of its provisions by October 31, 1973. Accordingly, the court has been obliged to recognize the need for certain interim adjustments. It has directed that the approved operating criteria shall be placed in full force and effect commencing with the next water year, November 1, 1973.

For the current water year the approved operating criteria will be generally applicable and the Secretary must take immediate steps to put them into effect. Since some aspects will require time to implement, the court is authorizing the Secretary to divert more water to aid transition.

In selecting 350,000 acre-feet for diversion during the present water year, rather than the 288,120 acre-feet specified for the following water year, the court has acceded to the Secretary's representations that this amount will enable a more gradual transition and in view of current weather conditions will not substantially deprive the tribe of water for Pyramid Lake. The tribe has not accepted the figure of 350,000 acre-feet, but did agree that more diversion than 288,120 acre-feet should be permitted for the current year. The judgment and order also makes certain additional changes in the approved criteria for the immediate period ahead in recognition of this larger diversion.

The court's role in these proceedings has focused on the operating criteria in effect since November 1, 1971. The proof showed, however, that the Secretary has followed the practice of more or less renewing similar or identical criteria from year-to-year. As these proceedings have gone forward, the Secretary has indicated an increasing willingness to take actions in aid of Pyramid Lake. While some adjustments in operating criteria may be necessary after October 31, 1974, to accommodate changing conditions, there is no reason to believe from the record before the court that the general standards established by the court's judgment and order should otherwise change. The Secretary's fiduciary obligations will not alter and his continuing duty actively to supervise and

upgrade the Newlands project and to provide maximum water for Pyramid Lake will not change. It is to be hoped that new litigation can be avoided by the Secretary's assiduous attention to his responsibilities in this regard.

GERHARD A. GESELL,  
U.S. District Judge.

PYRAMID LAKE PAIUTE TRIBE OF INDIANS,  
PLAINTIFF  
v.  
ROGERS C. B. MORTON, SECRETARY OF THE IN-  
TERIOR, DEFENDANT

## JUDGMENT AND ORDERS

The Court having filed its memorandum opinion of November 8, 1972, after giving full opportunity to the parties to fashion appropriate relief and having considered the proposed relief of each party, it is hereby

Ordered, Adjudged and Decreed That:

(1) The Secretary's operating criteria setting forth procedures for coordinating operation and control of the Truckee and Carson Rivers to provide service to the Newlands Project now in effect are arbitrary and an abuse of his discretion.

(2) The Court declares that operating criteria in the form attached to this Judgment and Order are necessary and appropriate to fulfill the Secretary's fiduciary and legal obligations to the tribe.

(3) The Secretary shall immediately publish this Judgment and Order, and publish and implement and enforce the attached operating criteria for the water year commencing November 1, 1973, and for the current water year ending October 31, 1973: *Provided, however*, For the current water year only, he may divert up to 350,000 acre-feet for the 12 months ending October 31, 1973, and he shall disregard the detailed provisions of sections A and B and in lieu thereof comply with the following requirements:

(A) 50,000 acre-feet of water presently stored in Stampede Reservoir will be credited to the Truckee-Carson Irrigation District to be used by it in the event the water stored in Lahontan Reservoir shall fall below 80,000 acre-feet and it appears that it is necessary to draw upon this water to meet the needs within the allowable maximum total diversion of the Truckee-Carson Irrigation District for this water year.

(2) Subject to the provisions of section A(1), diversions from the Truckee River for the Truckee-Carson Irrigation District shall be limited to the needs of the Truckee division.

(3) Maximum storage of water in Stampede Reservoir shall be required. Releases shall be limited insofar as possible consistent with existing decrees, flood control requirements and for the purposes of assisting fishery experiments as approved by the Secretary after consultation with the tribe and the Bureau of Sport Fisheries and Wildlife.

(4) Nothing in this Judgment and Order shall constitute an interpretation or modification of either the Alpine or Orr Water Ditch decrees, nor shall it be deemed to affect the rights of any person under either of such decrees, so long as they remain in effect.

(5) Nothing in this Judgment and Order shall be deemed to prevent any change in the operating criteria that may be agreed between the parties, in writing, or ordered by the Court, after notice.

GERHARD A. GESELL,  
U.S. District Judge.

v.  
ROGERS C. B. MORTON, SECRETARY OF THE IN-  
TERIOR, DEFENDANT

OPERATING CRITERIA AND PROCEDURES FOR CO-  
ORDINATED OPERATION AND CONTROL OF THE  
TRUCKEE AND CARSON RIVERS FOR SERVICE TO  
NEWLANDS PROJECT

The water supply diversions to the Truckee-Carson Irrigation District from both the Truckee and Carson Rivers shall be limited to the amount needed for agricultural purposes, not exceeding 288,120 acre-feet, if available, for the 12 months ending October 31, 1974. The water supply diversions shall be measured at the gaging station below Lahontan Dam and at diversion points along the Truckee Canal.

All use of water for power generation shall be incidental to either agricultural use or precautionary drawdown or spill.

In satisfying the diversion for agricultural purposes, maximum use will be made of Carson River water and diversions through the Truckee Canal will be minimized.

Stampede Reservoir shall be operated by the United States to provide flood control, fish and wildlife, and recreation benefits and to store water for possible agricultural use by the Truckee-Carson Irrigation District. The operation of Stampede Reservoir will be coordinated with the operation of Lake Tahoe, Prosser Creek Reservoir, and Boca Reservoir to avoid infringing upon the Floristan Rates or water rights established by existing decrees and agreements.

In all of the operations, Truckee Canal will be operated to the maximum extent practical with the objective of maintaining minimum terminal flow to Lahontan Reservoir or Carson River during all periods except when criteria herein specifically permits such deliveries. In order to minimize the rates of fluctuation in the Truckee River below Derby Dam the change of flow in Truckee Canal within any 24-hour period shall not exceed 50 cubic feet per second or 20 percent of the flow in the Truckee River below Derby, whichever is greater.

During periods of spill or precautionary drawdown of Lahontan Reservoir, the District will be charged only with the predetermined schedule of irrigation releases to be passed at the gaging station below Lahontan Reservoir plus measured diversions from the Truckee Canal and Rock Dam Ditch.

The operation of Stampede Reservoir, Derby Diversion Dam, Truckee Canal, and Lahontan Reservoir will be conducted in accordance with the following criteria in order to minimize diversions from the Truckee River through the Truckee Canal.

SECTION A—Truckee Diversion Criteria. Subject to conditions specified in section B (Storage Credit at Stampede), the diversions of water from the Truckee River into and through the Truckee Canal will be governed by the following criteria:

(1) If available, sufficient water will be diverted into Truckee Canal to meet direct agricultural requirements along the Truckee Canal.

(2) Diversions through the Truckee Canal into Lahontan Reservoir will be made in accordance with the following tabulation:

Operating month	If accumulated precipitation from Oct. 1 to date at Tahoe City, Calif.	Continue truckee canal diversion to Lahontan Reservoir if storage is less than upper limit			
		Lower limit <sup>1</sup>		Upper limit

October 1.....					

<sup>1</sup> Truckee canal diversion to Lahontan Reservoir should be started only when storage recedes below lower limit.

Sec. B—Storage credit at Stampede. As a means of minimizing the diversions of Truckee River water for use on the Carson Division of the Truckee-Carson Irrigation District or for storage in Lahontan Reservoir and at the same time insuring that the district shall receive exactly the same total amount of water for its beneficial use as otherwise, the following modifications shall be applied to the criteria in section A (Truckee Diversion Criteria):

(1) The storage levels in Lahontan Reservoir specified as limits for starting and stopping diversions of water for storage in Lahontan or use on the Carson Division shall be converted to acre-feet and applied to the sum of water in storage at Lahontan Reservoir and water in Stampede Reservoir credited to the Truckee-Carson Irrigation District using the most up-to-date area-capacity curve for each reservoir.

(2) The combined storage facilities on the upper Truckee River will be operated in a manner consistent with the applicable decrees and so as to maintain the Floristan Rates with the objective of maximizing the accumulation of storage in Stampede Reservoir.

(3) Whenever there is an adequate amount of uncommitted water in Stampede Reservoir the Truckee-Carson Irrigation District shall forego the diversion of water into the Truckee Canal for storage in Lahontan Reservoir or for use on the Carson Division and shall accept credit in Stampede Reservoir for the amount of water it otherwise would have diverted. For the purposes of this subsection, an adequate amount of uncommitted water (consisting of not less than 50,000 acre-feet) will be deemed to have accumulated in Stampede Reservoir no later than February 1, 1974.

(4) The sum of the amount of water stored in Lahontan Reservoir plus the amount of water stored in Stampede Reservoir and credited to the Truckee-Carson Irrigation District shall not be allowed to exceed the storage capacity of Lahontan Reservoir below elevation 4,163.67 feet above mean sea level (317,300 acre-feet), and this limit shall be preserved, if necessary, by the reduction of credit in Stampede Reservoir. When the amount of water credited to the Truckee-Carson Irrigation District is so reduced, the amount of that reduction shall be credited for the purpose of maintaining the minimum rates of flow below Derby Dam provided in

section B(7) of these operating criteria and procedures.

(5) Whenever the water surface elevation of Lahontan Reservoir is at or below elevation 4,129.28 feet (80,000 acre-feet) above mean sea level during the irrigation season, water will be released from Stampede Reservoir to be diverted into and through the Truckee Canal for agricultural use by the Truckee-Carson Irrigation District in either or both the Truckee and Carson Divisions. The total amount of the release shall be limited to the lesser of the amount credited to the Truckee-Carson Irrigation District or the amount needed to supplement the 80,000 acre-feet of water in Lahontan Reservoir to meet the remaining seasonal agricultural requirements of this Truckee-Carson Irrigation District.

(6) From February 1, 1974, the District will be credited with an initial 50,000 acre-feet of water in Stampede. In addition to this amount, the District will be credited with the accumulated storage in excess of 5,915 feet above mean sea level (127,600 acre-feet) in accordance with B(3) above.

(7) Insofar as possible consistent with existing decrees and with maintaining the Floristan Rates and with Operating Criteria and Procedures sections B(1) through B(6), Stampede Reservoir (as well as the other storage facilities on the upper Truckee River) shall be operated with the objective of maintaining the following minimum rates of flow for fish, wildlife, and recreation purposes in the Truckee River below Derby Dam measured at the Nixon gauge:

	Cubic feet per second
Mar. 1 to May 15.....	600
May 16 to Sept. 15.....	300
Sept. 16 to Feb. 28.....	150

(8) At the conclusion of the water year, October 31, 1973, the District shall retain as minimum carryover credit in Stampede Reservoir for the 1974 water year the quantity of Truckee River water that it would have been able to divert to Lahontan Reservoir in the absence of its storage credit at Stampede. In addition, the Secretary of the Interior, in consultation with the Pyramid Lake Paiute Tribe of Indians and the Bureau of Sport Fisheries and Wildlife with respect to the requirements of the Pyramid Lake fishery, will determine: (1) The por-

tion of the remaining storage in Stampede Lake allocated for releases to Pyramid Lake, and (2) the portion of the remaining storage in Stampede Reservoir to be allocated to the District as additional carryover storage credit for the 1974 water year.

(9) Nothing in sections B(1) through B(8) of these Operating Criteria and Procedures shall in any way infringe on or interfere with the flood control function of Stampede Reservoir.

Sec. C. As a means of insuring that the amount of water diverted is limited to that prescribed for beneficial agricultural use, the Truckee-Carson Irrigation District shall:

(1) Deliver water only to lands for which the District has in advance established to the satisfaction of the Secretary or his designee that a current valid water right exists.

(2) Establish a single water operations center which will coordinate all orders for delivery of water to individual turnouts and which then will dispatch flows in the distribution systems so as to meet the water orders with minimum spill from the distribution system.

(3) Permit only authorized District employees to open and close individual turnouts and operate the distribution system facilities.

(4) Establish and operate sufficient stations for the measurement of all surface waters flowing out of the Truckee, North Carson, and South Carson Divisions.

(5) Initiate immediately a program for improving the measurement of the amounts of water delivered to individual turnouts. The program shall include the installation of measuring devices on at least 10 percent of the total turnouts in 1973; the program shall concentrate first on the combinations of large users and currently poor measurements; and the installed devices must be approved by the U.S. Geological Survey and the Bureau of Reclamation.

(6) Submit to the Project Office of the Bureau of Reclamation a monthly report by the 15th of the following month for each of the three divisions showing the total water delivery in acre-feet and the maximum, minimum, and mean daily outflow in cubic feet per second. Reports showing the amount of water in acre-feet delivered to each farm each month during the water year shall be made at least twice during the calendar year. These reports shall be circulated to the Tribe and the members of the Truckee-Carson Operating Criteria and Procedures Committee.

(7) By June 30, 1973, establish a system, to become effective November 1, 1973, for charging water users for the quantity of water delivered to their turnouts. The system shall be designed: (a) To provide a reasonable financial incentive for economical and efficient use of water; and (b) to produce revenue against the District's operation and maintenance expenses and to assist the discharge of its debt to the United States.

Sec. D. (1) Article 32 of the December 18, 1926, contract between the United States and the District will be invoked by the Secretary for substantial violations of these Operating Criteria and Procedures and the Secretary reserves all other rights and options to enforce these criteria.

(2) If the Secretary determines that waste has occurred through negligence or inattention, after written notice the amount of such waste shall be deducted from the District's allowable maximum total diversion.

(3) The District shall not deliver water to users who do not comply with all of the terms and provisions of these Operating Criteria and Procedures. Such deliveries shall not resume without the prior approval of the Secretary or his designee.

(4) The Secretary shall not approve any applications for transfers of water rights

within the Newlands Project pursuant to 43 U.S.C. 389 unless he finds that the District is in compliance with all of the terms and provisions of these Operating Criteria and Procedures and that the applicants for such transfers are in compliance with these Operating Criteria and Procedures and with the applicable decrees. Transfers of water rights shall be restricted to the extent that there shall be no enlarged consumptive use of water within the lands of the Newlands Project.

(5) All of the water delivery operations of the Truckee-Carson Irrigation District shall be monitored closely by the Bureau of Reclamation. Any and all violations of the terms and provisions of these Operating Criteria and Procedures shall be reported immediately by the District to the Project Office of the Bureau of Reclamation.

**DEPARTMENT OF AGRICULTURE  
Agricultural Marketing Service  
SHIPPERS ADVISORY COMMITTEE  
Notice of Public Meeting**

Pursuant to the provisions of section 10(a)(2) of Public Law 92-463, notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of committee will meet in the auditorium of South Massachusetts Avenue, Lakeland, FL, at 10:30 a.m., local time, on March 20, 1973.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the committee includes the receipt and review of market supply and demand information incidental to consideration of the need for regulation of shipments of any grade or size of the named fruits, including export shipments, and the size, capacity, weight, dimensions, or pack of the containers used in export shipments other than to Canada or Mexico.

Dated: March 7, 1973.

JOHN C. BLUM,  
Deputy Administrator  
Regulatory Programs.

**ECONOMIC VIABILITY ANALYSIS (EVA)  
Revised Notice of Announcement of  
Publication**

Revised notice is hereby given that the Maritime Subsidy Board/Maritime Administration announced on March 7, 1973, publication, prior to final adoption, of an Economic Viability Analysis (EVA) pursuant to the terms of the stipulation agreement in "Environmental Defense Fund, Inc. et al. v. Peter G. Peterson, et al.," Civil Action No. 2164-72 in the U.S. District Court for the District of Columbia.

Copies of the EVA may be obtained by interested persons from the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce, 14th and E Streets NW., Washington, D.C. 20235. Comments on the EVA by any interested persons must be received by the Secretary, Maritime Subsidy Board by close of business on March 22, 1973.

Dated: March 7, 1973.

By order of the Maritime Subsidy Board, Maritime Administration.

AARON SILVERMAN,  
Assistant Secretary.

**Office of the Secretary  
CHILDREN'S SLEEPWEAR  
SIZES 7 THROUGH 14**

**Notice of Proposed Flammability Standard**

On June 15, 1972, there was published in the FEDERAL REGISTER (37 FR 11896) a notice of finding that a new or amended flammability standard or other regulation, including labeling, may be needed for sleepwear sizes 7 through 14, normally worn by children of ages 6 through 12, and for fabrics or related materials intended or promoted for use in such sleepwear. The finding informed the public that such standard or other regulation may be needed to protect the public against unreasonable risk of the occurrence of fire leading to death, or personal injury, or significant property damage. The notice also advises of the institution of proceedings for the development of a new or amended flammability standard or other regulation for children's sleepwear sizes 7 through 14.

After review and analysis of the comments received, and after review of information including that previously cited in the June 15, 1972, FEDERAL REGISTER (37 FR 11896) and more recent additions thereto, it is hereby found that a flammability standard for sleepwear sizes 7 through 14, normally worn by children ages 6 through 12, is needed to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage.

**Proposed standard.** It is preliminarily found that the proposed flammability standard (DOC PFF 5-73) as set out in full at the end hereof:

(a) Is needed for children's sleepwear sizes 7 through 14 to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage;

(b) Is reasonable, technologically practicable, and appropriate, and is stated in objective terms; and

(c) Is limited to children's sleepwear sizes 7 through 14, and fabrics or related materials which are intended or promoted for use in such children's sleepwear, and which have been determined to present such unreasonable risk.

**Basis for proposed flammability standard.** The Standard for the Flammability of Children's Sleepwear, DOC PFF 3-71 (36 FR 14062) provides for coverage of sleepwear sizes 0 through 6X normally worn by young children 5 years and under. However, review and analysis of the accident data available at the National Bureau of Standards show that 44 percent of all sleepwear cases involve children between ages 0 through 12 and of these about 45 percent of the victims are between ages 6 through 12. On the basis of these data and research conducted on children's sleepwear, it has been determined that children's sleepwear in the size range 7 through 14 normally worn by children of ages 6 through 12 present a special hazard, over and above that presented by those same items of wearing apparel for the population as a whole.

The finding that a flammability standard or other regulation is needed for children's sleepwear sizes 7 through 14 is based on the analysis of data developed by investigations of deaths and injuries resulting from wearing apparel fires and on results of laboratory research involving garments and fabrics for children's sleepwear. The analysis of accident data indicates that children are injured at high frequencies from ignition and burning of sleepwear. Laboratory research indicates that children's sleepwear garments, and fabrics for such garments, present a significant burn hazard to children.

In the course of the development of this finding, the Department of Commerce has analyzed data from 1,964 cases investigated by HEW and contained in the Flammable Fabrics Accident Case and Testing System (FFAC TS) data base. Of these cases, 413 involved sleepwear. Twenty-two of the 413

sleepwear cases involved flammable liquid contamination. The ages of the victims are known for 389 of the noncontaminated incidents.

In 316 of these 389 incidents, sleepwear was the first fabric item ignited. Children 6 through 12, which account for only 14 percent of the U.S. population, were involved in 77 or 24 percent of these first-to-ignite sleepwear incidents. Thus, they were involved 1.8 times more frequently than would be expected from their representation in the U.S. population.

An analysis of the 77 first-to-ignite sleepwear item incidents involving children in the 6 through 12 age bracket showed that all but three garments were made of cellulose fibers. While the remains of many of these garments were unavailable for testing, prior experience with these types of garments permit us to state that none of these garments would pass the proposed standard. Therefore, the proposed standard is appropriate in that, had it been in effect during the past several years, it would have protected the public by keeping off the market the garments involved in those particular children's burn cases.

Research indicated that purchased items of children's sleepwear in sizes 7 through 14 were readily ignited by a small ignition source. Exposure to a 1½-inch natural gas flame for 3 seconds resulted in ignition and burning of many such items. Burning of such items in their usual, vertical configuration was rapid.

Simulation of real-life accident conditions was accomplished by dressing child-size mannequins in purchased items of children's sleepwear. Brief exposure of these assemblies to small flames resulted in extensive damage to the mannequins. These experiments indicate that children wearing such garments would have been seriously injured.

The proposed standard is reasonable and technologically practicable. In the course of the development of the proposed standard, NBS purchased garments on the open market that comply with the proposed standard. These garments are being marketed nationally by major distributors, both through their retail outlets and through catalog sales.

The proposed standard, which the Department of Commerce finds is needed to protect the public against unreasonable risk of the occurrence of fire leading to death, personal injury, or significant property damage, is limited to children's sleepwear sizes 7 through 14.

**Participation in proceedings.** All interested persons are invited to submit written comments relative to the proposed flammability standard on or before April 11, 1973. Written comments should be submitted in at least four (4) copies to the Assistant Secretary for Science and Technology, Room 3862, U.S. Department of Commerce, Washington, D.C. 20230, and may include any data or other information pertinent to the subject.

**Inspection of relevant documents.** The written comments received pursuant to this notice will be available for public

inspection at the central reference and records inspection facility of the Department of Commerce, Room 7043, Main Commerce Building, 14th Street between E Street and Constitution Avenue, NW., Washington, D.C. 20230. Supporting documents are available for inspection in the above facility. The documents contain in more detail the data which are summarized in the preceding portions of this notice.

Issued: March 6, 1973.

RICHARD O. SIMPSON,  
Acting Assistant Secretary  
for Science and Technology.  
CHILDREN'S SLEEPWEAR SIZES 7 THROUGH 14  
PROPOSED STANDARD FOR THE FLAMMABILITY OF  
CHILDREN'S SLEEPWEAR; SIZES 7 THROUGH 14  
DOC PFF 5-73

1. Definitions.
2. Scope and application.
3. General requirements.
4. Sampling and acceptance procedures.
5. Test procedure.
6. Labeling requirements.

**1. Definitions.** In addition to the definitions given in section 2 of the Flammable Fabrics Act, as amended (sec. 1, 81 Stat. 568; 16 U.S.C. 1191), and section 7.2 of the procedures (33 FR 14642, Oct. 1, 1968), the following definitions apply for the purposes of this Standard:

(a) "Children's Sleepwear" means any product of wearing apparel from size 7 through size 14 such as nightgowns, pajamas, or similar or related items, such as robes, intended to be worn primarily for sleeping or activities related to sleeping. Underwear and diapers are excluded from this definition.

(b) "Sizes 7 through 14" means the sizes defined as 7 through 14 in Department of Commerce voluntary product standards, PS 54-72 and PS 36-70, previously identified as commercial standards, CS 163-48, "Body Measurements for the Sizing of Girls' Apparel", and CS 165-50, "Body Measurements for the Sizing of Boys' Apparel", respectively.

(c) "Item" means any product of children's sleepwear or any fabric or related material intended or promoted for use in children's sleepwear.

(d) "Trim" means decorative materials, such as ribbons, laces, embroidery, or ornaments. This definition does not include (1) individual pieces less than 2 inches in their longest dimension, provided that such pieces do not constitute or cover in aggregate a total of more than 20 square inches of the item, or (2) functional materials (findings), such as zippers, buttons, or elastic bands, used in the construction of garments.

(e) "Test Criteria" means the average char length and the maximum char length which a sample or specimen may exhibit in order to pass an individual test.

(f) "Char Length" means the distance from the original lower edge of the specimen exposed to the flame in accordance with the procedure specified in 5 test procedure to the end of the tear or void in the charred, burned, or damaged area, the tear being made in accordance with the procedure specified in 5(c)(2), specimen burning and evaluation.

(g) "Afterglow" means the continuation of glowing of parts of a specimen after flaming has ceased.

(h) "Fabric Piece" (Piece) means a continuous, unseamed length of fabric, one or more of which make up a Unit.

<sup>1</sup>Copies available from the National Technical Information Service, 5285 Port Royal Street, Springfield, VA 22151.

**NOTICES**

(i) "Fabric Production Unit" (Unit) means any quantity of finished fabric up to 4,500 linear meters (5,000 linear yards) for normal sampling or 9,200 linear meters (10,000 linear yards) for reduced sampling which has a specific identity that remains unchanged throughout the Unit except for color or print pattern as specified in 4(a). For purposes of this definition, finished fabric means fabric in its final form after completing its last processing step as a fabric except for slitting.

(j) "Garment Production Unit" (Unit) means any quantity of finished garments up to 500 dozen which have a specific identity that remains unchanged throughout the Unit except for size, trim, findings, color, and print patterns as specified in 4(a).

(k) "Sample" means five test specimens.

(l) "Specimen" means an 8.9±0.5×25.4±0.5 cm. (3.5±0.2×10±0.2 in.) section of fabric. For garment testing, the specimen will include a seam or trim.

**2. Scope and application.** (a) This standard provides a test method to determine the flammability of items as defined in 1(c).

(b) All items as defined in 1(c), are subject to the requirements of this standard.

**3. General requirements—(a) Summary of test method.** Conditioned specimens, 8.9±0.5×25.4±0.5 cm. (3.5±0.2×10±0.2 in.), are suspended one at a time vertically in holders in a prescribed cabinet and subjected to a standard flame along their bottom edges for a specified time under controlled conditions. The char lengths are recorded.

(b) **Test criteria.** The test criteria when the testing is done in accordance with 4 sampling and acceptance procedures and 5 test procedure are:

(1) **Average char length.** The average char length of five specimens shall not exceed 17.8 cm. (7.0 in.).

(2) **Full specimen burn.** No individual specimen shall have a char length of 25.4 cm. (10 in.).

**4. Sampling and acceptance procedures—(a) General.** The test criteria of 3(b) shall be used in conjunction with the following fabric and garment sampling plan, or any others approved by the Department of Commerce that provide at least the equivalent level of fire safety to the consumer. Alternate sampling plans submitted for approval shall have operating characteristics such that the probability of Unit acceptance at any percentage defective does not exceed the corresponding probability of Unit acceptance of the following sampling plan in the region of the latter's operating characteristic curves that lies between 5 and 95 percent acceptance probability.

Different colors or different print patterns of the same fabric may be included in a single fabric or garment production unit, provided such colors or print patterns demonstrate char lengths that are not significantly different from each other as determined by previous testing of at least three samples from each color or print pattern to be included in the Unit.

Garments with different trim and findings may be included in a single garment production unit provided the other garment characteristics are identical except for size, color, and print pattern.

For fabrics whose flammability characteristics are not dependent on chemical additives or chemical reactants to fiber, yarns, or fabrics, the laundering requirement of 5(c)(4) is met on subsequent fabric production units if results of testing an initial fabric production unit demonstrate acceptability according to the requirements of 4(b), normal sampling, both before and after the appropriate laundering.

If the fabric has been shown to meet the laundering requirement, 5(c)(4), the garments produced from that fabric are not required to be laundered.

Each sample (five specimens) for all fabric sampling shall be selected so that two specimens are in one fabric direction (machine or cross machine) and three specimens are in the other fabric direction, except for the additional sample selected after a failure, in which case, all five specimens shall be selected in the same fabric direction in which the specimen failure occurred.

Fabric samples may be selected from fabric as outlined in 4(b) fabric sampling or, for verification purposes, from randomly selected garments.

Multi-layer fabrics shall be tested with a hem of approximately 2.5 cm. (1 in.) sewn at the bottom edge of the specimen with a suitable thread and stitch. The specimen shall include each of the components over its entire length. Garments manufactured from multi-layer fabrics shall be tested with the edge finish which is used in the garment at the bottom edge of the specimen.

(b) *Fabric sampling.* A fabric production unit (Unit) is either accepted or rejected in accordance with the following plan:

*Normal sampling.* Select one sample from the beginning of the first fabric piece (piece) in the Unit and one sample from the end of the last piece in the Unit, or select a sample from each end of the piece if the Unit is made up of only one piece. Test the two selected samples. If both samples meet all the test criteria of 3(b), accept the Unit. If either or both of the samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), reject the Unit. If two or more of the individual specimens, from the 10 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), reject the Unit. If only one individual specimen, from the 10 selected specimens, fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), select five additional specimens from the same end of the piece in which the failure occurred, all five to be taken in the fabric direction in which the specimen failure occurred. If this additional sample passes all the test criteria, accept the Unit. If this additional sample fails any part of the test criteria, reject the Unit.

*Reduced sampling.* The level of sampling required for fabric acceptance may be reduced provided the preceding 15 Units of the fabric have all been accepted using the normal sampling plan.

The reduced sampling plan shall be the same as for normal sampling except that the quantity of fabric in the Unit may be increased to 9,200 linear meters (10,000 linear yards).

Select and test two samples in the same manner as in normal sampling. Accept or reject the Unit on the same basis as with normal sampling.

Reduced sampling shall be discontinued and normal sampling resumed if a Unit is rejected.

*Tightened sampling.* The level of sampling required for acceptance shall be increased when a Unit is rejected under the normal sampling plan. The tightened sampling shall be the same as normal sampling except that one additional sample shall be selected and cut from a middle piece in the Unit. If the Unit is made up of less than two pieces, the Unit shall be divided into at least two pieces. The division shall be such that the pieces produced by the division shall not be smaller than 92 linear meters (100 linear yards) or greater than 2,300 linear meters (2,500 linear yards). If the Unit is made up of two pieces, the additional sample shall be selected from the interior end of one of the pieces. Test the three selected samples. If all three se-

lected samples meet all the test criteria of 3(b), accept the Unit. If one or more of the three selected samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), reject the Unit. If two or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), reject the Unit. If only one individual specimen, from the 15 selected specimens, fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), select five additional specimens from the same end of the piece in which the failure occurred, all five to be taken in the fabric direction in which the specimen failure occurred. If this additional sample passes all the test criteria, accept the Unit. If this additional sample fails any part of the test criteria, reject the Unit. Tightened sampling may be discontinued and normal sampling resumed after five consecutive Units have all been accepted using tightened sampling. If tightened sampling remains in effect for 15 consecutive Units, production of the specific fabric in tightened sampling must be discontinued until that part of the process or component which is causing failure has been identified and the quality of the end product has been improved.

*Disposition of rejected units.* The piece or pieces which have failed and resulted in the initial rejection of the Unit may not be retested, used, or promoted for use in children's sleepwear as defined in 1(a) of this standard and DOC PF 3-71 except after reworking to improve the flammability characteristics and subsequent retesting in accordance with the procedures in tightened sampling.

The remainder of a rejected Unit, after removing the piece or pieces, the failure of which resulted in Unit rejection, may be accepted if the following test plan is successfully concluded at all required locations. The required locations are those adjacent to each such failed piece. (Required locations exist on both sides of the "Middle Piece" tested in tightened sampling if failure of that piece resulted in Unit rejection.) Failure of a piece shall be deemed to have resulted in Unit rejection if Unit rejection occurred and a sample or specimen from the piece failed any test criterion of 3(b).

The Unit should contain at least 15 pieces for disposition testing after removing the failing pieces. If necessary for this purpose, the Unit shall be demarcated into at least 15 approximately equal length pieces unless 15 division results in pieces shorter than 92 linear meters (100 linear yards). In this latter case, the Unit shall be demarcated into roughly equal length pieces of approximately 92 linear meters (100 linear yards) each. If such a division results in five pieces or less in the Unit for each failing piece after removing the failing pieces, only the individual piece retest procedure (described subsequently) may be used.

Select and cut a sample from each end of each adjoining piece beginning adjacent to the piece which failed. Test the two samples from the piece. If both samples meet all the test criteria of 3(b), the piece is acceptable. If one or both of the two selected samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), the piece is unacceptable. If two or more of the individual specimens, from the 10 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), the piece is unacceptable. If only one individual specimen, from the 10 selected specimens, fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), select five additional specimens from the same end of the piece in which the failure occurred, all five to be taken in the fabric direction in which the specimen failure occurred. If this additional sample passes all the test criteria, the piece is acceptable. If this additional sample fails

any part of the test criteria, the piece is unacceptable.

Continue testing adjoining pieces until a piece has been found acceptable. Then continue testing adjoining pieces until three successive adjoining pieces, not including the first acceptable piece, have been found acceptable or until five such pieces, not including the first acceptable piece, have been tested, whichever occurs sooner. Unless three successive adjoining pieces have been found acceptable among five such pieces, testing shall be stopped and the entire Unit rejected without further testing. If three successive pieces have been found acceptable among five such pieces, accept the three successive acceptable pieces and the remaining pieces in the Unit.

Alternatively, individual pieces from a rejected Unit containing three or more pieces may be tested and accepted or rejected on a piece by piece basis according to the following plan, after removing the piece or pieces, the failure of which resulted in Unit rejection:

Select four samples (two from each end) from the piece. Test the four selected samples. If all four samples meet all the test criteria of 3(b), accept the piece. If one or more of the samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), reject the piece. If two or more of the individual specimens, from the 20 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), reject the piece. If only one individual specimen, from the 20 selected specimens, fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), select two additional samples from the same end of the piece in which the failure occurred. If these additional two samples meet all the test criteria of 3(b), accept the piece. If one or both of the two additional samples fail any part of the test criteria, reject the piece.

The pieces of a Unit rejected after retesting may not be retested, used, or promoted for use in children's sleepwear as defined in 1(a) of this standard and DOC PF 3-71 except after reworking to improve the flammability characteristics, and subsequent retesting in accordance with the procedures set forth in tightened sampling.

*Records.* Records of all Unit sizes, test results, and the disposition of rejected pieces and Units must be maintained by the manufacturer beginning upon the effective date of this standard. Rules and regulations may be established by the Federal Trade Commission.

(c) *Garment sampling.* The garment sampling plan is made up of two parts: (1) Prototype testing and (2) Production testing. Prior to production, prototypes must be tested to assure that the design characteristics of the garment are acceptable. Garment production units (Units) are then accepted or rejected on an individual Unit basis.

Edge finishes such as hems, except in multilayer fabrics, and binding are excluded from testing except that when trim is used on an edge the trim must be subjected to prototype testing. Seams attaching findings are excluded from testing.

*Prototype testing.* Preproduction prototypes of a garment style or type shall be tested to assure that satisfactory garment specifications in terms of flammability are set up prior to production.

*Seams.* Make three samples (15 specimens) using the longest seam type and three samples using each other seam type 10 inches or longer that is to be included in the garment. Prior to testing, assign each specimen to one of the three samples. Test each set of three samples and accept or reject each seam design in accordance with the following plan:

If all three samples meet all the test criteria of 3(b), accept the seam design. If one or more of the three samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), reject the seam design. If three or more of the individual specimens from the 15 selected specimens fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), reject the seam design. If only one of the individual specimens from the 15 selected specimens fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), accept the seam design.

If two of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), select three more samples (15 specimens) and retest. If all three additional samples meet all the test criteria of 3(b), accept the seam design. If one or more of the three additional samples fail the 17.8 cm. (7.0 in.) average char length criterion, 3(b)(1), reject the seam design.

If two or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length criterion, 3(b)(2), reject the seam design. If only one of the individual specimens, from the 15 selected specimens, fails the 25.4 cm. (10 in.) char length criterion, 3(b)(2), accept the seam design.

*Trim.* Make three samples (15 specimens) from each type of trim to be included in the garment. Specimens shall be prepared by sewing or attaching the trim to the center of the vertical axis of an appropriate section of untrimmed fabric, beginning the sewing or attachment at the lower edge of each specimen. The sewing or attachment shall be made in the manner in which the trim is to be attached in the garment.

Sewing or otherwise attaching the trim shall be done with thread or fastening material of the same composition and size to be used for this purpose in the garment and using the same stitching or seam type. The trim shall be sewn or fastened the entire length of the specimen. Prior to testing, assign each specimen to one of the three samples. Test the sets of three samples and accept or reject the type of trim and design on the same basis as seam design.

*Production testing.* A Unit is either accepted or rejected according to the following plan:

From each Unit, select at random sufficient garments and cut three samples (15 specimens) from the longest seam type. No more than five specimens may be cut from a single garment. Prior to testing, assign each specimen to one of the three samples. All specimens cut from a single garment must be included in the same sample. Test the three selected samples. If all three samples meet all the test criteria of 3(b), accept the Unit. If one or more of the three samples fail the 17.8 cm. (7 inches) average char length criterion, 3(b)(1), reject the Unit. If four or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 inches) char length criterion, 3(b)(2), reject the Unit. If three or less of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 inches) char length criterion 3(b)(2), accept the Unit.

If the garment under test does not have a 10 inch seam in the largest size in which it is produced, the following selection and testing procedure shall be followed:

Select and cut specimens 8.9 cm. (3.5 inches) wide by the maximum available seam length, with the seam in the center of the specimen and extending the entire specimen length. Cut three samples (15 specimens). These specimens shall be placed in specimen holders so that the bottom edge is even with the top of the shoe on the guide plate of the specimen holder and the seam begins in the center of the bottom edge. Prior to testing,

assign each specimen to one of the three samples. All specimens cut from a single garment must be included in the same sample.

Test the three samples. If all three samples pass the 17.8 cm. (7 inches) average char length criterion, 3(b)(1), and if three or less individual specimens fail by charring the entire specimen length, accept the Unit. If the Unit is not accepted in the above test, three samples (15 specimens) of the longest seam type shall be made using fabric and thread from production inventory and sewn on production machines by production operators. The individual fabric sections prior to sewing must be no larger than 20.3 by 63.3 cm. (8 by 25 inches) and must be selected from more than one area of the base fabric. Test the three prepared samples. Accept or reject the Unit as described previously in this subsection.

*Disposition of rejected units.* Rejected Units shall not be retested, used, or promoted for use in children's sleepwear as defined in 1(a) except after reworking to improve the flammability characteristics and subsequent retesting in accordance with the procedures set forth in garment production testing.

*Records.* Records of all Unit sizes, test results, and the disposition of rejected Units must be maintained by the manufacturer beginning upon the effective date of this standard. Rules and regulations may be established by the Federal Trade Commission.

(d) *Compliance market sampling plan by FTC.* The FTC may submit, for approval by the Secretary of Commerce, fabric and/or garment sampling plans for use in market testing of items covered by this standard. For approval, such plans shall define non-compliance of a production Unit to exist only when it is shown, with a high level of statistical confidence, those production Units represented by tested items which fail such FTC plans will, in fact, fail this standard.

Production Units found to be noncomplying under these provisions shall be deemed not to conform to this standard.

5. *Test procedure—(a) Apparatus—(1) Test chamber.* The test chamber shall be a steel cabinet with inside dimensions of 32.9 cm. (12 $\frac{1}{2}$  in.) wide, 32.9 cm. (12 $\frac{1}{2}$  in.) deep, and 76.2 cm. (30 in.) high. It shall have a frame which permits the suspension of the specimen holder over the center of the base of the cabinet at such a height that the bottom of the specimen is 1.7 cm. ( $\frac{3}{4}$  in.) above the highest point of the barrel of the gas burner specified in 5(a)(3), burner, and perpendicular to the front of the cabinet. The front of the cabinet shall be a close-fitting door with a transparent insert to permit observation of the entire test. The cabinet floor may be covered with a piece of asbestos paper, whose length and width are approximately 2.5 cm. (1 in.) less than the cabinet floor dimensions. The cabinet to be used in this test method is illustrated in Figure 1 and detailed in engineering drawings, Nos. 1 to 7.

(2) *Specimen holder.* The specimen holder to be used in this test method is detailed in Engineering Drawing No. 7. It is designed to permit suspension of the specimen in a fixed vertical position and to prevent curling of the specimen when the flame is applied.

The specimen shall be fixed between the plates, which shall be held together with side clamps.

(3) *Burner.* The burner shall be substantially the same as that illustrated in Figure 1 and detailed in Engineering Drawing No. 6. It shall have a tube of 1.1 cm. (0.43 in.) inside diameter. The input line to the burner shall be equipped with a needle valve. It shall have a variable orifice to adjust the height of the flame. The barrel of the burner shall be at an angle of 25 degrees from the vertical. The burner may be equipped with an adjustable stop collar so that it may be

positioned quickly under the test specimen. The burner shall be connected to the gas source by rubber or other flexible tubing.

(4) *Gas supply system.* There shall be a pressure regulator to furnish gas to the burner under a pressure of 103-259 mm. Hg. (2-5 lbs./sq. in.) at the burner inlet.

(5) *Gas.* The gas shall be at least 97 percent pure methane.

(6) *Hooks and weights.* Metal hooks and weights shall be used to produce a series of loads for char length determinations. Suitable metal hooks consist of No. 19 gauge steel wire, or equivalent, made from 7.6 cm. (3 in.) lengths of the wire, bent 1.3 cm. (0.5 in.) from one end to a 45° angle hook. The longer end of the wire is fastened around the neck of the weight to be used and the other in the lower end of each burned specimen to one side of the burned area. The requisite loads are given in Table 1.

TABLE 1  
ORIGINAL FABRIC WEIGHT<sup>1</sup>

Grams per square meter	Ounces per square yard	Loads	
		Gram	Pound
Less than 101.....	Less than 3.....	54.5	0.12
101-307.....	3-6.....	113.4	.25
307-338.....	6-10.....	226.8	.50
Greater than 338.....	Greater than 10.0.....	340.2	.75

<sup>1</sup> Weight of the original fabric, containing no seams or trim, is calculated from the weight of a specimen which has been conditioned for at least 8 hours at 21±1° C. (70±2° F.) and 65±5 percent relative humidity. Shorter conditioning times may be used if the change in weight of a specimen in successive weighings made at intervals of not less than 2 hours does not exceed 0.2 percent of the weight of the specimen.

(7) *Stopwatch.* A stopwatch or similar timing device shall be used to measure time to 0.1 second.

(8) *Scale.* A linear scale graduated in millimeters or 0.1 inch divisions shall be used to measure char length.

(9) *Conditioning facility.* A facility capable of maintaining the specimens at 21±1° C. (70±2° F.) and 65±5 percent relative humidity (percent RH) shall be used to condition the specimens.

(10) *Hood.* A hood or other suitable enclosure shall be used to provide a draft-free environment surrounding the test chamber without restricting the availability of air. This enclosure shall have a fan or other suitable means for exhausting smoke and/or toxic gases produced by testing.

(b) *Conditioning and mounting of specimens.* The specimens shall be placed in the conditioning facility in a manner that will permit free circulation of air at 21±1° C. (70±2° F.) and 65±5 percent RH around them for a minimum of 8 hours.<sup>2</sup> Prior to conditioning or before removing the specimens from the conditioned atmosphere, the specimens shall be placed in specimen holders so that the bottom edge of each specimen is even with the top of the shoe on the guide plate shown in Engineering Drawing No. 7. Mount the specimen in as close to a flat configuration as possible. The sides of the specimen holder shall cover 1.9 cm. ( $\frac{3}{4}$  in.) of the specimen width along each long edge of the specimen, and thus shall expose 5.1 cm. (2 in.) of the specimen width. The sides of the specimen holder shall be clamped with a sufficient number of clamps or shall be taped to prevent the specimen from being displaced during handling and testing. The specimens

<sup>2</sup> Shorter conditioning times may be used if the change in weight of a specimen in successive weighings made at intervals of not less than 2 hours does not exceed 0.2 percent of the weight of the specimen.

## NOTICES

may be taped in the holders if the clamps fail to hold them. If the atmosphere of the conditioning facility varies more than  $\pm 5$  percent RH, the specimen shall be reconditioned for a minimum of 8 hours.

(c) **Testing—(1) Burner adjustment.** With the hood fan turned off, use the needle valve to adjust the flame height of the burner to 3.8 cm. (1½ in.) above the highest point of the barrel of the burner. A suitable height indicator is shown in Engineering Drawing No. 6 and Figure 1.

(2) **Specimen burning and evaluation.** One at a time, the mounted specimens shall be suspended in the cabinet for testing. The cabinet door shall be closed and the burner flame impinged on the bottom edge of the specimen for  $3.0 \pm 0.2$  seconds.<sup>4</sup> Flame impingement is accomplished by moving the burner under the specimen for this length of time, and then removing it.

When afterglow has ceased, remove the specimen from the cabinet and holder, and place it on a clean flat surface. Fold the specimen lengthwise along a line through the highest peak of the charred or melted area; crease the specimen firmly by hand. Unfold the specimen and insert the hook with the correct weight as shown in Table 1 in the specimen on one side of the charred area 6.4 mm. (¼ in.) from the lower edge. Tear the specimen by grasping the other lower corner of the fabric and gently raising the specimen and weight clear of the supporting surface.<sup>5</sup> Measure the char length as the distance from the end of the tear to the original lower edge of the specimen exposed to the flame. After testing each specimen, vent the hood and cabinet to remove the smoke and/or toxic gases.

(3) **Report.** Report the value of char length, in centimeters (inches), for each specimen, as well as the average char length for each set of five specimens.

(4) **Laundering.** The procedures described under 4. Sampling and Acceptance Procedures, 5(b), Conditioning and Mounting of Specimens, and 5(c), Testing, shall be carried out on finished items (as produced or after one washing and drying) and after they have been washed and dried 50 times according to the laundering procedure in AATCC Test Method 124-1969.<sup>6</sup> Items which do not withstand 50 laundries shall be tested at the end of their useful life.

Washing procedure 6.2(III), with a water temperature of  $60 \pm 2.8^\circ \text{C}$ . ( $140 \pm 5^\circ \text{F}$ ), and

<sup>4</sup> If more than 30 seconds elapse between removal of a specimen from the conditioning facility and the initial flame impingement, that specimen shall be reconditioned prior to testing.

<sup>5</sup> A figure showing how this is done is given in AATCC 34-1969, Technical Manual of the American Association of Textile Chemists and Colorists, vol. 46, 1970, published by AATCC, Post Office Box 12215, Research Triangle Park, N.C. 27709.

<sup>6</sup> Technical Manual of the American Association of Textile Chemists and Colorists vol. 46 1970 published by AATCC Post Office Box 12215 Research Triangle Park, NC 27709.

drying procedure 6.3.2(B), shall be used. Maximum load shall be 3.64 kg. (8 pounds) and may consist of any combination of test samples and dummy pieces. Alternatively, a different number of times under another washing and drying procedure may be specified and used, if that procedure has previously been found to be equivalent by the Federal Trade Commission. Such laundering is not required of items which are not intended to be laundered, as determined by the Federal Trade Commission.

Items which are not susceptible to being laundered and are labeled "dry-clean only" shall be dry-cleaned by a procedure which has previously been found to be acceptable by the Federal Trade Commission.

For the purpose of the issuance of a guarantee under section 8 of the Act, finished

sleepwear garments to be tested according to 4(b), fabric sampling, need not be laundered or dry-cleaned provided all fabrics used in making the garments (except trim) have been guaranteed by the fabric producer to be acceptable when tested according to 4(b), fabric sampling.

<sup>8</sup> **Labeling requirements.** All items of children's sleepwear shall be labeled with precautionary instructions to protect the items from agents or treatments which are known to cause significant deterioration of their flame resistance. If the item has been initially tested under 5(c)(4), laundering, after one washing and drying, it shall be labeled with instructions to wash before wearing. Such labels shall be permanent and otherwise in accordance with rules and regulations established by the Federal Trade Commission.

# **SMALL CARPETS AND RUGS** **Supplementary Notice Regarding Proposed Sampling Plan**

On March 7, 1973, there was published in the FEDERAL REGISTER (38 FR 6207, FR Doc. 73-4270) (38 FR 6210, FR Doc. 73-4269), a proposed Sampling Plan for the Standard for the Surface Flammability of Small Carpets and Rugs (Pill Test) DOC FF 2-70 and a proposed Sampling Plan for the Standard for the Surface Flammability of Carpets and Rugs DOC FF 1-70:

## **PARTICIPATION IN ABOVE-REFERENCED PROCEEDINGS**

All interested persons are invited to submit written comments relative to each of the proposed sampling plans on or before April 11, 1973. Written comments should be submitted in at least four (4) copies to the Assistant Secretary for Science and Technology, Room 3862, U.S. Department of Commerce, Washington, D.C. 20230, and may include any data or other information pertinent to the subject.

## **INSPECTION OF RELEVANT DOCUMENTS**

The written comments received pursuant to this notice will be available for public inspection at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 7043, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230. Supporting documents are available for inspection in the above facility. The documents contain in more detail the data which are summarized in the preceding portions of this notice.

Issued: March 8, 1973.

# **DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE** **Office of the Secretary** **CHILD AND FAMILY DEVELOPMENT RESEARCH REVIEW COMMITTEE** **Notice of Family and Youth Study Section Meeting**

The Family and Youth Study Section of the Child and Family Development Research Review Committee will meet on March 14, 15, and 16, 1973. Each day the study section will meet from 9 a.m. until 5:30 p.m. in Club Room B of the Shoreham Hotel, 2500 Calvert Street NW., Washington, DC. The meetings will be closed to the public. The purpose of the Child and Family Development Research Review Committee is to review applications of research and demonstration projects and to make recommendations to the Director of the Office of Child Development as to which projects should be funded.

A list of Committee members and a summary of the meeting may be obtained from:

Barbara Rosengard, Research and Evaluation Division, Office of Child Development, Post Office Box 1182, Washington, DC 20013, 202-755-7758.

Dated: March 7, 1973.

# **DEPARTMENT OF TRANSPORTATION** **Federal Aviation Administration** **ADVISORY CIRCULAR 70/7460-1,** **OBSTRUCTION MARKING AND LIGHTING** **Proposed Change**

Public notice is hereby given that the Federal Aviation Administration is considering amending its standards to recommend the use of high intensity (strobe) obstruction lighting systems on tall skeletal structures. In addition, the FAA proposes to delete the recommended practices of obstruction marking skeletal structures with aviation surface orange and white paint when strobe lighting systems are employed. It is believed that interested parties should have an opportunity to comment on the proposed changes before it is put into effect. Accordingly, interested parties are invited to participate by submitting such written data, views or arguments as they may desire. Written comments should be submitted prior to April 15, 1973, to the Chief, Airspace and Air Traffic Rules Division, AAT-200, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Receipt of comments will not be acknowledged; however, all comments will be given careful consideration.

## **BACKGROUND**

In accordance with the Federal Aviation Act of 1958, the Administrator of the Federal Aviation Administration is charged with the statutory responsibility for promoting safety in air commerce. In the light of this responsibility, the Director, Air Traffic Service, has been delegated the responsibility to describe the standards for obstruction marking and lighting obstructions to air navigation and to establish the methods, procedures, and equipment types as advisory material. These are promulgated in Advisory Circular 70/7460-1, Obstruction Marking and Lighting.

The FAA in its continuing efforts to improve the conspicuity of tall structures initiated several projects toward this goal in the early 1960's. These efforts culminated in a report dated January 1963; the installation and evaluation of a high intensity incandescent lighting system on a 1,449-foot above ground level television antenna tower in Oklahoma City, Okla. (1966-68), and the evaluation of a high intensity strobe lighting system installed on the supporting structures of an overhead transmission line across the Mississippi River in New Orleans, La., between December 1969 and early 1970. Data obtained from the January 1963 report and gleaned from the subsequent evaluations, formed the basis

for the FAA's recommended specifications and standards for high intensity lighting systems.

The FAA's demand for an effective and highly reliable strobe system coupled with close coordination with industry and the advent of new and improved technologies, resulted in the development of acceptable hardware. This enabled the FAA to specify an improved high intensity lighting system for obstruction lighting objects determined to be obstructions to air navigation.

Strobe lighting systems are installed and operating on 11 chimneys, three television antenna towers, the supporting structures of four overhead transmission line crossings and one building. Approximately 34 more installations are in varying stages of planning and installation. As a result of field experience gained on the early installations and flight evaluations of several structures, amendments are being incorporated in the specifications leading to improved lighting systems. The use of these systems on tall solid structures negates the recommended practice of applying and maintaining aviation surface orange and white obstruction painting. The FAA is contemplating applying similar criteria to skeletal structures.

## **JUSTIFICATION**

An evaluation of strobe lighting systems has been underway since the initial installation of these types of systems in 1969. One phase consisted of distributing questionnaire cards to be completed by pilots observing the systems. In excess of 89 percent of the comments received on all systems stated that the lights effectively warned them of the structure's presence.

During 1972 two existing television antenna towers were equipped with strobe systems. These structures were marked and lighted with the standard aviation orange and white paint and red obstruction lighting system. An evaluation team composed of representatives of several aviation organizations, a State aeronautics commission, the Federal Communications Commission, a television station, and various services of the FAA observed the two television antennas under both day and night conditions. In summary, the comments stated that the strobe lights are most effective during daylight hours; they are often seen long before the outline of the skeletal structure can be seen; the paint is only effective on sunny days with the sun behind the observer, the lights should remain on high intensity later in the day; at night the flash rate should be increased or have a longer flash duration; painting appears unnecessary when strobe lights are used; color bands are not distinguishable under most flight conditions and certainly not at night; leave red lights on at night, where they exist, along with strobes and if not possible, strobes are preferred; use at least one steady burning light to decrease chance of vertigo; flash rate was satisfactory; use intermediate intensity step when switching from day to night operation and vice versa.

## NOTICES

As a result, the specification for the lighting system is being amended to provide for a scintillating or burst mode when operating at night. This will make the light appear to be on for approximately 0.25 seconds rather than a very rapid single flick. This results in the pilot being able to get a better fix on the location of the structure at night when he cannot see the outline of the structure; it will decrease the possibility of getting vertigo; it will assist in determining the distance to the structure and it is significantly unique to provide distinction from an aircraft strobe light. The switch over from day to night intensity was also recognized as a problem in that the day intensity is much too bright against a late evening sky and the night intensity is not bright enough if the switch over is made too early. As a result, the new specifications will require an intermediate step during the switch over period at dusk and dawn.

## RELIABILITY

During 1972 several manufacturers' systems were approved as meeting current FAA specifications. A request was made to users of all systems to determine problem areas and system reliability. The reports received indicated that the systems manufactured in accordance with the FAA specifications have encountered only minor malfunctions after the initial installation problems are overcome. Since these systems are new to most electrical contractors, installation problems can be anticipated until greater experience is gained by the various electrical installation contractors.

## SPECIFICATION

The following are the basic recommended specifications for high intensity obstruction lighting systems applied to tall structures (excluding the supporting structures of overhead transmission lines):

1. *Intensity*—200,000 candelas, day; 1,000 candelas, night.
2. *Flash rate*—All lamps flash simultaneously at 40 flashes per minute.
3. *Beam spread*—A narrow vertical beam spread is specified in order to provide the full light intensity at possible collision altitudes with the structure, while persons on the ground or at altitudes above the structure will only receive residual light.

## INDUSTRY ACCEPTANCE

All indications are that the strobe lighting systems are being readily accepted by electric utility companies. Several independent studies have been conducted by these companies to determine if any savings could be incurred if strobe lighting were used in lieu of the red obstruction lighting systems and painting every 4 or 5 years. It has been determined that for a chimney 500 feet and above, it is more economical to employ strobe lights. Inquiries regarding the application of strobe light systems to skeletal structures has resulted in responses similar to those mentioned

above from members of the radio and television industry.

## COORDINATION

The high intensity obstruction lighting standard as proposed for application on skeletal structures has been coordinated with the Federal Communications Commission and is being coordinated with aviation interests and organizations, and the public, through the media of this notice.

## PROPOSED HIGH INTENSITY OBSTRUCTION LIGHTING STANDARDS

1. *Purpose.* The purpose of lighting an object is to warn airmen of its presence during daytime, nighttime, and periods of limited daytime light intensity and meteorological visibility. To accomplish this objective, it is necessary to display lighting on the obstruction of sufficient intensity and in such a manner that it will attract the attention of the pilot of any airplane that is approaching the obstruction from any angle while at any altitude up to 1,500 feet above the uppermost point on the obstruction.

1.1 *Scope.* The standards described herein describe day and night high intensity obstruction lighting recommended for obstructions to air navigation. The standard applies to tall skeletal type structures and is not applicable to the supporting structures of overhead wires which are described under another section of Advisory Circular 70/7460-1.

2. *Light distribution.* The vertical and horizontal light distribution of the high intensity lights should meet the requirements specified in Advisory Circular 150/5345-43, FAA/DOD Specification L-856, High Intensity Obstruction Lighting Systems.

3. *Inspection of obstruction lighting.* Obstruction lighting should be visually observed at least once each 24 hours or checked by observing an automatic and properly maintained indicator designed to register any failure of such lights to insure that all such lights are functioning properly as required. An automatic alarm system to denote such malfunction may be used.

4. *Notification of light failure.* Any observed or otherwise known extinguishment or improper functioning of an obstruction light which will last more than 30 minutes, regardless of its position on a natural or man-made obstruction, should be immediately reported. Such reports should be made by telephone or telegraph to the nearest flight service station or office of the FAA and should set forth the condition of the light or lights, the circumstances which caused the failure and the probable date that normal operation will be resumed. Further notification by telephone or telegraph should be given immediately upon resumption of normal operation by the light or lights.

5. *Obstruction marking and lighting.*

5.1 *Variables.* It is recommended that marking and lighting be displayed on skeletal structures in any of the following combinations:

5.1.1 *Paint and red obstruction lights.* Aviation surface orange and white paint, daytime; flashing aviation red beacons and steady burning aviation red lights, nighttime. (Standards are specified in Advisory Circular Number 70/7460-1, Obstruction Marking and Lighting.)

5.1.2 *High intensity lighting system.* Flashing high intensity white obstruction lights at full intensity, daytime; lights at reduced intensity, nighttime. Aviation surface orange and white paint for daytime marking may be omitted.

5.1.3 *Combination aviation red and high intensity white obstruction lights.* A combination of flashing high intensity white lights, daytime; flashing aviation red beacons and steady burning aviation red lights, nighttime operation. Aviation surface orange and white paint for daytime marking may be omitted.

6. *Interference.* Where any obstruction lights displayed on an obstruction may present a problem to the safe operation of railway trains, boats, or motor vehicles, or may be a source of irritation to any person or persons in the vicinity of the lights, action should be taken to properly adjust the angular elevation of the light beam and/or install louvers to eliminate the adverse effects. Neither of these adjustments should affect the effectiveness of the lights as an obstruction marking system.

7. *High intensity white obstruction lighting system.*

7.1 *Specification.* The high intensity white lighting system referred to in the standards set forth in this publication should conform with the applicable provisions of FAA/DOD Specification L-856, High Intensity Obstruction Lighting System.

7.2 *Availability of specifications.* FAA/DOD Specification L-856 is contained in the Federal Aviation Administration Advisory Circular No. 150/5345-43. Copies of this advisory circular may be obtained free of charge from the Department of Transportation, Distribution Unit, TAD-484.3, Washington, D.C. 20590.

7.3 *Manufacturers.* The names of qualified manufacturers and a description of their equipment will be included in the next revision to Federal Aviation Administration Advisory Circular No. 150/5345-1C, Approved Airport Lighting Equipment. Copies may be obtained free of charge from the Department of Transportation, Distribution Unit, TAD-484.3, Washington, D.C. 20590.

8. *Standards for lighting obstructions to air navigation with high intensity white obstruction lights.*

8.1 *Application.* The following standard applies only to skeletal structures, excluding supporting structures for overhead wires:

8.1.1 There should be installed on the highest portion of the obstruction a light or lights in a manner to insure unobstructed visibility of at least one light from aircraft at any normal angle of approach.

8.1.2 Skeletal structures having a rod, antenna or similar appurtenance thereto, 20 feet or greater above the main structural frame should have a white strobe beacon installed at the highest point. This light should be similar in appearance to a 300 MM code beacon, operate 24 hours a day at 1,000 candelas and flash in unison with the high intensity lighting system.

8.1.3 Skeletal structures and solid structures such as chimneys and flare stacks having a diameter of 20 feet or less should not need more than three light heads per level. (This is based on lighting systems built in accordance with L-856 specifications.)

8.1.4 The main structural frame, excluding appurtenances thereto, determines the number of vertical levels of lights to be applied in addition to the strobe light under Item 8.1.2 above, if applicable.

8.1.4.1 For skeletal structures having an overall height of 300 feet above ground level (AGL) or less, one level of lights should be installed at the top of the main skeletal structure.

8.1.4.2 For skeletal structures having an overall height of 301 to 600 feet AGL, two levels of lights should be installed. These should be installed at the top and at the approximate midpoint of the main skeletal frame.

8.1.4.3 For skeletal structures having an overall height of 601 to 1,000 feet AGL, three levels of lights should be installed. These should be installed at the top and approximate two-thirds and one-third levels of the main skeletal frame.

8.1.4.4 For skeletal structures having an overall height of more than 1,000 feet AGL, there should be installed an additional level of lights (excluding the white strobe beacon atop any appurtenance, if applicable) for each additional 400 feet, or fraction thereof, of the height of the main skeletal frame.

8.1.5 Where dual lighting systems are employed (i.e., high intensity white obstruction lights for daytime marking and red beacon and red steady burning lights for nighttime lighting) the top level should be installed at the top of the main skeletal frame (in addition to the 300 MM red flashing code beacon on top of any appurtenance). The succeeding light levels should be installed as close as possible to levels described above in Items 8.1.4.1 through 8.1.4.4, depending on the height of the structure and may be installed on the same level as the next closest red flashing beacon or red steady burning obstruction light. This is permitted in order that additional servicing catwalks need not be installed.

\* Chimneys greater than 20 feet in diameter should have four light heads per level. Consideration is being given to increasing the number of lights per level for structures in excess of 100 feet in diameter.

\* The standard for the vertical placement of high intensity obstruction lights on tall skeletal structures prescribed herein and under item 8.1.5 is identical to those presently recommended for tall solid structures such as chimneys.

## NOTICES

9. *Angular elevation of light beam.* Each light head installed at the same level on a structure should be installed such that the angular elevation of the light beam for each light on that level is set at the identical elevation above the horizontal. This elevation is determined by the beam pattern of the particular manufacturer's equipment used and should be such that the beam to 20 percent of its effective intensity shall not strike the ground within 3 miles of the structure.

Issued in Washington, D.C., on March 1, 1973.

RAYMOND G. BELANGER,  
Acting Director,  
Air Traffic Service.

## AIRPORTS FIELD OFFICE AT BECKLEY, W. VA.

## Notice of Change of Jurisdiction and Establishment

On or about April 2, 1973, the Airports District Office at Falls Church, Va., will no longer service the State of West Virginia.

In lieu thereof, an Airports Field Office will be established at Beckley, W. Va., on or about April 2, 1973. It will provide airport services to communities, airport sponsors, and public agencies, and conduct associated activities including the Airport Development Aid Program for the State of West Virginia. Communications to the Airports Field Office should be addressed as follows:

Airports Field Office, Department of Transportation, Federal Aviation Administration, Beckley National Plaza Building, 600 Neville Street, Beckley, WV 25801.

(Sec. 313(a), 72 Stat. 752; 49 U.S.C. 1354)

Issued in New York, N.Y., on March 2, 1973.

GEORGE M. GARY,  
Director, Eastern Region.

[FR Doc. 73-4645 Filed 3-9-73; 8:45 am]

## ATOMIC ENERGY COMMISSION

[Docket No. 50-312]

## RANCHO SECO NUCLEAR GENERATING STATION

## Notice of Availability of Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the Final Environmental Statement, prepared by the Commission's Directorate of Licensing, related to Rancho Seco Nuclear Generating Station for the proposed continuation of Construction Permit No. CFP-56 and the proposed issuance of an operating license by Sacramento Municipal Utility District in Sacramento County, Calif., is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW, Washington, D.C., and in the Sacramento City County Library, Sacramento, Calif. The Final Environmental Statement is also being made available at the State of California, Office of Intergovernmental Management, 1400 10th Street, Room 121, Sacramento, CA.

The notice of availability of the Draft Environmental Statement for the Rancho Seco Nuclear Generating Station, and requests for comments from interested persons was published in the Federal Register on October 20, 1972 (37 FR 22638). The comments received from Federal, State, and local officials and interested members of the public have been included as appendices to the Final Environmental Statement.

Single copies of the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 7th day of March 1973.

For the Atomic Energy Commission.

GORDON K. DICKER,  
Chief, Environmental Projects  
Branch No. 2, Directorate of  
Licensing.

[Docket No. 50-407]

## UNIVERSITY OF UTAH

## Notice of Proposed Issuance of Construction Permit and Facility License

The Atomic Energy Commission (herein "the Commission") is considering the issuance of a construction permit and subsequently a facility license to the University of Utah which would authorize the construction and operation of a TRIGA Mark I nuclear reactor for research purposes on the university's campus at Salt Lake City, Utah. The proposed reactor will be operated at steady-state power levels up to 100 kilowatts (thermal).

Upon completion of the construction of the TRIGA Mark I nuclear reactor in accordance with the terms and conditions of the construction permit, and in the absence of good cause to the contrary, the Commission will issue to the University of Utah without further notice, a facility license authorizing the operation of the TRIGA since the application is complete enough to permit evaluation of the safety of the proposed operation of the reactor.

The Commission has found that the application for the construction permit and facility license complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I. Prior to issuance of the proposed license, the Commission will have made the remainder of the findings required by the Act, and the Commission's regulations which are set forth in the proposed permit and facility license.

On or before April 11, 1973, the applicant may file a request for a hearing.

## NOTICES

and any person whose interest may be affected by the issuance of the construction permit and facility license may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to these proposed issuances, see (1) the application dated October 1971 and supplements dated August 4 and October 10, 1972, (2) a related safety evaluation prepared by Reactor Projects, (3) the proposed construction permit, and (4) the proposed facility license all of which are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. A copy of each of items (2), (3), and (4) may be obtained upon request sent to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Licensing.

Dated at Bethesda, Md., this 2d day of March 1973.

For the Atomic Energy Commission.

ROBERT J. SCHEMEL,  
Acting Assistant Director for  
Operating Reactors, Directorate  
of Licensing.

#### RIO BLANCO GAS STIMULATION PROJECT Notice of Availability of Addendum to Final Environmental Statement

Notice is hereby given that an addendum to a document entitled, "Rio Blanco Gas Stimulation Project, Rio Blanco County, Colorado" issued in April 1972 pursuant to the Atomic Energy Commission's implementation of section 102(2)(c) of the National Environmental Policy Act of 1969 is being placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and in the Commission's Albuquerque Operations Office, Post Office Box 5400, Albuquerque, NM 87115; Chicago Operations Office, 9800 South Cass Avenue, Argonne, IL 60439; Grand Junction Office, Post Office Box 2567, Grand Junction, CO 81501; Idaho Operations Office, Post Office Box 2108, Idaho Falls, ID 83401; Health and Safety Laboratory, 376 Hudson Street, New York, NY 10014; Oak Ridge Operations Office, Post Office Box E, Oak Ridge, TN 37830; San Francisco Operations Office, 2111 Bancroft Way, Berkeley, CA 94704. This addendum has been prepared to supplement the environmental statement in order to reflect the consideration of comments received too late to be incorporated in the environmental statement and to present additional information. The plans for and the evaluation of the potential environ-

mental impact of the proposed project have not been significantly altered.

This addendum to the environmental statement is being furnished to recipients of the statement and will be furnished upon request addressed to the Director, Division of Environmental Affairs, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Germantown, Md., this 8th day of March 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,  
Secretary of the Commission.

[Docket 25287; Order 73-3-11]

#### CIVIL AERONAUTICS BOARD BRANIFF AIRWAYS, INC.

##### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of March, 1973.

By tariff revision<sup>1</sup> marked to become effective March 7, 1973, Braniff Airways, Inc. (Braniff) proposes to amend its group-fare structure between points in the southern portion of its system and Hawaii by canceling its fares for groups of 88, 105, and 154 or more passengers, and substituting a single fare for groups of 100 or more at the level of the present fare for groups of 154.

In support of its proposal, Braniff alleges that as a result of the increasing number of travel agents engaged in developing tour groups to Hawaii, it has become more difficult for one agent to gather the minimum number required for travel at the advertised price.<sup>2</sup> The smaller required group size is intended to alleviate this problem. It is alleged that the increase in revenue flowing from the fact that groups of less than 100 would be required to pay a higher individual fare will be offset by the lower fare which would become available for groups of 105-153 passengers, and that the net effect on revenues will be a wash.

Continental Air Lines, Inc. (Continental) has filed a complaint alleging that Braniff is incorrect in stating that the proposal will result in neither an increase nor decrease in its revenues; that in fact the change in minimum group size will result in a dilution of revenue; that Braniff's proposal is inconsistent with the Board's view of the overall fare situation in the Hawaiian market; and that Braniff is now seeking to establish a new 100-passenger fare which is actually lower than the comparable fare last fall.

Braniff answers that the 100-passenger group size is essential to induce agents to promote group fares on off-peak days, and that the absence of a weekend sur-

charge on these days has not proved sufficient. It alleges that its weekend flights for the coming summer are already almost completely blocked for large groups, but agents are still not promoting week-day departures because they are fearful that they cannot generate the 154 passengers required to be eligible for the lowest available fare.

Braniff further alleges that tour operators are willing to solicit group passengers for a given flight only on Braniff's commitment to block more than the minimum number of seats per group and that the practical result is that 200 seats are usually blocked in advance. It asserts that the reduction in group size will permit it to limit normal block booking to 150 seats and thus free more capacity for individual sales.

Upon consideration of the proposal, the complaint and answer thereto, and all relevant matters, the Board finds that the proposed revisions may be unjust, unreasonable, unduly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. The Board has also concluded to suspend the proposal pending investigation.

In our opinion, this proposal represents a liberalization of the existing group-fare structure which could result in a net revenue reduction. In light of the Board's stated concern with the discount fare/regular fare relationship in the Hawaiian market, we believe Braniff's proposal reflects a regressive step at a time when carriers should be moving to achieve yield improvement.

While we can appreciate that Braniff would like to accommodate its group-fare structure to the tour operators' selling programs, we are not convinced that its approach is economically sound. We believe it would be far more reasonable to apply the existing fare level for groups of 105 passengers, rather than the lower 154-passenger group fare, and note that the proposed fare would be below the minimum for a comparable group established in the Group Inclusive Tour Basing Fares to Hawaii case, Docket 20850.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof, it is ordered that:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A<sup>3</sup> attached hereto, and rules, regulations, and practices affecting such fares and provisions, are or will be unjust, unreasonable, unduly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto are suspended and their use deferred to and including June

<sup>1</sup> Revisions to Airline Tariff Publishers, Inc., Agent, Tariffs CAB Nos. 136 and 142.

<sup>2</sup> Braniff alleges that an agent normally bases his tour package on the lowest group fare available. In this case, for groups of 154 or more persons.

<sup>3</sup> Appendix A filed as part of the original document.

## NOTICES

[Docket No. 25262]

#### LUFTHANSA GERMAN AIRLINES Notice of Prehearing Conference and Hearing

Amendment of Foreign Air Carrier Permit Addition of Toronto, Canada, as an intermediate point.

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on April 10, 1973, at 10 a.m., local time, in Room 1031, North Universal Building, 1875 Connecticut Avenue NW., Washington, DC, before Administrative Law Judge Arthur S. Present.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before April 3, 1973.

Dated at Washington, D.C., March 6, 1973.

[SEAL] HARRY J. ZINK,  
Secretary.

#### CIVIL SERVICE COMMISSION

##### DENTAL HYGIENIST, COLUMBIA, MO.

##### Notice of Establishment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11073, the Civil Service Commission has established special minimum salary rates and rate ranges as follows:

GS-602 DENTAL HYGIENIST SERIES

Geographic coverage: Columbia, Mo.

Effective date: First day of the first pay period beginning on or after March 18, 1973

(PER ANNUM RATES)

Grade	1	2	3	4	5	6	7	8	9	10
GS-4.....	\$3,256	\$3,485	\$3,714	\$3,943	\$4,172	\$4,401	\$4,630	\$4,859	\$5,088	\$5,317
GS-5.....	8,722	8,979	9,236	9,493	9,750	10,007	10,264	10,521	10,778	11,035
GS-6.....	9,430	9,716	10,002	10,288	10,574	10,860	11,146	11,432	11,718	12,004

All new employees in the specified occupational level will be hired at the new minimum rates.

As of the effective date, all agencies will process a pay adjustment to increase the pay of employees on the roles in the affected occupational levels. An employee who immediately prior to the effective date was receiving basic compensation at one of the statutory rates shall receive basic compensation at the corresponding numbered rate authorized by this notice on or after each date. The pay adjustment will not be considered an equiv-

alent increase within the meaning of 5 U.S.C. 5335.

Under the provisions of section 3-2b, Chapter 571, FPM, agencies may pay the travel and transportation expenses to first post of duty under 5 U.S.C. 5723, of new appointees to positions cited.

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,  
Executive Assistant to  
the Commissioners.

#### FEDERAL COMMUNICATIONS COMMISSION

[Report 638]

#### COMMON CARRIER SERVICES INFORMATION<sup>1</sup>

##### Domestic Public Radio Services Applications Accepted for Filing<sup>2</sup>

MARCH 5, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

#### FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,  
Secretary.

<sup>1</sup> All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

<sup>2</sup> The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

**APPENDIX**  
**APPLICATIONS ACCEPTED FOR FILING**  
**DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE**

MARCH 5, 1973.

6246-C2-P-73—Northwestern Bell Telephone Co. (KFL287), C.P. to change antenna system and additional facilities to operate at 2.7 miles west-southwest of center of Grand Island, Grand Island, near on frequency 152.78 MHz.

6248-C2-P-73—Tele-Page, Inc. (New), C.P. for a new two-way station to operate on 152.21 MHz at Road 1258 between Highways 21 and 178, Orangeburg, S.C.

6302-C2-P-73—Nashville Mobilephone, Inc. (K1Y750), C.P. to add frequency 152.09 MHz at 1.75 miles west of Junction of U.S. 70 South and 100, Nashville, Tenn.

6303-C2-P-73—Massachusetts Connecticut Mobile Telephone Co. (KCC803), C.P. to add antenna site, control point and transmitter, operating on 152.12 MHz at Brushy Hill Road, Danbury, Conn.

6304-C2-P-73—Cincinnati Radiotelephone Systems, Inc. (KLF476), C.P. to add antenna location No. 4, to operate on 43.22 MHz at 4164 Halacre, Afton, OH.

6306-C2-P-73—Dial-A-Page, Inc. (New), C.P. for a new one-way signaling station, to operate on 156.70 MHz at 3600 Oakland Avenue, Ekhart, IN.

6306-C2-P-73—Anserphone of St. Lucie County, Inc. (KUC947), C.P. to change antenna location, operating on 156.70 MHz at 200 South Seventh Street, Fort Pierce, FL (one-way signaling).

6307-C2-P-73—Mobilphone Corp. (KSV992), C.P. to add location No. 2, operating on 158.70 MHz at 80 South Eighth Street, Minneapolis, MN (one-way signaling).

6309-C2-P-73—Calumet Radio Dispatch (KSB589), C.P. to change antenna system, and to replace transmitter, operating on frequency 152.09 MHz at 504 Broadway, Gary, IN.

6310-C2-P-73—North Alabama Paging Co. doing business as Walter Britt Smith (New), C.P. for a new one-way signaling station to operate on 158.70 MHz at 703 Band Street NE, Decatur, AL.

6311-C2-P-73—Mariannas Telephone Co. (NWA347), C.P. to change antenna system and to replace transmitter operating on 152.21 MHz at Iliagan Hill, Asan, Agaña, Guam, and to add a repeater station operating on 459.100 MHz at the same location, Also adding a control station to operate on 454.100 MHz at 1.9 miles southeast of Agaña, Guam.

6314-C2-P-73—General Communications Co. (KUC649), C.P. to add location No. 2 to operate on 35.22 MHz at Westover Reservoir Park, Morgantown, W. Va. and location No. 3 to operate on 35.22 MHz at Route 50, 2 miles east of Clarksburg, W. Va.

**Major Amendments**

1765-C2-P-73—Industrial Communications Systems, Inc. (KSV928), Los Angeles, Calif. Amend to add base facilities operating on 158.70 MHz at a location described as 1709 West Eighth Street, Los Angeles, CA. All other particulars of operation remain as reported in Public Notice No. 165 dated September 25, 1972.

4018-C2-P-73—Robert S. Dittion (KOA606), change base frequency from 152.21 MHz to 152.08 MHz. All other particulars remain as reported in Public Notice No. 578 dated January 10, 1972.

**RURAL RADIO SERVICE**

6247-C1-P-L-73—The Pacific Telephone & Telegraph Co. (New), C.P. for a new rural subscriber station to operate on 157.77 and 157.89 MHz at 7.5 miles east-southeast of Holtville, Calif.

6249-C1-P-L-73—Industrial Communications, Inc. doing business as Fort Arthur Mobile Phone (New), C.P. for a new rural subscriber station to operate at a temporary fixed location on frequency 158.58 MHz.

6308-C1-P-73—Illinois Bell Telephone Co. (KSH92), C.P. to change frequencies, power and to replace transmitter. Operating on 459.400, 459.425, 459.450, 459.475, 459.500, 459.550, 459.600, and 459.650 MHz at 4913 West Belmont Street, Chicago, IL.

6312-C1-P-73—South Central Bell Telephone Co. (New), C.P. for a new rural subscriber station to operate on 157.95 and 158.01 MHz at approximately 8.3 miles southwest of Houma, La.

FEDERAL REGISTER, VOL. 38, NO. 47—MONDAY, MARCH 12, 1973

**NOTICES**

**RURAL RADIO SERVICE—continued**

6315-C1-P-73—General Communications Service, Inc. (New), C.P. for a new rural subscriber station to operate at Office of Borderland Trading Post on AZ Highway 67N, 16 miles northeast of Junction with U.S. Highway 66, Arizona on frequency 158.49 MHz.

**POINT-TO-POINT MICROWAVE RADIO SERVICE**

6235-C1-P-73—South Central Bell Telephone Co. (KIV66), approximately 1.5 miles south-east of Paintsville, Ky. Latitude 37°47'45" N., longitude 82°48'05" W. C.P. to change antenna system and power; replace transmitter on frequencies 4050V and 4130V MHz toward White Oak, Ky.

6236-C1-P-73—Same (KYS48), 232 West Lexington Avenue, Winchester, KY. Latitude 37°59'35" N., longitude 84°11'02" W. C.P. to change power and replace transmitter on frequencies 3730H and 3810H MHz toward Stanton, Ky.

6237-C1-P-73—Same (KYC46), approximately 0.4 miles north of Centerville, Ky. Latitude 38°13'43" N., longitude 84°23'20" W. C.P. to add frequency 3910V MHz toward Clayville, Ky.; frequencies 10,870V and 11,115H MHz toward Lexington, Ky.

6238-C1-P-73—Same (WAY83), approximately 4.3 miles southeast of Clayville, Ky. Latitude 38°27'43" N., longitude 84°09'11" W. C.P. to add frequency 3870H MHz toward Williams-town, Ky.; frequency 3870V MHz toward Centerville, Ky.

6239-C1-P-73—The Mountain States Telephone & Telegraph Co. (KPS31), approximately 1.7 miles east of McCammon, Idaho. Latitude 42°37'48" N., longitude 112°09'56" W. C.P. to change points of communication on frequencies 10,715H and 10,955V MHz toward Lava Hot Springs, Idaho via passive reflector. Frequencies 11,685V and 11,445H MHz toward Soda Springs, Idaho via passive reflector.

6240-C1-P-73—Same (KPS32), approximately 5 miles east of Lava Hot Springs, Idaho. Latitude 42°38'53" N., longitude 111°55'10" W. C.P. to change antenna system and location on frequencies 11,405V and 11,645H MHz toward McCammon, Idaho via passive reflector. Frequencies 11,685V and 11,445H MHz toward Soda Springs, Idaho; antenna locations 11,985H and 11,445V MHz toward Montpelier, Idaho.

6243-C1-P-73—Same (KPS33), 210 North Main Street, Soda Springs, ID. Latitude 42°39'30" N., longitude 111°38'09" W. C.P. to change antenna system, points of communication and add lighting rod on frequencies 10,775V and 10,955H MHz toward Lava Hot Springs, Idaho via passive reflector. Frequencies 10,775V and 10,955H MHz toward Georgetown, Idaho.

6246-C1-P-73—United Telephone Company of the Carolinas, Inc. (KIC29), Savell Street at Highway 22, Greenwood, S.C. Latitude 34°10'19" N., longitude 82°08'32" W. Modify C.P. to add frequency 6286.14V MHz toward Ware Shoals, S.C.

6251-C1-P-73—General Telephone Company of the Southeast (New), 104 South Poplar Street, Monterey, TN. Latitude 36°06'58" N., longitude 86°16'05" W. C.P. for a new station on frequency 11,325V MHz toward Putnam, Tenn.

6279-C1-P-73—Pennsylvania Telephone & Telegraph Co. (KPG70), 1.7 miles west of Neah Bay, Bahokus Peak, Wash. Latitude 48°22'08" N., longitude 124°30'54" W. C.P. to add frequency 5987.4V MHz toward Mount Ellis Lookout, Wash.

6280-C1-P-73—Same (KPG69), 4.2 miles north-northwest of Suppho, Mount Ellis Lookout, Wash. Latitude 48°07'58" N., longitude 124°18'20" W. C.P. to change frequency to 6219.4V MHz toward Neah Bay, Wash.

6281-C1-P-73—Bell Telephone Company of Nevada (KPP92), Montezuma, 8 miles west of Goldfield, Nev. Latitude 37°42'06" N., longitude 117°22'57" W. Modification of license to delete frequencies 6004.5V and 6123.1V and two Lenkurt Electric Co. Type 74 transmitters toward Booker Mountain, Nev. (KPP93).

6282-C1-P-73—Southwestern Bell Telephone Co. (New), Arlington Stadium, Arlington, Tex. Latitude 32°45'19" N., longitude 97°05'07" W. C.P. for a new station on frequency 11,039H MHz toward Dallas, Tex.

**POINT-TO-POINT MICROWAVE RADIO SERVICE—continued**

6293-C1-P-73—Southern Bell Telephone & Telegraph Co. (KTF45), 237 Greene Street, Augusta, Ga. Latitude 33°28'30" N., longitude 81°58'10" W. C.P. to add frequency 6152.8V MHz toward Clarks Hill, S.C.

6294-C1-P-73—Same (KJX32), 0.8 mile south-southwest of Clarks Hill, S.C. Latitude 33°39'39" N., longitude 82°10'47" W. C.P. to add frequency 6375.2V MHz toward Thomson, Ga.; frequency 6375.2V MHz toward Augusta, Ga.

6295-C1-P-73—Same (KJX93), 2.7 miles northeast of Thomson, Ga. Latitude 33°29'43" N., longitude 82°28'34" W. C.P. to add frequency 6152.8V MHz toward Mitchell, Ga.; frequency 6152.8V MHz toward Clarks Hill, S.C.

6296-C1-P-73—Same (KJX94), 1.6 miles north-northeast of Mitchell, Ga. Latitude 33°14'29" N., longitude 82°41'48" W. C.P. to add frequency 6375.2V MHz toward Tennille, Ga.; frequency 6375.2V MHz toward Thomson, Ga.

6297-C1-P-73—Southern Bell Telephone & Telegraph Co. (KJX95), 1.9 miles east of Tennille, Ga. Latitude 32°56'10" N., longitude 82°40'44" W. C.P. to add frequency 6152.8V MHz toward Nickelsville, Ga.; frequency 6152.8V MHz toward Mitchell, Ga.; frequency 6545.2H MHz toward Mitchell, Ga.

6298-C1-P-73—Same (KJL23), 4.2 miles southeast of Nickelsville, Ga. Latitude 32°39'15" N., longitude 83°01'48" W. C.P. to add frequencies 6375.2V and 6226.9H MHz toward Tennille, Ga.

6299-C1-P-73—Southwestern Bell Telephone Co. (KYJ47), 715 Louisiana Street, Little Rock, AR. Latitude 34°44'30" N., longitude 92°16'20" W. C.P. to add frequency 6226.9H MHz toward Belfast, Ark.

6299-C1-P-73—Same (New), 2.5 miles northeast of Belfast, Ark. Latitude 34°26'36" N., longitude 92°28'03" W. C.P. for a new station on frequency 6974.8V MHz toward Little Rock, Ark.; frequency 5974.8H MHz toward Cove Creek, Ark.

6291-C1-P-73—Same (New), 0.11 mile northwest of Hot Springs, Ark. Latitude 34°30'18" N., longitude 93°04'40" W. C.P. for a new station on frequency 5974.8V MHz toward Cove Creek, Ark.

6292-C1-P-73—Same (New), Cove Creek, 3 miles south-southwest of Lonedale, Ark. Latitude 34°30'03" N., longitude 92°49'18" W. C.P. for a new station on frequency 6226.9V MHz toward Belfast, Ark.; frequency 6226.9H MHz toward Hot Springs, Ark.

6293-C1-P-73—The Mountain States Telephone & Telegraph Co. (New), southeast corner of Main and Second Street, Humboldt, Ariz. Latitude 34°30'03" N., longitude 112°14'19" W. C.P. for a new station on frequencies 11,405V and 11,645H MHz toward Cordes Junction, Ariz. via passive reflector.

6294-C1-P-73—Same (New), Cordes Junction, 8 miles southeast of Mayer, Ariz. Latitude 34°20'02" N., longitude 112°07'09" W. C.P. for a new station on frequencies 10,715H and 10,955V MHz toward Humboldt, Ariz. via passive reflector.

6295-C1-P-73—Public Service Telephone Co. (KVU90), 18 miles east of Knoxville, Ga. Latitude 32°48'06" N., longitude 83°58'11" W. Resubmitted C.P. to add frequency 6301.0H MHz toward Culloden, Ga.

6296-C1-P-73—Same (New), Old Post Road, Culloden, Ga. Latitude 32°51'44" N., longitude 84°05'37" W. Resubmitted C.P. for a new station on frequency 6019.3H MHz toward Knoxville, Ga.

6300-C1-P-73—Midwestern Relay Co. (WLJ68), 5 miles northwest of Fort Atkinson, Jefferson, Wis. Latitude 42°59'38" N., longitude 88°53'49" W. C.P. to add frequency 6034.2V MHz toward Stoughton, Wis.

6301-C1-P-73—Midwestern Relay Co. (WJL50), Stockbridge, Wis. Latitude 44°04'20" N., longitude 88°15'27" W. C.P. to add frequencies 6256.5H and 6315.9H MHz toward Neenah, Wis. (INFORMATIVE: Midwestern proposes to provide the television signal of WGN (Chicago) to a CATV system serving Stoughton, Wis., and the television signals of stations WGN (Chicago) and WWTW (Milwaukee) to a CATV system serving Neenah and Menasha, Wis.)

6297-C1-P-73—Southern Bell Telephone & Telegraph Co. (KIV59), 1645 Hampton Street, Columbia, SC. Latitude 34°00'29" N., longitude 81°01'42" W. C.P. to add frequency 6034.2V MHz toward Blaney, S.C.

6298-C1-P-73—Same (KJB47), two blocks southeast of U.S. Highway 1 (Kershaw), S.C. Latitude 34°10'10" N., longitude 80°47'15" W. C.P. to add frequency 6286.2H MHz toward Columbia, S.C.; frequency 6286.2V MHz toward Camden, S.C.

FEDERAL REGISTER, VOL. 38, NO. 47—MONDAY, MARCH 12, 1973

**NOTICES**

**POINT-TO-POINT MICROWAVE RADIO SERVICE—continued**

6299-C1-P-73—Same (KJ471), 1209 Broad Street, Camden, SC. Latitude 34°14'57" N., longitude 80°38'26" W. C.P. to add frequency 6034.2H MHz toward Blaney, S.C.

6328-C1-P-73—KHC Microwave Corp., doing business as United Video/Louisiana (New), just southwest of city, Bayou Sorrel, La. Latitude 30°09'45" N., longitude 91°19'58" W. C.P. for a new station on frequency 5945.2H MHz toward Donaldsonville, La.; 6034.2H MHz toward Calahoula, La.; 5945.2H MHz toward Baton Rouge, La.

6329-C1-P-73—Same (New), within Jennings Incorporated city boundaries, Jennings, La. Latitude 30°14'06" N., longitude 92°38'13" W. C.P. for a new station on frequency 5974.8H MHz toward Lacassine, La.; 2 miles south of Calahoula, La. Latitude 30°11'09" N., longitude 91°42'38" W. C.P. for a new station on frequency 6226.9V MHz toward Bayou Sorrel, La.; 6226.9V MHz toward Lafayette, La.

**Corrections**

5415-C1-P-73—The Mountain States Telephone & Telegraph Co. (New), Correct to read: C.P. for a new station on frequencies 11,405V and 11,645H MHz toward Marana, Ariz.; via passive reflector.

5416-C1-P-73—Same (New), Correct to read: C.P. to add frequencies 10,755H and 10,955V MHz toward Tumacac, Ariz., via passive reflector.

**(Major Amendments)**

6496-C1-P-70—KHC Microwave Corp., doing business as United Video/Louisiana (New), New Orleans, La. Change proposed station location to Marais and Canal Street, New Orleans, La., at latitude 29°57'24" N., longitude 90°04'34" W. Correct polarization on frequency 5989.7 MHz from H to V toward Dufrene, La. Delete frequency 6075.6H MHz on azimuth 288°44' toward Dufrene, La.

6497-C1-P-70—Same (New), Dufrene, La. Change station location to 0.8 mile northwest of Dufrene, La., at latitude 29°58'49" N., longitude 90°24'09" W. Correct frequencies and azimuths to 6241.7H on azimuth 87°54' toward New Orleans, La. and 6301.0V MHz on azimuth 284°04' toward Vacherie, La. Delete frequencies 6271.4H and 6390.0V MHz on azimuth 281°34' toward Vacherie, La., and 6271.4H and 6390.0H MHz on azimuth 88°39' toward New Orleans, La.

6498-C1-P-70—Same (New), Vacherie, La. Change station location to 0.1 mile southeast of Vacherie, La., at latitude 30°00'49" N., longitude 90°42'46" W. Correct polarization on frequency 5989.7 MHz to H on azimuth 168°55' toward Dufrene, La. Correct frequency and azimuth to 6152.8H MHz on azimuth 289°11' toward Donaldsonville, La. Delete frequencies 6078.5V MHz on azimuth 101°24' toward Dufrene, La., and 5989.7H MHz on azimuth 289°45' toward Donaldsonville, La.

6499-C1-P-70—Same (New), Donaldsonville, La. Change station location to 0.6 mile west of Donaldsonville, La., at latitude 30°06'27" N., longitude 91°01'22" W. Correct frequency and azimuth to 6197.2H MHz on azimuth 109°01' toward Vacherie, La. Add Bayou Sorrel, La., as a point of communication on frequency 6286.2H MHz on azimuth 339°31' toward Baton Rouge, La.

6500-C1-P-70—Same (New), Baton Rouge, La. Change station location to within Baton Rouge Incorporated area at latitude 30°28'06" N., longitude 91°11'20" W. Correct frequencies and azimuth to 6286.2V MHz on azimuth 203°36' toward Bayou Sorrel, La. Delete frequencies 6049.0V MHz and 6108.3V MHz on azimuth 291°30' toward Blanks, La., and 5986.7V MHz and 6078.5V MHz on azimuth 159°28' toward Donaldsonville, La.

6504-C1-P-70—Same (New), Lafayette, La. Station location 4.5 miles southwest of Lafayette at latitude 30°09'51" N., longitude 92°05'18" W. Correct frequencies and azimuths to new points of communication to 5974.8V MHz on azimuth 88°07' toward Calahoula, La., and 6123.1V MHz on azimuth 280°09' toward Crowley, La. Delete frequencies 5989.7V MHz and 6049.9V MHz toward Rayne, La., on azimuth 300°29'.

6506-C1-P-70—Same (New), Crowley, La. Station location 1.5 miles west of Crowley at latitude 30°12'46" N., longitude 92°24'10" W. Correct frequencies and azimuths to 6345.5V MHz on azimuth 276°17' toward Jennings, La., and 6049.8V MHz on azimuth 99°59' toward Lafayette, La. Delete frequencies 5980.0H and 6049.0V MHz on azimuth 79°51' toward Rayne, La. and 5989.7H and 6049.0H MHz on azimuth 272°22' toward Roanoke, La.

6506-C1-P-70—KHC Microwave Corp., doing business as United Video/Louisiana (New), Lacassine, La. Change station location to 3 miles west of Lacassine at latitude 30°13'40"

## Major Amendments—Continued

- N., longitude 92°57'40" W. Correct frequencies and azimuths to 6226.9V MHz on azimuth 256°16' toward Lake Charles, La., and 6404.8V MHz on azimuth 88°27' toward Jennings, La. Delete frequencies 6241.7V and 6404.8V MHz on azimuth 274°17' toward Mossville, La., and 6271.4H and 6212.0H MHz on azimuth 92°11' toward Crowley, La.
- 6507-C1-P-70—Same (New), Vinton, La. Change proposed station location to 7 miles south-southeast of Vinton, La., at latitude 30°05'07" N., longitude 93°31'40" W. Correct frequencies and azimuths to 6404.8V MHz on azimuth 253°16' toward Port Neches, Tex., and 6226.9H MHz on azimuth 71°21' toward Lake Charles, La. Delete frequencies 6078.6H and 6152.8H MHz on azimuth 336°20' toward Oretta, La.; 6137.9V and 5989.7V MHz on azimuth 94°01' toward Roanoke, La.; 5960.0V MHz and 6049.0V MHz on azimuth 160°44' toward Lake Charles, La.; and 5989.7H and 6137.9H MHz on azimuth 245°13' toward Orange, Tex.
- 6508-C1-P-70—Same (New), Lake Charles, La. Station location 0.5 mile southwest of Lake Charles at latitude 30°09'54" N., longitude 93°15'18" W. Correct frequency and azimuth to 5974.8H MHz on azimuth 251°29' toward Vinton, La., and add 6093.5H MHz on azimuth 78°07' toward new point of communication at Lacassine, La. Delete frequencies 6271.4V and 6360.3V MHz on azimuth 340°45' toward Mossville, La.
- 6509-C1-P-70—Same (New), Port Neches, Tex. Change proposed station location to 2 miles east of Port Neches at latitude 29°58'45" N., longitude 93°55'50" W. Correct frequencies and azimuths to 6093.5H MHz on azimuth 235°26' toward La Belle, Tex., and 6093.5V MHz on azimuth 73°03' toward Vinton, La. Delete frequencies 6241.7H and 6404.8H MHz on azimuth 64°59' toward Mossville, La., and 6301.0H and 6360.3H MHz on azimuth 270°54' toward Beaumont, Tex.
- 6510-C1-P-70—Same (New), La Belle, Tex. Change proposed station location 2.5 miles south of La Belle at latitude 29°50'25" N., longitude 94°09'41" W. Correct frequencies and azimuths to 6197.2H MHz on azimuth 271°23' toward West Winnie, Tex., and 6197.2V MHz on azimuth 55°19' toward Port Neches, Tex. Delete frequencies 6019.3H and 6078.6H MHz on azimuth 90°43' toward Orange, Tex., and 5960.0V and 6049.0V MHz on azimuth 278°49' toward Grayburg, Tex.
- 6511-C1-P-70—Same (New), West Winnie, Tex. Change proposed station location to 6 miles west of Winnie at latitude 29°50'48" N., longitude 94°29'05" W. Correct frequencies and azimuths to 5974.8H MHz on azimuth 265°30' toward Mont Belvieu, Tex., and 5974.8V MHz on azimuth 91°13' toward La Belle, Tex. Delete frequencies 6271.4V and 6330.7V MHz on azimuth 259°09' toward Liberty, Tex.
- 6512-C1-P-70—Same (New), Mont Belvieu, Tex. Change proposed station location to 5 miles east of Mont Belvieu at latitude 29°49'27" N., longitude 94°48'25" W. Correct frequencies and azimuths to 6345.5H MHz on azimuth 254°24' toward Channelview, Tex., and 6286.2V MHz on azimuth 85°21' toward West Winnie, Tex. Delete frequencies 5989.7V and 6078.6V MHz on azimuth 78°59' toward Grayburg, Tex., and 5960.0H and 6019.3H MHz on azimuth 234°04' toward Barrett, Tex.
- 6513-C1-P-70—KHC Microwave Corp., doing business as United Video/Louisiana (New), Channelview, Tex. Change proposed station location to 1.5 miles south of Channelview at latitude 29°45'02" N., longitude 95°06'25" W. Correct frequencies and azimuths to 6093.5V MHz on azimuth 272°15' toward Houston, Tex., and 6152.8H MHz on azimuth 74°15' toward Mont Belvieu, Tex. Delete frequencies 6271.4H and 6330.7H MHz on azimuth 53°55' toward Liberty, Tex., and 6241.7H and 6375.2H MHz on azimuth 248°17' toward Houston, Tex.
- 3889-C1-P-73—CPI Microwave, Inc. (WPE45), change station location to 4.2 miles southeast of Driftwood, Tex. Latitude 30°04'07" N., longitude 98°04'39" W. and change frequency to 6241.7V MHz on azimuth 205°30' toward new point of communication at New Braunfels.
- 3890-C1-P-73—Same (WPE46), change station location to 8.5 miles west of New Braunfels, Tex. Latitude 29°46'04" N., longitude 98°14'35" W. Change frequency to 6108.3V MHz on azimuth 214°04' toward new point of communication at San Antonio.
- 3892-C1-P-73—Same (WPE48), change station location to corner of Hilderbrand and Devine, San Antonio, Tex., and change frequency to 10.895H on azimuth 196°34' toward station WOAI-TV, San Antonio. (All other particulars same as reported on public notice dated December 4, 1972.)

## SATELLITE COMMUNICATIONS SERVICE

## Major Amendment

- 84-CSG-P-70—Communications Satellite Corp. (New), location: Kwajalein, Marshall Islands. Amendment proposes use of 32-foot diameter with G/T of 51.7 dB/K, in lieu of 90-100 foot diameter antenna originally proposed, with new power output of 300 watts, maximum e.i.r.p. of 78 dBw in main beam and 32.5 dBw/4 kHz in horizontal plane. Transmissions will be in 5925-6425 MHz band and reception in 3700-4200 MHz band. Operational range of azimuths changed to 140-160° with minimum elevation of 10°. Applicant also proposes a slight change in coordinates to 8°43'50" N., and 167°44'30" E. All other particulars same as reported public notice dated March 2, 1970.

# **FEDERAL MARITIME COMMISSION ARGENTINA/UNITED STATES GULF NORTHBOUND AND SOUTHBOUND POOLING AGREEMENT**

## **Notice of Agreement Filed**

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 2, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## **Notice of agreement filed by:**

Thos. E. Stakem, Esquire, Macleay, Lynch, Bernhard & Gregg, 1625 K Street NW., Washington, DC 20006.

Agreement No. 10039, between Empresa Lineas Maritimas Argentinas (E.L.M.A.) and Delta Steamship Lines, Inc., provides for the establishment of a pooling arrangement for the apportionment of freight revenue on all cargo (with certain differing exceptions northbound and southbound, respectively), transported by the parties on owned or chartered vessels from Argentine ports within the La Plata/Rosario range, both inclusive, to U.S. Gulf of Mexico ports within the Brownsville, Tex./Key West, Fla. range, both inclusive (Annex I), and from U.S. Gulf of Mexico ports within the Brownsville, Tex./Key West, Fla. range, both inclusive, to Argentine ports within the La Plata/Rosario range, both inclusive (Annex II). The intent is that the lines will equally participate in the cargo revenue generated by both of them when operating within the scope of the agreement.

The parties will each maintain both northbound and southbound a minimum of 18 sailings during each pool period (12 months) subject to conditions of force majeure. Sailings for a period of less than 12 months will be on a pro rata basis.

Provisions with respect to (1) adjustments in the event of a sailing deficiency, (2) calculation of revenues from pooled cargo, (3) pool accounting and settlement, and (4) arbitration, are set forth in the agreement. The agreement will become effective upon approval by the respective governmental authorities, and will remain in effect for three (3) years thereafter, unless earlier canceled as provided therein.

By order of the Federal Maritime Commission.

Dated: March 7, 1973.

FRANCIS C. HURNEY,  
Secretary.

## **Notice of Agreement Filed**

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 22, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## **Notice of agreements filed by:**

Mr. Leonard Putnam, City Attorney, City of Long Beach, Suite 600 City Hall, Long Beach, Calif. 90802.

Agreement No. T-2750, between the City of Long Beach (City) and United States Lines (U.S.L.), is a preferential assignment of a marine container terminal at Berth 230, Pier G, and water area adjacent thereto in the Port of Long Beach, Calif. U.S.L. is authorized to use the assigned premises and improvements thereon to conduct a marine terminal. U.S.L. will pay \$51,471 per each 3-month period for the premises, including land and water areas, but excluding the wharf structure and all other improvements. Also, U.S.L. will pay a sum equal to 2.5575 percent per each 3-month period of the total actual cost of construction of the wharf structure on the assigned premises. Finally, U.S.L. shall pay a sum equal to 2.9375 percent per each 3-month period of the total actual cost of construction of the marine terminal and related appurtenances and improvements, excluding land and water areas and the wharf structure. Rates, charges, regulations, and practices of U.S.L. shall be subject to review and control by the City.

Agreement No. T-2750-A, between the City and U.S.L., is a container freight station lease (CFS) located at Pier A in the Harbor District of the City of Long Beach, containing approximately 159,947 square feet, together with the container freight station, garage and offices located thereon. The leased premises will be used for a container freight station; a truck terminal; for the parking, storage, repair, and maintenance of its trucks, trailers, and containers; for the loading and unloading of containers, as general offices; and for uses incidental thereto. U.S.L. shall pay to the City for the use of the leased premises and all improvements located thereon, a quarterly rental in the sum of \$13,035.75. The term of this lease shall expire on June 30, 1978, or on the date the Preferential Assignment Agreement (T-2750) entered into by and between the parties, shall terminate, whichever shall occur later.

Agreement No. T-2750-B, between the City and U.S.L., is a preferential assignment for the use of two container cranes for use by U.S.L. for the handling of cargo containers at premises to be assigned to U.S.L. pursuant to the wharf assignment contained in Agreement No. T-2750. More specifically, the City agrees to grant to U.S.L. nonexclusive assignments of those certain items of personal property referred to as Paceco container cranes. The term of this agreement shall commence as of the first day of the calendar month immediately following approval of this agreement and Agreements Nos. T-2750 and T-2750-A. U.S.L. shall pay to the City for the use of the secondarily assigned crane, the sum of \$125 per hour or any portion thereof, of use, with a minimum use of 4 hours at a time, payable within 10 days from date of receipt by U.S.L. of a billing for such use. In addition, U.S.L. shall pay to the

City, for the use of the preferentially assigned cranes, a sum equal to 11.75 percent per annum of the total cost of construction of each of said cranes, payable in quarterly payments in advance, on the first day of each quarter while this assignment agreement is in effect with respect to each of the cranes and while the crane, or cranes, are available for use on a preferential basis. In the event the Wharf Agreement (T-2750) or the CFS Lease (T-2750-A) shall, for any reason expire or terminate prior to the expiration of this agreement (June 30, 1978), either party hereto shall have the option to terminate the agreement upon thirty (30) days' written notice to the other.

By order of the Federal Maritime Commission.

Dated: March 7, 1973.

FRANCIS C. HURNEY,  
Secretary.

If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## **Notice of agreement filed by:**

Edwin Longcope, Attorney, Hill, Betts & Nash, 26 Broadway, New York, NY 10004.

Agreement No. 10040, a cooperative working arrangement between Flota Mercante Gran Centroamericana, S.A. (Flomerca) and Pan American Mail Line, Inc. (PAM), provides for the establishment of a specialized roll-on/roll-off transportation service to be initially operated between the port of Santo Tomas de Castilla, Guatemala and ports in the State of Florida. Under the agreement the following pertinent aspects are:

- (1) Flomerca shall lease a specialized vessel that it shall place at the disposal of the service;
- (2) Flomerca shall provide the specialized administrative personnel necessary for the

handling of the operations of the service in Guatemala.

(3) PAM shall provide the rest of the equipment necessary for the handling and operation of the service. It shall also provide all financing for the entire operation both initially and subsequently in order to establish the service permanently other than an initial monetary contribution to be made by Flomerca for the installation and operation of the service.

(4) PAM shall also provide all skilled personnel for handling the service in the United States as well as those that may be necessary on the high seas.

(5) Flomerca shall receive a stated percentage of the profits of the service during the first year of the agreement, which percentage may be increased provided conditions permit and the parties agree.

(6) The service shall operate under the name of "Flomerca Trailer Service," which name must be used in the identification of the vessel or vessels employed in the service, as well as in the bills of lading and other documents utilized.

(7) Chester, Blackburn & Roder, Inc., shall be the parties' agent in Florida. Flomerca shall be the agent in Guatemala. The commission percentages for the handling of the agency in each country are specified in the agreement.

(8) The agreement shall have a duration of 2 years and may be extended for a like period.

By order of the Federal Maritime Commission.

Dated: March 7, 1973.

FRANCIS C. HURNEY,  
Secretary.

##### Notice of agreement filed by:

Cyrus C. Guidry, Port Counsel, Board of Commissioners of the Port of New Orleans, Post Office Box 60046, New Orleans, LA 70160.

Agreement No. T-2749, between Lykes Bros. Steamship Co., Inc. (Lykes) and the Port of New Orleans (Port), is an agreement whereby the Port grants Lykes a permit to install, maintain, and operate at its own risk and expense a high density container storage system, including a 40 ton Clyde container gantry crane, the estimated cost of which will exceed \$400,000, provided that Port will not exercise its right under Dock Department Tariff, FMC-T No. 1 to cancel Lykes' First Call on Berth Privilege Agreement covering Henry Clay Avenue Wharf Marshalling Area prior to the expiration of 20 years from the date of the completion of the installation of the crane, or from the date of the first commercial use of the crane, whichever first occurs; and, provided further that Port will continue to grant Lykes a First Call on Berth Privilege upon such portions of the Nashville Avenue Wharf and/or Henry Clay Avenue Wharf, during the 20-year period as will meet Lykes' needs. Port retains the right to assign to others the use of the Henry Clay Avenue Wharf Marshalling Area when Lykes is not making full use thereof, and Lykes agrees to make available the crane facilities, at such charges which Lykes may establish from time to time, provided such rates and charges shall be reasonable and competitive with charges for similar facilities and services at the Port of New Orleans and other ports in the U.S. Gulf.

##### Notice of agreement filed by:

Alvin L. Sklow, Director, Real Estate, Port of Seattle, Post Office Box 1209, Seattle, WA 98111.

Agreement No. T-2748, between the Port of Seattle (Port) and Western Pioneer, Division of Swiftsure, Inc. (WP), provides for the lease of certain property which WP will use for the operation of a steamship business, including loading and unloading of vessels and related terminal and business operations. WP will pay the Port \$1,132.50 per month for rental of approximately 15,400 square feet of space located in Building No. 6, plus 300 square feet of ground area, plus berthage at Berth 6, all at Pier 90 situated at Seattle, Wash. The rental is in lieu of all applicable Port tariff charges. The monthly rental charge pertaining to berthage, however, is open for renegotiation if the usage of the facility by WP and/or other vessels controlled or chartered by the WP should increase by an amount in excess of 15 percent of 164 days.

## FEDERAL POWER COMMISSION

[Docket No. E-7925]

## CINCINNATI GAS &amp; ELECTRIC CO.

## Order Accepting for Filing and Suspending Proposed Tariff Sheets

MARCH 1, 1973.

On December 19, 1972, Cincinnati Gas & Electric Co. (CG&E) tendered for filing a revised rate applicable to the Union Light Heat & Power Co. (Union), a wholly owned subsidiary. The amount of the proposed rate increase is \$1,460,302 based on test year 1971 data. The proposed filing supersedes the present agreement<sup>2</sup> as supplemented. CG&E has proposed an effective date of March 1, 1973.

The proposed rate increase raises both demand and energy monthly charges from \$1.80 per kilowatt to \$2.726 per kilowatt and 4.28 mills per kilowatt-hour to 5.012 mills per kilowatt-hour, respectively. In addition, the proposed filing introduces a tax clause and revises the fuel clause to increase the basing point and reflect current system efficiency. The fuel clause revision results in updating the base cost of fuel and reducing the size of adjustment from \$0.5 to \$0.1 per MBTU. Also, CG&E requests a rate of return of 8 percent.

A copy of the filing was served on Union. The filing was noticed on January 23, 1973, with comments due on February 16, 1973. Union filed a petition to intervene on the grounds that Union's customers will ultimately bear the impact of the proposed increased rates, and therefore it should be a party to the proceedings to assure its customers adequate representation.

Our review of CG&E's filing indicates that certain issues are raised which may require development in an evidentiary proceeding. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

Finally, so that the Commission will have a full, complete, and up-to-date record on all of the issues presented we shall require CG&E to submit cost and revenue data for calendar year 1972. In this connection we would point out that our caveat on page 7 in Duke Power Co., Opinion No. 641 in Docket No. E-7557, is particularly appropriate, wherein we stated:

... our filing requirements are not to be construed as a limitation on evidence which may be proffered as an aid to us in determining just and reasonable rates. All evidentiary material relevant to a fair determination of cost and revenue expectations may be appropriately presented in filings before us.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal

<sup>1</sup> Designated Rate Schedule FPC No. 35.

<sup>2</sup> Designated Rate Schedule FPC No. 2 as supplemented.

Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in CG&E's Rate Schedule FPC No. 35, as proposed in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(4) Participation of the above-named petitioner for intervention in this proceeding may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Ch. I), a public hearing shall be held, commencing with a prehearing conference on July 24, 1973, at 10 a.m., e.d.t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in CG&E's Rate Schedule FPC No. 35 as proposed herein.

(B) At the prehearing conference on July 24, 1973, CG&E's prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice.

(C) On or before April 16, 1973, CG&E shall file cost and revenue data for the 1972 calendar year. On or before July 16, 1973, the Commission staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before July 30, 1973. Any rebuttal evidence by CG&E shall be served on or before August 13, 1973. The public hearing herein ordered shall convene on August 28, 1973, at 10 a.m., e.d.t.

(D) Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see delegation of authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(E) Pending hearing and a final decision thereon, CG&E's proposed tariff sheets are suspended for 5 months and the use thereof deferred until August 1, 1973.

(F) The above-named petitioner is hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in the petition to intervene: *And provided, further*, That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in these proceedings.

(G) Pursuant to § 2.59(c) of the Commission's rules of practice and procedure, CG&E shall promptly serve a copy of all filings upon the above-mentioned intervenor.

(H) The Secretary shall cause prompt publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

## CITIES SERVICE GAS CO.

## Notice of Petition To Amend

MARCH 5, 1973.

Take notice that on January 16, 1973, Cities Service Gas Co. (Petitioner), Post Office Box 25128, Oklahoma City, OK 73125, filed in Docket No. CP72-15 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act on November 1, 1971 (46 FPC 1110), as amended on July 17, 1972 (48 FPC —), by authorizing Petitioner to construct and operate facilities as an additional point of receipt of natural gas from Arkansas Louisiana Gas Co. (Arkla) for exchange, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner is authorized in the subject docket to receive gas from Arkla at various specified delivery points for exchange. Petitioner proposes to establish a fourth point of receipt of gas from Arkla to receive gas produced from the AEC-Coastal States' Baird No. 1 well. The additional delivery point will be near Petitioner's Pampa 20-inch pipeline in Woodward County, Okla. (Baird Exchange Point), where Petitioner proposes to construct and operate measuring and appurtenant facilities to receive exchange volumes of gas from Arkla.

It is stated that the total cost of the facilities proposed herein is \$4,160, and will be paid from treasury cash. It is also stated the proposed additional point of receipt will augment the exchange of natural gas between Petitioner and Arkla and will result in the delivery of available gas to the consuming public at locations where it is needed at minimal costs.

Petitioner states that on December 22, 1972, Arkla filed with the Commission a petition to amend the Commission's order in Docket No. CP72-9 by author-

izing Arkla to exchange gas with Petitioner at a fourth point.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-85]

## COLUMBIA GAS TRANSMISSION CORP.

## Notice of Proposed Changes in Rates and Charges

MARCH 5, 1973.

Take notice that Columbia Gas Transmission Corp. (Columbia) on February 28, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed changes would increase Columbia's revenues from jurisdictional sales and service by \$57,985,000 for the 12-month period ending October 31, 1972, as adjusted for known and measurable changes through July 31, 1973. The proposed effective date is April 14, 1973. Copies of the filing were served upon Columbia's jurisdictional customers and the State public service commissions of the States in which Columbia conducts its business.

The filing is made pursuant to the Commission's order issued March 10, 1971, 45 FPC 398, in Docket No. CP71-132, wherein the Commission approved the final step in the realignment of the seven jurisdictional Appalachian companies of the Columbia Gas System into a single transmission company. Ordering paragraph E of that order provided that the instant rate filing should be either in support of \* \* \* then existing rates and rate zones or in support of any new rates or rate zones which Columbia may propose at that time. Columbia does not propose any changes in its rate zones in this filing.

Columbia states that the increased revenues to be derived from the new rates will be due to an increase in rate of return from 8.15 percent to 9 percent, increased depreciation rates and increases in cost of gas transported by others for Columbia. Columbia states that these additional revenues are needed to increase the internal generation of capital to attract more outside capital to aid Columbia in its search for new gas.

[Dockets Nos. E-7971, E-7972]

COMISION FEDERAL DE ELECTRICIDAD,  
DIVISION NORTE, ET AL.

## Notice of Applications

FEBRUARY 28, 1973.

Take notice that Comision Federal de Electricidad, Division Norte (CFE) filed with the Federal Power Commission on January 5, 1973, the following applications: (1) An application in Docket No. E-7971 for a permit, pursuant to Executive Order No. 10485, dated September 3, 1953, authorizing the operation and maintenance at the international border between the United States and Mexico of certain constructed facilities for the transmission of electric energy between the United States and Mexico; and (2) an application in Docket No. E-7972 for an order, pursuant to section 202(e) of the Federal Power Act, authorizing the transmission of electric energy from the United States to Mexico by means of the aforementioned facilities. Central Power & Light Co. (Central), filed a joinder on January 5, 1973, in CFE's application in Docket No. E-7972.

CFE is an agency of the Republic of Mexico. Central is incorporated under the laws of the State of Texas with its principal place of business at Corpus Christi, Tex.

CFE proposes to transmit electric energy from the United States to Mexico over an existing three phase, 60 hertz, 12,000 volt transmission line which extends overhead from a point in Texas near the international Amistad Dam on the Rio Grande River, northwest of Del Rio, Val Verde County, Tex., across the Rio Grande and international border to a point in Mexico. Accordingly, CFE seeks an order (Docket No. E-7972) authorizing the exportation of energy to Mexico in an amount not to exceed 3 million kw.-hr. per year at a maximum rate of transmission of 500 kw., and a permit (Docket No. E-7971) authorizing the operation and maintenance of the 12,000 volt line at the United States-Mexican Border.

The electric energy proposed to be exported by CFE will be sold by Central to CFE in accordance with the terms and conditions and at the rates set forth and included in the Electric Service Contract, dated September 25, 1969, between Central and CFE, copies of which were submitted as exhibits to the aforementioned applications. Such energy will be delivered by Central to CFE in Texas at the point near Amistad Dam described above. The energy purchased from Central by CFE will be utilized in Mexico to provide electric service in an area which was formerly used as a work camp in connection with the construction of Amistad Dam and vicinity.

The source of the electric energy to be supplied by Central to CFE for exportation will be Central's interconnected electric generating plants. Central represents that it has generating, transmission, and transformer capacity in excess of that required to supply demands on it from within the United States in an

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-85]

COLUMBIA GULF TRANSMISSION CO.  
Notice of Proposed Changes in Rates and Charges

MARCH 5, 1973.

Take notice that Columbia Gulf Transmission Co. (Columbia Gulf) on February 28, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by \$16,462,000 annually for the 12-month period ending October 31, 1972, as adjusted for known and measurable changes through July 31, 1973. The proposed effective date is April 14, 1973. Copies of the filing were served upon Columbia Gulf Transmission Corp.

The increased rates reflect increases in Columbia Gulf's depreciation rates, rate of return from 8.15 percent to 9 percent, and in the method of computing Federal income taxes. Columbia Gulf alleges that the increased revenues to be derived from such changes are needed to increase internally generated funds in order to attract additional outside capital to develop new sources of gas supply having far greater costs than historically experienced by the industry.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4639 Filed 3-9-73; 8:45 am]

amount sufficient to furnish the electric energy at the rate of supply sought by Purchaser (CFE).

Any person desiring to be heard or to make any protest with reference to said applications should on or before March 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

#### EASTERN SHORE NATURAL GAS CO. ET AL.

##### Notice of Filings in Compliance With Commission Orders

MARCH 2, 1973.

Take notice that each of the parties listed herein has made a filing pursuant to sections 4 and 5 of the Natural Gas Act and Part 154 of the regulations promulgated thereunder.

Any person desiring to be heard or to make any protest with reference to said filing should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

Date filed and company	Action
Feb. 5, 1973: Eastern Shore Natural Gas Co.	5 superseding service agreements increasing service under R/S 428.1. Certificate authorization by order issued 1-9-73, in Docket No. CP73-80, requested effective date 30 days after filing.
Feb. 1, 1973: Transcontinental Gas Pipe Line Corp.	Cancellation X-53, a limited term exchange agreement with United Gas Pipe Line Co. The term of the agreement was for a period of 1 year from the date of certificate authorization. Certificate authorization was issued 1-11-72, in Docket No. CP72-72, requested effective date 12-24-72.
Feb. 2, 1973: United Gas Pipe Line Co.	Revised tariff sheets providing for an optional delivery point under Rate Schedule X-47, a transportation agreement with Transcontinental Gas Pipe Line Co. Certificate authorization was issued 1-19-73 in Docket No. CP72-192 et al., requested effective date 1-19-73.

#### NOTICES

Date filed and company	Action
Feb. 6, 1973: Transcontinental Gas Pipe Line Corp.	Tariff sheets comprising initial Rate Schedules X-56 and X-59 with Mid-Louisiana Gas Co. for the exchange, transportation, and storage of gas. Certificate authorization was issued 1-12-73 in Docket No. CP73-82, requested effective date 1-12-73.
Jan. 26, 1973: Southern Natural Gas Co.	Rate schedule, rate change quality statement pursuant to ordering paragraph of the Commission's Opinion Nos. 506 and 508-A.
Jan. 30, 1973: Trunkline Gas Co.	Revised tariff sheet for FPC Gas Tariff, Original Volume 1 in compliance with the Commission's order of 12-8-72 in RP73-35 to modify its FGA, requested effective date of 8-1-72, request of waiver of provisions of § 154.22 of Commission's regulations.
Jan. 30, 1973: Panhandle Eastern Pipe Line Co.	Substitute First Revised Sheet No. 43-1 to its FPC Gas Tariff, original Volume No. 1 pursuant to Commission's order of 12-8-72 in RP73-36 to modify its FGA, company requests effective date of 8-1-72 and requests waiver of 154.22 of Commission's regulations.
Jan. 2, 1973: Pennsylvania Gas Co.	Refund of \$3,625.30 to its sole jurisdictional customer, N.E. Heat and Light Co., pursuant to orders of 11-20-62 in Docket Nos. G-18475 and G-18490-10 and order of 1-9-73 in Docket No. RP71-45. Refund to flow through applicable jurisdictional portion received in supplier refunds.
Dec. 14, 1972: United Natural Gas Co.	Refund to its jurisdictional customers in accordance with the settlement agreement of 4-3-70 approved by order of 5-4-70 in RP70-24 and 10-15-71 in RP72-12.
Feb. 6, 1973: United Gas Pipe Line Co.	Cancellation of Rate Schedule X-46, a short term agreement dated 8-6-71 with Transcontinental Gas Pipe Line Corp. authorized by order of 1-11-72 in Docket No. CP72-72, requested effective date 12-24-72.
Jan. 29, 1973: Texas Gas Transmission Corp.	Revised Exhibit A to service agreement under Rate Schedule G-3 which relocates the Sebring Meter Station in Webster County, Ky., and adds a new delivery point for an existing market area in Henderson County, Ky. The relocation is authorized by order issued 4-24-72 in Docket No. CP72-305. Requested effective date is 3-2-73.
Jan. 30, 1973: Transcontinental Gas Pipe Line Corp.	Tariff sheets comprising Rate Schedule X-57, an exchange agreement of 5-30-72 with North Pennsylvania Gas Co., requested effective date 3-1-73.
Jan. 30, 1973: Transcontinental Gas Pipe Line Corp.	Tariff sheets establishing an additional delivery point in Morris County, N.J., under an exchange agreement dated 7-1-71 with East. Trans. Corp. on file as Transco's Rate Schedule X-4. Requested effective date of 3-1-73.

#### EL PASO NATURAL GAS CO. Notice of Proposed Changes in Rates and Charges

MARCH 5, 1973.

Take notice that on February 14, 1973, El Paso Natural Gas Co. (El Paso) tendered for filing proposed changes respecting all Southern Division System rate schedules contained in its FPC Gas Tariff, Original Volume No. 1, and as well, Rate Schedules X-7, X-14, and X-25 contained in its Third Revised Volume No. 2 and Rate Schedules FS-25, FS-26, FS-27, FS-28, FS-29, FS-30, FS-34, FS-35, and FS-45 contained in its Original Volume No. 2A, and that on February 26, 1973, El Paso tendered for

filing corrections to the proposed change which are incorporated in this notice. The change would effect a uniform increase of 1.19 cents per Mcf to each of the rate schedules, and El Paso proposed an effective date of April 1, 1973, requesting waiver of the 45-day notice requirement of § 154.38(d)(v) of the regulations.

El Paso states that the increase was filed in accordance with the provisions of Article 19, Purchased Gas Adjustment Provision (PGAC), contained in the general terms and conditions of FPC Gas Tariff, Original Volume No. 1. The proposed increase was comprised of the changes in El Paso's annualized purchased gas cost which occurred during the period August 13, 1972, through March 31, 1973 (\$0.57 per Mcf), and a surcharge amount attributable to unrecovered purchased gas cost increased accrued in Account 191 during the period August 13 through December 31, 1972 (\$0.62 per Mcf).

Copies of these filings have been mailed to all parties of record, all Southern Division System customers, and interested State regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

EXXON CORP. ET AL.

#### Order Providing for Hearing and Suspension of Proposed Changes in Rates, Allowing Rate Changes To Become Effective Subject to Refund<sup>1</sup>

MARCH 2, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under

<sup>1</sup> Does not consolidate for hearing or dispose of the several matters herein.

#### NOTICES

the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining there to (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until

date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

 ‡‡ The pressure base is 15.025 p.s.i.a.

The proposed increases of Pubco Petroleum Corp., Northwest Production Corp., Caroline Hunt Trust Estate under Supplement No. 8, Hassie Hunt Trust, Skelly Oil Co., Amoco Production Co. under Supplements Nos. 9 and 8 to its FPC Gas Rate Schedules Nos. 220 and 463, respectively, and Chevron Oil Co., Western Division, exceed the rate limit for a 1-day suspension and are therefore suspended for 5 months.

The proposed increases of Sun Oil Co., Texaco, Inc., and Mobil Oil Corp., do not exceed the rate limit for a 1-day suspension and therefore are suspended for 1 day from the expiration of the 60-day notice period or the contractual effective date, whichever is later.

The proposed increases of Exxon Corp. reflect the increase in the Wyoming conservation tax which became effective January 1, 1973. Consistent with prior Commission action on similar tax increase filings, the proposed increases are permitted to become effective subject to existing suspension proceedings.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Ch. I, Part 2, § 2.56).

The rate increases granted in these cases have been reviewed in the light of and are consistent with the Economic Stabilization Act of 1970 as amended, Executive Order No. 11695, and the rules and regulations issued thereunder.

[Docket No. G-3079, et.]

## EXXON CORP.

Order Amending Orders Issuing Certificates of Public Convenience and Necessity, Substituting Applicant and Respondent, Accepting Notices of Succession for Filing, and Redesignating FPC Gas Rate Schedules

FEBRUARY 27, 1973.

On November 14, 1972, Exxon Corp. (Petitioner) filed in Docket No. G-3079, et al., a petition to amend the orders issuing certificates of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act to Humble Oil & Refining Co. (Humble) by substituting Petitioner as certificate holder, all as more fully set forth in the petition to amend and in the appendix below.

Effective January 1, 1973, Petitioner merged Humble and proposes to continue all sales of natural gas in interstate commerce theretofore authorized to be made by Humble.

Petitioner has filed notices of succession to the FPC gas rate schedules of Humble. On December 26, 1972, Exxon filed an agreement and undertaking in which it assumes all refund obligations of Humble under section 4 of the Natural Gas Act and § 154.102 of the regulations under the Natural Gas Act.

After due notice by publication in the FEDERAL REGISTER, no petition to intervene, notice of intervention, or protest to the granting of the petition to amend has been filed.

The Commission finds:

It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity to Humble be amended by substituting Petitioner as certificate holder, that Petitioner should be substituted in lieu of Humble in pending proceedings, that the notices of succession and agreement and undertaking submitted by Petitioner should be accepted for filing, and that the related FPC gas rate schedules should be redesignated accordingly.

The Commission orders:

(A) The orders issuing permanent and temporary certificates<sup>1</sup> to Humble are amended by substituting Petitioner as certificate holder, and in all other respects said orders remain in full force and effect.

(B) Petitioner is substituted in lieu of Humble as party applicant, respondent, or intervenor in all pending proceedings.

(C) The notices of succession submitted by Petitioner are accepted for filing effective as of January 1, 1973, and Humble's FPC gas rate schedules are redesignated as those of Petitioner and shall bear the same numeral designations.<sup>2</sup>

(D) The agreement and undertaking submitted by Petitioner is accepted for filing. Petitioner shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

<sup>1</sup> Humble's outstanding certificates and rate schedules are set forth in the appendix to this order.

GEORGE MITCHELL & ASSOCIATES, INC.  
Notice of Application

MARCH 6, 1973.

Take notice that on February 26, 1973, George Mitchell & Associates, Inc. (Applicant), 3900 I Shell Plaza, Houston, TX 77002, filed in Docket No. C173-569 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity author-

## NOTICES

izing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America from the Northeast Provident City Field Area, Colorado and Lavaca Counties, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 150,000 Mcf of gas per month at 45 cents per Mcf at 14.65 p.s.i.a. for 2 years within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## GULF STATES UTILITIES CO.

Order Accepting Rate Schedules for Filing,  
Suspending Rates, Granting Intervention,  
and Consolidating Proceedings

MARCH 1, 1973.

On January 26, 1973, Gulf States Utilities Co. (Gulf States) tendered for filing an incomplete application, pursuant to Part 35 of the Commission's regulations, for approval of rate schedules under an agreement dated December 12,

See Attachment A.

1972, between Gulf States and Cajun Electric Cooperative, Inc. (CEPCO), (formerly Louisiana Electric Cooperative, Inc.). Notice of such filing was published on February 5, 1973, and February 15, 1973 was given as the last day on which to file protests and petitions to intervene.

The filing was completed by submission of additional data on February 20, 1973.

CEPCO, a generating cooperative, recently completed construction of its 200 mw. Big Cajun station. An interim agreement dated August 3, 1971, between Gulf States, Louisiana Electric Cooperative, Inc. (now CEPCO), Central Louisiana Electric Co., Inc. (CLECO), and Louisiana Power and Light Co. (L.P. & L.), was accepted for filing by the Commission by order dated August 7, 1972.<sup>2</sup> Under that agreement, Gulf States, L.P. & L., and CLECO were to provide startup power and energy to the new station, and, until acceptance of the rates filed herein, were to purchase the output of the new station.

Dow Chemical Co. (Dow) and the Cities of Lafayette and Plaquemine, La. (Cities) filed petitions to intervene in response to the notice of filing of the interim agreement in Docket No. E-7696. These petitions alleged general anticompetitive aspects of the interim agreement. At the time of such protests petitioners were already involved in the proceedings of Docket No. E-7676, an application to issue securities, in which similar allegations of anticompetitive behavior on the part of Gulf States, L.P. & L. and CLECO were made. Therefore, the interim agreement was accepted for filing effective September 13, 1971, but set for hearing in consolidation with the proceedings in Docket No. E-7676 by the Commission's order of August 7, 1972, in Docket Nos. E-7676 and E-7696.

Under the terms of the proposed Power Interconnection Agreement filed in this docket, and set forth in the notice, Gulf States will provide transmission service for power and energy generated at Big Cajun Station to four distribution member cooperatives of CEPCO who now purchase energy from Gulf States under individual service agreements.<sup>3</sup>

<sup>2</sup> Order Accepting Rate Schedules for Filing, Waiving Notice Requirements, Granting Intervention, Granting Late Petition to Intervene, and Consolidating Proceedings. Dockets Nos. E-7696 and E-7676.

<sup>3</sup> The Agreement will supersede the following Federal Power Commission Rate Schedules, and Gulf States has requested that they be terminated concurrently with the initiation of service under the agreement:

- (1) FPC Schedule 70—Jefferson Davis Electric Cooperative, Inc.
- (2) FPC Schedule 73—Beauregard Electric Cooperative, Inc.
- (3) FPC Schedule 74—Dixie Electric Membership Corp.
- (4) FPC Schedule 75—Pointe Coupee Electric Membership Corp.
- (5) Agreement dated Aug. 3, 1971, between Louisiana Electric Cooperative, Inc., Central Louisiana Electric Co., Inc., Louisiana Power & Light Co. which was accepted for filing by FPC correspondence issued Aug. 7, 1972.

## NOTICES

In addition, Gulf States will provide emergency and replacement energy and, when the member cooperatives' demand has grown equal to Big Cajun's assured capability, such additional power as is necessary to meet member cooperatives' requirements.<sup>4</sup> Gulf States will also purchase energy generated at Big Cajun in excess of member cooperatives' requirements.

## PROPOSED RATE SCHEDULES

The monthly charges specified for transmission service at the voltage levels indicated are as follows:

	Per kw. demand
Under 69 kv.	\$0.60
69 and 138 kv.	0.45
230 kv.	0.40

An allowance for losses of 0.15 mill per kv.-hr. is added.

Billing demand is defined as the highest maximum 30-minute demand established during the 12 months preceding the billing month.

During the period 1973 through 1975, Gulf States will purchase that part of the capacity of Big Cajun Station in excess of member cooperatives' requirements at a rate of \$1.25 per kw. per month. For energy associated with excess capacity and for surplus energy (available through the term of the contract) Gulf States will pay a charge equal to CEPCO's incremental gas fuel cost plus 0.5 mill per kw.-hr. Sales of excess capacity and energy are subject to availability of gas at the prices stated in Cajun's contract with Texaco, Inc., as shown in Attachment B below.

The charges specified for emergency and replacement energy are the same as those now on file in Gulf States' Interconnection Agreement with CLECO and LP&L. The charges specified for additional power are the same as those now on file for service to the four member cooperatives who will now be supplied under the terms of the instant submittal. CEPCO's charges for sales of excess and surplus capacity and energy to Gulf States are not subject to Commission jurisdiction.

## PROTESTS AND PETITIONS TO INTERVENE

In general, the petitions to intervene which have been filed allege that Gulf States is involved in a conspiracy to suppress and defeat an interconnection and pooling agreement between the Cities, Dow, and CEPCO.

Dow filed on February 15, 1973, a protest and petition to intervene, in which it stated that Dow, CEPCO, and the Cities are parties to an interconnection and pooling agreement dated August 16, 1968. This agreement was attached as Appendix B to the protest and petition to intervene by the Cities in Docket No. E-7663 and is incorporated by reference in Dow's petition.

<sup>4</sup> Gulf States' charges for emergency energy, replacement energy, and additional power are set forth in service schedules supplementing the agreement and are summarized in Attachment B.

Dow alleges that the agreement of December 12, 1972, in this docket is inconsistent with its rights under the agreement of August 16, 1968, and that Gulf States, "acting unlawfully and in concert with Louisiana Power & Light Co. and Central Louisiana Electric Co." has prevented the effective operation of the 1968 agreement. Dow alleges that CEPCO is willing to carry out its obligations under the 1968 agreement but has been forced "because of economic duress" to enter into the December 12 agreement.

Dow requests that, in the event Gulf States' application is granted, it be conditioned to protect the rights of the parties to the 1968 agreement.

The Cities have filed a protest and petition in which they raise antitrust issues similar to those raised by the same parties in Dockets Nos. E-7663, E-7676, E-7682, E-7696, and E-7805.

Cities incorporate by reference their pleadings in the foregoing dockets.

Cities move for rejection of the rate schedules or in the alternative for suspension of the rate for at least 1 day and to consolidate this docket into Docket No. E-7676.

Gulf States filed its answers to the protests and petitions to intervene on February 26, 1973.

The convoluted procedural history surrounding these proceedings has been set forth in the order issued by the Commission August 7, 1972, in Dockets Nos. E-7676 and E-7696.<sup>5</sup> Little purpose would be served in repeating this history and it is hereby incorporated by reference.

The Commission has reviewed the contentions which are set forth in the petitions of Dow and Cities in the light of its overall responsibility in the administration of its functions under the Federal Power Act. The Commission is aware of its responsibilities with regard to interconnection and coordination of facilities in order to assure an adequate and reliable supply of electric energy throughout the United States at the lowest practical rate consonant with the maximum utilization and conservation of natural resources.

The Commission is further aware of its responsibilities for enhancement of ultimate interconnection and interchange of electric energy as well as other activities in furtherance of electric energy capability. All these Commission responsibilities are directed toward safeguarding costs, rates, and reliability.

Based upon similar allegations by Dow and Cities in Dockets Nos. E-7663 and E-7682, the Commission found itself unable to determine either the merits of the contentions or the authority of the Commission to grant relief without further proceedings. The Commission therefore instituted a separate proceeding in Docket No. E-7676 for purposes of providing a hearing in which evidence would be presented and authority to grant relief would be cited.

The allegations put forth in the petitions of Dow and Cities in this docket present issues substantially similar to

See footnote 2, supra.

those to be considered by the Commission in Docket No. E-7676. Consequently, it is appropriate to consolidate the issues here presented with those in the previous docket.

The Commission is aware, however, that to the extent the filing in this docket proposes changes in presently existing rate schedules it is a superseding rate. Such a rate is subject to suspension under the Federal Power Act. It is clear that this filing proposes such changes.

## The Commission finds:

(1) The public interest would not be served by rejection of the tendered filing pending final determination of the issues set forth here in Docket No. E-7676.

(2) Interventions by the Cities of Lafayette and Plaquemine, La., and Dow Chemical Co. may be in the public interest for purposes of Commission consideration of the issues raised in the petitions.

(3) Petitioner's contentions do not address themselves directly to unreasonable rates or charges, but to the possibility of unduly discriminatory practices in the services contemplated by the filed rate schedules. However, such discrimination, if it exists, may have an effect on the filed rates. Therefore, in order to protect the possibility of refund, the Commission will order a 1-day suspension in the effectiveness of the filed rate.

(4) The matters asserted and the activities alleged in the petitions of Dow and Cities raise issues which should be heard in a proceeding separate from this docket.

(5) The petitions filed by Dow and Cities should be considered as complaints under section 306 of the Federal Power Act.

(6) The petitions filed in this docket by Cities and Dow raise issues which are substantially similar to those being considered in Docket No. E-7676, a proceeding now before the Commission, and it is therefore appropriate that the complaints filed in this docket should be consolidated with Docket No. E-7676 for purposes of hearing and decision.

(7) The period of public notice given in this matter is reasonable.

## The Commission orders:

(A) Dow Chemical Co. and the Cities of Lafayette and Plaquemine, La., are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however*, The admission of the aforementioned petitioners shall not be construed as recognition by the Commission that the petitioners might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Federal Power Act, particularly sections 202, 205, 206, 306, and 307 thereof and the Commission's rules of practice and procedure, an investigation is hereby instituted to determine the justification of the protests and petitions to intervene by the Cities of Lafayette and Plaquemine, La., and Dow Chemical Co., and

See footnote 3, supra.

## NOTICES

if necessary to prescribe such relief as is appropriate within the boundary of the Federal Power Act.

(C) All further proceedings in this docket shall be consolidated with the complaint proceeding previously instituted in Docket No. E-7676.

(D) Pending hearing and decision thereon, Gulf States' proposed rate schedule and the rates and charges contained therein, as tendered on January 26, 1973, and completed on February 20, 1973, are accepted for filing and hereby suspended and the use thereof deferred until March 23, 1973. (One-day suspension from March 22, 1973, 30 days

after filing was completed February 20, 1973, in accordance with § 35.13).

(E) Inasmuch as Central Louisiana Electric Co., Inc., and Louisiana Power & Light Co. were named as parties in Docket No. E-7676, with which this proceeding will be consolidated, a copy of the Cities' and Dow's complaints shall be served on them and their response thereto shall be filed with the Commission within 15 days of the date of issuance of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

## GULF STATES—CAJUN ELECTRIC POWER COOPERATIVE, INC., POWER INTERCONNECTION AGREEMENT

## Summary of Service Schedules

**Schedule X—Emergency Service.** Applicable for first 48 hours of unscheduled outage.  
Charge: Greater of—(a) 12.5 mills per kw.-hr., (b) Cost to produce or purchase, including any standby costs, plus 1 mill per kw.-hr.  
**Schedule Y—Replacement energy.** Applicable to scheduled outage; curtailment or deferred use of fuel supply; unscheduled outage after initial 48 hours.  
Charge: Incremental production cost plus 2 mills per kw.-hr. in on-peak hours (3 mills per kw.-hr. in off-peak hours). Peak hours defined as 6 a.m. to 10 p.m. of the same day except Sundays and six specified holidays.

**Schedule REA—Additional power.** Charges and billing determinants:  
Demand: \$1.55 per kw. per month, includes first 200 kw.-hr. per kw. demand.  
Energy: 4.75 mills per kw.-hr., usage in excess of demand allowance.

**Fuel adjustment:** A corresponding adjustment in the energy charge for variations in average fuel cost above or below 2.1 mills per kw.-hr.  
**Billing demand:** Maximum monthly 30-minute integrated demand.  
**Voltage adjustment:** 5 percent discount for delivery above 34.5 kv.  
**Tax adjustment:** Adjustment to reflect new or increased taxes after the effective date of the rate schedule.

[Docket No. E-7690]

NEPEX MANAGEMENT COMMITTEE, NEW ENGLAND POWER POOL  
Notice of Application

MARCH 5, 1973.

Take notice that on February 5, 1973, the NEPOOL Management Committee (Applicant), filed a supplement to the NEPOOL Power Pool Agreement, dated as of September 1, 1971. The supplement adopts uniform rules for calculating EHV PTF costs of NEPOOL participants, including rules for calculating charges and depreciation percentages pursuant to § 13.9(c) of the NEPOOL Agreement. The Applicant requests the recommended rules for calculating costs of EHV PTF under the NEPOOL Agreement take effect on November 1, 1971.

Any person desiring to be heard or to make any protest with reference to such application should, on or before March 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the

Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Project 13]

NIAGARA MOHAWK POWER CORP.  
Notice of Issuance of Annual License  
MARCH 5, 1973.

On March 2, 1970, Niagara Mohawk Power Corp., Licensee for Green Island Project No. 13 located in the vicinity of the town of Green Island, Albany County, N.Y., on the Hudson River filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on December 28, 1970.

The license for Project No. 13 was issued effective March 3, 1921, for a period ending March 2, 1971. An annual license was issued from the original date of expiration until March 2, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Niagara Mohawk Power Corp., for continued operation and maintenance of Project No. 13.

Take notice that an annual license is issued to Niagara Mohawk Power Corp. (Licensee), under Section 15 of the Federal Power Act for the period March 3, 1973, to March 2, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Green Island Project No. 13, subject to the terms and conditions of its license.

KENNETH F. PLUMB,  
Secretary.

ADVANCE PAYMENTS AGREEMENTS  
Notice of Filing

MARCH 5, 1973.

Take notice that each of the parties listed herein has made a filing pursuant to sections 4 and 5 of the Natural Gas Act and Part 154 of the regulations promulgated thereunder.

Any person desiring to be heard or to make any protest with reference to said

filing should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein, in must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

Date filed and company	Action
Feb. 22, 1973: Michigan Wisconsin Pipe Line Co.	Agreement dated 12-27-72 with Champlin Exploration, Inc., 1972 Oil & Gas Partnership; Agreement dated 12-27-72 with Dyco Petroleum Corp.; agreement dated 12-27-72 with Ferguson Oil Co.
Feb. 5, 1973: Cities Service Gas Co.	Amendment dated 12-29-72, to the agreement dated 3-10-71, between The Rodman Corp., Basin Petroleum Corp., and Jack H. Chouteau, an individual, as Sellers, and Cities Service Gas Co.

[Docket No. E-8056]

OTTER TAIL POWER CO.  
Notice of Application

MARCH 5, 1973.

Take notice that on March 1, 1973, Otter Tail Power Co. (Applicant), of Fergus Falls, Minn., filed an application with the Federal Power Commission seeking authority pursuant to section 204 of the Federal Power Act to negotiate privately for the underwriting of 300,000 common shares, \$5 par value, of the company.

The company asserts that a portion of its cash requirements in 1973 should be financed through the issuance of additional common shares to be publicly offered. To be authorized to select the investment bankers for the underwriting of the common shares through private negotiations rather than through competitive bidding will be to the advantage of company shareholders and customers. The Applicant requests authority to negotiate privately for the un-

## NOTICES

derwriting of common shares so that the company will not be precluded by § 34.2 (f) (2) and § 34.1(a) (4) of the Commission's rules and regulations requiring public invitation of proposals for the underwriting of shares.

Any person desiring to be heard or to make any protest with reference to such application should, on or before March 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Project 67]

SOUTHERN CALIFORNIA EDISON CO.  
Notice of Issuance of Annual License  
MARCH 5, 1973.

On February 12, 1970, Southern California Edison Co., Licensee for Big Creek No. 2A and No. 8 Project No. 67 located in Fresno County, Calif., on the San Joaquin River filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on August 21, 1970.

The license for Project No. 67 was issued effective March 3, 1921, for a period ending March 2, 1971. An annual license was issued from the original date of expiration until March 2, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of the licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Southern California Edison Co., for continued operation and maintenance of Project No. 67.

Take notice that an annual license is issued to Southern California Edison Co. (Licensee), under section 15 of the Federal Power Act for the period March 3, 1973, to March 2, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Big Creek No. 2A and No. 8 Project No. 67, subject to the terms and conditions of its license.

[Project 120]

SOUTHERN CALIFORNIA EDISON CO.  
Notice of Issuance of Annual License

MARCH 5, 1973.

On February 11, 1970, Southern California Edison Co., Licensee for Big Creek No. 3 Project No. 120 located in Fresno, Kern, Madera, Los Angeles, and Tulare Counties, Calif., on the San Joaquin River filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on August 20, 1970.

The license for Project No. 120 was issued effective June 8, 1922, for a period ending March 3, 1971. An annual license was issued from the original date of expiration until March 3, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Southern California Edison Co. for continued operation and maintenance of Project No. 120.

Take notice that an annual license is issued to Southern California Edison Co. (Licensee), under section 15 of the Federal Power Act for the period March 4, 1973, to March 3, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Big Creek No. 3 Project No. 120, subject to the terms and conditions of its license.

Secretary.

[FR Doc.73-4632 Filed 3-9-73; 8:45 am]

[Docket No. CP73-226]

SOUTHERN NATURAL GAS CO.  
Notice of Application

MARCH 5, 1973.

Take notice that on February 26, 1973, Southern Natural Gas Co. (Applicant), Post Office Box 2563, Birmingham, AL 35202, filed in Docket No. CP73-226 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the acquisition and operation of certain natural gas facilities from Gulf Oil Corp. (Gulf), in Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authorization to acquire from Gulf for \$20,466 and operate approximately 11,600 feet of 4½-inch pipe, together with the rights-of-way incident thereto, all located in St. Martin Parish, La. Applicant states that this pipe has been used to deliver natural gas into Applicant's system pursuant to gas purchase contracts with Gulf, Union Texas Petroleum, Amoco Production Co.,

and Freeport Oil Co. Applicant further states that it has contracted with Gulf to acquire the aforesaid pipe because Gulf advised it that Gulf could no longer operate economically the pipeline to transport gas for others and that Gulf presently has no gas available for sale to Applicant. Applicant indicates that it will utilize the pipe to transport gas delivered to it under present gas purchase contracts and any future contracts for the sale of gas from section 28 field in St. Martin Parish.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-4629 Filed 3-9-73; 8:45 am]

[Docket No. CP72-181]

**PANHANDLE EASTERN PIPELINE CO.**  
**Notice of Availability of Staff Final**  
**Environmental Impact Statement**

MARCH 9, 1973.

Notice is hereby given in the captioned docket that on March 9, 1973, as required by § 2.82(b) of Commission Order No. 415-C, a final environmental statement prepared by the staff of the Federal Power Commission; was made available. This statement deals with the environmental impact in the proceeding under Docket No. CP72-181, Panhandle Eastern Pipeline Co. for certificate of public convenience and necessity under section 7(c) of the Natural Gas Act for construc-

tion of 89 miles of 20-inch gas transmission line, approximately 300 miles of small diameter gathering pipeline, 25; 800 compressor horsepower; and other appurtenant facilities. These facilities would be located in Weld, Adams, and Arapahoe Counties in Colorado, and Seward, Haskell, Grant, and Kearney Counties in Kansas.

This statement has been sent to the Council on Environmental Quality and to Federal, State, and local agencies, has been placed in the public files of the Commission's Office of Public Information, Room 2523, General Accounting Office Building, 441 G Street NW., Washington, DC, and at its regional office located at 819 Taylor Street, Fort Worth, TX. Copies may be ordered from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

A staff draft environmental impact statement was circulated for comments on February 5, 1973. The Commission found that it was necessary and appropriate in the public interest to dispense with the 45-day time period for review and comment and shortened the period to 30 days to afford the Commission the opportunity to decide within the gas contract deadline period if the merits of this application serve the public convenience and necessity.

The 30-day period for comment expired on March 7, 1973. All comments received are attached to the final environmental impact statement in accordance with § 2.82(b) of Commission Order No. 415-C.

KENNETH F. PLUMB,  
Secretary.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(3) and 205(d) (40 U.S.C. 481(a)(3) and 486(d)), authority is delegated to the Secretary of Defense to enter into a contract for a period not to exceed 10 years for the purchase of refuse disposal utility services from the North Davis Refuse Disposal Board, Farmington, Utah, for the benefit of Hill Air Force Base, Utah.

b. The delegation of authority shall be subject to all provisions of law with respect to such a contract.

c. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

d. A copy of said contract, and any amendments thereto, shall be furnished to the General Services Administration as soon as practicable after the execution thereof.

ARTHUR F. SAMPSON,  
Acting Administrator  
of General Services.

MARCH 6, 1973.

**DEPARTMENT OF LABOR**

**Office of the Secretary**

**DOVER SHOE MANUFACTURING CO.**  
**Investigation Regarding Certification of**  
**Eligibility of Workers To Apply for Adjust-**  
**ment Assistance**

The Department of Labor has received a Tariff Commission report containing an affirmative finding under section 301 (c)(2) of the Trade Expansion Act of 1962 with respect to its investigation of a petition for determination of eligibility to apply for adjustment assistance filed on behalf of workers of the Dover Shoe Manufacturing Co., Somersworth, N.H. (TEA-W-171). In view of the report and the responsibilities delegated to the Secretary of Labor under section 8 of Executive Order 11075 (28 FR 473), the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under title III, chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart B of 29 CFR Part 90.

Interested persons should submit written data, views, or arguments relating to the subjects of investigation to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C., on or before March 23, 1973.

Signed at Washington, D.C., this 5th day of March 1973.

GLORIA G. VERNON,  
Director, Office of  
Foreign Economic Policy.

MCC 7879, A-1 Corporation Investigation and Revocation of Certificate of Registration, now assigned March 13, 1973, at Easton, Mass., is postponed indefinitely.

MC 107295 Sub 631, Pre-Fab Transit Co., now being assigned continued hearing April 17, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc 73-4711 Filed 3-9-73; 8:45 am]

**FOURTH SECTION APPLICATIONS FOR**  
**RELIEF**

MARCH 7, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and

charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42639—Resin plasticizers from specified points in Texas. Filed by Southwestern Freight Bureau, agent (No. B-396), for interested rail carriers. Rates on resin plasticizers, in tank carloads, as described in the application, from specified points in Texas, to specified points in Florida.

Grounds for relief—Market competition.

Tariff—Supplement 49 to Southwestern Freight Bureau, agent, tariff ICC 5019. Rates are published to become effective on April 4, 1973.

FSA No. 42640—Lumber and related articles from points in southwestern territory. Filed by Southwestern Freight Bureau, agent (No. B-386), for interested rail carriers. Rates on lumber and related articles, in carloads, as described in the application, from points in southwestern territory, to points in Michigan on the ELS.

Grounds for relief—Rate relationship. Tariff—Supplement 16 to Southwestern Freight Bureau, agent, tariff ICC 5056. Rates are published to become effective on April 10, 1973.

FSA No. 42641—Volcanic scoria or slag from points in New Mexico and Texas. Filed by Southwestern Freight Bureau, agent (No. B-394), for interested rail carriers. Rates on volcanic scoria or slag, not pumice stone, in carloads, as described in the application, from specified points in New Mexico, also Planeport, Tex., to points in Illinois, Michigan, and Wisconsin on the CNW.

Grounds for relief—Market and carrier competition, short-line distance formula and grouping.

Tariff—Supplement 16 to Southwestern Freight Bureau, agent, tariff ICC 5056. Rates are published to become effective on April 10, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 229]

**MOTOR CARRIER BOARD TRANSFER**  
**PROCEEDINGS**

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment

resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 2, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74073. By order of February 26, 1973, the Motor Carrier Board, on reconsideration, approved the transfer to Atlantic Coast Express, Inc., Elizabeth, N.J., of the operating rights in certificate No. MC-133264 issued March 9, 1971, to Apollo Warehousing Corp., Avenel, N.J., authorizing the transportation of general commodities, with exceptions, between points in Union County, N.J., on the one hand, and, on the other, New York, N.Y. Robert B. Pepper, registered practitioner, 168 Woodbridge Avenue, Highland Park, N.J., representative for transfer. Arthur D. Bernstein, 1054 31st Street NW., Washington, DC, attorney for transferee.

No. MC-FC-74075. By order of February 26, 1973, the Motor Carrier Board, on reconsideration, approved the transfer to Atlantic Coast Express, Inc., Elizabeth, N.J., of the operating rights in certificate No. MC-32967 issued May 13, 1941, to Klasten Bros., Inc., Closter, N.J., authorizing the transportation of general commodities, with exceptions, between points in Hudson, Bergen, Passaic, Union, Middlesex, Somerset, and Essex Counties, N.J., on the one hand, and, on the other, New York, N.Y. Robert B. Pepper, registered practitioner, 168 Woodbridge Avenue, Highland Park, N.J., representative for transfer. Arthur D. Bernstein, 1054 31st Street NW., Washington, DC, attorney for transferee.

No. MC-FC-74201. By order entered February 20, 1973, the Motor Carrier Board approved the transfer to Lee & Backes, Inc., Glenburn, N. Dak., of the operating rights set forth in certificate of registration No. MC-96736 (Sub-No. 1), issued February 26, 1969, to Marvin A. Baska and Ruth Baska, doing business as M & R Transfer, Mohall, N. Dak., evidencing a right to engage in operations in interstate or foreign commerce in motor freight service between Minot and Sherwood, N. Dak., via U.S. Highway No. 83 serving all intermediate points, State Highways Nos. 5 and 28, as well as portions of county roads covering the intermediate points of Glenburn, Lansford, Mohall, and Loraine, N. Dak., restricted against service from Minot to Minot Air Force Base and from the Air Force Base to Minot, N. Dak. Online W. Backes, Post Office Box 998, Minot, ND 58701, attorney for applicants.

No. MC-FC-74210. By order entered February 15, 1973, the Motor Carrier Board approved the transfer to Julius R.

Taylor, Jr., Ned R. Taylor, and Alex Taylor, a partnership, doing business as Taylor Truck Line, Charleston, Miss., of the operating rights set forth in certificates Nos. MC-106565 (Sub-No. 2), MC-106565 (Sub-No. 7), and MC-106565 (Sub-No. 10), issued August 1, 1966, August 27, 1956, and June 3, 1971, respectively, to Julius R. Taylor, doing business as Taylor Truck Line, Charleston, Miss., authorizing the transportation of general commodities, with the usual exceptions, between specified points in Mississippi, and between specified points in Tennessee and Mississippi. Donald B. Morrison, 717 Deposit Guaranty National Bank Building, Post Office Box 22628, Jackson, MS 39205, attorney for applicants.

No. MC-FC-74224. By order of February 16, 1973, the Motor Carrier Board approved the transfer to Kennelly Moving & Storage Co., Inc., Jacksonville, Fla., of the operating rights in certificate No. MC-133417 (Sub-No. 1) issued June 3, 1970 to Joseph G. Kennelly, Jr., doing business as Kennelly Moving & Storage, Jacksonville, Fla., authorizing the transportation of household goods between

specified areas in Florida and Georgia, subject to certain restrictions. Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207, attorney for applicants.

No. MC-FC-74261. By order of February 20, 1973, the Motor Carrier Board approved the transfer to Beaverson Trucking, Inc., Wooster, Ohio, of the operating rights in permits No. MC-88621 (Sub-No. 4), MC-88621 (Sub-No. 6), MC-88621 (sub-No. 7), and MC-88621 (Sub-No. 13) issued June 2, 1947, March 1, 1954, June 17, 1949, and July 25, 1962 respectively to H. G. Stauffer Trucking Co., Inc., Cleveland, Ohio, authorizing the transportation of various commodities from, to, and between points in Connecticut, Delaware, Illinois, Iowa, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia. A. Charles Tell, 100 East Broad Street, Columbus, OH 43215, attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1973  
Notice of Establishment

The Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped was established by Public Law 92-28, June 23, 1971 (85 Stat. 77, 41 U.S.C. 46-48) (hereinafter the Act) for the purpose of directing the procurement of selected commodities and services by the Federal Government to qualified workshops serving blind and other severely handicapped individuals with the objective of increasing the employment opportunities for these individuals. The Committee is required to establish and publish in the FEDERAL REGISTER a procurement list of:

(1) The commodities produced by any qualified nonprofit agency for the blind

or by any qualified nonprofit agency for other severely handicapped, and

(2) The services provided by any such agency, which the Committee determines are suitable for procurement by the Government pursuant to the Act.

The Act further provides that any entity of the Government which intends to procure any commodity or service on the procurement list, shall procure such commodity or service, at the price established by the Committee, from a qualified nonprofit agency for the blind or such agency for the other severely handicapped if the commodity or service is available within the normal period required by that Government entity. However, this requirement shall not apply to the procurement of any commodity or service which is available from Federal Prison Industries, Inc.

A Government entity is defined as any entity of the legislative branch or judicial branch, any executive agency or military department (as such agency and department are respectively defined by sections 102 and 105 of title 5, United

States Code), the U.S. Postal Service, and any nonappropriated fund instrumentality under the jurisdiction of the Armed Forces.

Notice is hereby given pursuant to section 2 of the Act that Procurement List 1973 is established as set forth below. Procurement List 1973 supersedes the Initial Procurement List, August 26, 1971 (36 FR 16982) and subsequent changes thereto through February 10, 1973.

By the Committee.

CHARLES W. FLETCHER,  
Executive Director.

REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 32—National Defense CHAPTER VII—DEPARTMENT OF THE AIR FORCE

### SUBCHAPTER A—ADMINISTRATION PART 804—MORTUARY AFFAIRS

Part 804, Subchapter A of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

- Sec. 804.0 Purpose.
- Subpart A—Mortuary Benefits
- 804.1 Scope of coverage.
- 804.2 Eligibility for benefits.
- 804.3 Disposition of remains.
- Subpart B—Disposition Procedures
- 804.10 Person (next of kin) entitled to direct disposition of remains.
- 804.11 Unclaimed remains.
- 804.12 Military prisoners.
- Subpart C—Deaths Within the Continental United States Occurring Away From Home Installation (AWOL).
- 804.20 Deaths while absent without leave (AWOL).
- 804.21 Deaths at Veterans' Administration facilities.
- Subpart D—Nonrecovered Remains
- 804.30 Memorial flags, services, and markers.
- 804.31 Reimbursement of memorial service expenses.
- Subpart E—Transportation and Shipment of Remains
- 804.40 Transportation authorized.
- 804.41 Responsibility for determining methods of shipment.
- 804.42 Modes of transportation authorized for shipment of remains and escorts.
- 804.43 Stopover of remains en route to final destination.
- 804.44 Through shipment of remains by common carrier.
- 804.45 Delivery of remains from common carrier terminal.
- 804.46 Shipment after interment.
- 804.47 Transportation of disinterred remains.
- Subpart F—Escorts
- 804.50 For whom escort is authorized.
- Subpart G—Government Cemeteries
- 804.60 National cemeteries eligibility.
- 804.61 Persons eligible for interment.
- 804.62 Interment policy for dependents.
- 804.63 Reservation of grave site.
- Subpart H—Air Force Cemeteries
- 804.70 Definitions.
- 804.71 Establishment, maintenance and disposal.
- 804.72 Eligibility.
- 804.73 Interment of remains and reservation of grave sites in base cemeteries.
- Subpart I—Cemetery Markers
- 804.80 Types furnished.
- 804.81 Application for markers.
- 804.82 Shipment and erection costs.
- Subpart J—Handling of Reimbursable Cases Outside the Continental United States
- 804.90 Furnishing mortuary services and supplies on reimbursable basis.

## Sec. Subpart K—Military Honors

804.100 Policy and responsibility.

AUTHORITY: 10 U.S.C. 8012, except as otherwise noted.

### § 804.0 Purpose.

(a) This part contains procedures for transportation and disposition of remains of deceased Air Force personnel and certain other categories of deceased personnel. It also explains what mortuary benefits are authorized; escorts; Government and Air Force cemeteries; cemetery markers; and military honors.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

### Subpart A—Mortuary Benefits

#### § 804.1 Scope of coverage.

Certain mortuary services and items, as described in the following paragraphs of this section, may be provided at Government expense or on a reimbursable basis to care for the remains of deceased persons cited in § 804.2. Certain other benefits to which entitlement exists for certain categories of personnel are also shown. Section 804.3 (which combines the provisions of this section and § 804.2) shows the extent of coverage for each category of personnel. Insofar as civilian employees and military members are concerned, this subpart covers only those benefits provided by the Air Force. Entitlement to other benefits derived from civilian employees' status as Federal employees or as veterans is explained in AFR 40-717 and AFP 40-15. Entitlement of military members to other benefits (such as those resulting from participation in the Federal Social Security Program) is explained in AFP 211-15. The mortuary officer will insure that only those services and/or items authorized are provided (see § 804.3).

(a) *Recovery*. Search, recovery, segregation, and identification of remains.

(b) *Communications*. Advising next of kin or other appropriate person concerning arrangements for preparation and disposition of remains.

(c) *Mortuary services*—(1) *Removal*. Removal of remains from place of death to a mortuary.

(2) *Preparation*. Embalming and other preservative measures, derma surgery, restorative art, dressing or wrapping, placing in casket, burial and shipping permits and other related items, some of which may be required to comply with laws for shipment of remains to or from the Continental United States.

(3) *Casket and outer case*. (i) Casket and outer case conforming to the specification in the Contract for Care of Remains.

(ii) Casket and outer case suitable for shipment to place of interment.

(d) *Cremation*. Actual crematory charges including a suitable urn and any costs necessary to transport the remains to the crematory.

(e) *Clothing*. Military uniform or civilian clothing.

(f) *Transportation*. Transportation by rail, commercial air, hearse or other suitable closed vehicle furnished by a funeral director, or by suitable Government vehicle or aircraft, except, movement of remains by military aircraft within the Continental United States is not authorized (see § 804.42(d)). Transportation includes shipping case and/or overpack, removal of remains from place of death to a mortuary, one delivery by funeral director vehicle from place of preparation to common carrier at the on-loading point, and one delivery of remains by hearse from the common carrier terminal at destination to a mortuary or other place of immediate delivery.

(g) *Escort travel*. Round trip transportation and prescribed allowances for an escort (one person) to accompany remains of deceased military personnel to final destination.

(h) *Flag*. One or more interment flags, with cases, for each deceased military person.

(i) *Interment*. Interment in a Government cemetery as designated by the person authorized to direct disposition of the remains or, in the absence of such designation, a Government cemetery designated by the commander concerned.

(j) *Interment allowance*. The next of kin of a military person is entitled to an allowance toward payment of burial expenses. These expenses may be for a grave site in a civilian cemetery; opening and closing of the grave; use of cemetery equipment; purchase of burial vault; flowers; obituary notices; services of a funeral director; clergy fee; hearse; transportation of relatives and friends to and from the funeral home, church and cemetery; and any other expenses incident to burial of the remains.

(k) *Grave marker*. The Government furnishes an upright marble marker or a flat marker of marble, granite or bronze to mark certain graves (see Subchapter I of this chapter).

#### § 804.2 Eligibility for benefits.

The following are authorized certain benefits listed in § 804.1.

(a) *Military personnel*. Even though such person may have been temporarily absent from active duty without leave at the time of death (provided he had not been dropped from the rolls of his organization before his death):

(1) Regulars of the Air Force (including cadets of the U.S. Air Force Academy), members of the Air Force Reserve,

## RULES AND REGULATIONS

members of the Air National Guard of the United States, and members of the Air Force without component, who die while on active duty (other than active duty for training).

(2) Members of the Air Force Reserve, the Air National Guard, and the Air National Guard of the United States, who die while:

(i) On active duty for training for any period of time or performing authorized travel to or from such duty, or

(ii) Hospitalized or undergoing treatment at the expense of the United States for injury incurred, or disease contracted, while in that duty or training or while performing that travel, or

(iii) On authorized inactive duty training. (Inactive duty training Reservists who die en route to or from such training are not eligible for care and disposition of remains at Air Force expense.)

(3) Members of or applicants for membership in the Air Force Reserve Officer's Training Corps who die while:

(i) Attending a training camp or performing authorized travel to or from such camp, or

(ii) While hospitalized or undergoing treatment at the expense of the United States for injury incurred, or disease contracted while attending training camp or while performing travel to or from such camp.

(4) Accepted applicants for enlistment in the Air Force.

(5) Any person who has been discharged from an enlistment in the Air Force while a patient in the U.S. Government hospitals, and who continued to be such a patient to the date of death.

(6) Any retired member of the Air Force who became a patient in a U.S. Government hospital while he was on active duty for a period of more than 30 days and who continued to be a patient in a U.S. Government hospital to the date of death.

Note: Individual must have been a patient continuously and physically in the hospital. Those who have been medically treated in an out-patient status are not authorized mortuary services at Government expense. (Disposition of remains of retired personnel, other than those indicated above, is the responsibility of relatives or the Veterans' Administration if death occurs while the retired person is hospitalized in a Veterans' Administration hospital. Queries concerning payment of burial expenses for such personnel should be referred to the Veterans' Administration.)

(b) Air Force civilian employees paid from appropriated funds. (1) Employees who die while traveling at Government expense on official business within and outside the Continental U.S.

(2) Employees whose homes are in the Continental United States, who die while assigned to an official duty station outside the Continental United States or in transit thereto or therefrom: *Provided*, The employee would have been entitled to travel to his home at Government expense upon termination of his employment.

(3) Employees whose homes are in foreign countries, who die while performing official duties away from their homeland or in transit thereto or therefrom: *Provided*, The employee would have been entitled to travel to his home at Government expense upon termination of his employment.

(c) Contractor engineering and technical services personnel. Contractor engineering and technical services personnel as defined in AFM 68-18.

(d) Dependents. (1) Dependents of members of the Armed Forces who die while the member is on active duty (other than for training).

(2) Dependents of civilian employees of the Armed Forces (paid from appropriated funds) who die while residing with such employee outside the Continental United States or while traveling to or from such place of duty: *Provided*, The

employee would have been entitled to travel to his home at Government expense upon termination of his employment.

(e) United States citizens who die outside the Continental United States. For the purpose of this section, Alaska and Hawaii are considered to be Continental U.S.

(1) An employee of a humanitarian agency accredited to the Armed Forces of the United States such as the American National Red Cross and the United Services Organization.

(2) Any civilian performing services directly for the Armed Forces because of employment by an agency under contract with the Armed Forces.

(3) Any person on duty with the Armed Forces of the United States paid from nonappropriated funds.

(4) Any officer or member of a crew of a merchant vessel operated by or for the United States through the Armed Forces.

(5) Any person for whom such services are requested by the Department of State.

(6) Any dependent of a United States citizen covered in this section: *Provided*, The dependent is living outside the Continental United States with that person at the time of death.

(f) Indigent persons. Indigent persons who die in Air Force hospitals and other persons who die on Air Force installations, when next of kin or local municipal authorities will not assume custody of the remains and disposition cannot otherwise be made.

(g) Military prisoners. Military prisoners (other than prisoners of war or internees) who die or are executed while in Air Force custody or confinement.

(h) Enemy prisoners and aliens. Prisoners of war and interned enemy aliens who die while in Air Force custody.

## § 804.3 Disposition of remains.

Decedents covered	Items and expenses authorized									
	Recovery	Communications	Mortuary services	Cremation	Clothing	Transportation	Escort	Flag	Interment, Government cemetery	Interment allowance
Military personnel	X	X	X	X	X	To place selected by next of kin.	X	X	X	X
Accepted applicants	X	X	X	X	X	To home, official station, or another place no further distant.	X	X	X	X
Civilian employees	X	X	X	X	X	To place selected by next of kin.	(9)			
Contractor engineering and technical services personnel			(9)			To home, official station, or another place no further distant.	(9)		(9)	(9)
Death outside CONUS			(9)			To home, official station, or another place no further distant.	(9)		(9)	(9)
Dependents, death outside CONUS			(9)			To home, official station, or another place no further distant.	(9)		(9)	(9)
U.S. citizens' death in foreign country			(9)			May be furnished on reimbursable basis to CONUS port.				
Indigent persons	These items (including expenses for interment and transportation to a cemetery designated by HQ USAF/LGS) may be furnished provided disposition cannot otherwise be made.									
Military prisoners (other than POW's and internees)	X	X	X	X	X	To place selected by next of kin.	X	(9)		(9)
Enemy prisoners and aliens	These items (including expenses for interment and transportation to a cemetery designated by HQ USAF/LGS) may be furnished at reasonable cost.									

1 An applicant for membership in the AFROTC is not eligible for burial in a Government cemetery.  
 2 Costs of these items (excluding outer case) may not exceed \$250 when death occurs in CONUS.  
 3 An outer case for transportation, (including when necessary, dealing of such case) is authorized as part of transportation expenses.  
 4 Travel as escort is not authorized. However, if remains are moved as baggage by rail, an individual may travel as attendant when a second ticket is required for transportation of the remains. No return transportation is authorized for the attendant.  
 5 If a veteran and honorably separated from military service.  
 6 May be furnished on reimbursable basis.  
 7 Wife, husband, widow, widower, minor child, and in certain instances an unmarried adult child.  
 8 If buried in a Government cemetery.  
 9 A military person who dies while in Air Force custody and whose approved sentence includes a discharge is not authorized a flag.

## RULES AND REGULATIONS

## Subpart B—Disposition Procedures

## § 804.10 Person (next of kin) entitled to direct disposition of remains.

(a) The person entitled to direct disposition of the remains of military personnel and Department of the Air Force civilian employees covered by this part are recognized in the order listed below:

(1) Widow or widower (if not divorced, or remarried, see paragraphs (c) and (d) of this section).

(2) Sons over 21 years of age in order of seniority.

(3) Daughters over 18 years of age in order of seniority.

(4) Father (unless legal custody of the decedent when he was a minor had been granted to another person by reason of a court decree or statutory provision, see paragraph (d) of this section).

(5) Mother (unless legal custody of the decedent when he was a minor had been granted to another person by reason of a court decree or statutory provision, see paragraph (d) of this section).

(6) Blood or adoptive relative of decedent who had been granted legal custody of the decedent by reason of court decree or statutory provision.

(7) Brothers over 21 years of age in the order of seniority.

(8) Sisters over 18 years of age in the order of seniority.

(9) Grandfather.

(10) Grandmother.

(11) Next of kin of legal age in order of relationship to the deceased in accordance with civil laws. Seniority controls where persons are of equal degree of relationship, except that males have priority over females.

(12) In the absence of persons listed above, a person standing in loco parentis to the deceased.

(b) The right to direct disposition of remains is considered a personal right and cannot be exercised by guardians, committees, or agents of any of the above-listed persons solely by reason of their status as such.

(c) To invalidate the entitlement of a widow or widower, proof must be submitted that final decree of divorce was awarded or that the widow or widower has remarried.

(d) To invalidate the entitlement of any person cited in paragraph (a) of this section the person claiming to have priority over another person must submit documentary evidence sufficient to establish his right. (For example, in the case of divorced parents, where custody of the minor child was awarded by the court at the time of the divorce, a certified copy of the decree or custody document must be furnished.)

(e) When two or more persons claim to have the entitlement to direct disposition of remains and a way to settle the matter is not readily apparent, tactfully suggest that they try to reach an agreement as to disposition to be effected. An example of such a case would be where parents have been separated (but not divorced) for many years, the decedent had lived with one parent only, but custody by reason of court decree was not

involved. If the parties concerned cannot reach an agreement, advise them of their right to seek adjudication in an appropriate court.

(f) Where there is a question as to the person entitled to direct disposition of the remains, obtain legal assistance from a staff judge advocate.

## § 804.11 Unclaimed remains.

(a) Remains will be considered unclaimed when:

(1) No next of kin or other responsible person can be located.

(2) The next of kin states in writing (or telegram) that he is not concerned with disposition of the remains.

(b) Unclaimed remains will be prepared at Air Force expense and interred in a cemetery designated by HQ USAF/LGS.

## § 804.12 Military prisoners.

Military prisoners who die or are executed while in Air Force custody or confinement are entitled to the burial benefits authorized active duty personnel, except that a flag is not authorized in the case of a prisoner whose sentence includes a discharge. All decorations, insignia or other evidence of membership in the Air Force must be removed when the regulation uniform is used for burial.

## Subpart C—Deaths Within the Continental United States Occurring Away From Home Installation

## § 804.20 Deaths while absent without leave (AWOL).

In general, procedures for disposition of the remains of personnel who die while AWOL are the same as for personnel who die while on active duty except as follows:

(a) It is absolutely essential that determination be made as to whether or not the deceased had been dropped from the rolls of his organization prior to the date of death before any funds are obligated for payment of burial expenses or any commitments are made concerning payment of burial expenses by the Air Force.

(b) If it is determined that an individual who was AWOL had been dropped from the rolls of his organization prior to the date of death, the Air Force will not participate in any arrangements for disposition of the remains or assume any responsibility for the remains or for payment of expenses. Advise relatives that disposition of the remains must be handled by them and that any expenses incurred must be paid from personal funds.

(c) When it cannot be readily determined whether the deceased had been dropped from the rolls of his organization, request relatives to make all arrangements for care and disposition of the remains and advise them of their privilege of submitting a claim to the Air Force.

(d) If it is determined that an individual who was AWOL had not been dropped from the rolls of his organization, the same procedures will be followed as for active duty personnel.

## § 804.21 Deaths at Veterans' Administration facilities.

(a) When the death of an eligible person occurs in a Veterans' Administration facility, the nearest Air Force installation will obtain disposition instructions and arrange for preparation and shipment of the remains.

(b) Any Air Force installation contacted by a Veterans' Administration facility will either assume responsibility for disposition of the remains or immediately notify the Air Force installation nearest the Veterans' Administration facility in order that such installation can properly assume its responsibilities.

## Subpart D—Nonrecovered Remains

## § 804.30 Memorial flags, services, and markers.

(a) Services. Memorial services may be conducted when remains are not recovered. The presentation of flag(s) at a memorial service will be in accordance with established Air Force regulations.

(b) Flag. A flag(s), with flag case(s), for memorial purposes, may be furnished in accordance with established Air Force regulations.

(c) Memorial plots and markers in national cemeteries. Memorial plots, where memorial markers may be erected, can be set aside in national cemeteries. DD Form 1330, "Application for Headstone or Marker," will be submitted by the next of kin for memorial plots and markers in national cemeteries.

(d) Memorial markers in civilian cemeteries. DD Form 1330 will be submitted for memorial markers to be erected in a civilian cemetery.

## § 804.31 Reimbursement of memorial service expenses.

(a) The next of kin of those declared dead and carried in a nonrecovered status after January 1, 1961, may be reimbursed for expenses incurred in conducting a memorial service. The reimbursement may not exceed \$375 maximum, when remains are shipped or released to a funeral director designated by the next of kin (can be contract funeral director) and subsequently interred in a Government cemetery. A claim for reimbursement may be allowed only if presented within 2 years after date of death or October 22, 1970 (date of enactment of Public Law 91-487), whichever is later.

(b) Next-of-kin claims will be submitted to HQ AFM/DPSM for processing and payment. The claims will be submitted in triplicate, in letter form, for memorial expenses incurred.

(c) There is no statutory authority for payment of the interment allowance when remains are in a nonrecovered status.

## Subpart E—Transportation and Shipment of Remains

## § 804.40 Transportation authorized.

(a) At Government expense. Transportation at Government expense is authorized for shipment of the remains of the following deceased personnel from

the place of death to the destination specified below:

- (1) Military personnel cited in § 804.2 (a) and (g) to place selected by the next of kin.
- (2) Civilian employee cited in § 804.2 (b) to the home or official station of the deceased or to another place no further distant.
- (3) Contractor engineering and technical services personnel cited in § 804.2 (c) to place selected by next of kin.
- (4) Dependents cited in § 804.2(d) to place selected by the next of kin.
- (5) Indigent persons, enemy prisoners, and aliens cited in § 804.2 (f) and (h) to a cemetery designated by HQ USAF/LGS.

(b) *On reimbursable basis.* Government transportation on a reimbursable basis is authorized for shipment of remains from place of death outside the continental United States to a continental United States aerial port of entry for U.S. citizens and their dependents cited in § 804.2(e).

(1) Information as to transportation charges to be assessed for shipment of the remains and charges for return of the transfer case from the continental United States aerial port of entry will be obtained from the Military Airlift Command traffic representative at the port where the remains will be accepted for movement to the continental United States. Expenses for transportation of remains of these persons from the continental United States aerial port to final destination cannot be paid by the Government nor will such transportation be furnished on a reimbursable basis.

(2) The sponsor will be required to arrange with the carrier of his choice at his own expense the necessary transportation within the United States. The sponsor will be required to deposit with the selected carrier, in advance, funds to cover the cost of this transportation. The sponsor will be advised to contact the aerial port Mortuary Officer who will assist him in every way possible in completing these arrangements.

#### § 804.41 Responsibility for determining method of shipment.

(a) *Outside the continental United States.* The Air Force commander of the area in which death occurred will determine the manner of shipment between two overseas points and between the place of death outside the continental United States and the appropriate continental United States aerial port of entry.

(b) *Continental United States aerial ports of entry.* At continental United States aerial ports of entry, the Mortuary Officer, in conjunction with the Transportation Officer, will determine the fastest and most practicable method of shipment between the port and final destination.

(1) If feasible, all remains, regardless of the Service of which the decedent was a member, will be shipped from continental United States ports within 24 hours after arrival at the port.

(2) To avoid confusion, and to insure proper control, continental United States ports will accept instructions for disposition of remains of deceased Air Force military and civilian personnel who die outside the continental United States only from HQ USAF/LGS.

(c) *Continental United States.* The Mortuary Officer at the place of death within the continental United States, in conjunction with the Transportation Officer, will determine the fastest and most practicable method of shipment between the place of death and the final destination whether such destination is within or without the continental United States.

(1) In the case of remains being shipped outside the continental United States, he will ascertain from the port through which shipment may be made the requirements which must be met to comply with shipping regulations and regulations governing entry into the foreign country.

(2) When Government facilities are not available, or the use thereof is impracticable, remains may be shipped direct to final destination.

#### § 804.42 Modes of transportation authorized for shipment of remains and escort.

Transportation of remains and escorts at Government expense is authorized as set forth in this section.

(a) *In the continental United States.* From the place of death to the place of interment; from the place of death to a continental United States aerial port of entry; from a continental United States aerial port of entry to the place of interment; and from an aerial port of entry to another port for reshipment, one of the following methods or combinations of methods may be used:

(1) Railway Baggage Service procured by Government transportation requests.

(2) Commercial air procured by Government transportation requests.

(3) Railway Express Agency. Transportation of remains without escort procured by Government transportation requests.

(4) Hearse or other suitable closed vehicle furnished by a funeral director provided:

(i) The cost of such transportation is not in excess of the cost of common carrier transportation.

(ii) Common carrier service is not available, or use thereof is impracticable.

(iii) It is requested by the next of kin and the next of kin defrays any costs in excess of what it will have cost the Government to transport the remains by common carrier.

(b) *Outside the continental United States.* Between two overseas points and between overseas points and the continental U.S. aerial ports of entry movement will be made by the following methods:

(1) Government transportation facilities, whenever possible.

(2) Commercial transportation, when Government transportation facilities are

not available or the use thereof is impracticable.

(3) Hearse or other suitable closed vehicle furnished by a funeral director provided such service is requested by the next of kin and the next of kin defrays any costs in excess of what it would have cost the Government to transport the remains.

(c) *Between the continental United States and overseas.* From the continental United States, movement will be made by the following methods:

(1) Government transportation facilities, whenever possible.

(2) Commercial transportation, when Government transportation facilities are not available or the use thereof is impracticable.

(d) *Movement of remains by military aircraft within the continental United States is not authorized.* Except for:

(1) The recovery of remains for autopsy or accident investigation purposes from the accident site to the nearest adequate military installation.

(2) The movement of remains originating outside the continental United States by the Military Airlift Command from the aerial port of debarkation of the first continental United States landing, to an aerial port of debarkation where mortuary facilities are located, using Military Airlift Command positioning/depositioning aircraft.

#### § 804.43 Stopover of remains en route to final destination.

The next of kin may request that arrangements be made for a stopover of remains en route to final destination, either by direct or indirect routing.

(a) The installation commander may authorize one stopover if the primary next of kin, who directed disposition of remains, makes the request for a bona fide reason. Any additional stopovers must be approved by HQ USAF/LGS.

(b) The next of kin will be advised that the escort will accompany the remains to final destination at Government expense. The next of kin will also be advised that he is responsible for all costs incurred at the stopover point. (For example, if the next of kin wants remains moved from Philadelphia to Chicago with ultimate burial in Arlington National Cemetery, transportation at Government expense can be furnished from Philadelphia to Chicago then back to Arlington National Cemetery. All expenses incurred in Chicago, such as removal of the remains from the carrier, funeral services, and returning the remains to the carrier, would be a responsibility of the next of kin.)

#### § 804.44 Through shipment of remains by common carrier.

Remains will be routed through from point of origin, to destination. Local ticket agents will assist in making necessary arrangements for transfer of remains from one carrier to another.

#### § 804.45 Delivery of remains from common carrier terminal.

Transportation will include one delivery of remains from the common car-

rier terminal at destination to a funeral home selected by the next of kin or a Government cemetery. When remains are transported by hearse under this provision to a:

(a) *Government cemetery.* Superintendents of national cemeteries and commanders of base cemeteries will engage a funeral director to receive the remains at the common carrier terminal and to deliver them to the cemetery. This will include necessary personnel to handle the casketed remains and storage, if required. Government facilities will be used if available; otherwise, services will be obtained as required in each individual case.

(1) A funeral director rendering any of the necessary services must submit a properly certified, itemized invoice to the national cemetery superintendent or to the commander of the base or post cemetery concerned.

(2) The following certification will be added and the invoice forwarded to the mortuary officer of the shipping activity for processing and payment:

I certify that the services itemized in this invoice have been satisfactorily rendered.

(b) *Funeral home selected by the next of kin.* A funeral director's unpaid invoice for the removal of the remains from a common carrier terminal to the funeral home should be submitted direct to the shipping installation for payment. The funeral director will be so advised when remains are transported.

#### § 804.46 Shipment after interment.

(a) If temporary disposition is required because of local health laws or inability to contact the person recognized as having the right to direct disposition of remains, remains may subsequently be disinterred and transported at Government expense.

(b) If the person recognized as having the right to direct disposition of remains states in writing that he is not concerned with disposition, and the remains are interred at Government expense, subsequent disinterment or transportation of the remains will not be made at Government expense.

(c) After remains are interred in accordance with instructions of the next of kin, subsequent disinterment or transportation of the remains will not be made at Government expense.

#### § 804.47 Transportation of disinterred remains.

The disinterment and transportation of remains within the continental United States requires special permission of the health authorities at the place of disinterment and, in some instances, at the point of destination. All disinterred remains will be inclosed in a metal lined container, which will be hermetically sealed. However, remains stored in a receiving vault, when prepared by licensed embalmers, will not be regarded as disinterred until after the expiration of 30 days.

#### Subpart F—Escorts

##### § 804.50 For whom escort is authorized.

(a) One escort is authorized to accompany the remains (including cremated remains) of a deceased military member specified in § 804.2(a).

(b) An escort is authorized for personnel specified in § 804.2(g), except that an escort will not be furnished for:

(1) A person who dies after the approved court-martial sentence which includes a dishonorable or bad conduct discharge, or

(2) A person who is executed following a sentence by court-martial.

#### Subpart G—Government Cemeteries

##### § 804.60 National cemeteries eligibility.

(a) Burial in national cemeteries except Arlington, of the following categories of persons is authorized:

(1) *Military.* (i) Members of the Armed Forces of the United States who die while on active duty (other than for training).

(ii) Former members (veterans and retired) of the Armed Services of the United States who were honorably separated from last period of service. Subsequent conviction of a crime may result in ineligibility for burial in a national cemetery (§ 804.6(c)).

(iii) Any member of a reserve component of the Armed Forces, and any member of the Army National Guard and the Air National Guard, whose death occurs under honorable conditions while he is:

(a) On active duty for training, or performing full-time service under section 316, 503, 504, or 505 of title 32, United States Code.

(b) Performing authorized travel to or from that duty or service.

(c) On authorized inactive duty training, including training performed as a member of the Army National Guard or the Air National Guard, or

(d) Hospitalized or undergoing treatment, at the expense of the United States, for injury or disease contracted or incurred under honorable conditions while he is:

(1) On that duty or service.

(2) Performing that travel or inactive duty training; or

(3) Undergoing that hospitalization or treatment at the expense of the United States.

(iv) Any member of the Reserve Officers' Training Corps of the Army, Navy, or Air Force whose death occurs under honorable conditions while he is:

(a) Attending an authorized training camp or on an authorized practice cruise.

(b) Performing authorized travel to or from that camp or cruise, or

(c) Hospitalized or undergoing treatment, at the expense of the United States, for injury or disease contracted or incurred under honorable conditions while he is:

(1) Attending that camp or on that cruise;

(2) Performing that travel; or

(3) Undergoing that hospitalization or treatment at the expense of the United States.

(2) *Citizens.* U.S. citizens who served in the armed services of any government allied with the United States during any war in which the United States has been or may hereafter be engaged. However, they must have been honorably separated from the last period of such service.

(3) *Members of families of service or former service members.* The wife, husband, widow, widower, minor child, and in certain instances the unmarried adult child of any of the persons listed in paragraphs (a) (1) and (2) of this section. This includes the widow or widower of a member of the Armed Forces of the United States lost or buried at sea; officially determined to be permanently absent in a status of missing or missing in action; officially determined to be dead for the purpose of terminating his status of missing or missing in action; or one whose remains have not been recovered.

(b) Burial in Arlington National Cemetery is limited to:

(1) A member of the Army, Navy, Air Force, Marine Corps, or Coast Guard dying on active duty.

(2) A retired member of one of the above services carried on a service retired list and eligible to receive compensation stemming from service in that Armed Force.

(3) A former member of one of the above services who:

(i) Has been awarded the Medal of Honor.

(ii) Is otherwise eligible by reason of honorable military service who have also held elective office in the U.S. Government or served on the Supreme Court or in the cabinet or in an office compensated at level II under the Executive Salary Act.

(4) The spouse, minor children, and, in certain instances, unmarried adult children of any of the persons listed in paragraph (b) (1) through (3) of this section.

(5) The surviving spouse, minor children, and in certain instances, unmarried adult children of any person already buried in Arlington National Cemetery.

(6) The parents of a minor child or unmarried adult child whose remains, based on the eligibility of a parent, are already buried in Arlington National Cemetery.

#### § 804.61 Persons ineligible for interment.

(a) *Fathers, mothers, and in-laws.* These relatives are not eligible for interment in a national cemetery by reason of relationship to an eligible service person regardless of whether they are dependent upon the service member for support and/or members of his household.

(b) *Discharge other than honorable.* Persons whose last separation from the Armed Forces of the United States was under other than honorable conditions

## RULES AND REGULATIONS

are not eligible for burial in a national cemetery notwithstanding the fact that they may have received veterans benefits, treatment in a Veterans' Administration hospital, or that they died in such a hospital.

(c) *Conviction of a crime.* (1) A person otherwise eligible for burial in a national cemetery but who was convicted in a Federal, State, or U.S. military court of a crime or crimes, the result of which was the loss of U.S. citizenship or nationality, a sentence of death, a sentence of imprisonment for 5 years or more, or in the case of any offense involving subversive activities listed in paragraph (c) (1) (i) of this section, any sentence, will not be buried in a national cemetery, except that any such person who, subsequent to such conviction and sentence, is pardoned of his offense or serves in the Armed Forces of the United States and whose last service therein terminates honorably may be buried in a national cemetery.

(i) The offenses involving subversive activities referred to in paragraph (c) (1) of this section are those offenses for which punishment is prescribed in the following provisions of Title 18, United States Code: Sections 792, 793 (excluding subsection (f)), 794, 798, 2381, 2382, 2383, 2384, 2385, 2387, 2388, 2389, 2390, and chapter 105; in the following sections of the Atomic Energy Act of 1954: sections 222, 223, 224, 225, and 226 (42 U.S.C. 2272, 2273, 2274, 2275, and 2276); and in the following sections of the Internal Security Act of 1950: sections 4, 112, and 113 (50 U.S.C. 783, 822, and 823).

(ii) Where minimum and maximum terms are imposed, the maximum will be used. An indeterminate sentence is considered to be a sentence of 5 years or more when the maximum term equals or exceeds 5 years. Separate sentences served consecutively and which aggregate 5 years or more are disqualifying. A suspended sentence will not be considered as imposing a term of imprisonment, except to the extent that such sentence is actually served.

(2) A person excluded from burial under subparagraph (1) of this paragraph who dies while in the custody of an Armed Force, may, with prior approval of the U.S. Army Memorial Affairs Agency (USAMAA), be buried in such other military burial ground as the USAMAA may select, but no military ceremony will be performed at such burial.

#### § 804.62 Interment policy for dependents.

(a) If a dependent dies before the service member, interment may be made in a national cemetery upon submission of a signed certificate by the service member that he will be interred eventually in the same grave (AF Form 507, "Agreement for Burial"). Such certificate will be presented or promptly mailed to the superintendent of the national cemetery concerned.

(b) The remains of those persons listed in § 804.60 (a) (3) and (b) (4) may be removed from a national cemetery

proper and interred in the post section of a national cemetery if, upon death, the related service member is not buried in the same grave. This will not apply when the service member is lost or buried at sea; officially determined to be permanently absent in a status of missing or missing in action; officially determined to be dead for the purpose of terminating his status of missing or missing in action; or determined to be nonrecoverable.

#### § 804.63 Reservation of grave site.

Grave sites are not reserved or assigned in advance of actual interments. Adjoining grave sites are not available.

#### Subpart H—Air Force Cemeteries

##### § 804.70 Definitions.

(a) *Base cemetery.* A military cemetery located at an Air Force installation.

(b) *Civilian cemetery.* Any privately or publicly-owned cemetery or burial plot located within or without the boundaries of an Air Force installation.

##### § 804.71 Establishment, maintenance and disposal.

New base cemeteries will not be established, and existing base cemeteries will not be expanded beyond present boundaries. Base cemeteries now in operation may be used for authorized burials, within present boundaries, until filled or discontinued.

(a) Base cemeteries will be maintained until disposition is effected by the procedures listed below. Those located on surplus installations which are not to be moved or otherwise disposed of will be maintained under the supervision of an active military installation to be designated by the Director of Civil Engineering, HQ USAF.

(b) When feasible and possible, base cemeteries will be disposed of in accordance with the provisions of AFR 87-4. Normally, the General Services Administration would accomplish disposal by transfer to a State, county, municipality, or proper agency thereof, or by the removal of remains and reinterment in a national, private, or public cemetery, or by a transfer of custody to the next of kin or other relatives. Once a cemetery has been disposed of, it will not be reacquired without prior approval of an acquisition request as outlined in AFR 87-1.

##### § 804.72 Eligibility.

Burials in base cemeteries will be restricted to the following categories of personnel.

(a) Members of the armed services of the United States on the active and retired lists as published by the decedent's service.

(b) The wife, husband, widow, widower, minor child and, in certain instances, the dependent unmarried adult child of any person listed in paragraph (a) of this section. (Dependent unmarried adult children include those who have never married, widows, widowers, and divorcees, provided the unmarried adult child, at time of death, was incapable of self-support because of physical

or mental condition and was receiving over one-half of his support from the service-connected parent or surviving spouse, or had been receiving such support prior to the death of the parents and by reason of their death was receiving such support from some other source.)

(c) General prisoners whose discharges have been executed, who die while under the jurisdiction of the Department of the Air Force.

(d) Prisoners of war and interned aliens, and unclaimed remains which cannot be transferred to the custody of civil authority, provided no other disposition of remains can be made under existing statutes.

(e) Veterans when a dependent of the deceased has been previously buried in such a cemetery.

(f) Individuals whose remains must be disposed of as directed by HQ USAF/LGS.

##### § 804.73 Interment of remains and reservation of grave sites in base cemeteries.

(a) *Interment policies for dependents.* (1) If a dependent dies before the service member, interment may be made in a base cemetery upon submission of a signed certificate by the service member that he will be interred eventually in the same grave or an adjoining (side-by-side) grave. Such certificate, in the following format, will be presented or promptly mailed to the base commander concerned:

This is to certify that in consideration of the interment of the remains of my \_\_\_\_\_, in the \_\_\_\_\_ (spouse-child) (name) \_\_\_\_\_ Base Cemetery, my remains (name) shall, upon my demise, be interred in the same or adjoining grave.

(2) When a deceased dependent child is interred prior to the death of either parent, the above certificate will be accomplished by the service member with the understanding that all available space in the occupied grave must be used for any future family interment, including that of the service member, before the second grave can be used. Additional eligible dependents may be interred before the death of the service member, provided not more than two side-by-side graves are used and that space is reserved for burial of the service member.

(b) *Procedures for effecting interment.* The procedure for effecting interment will conform in general with that outlined in prescribed Air Force regulations.

(c) *Reservation of grave sites.* (1) Grave sites are not reserved or assigned in advance of actual interments except as provided in paragraph (c) (2) and (3) of this section.

(2) If the service member dies first, an adjoining grave may be reserved for the eventual interment of the surviving spouse. Such reservations must be requested by the spouse at the time arrangements are being made for the in-

terment of the service member to insure availability of an adjoining grave site. The surviving spouse will receive an inquiry every 2 years to find out whether she wants to continue the reservation. Until she receives such an inquiry it will not be necessary for her to contact the base concerned in order to insure continuance of the reservation. Failure to reserve an adjoining grave site will not preclude burial of the spouse in the same grave with the service member or removal, at private expense, of the remains of the service member to a location where two adjoining graves are available.

(3) When arrangements are being made for the interment of a dependent of a service member, the surviving service member may request a reservation of an adjoining gravesite for his future interment. However, provisions of paragraph (b) of this section are applicable irrespective of this reservation.

#### Subpart I—Cemetery Markers

##### § 804.80 Types furnished.

(a) *Grave markers.* The Government will furnish an upright marble marker or a flat marker of marble, granite or bronze, free of cost, to mark the graves of:

(1) Members of the Air Force who died in the service.

(2) Members of a Reserve component of the Air Force, the Air National Guard or Air Force Reserve Officer Training Corps who died under conditions incident to service on behalf of the United States: *Provided*, The death, injury, illness, or disease occurred or was contracted under honorable conditions.

(3) All persons buried in Government cemeteries.

(b) *Memorial markers.* The Government will furnish, free of cost, an appropriate marker for erection in a Government or civilian cemetery, to commemorate members of the Air Force who died in the service and whose remains have not been recovered or identified, or were buried at sea.

##### § 804.81 Application for markers.

(a) *Grave markers.* (1) *Civilian cemetery.* When interment is to be made in a civilian cemetery, DD Form 1330 will be furnished to the next of kin by the escort. Stocks of this form are available through Air Force supply channels. The application form can be requested and submitted by anyone interested who will be responsible for receiving and erecting the marker at the grave.

(2) *National cemetery.* When interment is made in a national cemetery, the superintendent of the cemetery normally prepares the necessary form for supply of the final marker for the grave, whether individual or group burial.

(3) *Air Force cemetery.* When interment is made in an Air Force cemetery, DD Form 1330 will be submitted by the base commander, or his designee, who will be responsible for receiving and erecting the marker at the grave.

(b) *Memorial markers.* (See § 804.30 (c) and (d).)

## RULES AND REGULATIONS

#### § 804.82 Shipment and erection costs.

(a) *At civilian cemeteries.* The Government will prepay shipping charges for delivery to the consignee. Costs for transporting the marker to the cemetery, and erection, must be borne by the applicant.

(b) *At Government cemeteries.* All expense is borne by the Government.

#### Subpart J—Handling of Reimbursable Cases Outside the Continental United States

##### § 804.90 Furnishing mortuary services and supplies on reimbursable basis.

Mortuary services and supplies may be furnished on a reimbursable basis in an Air Force mortuary to care for the remains of the following when local commercial facilities and supplies are not available or, if available, the cost thereof is prohibitive:

(a) Dependents of members of the Armed Forces who die while the member is on active duty (other than for training).

(b) Dependents of civilian employees of the Armed Forces (paid from appropriated funds) who die while residing with such employee performing official duties outside the continental United States or while traveling to or from such place.

(c) Contractor engineering and technical services personnel, as defined in AFM 66-18.

(d) U.S. citizens and their dependents cited in § 804.2(e).

#### Subpart K—Military Honors

##### § 804.100 Policy and responsibility.

(a) *Policy.* It is the view of the Department of Defense that it is a privilege to participate to the extent possible in the conduct of funerals for active and retired military personnel and veterans who served honorably in the Armed Forces. Commanders at all echelons will place sufficient emphasis on this program to insure that honors are properly rendered in every instance.

(b) *Responsibility.* Air Force commanders of bases manned by active duty personnel will provide or assist in providing military honors as prescribed below. Commanders of Air Reserve training bases will coordinate the furnishing of military honors with the nearest capable Air Force installation manned by active duty personnel.

(1) *Air Force member.* Upon request of the next of kin of an active duty member of the Air Force or a retired member of the Air Force or Air Corps provide honors.

(2) *Air Force veteran.* Upon request of the next of kin of any veteran of Air Force or Air Corps whose last service terminated honorably, advise the next of kin to first request honors from local patriotic organizations. Should it be impossible for any local organization to furnish honors make every effort to provide honors.

(3) *Personnel of other services.* Upon request of the next of kin of a deceased of another service:

(i) Advise the next of kin that the request will be passed on to the nearest military activity of the same service as the deceased.

(ii) Contact the parent service of the deceased who must assume responsibility for the requested honors in accordance with Department of Defense policy; the other service should be asked to work out arrangements with the next of kin.

(c) Air Force commanders of bases manned by active duty personnel will cooperate with other services within their capability in furnishing military honors.

(d) Air Force commanders of bases manned by active duty personnel when the parent service of the deceased and requested by another service to take care of its own will assume the responsibility to provide or assist in providing military honors for those personnel indicated in paragraph (b) (1) and (2) of this section.

(e) In instances where Air Force commanders are unable to provide requested military honors for:

(1) An active duty member of the Air Force or a retired member of the Air Corps or Air Force, the major command concerned will determine the final action to be taken. The decision to decline to participate in furnishing military honors in these instances will not be delegated below the major command level.

(2) A veteran of the Air Corps or Air Force, the base commander concerned will advise the person making the request in a timely manner that it is necessary to respectfully decline to participate. However, each request should be considered in light of the circumstances at the time.

(f) The organization responsible for obtaining instructions from the next of kin for disposition of remains of Air Force personnel who die while on active duty will determine whether or not the next of kin desires military honors at the funeral. The installation to provide honors will not be committed at this time regarding the type and extent of honors that will be furnished.

(g) The home installation will provide military honors when the place of burial is located nearby. When the place of burial is not near the home installation, the mortuary officer who is arranging for disposition of the remains will ask the Air Force installation nearest the place of burial to provide honors. Exception: When a military member dies overseas and the remains are returned to the continental United States for burial, the mortuary branch, HQ USAF/LGSKC, will designate the installation to provide honors.

(h) The wishes of the next of kin regarding the type and extent of honors to be furnished will be paramount, limited only by the capabilities of the activity rendering the honors, and the principles of good taste. Immediately after the request to furnish military honors is received, the base commander will designate a person to supervise the honors and to contact the next of kin to make preliminary arrangements. Final arrangements will be made when notification of

## RULES AND REGULATIONS

shipment of the remains to final destination is received from the shipping installation. The mortuary officer will assist the person who is designated to supervise the furnishing of honors. The mortuary officer will also complete Air Force Form 1946, "Military Honors Checklist," and submit a copy to the major command supervisor for mortuary affairs.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

#### SUBCHAPTER B—SALES AND SERVICES

##### PART 813—SCHEDULE OF FEES FOR COPYING, CERTIFYING AND SEARCHING RECORDS AND OTHER DOCUMENTARY MATERIAL

Part 813, Subchapter B of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

- Sec. 813.0 Purpose.  
813.1 Policy on fee collection.  
813.2 Restrictions on copying and releasing information.  
813.3 Establishing the schedule of fees.  
813.4 Services furnished free to or in behalf of members of the Armed Forces (Armed Forces includes Air Force, Navy, and Marine Corps, and their civilian components).  
813.5 Services furnished free upon request from specific sources other than members of the Armed Forces of the United States.  
813.6 Services furnished free, regardless of source of request.  
813.7 Schedule of fees and rates.

AUTHORITY: 10 U.S.C. 8012, except as otherwise noted.

#### § 813.0 Purpose.

(a) This part explains what fees will be collected by the Air Force for copying, certifying, and searching records and other documentary material whose release has been authorized under pertinent Air Force directives. It also cites certain restrictions that must be applied in the release of material.

(b) Additionally, Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

#### § 813.1 Policy on fee collection.

(a) A reasonable charge will be made for any service or sale that conveys a special benefit to the recipient above and beyond any benefits that accrue to the general public (see § 813.7). A special benefit will be considered to accrue and a charge will be made when the service:

- (1) Enables the recipient to obtain more immediate or substantial gain or

values than those which accrue to the general public; or

(2) Is performed at the request of the recipient and is above and beyond the service ordinarily received by, or available to, the general public without charge.

(b) The charge for a special service may be waived, or reduced, when it is determined that:

(1) The recipient of the special benefit is engaged in a nonprofit endeavor which is actively promoting the public safety, health, or welfare, and the national interest;

(2) Payment of the full cost or fee by a State, local government or nonprofit group would not be consistent with traditional policy of Air Force or Federal support of the customer's endeavor; and

(3) The incremental cost of collecting the fee would be an undue large part of the receipts for the service.

(c) The service or sale will be provided without charge, when the request is:

(1) From, or in behalf of, a member of the Armed Forces (see § 813.4).

(2) From other specific sources (see § 813.5).

(3) In accordance with the policy of free service (see § 813.6).

(d) When the fee can be determined in advance, it will be collected before the service is rendered, unless the service is in response to an unusual request (for example, in a situation where time is so important to the customer that the delay might make the information useless; where the cost is insignificant; or

where the recipient has established a regular customer relationship).

#### § 813.2 Restrictions on copying and releasing information.

(a) All requests for information and documentation are subject to policy outlined in Part 806 of this chapter and Air Force directives governing the release of information.

(b) To avoid violating the exclusive rights of a copyright holder, consult AFR 110-8 before copying or selling copyrighted material in any Air Force document.

(c) The restrictions outlined in AFR 6-1 also apply in copying and reproducing material.

#### § 813.3 Establishing the schedule of fees.

Costs are determined or estimated by the cost standards outlined in Part 812 of this chapter and in this part.

(a) HQ USAF/DAD reviews the schedule of fees:

(1) At least once each year, to determine whether the Air Force should:

(i) Collect fees for other services rendered to the public, or

(ii) Change or discontinue any of the existing fees.

(2) Whenever costs change significantly.

(b) Any activity may submit a recommendation for a change or addition to these fees.

§ 813.4 Services furnished free to or in behalf of members of the Armed Forces. (Armed Forces includes Air Force, Navy, and Marine Corps and their civilian components.)

Ref. No.	A When requested by—	B This service is furnished free
1	A member of the Armed Forces of the United States.	Any service when he requires the information or document in his capacity as a member of the Armed Forces of the United States.
2	A member or retired member of the Armed Forces of the United States.	Copies of papers or information from his own medical and dental records when required for treatment and copies of his flight records.
3		The address of record of an active member or former member of the Armed Forces of the United States, if the information can be furnished informally through reference to a local telephone directory, base locator or the USAF Worldwide Locator Service.
4	A member of the Armed Forces who is in a casualty status, or from his next of kin or legal representative.	Any service.
5	A member or retired member, or his dependent.	Any service pertaining to copies of papers or information from the medical or dental records of the dependent when required for treatment.
6	A relative or legal representative of a member of the Armed Forces of the United States.	The address of record of an active duty member of the Armed Forces of the United States if the information can be furnished informally through reference to a local telephone directory, base locator, or the USAF Worldwide Locator Service.
7	A member or former member of the Armed Forces of the United States.	Any service pertaining to requests for: Information: Required to obtain financial benefits; relating to a decoration or award, or required for memorial purposes. Documents that show membership and military records in the Armed Forces, when discharge or release was under honorable conditions. Review of or change in type of discharge. Correction of records. Personal documents, such as birth certificate, when the requester is required to furnish the document.

## RULES AND REGULATIONS

#### § 813.5 Services furnished free upon request from specific sources other than members of the Armed Forces of the United States.

Ref. No.	A When requested by—	B This service is furnished free
1	A member of Congress	Any service that is for official use.
2	An agency of a State, U.S. possession, county, or municipal government or a U.S. Government agency that is carrying on a function favorably related to and in furtherance of an objective of the Department of Defense.	Any service requested.
3	A court	Any service that will serve as a substitute for personal court appearance of a military or civilian employee of DOD.
4	A nonprofit organization that is carrying on a function in furtherance of an objective of the Federal Government and/or is in the national interest in the area of public health, safety or welfare.	Any service or information requested dealing directly with the mission of the organization as reflected in its charter.
5	A donor	Any service pertaining to his gift.
6	A Federal employee	Information to complete forms applicable to claims for reimbursement under the Federal Employee's Health Benefit Act of 1959 (5 U.S.C. 8901, et seq.).
7	An accredited medical facility, physician, or dentist, or a patient or his next of kin or legal representative.	Information from or copies of medical or dental records or X-ray films of patients or former patients of military medical or dental facilities, if information or copies are for furthering medical or dental care of the patient.
8	A custodian or manager of property owned by a member or former member of the Armed Forces of the United States who seeks to communicate with the owner about that property.	The address of record of an active duty member or former member of the Armed Forces of the United States.
9	A prospective employer or recognized source of inquiry for credit or financial purpose.	Any service that involves confirmation of employment or salaries of active or separated civilian or military personnel.

#### § 813.6 Service furnished free, regardless of source of request.

11 Requests for services that are occasional, incidental, and not often made (including any request from a resident of a foreign country), if it is administratively determined that a fee for such an occasional case would be inappropriate.

#### Ref. No. Service furnished free upon request

- 1 Any service designated as free by a statute or executive order.
- 2 Any service that relates to or furthers the Armed Forces Recruiting Program.
- 3 Any service furnished to representatives of public information media or the general public in the interest of furthering understanding of the Armed Forces.
- 4 Any service the cost of which would ultimately be charged to the Federal Government.
- 5 Any request that results in an unsuccessful search of records, except a request to determine the existence or nonexistence of a record, or an unsuccessful search for an address of record.
- 6 Any service when furnishing it free is an appropriate courtesy to a foreign country or international organization. (When comparable fees are set on a reciprocal basis with a foreign country, such fees apply instead of the fees in § 813.7.)
- 7 Administrative services normally provided in reference or reading rooms or libraries for public inspection of records, except furnishing copies of records or documents.
- 8 Information about a casualty.
- 9 Address of record of an active duty member or former member of the Armed Forces of the United States when it can be furnished informally through reference to a local directory (locator), if the address is required to pay money or forward property to the member or former member.
- 10 Address of record of members and employees required by banks and other financial organizations participating in the composite check/guaranteed deposit program and listed in the "Financial Organization Directory" of the Treasury Department.

This schedule of fees applies to authorized services related to copying, certifying, and searching records rendered to the public, unless those services are excluded or excepted from charges under § 813.1. A minimum fee of \$2 is levied for processing any chargeable case, except as specified below. (This ordinarily provides for only one copy of the document.)

#### (a) Training and education records.

- (1) Transcripts (including transcripts of graduation from military academies and schools), original copy ..... \$2.00  
Each additional copy ..... .25
- (2) Certificates (including certificates, verification of attendance, and course completion from service schools and other facilities), original copy ..... 2.00  
Each additional copy ..... .25

(b) Medical and dental records. Requests that involve the records of patients and former patients, when the record is to be used for purposes other than further treatment (for example, for information from, or for copies of, medical records, including clinical records (inpatient records of military and nonmilitary patients); health records (military outpatient records); outpatient records (nonmilitary outpatient records); dental records; and loan of X-ray). For copies of other medical articles and illustrations, apply the rates for general services as shown in paragraph (d) of this section.

- (1) Searching and processing (per hour) ..... \$5.00  
Minimum charge ..... 3.00
- (2) Each typewritten page ..... 1.75
- (3) Office copy reproduction (per image; first 6 images included in the minimum fee) ..... .05
- (4) Loan of each X-ray ..... 1.50

#### (c) Military membership and record (excluding medical and dental records).

- (1) Address of record, both successful and unsuccessful searches, each ..... \$2.00
- (2) Copies of releasable military personnel records (such as effectiveness reports) reproduced for the personal use of an active, retired, or former member, or for the next of kin of a deceased member of the Armed Forces.  
(i) Minimum charge (up to 6 pages of office copy reproductions) ..... \$2.00  
(ii) Each additional image or each additional page (standard or legal) ..... .05  
(iii) Statement of verification of service, or report of separation, for individuals with other than honorable discharges ..... 3.00  
(iv) Certification and validation with seal, each ..... 3.00

(d) Photography, motion picture film, and magnetic tape. All film used in duplication to furnish a requested end product shall be charged on a per foot basis (for additional information, see Parts 810 and 811 of this chapter).

(1) Still or documentary pictures (not more than three prints from any one negative on each order). If available, standard sizes not listed here may be furnished at proportional rates.

- |  |        |
|--|--------|
| 8×10 single weight glossy finish, 1st print  | \$1.25 |
| 2d and 3d print, each  | 1.00   |
| 8×10 double weight matte finish, 1st print   | 1.75   |
| 2d and 3d prints, each   | 1.50   |
| 11×14 double weight matte finish, each   | 3.50   |
| 16×20 double weight matte finish, each   | 4.75   |
| 20×24 double weight matte finish, each   | 6.50   |
| 35 mm. color transparencies (cardboard mount), each  | 3.50   |
| 4×5 color transparencies or color negative, each   | 6.75   |
| 8×10 color transparencies or color negative, each (in quantities not to exceed 3 copies of any 1 view) | 14.00  |
| 8×10 color type "C" print, 1st print   | 4.50   |
| 2d and 3d prints, each   | 2.00   |
| 11×14 color type "C" print, 1st print  | 8.00   |
| 2d and 3d print, each  | 5.00   |
| 16×20 color type "C" print, each   | 17.50  |
| 16×20 color type "C" print, mounted on 20×24 cardboard, each   | 19.25  |

(2) An aerial photographic print (contact print or duplicate negative; single weight glossy or double weight semi-matte).

- Negatives (in quantity):  
Up to 9 by 9 inches: 1-25 at \$1.75 per print, over 25, \$43.75, plus \$1.25 for each print.  
9 by 18 inches: 25 at \$3 per print, over 25, \$75, plus \$2.30 for each print.  
Print enlargements:  
14 by 14 inch format, each ..... \$3.00  
18 by 18 inch format, each ..... 3.50  
20 by 20 inch format, each ..... 4.00  
Duplicate positives, each ..... 3.00  
Duplicate negatives:  
Up to 9 by 9 inch format, each ..... 6.00  
9 by 18 inch format, each ..... 10.00

## RULES AND REGULATIONS

(3) Aerial photographic indexes and mosaic copies:

Size 20 by 24 inch, each..... \$3.00

(4) Reproduction of cover overlays:

Transparent foil film overlays, each... 2.00  
Transparent paper overlays, each... 1.00

(5) Motion picture:

16 mm. or 35 mm., black and white, unedited footage:  
Without optical sound track, per foot..... .07  
With optical sound track, per foot... .10

Color unedited footage:

16 mm., per foot..... .20  
16 mm., internegative..... .25  
35 mm., per foot:  
Answer print, each..... .45  
Viewing or release print, each..... .15  
Separation master positive (3 required)..... .85  
Color, interpositive, each..... .55  
Color, internegative, each..... .65

Magnetic tape (per foot):  
16 mm. (direct dub), each..... .05  
35 mm. (direct dub), each..... .05  
Searching (including overhead exposure), each hour or fraction thereof..... 10.00  
Minimum charge (including stock search) per order..... 20.00

(e) Construction and engineering information. The fees for copies of a photographic map, specification, permit, chart, blueprint, or other technical engineering document are as follows:

(1) Searching, per hour (or fraction thereof)..... \$5.00  
(2) First print..... 1.00  
Each additional print of same document..... .50

(f) Claims or litigation. This refers to requests for information from a court-martial record, or from an investigative report (such as an automobile collision investigation, etc.). If the record is to be used in private litigation, or in a claim or litigation to which the U.S. Government is a party (and when the court rules that the record will be provided at no cost to the Government), the following rates apply, unless the rates in paragraphs (b) and (c) of this section apply.

(1) Searching and processing, per hour (for professional search or research, see paragraph (i) of this section)..... \$5.00  
Minimum charge..... 3.00  
(2) Office copy reproduction (minimum charge, up to 6 reproduced images)..... 2.00  
(3) Each additional image or each additional page (standard or legal)..... .05  
(4) Certification and validation with seal, each..... 3.00

(g) Publications and forms. This refers to requests for shelf stock, or when shelf stock is unavailable, for office copy reproductions of a publication or form. When the service requires extensive time (1 hour or more) in searching or processing, an additional fee applies, as explained in paragraph (i) of this section.

(1) Shelf stock:  
(i) Minimum fee (includes the first 6 pages of the publication, or the first copy of a form)..... \$2.00

(ii) Additional copies:

(a) Publications (each printed page over 6 pages)..... .01  
(b) Forms, per copy..... .05

(2) Office copy reproduction, when shelf stock is not available:  
(i) Minimum fee (includes the first 6 pages or images of the publication or forms)..... \$2.00  
(ii) Each additional image or each additional page (standard or legal)..... .05

(h) Microfilms.

(1) General:

(i) Diazo/thermal process:  
(a) 16 mm., per 100-foot roll..... \$3.00  
(b) 16 mm., roll film, per frame..... .25  
(c) 35 mm., per 100-foot roll..... 3.50  
(d) 35 mm., roll film, per frame..... .30

(ii) Silver process:  
(a) 16 mm., per 100-foot roll..... 4.00  
(b) 16 mm., roll film, per frame..... .25  
(c) 35 mm., per 100-foot roll..... 6.00  
(d) 35 mm., roll film, per frame..... .30

(iii) Microfiche:  
(a) Cost of each copy of the fiche..... .95  
(b) Cost to make a copy of a frame..... .25

(2) Engineering data:

(i) Aperture cards, silver duplicate negative, per card. When keypunched, verified and interpreted, per card..... .50  
(ii) Copy cards, diazo duplicate negative, per card..... .35  
When reproduced punched and interpreted each card..... .40  
(iii) 35 mm. microfilm, per individual frame..... .30

(a) When copies of engineering data are maintained in roll form only and complete roll(s) are required, per foot..... 10.00  
(b) Minimum charge per order, including stock search..... 10.00

(iv) Paper reproduction for microfilm:  
(a) Paper prints (engineering drawings), each..... .50  
(b) Paper reprints of microfilm indices, for each printed page (standard or legal)..... .05  
Minimum processing charge, per order..... 2.00  
(c) Letter-size (standard or legal) paper prints from 16 mm. roll or cartridge film, each..... .15  
(d) Letter-size (standard or legal) paper prints from 35 mm. roll film, each..... .16

(e) Larger than letter-size paper prints from 35 mm. roll film, each..... .50

(i) General services. When the fee is not specified here for any service which is authorized by this part and consistent with the policy outlined in Part 812 of this chapter, the following rates will apply:

(1) Clerical search and processing, each hour..... \$5.00  
Minimum charge, including first half-hour..... 3.00

(2) Professional searching or researching (by professional personnel as opposed to clerical personnel) will be established prior to the search, using the actual hourly pay rate of the professional accomplishing the work. (The minimum charge will be one-half the hourly rate.)

(3) Minimum charge for office copy reproduction, including the first 6 pages..... 2.00  
(4) Each additional image or each additional page (standard or legal)..... .05

(5) Each typewritten page..... 1.75  
(6) Certification and validation with seal, each..... 3.00

(7) Review of application for authorization to solicit members of the military services for the purchase of life insurance on U.S. military installations in foreign areas..... 175.00  
(8) Handdrawn plots and sketches, per hour (or fraction thereof)..... 6.00

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc 73-4481 Filed 3-12-73; 8:45 am]

# SUBCHAPTER I—MILITARY PERSONNEL PART 888—ENLISTMENT IN THE REGULAR AIR FORCE

Part 888, Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Sec. 888.0 Purpose.  
888.1 Definitions.  
888.2 Instructions.  
888.3 Citizenship requirements.  
888.4 Age.  
888.5 Mental and educational requirements.  
888.6 Applicants ineligible to enlist.  
888.7 Obtaining specific authority for enlistment.  
888.8 Applicability of the programs.  
888.9 Terms of enlistment.  
888.10 Date of rank.  
888.11 Preenlistment security investigation.  
888.12 Nonprior service (NPS) program.  
888.13 Enlistment in NPS personnel for Air Force bands.  
888.14 Medically remedial enlistment program (MREP).  
888.15 Prior service program.  
888.16 Women in the Air Force (WAF) (NPS).  
888.17 Airmen removed from temporary disability retired list (TDRL).  
888.18 Restored Air Force prisoners.  
888.19 Applicants whose last period of service was in officer status.  
888.20 Officer appointees to the U.S. Air Force Academy.  
888.21 Selected applicants to School of Military Sciences, Officer (SMSO).

## RULES AND REGULATIONS

Sec. 888.22 National Guard and Reserve members of the Armed Forces not on extended active duty (EAD).  
888.23 National Guard and Reserve members of the Air Force on extended active duty (EAD).

888.24 General considerations.  
888.25 Prequalification of applicants by USAF recruiting service.

888.26 Processing of qualified applicants by USAF recruiting service.

888.27 Distribution of enlistment documents by AFES.

AUTHORITY: 10 U.S.C. 8012, except as otherwise noted.

## § 888.0 Purpose.

(a) This part prescribes the eligibility requirements for enlistment in the regular Air Force.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

## § 888.1 Definitions.

(a) *Extended active duty (EAD)*. A tour of active duty, normally in excess of 90 days, performed by a Reservist for whom strength accountability changes from the Air Reserve Forces to the Regular Air Force.

(b) *Original enlistment*. Enlistment of a person who never was a member of the Army Air Corps, Army Air Forces, or U.S. Air Force.

(c) *Prior service (PS)*. Includes: (1) former members of the Armed Forces who served a continuous period of active duty for 6 months or more.

(2) Enlisted or former enlisted members of Reserve components of the Armed Forces who served a continuous period of active duty or ACDUTRA exceeding 6 months, except as provided in § 888.22 (b).

(d) *Reenlistment code*. This entry made in item 15, DD Form 214, "Armed Forces of the United States Report of Transfer or Discharge," is a primary consideration in establishing the enlistment eligibility of an applicant with previous military service. An explanation of the entries made for former Air Force personnel is as follows:

(1) "NA"—Airman reenlisting within 24 hours or being released from involuntary recall to extended active duty.  
(2) "1"—Applicant is eligible for enlistment.  
(3) "2"—Applicant is barred from enlistment by § 888.6.  
(4) Blank—No entry is made when directed by HQ USAF.

(e) *Restraint*. As used in this part, restraint means court imposed restrictions such as confinement, suspended sentence of confinement, parole, probation, or work detail. The following are not considered forms of restraint:

(1) Acceptance of detention in lieu of fine.  
(2) A fine, whether or not suspended.  
(3) An unconditional suspended sentence.  
(4) Unsupervised unconditional probation.

(f) *Unconditional suspended sentence and unsupervised unconditional probation*. These terms are explained as any suspended sentence or probationary status imposed by a criminal or juvenile court that places no conditions upon the individuals:

(1) Regarding his freedom of movement.

(2) Requiring the payment of damage (upon payment, the condition would not be disqualifying).

(3) Requiring periodic reporting by him to an officer of the court (to include a probation officer).

(4) Involving supervision by an officer of the court (to include a probation officer).

## § 888.2 Instructions.

(a) *Secretarial authority*. The Secretary of the Air Force may deny enlistment to any individual although the applicant appears to meet the criteria specified in this part. The Secretary of the Air Force may also authorize waivers of, or exceptions to, the provisions of this part which do not recite or implement statutory requirements.

(b) *Privileged communications*. All letters, documents, and information pertaining to applicants are privileged communications and will not be revealed to anyone not officially concerned. Release of mailing lists or rosters of military personnel, applicants, and dependents is prohibited. Do not reveal derogatory information to the applicant.

(c) *Provision on confidentiality of information*. All information received from judicial authorities and probation officers, all character, police and employment references, and any other document reflecting upon the character of an applicant are confidential in nature. Treat their source and contents accordingly and do not make them available to anyone outside the recruiting service except authorized Air Force investigative officials (commanders and OSI agents) and only to them provided its content is held in confidence and is not released to another agency outside the investigative channels. It is incumbent upon recruiters to refrain from divulging the nature or source of any adverse rating to prevent reflections on institutions, officials, or others who have made objective ratings.

(d) *Enlistment oath*. The oath of enlistment may be taken before any commissioned officer of any Armed Force of the United States. Except under unusual circumstances, use an active duty officer (preferably Air Force) in uniform to administer the oath.

## § 888.3 Citizenship requirements.

Applicant must be a citizen of the United States or possess a valid Form I-151, "Immigration and Naturalization Service Alien Registration Receipt Card," as evidence of lawful entry into the United States for permanent residence. Do not process in any way (including preliminary qualification testing) an alien who does not possess an I-151 form as he is ineligible for enlistment; advise him to contact the Immigration and Naturalization Service to obtain this form.

Reproduction of the I-151 form in any manner is prohibited.

## § 888.4 Age.

All applicants, except when otherwise specified, are required to meet the standards listed under this section.

Rule	A If applicant is—	B Then the minimum age is attainment of the— (note 1)	C And the maximum age limit is—
1	Male nonprior service.	18th birthday.	Less than the 28th birthday.
2	Female nonprior service.	21st birthday.	
3	Male prior service.	18th birthday.	Less than 28, when reduced by total active service shown on DD Form 214 (note 2).
4	Female prior service.	21st birthday.	

Notes: 1. Minimum age is 17 years for men and 18 years for women if DD Form 373, "Consent, Declaration of Parent or Legal Guardian (for Enlistment of a Minor in the U.S. Armed Forces)," is properly executed.

2. Applicants over 35 years of age must have at least 3 months prior service in the U.S. Air Force.

## § 888.5 Mental and educational requirements.

(a) *Mental testing*—(1) *Passing scores*. All applicants must attain passing scores as prescribed and additionally qualify as outlined in paragraph (a) (2) of this section.

(2) *Additional qualifications and restrictions on enlistments*. Applicant enlisting for a specific aptitude or AFSC must attain the passing score prescribed for that aptitude area in AFM 35-1.

(3) *Testing guidelines*. (i) USAF Recruiting Service will administer the ASVAB or AQE to applicants. ACT scores may be accepted for enlistment of members of the Air Force Reserves or Air National Guard. Overseas applicants will be tested with the ACT. Defer from enlistment applicants failing to achieve a qualifying score. When authorized by AFMPC/DPMMPA, recruiting service may establish and publish scores for deferment higher than the minimum prescribed scores.

(ii) Do not administer the ASVAB, AQE, or ACT to:

(a) Any applicant currently on active duty with another Armed Force.  
(b) A high school student, unless he is scheduled to graduate during the current school year or is tested under the HS testing program.

(iii) The Defense Language Aptitude Test (DLAT) is authorized to be administered by AFES to those individuals desiring to be considered for a guaranteed job in AFSC 203X0 who are referred by Air Force liaison NCO's. To be eligible, individuals must receive a score of 80 or above on the general aptitude index of the AQE or ACT.

## RULES AND REGULATIONS

(4) *Retesting.* (i) A retest of an applicant who failed to achieve a qualifying score on the AQE, ASVAB, or ACT may not be administered until 1 year after the date of the first test. Only one retest is authorized.

(ii) An applicant, qualified on the ASVAB or AQE who previously failed the AFQT/AFWST and later successfully completes the Job Corps training program as evidenced by JC Form 71 or 71A, "Certificate of Achievement," may be retested once. This exception also applies to a person who submits a certificate or other satisfactory evidence of having completed a federally sponsored educational program subsequent to his failure to pass the AFQT/AFWST.

(iii) Any applicant may be retested on the AFQT/AFWST provided all the conditions below are met:

(a) The recruiting detachment commander determines that the applicant deserves a retest.

(b) No applicant is tested more than twice.

(c) Applicant has qualified on the ASVAB or AQE for enlistment in the Air Force.

(b) *Conditions that bar enlistment.* (1) Intoxicated or under the influence of alcohol or drugs.

(2) Does not possess a social security account number (§ 888.25(b)).

(3) Conscientious objector or person with convictions which preclude unrestricted assignments, regardless of selective service classification.

(4) Enlistment not clearly consistent with interest of national security under AFR 35-62.

(5) Questionable moral character, history of antisocial behavior, alcoholism, sexual perversion, having frequent difficulties with law enforcement agencies, history of psychotic disorders.

(6) Has moral disqualifications listed in § 888.7(b)(2), or has been involved with narcotics, marihuana, or dangerous drugs (§ 888.7(d)), unless specific authority to enlist is granted (Note 1).

(7) Under restraint imposed by any civil court (Note 1).

(8) Civil or criminal charges filed or pending against them by civil authorities.

(9) Relieved of criminal charges filed and pending on condition that he enlist.

(10) Male, 18-26 years of age not registered with Selective Service.

(11) Selective Service Registrant classified I-O, I-A-O, I-W, or IV-F (Notes 1 and 2).

(12) Under orders for induction (Note 3).

(13) Receiving disability compensation from any Federal or other agency.

(14) Does not have a valid letter of selection (NPS female applicants only).

Notes: 1. For exceptions, see § 888.7.

2. Classification of IV-F because of a medical defect covered by the MREP does not render an NPS individual ineligible to enlist.

3. Applicant may enlist provided enlistment is accomplished at least 10 days prior to the scheduled reporting date for induction.

(c) *Additional conditions barring enlistment of applicant with previous military service.* (1) Separated from the Air

Force for a period of less than 93 days (Note 1).

(2) Separated from last period of service for unsuitability, unfitness, disloyalty, or not recommended for reenlistment.

(3) Separated with other than an honorable discharge certificate or with entry other than "Honorable" on DD Form 214.

(4) Separated with discharge or conditions that are a bar to enlistment.

(5) Separated under AFM 39-10 while on control roster.

(6) Separated because of physical disability with or without severance pay.

(7) Separated and charged with time lost under 10 U.S.C. 972 (Note 2).

(8) Separated in pay grade E-3 or lower after 6 months or more active duty in last enlistment (Note 2).

(9) Discharged prior to completion of 6 months active Federal service (Notes 2 and 3).

(10) Separated as a USAFR member under AFR 45-43, paragraphs 11, 16, or 20 thru 28.

(11) Separated and claims prior honorable service but lacks written evidence of such service.

(12) Has completed 20 or more years active Federal service.

(13) Retired, eligible for retirement under any provision of law, or retired and serving on extended active duty.

Notes: 1. Reenlistment may be authorized at CBPOs in accordance with AFM 36-16.

2. For exceptions see § 888.7.

3. Except those separated for minority (AFM 39-10, paragraphs 3-21) or failure to complete School of Military Sciences, Officer (SMO) (AFM 39-10, paragraphs 3-6h) who will be given RE Code 1.

(d) *Education.* The minimum educational requirements for enlistment are as follows:

(1) A nonhigh school graduate NPS male applicant must score in mental category I, II or III (AFQT 31-99).

(2) A 17-year-old NPS male applicant must be a high school graduate unless he scores in mental category I or II on the AFQT.

(3) A WAF applicant must be a high school graduate.

(4) A prior service enlistee must be a high school graduate or have qualified on the GED test.

§ 888.6 Applicants ineligible to enlist.

Section 888.5 (b) and (c) summarize the conditions that render an applicant ineligible to enlist in the regular Air Force.

§ 888.7 Obtaining specific authority for enlistment.

(a) *Authorization required.* ATC/RS may submit to AFMPC/DPMPA, Randolph Air Force Base, Tex. 78148, fully justified requests to enlist an applicant who was:

(1) Separated from the Air Force and charged with time lost under 10 U.S.C. 972.

(2) Separated with honorable discharge under former AFR 39-10, AFR 39-11, and AFR 39-14 (now obsolete) and AFM 39-10 with DD Form 214 coded

RE-2, RE-2/91, RE-3, RE-3/91, RE-4, RE-15, or RE-20.

(3) Separated under AFM 39-10, paragraph 3-8m, and coded RE-1.

(b) *Authorization required from HQ USAF recruiting service.* (1) Applicants separated for dependency or hardship reasons. HQ USAF recruiting service is authorized to approve enlistment of applicants separated for dependency or hardship. If more than 1 year has elapsed, approval authority may be delegated. Include the following in the request:

(i) Statement of applicant that the hardship or dependency condition is permanently terminated.

(ii) Proof in the form of affidavits or sworn statements that the hardship or dependency condition has ended. These must be executed in duplicate by the person on whose behalf the discharge was obtained or by other members of the community familiar with the home conditions involved.

Note: The burden of furnishing proof if the conditions at time of discharge have changed is upon the applicant.

(2) *Applicants with moral disqualifications.* Advise applicants who were convicted or adjudicated for an offense listed in this subparagraph of their ineligibility to enlist. Upon request of applicant or in meritorious cases, submit an application for waiver. Document case according to instructions from USAF recruiting service.

	A	B	C
Rule	If applicant has a conviction or an adverse juvenile adjudication for—(note 1)	And the offense number—	Then approval authority for the waiver is delegated to—(note 2)
1	Multiple minor traffic offenses.	6 or more in 1 year.	USAF Recruiting Detachment.
2	Multiple minor nontraffic offenses.	2 or 3.....	USAF Recruiting Detachment.
3		4 or more....	USAF Recruiting Group.
4	Other (non-minor) misdemeanors.	1 or more....	USAF Recruiting Group.
5	A felony.....	1 or more....	HQ USAF Recruiting Service.

Notes: 1. Waiting periods after civilian restraint are as follows:

(a) No waiting period is required following termination of parole, probation, or suspended sentence.

(b) A 3-month waiting period is required after termination of confinement of 15 days or more for those convicted. (Does not apply to juveniles with an adverse adjudication.)

(c) Up to a 3-month waiting period, after termination of confinement of 15 days or more for juvenile offenders, is authorized when considered necessary by the detachment commander.

(d) Up to a 2-month waiting period after termination of confinement of less than 15 days for those convicted or adjudicated is

authorized when considered necessary by the detachment commander.

2. Disapproval authority is delegated to the USAF Recruiting Detachment. Refer questionable cases to next higher headquarters within the USAF recruiting service.

(c) *Uniform guide lists of typical offenses.* (1) *Minor traffic offenses.* (i) Blocking or retarding traffic.

(ii) Careless driving.

(iii) Crossing yellow line; driving left of center.

(iv) Disobeying traffic lights, signs, or signals.

(v) Driving on shoulder.

(vi) Driving uninsured vehicle.

(vii) Driving with blocked vision.

(viii) Driving with expired plates or without plates.

(ix) Driving without license or with suspended or revoked license.

(x) Driving without registration or with improper registration.

(xi) Driving wrong way on one-way street.

(xii) Failure to comply with officer's directives.

(xiii) Failure to have vehicle under control.

(xiv) Failure to keep to right or in line.

(xv) Failure to signal.

(xvi) Failure to stop for or yield to pedestrian.

(xvii) Failure to yield right of way.

(xviii) Faulty equipment (defective exhaust, horn, lights, mirror, muffler, signal device, steering device, tailpipe, or windshield wipers).

(xix) Following too closely.

(xx) Improper backing: Backing into intersection or highway; backing on expressway; backing over crosswalk.

(xxi) Improper blowing of horn.

(xxii) Improper parking: Restricted area, fire hydrant, double parking.

(xxiii) Improper passing: Passing on right, in no passing zone; passing parked school bus; pedestrian in crosswalk (when not treated as reckless driving).

(xxiv) Improper turn.

(xxv) Invalid or unofficial inspection sticker; failure to display inspection sticker.

(xxvi) Leaving key in ignition.

(xxvii) License plates improperly displayed or not displayed.

(xxviii) Operating overloaded vehicle.

(xix) Racing, dragging, contest for speed (when not treated as reckless driving).

(xxx) Speeding (when not treated as reckless driving).

(xxxi) Spinning wheels; improper start; zigzagging or weaving in traffic (when not treated as reckless driving).

Note: This list is a guide; consider as minor the offenses of a similar nature and traffic offenses treated as minor by local law enforcement agencies.

(2) *Minor nontraffic offenses.* (i) Abusive language under circumstances to provoke breach of peace.

(ii) Carrying concealed weapon (other than firearm); possession of brass knuckles.

(iii) Curfew violation.

(iv) Damaging road signs.

## RULES AND REGULATIONS

(v) Discharging firearm through carelessness.

(vi) Discharging firearm within municipal limits.

(vii) Disobeying summons.

(viii) Disorderly conduct; creating disturbance, boisterous conduct.

(ix) Disturbing peace.

(x) Drinking liquor on train (other than club car).

(xi) Drunk in public; drunk and disorderly.

(xii) Dumping refuse near highway.

(xiii) Fighting; participating in affray.

(xiv) Fornication.

(xv) Illegal betting or gambling; operating illegal handbook, raffle, lottery, punch board; matching cockfight.

(xvi) Juvenile non-criminal misconduct: Beyond parental control, incorrigible, runaway, truant, or wayward.

(xvii) Killing domestic animal.

(xviii) Liquor: Unlawful manufacture, sale, or possession, or consumption in public place.

(xix) Loitering.

(xx) Malicious mischief: Painting water tower, throwing water-filled balloons, throwing rocks on highway, throwing missiles at athletic contests, or throwing objects at vehicles.

(xxi) Nuisance, committing.

(xxii) Poaching.

(xxiii) Possession of cigarettes by minor.

(xxiv) Possession of indecent publications or pictures.

(xxv) Purchase, possession, or consumption of alcoholic beverages by minor.

(xxvi) Removing property under lien.

(xxvii) Removing property from public grounds.

(xxviii) Robbing orchard.

(xxix) Shooting from highway.

(xxx) Shooting on public road.

(xxxi) Simple assault.

(xxxii) Throwing glass or other material in road.

(xxxiii) Trespass to property.

(xxxiv) Unlawful assembly.

(xxxv) Using or wearing unlawful emblem.

(xxxvi) Vagrancy.

(xxxvii) Vandalism: Injuring or defacing public property or property of another; shooting out street lights.

(xxxviii) Violation of fireworks law.

(xxxix) Violation of fish and game laws.

Note: This list is a guide; consider offenses of a similar nature as minor. In doubtful cases, apply the following rule: If the maximum confinement under local law is 4 months or less, treat the offense as minor.

(4) *Other (nonminor) misdemeanors.* (i) Adultery.

(ii) Assault consummated by battery.

(iii) Bigamy.

(iv) Breaking and entering vehicle.

(v) Check, worthless, making or uttering, with intent to defraud or deceive (\$100 or less).

(vi) Conspiring to commit misdemeanor.

(vii) Contributing to delinquency of minor.

(viii) Desecration of grave.

(ix) Driving while drugged or intoxicated.

(x) Failure to stop and render aid after accident.

(xi) Indecent exposure.

(xii) Indecent, insulting, or obscene language communicated to a female directly or by telephone.

(xiii) Leaving dead animal.

(xiv) Leaving scene of accident (hit and run).

(xv) Looting.

(xvi) Negligent homicide.

(xvii) Petty larceny (value \$100 or less); stealing hub caps; shoplifting.

(xviii) Reckless driving.

(xix) Resisting arrest.

(xx) Selling or leasing weapons to minor.

(xxi) Slander.

(xxii) Stolen property, knowingly receiving (value \$100 or less).

(xxiii) Suffrage rights, interference with.

(xxiv) Unlawful carrying of firearms; carrying concealed firearm.

(xxv) Unlawful entry.

(xxvi) Unlawful use of long-distance telephone lines.

(xxvii) Use of telephone to abuse, annoy, harass, threaten, or torment another.

(xxviii) Using boat without owner's consent.

(xxix) Wilfully discharging firearm so as to endanger life; shooting in public place.

(xxx) Wrongful appropriation of motor vehicle; joyriding; driving motor vehicle without owner's consent (if intent is to permanently deprive owner of vehicle, consider as grand larceny).

Note: This list is a guide; consider offenses of comparable seriousness as nonminor misdemeanors. In doubtful cases, apply the following rule: If the maximum confinement under local law exceeds 4 months but does not exceed 1 year, treat the offense as a nonminor misdemeanor.

(4) *Felonies.* (i) Aggravated assault; assault with dangerous weapon; assault intentionally inflicting great bodily harm; assault with intent to commit felony.

(ii) Arson.

(iii) Attempt to commit felony.

(iv) Breaking and entering with intent to commit felony.

(v) Bribery.

(vi) Burglary.

(vii) Carnal knowledge of female under 16.

(viii) Cattle rustling.

(ix) Check, worthless, making or uttering, with intent to defraud or deceive (over \$100).

(x) Conspiring to commit felony.

(xi) Criminal libel.

(xii) Extortion.

(xiii) Forgery; knowingly uttering or passing forged instrument.

(xiv) Graft.

(xv) Grand larceny; embezzlement (value over \$100).

(xvi) Housebreaking.

(xvii) Indecent acts or liberties with child under 16.

## RULES AND REGULATIONS

- (xviii) Indecent assault.
- (xix) Kidnaping, abduction.
- (xx) Mail matter: Abstracting, destroying, obstructing, opening, secreting, stealing, or taking.
- (xxi) Mails: Depositing obscene or indecent matter.
- (xxii) Maiming; disfiguring.
- (xxiii) Manslaughter.
- (xxiv) Misprison of felony.
- (xxv) Murder.
- (xxvi) Narcotics or habit forming drugs: Wrongful possession, use, or sale.
- (xxvii) Pandering.
- (xxviii) Perjury; subordination of perjury.
- (xxix) Public record: Altering, concealing, destroying, mutilating, obliterating, or removing.
- (xxx) Rape.
- (xxxi) Riot.
- (xxxii) Robbery.
- (xxxiii) Seditious; soliciting to commit sedition.
- (xxxiv) Sodomy.
- (xxxv) Stolen property, knowingly receiving (value over \$100).

Note: This list is a guide; consider offenses of comparable seriousness as felonies. In doubtful cases, apply the following rule: If maximum confinement under local law exceeds 1 year, treat the offense as a felony.

(d) Accession of military personnel through original enlistment/appointment. Illegal drug usage affects enlistment/appointment eligibility as follows:

- (1) An applicant is ineligible for enlistment/appointment if he has:
  - (i) Ever used LSD or.
  - (ii) Ever illegally used narcotics or dangerous drugs
  - (iii) Ever been a supplier or casual supplier of narcotics, dangerous drugs or marihuana, or
  - (iv) Illegally used marihuana more than four times or at any time in the last 3 months.

(2) Persons who have experimented with marihuana are not normally eligible for flying training. USAFA applicants, requests for individual waiver for flying training will be considered by the USAFA Director of Physical Standards. All other requests for waiver will be considered by AFMPC/DPMAJD provided the applicants have not experimented with marihuana during the last 12 months.

#### § 888.8 Applicability of the programs.

Sections 888.9 through 888.16 outline the programs for enlistment in the regular Air Force and applies to all personnel enlisting unless specified otherwise.

#### § 888.9 Terms of enlistment.

(a) The Air Force has various terms of enlistment to meet the desires of the individual and the needs of the Air Force. The number of years in the enlistment period is determined by the option which the applicant qualifies for and selects. More guarantees and inducements are available to an applicant enlisting for the longer period.

(b) Enlist all applicants for 4 year terms except when:

- (1) Specifically directed otherwise.

(2) Enlistment is accomplished under special limited programs announced by HQ USAF/DPMPMA.

#### § 888.10 Date of rank.

Date of rank for all enlistees except when specified otherwise in § 888.17 through 888.23 is the date of enlistment.

#### § 888.11 Preenlistment security investigation.

(a) The completion of a preenlistment security investigation, under certain circumstances, may be required before he is eligible for enlistment.

(b) Complete all processing, except enlistment, before requesting security investigation. Advise applicant that the normal time required to complete the investigation is 60 to 120 days; additional time may be necessary if applicant has resided for an extended period of time or has near relatives currently residing in a Communist-oriented country. If applicant has received a notice to report for induction, furnish the Selective Service Board a written statement of qualifications and request a deferment of 90 days from induction. If the Board approves the deferment in writing, submit request for investigation. Inform the Selective Service Board in writing, when the deferred applicant does not enlist.

(c) Submit request for preenlistment security investigation under AFR 205-6. Enter following remark as the reason for requesting the investigation on AF Form 1145, or DD Form 1584 as appropriate: "Applicant requires a security investigation prior to enlistment in accordance with AFR 205-6, paragraph 10."

(d) Upon receipt of notification from HQ USAF/DPMS that the facts developed in the investigation were reviewed and authority to enlist the individual is granted, enlist the otherwise qualified applicant. On date of enlistment, recruiting detachment will forward by certified mail the letter of notification and any investigative records to the airman's unit of assignment. Attention: Security police. If the applicant is not qualified for enlistment, or declines to enlist, file the records at the detachment, and destroy in accordance with AFM 12-50, table 35-3.

(e) Communist or Communist-oriented countries:

Country or area	Date effective
Albania	Jan. 11, 1946.
Bulgaria	Oct. 27, 1946.
Chinese Peoples Republic (Communist China) (including Tibet)	Jan. 1, 1949.
Cuba	Dec. 2, 1960.
Czechoslovakia	Feb. 26, 1948.

#### § 888.12 Nonprior service (NPS) program.

The provisions of this program apply to all nonprior service applicants regardless of the program for which they enlist.

(a) Subject to the restriction of the established numerical objectives of the enlistment programs, give enlistment priority to NPS applicant who is:

(1) In the USAFR (DEP), Part 907 of this chapter.

(2) Authorized enlistment by HQ USAF either for a class of applicants or by individual letter of specific authority to enlist.

(3) Authorized enlistment in Grade E-2, if applicable.

(4) A high school graduate or has attained a higher educational level.

(b) Nonprior service male applicants who are found disqualified on AFQT for enlistment at the AFES are required to take the regular physical examination given to all inductees or enlistees.

(c) All enlistees are assigned to the School of Military Sciences, Airmen (SMSA), Lackland Air Force Base, Tex. (d) Enlistment programs such as the Air Force Band or Medically Remedial Enlistment Program (MREP) may be implemented to augment the normal NPS enlistment program.

#### § 888.13 Enlistment of NPS personnel for Air Force Bands.

Eligibility for:

(a) An applicant for an Air Force Band, otherwise qualified for enlistment, is required to establish instrument or band qualification prior to enlistment.

(b) Advise applicant that:

(1) If he is proficient on an instrument for which a requirement exists he should consult one of the following band directors:

Alabama—Maxwell Air Force Base 36112.	
Alaska—Elmendorf Air Force Base 99506.	
Arizona—Luke Air Force Base 85301.	
California—March Air Force Base 92508.	
Colorado—Ent Air Force Base, United States Air Force Academy 80840.	
District of Columbia—Boiling Air Force Base 20332.	
Florida—MacDill Air Force Base 33608.	
Georgia—Robins Air Force Base 31093.	
Hawaii—Hickam Air Force Base 96553.	
Illinois—Chanute Air Force Base 61866.	
Scott Air Force Base 62225.	
Louisiana—Barksdale Air Force Base 71110.	
Massachusetts—Westover Air Force Base 01022.	
Mississippi—Keesler Air Force Base 39534.	
Nebraska—Offutt Air Force Base 68113.	
Ohio—Wright-Patterson Air Force Base 45433.	
Texas—Lackland Air Force Base 78236.	
Sheppard Air Force Base 76311.	
Virginia—Langley Air Force Base 23365.	
Washington—McChord Air Force Base 98438.	

(2) All expenses in connection with preenlistment auditioning must be paid by the applicant.

(3) He may volunteer for assignment to a specific Air Force Band, or any Air Force Band, except the U.S. Air Force Band, HQ COMD, USAF, Bolling Air Force Base, Washington, D.C.

(4) He may enlist in the Regular Air Force for assignment to the U.S. Air Force Band, HQ COMD, USAF, Bolling Air Force Base, D.C., as a performing member, only through the Delayed Enlistment Program (DEP). Assignment to the U.S. Air Force Band as a performer requires a completed expanded background investigation. AFES will furnish the extra copy of the SF 88 and 93 prescribed by AFR 205-32 for this investigation. Part 907, Delayed Enlistment Program (DEP) of this chapter, explains the required procedures. Do not enlist an individual through the DEP or into the Regular Air Force for the U.S. Air Force Band if an investigation is required.

(c) The Band director will audition applicant according to AFR 39-61. If found qualified in the instrumental performance tests for the three skill level, process applicant as outlined. Accomplish all instrumental and vocal auditions for membership in the U.S. Air Force Band, Bolling Air Force Base, D.C., at Bolling Air Force Base, D.C.

#### § 888.14 Medically Remedial Enlistment Program (MREP).

NPS male personnel who meet the special medical standards may enlist in MREP if qualified in accordance with this section. The AFES Medical Examining Officer will determine whether the applicant is medically qualified for the MREP. The AFES will inform the Air Force recruiting detachment concerned that the applicant is qualified under MREP and furnish appropriate medical records.

(a) Action by recruiting service. Upon receipt of certificate of qualification for MREP from AFES the recruiting detachment will determine eligibility to enlist based on the following:

(1) Applicant must be fully qualified for enlistment other than medically, in accordance with this part. Additionally, he must score 31 or higher on the AFQT.

(2) Applicant must agree to undergo therapeutic procedures necessary to remedy his medical condition.

(3) Approval of ATC/ATSGM is obtained.

(b) Processing. Process the applicant according to established processing actions, except as follows:

(1) Explain the program thoroughly to the applicant and emphasize he is being enlisted by waiver of physical standards under an agreement to undergo the therapeutic procedures necessary to remedy his medical condition. He will not enter basic military training until completion of his remedial period, but he is subject to existing guidance.

(2) Complete SF 522, "Clinical Record—Authorization for Administration of Anesthesia and for Performance of Operations and Other Procedures," in

## RULES AND REGULATIONS

duplicate and have it signed by a parent if applicant is under 18 years of age. Attach the SF 522 to the SF 88 and forward as a single document.

(3) Fully qualified applicants may enlist subject to quotas established by HQ USAF for the MREP, and as scheduled by HQ ATC.

(c) MREP. Defect occurring or being discovered after enlistment:

(1) If an airman has a medical defect that occurs or is discovered during basic military training, his enlistment contract may be changed to enlistment under the MREP. The medical officer of the basic military training activity is responsible for identifying the basic airman eligible for MREP. The director of base medical services (DBMS) will explain to the airman the therapeutic procedures necessary to correct the defect. He will advise the airman that he may either agree to undergo the therapeutic procedures or have his case considered by a medical board which will make recommendations concerning disposition. If the airman is under 18 years of age, the DBMS will require SF 522 to be completed in duplicate and forwarded to the airman's servicing CBPO.

(2) The CBPO will use the following procedures to process the airman into the MREP:

(i) Type the following statement on his Air Force Form 1114 as a separate paragraph:

I understand that I am being granted a waiver of medical qualifications on the express condition that I submit to whatever surgical or other therapeutic procedures are determined to be necessary to correct my physical defect (indicate specific defect).

(ii) Upon receipt of SF's 522 from DBMS, CBPO/DPMMR will forward the forms to airman's parent or guardian for signature, and suspense for return; when received, return forms to DBMS for disposition.

#### § 888.15 Prior service program.

This section applies to the enlistment of all prior service personnel in the Regular Air Force except when specified otherwise in this part and other Air Force regulations. Enlistment of prior service personnel in the Air Force is extremely selective because of limited yearly quotas. Applicants for this program are required to meet all standards prescribed in this part.

(a) Grade determination. Enlistment grade may not be higher than E-7. Applicants who are authorized grades E-6 and E-7 may not enlist for vacancies below the seven skill level; if authorized a grade lower than E-5, an applicant may not enlist for a seven skill level vacancy.

(b) Criteria for enlisting for assignment in a required skill. (1) The AFSC of the applicant shown on his last DD Form 214 must be on the required skills list or be a specialty convertible to the required AFSC for the conversion list with the specified total active military service (TAFMS). Use primary AFSC only for applicants from the other armed forces.

(2) If AFSC or assignment for which applicant is enlisting requires a security

clearance, obtain this prior to date of enlistment.

(c) Enlistment of prior service applicants. Enlist as indicated in the following priority:

(1) Without regard to Required Skills List provided they:

(i) Are airmen removed from the Temporary Disability Retired List.

(ii) Are authorized to enlist by a letter issued by HQ USAF.

(iii) Are enlisted women separated for pregnancy prior to first anniversary of their date of separation.

(2) Personnel who possess a skill contained on the Required Skills List.

(3) Former military members who possess a skill convertible to an AFSC on the Required Skills List.

(4) Former military members enlisting for formal school training.

#### § 888.16 Women in the Air Force (WAF) (NPS) program.

Women will be selected for enlistment at recruiting detachment in accordance with the following procedures. The Recruiting Detachment Selection Board will:

(a) Review all available information pertaining to the applicant (including the mental qualification and medical examination).

(b) One voting member of the Detachment Selection Board will personally interview the applicant.

(c) Decide selection / nonselection based upon established criteria.

(d) Advise the applicant by letter of her selection or nonselection. The letter of selection is valid for 6 months after the date of issue unless the applicant enlists in the Delayed Enlistment Program (DEP). The selection of a WAF in the DEP is void on the day following her scheduled date of extended active duty (EAD). Reestablish enlistment eligibility by obtaining a new letter of selection.

#### § 888.17 Airman removed from temporary disability retired list (TDRL).

(a) A former airman removed (discharged) from the TDRL may enlist as prescribed unless barred for conditions occurring subsequent to his placement on the TDRL. Refer all cases of barred airmen through channels to USAFMPC/DPMPMA for final determination of enlistment eligibility.

(b) Applicants (includes former airmen who have completed 20 or more years of active service and are eligible for retirement under AFR 35-7) may enlist through USAF Recruiting Service or at any Air Force CBPO by presenting:

(1) Letter from AFMPC/DPMARA authorizing enlistment.

(2) Special order announcing removal from TDRL and discharge.

(3) DD Form 214 issued at the time of placement on TDRL.

Note: Enlist applicants under paragraph (c) of this section at Air Force installations only.

(c) An airman who has completed the minimum requirement for voluntary retirement established by law and policy, and who is physically fit by having re-

## RULES AND REGULATIONS

covered from the condition for which placed on TDRL, but unfit by reason of a condition incurred while on TDRL or 60 days thereafter, shall be enlisted provided he was removed from TDRL and discharged without severance pay. Such enlistment shall be consummated notwithstanding the fact that there is a nonservice-connected disqualifying disability and with the understanding that retirement for length of service will be accomplished as soon as practicable. In item 48 of DD Form 4, enter "AFM 33-3, paragraph 4-1c."

## § 888.18 Restored Air Force prisoners.

A "restored prisoner" is a former member of the Air Force discharged from the Air Force with a dishonorable discharge or bad conduct discharge who is permitted to enlist in the Air Force pursuant to established Air Force policy. The authority to effect such enlistment is limited to commanders exercising general court-martial authority. In some individual cases special instructions are issued by HQ USAF. Approval of restoration by competent authority constitutes a waiver of existing disqualifications for reenlistment. Enter in item 48, DD Form 4: "Enlistment completed under AFM 33-3, paragraph 4-2." As these airmen in fact and in law enter upon a new enlistment, their eligibility for future enlistment is determined entirely by their service during such enlistment.

## § 888.19 Applicants whose last period of service was in officer status.

(a) *Former Air Force officers with prior enlisted service in Regular Air Force.* This paragraph applies only to former officers who served in the Regular Air Force as enlisted members and enlist within 6 months from date of separation:

- (1) To qualify for enlistment applicant must:
  - (i) Have served on EAD as a Reserve officer or have been discharged as an enlisted member to accept temporary appointment as an officer.
  - (ii) Not have had a break in service exceeding 6 months after separation as an airman. An officer relieved from active service and later recalled, within 6 months will be considered to have had continuous service.
  - (iii) Not be an officer relieved from active duty to await appellate review of sentence that includes dismissal or dishonorable discharge.
  - (iv) Have been separated with honorable discharge.
  - (v) Have approval from the Secretary of Air Force to enlist if separated with general discharge.

(2) Applicant is authorized to enlist in the grade determined by the appropriate provision listed as follows:

- (i) Highest permanent enlisted grade held in the Regular Air Force immediately preceding discharge to serve on EAD as an officer.
- (ii) Highest temporary enlisted grade held in the Regular Air Force for 6 or more months.

(iii) Sergeant (E-4) if not qualified for a higher grade.

(3) Is not required to meet the prior service program criteria and will be processed without regard to age, physical disqualification incurred in line of duty while in active military service, or existing vacancy.

(4) Is entitled to date of rank in accordance with AFR 35-54.

(b) *Other former Air Force officers.* Officers separated over 90 days (ineligible under paragraph (a) of this section). Applicants in this category are considered as prior service personnel. Authorized grade is A1C (E-3) with date of rank as date of enlistment.

## § 888.20 Officer appointees to the U.S. Air Force Academy.

(a) Qualifications and procedures for appointment to the U.S. Air Force Academy from quotas allocated to the Regular Air Force are prescribed in Part 901b.

(b) Terminate officer status of the applicant prior to appointment. CBPO's will enlist candidate as prescribed in this section.

(c) *Processing.* (1) Physical and mental testing are not required.

(2) DD Form 4 and DD Form 53, "Notification of Entry into Active Military Service," are the only forms required in connection with this enlistment.

(3) Special instructions on DD Form 4:

- (i) Item 56—enter "This airman was selected for appointment to the U.S. Air Force Academy." (The applicant will initial.)
- (ii) Item 10—enter "NA."
- (iii) Item 12—enter "paragraph 4-4, AFM 33-3."
- (4) Enlistees will sign the following statement and have it witnessed by the enlisting officer:

Upon acceptance of appointment as a cadet to the U.S. Air Force Academy effective \_\_\_\_\_ I understand that in accordance with the provisions of 10 U.S.C. 516, should my appointment be terminated for reasons other than acceptance of a commission in a Regular or Reserve component of the Armed Forces, or for physical disability, I will resume my enlisted status and complete the period of service for which I was enlisted and for which I have an obligation. Note: Attach original to original DD Form 4; duplicate to duplicate DD Form 4; etc.

(5) Prepare DD Form 53 and forward as prescribed by AFR 35-77.

(6) Determine grade and date of rank under § 888.19.

(7) Assign enlistees in accordance with instructions from HQ USAF.

## § 888.21 Selected applicants to School of Military Sciences, Officer (SMSO).

These are individuals who have successfully completed all qualifying examinations (Part 902, USAF Officers Training School—OTS of this chapter) and have been notified in writing of selection to attend officer training school by the Commander, Air Training Command. Except as prescribed in this section, processing is the same as for regular enlistees.

(a) Applicant who possesses a letter of selection may enlist if not disqualified under this part by conditions which occurred or were discovered subsequent to the initial selection.

(b) Advise applicant that a completed copy of the college transcript must be turned in upon arrival at Lackland Air Force Base.

(c) Commander, Air Training Command, will issue instructions covering class assignment, reporting date, career field, and travel.

## § 888.22 National Guard and Reserve members of the Armed Forces not on extended active duty (EAD).

(a) Do not actively solicit personnel of the Reserve components to enlist in the U.S. Air Force. Upon request, furnish members with all the information they desire concerning enlistment in the Regular Air Force.

(b) Reservists whose total active service consists of an initial tour of active duty for training may enlist under the nonprior service program although their total active service exceeds 6 months.

(c) Inform applicant that airmen are not authorized to hold a Reserve commission or warrant in an Armed Force other than the Air Force. Advise applicants to contact the nearest Air Force Reserve unit to obtain information on procedures for transfers to the Air Force Reserve. Action must be completed prior to enlistment as all commissions and warrants are revoked automatically as of the date of enlistment.

(d) DD Form 368, "Request for Discharge or Clearance from Reserve Components," is required for all members of the Reserve components unless in Air Force Standby Reserve (those assigned to ARPC who are not participating actively in pay status). Forward DD Form 368 to Reserve unit address when known by applicant, or hold form until he obtains the correct address.

(e) If clearance is not received within 21 days, assume it has been granted. Prepare a duplicate DD Form 368 and have applicant sign the following statement on the reverse side of the DD Form 368:

As of \_\_\_\_\_ (date) I am not on extended active duty or active duty for training, nor have I been ordered to report for extended active duty within the next 90 days.

(f) For all reservists except those in the DEP (Part 907) make specific entry in item 48, DD Form 4, requesting discharge.

## § 888.23 National Guard and Reserve members of the Air Force on extended active duty (EAD).

(a) *Qualifications.* (1) Airman has served on current extended active duty tour for 12 months or longer.

(2) Applicant must be screened and selected for enlistment by special boards appointed by Wing/Base Commander. Decision of the appointing authority is final.

(3) An airman serving in grades E-8 or E-9 must have passed the USAF Supervisory Examination and enlist for a specific vacancy.

(b) *Grade and date of rank.* Grade and date of rank upon enlistment are the same as that at time of discharge.

## § 888.24 General considerations.

Sections 888.24 through 888.27 explain the procedures for processing and completion of all actions pertaining to enlistment in the Regular Air Force. At Air Force activities authorized by this part to effect enlistment, the CBPO is responsible for accomplishing all processing actions prescribed for Recruiting Service personnel and the Armed Forces Examining and Entrance Station. HQ USAF will notify the major command concerned of any discrepancies in enlistment actions taken by the CBPO.

## § 888.25 Prerequisite of applicants by USAF Recruiting Service.

Use the procedures outlined in this section to determine whether or not an applicant may be eligible for enlistment.

(a) *Verification of documents.* Advise applicant to submit originals or duly signed and authenticated copies of all documents. When the required information has been entered on the appropriate records, these documents will be returned to the applicant.

(b) *Verification of Social Security Account Number.* (The burden of proof is upon the applicant.) The only acceptable document for verification of Social Security Account Number is the Social Security Account Number Card normally carried on the person. In item 1 of the DD Form 4 (work copy) enter the SSAN exactly as shown on the SSAN card and in item 47, enter "SSAN verified from SSAN card." If applicant has lost or does not possess an SSAN card, have him prepare and submit IRS Form SS-5, "Application for Social Security Number (or Replacement of Lost Card)" to the nearest Social Security Administration District Office.

(c) *Enlistees from the Delayed Enlistment Program (Part 907 of this chapter).* Obtain previously completed Reserve documents of those who enlist under the Delayed Enlistment Program and furnish to AFEEs for their use in processing DEP member for Regular Air Force enlistment. AFEEs will retain these documents for attachment to Regular Air Force enlistment documents when the latter are processed for forwarding to AMFPC/DPMDRR, Randolph Air Force Base, Tex. 78148, for inclusion in the USAF Master Personnel Record Group.

(d) *Education.* Encourage applicants to complete their secondary education. Explain the Air Force "stay in school and graduate" policy to all applicants. High school students who apply for enlistment contingent upon their disenrollment require consent of parents and prior notification of the school officials. If applicant is enrolled in high school or has withdrawn therefrom during the current school year obtain signature from school official acknowledging that he discussed the problems with him and the applicant still desires to enlist. If no reply is received from the officer after 10 days,

## RULES AND REGULATIONS

make a statement to this effect, attach it to the DD Form 373, and continue processing.

(e) *DD Form 398, "Statement of Personal History."* Each applicant is required to complete DD Form 398 in accordance with AFR 205-6 and must insure that all entries are complete and readable. Review the form carefully to determine whether or not the applicant requires a preenlistment security investigation. Also use this form to detect discrepancies from other documents and information furnished by the applicant. Insure that applicant lists all previous security clearances in item 20.

(f) *Police record check.* (1) The use of the DD Form 369 to obtain a police record check as a prerequisite for enlistment is optional at the discretion of USAF Recruiting Service except under the following conditions:

(i) When offenses listed by applicant on AF Form 1114 or DD Form 398 indicate that a waiver is necessary to permit his enlistment.

(ii) If the applicant does not know the final disposition of the offense(s) he listed on his AF Form 1114 or DD Form 398.

(iii) When the recruiter has reason to believe a police record check is appropriate.

(iv) When applicant requires a pre-enlistment security investigation in accordance with § 888.11.

(2) When a police record check is mandatory or required by Recruiting Service, obtain information from law enforcement agencies covering applicant's background for at least 5 years or to date on which first offense was committed, whichever is the greater period. (For PS consider only period since last separated from active duty.) Use DD Form 369, "Police Record Check" for this as follows:

(i) Change the parenthetical phrase "other than minor traffic violations" to read "(including minor traffic violations)" on each DD Form 369. Forward DD Form 369 with an addressed return envelope to the chief of police, sheriff, and/or juvenile agency where the applicant resides, has resided, attended school, was employed, or where the offense was committed. This includes Canada and Mexico for U.S. citizens who committed offenses or lived therein for 6 months or more.

(ii) When law enforcement agencies will not or cannot furnish the required information, prepare a DD Form 369 for the appropriate period of time and enter the following remark: "Law enforcement agency will not check for law violations as a matter of policy." HQ U.S. Air Force Recruiting Service will identify these agencies.

(iii) When a reply from a law enforcement agency is not received within 21 days and personal visits or telephone calls are impracticable or unsuccessful, process the enlistment or request special authority for enlistment if appropriate. Enter the following remarks on DD Form 369, "Reply not received and I have no

reason to suspect the applicant had difficulties with the above law enforcement agency."

(iv) When offenses admitted require specific authority to enlist and a DD Form 369 cannot be obtained, advise applicant that processing will be held in abeyance until he furnishes the required information.

(g) *Mental screening tests.* Administer EST or WEST only when it appears the applicant cannot successfully complete the ASVAB or AQE. Retesting on alternate tests after 30 days is authorized; however, not more than two retests may be given in a 12-month period. Applicants failing to achieve a minimum score of 23 on the EST or 14 on the WEST are not authorized to take the AQE or ASVAB.

## § 888.26 Processing of qualified applicants by USAF Recruiting Service.

After the applicant has been found tentatively qualified for enlistment, accomplish DD Form 4. Using a typewriter or pen, prepare an original work copy of DD Form 4 for the applicant in accordance with established procedure. Insure that each entry is accurate, legible, and verified by the applicant or substantiating document. AFEEs will use this for preparing the final copy. After the applicant signs item 55 of the work copy of the DD Form 4, the recruiter will sign his name in the witness block.

## § 888.27 Distribution of enlistment documents by AFEEs.

Forward all enlistment documents pertaining to enlistment in the Regular Air Force as prescribed. If enlistee is entering the Regular Air Force through the Delayed Enlistment Program (Part 907 of this chapter) attach all enlistment documents to the Regular Air Force enlistment documents for forwarding to USAFMP/DPMDRR, Randolph Air Force Base, Tex. 78148, for inclusion in the USAF Master Personnel Record Group. The AFEEs will:

(a) Assemble the documents for Regular Air Force enlistees in order indicated, staple together in upper left corner (to include, if applicable, USAFR (DEP) documents underneath Regular Air Force enlistment documents) and forward within 1 workday to AFMPC/DPMDRR, Randolph Air Force Base, Tex. 78148.

(b) Place records into a sealed separate envelope for disposition as follows:

- (1) *For male NPS.* If several male enlistees are traveling together give the records to one man who will be responsible for their delivery to the unit of initial assignment.
- (2) *For WAF NPS.* Same procedures as for male NPS; however, a WAF must be designated to handle WAF records.
- (3) *For PS Airman.* On date of enlistment, mail records to unit of assignment in preaddressed envelopes furnished by Recruiting Service. Do not mail records to TDY school location. If airman is placed on TDY to technical training school, give him copy of SF's 88 and 93 to hand carry.

## RULES AND REGULATIONS

(4) *SMSO personnel.* SMSO personnel will hand carry their individual records, in a sealed envelope to Lackland Military Training Center (LMTCC).

(c) Forward the triplicate copy of DD Form 4 to the appropriate USAF Recruiting Group.

(d) Furnish the Consolidated Accessions Reporting Unit, Lackland Air Force Base, Tex. 78236, on a daily basis the enlistment data on each Air Force enlistee. The following procedures apply:

(1) Prepare an individual envelope for each category of enlistee and prominently stamp or mark it as NPS, SMSO, PS, DEP, or WAF.

(2) Attach one copy of the enlistment special orders to the quadruplicate copy of the DD Form 4. Place all of these DD Forms 4 and special orders in the envelope appropriate for the category of enlistment.

(3) Consolidate all Air Force DD Form 4 byproduct tapes to reach day's accessions on a single tape by enlistment category (NPS, SMSO, DEP, WAF).

(4) Place the separate envelopes for each enlistment category into a larger envelope. Roll or fold, as appropriate, the consolidated DD Form 4 byproduct tape and insert it into the larger envelope. (Care should be taken to minimize the possibility of damage to this tape during its transmittal.) Mark the outside of this envelope as follows to clearly identify contents: "Byproduct paper tape/DD Form 4. For immediate delivery to CDCC (Attention: NCOIC, Machine Accounting Unit)."

(5) Give this envelope to the enlistee or group leader (if more than one enlistee) and instruct him to hand carry and turn it in upon his arrival at the Base Reception Center, Lackland Air Force Base, Tex.

(6) Records listed on each Regular Air Force enlistee reassigned from the AFRES to Lackland Air Force Base, Tex., cannot be the same envelope referred to in subparagraph (4) of this paragraph.

(7) Records for Lackland Air Force Base, Tex., should be hand carried in all cases. On days when no enlistees travel to Lackland Air Force Base, AFRES are authorized to hold such records up to 2 workdays before resorting to mail transmittal. (Hold records should be consolidated and placed in a separate envelope.)

(8) Retain applicable records and then make disposition as prescribed by AR 601-270. After enlistment the AF Form 2030 is filed in the Unit Personnel Record Group until the airman reenlists or is discharged. AF Form 2031 is destroyed immediately on enlistment or declination to enlist. Do not return any records to the USAF Recruiting Detachment unless specifically directed in this part.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc 73-4482 Filed 3-12-73; 8:45 am]

## PART 888a—ENLISTMENT OF NONPRIOR SERVICE PERSONNEL IN READY RESERVE UNITS

## Miscellaneous Amendments

Part 888a, Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

1. Section 888a.0 is revised to read as follows:

## § 888a.0 Purpose.

(a) This part describes the purpose and explains Air Reserve Forces airman enlistment programs in Ready Reserve units available to qualified draft eligible applicants without prior military service. It also outlines the policies and procedures that apply. It applies to Air National Guard of the United States (ANGUS) and U.S. Air Force Reserve (USAFR).

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

2. Section 888a.1 is amended by revising paragraphs (b) and (c) and deleting paragraph (d) to read as follows:

## § 888a.1 Policy.

(b) Qualified applicants are enlisted under this part in the ANGUS and USAFR according to priorities in Part 888b.

(c) A person who does not appear to meet the qualifications listed in Airman Assignment Instruction Codes ALD and BGE, AFM 39-11, will not be placed on waiting lists under Part 888b of this chapter for enlistment in USAFR air postal and courier units.

## § 888a.10 [Amended]

3. Section 888a.10 is amended by deleting paragraph (b) and removing "(a)" from the remaining paragraph.

4. Section 888a.11 is amended by adding paragraphs (f) and (g) to read as follows:

## § 888a.11 Who may enlist.

(f) They are not engaged in or preparing for a skill in a critical civilian occupation unless there is an overriding military need for the skill as determined by AFRES.

(g) They are not medical, dental, veterinary, osteopathy, or optometry students.

5. Section 888a.12 is amended by correcting "(E-12)" in paragraph (b) to "(E-2)" and by adding paragraphs (e) and (f) to read as follows:

## § 888a.12 How to enlist.

(e) Upon enlistment, DD Form 44, "Record of Military Status of Registrants," will be prepared and distributed.

(f) When an otherwise qualified applicant questions his denial of enlistment because of nonselection for a quota vacancy, he will be advised:

(1) Of the policy.

(2) That he may have his name retained on a waiting list pending the availability of another recruiting quota and may check his status at any time.

(3) Of other reserve units to which he may apply for enlistment.

(4) If he feels additional consideration of his application is warranted, he may appeal the denial of his immediate enlistment. Appeal will be in writing and will be forwarded to AFRES, Robins Air Force Base, Ga. 31093. The unit will offer any necessary assistance in preparing the appeal.

6. Section 888a.13 is amended: By changing "120 days" to "180 days" in the third and fourth sentences of paragraph (b); by redesignating (b) (3) to (b) (4) and adding a new (b) (3) to read as follows; and by changing the note following paragraph (b) from "(1), (2), or (3)" to "(1), (2), (3), or (4)":

## § 888a.13 Active duty for training (ACDUTRA).

(b) . . . .

(3) If, after enlistment, a member incurs a personal hardship of a temporary nature resulting in an unexpected delay, or

7. Section 888a.14 is revised to read as follows:

## § 888a.14 Participation in Reserve training.

After completing initial ACDUTRA, the member must satisfactorily participate in training required for his reserve assignment.

## § 888a.15 [Amended]

8. Section 888a.15 is amended by deleting paragraph (b) and removing "(a)" from the remaining paragraph.

## § 888a.20 [Amended]

9. Section 888a.20 is amended by deleting paragraph (b) and removing "(a)" from the remaining paragraph.

10. Section 888a.21 is amended by correcting in the introductory text "36 years" to "26 years", and adding new paragraphs (f) and (g) to read as follows:

## § 888a.21 Who may enlist.

(f) They are not engaged in or preparing for a skill in a critical civilian occupation unless there is an overriding need for the skill as determined by the applicant's State Adjutant General.

(g) They are not medical, dental, veterinary, osteopathy, or optometry students.

11. Section 888a.23 is amended: By deleting "nonprior service" from the first sentence of paragraph (a); by changing "120 days" to "180 days" in paragraph (b); by redesignating (b) (3) to (b) (4) and adding a new (b) (3) to read as follows; and by changing the note following paragraph (b) from "(1), (2), or (3)" to "(1), (2), (3), or (4)":

## § 888a.23 Active duty for training (ACDUTRA).

(b) . . . .

12. Section 888a.24 is revised to read as follows:

## § 888a.24 Participation in training.

After completing initial ACDUTRA, the member must satisfactorily participate in training required for his reserve assignment.

## § 888a.25 [Amended]

13. Section 888a.25 is amended by deleting paragraph (b) and removing "(a)" from the remaining paragraph.

14. Section 888a.26 is amended by revising paragraph (b) to read as follows:

## § 888a.26 Release of members from this program.

(b) After the initial period of active duty for training. The commander of the unit of assignment may permit the conditional release of airmen within prescribed policy on releases of this purpose.

15. Section 888a.35 is revised to read as follows:

## § 888a.35 Promotion.

See chapter 22 of AFM 35-3 for USAFR members and ANGR 39-29 for ANGUS members.

16. Section 888a.36 is revised to read as follows:

## § 888a.36 Release from active duty for training.

(a) A member will be released upon completion of 4 months ACDUTRA unless retained beyond this period to complete required technical training or OJT applicable to his Air Force specialty. A member who completes basic military training and/or technical training and has:

(1) Seven or more days remaining to complete the 4-month tour, will be returned to his unit of assignment for OJT and release upon completion of the ACDUTRA tour.

(2) Less than 7 days remaining to complete the 4-month tour is to be retained and released by his unit of attachment upon completion of the ACDUTRA tour.

(b) DD Form 214, "Armed Forces of the United States Report of Transfer or Discharge," will be issued to each individual released from ACDUTRA under this part. The form will be prepared and issued under AFM 35-5 by the CBPO servicing the last active establishment organization with which the individual performs ACDUTRA. When an ANGUS member performs duty with his parent ANG unit, the servicing CBPO of that unit will be responsible for completing the form.

(c) In addition to paragraph (b) of this section, when a member is released

## RULES AND REGULATIONS

from ACDUTRA for reasons other than normal termination of tour, the CBPO of the unit of attachment will publish orders according to AFM 10-3.

(1) Orders will provide that the member is released from attachment and that upon his return to the address of entry on ACDUTRA, will revert to his inactive duty assignment.

(2) Five copies will be sent to the servicing CBPO of the parent unit of assignment and to the Adjutant General of the appropriate State (for ANGUS members).

(3) The servicing CBPO of the unit that terminates the member's ACDUTRA tour is responsible for accomplishing or arranging the complete separation processing of the member. Before release from active duty, the health records of each member will be thoroughly reviewed. Depending on the validity and completeness of the physical examination for entry into active duty as well as interval medical history, the original physical examination may be accepted, supplemented, or reaccomplished at the discretion of the director of base medical services.

(10 U.S.C. 8012, except as otherwise noted)

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc 73-4483 Filed 3-12-73; 8:45 am]

## PART 888b—ENLISTMENT IN THE AIR FORCE RESERVE

Part 888b, Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Sec.	Purpose.
888b.1	General provisions.
888b.2	Qualifications for enlistment.
888b.3	Term of enlistment.
888b.4	Who enlists applicants.
888b.5	Verifying applicant's identity and age.
888b.6	Consent of parents/guardians.
888b.7	Medical examination.
888b.8	Police record check.
888b.9	Security investigation for certain applicants.
888b.10	Verifying prior service.
888b.11	Applicants enlisted by agency other than unit of assignment.
888b.12	Administering oath of enlistment.
888b.13	Age qualifications.
888b.14	Mental requirements.
888b.15	Applicants ineligible to enlist—waivers may not be requested.
888b.16	Applicants ineligible to enlist—waivers may be requested.
888b.17	Preenlistment security investigations.
888b.18	How to verify prior service.
888b.19	Uniform guide list of typical minor traffic offenses.
888b.20	Uniform guide list of typical minor nontraffic offenses.
888b.21	Uniform guide list of typical minor (nonminor) misdemeanors.
888b.22	Uniform guide list of typical felonies.
888b.23	Uniform guide list of typical felonies.

AUTHORITY: 10 U.S.C. 8012, except as otherwise noted.

## § 888b.1 Purpose.

(a) This part provides basic policy, qualifications, and procedures for enlisting eligible men and women as Reserves of the Air Force for service in the USAFR.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

## § 888b.2 General provisions.

(a) Under this part an applicant may enlist only to fill:

(1) A vacant position in a unit organized to serve as a unit if mobilized, or

(2) A vacant MA position. Exception: A person enlisting for the Retired Reserve under AFM 35-7 or whose enlistment is required by Parts 888d, 901b, 902, or AFR 53-14 may enlist without regard to position vacancies or other qualifications peculiar to this part.

(b) Qualified applicants without prior service are enlisted in the following order:

(1) Priority 1. Females, and male applicants under Part 888c of this chapter who have not undergone random selection for induction or who have undergone random selection and have passed through their full year of vulnerability without induction.

(2) Priority 2. Male applicants under Part 888c who have undergone random selection for induction but who have not yet passed through their full year of vulnerability.

(c) Within the priorities listed in paragraph (b) of this section, applicants in priority 1 may be enlisted without regard to date of application. Applicants in priority 2 who are accepted on a unit waiting list will be retained in their original priority. Exceptions to this policy may be made, when in the judgment of AFRES (for USAFR) or the State Adjutant General (for ANGUS), an applicant's civilian training or experience in the Air Force Specialty concerned is considered to warrant it.

(d) Units are required to actively recruit qualified persons of all races, creeds, and ethnic groups to insure that all units generally reflect the character of the population of their recruiting area.

(e) The Secretary of the Air Force may deny enlistment to any individual or authorize the enlistment of an individual otherwise ineligible by the criteria contained in this part when it is determined to be in the best interest of the Air Force.

## § 888b.3 Qualifications for enlistment.

An applicant who does meet requirements stated in this section and other applicable AF regulations may not be enlisted unless waiver is specifically permitted by this part, requested in writing, and approved. Waivers are approved only when the facts indicate that the applicant will be a useful member of the AF. Major commands have waiver approving authority unless otherwise specified in this part. Send requests through channels to the approving authority.

(a) **Citizenship.** Applicant must be a citizen of the United States or possess a valid Immigration Form I-151, "Immigration and Naturalization Service Alien Registration Receipt Card," as evidence of lawful entry into the United States for permanent residence. Reproduction of this form in any manner is prohibited.

(b) **Moral character.** Applicant must be of good moral character which can be determined by ascertaining his reputation in his community. A person convicted or adversely adjudicated as a juvenile offender for certain offenses, is ineligible to enlist; however, waiver may be considered.

(c) **Age.** See §§ 888b.7, 888b.14, and 888b.16.

(d) **Mental.** See § 888b.15.

(e) **Drug abuse.** Refer to AFR 30-19, table 1, to determine eligibility of applicants who have used drugs.

#### § 888b.4 Term of enlistment.

(a) Six years for applicants under Part 888c of this chapter.

(b) As prescribed in Part 888d of this chapter for college students selected for enrollment in the Professional Officer Course or the College Scholarship Program, AFROTC.

(c) One time for 1 year when enlisting in the USAFR for the first time after the member completes his military service obligation (MSO).

(d) Four years for a ResAF officer selected under Part 901b to fill a reserve (competitive) vacancy in the USAF Academy.

(e) Three, 4, 5, or 6 years for a person with prior service enlisting as an Air Reserve technician.

(f) Unspecified period of time when enlisting for transfer or assignment to the Retired Reserve under AFM 35-7, Chapter 8.

(g) Two, 3, 4, 5, or 6 years for all others.

**NOTE:** Male applicants must enlist for a period equal to or greater than their remaining MSO.

#### § 888b.5 Who enlists applicants.

Enlistment normally is done by the unit or servicing CBPO/CRPO that controls the position for which the applicant is enlisted, unless a written agreement is made to have it done by another agency.

(a) **Within the United States and U.S. possessions and territories.** (1) Men subject to induction. (i) Applicants without prior service are enlisted according to Part 888c of this chapter.

(ii) Applicants with prior service transferred to the USAFR may be enlisted by the unit or servicing CBPO/CRPO having the vacant position.

(iii) College students accepted for enrollment under Part 870 of this chapter in the Professional Officer Course or in the College Scholarship Program, AFROTC, are enlisted according to Part 888d of this chapter.

(iv) ResAF commissioned officers accepted for appointment to the USAF Academy against a reserve (competitive) vacancy under Part 901b of this title are enlisted by their unit of assignment (or

servicing CBPO/CRPO) after instructions are received from ARPC.

(v) Upon receipt of notification from the USAF Academy that an individual has been selected to attend the USAF Preparatory School, ARPC notifies the CBPO/CRPO of an Air Force activity or USAFR unit nearest the individual's home to enlist the applicant in the USAFR. Specific assignment instructions are furnished by ARPC.

(2) Men not subject to induction because of prior service or because they have reached their 26th birthday are enlisted by the unit (or servicing CBPO/CRPO) having the position vacancy.

(3) Women applicants with or without prior service are enlisted by the unit (or servicing CBPO/CRPO) having the position vacancy.

(b) **Outside the United States and U.S. possessions and territories.** Any overseas Air Force installation (or servicing CBPO/CRPO) capable of accomplishing the enlistment is authorized to enlist an applicant with prior service whose term of reserve enlistment expired while overseas to fill an MA position for which he qualifies and has been selected provided the period since his last discharge was either EAD or USAFR is less than 12 months. If the individual has been discharged for 12 months or more, authorization for enlistment and assignment must be obtained from ARPC.

(c) **Verifying applicant's identity and age.**

(a) **Persons without prior service.** Verifying identity and age from the applicant's original birth certificate, delayed birth certificate, or an official signed statement from the State registrar of vital statistics or other designated government official. Copies are permitted provided they are duly signed and authenticated by the appropriate official as being true copies of the original.

(1) DD Form 372, "Application for Verification of Birth for Official U.S. Armed Forces Use Only," may be used when requesting information. Addresses of State officials are provided on the form. If a record of the applicant's birth is not available, advise him to obtain a delayed birth certificate according to instructions he obtains separately from the State concerned.

(2) The applicant's driver's license, selective service card, social security card, etc., may be used in conjunction with his birth certificate to confirm his identity. If his present name differs from that originally shown on his birth certificate, his identity can be established by a copy of the court order changing his name; or by an affidavit legally executed by the parents or legal guardian stating that he is the same person whose name appears on the birth certificate or document substantiating his date of birth; or by completing an AF Form 63, "Statement of Name For Use in Official Air Force Records," on which his identity is established and attested to by two witnesses whose signatures appear on the form. If he does not have natural parents, stepparents, or a legal guardian avail-

able, the witnesses may be reliable members of the community, such as school officials, ministers, close relative, or neighbors.

(b) **Person with prior service.** Verify identity and age from entries on his last DD Form 214, Part 887 of this chapter states how to apply for a replacement if the document has been lost or destroyed.

#### § 888b.7 Consent of parents/guardians.

(a) An applicant under 18 years of age and any applicant who is still in high school (including those who withdraw during the current school year), regardless of age, must furnish a completed DD Form 373, "Consent Declaration of Parent or Legal Guardian," in duplicate. If either parent or the guardian objects, do not enlist the applicant. If after investigation the applicant is found to have neither a living parent nor legal guardian, the enlisting authority may waive parental consent.

(b) Upon receipt of parental/guardian consent for high school applicants, the enlisting authority notifies the responsible school official of the proposed enlistment, stating that the student will not be enlisted until his return comments are received. Furnish a self-addressed, franked envelope to expedite his reply. In the absence of a reply from the school official, the enlisting authority signs a statement indicating that notification was given but return comment was not received.

#### § 888b.8 Medical examination.

Each applicant eligible in other respects must undergo a medical examination to determine if physically qualified for enlistment.

#### § 888b.9 Police record check.

A police record check for years subsequent to 12 years of age is required for applicants without prior service and for applicants with prior service whose last discharge from EAD or Reserve status exceeds 90 days. Major commands may waive this requirement when difficulty is experienced in obtaining verification of an individual's status. Enlisting activities prepare DD Form 369, "Police Record Check" (AFR 125-36) and forward it to the chief of police, sheriff, or juvenile agency having jurisdiction over the area where the applicant resides, has resided, attended school, was employed, or where the offense was committed (verify from Items 9, 13, and 15 of DD Form 398). This includes Canada and Mexico for U.S. citizens who lived in either country for 6 months or more. To facilitate their reply, provide a return addressed franked envelope.

#### § 888b.10 Security investigation for certain applicants.

(a) See § 888b.18.

(b) Administrative instructions. (1) Before requesting security investigation, complete all processing except enlistment. The normal time required for the investigation is 60 to 120 days. More time may be needed if the applicant has resided for an extended time or has close

relatives currently residing in a Communist-orientated country. If applicant has received a preinduction examination, furnish the Selective Service board a written statement of qualifications and request a 6-month deferment from induction. If the board approves the deferment in writing, submit request for investigation. Inform the Selective Service board in writing when the deferred applicant does not enlist.

(2) Submit request for investigation as required by AFR 205-6.

(3) The following additional information is required on AF Form 1145, "Request for Personnel Security Investigation":

(i) **Item 1.** Indicate "AFR 205-6 and AFM 35-3, paragraph 6-11."

(ii) **Item 2.** Type "None."

(iii) **Remarks section.** Indicate that the request is for a preenlistment security investigation and give the reason. Example: "Applicant for enlistment in NPS program as a ResAF requires preenlistment security investigation according to AFM 35-3, paragraph 6-11."

(iv) **Window envelop area.** For all applicants included in § 888b.18 type the address of the OSI District Office serving the enlisting activity. For all other aliens, type "Director, DOD NAC Center, Post Office Box 4, Fort Holabird, MD 21219."

(4) Upon receipt of favorable results of the investigation, enlist qualified applicants.

#### § 888b.11 Verifying prior service.

Prior service claimed by an applicant is verified according to § 888b.19 before his enlistment if:

(a) He is unable to show his last report of separation.

(b) Essential entries on the report of separation are not readable, or

(c) There is reasonable belief that his report of separation has been altered by other than official direction.

#### § 888b.12 Applicants enlisted by agency other than unit of assignment.

Advise the applicant that the sponsoring agency (unit requesting his enlistment) will contact him and provide pertinent instructions and information about his status. The enlistee should also be informed that if the unit of assignment does not contact him within 30 days from the date of enlistment, he should visit or write to (designation of unit, street addresses of unit, city, State, and ZIP code). If he writes, an information copy of the letter should also be forwarded to ARPC. The letter should include his name, Social Security account number, correct home address, date and place of enlistment, and any other information concerned applicable.

#### § 888b.13 Administering oath of enlistment.

Arrange for the oath of enlistment to be administered in a dignified manner

in appropriate surroundings. Display the flag of the United States prominently near the person administering the oath.

#### § 888b.14 Age qualifications.

Rule	A	B	C
	If applicant has—	And age at enlistment is—	Then maximum prior service requirement is—
1	No prior service.	17 but less than 18.	None.
2	Prior service (note).	Up to and including 18.	
3		6 but under 18.	1 year.
4		18 but under 21.	2 years.
5		21 but under 26.	2 years plus number of years applicant is over age 20.

**NOTE:** Major commands may waive the age requirement for an applicant without sufficient prior service who possesses a technical skill required by the USAFR provided the applicant is less than 35 years old at the time of enlistment.

Rule	Conditions indicated by "X" are disqualifying for enlistment of applicant. These rules apply to both male and female unless otherwise indicated.	Non prior service	Prior service
1	Male under 26 years of age and subject to induction under the Military Selective Service Act of 1967, unless enlisting under Part 888c or under Parts 888d, 901b, 907, or AFR's 53-14 or 53-27.	X	X
2	Unable to speak, read, write, and understand the English language sufficiently to insure that applicant can satisfactorily absorb required training.	X	X
3	Habitually intoxicated or under the influence of alcohol or drugs.	X	X
4	Questionable moral character, history of antisocial behavior, alcoholism, sexual perversion, having frequent difficulties with law enforcement agencies, history of psychotic disorders.	X	X
5	Civil and criminal charges filed or pending against applicant by civil authorities (note).	X	X
6	Under restraint imposed by any civil court.	X	X
7	Conscientious objector or person with convictions which preclude unrestricted assignment.	X	X
8	Engaged in disloyal or subversive activities or enlistment not clearly consistent with interests of national security under AFR 35-62.	X	X
9	Refuses to complete or sign DD Form 98, Armed Forces security questionnaire; AF Forms 200, USAF drug abuse certificate, and 204, drug abuse circumstances (when individual evaluation is requested on AF Form 3930).	X	X
10	Member of the U.S. Public Health Service or Environmental Science Services Administration.	X	X
11	Does not possess a social security account number.	X	
12	Applicant, 17 but less than 18 years of age or at time of application is still in high school regardless of age (includes those who withdraw in current school year), whose parent(s) or guardian will not consent to their enlistment.	X	
13	Male applicants not registered with Selective Service System and who have attained 18th but not passed 26th birthday.	X	
14	Male applicants separated from active service longer than 30 days, are 18 but not over 26 years of age and have not registered with Selective Service System.		X
15	Male Selective Service registrant classified as 1-O, 1-AO, 1-W, or 1-V-For under orders for induction.	X	
16	Male applicant currently a cadet of the U.S. Military Academy, U.S. Air Force Academy, U.S. Coast Guard Academy, or midshipman of the U.S. Naval Academy.	X	
17	Separated from U.S. Armed Forces other than Air Force with time lost under 10 U.S.C. 972.		X
18	Separated from last period of service for unsuitability, unfitness, disloyalty, or not recommended for reenlistment, or under any other pertinent regulations.		X
19	Separated with discharge or conditions that are a bar to enlistment.		X
20	Separated from any of the Armed Forces for physical disability with or without severance pay.		X

#### § 888b.15 Mental requirements.

Rule	A	B
	If applicant has—	Then qualifying score on ACT is— (note 2)
1	No prior service.	The minimum aptitude index shown in AFM 35-1 for the career field subdivision for which considered.
2	Prior service.	25 or higher on general, plus 25 or higher on either administrative or mechanical; or equivalent or higher on the AQT, or ACB, if taken.

**NOTES:** 1. The following are exempt from the mental requirements:

(a) An individual who has been accepted for enrollment in the professional officer course or college scholarship program, AFROTC and whose enlistment is required by Part 888d of this chapter.

(b) An applicant who is enlisting as an ART.

(c) An individual whose enlistment is required by Parts 901b and 902 of this title.

(d) A former ResAF or AFR member last discharged in grade E-5 or higher with a five-skill level or higher who enlists within 90 days of his last discharge. If test results are of record, qualifying or otherwise, score must be entered on DD Form 1. If results are not of record, the ACT must be administered and scores attained must be entered on DD Form 1.

2. See AFM 35-8, Chapter 11, for retest provisions.

#### § 888b.16 Applicants ineligible to enlist—waivers may not be requested.

21	Receiving retirement or retainer pay from any of the Armed Forces or having received severance pay because of permanent physical disability.	.....	X
22	Separated with other than an honorable discharge certificate or with entry other than "Honorable" on DD Form 214.	.....	X
23	Application for retirement pending or retired persons.	.....	X
24	Former officers separated or released from EAD for cause by the Secretary of the Air Force or in lieu of such action (including cases initiated under AFR's 35-62, 35-66, 36-2, or 36-3).	.....	X
25	Former officers separated because of failure of selection for promotion during their 3-year probationary period.	.....	X
26	Former officers eligible for retirement in officer status under any provision of law (does not include former AF officers with prior enlisted service in the RegAF or as a Reserve of the Air Force or those covered by AFR 36-12, paragraph 5c(2)).	.....	X
27	Former regular and reserve officers discharged with severance pay.	.....	X
28	Reserve commissioned officers and warrant officers separated for age who do not possess sufficient service for retirement.	.....	X
29	Applicants credited with 30 years of satisfactory service for retirement purposes.	.....	X
30	Applicant who is 55 years or older (not applicable to persons under consideration as ART's).	.....	X
31	Applicant who cannot attain 20 good years for retirement prior to reaching maximum age or length of service.	X	X
32	Applicant who is credited with 20 or more good years for retirement and is within 1 year of reaching maximum service.	.....	X

NOTE: For applicants with prior service, consider only offenses which occurred after date of last separation.

#### § 888b.17 Applicants ineligible to enlist—waivers may be requested.

Rule	Conditions indicated by "X" are disqualifying for enlistment unless waived or excepted. These rules apply to male and female unless otherwise noted.	Non-prior Service	Prior Service
1	Has moral disqualification listed in §§ 888b.20, 888b.21, 888b.22, or 888b.23 unless specific authority to enlist is obtained under proper rules, or has been involved with narcotics, marijuana, or dangerous drugs listed in AFR 30-19 unless specific authority to enlist is granted.	X	X
2	Discharged for hardship or dependency unless proof is presented that the condition(s) no longer exists.	.....	X
3	Separated and claims prior honorable service but lacks written evidence of such service, unless verified.	.....	X
4	Former reserve officer of any of the U.S. Armed Forces, except when specifically authorized, or unless otherwise authorized by ARPC.	.....	X
5	Former Reserve member discharged under AFR 46-43, para 13b, because of an erroneous enlistment (note).	.....	X
6	Former RegAF airmen separated with reenlistment eligibility codes RE 4, 15, or 20, without approval of major command.	.....	X
7	Discharged under provisions of AFM 35-4, Chapter 9, unless proof is presented that EPTS disability no longer exists.	.....	X
8	Separated from the U.S. Air Force and charged with time lost under 10 U.S.C. 972.	.....	X

NOTE: When requesting waiver include a copy of DD Form 214, "Armed Forces of the United States Report of Transfer or Discharge," for each period of prior service. The unit commander must include a recommendation based on a personal interview with the applicant and any statement the applicant desires to make regarding the reasons for his separation. Even when a waiver is approved by the major command, the applicant is not eligible for voluntary recall to EAD under AFR 45-21.

#### § 888b.18 Preenlistment security investigations.

Rule	A If applicant has—(note 1).	B In countries (within effective period) listed in AFR 246-6 Attachment 3, and he is—	C Then before enlistment, he requires a—
1	Parent, spouse, child, brother, or sister residing.	A U.S. citizen (note 2).	BI.
2	Lived	A U.S. citizen (note 2).	BI if he traveled more than 30 days.
3	Traveled	A U.S. citizen (note 2).	BI.
4		An alien (note 2).	BI.

NOTES: 1. Travel or presence under sponsorship of U.S. Government requires no investigation; a valid U.S. passport alone is not considered as sponsorship.  
2. Aliens not included in this section require a preenlistment NAC.

#### § 888b.19 How to verify prior service.

Rule	A If branch of service is—	B And status of applicant is—(note 1)	C Then write to—(note 2)
1	Air Force.	A reserve member not on EAD.	Air Reserve Personnel Center, 3800 York St., Denver, CO 80225.
2	Army.	An officer separated before July 1, 1917.	National Archives and Record Service, National Archives Bldg., Washington, D.C. 20408.
3		An enlisted member separated before Nov. 1, 1912.	HQ Department of the Army, Office of the Adjutant General, U.S. Army Administration Center, 9700 Page Blvd., St. Louis, MO 63132.
4		A person separated on or after Jan. 1, 1960.	
5		A Reserve member.	
6	Army National Guard.	A person whose period of AD or ACDUTRA in the U.S. Army ended after Dec. 31, 1959.	The adjutant general of the appropriate State.
7		A member not on AD in the U.S. Army.	
8		A person discharged from the NG (exclude periods of active duty and ACDUTRA in U.S. Army).	
9	Coast Guard.	An enlisted member separated less than 6 months.	Commandant, U.S. Coast Guard, Washington, D.C. 20226.
10		An officer separated less than 3 months.	
11		A member of the Reserve.	
12		An officer completely separated before Jan. 1, 1929.	
13	Marine Corps.	An officer in Reserves.	Commandant of the Marine Corps, Headquarters, U.S. Marine Corps, Washington, D.C. 20380.
14		An enlisted member in organized Active Reserve.	
15		A person completely separated less than 4 months.	
16	Navy.	An officer separated less than 1 year.	Chief of Naval Personnel, Department of the Navy, Washington, D.C. 20370.
17		An enlisted member separated less than 4 months.	
18		An Active and Inactive reservist with 18 or more months remaining in 1st term of enlistment.	
19	All branches.	A person not listed above.	National Personnel Records Center (Military Personnel Records), 9700 Page Blvd., St. Louis, MO 63132.

NOTES: 1. Acceptable reports of separation:  
(a) Persons last discharged from a regular component of any of the U.S. Armed Forces, on or after January 1, 1951, must possess the original DD Form 214.

(b) A discharge certificate or report of separation is acceptable, if discharged before January 1, 1951, provided the specific reason is indicated either by an actual statement or reference to a regulation or other authority. If specific reason is not included, other official documentary evidence, stating reasons, is acceptable.

(c) DD Form 214 is required from members without prior service released from their initial ACDUTRA tour after July 1, 1956. DA Form 87 or other similar certificate for U.S. Army Reserve members, and official release order for U.S. Marine Corps Reserve members released before July 1, 1956, is acceptable.

2. Enlisting activities asking for verification of prior service must request that a reproduced copy of the DD Form 214 or other official statement of service (whichever is available) be furnished. The request must contain the following data which must be provided by the applicant:

- Exact name under which applicant served.
- Branch of service.
- Service number(s) and social security account number.
- Date and place of birth.
- Type of discharge claimed.
- Date of discharge.
- Other pertinent data which might be helpful to the searching agency.

#### § 888b.20 Uniform guide list of typical minor traffic offenses.

This list is a guide; consider as minor the offenses of a similar nature and traffic offenses treated as minor by local law enforcement agencies.

- Following too closely.
- Improper backing; backing into intersection or highway; backing on expressway; backing over crosswalk.

- Improper blowing of horn.
- Improper parking; Restricted area, fire hydrant, double parking.
- Improper passing: Passing on right, in no passing zone; passing parked school bus; pedestrian in crosswalk (when not treated as reckless driving).
- Improper turn.
- Invalid or unofficial inspection sticker; failure to display inspection sticker.

- Leaving key in ignition.
- License plates improperly displayed or not displayed.

- Operating overloaded vehicle.
- Racing, dragging, contest for speed (when not treated as reckless driving).

- Speeding (when not treated as reckless driving).

- Spinning wheels; improper start; zigzagging or weaving in traffic (when not treated as reckless driving).

- Blocking or retarding traffic.

- Careless driving.

- Crossing yellow line; driving left of center.

- Disobeying traffic lights, signs, or signals.

- Driving on shoulder.

- Driving uninsured vehicle.

- Driving with blocked vision.

- Driving with expired plates or without plates.

- Driving without license or with suspended or revoked license.

- Driving without registration or with improper registration.

- Driving wrong way on one-way street.

- Failure to comply with officer's directives.

- Failure to have vehicle under control.

- Failure to keep to right or in line.

- Failure to signal.

- Failure to stop for or yield to pedestrian.

- Failure to submit report following accident.

- Failure to yield right-of-way.

- Faulty equipment (defective exhaust, horn, lights, mirror, muffler, signal device, steering device, tailpipe, or windshield wipers).

#### § 888b.21 Uniform guide list of typical minor nontraffic offenses.

This list is a guide; consider offenses of a similar nature as minor. In doubtful cases, apply the following rule: If the maximum confinement under local law is 4 months or less, treat the offense as minor.

- Abusive language under circumstances to provoke breach of peace.

- Carrying concealed weapon (other than firearm); possession of brass knuckles.

- Curfew violation.

- Damaging road signs.

- Discharging firearm through carelessness.

- Discharging firearm within municipal limits.

- Disobeying summons.

- Disorderly conduct; creating disturbance; boisterous conduct.

- Disturbing peace.

- Drinking liquor on train (other than club car).

- Drunk in public; drunk and disorderly.

- Dumping refuse near highway.

- Fighting; participating in affray.

- Fornication.

- Illegal betting or gambling; operating illegal handbook, raffle, lottery, punch board; matching cockfight.

## RULES AND REGULATIONS

- (p) Juvenile noncriminal misconduct: Beyond parental control, incorrigible, runaway, truant, or wayward.
- (q) Killing domestic animal.
- (r) Liquor: Unlawful manufacture, sale, or possession, or consumption in public place.
- (s) Loitering.
- (t) Malignant mischief: Painting water tower, throwing water-filled balloons, throwing rocks on highway, throwing missiles at athletic contests, or throwing objects at vehicle.
- (u) Nuisance, committing.
- (v) Poaching.
- (w) Possession of cigarettes by minor.
- (x) Possession of indecent publications or pictures.
- (y) Purchase, possession, or consumption of alcoholic beverages by minor.
- (z) Removing property under lien.
- (aa) Removing property from public grounds.
- (ab) Robbing orchard.
- (ac) Shooting from highway.
- (ad) Shooting on public road.
- (ae) Simple assault.
- (af) Throwing glass or other material in road.
- (ag) Trespass to property.
- (ah) Unlawful assembly.
- (ai) Using or wearing unlawful emblem.
- (aj) Vagrancy.
- (ak) Vandalism: Injuring or defacing public property or property of another; shooting out streetlights.
- (al) Violation of fireworks law.
- (am) Violation of fish and game laws.
- § 888b.22 Uniform guide list of typical other (nonminor) misdemeanors.**
- This list is a guide; consider offenses of seriousness as nonminor misdemeanors. In doubtful cases, apply the following rule: If the maximum confinement under local law exceeds 4 months but does not exceed 1 year, treat the offense as a nonminor misdemeanor.
- (a) Adultery.
- (b) Assault consummated by battery.
- (c) Bigamy.
- (d) Breaking and entering vehicle.
- (e) Check, worthless, making or uttering, with intent to defraud or deceive (\$100 or less).
- (f) Conspiring to commit misdemeanor.
- (g) Contributing to delinquency of minor.
- (h) Desecration of grave.
- (i) Driving while drugged or intoxicated.
- (j) Failure to stop and render aid after accident.
- (k) Indecent exposure.
- (l) Indecent, insulting or obscene language communicated to a female directly or by telephone.
- (m) Leaving dead animal.
- (n) Leaving scene of accident (hit and run).
- (o) Looting.
- (p) Negligent homicide.
- (q) Petty larceny (value \$100 or less); stealing hub caps; shoplifting.
- (r) Reckless driving.
- (s) Resisting arrest.

- (t) Selling or leasing weapons to minor.
- (u) Slander.
- (v) Stolen property, knowingly receiving (value \$100 or less).
- (w) Suffrage rights, interference with.
- (x) Unlawful carrying of firearms; carrying concealed firearm.
- (y) Unlawful entry.
- (z) Unlawful use of long-distance telephone lines.
- (aa) Use of telephone to abuse, annoy, harass, threaten, or torment another.
- (bb) Using boat without owner's consent.
- (cc) Willfully discharging firearm so as to endanger life; shooting in public place.
- (dd) Wrongful appropriation of motor vehicle; joyriding; driving motor vehicle without owner's consent (if intent is to permanently deprive owner of vehicle, consider as grand larceny).
- § 888b.23 Uniform guide list of typical felonies.**
- This list is a guide; consider offenses of comparable seriousness as felonies. In doubtful cases, apply the following rule: If maximum confinement under local law exceeds 1 year, treat the offense as a felony.
- (a) Aggravated assault; assault with dangerous weapon; assault intentionally inflicting great bodily harm; assault with intent to commit felony.
- (b) Arson.
- (c) Attempt to commit felony.
- (d) Breaking and entering with intent to commit felony.
- (e) Bribery.
- (f) Burglary.
- (g) Carnal knowledge of female under 16.
- (h) Cattle rustling.
- (i) Check, worthless, making or uttering, with intent to defraud or deceive (over \$100).
- (j) Conspiring to commit felony.
- (k) Criminal libel.
- (l) Extortion.
- (m) Forgery; knowingly uttering or passing forged instrument.
- (n) Graft.
- (o) Grand larceny; embezzlement (value over \$100).
- (p) Housebreaking.
- (q) Indecent acts or liberties with child under 16.
- (r) Indecent assault.
- (s) Kidnaping; abduction.
- (t) Mail matter: Abstracting, destroying, obstructing, opening, secreting, stealing, or taking.
- (u) Mails: Depositing obscene or indecent matter.
- (v) Maiming; disfiguring.
- (w) Manslaughter.
- (x) Misprison of felony.
- (y) Murder.
- (z) Narcotics or habit forming drugs; wrongful possession, use, or sale.
- (aa) Pandering.
- (ab) Perjury; subornation of perjury.
- (ac) Public record: Altering, concealing, destroying, mutilating, obliterating, or removing.
- (ad) Rape.
- (ae) Riot.

- (af) Robbery.
- (ag) Sedition; soliciting to commit sedition.
- (ah) Sodomy.
- (ai) Stolen property, knowingly receiving (value over \$100).
- By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc. 73-4484 Filed 3-12-73; 8:45 am]

## PART 888c—ACTIVE DUTY SERVICE COMMITMENTS

Part 888c, Subchapter I, Chapter VII of Title 32 of the Code of Federal Regulations is retitled as set forth above and revised to read as follows:

- Sec. 888c.0 Purpose.
- 888c.2 Statutory authority.
- 888c.4 Definitions.
- 888c.6 Why the Air Force has active duty service commitments.
- 888c.8 Who incurs active duty service commitments.
- 888c.10 How to compute active duty service commitments and active duty service commitment dates.
- 888c.12 Active duty service commitment date record entries and source documents.
- 888c.14 Miscellaneous instructions.
- 888c.16 Active duty service commitment from accepting regular Air Force commission.
- 888c.18 Active duty service commitment for ResAF officers entering extended active duty/attaining career reserve status.
- 888c.20 Active duty service commitments for flying training.
- 888c.22 Air Force Institute of Technology, fellowship, scholarship, grant, and operation bootstrap active duty service commitments.
- 888c.24 Active duty service commitments for technical training.
- 888c.26 Active duty service commitments for service schools and other miscellaneous education or training.
- 888c.28 Permanent change of station and promotion active duty service commitments.
- 888c.30 Physician training active duty service commitments.
- 888c.32 Active duty service commitments for accepting continuation pay.
- 888c.34 Dentist training active duty service commitments.
- 888c.36 Veterinary, nurse, biomedical sciences, and medical service corps officer training active duty service commitments.
- 888c.38 Active duty service commitments after elimination from training.

AUTHORITY: 10 U.S.C. 8012.

## § 888c.0 Purpose.

- (a) This part establishes active duty service commitments (ADSC) for all officers.
- (b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

## § 888c.2 Statutory authority.

10 U.S.C. 8012(f) authorizes the Secretary of the Air Force to prescribe regulations to carry out his functions, powers, and duties. This part, wherein career and certain noncareer officers receive and must serve all ADSCs, is issued under that authority.

## § 888c.4 Definitions.

- (a) **Active duty (AD).** Full-time duty in the active military service of the United States. (Does not include active duty for training.)
- (b) **Active duty service commitment (ADSC).** A period of AD that an officer is required to serve before becoming eligible for voluntary separation.
- (c) **ADSCD and reasons for ADSC.** The year, month, and day the ADSC will expire, and the basis for the commitment, such as AFIT, etc.
- (d) **Career officer.** (1) A regular officer.
- (2) A reserve of the Air Force (ResAF) officer currently serving in career reserve status (CRS).
- (e) **Date of separation (DOS).** A date established according to law or policy for the termination of active duty.
- (f) **Extended active duty (EAD).** A tour of active duty (normally for more than 90 days) performed by a member of the Air Reserve Forces. Strength accountability for persons on extended active duty changes from the Air Reserve Forces to the active forces.
- (g) **Noncareer officer.** (1) A temporary officer.
- (2) A ResAF officer who entered on AD for a specified period of duty. (Does not include the 20-year active service status, or interservice transfers. These ADSCs have been developed to assure a reasonable degree of stability in the officer force, particularly for those officers who accept promotions or career status.)
- (3) A ResAF officer who has canceled CRS or established a DOS under AFR 36-12.
- (4) A ResAF officer with a DOS involuntarily established by law or policy. (Does not include the 20-year active service career for reserve officers program.)
- (5) A ResAF officer who remains on AD beyond the period prescribed in his EAD orders pursuant to AFR 36-94.
- (h) **Officer.** An Air Force commissioned or warrant officer.
- (i) **Separation.** (1) Termination of AD by release, resignation, or discharge (AFR 36-12).
- (2) Service retirement (AFM 35-7).
- (3) Disability retirement or discharge (AFM 35-4).
- (4) Termination of AD by expiration of specified period of time contract (AFRs 36-12 and 36-94).
- (j) **Specified period of time contract (SPTC).** A signed statement in which a noncareer officer or an appointee from civilian or airman status agrees to remain on AD in commissioned officer status for a specified period of time (AFR 36-94).
- § 888c.6 Why the Air Force has active duty service commitments.**
- In order for the Air Force to effectively manage its resources, accomplish its assigned mission, maintain an experienced and well-qualified officer force and still

## RULES AND REGULATIONS

operate within a limited budget, it is essential that it be assured of a reasonable return following the expenditure of public funds. The ADSC has been devised to satisfy that requirement. The need for this program has been noted by inclusion of a specific objective in the USAF personnel plan (Topline).

(a) The expenditure of public funds starts at the precommissioning phase, such as the USAF Academy, AFROTC, and other commissioning program. It continues when an officer enters active duty and as he proceeds into expensive training or education programs that serve to qualify him for his particular utilization field. During his training, he is not performing the normal duties of his grade or specialty; consequently, he is obliged to provide the Air Force a reasonable period of productive utilization or assignment or return to his regular duties. Once trained, the officer must then be reassigned at considerable cost to duties and locations where he is most needed, whether in the continental United States or in an overseas area.

(b) There are other ADSCs that are not directly related to the investment of public funds. They are incurred as a result of promotions to certain grades, acceptance of regular or career reserve status, or interservice transfers. These ADSCs have been developed to assure a reasonable degree of stability in the officer force, particularly for those officers who accept promotions or career status.

(c) For the career-minded officer, periods of service under an ADSC are not highly significant, except as they may affect his date of retirement. For an officer who intends to leave the Air Force before retirement, additional service as a result of ADSCs takes on a higher degree of importance since it may preclude his separation, if he is a career officer, until he has fulfilled all of his ADSCs. Therefore, each officer must thoroughly understand the system used by the Air Force to insure that sufficient numbers of qualified officers are available to fulfill the Air Force mission.

## § 888c.8 Who incurs active duty service commitments.

Generally, any time an officer completes a period of formal education or training, a permanent change of station, accepts a promotion to a certain grade, or accepts career status, he incurs an ADSC and is required to remain on active duty for a period of time equal to the ADSC.

(a) An officer is obligated to accept any duty assignment directed by the appropriate assignment authority (see AFM 36-11). A career officer who has not submitted a request for separation is considered to be serving in a career status voluntarily. If selected for reassignment, he may not apply for separation, except under the conditions specified in AFM 36-11, paragraph 1-12, July 30, 1970, until his ADSC for the PCS and associated training, if any, has been computed.

(b) A noncareer officer or any other officer who possesses a DOS established by voluntary request, law, or policy con-

tinues to incur ADSCs, but is not required to serve beyond the DOS, except under extraordinary circumstances. Later election of continued service, such as CRS, withdrawal of separation request, regular Air Force appointment, etc., will result in a requirement that he serve the balance of the outstanding ADSC.

(c) An officer serving on an SPTC incurs ADSCs, but is not required to remain on AD to fulfill the ADSC's unless he signs another SPTC, accepts CRS or a regular Air Force appointment. Fulfillment of the ADSC before his established DOS does not serve to make him eligible for early separation as the SPTC is a separate agreement.

## § 888c.10 How to compute active duty service commitments and active duty service commitment dates.

Once an event has occurred that requires an officer to incur an ADSC, compute the ADSC and ADSCD using the rules in §§ 888c.16 through 888c.38 according to the following instructions:

(a) Find the rule containing the event or condition that has occurred.

(b) Determine whether there are other conditions in the same rule that must be considered. Such additional conditions may be specific on or after dates entered training and or the period of training. When the rules for a specific training program change while an officer is in training, compute the ADSC on the basis of the rules in effect at the time he entered training.

(c) Determine the ADSC applicable to that rule in terms of a fixed period, such as 2, 3, or 4 years, or by a numerical factor, such as 6 times the length of the training period. When the ADSC must be computed on the basis of the length of the training period (other than flying training), compute it by the steps shown below. If the ADSC computed is less than 61 days, no fulfillment is required. If it is 61 or more days but less than 181 days, a 6-month ADSC applies.

(1) **Step 1.** Determine the length of training by counting the number of calendar weeks spent by the student at the training facility. Count any remaining fractions of a week as an additional week.

(2) **Step 2.** Multiply the total length of training by the factor (that is, 3 times or 6 times the number of calendar weeks) to obtain the total length of the ADSC in calendar weeks.

(3) **Step 3.** Convert the total number of weeks of the ADSC to a specific ADSCD by converting weeks to complete years (52 weeks equal 1 year; 104 weeks equal 2 years; etc.). Convert any remaining period of less than 52 weeks to a specific date by counting on a calendar the actual number of weeks remaining. (Do not attempt to convert weeks to months at any point in the computation. To do so would give an erroneous ADSCD as the months vary in length.)

(d) When a newly incurred ADSC is to be served consecutively, it will be added to the unfulfilled portion of the existing one. Exceptions: The new ADSC

## RULES AND REGULATIONS

will be served concurrently with, not added to, an existing ADSC incurred by promotion, the 1-year ADSC for acceptance, while on AD, of CRS or a regular Air Force appointment, voluntary entry on AD of prior service officers or interservice transferees. Medical, dental, or veterinary officers may fulfill any ADSC received from training under §§ 888c.30, 888c.34, and 888c.36, concurrently with an ADSC incurred by accepting regular or career reserve status.

(e) Insure that the supporting documents listed for the particular rule have been reviewed and substantiate the condition which has occurred.

(f) Consider the additional information or exceptions to the rules contained in the notes to the particular table when determining the ADSC.

(g) Prior ADSC's that exceed the requirements of this part are reduced to comply with them. Prior ADSC that are less than the requirements of this part are not to be increased to comply with them. Exception: ADSC's that are announced as effective on a specific date will be determined according to that date. (See § 888c.20, rules 1 and 2, for examples of this exception.)

#### § 888c.12 Active duty service commitment dates record entries and source documents.

(a) The ADSCD and reason for ADSC (ADE AC-803-II, AFM 300-4) are entered in the PDS-0 according to AFM 30-3, volumes III and VI. To assure that officers are fully aware of any ADSC they incur, the ADSCD and any change thereto, and the ADSC reason will be announced on AF Form 2095, Assignment/Personnel Action. The AF Form 2095 will contain in the remarks section a specific reference to the supporting documents (see tables) that were used to determine the ADSCD. Exception: An AF Form 2095 is not required in the following instances:

(1) The special order announcing the promotion is the source document for the ADSC incurred by promotion.

(2) The continuation agreement pay signed by the Medical Corps officer is the source document for that ADSC (see APR 36-8).

(3) The AF Form 1227, Request for Tuition Assistance, indicating the date of course completion/withdrawal is the source document for the ADSC incurred for tuition assistance.

(b) Record the ADSCD and reason for ADSC, even though the date exceeds the established DOS. The ADSCD and reason will remain in the PDS-0 even

though the date has expired, as this information is used for historical and analytical purposes.

(c) When there are multiple ADSCD's, record the date that extends for the longest period.

(d) The ADSCD and reason for ADSC will be reviewed by a personnel technician or skilled specialist with the officer, and verified against the source documents, at time of incoming records review and at the time the officer applies for separation or retirement. Any cases of disputed ADSCD's will be forwarded, with supporting documentation, through major command channels to AFMPC/DPMROC1, Randolph Air Force Base, Tex. 78148, for resolution.

(e) Consolidated Base Personnel Office (CBPO) chiefs must establish internal procedures to insure that all documents in support of an ADSC are routed to and coordinated with CBPO-DPMCA for determination of the correct ADSCD and reason for ADSC, and entry in PDS-0.

#### § 888c.14 Miscellaneous instructions.

(a) Under certain conditions, AFMPC/DPMROC1 may establish an ADSC on an individual basis to cover a unique situation. The officer must acknowledge the ADSC in writing. Miscellaneous ADSC's are handled by separate correspondence between the major command and AFMPC/DPMROC1.

(b) Officers entering EAD as judge advocates and those on active duty (except officers who obtain a legal education pursuant to AFR 36-7) who request and obtain designation as a judge advocate incur an ADSC of 4 years effective on the date of such designation. The supporting document for this ADSC is the order designating the officer a judge advocate. Officers who obtain a legal education in an excess leave status (AFR 36-7) incur an ADSC as specified in § 888c.26. The ADSC for all aforementioned officers runs consecutively to any existing ADSC.

(c) Waivers of ADSC's are not authorized under this part. They may be granted only when specifically authorized in the directive governing the separation of an officer. The existence of an outstanding ADSC does not preclude an officer from requesting separation before fulfillment of the ADSC. Requests for separation to be effective in advance of fulfillment of the ADSC may be approved when fully documented and justified as being in the best interest of the Air Force.

(d) Waivers of ADSC's are not authorized under this part. They may be granted only when specifically authorized in the directive governing the separation of an officer. The existence of an outstanding ADSC does not preclude an officer from requesting separation before fulfillment of the ADSC. Requests for separation to be effective in advance of fulfillment of the ADSC may be approved when fully documented and justified as being in the best interest of the Air Force.

#### § 888c.16 Active duty service commitments for accepting regular Air Force commission.

Rule	A If officer is—	B And his class or appointment program was—	C Then his ADSC is— (note 1)	D And supporting document(s) is/are—
1	USAF graduate (note 2), USNA graduate, or USMA graduate.	class of 1967	4 years.	AF Form 133, oath of office (military personnel), or special orders for active duty.
2		class of 1968 or later	5 years.	
3	Appointed from AFROTC, civilian or non-EAD Reserve dentiste.	Fiscal year 1967 Regular AF appointment program or any preceding program.	4 years.	
4		Fiscal year 1968 Regular AF appointment program or a later one.	5 years.	
5	Appointed to Regular AF on AD.	Fiscal year 1967 Regular AF appointment program or any preceding program.	4 years on current tour, including 1 year of service after acceptance (note 3).	
6		Fiscal year 1968 Regular AF appointment program or later one.	5 years on current tour, including 1 year after acceptance (note 3).	
7	An interservice transfer.		4 years.	

NOTES: 1. These ADSC's are effective from the date of entry on AD.  
2. ADSC duration is incorporated within statements of understanding executed as cadets at USAPA.  
3. The 1-year ADSC is served concurrently with any existing ADSC.

## RULES AND REGULATIONS

#### § 888c.20 Active duty service commitment for flying training.

Rule	A If training is—	B And was entered—	C For a period of—	D Then ADSC is—	E And is served concurrently with existing ADSC effective—	F And supporting documents are—
1	UFT, UNT, or UHT (note 1).	Before Jan. 1, 1970.	4 years.	4 years.	Date officer is awarded aeronautical rating.	Special orders awarding aeronautical rating.
2		On/after Jan. 1, 1970.	5 years (note 2).	5 years.		
3	Formal combat or specialized conduct by MAJ COM or established COM with the USAF.		Less than 4 weeks.	1 year.	Date officer completes training.	Any official document indicating date training was completed, such as certificate of training, special orders, or training report.
4			4 or more weeks, but less than 8 weeks.	2 years.		
5			8 or more weeks, but less than 12 weeks.	3 years.		
6			12 or more weeks.	4 years.		

#### § 888c.18 Active duty service commitments for ResAF officers entering extended active duty/attaining career reserve status.

Rule	A If officer enters EAD—	B And—	C Then his ADSC is (note 1)—	D And supporting documents are EAD orders and—
1	From AFROTC (note 2).		4 years.	AF Form 106, AFROTC, category agreement.
2	From SMSO (note 2).			AF Form 56, application for training, leading to a commission in the USAF.
3	From another armed service.			AF Form 24, application for appointment as ResAF or SAFA without commission.
4	As a line officer (AFR 46-36).			AF Form 124, application for EAD with the USAF.
5	As a physician, dentist, or veterinarian.	Has prior service.	2 years.	AF Form 24 or 125.
6	As a physician, dentist, or veterinarian.	Has no prior service (note 4).	4 years.	AF Form 24.
7	As a Medical Service or Biomedical Sciences Corps officer other than dietitian, optometrist, occupational or speech therapist.	Has prior service.	4 years.	AF Form 24 or 125.
8	As a Medical Service or Biomedical Sciences Corps officer other than dietitian, optometrist, occupational or speech therapist.	Has no prior service (note 5).	3 years.	AF Form 24.
9	As a Biomedical Sciences Corps (dietitian, optometrist, occupational or physical therapist).	Has prior service.	4 years.	AF Form 24 or 125.
10	As a judge advocate.	Has no prior service (note 5).	2 years.	AF Form 24.
11	As a chaplain.		4 years.	
12	As a nurse.		3 years.	
13	As a physician, dentist, or veterinarian.	Has prior service.	3 years.	
14	As a physician, dentist, or veterinarian.	Has no prior service (note 6).	2 years.	
15	As a physician, dentist, or veterinarian.	Subsequently attains CRS.	2 years (including 1 year in CRS) (notes 3 and 4).	AF Form 124, application for CRS.
16	As other than a physician, dentist, or veterinarian.		4 years (including 1 year in CRS) (note 3).	

NOTES: 1. These ADSC's are effective from the date of entry on EAD.  
2. AFROTC/SMSO graduates who subsequently enter undergraduate pilot training, undergraduate helicopter training, or undergraduate navigator training incur a 5-year ADSC on award of an aeronautical rating according to § 888c.20.  
3. The 1-year ADSC is served concurrently with any existing ADSC and is effective from the date CRS is approved by HQ USAF.  
4. Officers commissioned through AFROTC incur a 4-year ADSC rather than a 2-year ADSC.  
5. Officers who have qualified for a commission through AFROTC, AECF, or BCP have a 4-year ADSC.

## RULES AND REGULATIONS

Rule	A If training is—	B And was entered—	C For a period of—	D Then ADSC is—	E And is served—	F And supporting documents are—
7			24 or more months.	4 years, plus 2 months for each additional month of training.		
8	AFIT follow-on for Warren Minuteman program.		1 to 3 years, depending on quarters.	2 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	Any official document indicating date of arrival at training facility or certificate of training.
9	AFIT follow-on Minuteman program.		1 to 3 years, depending on quarters.	3 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
10			4 or more academic quarters.	The period of ADSC for commissioning or length of training, or 3 times length of training period, whichever is longer.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
11	Fellowship, scholarship, or grant (AFR 53-15).	Before Jan. 1, 1969.		2 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	AF Form 1227, training report, or any official document indicating date of arrival at training facility.
12		On or after Jan. 1, 1969.		3 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	Any official document indicating date of arrival at training facility.
13	Operation Bootstrap with tuition assistance (AFN 23-1).			2 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	AF Form 1227, training report, or any official document indicating date of arrival at training facility.
14	Operation Bootstrap with tuition assistance (AFN 23-1).			3 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	Any official document indicating date of arrival at training facility.
15	The White House Fellows program.			2 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	Any official document indicating date of arrival at training facility.

7. All training received in the type aircraft, flying training course(s), or for the duty assignment(s) listed below will result in a 1-year ADSC, regardless of the length of training. The 1-year ADSC will be considered satisfied on completion of a tour in SEA, if such occurs before 1 year.

(a) ALO FAC (b) USAF Special Fighter Training Course (P-105). Course 111506G; (c) A-1; (d) A-26; (e) C-7A; (f) C-123; (h) O-1; (i) O-2; (j) OV-10; (k) SOF Training Course; T-28 Pilot #111103Z; (l) U-6; (m) U-16; (n) A-37; (o) AC-119G K; (p) EC-121R; (q) QJ22B.

§ 888c.22 Air Force Institute of Technology, fellowship, scholarship, grant, and Operation Bootstrap active duty service commitment.

Rule	A If training is—	B And was entered—	C For a period of—	D Then ADSC is—	E And is served—	F And supporting documents are—
1	AFIT professional education with industry.	On or after Oct. 1, 1963, but before Feb. 13, 1964.		3 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
2	USAF special masters program but not short courses.	On or after Feb. 13, 1964, but before Feb. 1, 1971.		The period of ADSC for commissioning or length of training, or 3 times length of training period, whichever is longer.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
3		On or after Feb. 1, 1971.		6 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
4	AFIT special short courses.		Less than 30 weeks.	6 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
5			20 or more weeks, but less than 12 months.	3 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
6			12 or more months, but less than 24 months.	4 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

## § 888c.24 Active duty service commitment for technical training.

Rule	A If training is—	B And was entered—	C For a period of—	D Then ADSC is—	E And is served—	F And supporting documents are—
1	Technical training (AFR 53-9).		Less than 20 weeks.	6 times length of training period.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
2	Weather officer course, education, or training requiring absence from duty.		20 or more weeks, but less than 12 months.	3 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
3	Weather officer course, education, or training requiring absence from duty.		12 or more months, but less than 24 months.	4 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
4	Weather officer course, education, or training requiring absence from duty.		24 or more months.	4 years plus 2 months for each additional fraction of month.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
5	ATC missile course (T11an).	On or after Feb. 29, 1968.		2 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
6	ATC missile course (Minuteman).	On or after Feb. 29, 1968, but before Sept. 1, 1970.		2 years from completion of SAC OET.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
7		On or after Sept. 1, 1970.		2 years from completion of SAC OET.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.

## § 888c.26 Active duty service commitment for service schools and other miscellaneous education or training.

Rule	A If training is—	B And was entered—	C Then ADSC is—	D And is served—	E And supporting documents are—
1	National War College, Air War College, Industrial College of the Armed Forces, Staff College, Command and Staff College, or any other school of other forces or nations.		3 years.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
2	Squadron Officer School, Academic Instructor School (AUS), or any other school of other forces or nations.		1 year.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
3	With Manned Space (NASA), Houston, Tex. (note 1).		2 years after termination of four.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
4	Off-duty proficiency training program conducted by MAJ COH.	On or after Apr. 3, 1964.	1 year.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
5	Legal education in an exchange program (AFR 35-7).	On or after Jan. 1, 1961, but before Sept. 1, 1968.	6 months for each school year (note 2).	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
6		On or after Jan. 1, 1969.	1 month for each school year (note 2).	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
7		On or after Nov. 1, 1972.	4 years (note 2).	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.
8	With the US/FRG scientific and engineering exchange program (note 3).	On or after Jan. 1, 1966.	3 times the length of training.	Concurrently with existing ADSC, effective on date of arrival at training facility.	DD Form 1331-2, travel voucher, or subvoucher, AF Form 475, training report, or any official document indicating date of arrival at training facility.

Notes: 1. Formalized by USAF/NASA Memoranda of Agreement, July 15, 1966 and October 5, 1967.  
2. The period of legal education cannot be used to satisfy previously incurred ADSC.  
3. Officer selected by Air Force Systems Command for this program must acknowledge the ADSC before departure from his home station.

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

XUM

## § 888c.28 Permanent change of station and promotion active duty service commitment.

Rule	A If officer is—	B And—	C Then ADSC is—	D Effective from—	E And supporting documents are—
1	Reassigned PCS from OS to OS (not COT), Conus to Conus.		1 year.	Date departed last duty station.	DD Form 1581-2.
2	Reassigned PCS from Conus to OS (not COT), Conus to Conus.	Is serving an overseas tour by dependents tour because he is accompanied or joined him.	Equal to the prescribed tour (note 2).	Date of arrival at new OS station.	
3		Is serving an overseas tour other than in rule 2 above.	1 year.		
4	Reassigned PCS from OS to OS (not COT), Conus to Conus.	Is serving an overseas tour because he is accompanied or joined him.	Equal to the prescribed tour (note 2).	Date of arrival at new OS station.	
5		Is serving an overseas tour other than in rule 4 above.	1 year.		
6	Promoted to the AD grade of major, lieutenant colonel, or colonel (note 3).		2 years.	Date of promotion.	Special announcement.

Notes: 1. ADSC's for PCS or promotion are served concurrently with any existing ADSC's. Extensions of overseas tours do not serve to increase the ADSC's. Curtailments of overseas tours serve to decrease ADSC's accordingly.

2. The ADSC for overseas tour lengths of 48 months is 3 years.

3. Officers serving in a fixed tour of duty according to AFR 45-22 do not incur ADSC's for promotions. MC officers (physicians) promoted to temporary major, lieutenant colonel, or colonel do not incur ADSC's for promotion.

## § 888c.30 Physician training active duty service commitment.

Rule	A If training is—	B And is conducted at—	C For a period of—	D And was completed—	E Then ADSC is—	F And is served—	G And supporting documents are—
1	Education leading to a DDS degree.		3 months for each month of training, or fraction thereof, sponsored in medical school (note 3).		3 months for each month of training, or fraction thereof, sponsored in medical school (note 3).	Concurrently with existing ADSC, effective date receives his degree.	Evidence of graduation and the awarding of the degree from his school AF Form 475, or any official document indicating period of training and date completed.
2	Senior medical student program.		3 years after completion of internship or 1st year of postgraduate training (note 4).		3 years after completion of internship or 1st year of postgraduate training (note 4).	Concurrently with existing ADSC, effective date receives his degree.	

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

Rule	A If training is—	B And is conducted at—	C For a period of—	D And was completed—	E Then ADSC is—	F And is served—	G And supporting documents are—
1	Residency, fellowship, sub-specialty, postgraduate education and training (notes 6, 7, 8, and 9).	Military facility.	Any length.	On or before July 1, 1970.	1 year, or 80 percent of ADSC, whichever is greater (note 11).	Concurrently with existing ADSC, effective date receives his degree.	
2		Civilian hospital or institution.	Any length.	On or before July 1, 1970.	1 year, or 80 percent of ADSC, whichever is greater (note 11).	Concurrently with existing ADSC, effective date receives his degree.	
3	Internship.	Military facility.	1 year or less.	On or before July 1, 1970.	1 year.	Concurrently with existing ADSC, effective date receives his degree.	
4		Civilian hospital or institution.	1 year or less.	On or before July 1, 1970.	1 year.	Concurrently with existing ADSC, effective date receives his degree.	
5			More than 1 year.	On or before July 1, 1970.	2 years (note 12).	Concurrently with existing ADSC, effective date receives his degree.	
6			Any length.	On or before July 1, 1970.	1 year, or 80 percent of ADSC, whichever is greater (note 11).	Concurrently with existing ADSC, effective date receives his degree.	
7			1 year or less.	On or before July 1, 1970.	1 year.	Concurrently with existing ADSC, effective date receives his degree.	
8			More than 1 year.	On or before July 1, 1970.	2 years (note 12).	Concurrently with existing ADSC, effective date receives his degree.	
9			Any length.	On or before July 1, 1970.	1 year, or 80 percent of ADSC, whichever is greater (note 11).	Concurrently with existing ADSC, effective date receives his degree.	
10			1 year or less.	On or before July 1, 1970.	1 year.	Concurrently with existing ADSC, effective date receives his degree.	
11			More than 1 year.	On or before July 1, 1970.	2 years (note 12).	Concurrently with existing ADSC, effective date receives his degree.	

Notes: 1. Attendance at a nonmedical training program results in ADSC as prescribed in § 888c.24 or elsewhere in this part.

2. ADSC is not incurred for a course of less than 10 weeks.

3. Do not include in computations periods of duty performed at military locations during breaks in medical school.

4. An obligation under the Military Selective Service Act of 1967 may be served concurrently during the first and second year.

5. A physician who has no obligation under the Military Selective Service Act of 1967, as amended, will be required to serve on active duty only for the period of internship.

6. Officer will continue to fulfill ADSC incurred under rule 1 during his residency.

7. The first and second year ADSC incurred under rule 2 may be fulfilled during residency training; however, the third year ADSC is suspended during residency training and is added to the ADSC incurred for training under rules 6 through 11.

8. Fellowship or subspecialty training entered directly from a residency program or within 6 months of the original program for purposes of certification will be considered a continuation of that program.

9. Aerospace Medicine Residency, Phase I, Academic Year, in a civilian institution incurs a 2-year ADSC, and Phase II and Phase III incur a 1-year ADSC each. The maximum ADSC for this residency program is 3 years. Note 12 does not apply.

10. Required training in a civilian institution entered during a period of a military residency is considered continuation of the military program.

11. If officer has an ADSC of 1 year or less on July 1, 1970, his ADSC will not be adjusted under this rule.

12. The ADSC will be reduced by the amount of time (up to 1 year) he served as a Medical Corps officer before entering residency or similar training, unless that time was served as a student or intern or was fulfilling commitment for military-sponsored professional training. This reduction applies to the initial Air Force-sponsored residency or similar training only.

## § 888c.32 Active duty service commitment for accepting continuation pay.

Rule	A If the officer is (note 1)—	B Then the ADSC is—	C And supporting document is—
1	Not in a training status and has no ADSC for training.	1 year from effective date of agreement as defined in AFR 36-8.	Continuation pay agreement signed by the officer.
2	In a training status as specified in § 888c.30.	Computed by adding 1 year to the anticipated ADSC that will be incurred upon completion of the current period of training (note 2).	
3	Not in a training status, but has an ADSC for training.	Computed by adding 1 year to the ADSC incurred for training (note 2).	

Notes: 1. A medical officer who is selected to receive and elects to accept continuation pay under AFR 36-8 incurs an ADSC according to this section. Any questions regarding computation of the ADSC herein should be referred to AFMPC/SGPSCC, Randolph Air Force Base, Tex. 78148.

2. The 1-year ADSC is added only to an ADSC incurred for training, and not to any other ADSC.

## § 888c.34 Dentist training active duty service commitment.

Rule	A If training is—	B And is conducted at—	C For a period of—	D Then ADSC is—	E And is served—	F And the supporting documents are—
1	Education leading to a DDS degree.			3 months for each month, or fraction thereof, sponsored in dental school (note 1).	Concurrently with existing ADSC, effective date receives his degree.	Evidence of graduation and the awarding of the degree from his school, AF Form 475, or any official document indicating period of training and date completed.
2	Internship.	Military facility.	Any length.	None.	Concurrently with existing ADSC.	
3	Residency, fellowship, and postgraduate education and training (notes 2 and 3).		1 year for 1st year, plus 1 month for each additional month, or fraction of month.		Concurrently with existing ADSC.	
4		Civilian hospital or institution.	10 through 82 weeks.	2 years.		
5			More than 82 weeks.	2 years, plus 1 month for each additional or fraction of month.		

Notes: 1. Do not include in computations periods of duty performed at military locations during breaks in dental school.

2. Fulfillment of ADSC incurred under rule 1 above will continue during residency, fellowship, or postgraduate education and training.

3. Required training in a civilian institution, entered during a military residency, is a continuation of that military program.

## LAWS AND REGULATIONS

Rule	A If training is (note 1) —	B And is conducted at —	C For a period of	D Then ADSC is —	E And is served —	F And supporting documents are —
1	Education leading to DVM degree.			3 months for each fraction of month sponsored in school (note 2).	Concurrently with existing ADSC effective date officer serves his degree.	Evidence of graduation and the awarding of the degree from this school, A.F. Form 475, and the original document indicating period of training and date when completed.
2	Internship	Military facility.	More than 10 weeks (note 5).	Note (note 3)		
3	Undergraduate, graduate, post-graduate, or education (notes 3 and 4).	Military or civilian institution.		3 times length of training period, but not less than 1 year (notes 6 and 7).	Concurrently with existing ADSC (note 8).	
4	Residency (notes 3 and 4).	Civilian institution.		3 times length of training period, but not less than 1 year (note 7).		
6		Military facility.	1 year or less.	1 year		
6			More than 1 year.	1 year, plus 1 month for each month or fraction thereof, in training.		

- Notes: 1. These ADSC's are served concurrently with any existing ADSC and are effective on the date the officer is eliminated or withdrawn from training.
2. If an officer will the ADSC incurred as a result of elimination from training exceed the ADSC which would have been incurred from completing the training.
3. An officer who fails to meet legal licensing requirements incurs an ADSC of 1 month for each month of school.
4. An officer eliminated from flying training because of physical disqualification begins fulfilling his ADSC on the date he is placed on "duty not involving flying" (DNIF) status.
5. An officer eliminated from AFTT professional education or training, with industrial program, scholarship, fellowship, or grant incurs an ADSC from § 886c-22 based on the length of training received, rather than an ADSC under this section.

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

(a) The SPTC is a short-term instrument whereby a noncareer officer may remain on AD beyond his established DOS to satisfy a one-time requirement.

(d) Once disapproved, the officer may not apply again for an SPTC unless he includes additional justification which

(d) Upon receipt of approval action through PDS-O or disapproval correspondence, the CBPO/DPMQS will inform the officer of the final action taken on his application.

XUM

V

## § 888f.6 SPTC application procedures.

Rule	A If officer is—	B Then he submits SPTC through immediate commander to CBPO/DPMQS who forwards—	C The approving/disapproving authority, which is—
1	Line of the Air Force.	To MAJCOM/DP (Information cycle to numbered AF or comparable level) for recommendation and indorsement to.	AFMPC/DPMROCI Randolph Air Force Base, Tex. 78148.
2	Judge advocate.	Through SJA of major subordinate command to major command/HQ for recommendation and indorsement to.	HQ USAF/JAEC, Washington, D.C. 20330.
3	Chaplain.	Through HQ of major subordinate command to major command/HQ for recommendation and indorsement to.	HQ USAF/HCP, Washington, D.C. 20330 (note 1).
4	In the medical service and is attending basic orientation course (note 2).	To designated authority in Column C.	HQ School of Health Care Science, Sheppard Air Force Base, Tex. 76081.
5	In the medical service and is attending primary aerospace medical course (note 2).	To designated authority in Column C.	HQ Aerospace Medicine Division, Brooks Air Force Base, Tex. 78243.
6	In the medical service other than in rule 4 or 5.	To major command/SG for recommendation and indorsement to.	AFMPC/SGC, Randolph Air Force Base, Tex. 78148.

NOTES: 1. Ecclesiastical indorsement from the applicant's religious agency is required and must be received in HQ USAF/HCP before action is completed on the SPTC.  
2. Applies only to officers on initial tour of active duty. A copy of approved/disapproved SPTC correspondence will be forwarded to AFMPC/SGC. AFMPC/SGC will insure the new DOS is entered in PDS-O.

## § 888f.7 SPTC format.

From: (Organization identification).  
Subject: Specified Period of Time Contract.  
To: Immediate Commander, CBPO/DPMQS, in turn.

1. In accordance with AFR 36-94, I agree to remain on active duty until \_\_\_\_\_ (day) (month) (year), unless relieved sooner under appropriate Air Force directives. My established DOS is now \_\_\_\_\_ (day) (month) (year).  
2. I desire to remain on active duty for the following reason: (Include full details and justification to assure that the approving authority has all the facts upon which to base a decision.)  
3. I understand and agree to the following:  
a. This SPTC is subject to approval or disapproval by the designated authority in AFR 36-94. My established DOS may be extended until final action on this SPTC is taken by the designated authority.  
b. I may not withdraw this SPTC after it has been approved by the designated authority and I accept the obligation to serve on active duty for the period of this SPTC, even though such period may exceed an ADSC incurred under AFR 36-51.  
c. When required by law or policy, I may be involuntarily separated prior to the expiration of this SPTC.  
Name, grade, SSAN \_\_\_\_\_ (Signature)

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division,  
Office of The Judge Advocate General.

## SUBCHAPTER K—MILITARY TRAINING AND SCHOOLS

## PART 901a—APPOINTMENT TO THE U.S. AIR FORCE ACADEMY

## PART 901b—DISENROLLMENT OF U.S. AIR FORCE ACADEMY CADETS

Subchapter K of Chapter VII of Title 32 of the Code of Federal Regulations is amended by replacing Part 901 with Parts 901a and 901b to read as follows:

## Subpart A—Overall Provisions

Sec.  
901a.0 Purpose.  
901a.1 Appointment vacancies.  
901a.2 Source of nominations.

## Subpart B—Nomination Requirements and Procedures

Sec.  
901a.3 Basic eligibility requirements.  
901a.4 Medical requirements to qualify for admission.  
901a.5 Academic examination requirements.  
901a.6 Physical aptitude examination requirement.  
901a.7 Notice of nomination.  
901a.8 Congressional, District of Columbia, and U.S. possessions.  
901a.9 Regular (competitive).  
901a.10 Reserve (competitive).  
901a.11 Presidential (competitive).  
901a.12 Vice Presidential.

Sec.

901a.13 Sons of deceased or disabled veterans (competitive).  
901a.14 Honor military and honor naval schools—college or university AFJROTC—high school AFJROTC (competitive).  
901a.15 Sons of Congressional Medal of Honor recipients.  
901a.16 Citizens of the American Republic and the Philippines.  
901a.17 Notification of change of address or station assignment.

## Subpart C—Obligations of Cadet Appointment

901a.18 Obligations of cadet appointment.  
AUTHORITY: 10 U.S.C. 903 and 10 U.S.C. 8012, except as otherwise noted.

## Subpart A—Overall Provisions

## § 901a.0 Purpose.

(a) This part explains the methods of application, requirements and procedures for appointment to the Air Force Academy.  
(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

## § 901a.1 Appointment vacancies.

Appointment vacancies are authorized by law to specific nominating authorities.

## § 901a.2 Sources of nomination.

(a) U.S. Senators and Representatives.  
(b) Resident Commissioner of Puerto Rico; Governor of Puerto Rico; Governor of the Panama Canal Zone; Governor of American Samoa; Governor of Guam; Governor of the Virgin Islands; and the Delegate to the House of Representatives from the District of Columbia (Public Law 91-405).  
(c) Air Force enlisted Regular competitive category.  
(d) Air Force enlisted Reserve competitive category.  
(e) Presidential competitive category.  
(f) Vice Presidential category.  
(g) Sons of deceased or disabled veterans competitive category.  
(h) Honor military and honor naval schools, Air Force Reserve Officer Training Corps (AFJROTC), and Air Force Junior Reserve Officer Training Corps (AFJROTC) competitive category.  
(i) Sons of Congressional Medal of Honor recipients.  
(j) Citizens of the American Republics and the Philippines—(Designated—To receive instructions—10 U.S.C. 9344 and 9345).

## § 901a.3 Basic eligibility requirements.

Each applicant: (a) Age. Must be at least 17 and not have passed his 22d birthday on July 1 of the year in which he enters the Academy. Appointees are required to legally substantiate their date of birth.

(b) Citizenship. Must be a male citizen of the United States. If an applicant is a citizen by naturalization, the following certificate is required, authenticated by a notary public or other persons authorized by law to administer oaths:

I certify that I have examined the certificate of (naturalization) (citizenship) of (candidate's first, middle and last name) and the following information was extracted therefrom:

Court name and location; certificate number; date of certificate; full name; place of birth; date of birth; and signature, notary public.

Address certificate to Associate Director of Admissions, U.S. Air Force Academy, Colorado 80840. Facsimiles or copies, photographs or otherwise, will not be made of naturalization certificates under any circumstances, as stated in 18 U.S.C. 1426(H).

(c) Domicile. If nominated by an authority designated in § 901a.2(a) or § 901a.2(b), he must be domiciled within the constituency of such authority.

(d) Moral character. Must be of highest moral character. Commanders will furnish information to USAFA/RRS, USAF Academy, Colorado 80840 on any military applicant or nominee whose official records indicate questionable background as follows:

(1) He is or has been a conscientious objector. In this case, an affidavit expressing his abandonment of such beliefs and principles so far as they pertain to his willingness to bear arms and to give full or unqualified military service to his country is required.

(2) Any facts which give reason to believe that his appointment may not be clearly consistent with the interests of national security.

(3) Conviction by court-martial for other than a "minor offense" (MCM, 1969, revised edition, paragraph 128b, page 28-1) or conviction of a felony in a civilian court.

(4) Elimination from any officer training program or any preparatory school of the Army, Navy, or Air Force academies for military inaptitude, indifference, or undesirable traits of character. This includes any person who resigned in the face of impending charges or who was eliminated by official action.

(5) Habitual intemperance and drug abuse (AFR 39-10 will be consulted when information on drug experimentation or use becomes known).

(6) Any behavior, activity, or associations tending to show that he is of questionable moral character or reputation.

(e) Marital status. Must never have been married. Cadets are not permitted to marry until after graduation.

## § 901a.4 Medical requirements to qualify for admission.

Each candidate must meet the physical requirements outlined in AFM 160-1 and AFR 160-13.

## § 901a.5 Academic examination requirements.

Each candidate must take either the College Entrance Examination Board tests (CEEB) or the American College Testing Program tests (ACT).

(a) College Entrance Examination Board. (1) If a candidate elects to use the CEEB tests, he must take the following tests:

(i) Scholastic aptitude test. (a) Verbal.

(b) Mathematics.  
(ii) Achievement tests. (a) English composition.

(b) Level I (standard) Mathematics or Level II (intensive) Mathematics. (Select one—Level I recommended for candidates without advanced high school mathematics.)

(2) Makeup examination. A makeup administration of College Entrance Examination Board tests is held by examining centers at a time to be determined by USAFA/RRS. If, for some valid reason, a candidate is unable to take the tests on the regular testing dates, he may request authorization from USAFA/RRS to take them on the special makeup date. Supplies and instructions are furnished by the College Entrance Examination Board.

(b) American College Testing Program tests. If a candidate elects to use the ACT tests, he must take the complete battery of tests: English, mathematics, social sciences and natural sciences.

## § 901a.6 Physical aptitude examination requirements.

Each Air Force Academy candidate must take a physical aptitude examination consisting of four exercises designed to measure coordination, strength, endurance, speed, and agility. A list of test items is included in the USAFA Catalog. A candidate will usually be scheduled to take the physical aptitude examination at the same time he takes the qualifying medical examination.

## Subpart B—Nomination Requirements and Procedures

## § 901a.7 Notice of nomination.

The Associate Director of Admissions, USAFA/RRS, notifies military applicants of their eligibility or ineligibility for nomination and provides admissions processing instructions. After an applicant is notified that he has been nominated, he will address all correspondence and send all required documents to USAFA/RRS, USAF Academy, Colorado 80840.

## § 901a.8 Congressional, District of Columbia, and U.S. possessions.

(a) A U.S. citizen domiciled in one of the 50 States may apply directly to the U.S. Senators of his State and the Representative of his congressional district. Persons domiciled in the District of Columbia apply to the Delegate to the House of Representatives from the District of Columbia. Persons domiciled in Puerto Rico apply to the Resident Commissioner. Such persons who are natives of Puerto Rico also may apply to the Governor. Sons of civilians residing in the Panama Canal Zone, or sons of civilian employees of the U.S. Government and the Panama Canal Company residing in the Republic of Panama, apply to the Governor of the Panama Canal Zone. Residents of American Samoa, Guam, and the Virgin Islands apply to their respective Governors.

(b) Congressional nominations are submitted by the nominating authorities between May 1 and January 31 for the class entering the following July. Send applications to the nominating authority

before or early in the nominating period. Address all inquiries concerning status of applications to the nominating authority.

(c) The nominating authority forwards DD Form 1870, "Nomination for Appointment" (used by HQ USAF and Congressmen), for each nominee through HQ USAF/DPPAB, Washington, D.C. 20330, to USAFA/RRS, USAF Academy, Colorado 80840.

## § 901.9 Regular (competitive).

Appointments to fill vacancies from this category are made from candidates in order of merit. Applications must be submitted no later than January 31 for the class entering the following July.

(a) Any enlisted member of the Regular component of the Air Force may apply for nomination. Selectees must be in active enlisted status when appointed as cadets.

(b) A Reserve commissioned officer on extended active duty may apply for vacancies in the Regular military category. If selected, he must have his commissioned officer status terminated and be enlisted before appointment as an Air Force cadet. If a cadet in this category is separated without prejudice and under honorable conditions from the Air Force Academy, he may apply for reappointment as a commissioned officer.

(c) A regular category applicant arranges to have his high school transcript submitted to the Associate Director of Admissions, USAFA/RRS, and completes in triplicate AF Form 1786, "Application for Appointment to the U.S. Air Force Academy Under Quota Allotted to Enlisted Men of the Regular and Reserve Components to the Air Force," and submits it to his immediate commander who:

(1) Determines if the applicant meets the basic eligibility requirements. If disqualified, the application is returned and the applicant is informed of the reason.

(2) Records on AF Form 1786 the scores achieved on the Airman Classification Test (ACT) and the date of the examination. ACT scores recorded on AF Form 7, "Airman Military Record," may be used. If no score is available, the immediate commander arranges for administration of the test. Do not use the Airman Qualifying Examination scores unless applying for USAF Academy Preparatory School.

(3) Forwards by first indorsement the original and one copy of AF Form 1786 to USAFA/RRS, USAF Academy, Colorado 80840. The indorsement must include a complete comprehensive statement on the applicant's character, ability and background, plus the following statement: "Statements contained in this application regarding component, length of service, and date of birth have been verified from official records."

## § 901.10 Reserve (competitive).

Appointments to fill vacancies from this category are made from candidates in order of merit. Applications must be submitted no later than January 31 for the class entering the following July.

(a) Any enlisted member of the Air Force Reserve or the Air National Guard of the United States (ANGUS) may apply for nomination.

(b) A Reserve commissioned officer who satisfactorily completes 1 year of service in an active Reserve assignment by July 1 of the year in which he seeks admission may apply for vacancies in the Reserve military category. If selected, he must have his commissioned officer status terminated and be enlisted in the Air Force Reserve before appointment as an Air Force Cadet. If a cadet in this category is separated without prejudice and under honorable conditions from the Air Force Academy, he may apply for reappointment as a commissioned Reserve officer.

(c) A Reserve category applicant arranges to have his high school transcript submitted to the Associate Director of Admissions, USAFA/RRS, completes AF Form 1786, and submits it to his organization commander. The organization commander processes the application. A Reserve applicant is not placed on active duty to be processed for nomination or appointment to the Air Force Academy.

#### § 901a.11 Presidential (competitive).

(a) The son of a Regular or Reserve member of the Armed Forces of the United States is eligible for nomination if:

- (1) His parent is on active duty and has completed 8 years of continuous active duty service (other than for training) by July 1 of the year that the candidate would enter the USAF Academy; or
- (2) His parent was retired with pay or was granted retired or retainer pay (sons of Reservists retired while not on active duty status are ineligible); or
- (3) His parent died after retiring with pay or after being granted retired or retainer pay (sons of deceased Reservists who were retired while not on active duty status are ineligible); or

(4) He does not meet the eligibility requirements for the Sons of Deceased or Disabled Veterans (SODDV) appointment category. (By law, a person eligible for appointment consideration under the SODDV category may not be a candidate in the Presidential category.) An adopted son is eligible if adoption proceedings were initiated before his 15th birthday.

(5) An eligible individual may apply to USAFA/RRS, USAF Academy, Colorado 80840, requesting nomination. The nominating period opens on May 1 and closes December 15. Applicants must not write directly to the President of the United States, since these applications are processed by the Air Force Academy.

#### § 901a.12 Vice Presidential.

(a) Any individual who meets the basic eligibility requirements of § 901a.3 may apply for a nomination to the Vice President, U.S. Senate, Washington, D.C. 20510. The Vice President may submit nominations to the Academy between May 1 and September 1 for the class entering the following July.

(b) It is important to submit a request for nomination before or early in the nominating period. Address all inquiries

concerning status of application to the nominating authority.

#### § 901a.13 Sons of deceased or disabled veterans (competitive).

(a) The son of a deceased or disabled member of the Armed Forces of the United States is eligible for nomination if:

- (1) His parent was killed in action or died of wounds or injuries received or diseases contracted in active service, or preexisting injury or disease aggravated by active service.

(b) An individual eligible for a nomination in this category may submit a written request to USAFA/RRS, USAF Academy, Colorado 80840. The nominating period opens on May 1 and closes on December 15.

#### § 901a.14 Honor military and honor naval schools—college or university AFJROTC—high school AFJROTC (competitive).

(a) *Honor military and honor naval schools.* (1) Three honor graduates or prospective honor graduates from each designated honor military and honor naval school may be nominated to fill the vacancies allocated to such schools. Vacancies are filled in the order of merit, regardless of the schools from which the nominations are made. Appropriate school authorities must certify that each nominee is a prospective honor graduate or an honor graduate and meets the basic eligibility requirements listed in § 901a.3.

(2) Use forms provided by the Academy to submit nominations to USAFA/RRS, USAF Academy, Colorado 80840. Make nominations no later than January 31 for the class entering the following July. Nominations are not limited to honor graduates of the current year. An individual eligible for nomination in this category applies to the administrative authority of his school.

(b) *College or university AFJROTC and high school AFJROTC.* (1) Three students from each college or university AFJROTC unit may be nominated to compete for the vacancies allocated to this category. Vacancies are filled in the order of merit. The college or university student applies for nomination to the professor of aerospace studies, who must certify that the applicant meets the basic eligibility requirements listed in § 901a.3, and will have completed satisfactorily 1 year of scholastic work at the time the class for which he is applying enters the Academy. The professor of aerospace studies uses the form provided by the Academy to recommend for nomination the three best qualified applicants to the president of the educational institution in which the AFJROTC unit is established. The president of the institution submits the nominations to USAFA/RRS, USAF Academy, Colorado 80840, by January 31 of the year in which the applicant desires appointment.

(2) Three students from each high school AFJROTC unit may be nominated to compete for the vacancies allocated to this category. Vacancies are filled in the order of merit. The high school student applies for nomination to the aerospace education instructor, who must certify that the applicant meets the basic eligibility requirements listed in § 901a.3, and, by the end of the school year, will have successfully completed the prescribed AFJROTC program. The aerospace education instructor uses the forms provided by the Academy to recommend for nomination the three best qualified applicants to the principal of the high school in which the AFJROTC unit is established. The principal of the high school submits the nominations to USAFA/RRS, USAF Academy, Colorado 80840, by January 31 of the year in which the applicant desires appointment.

(3) Each applicant must write to USAFA/RRS, USAF Academy, Colorado 80840, requesting a nomination in this category. The nominating period opens on May 1 and closes on January 31.

(a) The son of any Congressional Medal of Honor recipient who served in any branch of the Armed Forces may apply for nomination. If an applicant meets the eligibility criteria and qualifies on the entrance examinations, he is admitted to the Academy.

#### § 901a.15 Sons of Congressional Medal of Honor recipients.

(a) The son of any Congressional Medal of Honor recipient who served in any branch of the Armed Forces may apply for nomination. If an applicant meets the eligibility criteria and qualifies on the entrance examinations, he is admitted to the Academy.

(b) An applicant must write to USAFA/RRS, USAF Academy, Colorado 80840, requesting a nomination in this category. The nominating period opens on May 1 and closes on January 31.

#### § 901a.16 Citizens of the American Republics and the Philippines.

(a) These persons may apply for designation to receive instruction at the Air Force Academy. The Academy is authorized to provide instruction to as many as 20 persons at any one time from the American Republics. However, not more than three students from one republic may receive instruction at the same time. In addition, one student from the Republic of the Philippines may be admitted in each entering class. A citizen of an American Republic must apply to the government of his own country. A Filipino applies to the President of the Republic of the Philippines.

(b) The application should contain complete particulars about his background and should be submitted at least a year before the time of desired admission to the Academy. Applicants in these categories must meet the eligibility requirements established for all Academy candidates and must be able to read, write, and speak English proficiently.

#### § 901a.17 Notification of change of address or station assignment.

Each applicant or nominee is personally responsible for notifying USAFA/RRS, USAF Academy, Colorado 80840, of every change of address or station assignment. Notifications must include complete name, grade, social security account number, and new organization or unit to which assigned. Reassignment of military personnel to any duty station must not be delayed pending action by USAFA/RRS.

#### Subpart C—Obligations of Cadet Appointment

##### § 901b.18 Obligations of cadet appointment.

Upon admission each cadet will be required to take the following Oath of Allegiance:

I, \_\_\_\_\_ (name), having been appointed an Air Force Cadet in the U.S. Air Force, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.

(a) A cadet who enters the Air Force Academy directly from civilian status and takes an oath of allegiance as a cadet assumes a military service obligation of 6 years.

(b) Each cadet will be required to sign an agreement, with the consent of his parents or guardian if he is a minor, that he will fulfill these obligations:

- (1) Complete the Academy course of instruction, unless he is disenrolled from the Academy by competent authority.
- (2) Accept an appointment and serve as a commissioned officer in a Regular component of one of the armed services for 5 years.

(3) If authorized to resign from the Regular component before the sixth anniversary of his graduation, serve as a commissioned officer in the Reserve component until the sixth anniversary.

(4) If disenrolled from the Academy before graduation, he will be subject to the separation policies which apply to all service academies. Application of these policies will be governed by the Department of Defense requirements for the Active and Reserve components and the national manpower needs of selective service. (See Part 901b of this chapter.)

Part 901b is to read as follows:

Subpart A—Overall Provisions	
Sec.	Purpose.
901b.0	Authority for disenrollment and discharge or transfer.
901b.1	Definitions.
901b.2	Types of separation/discharge.
901b.3	Discharge/separation documents.
901b.4	Processing of disenrolled cadet with no prior service.
901b.5	Separation processing for prior-service cadets.
901b.6	Grade awarded.
901b.7	Boards and committees involved in evaluating and disenrolling cadets.
901b.8	Subpart B—Resignation
901b.9	Policy on accepting resignations.
901b.10	Resignation.
901b.11	Resignation tendered by cadet.
901b.12	Resignation instead of action under Subpart E of this part.
901b.13	Resignation for good of the service.
Subpart C—Disenrollment of Deficient Cadets	
901b.14	Disenrollment for deficiency.
901b.15	Willful or nonwillful determination of the deficiency.
901b.16	Deficiency in conduct.
901b.17	Deficiency in aptitude.
901b.18	Deficiency in studies.

#### Subpart D—Serious Offenses Under Uniform Code of Military Justice (UCMJ)

901b.19 Disposition of serious cases.

#### Subpart E—Disenrollment for Misconduct or Conduct Incompatible With Exemplary Standards of Personal Conduct, Character, and Integrity

Sec.

901b.20 Disposition of misconduct cases.

901b.21 Notice to cadet of board action.

901b.22 When board action is considered appropriate.

901b.23 Character of separation discharge.

#### Subpart F—Disposition of Cadets for Medical Reasons

901b.24 Disposition of cadets found medically disqualified.

#### Subpart G—Procedures

901b.25 Nonadversary proceedings.

901b.26 Board action.

901b.27 Request for assignment.

Authority: 10 U.S.C. 516, 651, 8012, 9342, 9349, 9351, 9352, and 9353.

#### Subpart A—Overall Provisions

##### § 901b.0 Purpose.

(a) This part explains the procedures for separation or discharge of those Air Force Academy cadets disenrolled before being commissioned.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

##### § 901b.1 Authority for disenrollment and discharge or transfer.

(a) Disenrollment or discharge authority for cadets of the U.S. Air Force Academy is not specifically set forth in the statutes. However, 10 U.S.C. 9351 provides that a cadet who is reported as deficient in conduct or studies and recommended to be discharged from the Academy may not, unless recommended by the Academy Board, be returned or reappointed to the Academy; 10 U.S.C. 9353 confers authority upon the Secretary of the Air Force to determine conditions upon which cadets will be graduated from the Academy; and 10 U.S.C. 9342 provides that "all cadets are appointed by the President." Accordingly, involuntary separation/discharge other than for medical reasons are effected by order of the Secretary of the Air Force, acting for the President, upon recommendation of the Academy Board. The Academy Board will evaluate cases reported to it by the Commandant (deficiency in conduct and deficiency in aptitude for commissioned service), by the Dean (deficiency in academics) or by a board of officers convened pursuant to Part 866.

(b) Title 10 U.S.C. 516, 651, 9348b, and Department of Defense directives and instructions provide the policy guidance. The secretaries of the military departments will develop procedures covering the separation of cadets or mid-

shipmen or graduates of the service academies consistent with the following:

(1) *General.* (i) A cadet entering a service academy directly from a civilian status assumes a military service obligation for 6 years. A cadet failing to fulfill his agreement (which includes completing the course of instruction and accepting a commission) may be transferred to the respective Reserve component in an appropriate enlisted status and may be ordered to active duty for a period of time not to exceed 4 years.

(ii) A cadet who enters a service academy from the Regular or Reserve component of any military service and fails to fulfill his agreement will revert to his former status for the completion of any prior service obligation upon separation from cadet status. However, completion or partial completion of service obligation acquired by prior enlistment in no way exempts a separated cadet from being transferred to a Reserve component and ordered to active duty.

(iii) A cadet separated from a service academy because of demonstrated unsuitability, unfitness, or physical disqualification for military service will be discharged as prescribed in current regulations.

(iv) A cadet tendering a resignation will be required to state a specific reason for his action. However, prior to final determination, each case will be considered under the criteria established by the service to determine if the circumstances fall within "demonstrated unfitness or unsuitability for military service."

(2) *Criteria.* The following specific policies apply except for cadets reverted to former enlisted status:

(i) *Fourth and third classmen (first and second years).* Any fourth or third classman who is separated, or whose resignation is accepted will be discharged as prescribed in current regulations. (A resignation tendered by a fourth or third classman will be accepted if it is in the best interests of the service.)

(ii) *Second and first classmen (third and fourth years).* (a) A second classman separated before the commencement of the second class academic year will be discharged.

(b) With the commencement of the second class academic year, a second or first classman separated before completing the course of instruction, except for physical disqualifications, unfitness, or unsuitability will normally be transferred to the Reserve component in an enlisted status and ordered to active duty. The period of active duty is normally 2 years for a cadet separated after the commencement of the second class academic year and 3 years if separation occurs after the commencement of the first class academic year.

(c) If separation occurs as a result of deficiencies that are not considered will-

ful, the active duty provision may be waived.

(d) Any first classman who completes the course of instruction and declines to accept an appointment as a commissioned officer will be transferred to the Reserve component in an enlisted status and ordered to active duty for 4 years.

(3) *Agreements.* The agreement statements signed by all entering fourth classmen will contain the active duty and discharge provisions of this subpart.

(4) *Change in status notification.* When a cadet is separated from a service academy, the Selective Service System will be notified of his change in status.

#### § 901b.2 Definitions.

(a) *Academic probation.* The academic status of a cadet who at any progress or grade report fails to achieve a satisfactory academic standing as determined by the appropriate class committee.

(b) *Aptitude for commissioned service.* The personality, capacity, and inclination (either natural or acquired) to adapt to military relationships, customs, and responsibilities that have become traditional and necessary in the military service; and the strength of character and willingness to accept those limitations on freedom of individual action that the traditional structure and legal status of military service imposes upon its members.

(c) *Aptitude probation.* The status of a cadet who has serious deficiencies in aptitude for commissioned service as determined by the Commandant of Cadets.

(d) *Conduct.* The measurement of a cadet's inclination to abide by necessary directives and restrictions. The Commandant will operate a conduct evaluation system to determine each cadet's conduct status. This system will assess corrective measures for minor offenses not warranting punitive action under the Uniform Code of Military Justice.

(e) *Conduct probation.* The status of a cadet whose conduct has raised serious doubts concerning his qualification to remain a cadet, as determined by the Commandant of Cadets.

(f) *Discharge.* A complete severance from all military status—active or otherwise.

(g) *Disenrollment.* Termination of cadet status. Disenrollment does not in itself terminate other military obligations.

(h) *Fraudulent entry.* A deliberate, material misrepresentation, omission, or concealment of a fact requested or required to be stated by the individual as part of his application to a nominating authority or any document provided to the Director of Admissions which, if truly stated, might have resulted in his non-selection for admission to the Air Force Academy.

(i) *Misconduct.* The commission of an act triable by city, State, Federal, or military jurisdiction.

(j) *Resignation.* As used herein, refers to resignation from cadet status. If a resignation is accepted, the cadet status

is terminated, and he will either be discharged or transferred as provided in § 901b.1(b).

(k) *Separation.* Refers to disenrollment and transfer to another component of the military service.

(l) *Willful deficiency.* As used herein, refers to intentional acts of commission or omission on the part of the cadet resulting in a report by the Commandant's Board or a class committee that the cadet is deficient in conduct, aptitude, or studies.

(m) *Beginning of academic year.* "Call to quarters" of the evening of the day preceding the first day of the fall academic semester.

#### § 901b.3 Types of separation/discharge.

A separation or discharge will be one of the following:

(a) *Honorable.* When it is determined that the record of the cadet concerned warrants the highest type of separation or discharge.

(b) *Under honorable conditions.* When it is determined that the record of the cadet concerned is not sufficiently meritorious to warrant an honorable separation or discharge, but is not of such nature that a separation or discharge under other than honorable conditions is warranted. Normally, a cadet will be separated or discharged under honorable conditions when the reason for separation involves moral or professional dereliction within the control of the individual which is not triable by court-martial, or if triable, probably would not result in dismissal.

(c) *Under other than honorable conditions.* When it is determined that the record of the cadet concerned does not warrant other than the least desirable administrative separation or discharge. Normally, a cadet will be separated or discharged under other than honorable conditions when the reason for separation or discharge involves moral or professional dereliction within the control of the individual which, if triable, probably would result in dismissal.

#### § 901b.4 Discharge/separation documents.

Each cadet whose separation is effected under this part will be furnished appropriate separation documents unless the Secretary of the Air Force directs that a separation document not be issued.

(a) *Discharge certificates.* Three types of discharge certificates are authorized for issuance to cadets:

Type of discharge	Type of certificate
Honorable	DD Form 256AF, "Honorable Discharge."
Under honorable conditions	DD Form 257AF, "General Discharge."
Under other than honorable conditions	DD Form 794AF, "Discharge."

(b) *DD Form 214, "Armed Forces of the United States Report of Transfer or Discharge."* This document will be issued to each cadet disenrolled and discharged and to each cadet disenrolled and transferred.

#### § 901b.5 Processing of disenrolled cadets with no prior service.

(a) If a cadet is disenrolled before beginning the second class academic year, he will be discharged. The appropriate Selective System board is notified of the cadet's disenrollment by means of DD Form 44, "Record of Military Status of Registrant." Include in item 12, "Remarks," "Cadet is eligible for service under appropriate Selective Service directives. Cadet has no prior active military service."

(b) If a cadet is disenrolled after beginning the second class academic year for other than physical disqualifications, unfitness, or unsuitability for military service and the active-duty provisions has not been waived, he is administered the Airman Classification Test (ACT) and the Apprentice Knowledge Test (AKT) in a selected specialty to provide a standard basis for the award of an Air Force Specialty Code (AFSC) in the bypass specialty category.

(1) If the cadet passes successfully the AKT, an AFSC at the three level may be awarded, the cadet transferred to the Air Force Reserve, and ordered to duty in the awarded specialty for a period of time specified in § 901b.1(b).

(2) If the cadet does not achieve a qualifying score on the AKT, he may be awarded an AFSC at the one level, receive either a directed duty assignment (DDA) to an operational squadron or an assignment to a technical training school, be transferred to the Air Force Reserve in an enlisted status and ordered to active duty for a period of time specified in § 901b.1(b). Orders are issued by the United States Air Force Academy.

#### § 901b.6 Separation processing for prior-service cadets.

(a) A cadet who was a member of a Regular or Reserve component of the Armed Forces of the United States on entry into the Academy and who is disenrolled for other than physical disqualifications, unfitness, or unsuitability for military service before beginning the second class academic year, he will revert to his former status for the completion of any prior service obligation. Exception: If his initial enlistment has expired (or is within 180 days of expiration), he will be reassigned to the Reserve component (not on extended active duty) of the same armed service in which he served as an enlisted man. If a cadet's prior service was not with the Air Force and he is disenrolled for physical disqualifications, unfitness, or unsuitability report this fact to the appropriate service with a request for instructions.

(b) A cadet in this category who has begun his second class academic year is processed the same as a nonprior service cadet. If his prior service was not with the Air Force, request the pertinent service secretary to separate the cadet from his former status so that he may be processed under this part. If such separation is denied, he will revert to his former status to complete any prior service obligation.

#### § 901b.7 Grade awarded.

Former cadets ordered to active duty upon disenrollment may be awarded in the separation order the grades shown below (unless entitled to a higher grade):

(a) Second Classmen—E-3.

(b) First Classmen—E-4. (Must qualify at the five-skill level AFSC not later than 1 year after award of three-skill level AFSC.)

#### § 901b.8 Boards and committees involved in evaluating and disenrolling cadets.

Various boards and committees, operating from the cadet unit level to the Secretary of the Air Force level, evaluate and counsel cadets on potential deficiencies, minimum standards, rehabilitation, and when necessary, disenrollment from the cadet wing and discharge or transfer. Pertinent boards and committees are:

(a) *The Academy Board.* This board performs certain statutory functions (10 U.S.C. 9351) and has other responsibilities stated in AFR 53-30, which also defines its composition and authority.

(b) *The Commandant's Board.* This is a board appointed by the Commandant of Cadets. The Commandant's Board makes findings and recommends to the Commandant the disposition of cadets considered for alleged deficiency in conduct and deficiency in aptitude for commissioned service. If the Commandant concurs with the findings and recommendations of the Commandant's Board, for disenrollment, he will indorse a record of its proceedings to the Academy Board for evaluation and disposition. In addition to the Commandant's Board, the Commandant may appoint other boards and committees to assist in evaluating cadets whose conduct or aptitude for commissioned service may be in question.

(c) *The class committees.* The class committees for the first, second, third, and fourth classes are subcommittees of the Academy Board. The appropriate class committee evaluates cadets whose academic achievement is questionable and makes recommendations to the Academy Board pertinent to the disposition of cadets found deficient in studies.

(d) *Boards of officers appointed under Part 866 of this chapter.* These boards will hear cases and make recommendations as prescribed herein.

#### Subpart B—Resignation

#### § 901b.9 Policy on accepting resignations.

The right of a cadet to resign from the Air Force Academy is subject to certain restrictions. 10 U.S.C. 9348 requires each entering cadet who is a citizen or national of the United States to sign an agreement that he will complete the course of instruction at the Academy. The acceptance of a resignation is a discretionary executive act. A resignation from the Academy may entail a period of active military service.

#### § 901b.10 Resignation.

Each resignation will contain a complete statement of the reasons for which submitted and, when appropriate, have attached documentary evidence to substantiate the reasons given. The Academy Superintendent will forward, with his recommendation, the resignation submitted under this subpart to the Secretary of the Air Force.

(a) If a cadet has had prior service, the Superintendent will normally recommend to the Secretary of the Air Force that a fourth or third classman be discharged or transferred to the cadet's prior military component.

(b) If a cadet resigns voluntarily after he commences the second class academic year (third year) and before the beginning of his first class academic year (fourth year), the Superintendent will normally recommend that he be called to active duty for 2 years.

(c) If a cadet resigns voluntarily after the beginning of his first class academic year, the Superintendent will normally recommend that he be called to active duty for 3 years.

#### § 901b.11 Resignation tendered by cadet.

A cadet may tender a resignation for any reason listed below unless he is officially notified that action to separate him under Subpart C, D, or E, of this part has been initiated. If his resignation is accepted, he will be discharged honorably or transferred to the Air Force Reserve in an appropriate grade and ordered to active duty under § 901b.10. The Superintendent's Resignation Review Committee will evaluate each resignation tendered under this Subpart B.

(a) Academics.  
(b) Environmental adjustment.  
(c) Change of career goals.  
(d) Personal reasons.  
(e) Marriage.

(f) Breach of cadet honor code. When the cadet has been notified officially that he may resign voluntarily under this section.

(g) Hardship. The current provisions for evaluating airman hardship cases will be generally followed (documentation requirements, etc.).

(1) If the substantiated conditions are such that the cadet's temporary assistance will eliminate the problem, he will be considered for administrative turnback to a subsequent class.

(2) If the conditions are permanent, the cadet will be considered for separation or discharge as appropriate.

(3) If separation/discharge is considered appropriate, the Superintendent will forward the case, with documents substantiating the hardship, to the Secretary of the Air Force with his recommendation.

#### § 901b.12 Resignation instead of action under Subpart E of this part.

A cadet who receives official notification that action has been initiated under Subpart E of this part may tender his resignation under this section with the understanding that, if accepted, he will

be discharged under honorable conditions or transferred unless the Secretary of the Air Force directs that the cadet be honorably discharged or transferred, or discharged under other than honorable conditions.

#### § 901b.13 Resignation for good of the service.

A resignation tendered under this section will be with the understanding that the cadet will be discharged under other than honorable conditions unless the Secretary of the Air Force determines that he is entitled to be honorably discharged, discharged under honorable conditions, or retained in the Air Force and transferred.

(a) A cadet whose conduct has rendered him triable by city, State, Federal, or military jurisdiction may tender his resignation for the good of the service under this section, whether or not court-martial charges have been preferred.

(b) A cadet whose conduct has rendered him subject to discharge may tender his resignation for the good of the service under this section.

#### Subpart C—Disenrollment of Deficient Cadets

#### § 901b.14 Disenrollment for deficiency.

A cadet will be disenrolled under this subpart if he is reported deficient in conduct, aptitude, or studies under the procedures stated in §§ 901b.16, 901b.17, or § 901b.18 and is recommended for disenrollment by the Academy Board. A cadet so recommended for disenrollment may not be returned or reappointed to the Academy unless recommended by the Academy Board (10 U.S.C. 9351). If the Academy Board recommends disenrollment, the Superintendent will forward the case to the Secretary of the Air Force, together with his recommendation on whether active duty for a second or first class cadet should be waived. A cadet disenrolled under this subpart and discharged will receive an honorable discharge.

#### § 901b.15 Willful or nonwillful determination of the deficiency.

The willful (intentional) aspects of any deficiency resulting in disenrollment under this subpart will be evaluated by the board or committee initially recommending disenrollment, and the findings will be reported to the Academy Board. A statement will be included in the findings of the board or committee that, in the best judgment of a majority of the voting members, the deficiency resulting in the recommendation for disenrollment was either willful or nonwillful. If the Academy Board recommends disenrollment, the Superintendent, in forwarding the Academy Board's recommendation to the Secretary of the Air Force will consider the willfulness or nonwillfulness of the deficiency in recommending whether active duty for a second or first class cadet should be waived.

#### § 901b.16 Deficiency in conduct.

Under the Commandant of Cadets, the cadet disciplinary system identifies, counsels, and attempts to rehabilitate

those cadets who, by acts of omission or commission, indicate questionable qualification for continuing in cadet status and eventual commissioned service. The excessive demerit system, the Commandant's Disciplinary Board, and conduct probation are examples of identification and rehabilitation procedures available to the Commandant in administering the conduct system.

(a) If the Commandant determines that a cadet's pattern of conduct (for example, as evidenced by excessive demerits) is such that he should be required to show cause for retention, but not of such serious nature as to require processing under Subpart D or E of this part, the cadet will be given the opportunity to appear before the Commandant's Board. If he declines to avail himself of the opportunity to show cause for retention, he will (after consultation with legal counsel) furnish the recorder of the Commandant's Board a statement that he understands that, without evidence to the contrary, the Commandant's Board will consider the evidence against him as a prima facie case.

(b) If the commandant concurs in the findings and recommendations of the commandant's Board, he will send its report to the Academy Board for its recommendation concerning disenrollment.

(c) During basic cadet training (BCT), the commandant, based on acts of omission or commission by a basic cadet (absence without leave, gross contempt for authority, etc.) may, after documenting the case fully, report it directly to the Academy Board with a recommendation for disenrollment because of deficiency in conduct.

#### § 901b.17 Deficiency in aptitude.

A cadet who has indicated potential deficiencies in aptitude for commissioned service will normally be placed on aptitude probation. During the period of the probation, the cadet will receive counseling and guidance as directed by the commandant to help him overcome his deficiencies.

(a) If after a period of aptitude probation, a cadet is considered deficient, he will be given the opportunity to appear before the commandant's Board to show cause for retention as a member of the cadet wing. If he declines to avail himself of the opportunity to show cause for retention, he will (after consultation with legal counsel) furnish the recorder of the commandant's Board a statement that he understands that, without evidence to the contrary, the commandant's Board will consider the evidence against him as a prima facie case and will send its findings and recommendations to the commandant of cadets with a recommendation for disenrollment.

(b) If the commandant concurs, he will send the case proceedings to the Academy Board for its recommendation concerning disenrollment.

#### § 901b.18 Deficiency in studies.

A cadet deficient in studies will be considered by the appropriate class committee. If that committee determines

that the cadet should be disenrolled because of failure to meet minimum Academy academic standards at the end of any semester, it will report the deficiency and send its recommendation to the Academy Board. If upon review of the case the Academy Board concurs, it will recommend disenrollment.

#### Subpart D—Serious Offenses Under Uniform Code of Military Justice (UCMJ)

##### § 901b.19 Disposition of serious cases.

Evidence of serious offenses under the UCMJ (offense(s)) for which dismissal of a cadet would likely be adjudged if tried by court-martial will be immediately reported to the commandant of cadets and the superintendent and, unless directed otherwise by the superintendent, the commandant will conduct an investigation under UCMJ, chapter VII. Upon completion of the investigation, the commandant will forward the report of investigation to the Superintendent with his recommendations. He may recommend that:

(a) No further action be taken because evidence of an offense is insufficient.

(b) The matter be referred to the commandant's disciplinary board because the nature of the offense(s) does not warrant consideration for dismissal.

(c) The case be referred for trial by court-martial.

(d) The case be referred to a board of officers as provided for in § 901b.21.

#### Subpart E—Disenrollment for Misconduct or Conduct Incompatible With Exemplary Standards of Personal Conduct, Character, and Integrity

##### § 901b.20 Disposition of misconduct cases.

When information is received indicating that a cadet has conducted himself in a manner which, if the information is confirmed, would make his qualifications for continuation as a cadet doubtful, but the conduct would not warrant trial by court-martial, the Commandant will cause the case to be investigated. If, in the opinion of the Commandant, the investigation discloses evidence indicating the cadet is disqualified for continued cadet status, he will forward the case to the Superintendent recommending referral to a board of officers.

##### § 901b.21 Notice to cadet of board action.

If the Superintendent determines that referral of the case to a board of officers convened pursuant to Part 866 of this chapter is appropriate, the cadet will be furnished notification.

(a) If the cadet does not waive a board, the case will be referred to a board of officers composed of not less than three nor more than five commissioned Air Force officer members, at least one of whom will be serving in the grade of colonel. A field grade judge advocate will be appointed as a legal advisor to the board (without vote), and a commissioned officer will be appointed as a recorder (without vote). The board will make findings of facts which will be

sent to the Academy Board for its review and determination of whether the cadet remains qualified as a candidate for graduation from the Academy. If the Academy Board recommends disenrollment from the cadet wing, the case will be returned to the board of officers to hear evidence bearing on the character of discharge or separation and make recommendations thereon. The cadet will be afforded an opportunity to appear before the board with counsel and present such statements or evidence as he may desire. Thereafter, the superintendent will forward the record, together with his recommendations on the type of discharge, to the Secretary of the Air Force.

(b) If the cadet waives a hearing before a board of officers on the facts, the case will be presented to the Academy Board for its determination as provided in paragraph (a) of this section. The cadet may submit a written statement to the Academy Board for its consideration even though he has waived a hearing by a board of officers. If the Academy Board recommends disenrollment, the case will be referred to a board of officers to hear evidence bearing on the character of discharge as in paragraph (a) of this section.

##### § 901b.22 When board action is considered appropriate.

Action under § 901b.21 is appropriate if substantial evidence indicates that any of the circumstances of this section or similar circumstances exist:

(a) Conduct incompatible with exemplary standards of personal conduct, character, and integrity. This is evidenced by the existence of one or more of the following or similar circumstances:

(1) Advocacy of political or ethical beliefs which would preclude fulfillment of the commissioning oath.

(2) Breach of the Cadet Honor Code.

(3) Repeated and dishonorable failure to meet financial obligations.

(4) Use or possession of narcotics or dangerous drugs; or excessive or illegal use of alcoholic beverages.

(5) Willful failure to meet minimum standards of academic or military proficiency.

(6) Repeated failure to meet required formations or other military duties, either willfully or through gross indifference.

(7) Loss, destruction, or waste of Government property under circumstances indicating a gross disregard for public property.

(8) Repeated commission of minor offenses not warranting trial by court-martial.

(9) Indecent and lewd acts and acts of sexual perversion including transvestism.

(b) Conviction by a civil court of any offense for which confinement for more than 1 year is an authorized punishment in the table of maximum punishments in the MCM 1969 (revised edition).

(c) Information received indicates that the retention of a cadet may not be consistent with the interests of national security. The facts and circumstances

will be reported to the local office of special investigation (OSI) and an investigation by that office will be requested. On receipt of the report of investigation, action will be taken as outlined in AFR 35-62.

(d) Conduct prescribed in AFR 36-2.

(e) Hazing. If the cadet requests in writing a trial by general court-martial, he may not be separated except under sentence of such court (10 U.S.C. 9352).

(f) Court - adjudicated paternity claims, when the cadet has not tendered a resignation. A cadet referred under this paragraph will, if recommended for disenrollment, normally be recommended for an honorable discharge/separation.

(g) Fraudulent entry.

##### § 901b.23 Character of separation/discharge.

A cadet whose disenrollment is approved as a result of action under this subpart will be separated or discharged under honorable conditions unless the Secretary of the Air Force determines that he is entitled to an honorable separation or discharge or that he should be discharged under other than honorable conditions.

#### Subpart F—Disposition of Cadets for Medical Reasons

##### § 901b.24 Disposition of cadets found medically disqualified.

(a) If the cadet is found by a Cadet Medical Evaluation Board (CMEB) not qualified for initial commission under AFM 160-1 and is not retainable in the Air Force Academy under the commission with waiver criteria and has no other military status then, upon approval of the CMEB findings by the Secretary of the Air Force, the cadet will be discharged.

(b) If the cadet who has no other military status is found by a CMEB not qualified for initial commission, but is commissionable with waiver elects to disenroll, then upon approval of board findings by the Secretary of the Air Force, the cadet will be processed in accordance with the administrative procedures of § 901b.5. If the cadet has had prior service in a component of the armed forces and is determined to be qualified medically for worldwide duty, then upon approval of the CMEB findings by the Secretary of the Air Force, he will be separated in accordance with the administrative procedures of § 901b.6.

(c) If the cadet found by a CMEB not qualified medically for initial commission (including commission with medical waiver) is also found deficient for worldwide duty, he will normally be discharged medically, regardless of any former Air Force status. If the cadet found deficient medically for commission (including commission with medical waiver) has status with another military department, his case will be sent, after approval of the CMEB finding by the Secretary of the Air Force, to the military service concerned for disposition.

(d) If the cadet found by a CMEB not qualified medically for initial commission (including commission with medical waiver) has status with an Air

Force component and is determined to be qualified medically for worldwide duty then, upon approval of the CMEB findings by the Secretary of the Air Force, he will revert to his prior Air Force component.

(e) The U.S. Air Force Academy will effect final discharge/reassignment processing.

#### Subpart G—Procedures

##### § 901b.25 Nonadversary proceedings.

Disenrollment for conduct and aptitude authorized in §§ 901b.16 and 901b.17 are informal, nonadversary proceedings. In such cases a cadet will be apprised of the specific allegations against him and given an opportunity, after consultation with legal counsel, to submit matters in his defense. However since the Government is not represented by legal counsel at the disenrollment proceedings, the cadet will not be entitled to legal representation at such proceedings. In instances involving deficiencies in studies (§ 901b.18), the case will be reported by the appropriate class committee directly to the Academy Board for disposition without preliminary notice or hearings. The cadet in these cases is not entitled to appear personally or through counsel before the Academy Board.

##### § 901b.26 Board action.

If a cadet is recommended for separation for any reason other than those specified in § 901b.16, § 901b.17, § 901b.18, or § 901b.24, and has not tendered a resignation, the case will be referred to a board of officers appointed by the Superintendent convened pursuant to Part 866 of this chapter, to hear evidence and make findings in fact. If requested, the cadet concerned will be granted a personal hearing before such board, either with or without counsel, as desired by the cadet.

##### § 901b.27 Request for assignment.

Assignment requests of disenrolled cadets reverting to Air Force enlisted status with concurrent call to extended active duty will be submitted to USAFMPC/DPMRAA.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

#### Title 7—Agriculture

##### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, AND NUTS), DEPARTMENT OF AGRICULTURE

##### PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES, CALIF., AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

#### Subpart—Rules and Regulations

##### REAPPORTIONMENT OF COMMITTEE MEMBERSHIP

Preamble—This reapportions the Oregon-California Potato Committee mem-

bers among districts to provide more equitable representation by shifting one producer member from District No. 1, where production has declined, to District No. 2 where production is much larger.

Notice of rule making was published in the February 14, 1973, FEDERAL REGISTER (38 FR 4407), regarding the proposed reapportionment of committee membership to be effective under Marketing Agreement No. 114 and Order No. 947, both as amended (7 CFR Part 947). They regulate the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon except Malheur County. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than March 1, 1973. None was filed.

Statement of consideration. This marketing order program provides that upon recommendation of the committee the Secretary may reapportion committee membership among the various districts. After carefully considering the criteria in § 947.32(b), the committee at its January 3, 1973, meeting voted 13 to 1 to recommend reapportioning representation by shifting one producer-member and his alternate from District No. 1 to District No. 2.

Production in District No. 1 has declined from nearly 2 million hundredweight a decade ago to only about 771,000 hundredweight in 1972, yet it still has three producer-members while District No. 2 with 2 million hundredweight has only two members. With this change, representation will be more nearly in proportion to production.

Findings. After consideration of all relevant matters, including the proposals set forth in the aforesaid notice which were recommended by the Oregon-California Potato Committee, established pursuant to the said marketing agreement and order, it is hereby found and determined that a new § 947.160 should be added to the rules and regulations reapportioning the committee membership as follows:

##### § 947.160 Reapportionment of committee membership.

(a) Pursuant to § 947.32(b), the membership of the Oregon-California Potato Committee shall be apportioned among the districts so as to provide the following representation: (1) Producer membership—two members from each of Districts No. 1 and No. 4; three members from District No. 2; and one member from each of Districts No. 3 and No. 5; (2) handler membership—one member from each of Districts No. 1, No. 2, No. 3, No. 4, and No. 5. The respective alternates shall be selected on the same basis of representation as the members.

(b) Terms used in this section shall have the same meaning as when used in said marketing agreement and this part.

It is hereby further found that good cause exists for not postponing the effective date of this action beyond the

date specified (5 U.S.C. 553) in that (1) it is necessary that the reapportionment be made effective prior to the selection of the new membership on the committee for the term of office to begin on June 1, 1973, (2) information regarding this proposal was made available to producers and handlers in the production area, and (3) notice hereof has been given by publication in the *FEDERAL REGISTER* of February 14, 1973 (38 FR 4407).

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 8, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 73-4798 Filed 3-12-73; 8:45 am]

[Amdt. 1]

#### PART 980—VEGETABLES: IMPORT REGULATIONS

##### Onions; Minimum Grades and Sizes

This amendment will require imported onions to meet minimum grade and size regulations similar to those in effect for the South Texas Onion Marketing Order, as required by Federal law.

Notice of rule making regarding a proposed amendment to § 980.111 Onion Import regulation (37 FR 13701), was published in the *FEDERAL REGISTER* (38 FR 4261). This regulation is effective under section 8e-1 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608e-1).

The notice afforded interested persons an opportunity to file written data, views, or arguments in regard thereto not later than February 20, 1973. None was filed.

Under section 8e-1 of the act (7 U.S.C. 608e-1), whenever two or more marketing orders are concurrently in effect regulating the same agricultural commodity produced in different areas of the United States, the importation of such commodity shall be prohibited unless it complies with the grade, size, quality, and maturity provisions of the order which, as determined by the Secretary of Agriculture, regulates the commodity produced in the area with which the imported commodity is in most direct competition.

Onion import regulation § 980.111 (37 FR 13701), became effective July 17, 1972, and sets forth similar grade, size, quality, and maturity requirements as

those in effect for onions handled under Marketing Order No. 958, as amended (7 CFR Part 958), regulating the shipments of onions grown in designated counties in Idaho and Eastern Oregon. Grade, size, quality, and maturity requirements become effective for the period March 12 through May 13, 1973, under Marketing Order No. 959, as amended (7 CFR Part 959), regulating the handling of onions grown in South Texas. Imported onions will be in most direct competition with those regulated under Marketing Order 959 on or about March 19 and the changes will be necessary to bring import regulations into line with domestic regulations covering these South Texas onions.

**Findings.** (a) After consideration of all relevant matters, including the proposal set forth in the aforesaid notice, and other available information, it is hereby found that the proposal as published in the notice should be issued and that imported onions comply with the grade, size, quality, and maturity requirements, as hereinafter provided, applicable to onions produced in the United States, and effective under Marketing Order No. 959, as amended (7 CFR Part 959), regulating the handling of onions grown in designated counties of South Texas. This regulation is subject to further amendment with adequate notice as domestic regulations are changed.

(b) It is hereby further found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under section 8e-1 of the act; (2) all known onion importers were notified of the proposed regulation; and (3) notice hereof was published in the *FEDERAL REGISTER* (38 FR 4261), and such notice is determined to be reasonable.

**Regulation, as amended.** Section 980.111, Onion import regulation (37 FR 13701), is hereby amended to read as follows:

##### § 980.111 Onion import regulation.

Pursuant to section 608e-1 of the act (7 U.S.C. 608e-1) and except as otherwise provided herein, during the period beginning March 19, 1973, and continuing through May 13, 1973, the importation of onions is prohibited unless such onions are inspected and meet the requirements of this section.

(a) Minimum grade and size requirements. (1) Grade. Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerance for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Applications of tol-

erances in U.S. Grade Standards shall apply to in-grade lots.

(2) Size. White onions—1 inch minimum diameter; all other varieties of onions—1 1/4 inches minimum diameter.

(b) Condition. Due consideration shall be given to the time required for transportation and entry of onions into the United States. Onions with transit time from country of origin to entry into the United States of 10 or more days may be entered if they meet an average tolerance for decay of not more than 5 percent, provided they meet the other requirements of this section.

(c) Minimum quantity. Any importation which in the aggregate does not exceed 100 pounds in any day, may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) Designation of governmental inspection service. The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality, and maturity of onions that are imported into the United States under the provisions of section 8e-1 of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e-1 (7 U.S.C. 608e-1), issued by a designated governmental inspection service and applicable to a specific lot is required on all imports of onions.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables, and other products (Part 51 of this title). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of onions should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

Ports	Office	Advance notice
All Texas points...	W. T. McNabb, Post Office Box 310, Austin, TX 78767 (Phone 512-345-5345 or 5386)	1 day.
All Arizona points.	B. O. Morgan, Post Office Box 1614, Nogales, AZ 86021 (Phone 602-287-2402)	Do.
All California points.	D. P. Thompson, 294 Wholesale Terminal Bldg., 784 South Central Ave., Los Angeles, CA 90021 (Phone 213-622-8756)	3 days.
All Hawaii points.	Stevenson Ching, Post Office Box 5128, Pawaa Substation, 1128 South King St., Honolulu, HI 96814 (Phone 808-914-3071)	1 day.
All Puerto Rico points.	Daniel H. Hancock, Post Office Box 10163, San Juan, PR 00908 (Phone 809-753-2230 or 4116)	2 days.
New York City...	Frank J. McNeal, Room 28A Hunts Point Market, Bronx, N.Y. 10474 (Phone 212-991-7689 or 7608)	1 day.
New Orleans...	Pascal J. Lamarea, 6027 Federal Office Bldg., 701 Loyola Ave., New Orleans, LA 70113 (Phone 504-527-6741 or 6742)	1 day.
All other points...	D. B. Matheson, Fruit and Vegetable Division, Agricultural Marketing Service, Washington, D.C. 20250 (Phone 202-447-5870)	3 days.

(4) Inspection certificates shall cover only the quantity of onions that is being imported at a particular port of entry by a particular importer.

(5) Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:

- The date and place of inspection;
- The name of the shipper, or applicant;
- The commodity inspected;
- The quantity of the commodity covered by the certificate;
- The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e-1.

(g) Reconditioning prior to importation. Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) It is hereby determined that imports of onions, during the effective time of this section, are in most direct competition with onions grown in South Texas. The requirements set forth in this section comply with those applicable to grade, size, quality, and maturity being made effective for onions grown in South Texas.

(i) Definitions. For the purpose of this section, "Onions" means all (except red) varieties of *Allium cepa* marketed dry, except dehydrated, canned, and frozen onions, onion sets, green onions, and

pickled onions. Onions commonly referred to as "braided," that is, with tops, may be imported if they meet the grade and size requirements except for top length. The term "U.S. No. 1" shall have the same meaning as set forth in the U.S. Standards for Grades of Bermuda-Granex-Grano Type Onions (§§ 51.3195-51.3209 of this title), U.S. Standards for Grades of Creole Onions (§§ 51.3955-51.3970 of this title), or in the U.S. Standards for Grades of Onions Other Than Bermuda-Granex-Grano and Creole Types (§§ 51.2830-51.2854 of this title), whichever is applicable to the particular variety. Tolerances for size shall be those in the applicable U.S. Standards. The requirements of Canada No. 1 grade are deemed comparable to the requirements of U.S. No. 1 grade. "Importation" means release from custody of the U.S. Bureau of Customs.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 2, 1973, to become effective March 19, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

#### CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Bagging and Bale Tie Specifications, Amdt. 1]

##### PART 1427—COTTON

##### Subpart—Bagging and Bale Tie Specifications

##### MODIFICATIONS OF SPECIFICATIONS

On September 6, 1972, notice of proposed rule making regarding the specifications for bagging and bale ties used in wrapping ELS cotton pledged for Commodity Credit Corporation loans was published in the *FEDERAL REGISTER* (37 FR 18039) and on September 16, 1972, notice of proposed rule making regarding specifications used in wrapping upland cotton pledged for Commodity Credit Corporation loans was published in the *FEDERAL REGISTER* (37 FR 18923). Five recommendations were filed by interested persons. Most replies recommended retention of the current specifications and adoption of specifications for other materials when recommended by the Joint Industry Bale Packaging Committee. Department officials have reviewed the specifications and the following amendment has been deemed necessary in order to make the specifications consistent for all bales packaged in used jute material and to correct the error regarding moisture content in bagging manufactured from cotton material. The bagging and bale tie specifications, published at 37 FR 3742 are hereby amended for the 1973 and subsequent crops of cotton as follows:

Paragraph (d)(2) of § 1427.1903 is amended to allow each one-half pattern of salvage jute bagging used to wrap gin standard density and gin universal density bales to be composed of not more than three pieces of used bag cloth of the same construction and weight and to have not more than two crosswise sewn seams. Paragraphs (e) and (f) of § 1427.1903 and paragraph (e) of § 1427.1904 are amended to show the correct percent moisture content for cotton bagging. The amended subparagraph and paragraphs read as follows:

§ 1427.1903 Specifications for bagging.

(d) Salvage jute (burlap) bagging used to wrap gin standard density and gin universal density bales. . . .

(2) Each one-half pattern must be composed of not more than three pieces of used bag cloth of the same construction and weight. There must not be more than two crosswise sewn seams and no lengthwise sewn seams in any one-half pattern. (Seams, hems, and necessary patches in the original bags from which the bagging is made will not be considered sewn seams.) Overlap at seams and patches must not be greater than 3 1/2 inches. Overlaps, patches, and hems sewn into bagging to increase the weight of lightweight material will not be permitted. Sewn seams must be such that the edges of the joined pieces coincide to make a symmetrical one-half pattern without appreciable displacement of the edge of one piece of bagging relative to the edge of the adjoining piece in the seam. Sewing must be made with strong thread with not larger than 3/16-inch stitching.

(e) Cotton bagging used to wrap flat bales. Cotton bagging may be used to wrap flat bales stored only in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia. Each one-half pattern of cotton bagging must not be less than 108 inches or more than 112 inches in length and must not be less than 45 inches or more than 48 inches in width. The bagging must contain not less than 120 warp yarns (plied or single) per 12 inches of bagging of a size equal to or larger than the weft (filling) yarns, must contain not less than 78 weft (filling) yarns (plied or single) per 12 inches of bagging and must weigh not less than 2 1/2 pounds per pattern at 8.5 percent moisture content (not moisture regain).

(f) Cotton bagging used to wrap gin standard density or gin universal density bales. Each one-half pattern of cotton bagging used to wrap gin standard density or gin universal density bales must not be less than 100 inches or more than 104 inches in length and must not be less than 45 inches or more than 48 inches in width. The bagging must contain not less than 120 warp yarns (plied or single) per 12 inches of bagging of a size equal to or larger than the weft (filling) yarns, must contain not less than 78 weft (filling) yarns (plied or single) per 12 inches of bagging, and

must weigh not less than 2 1/4 pounds per pattern (two panels) at 8.5 percent moisture content (not moisture regain).

#### § 1427.1904 Test methods.

(e) *Weight of bagging.* The weight of bagging will be determined by weighing on suitable accurate scales and the weight per pattern determined to the nearest one-quarter pound. Several patterns (or bales of bagging patterns) may be weighed simultaneously and the weight averaged. The weight of jute bagging will be calculated on the basis of 13.75 percent moisture content (not moisture regain) and the weight of cotton bagging will be calculated on the basis of 8.5 percent moisture content (not moisture regain).

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714 (b), (c); 7 U.S.C. 1441, 1444, 1421)

Effective date: June 1, 1973.

Signed at Washington, D.C., on March 7, 1973.

KENNETH E. FRICK,  
Executive Vice President,  
Commodity Credit Corporation.

[Rev. 3, Amdt. 11]

#### PART 1475—EMERGENCY FEED PROGRAM Livestock Feed Program

Recent changes in the Livestock Feed Program are reflected in this Amendment 11 to the program regulations. Such changes clarify and update gross and net feed allowances as they pertain to feed grain equivalents as well as paragraphs pertaining to feeding of grains being made available. They also provide for approved handlers to advance feed grain from their private stocks for subsequent replacement by Commodity Credit Corporation; for redemption of dealer's certificate in cash; and for excluding the feeding of roughage allocated from end of prescribed period to the end of the feeding period.

The regulations issued by CCC published by 29 FR 13475, 30 FR 2854, 6909, 31 FR 13532, 32 FR 14372, 34 FR 14206, 36 FR 9497, 37 FR 7149, 13635, 37 FR 18181, and 37 FR 22875, which contain specific requirements for the Livestock Feed Program are further amended to change §§ 1475.205(d) (2), 1475.205(d) (3), 1475.210 leading paragraph, 1475.211(e) (3), 1475.212, and 1475.214(a).

Because these changes are urgently needed in emergency areas, it is hereby determined that compliance with the notice of proposed rule making procedures is impracticable and contrary to the public interest with respect to this amendment. The changes are as follows:

#### § 1475.205 Application and approval.

(d) \* \* \*

(2) Except for oats, the feed grain gross allowance for the authorized period shall not exceed 10 pounds per day per

animal unit (or whatever lesser quantity is established by the State committee or county committee) times the number of days in the authorized period. In the case of oats, the feed grain gross allowance shall not exceed 12 pounds per day per animal unit: *Provided, however,* That allowances of oats in excess of 10 pounds shall be used only when specifically authorized by DASCO.

(3) The net approved quantity for the approved period shall be the smaller of: (i) The gross allowance less the total quantity of feed or feed equivalent (considering kind and quality of hay, silage, pasture, and range) determined by the approving officials to be available to the owner for feeding his eligible livestock during the authorized period, or (ii) the quantity the approving officials determine to be adequate for the authorized period after taking into account the kind and quality of feed or feed grain equivalent (including feed grain, hay, silage, pasture, and range) determined to be available for feeding his eligible livestock during the authorized period. Total roughage can be allocated for feeding throughout the entire feeding period. Notwithstanding the foregoing in paragraph (d) (3) (i) and (ii) of this section, in situations where the approving officials determine that there has been a substantial loss of the owner's livestock feed normally produced and used for his livestock, and that the existing feed resources of the owner are not adequate in kind and quality for the types and needs of eligible livestock being fed, assistance up to the amount of the loss, but not in excess of the maximum daily feed allowance, may be approved.

#### § 1475.210 Sales of other CCC-owned grain.

CCC shall designate the delivery point and kind of CCC-owned grain to be sold under this program. Approved handlers are authorized to advance feed grain from their private stocks for subsequent replacement by CCC from such stocks of feed grain as KCCO determines are available for use in the area. The value of the stocks advanced and the value of the stocks made available to replace such stocks shall be determined by CCC.

#### § 1475.211 Sales of grain advanced by dealers.

(e) \* \* \*

(3) A dealer's certificate will be accepted at face value if presented to a commodity office or other office designated by a commodity office or DASCO and applied to the purchase of a feed grain, in accordance with these regulations, under a contract which specifies a "date of sale" not more than 90 days after the effective date of the certificate. If the specified date of sale is after such 90th day, the face value shall be reduced by one twenty-fifth of 1 percent for each day beginning on the 91st day after the effective date of the certificate to, but not including, the date of sale specified in the CCC contract to which it is applied. The certificates may be transferred by endorsement to any other per-

son. CCC reserves the right to determine the time and place of delivery and the class, grade, and quality of feed grain to be delivered in redemption of dealer's certificates. Feed grain delivered under a dealer's certificate shall be sold at the applicable current market price determined by CCC. Overdeliveries of the quantity of grain requested shall be adjusted at the applicable market price. A dealer's certificate may also be redeemed in cash at KCCO when requested by the dealer and provided the option is available at the time the certificate is presented.

#### § 1475.212 Disposition of grain and adjustment of sales price.

(a) *Feed for livestock.* A total quantity of feed equal in feed grain equivalents to the total quantity which was originally on hand and, also, including that purchased under the LFP must be fed to the owner's eligible livestock within the prescribed period, except, roughage allocated from end of prescribed period to the end of the feeding period.

(b) *Grace period.* Notwithstanding the provisions of paragraph (a) of this section, the owner shall have a grace period of 30 days after the prescribed period for feeding the required quantities of feed grain to his livestock.

(c) *Adjustments.* Except as provided in § 1475.214, if the owner does not feed the grain as provided in paragraphs (a) and (b) of this section to his eligible livestock he may satisfy his obligation to CCC under this program as follows:

(1) If there is a current Livestock Feed Program in the area he may, with prior approval of the county committee, sell the grain to another owner with an unfilled net approved quantity on his application at not more than the price at which the grain was purchased, or

(2) If he agrees to use the feed on hand for feed purposes only, or dispose of the feed only for such use, he may pay to CCC the difference between the price paid for such feed grain and the market price thereof, as determined by CCC, on the date of the delivery order, warrant, or other delivery authorization, as the case may be, for the last acquisition of such feed grain under the program.

(3) Notwithstanding the provisions of paragraphs (a) and (b) of this section, if CCC determined that the quantity of feed which should have been fed to the owner's eligible livestock was actually fed by the owner to ineligible livestock within the prescribed and grace periods, the owner shall be deemed to have acquired the kind and quantity of feed grain specified in paragraph (d) of this section for feeding to such livestock and shall pay CCC, on demand, the balance due under § 1475.208(b) for such feed grain.

(d) *Kind of feed grain involved in price adjustments.* The kind and quantity of feed grain on which the price adjustments specified in this section shall be based, shall be the kind and quality acquired from CCC which was not fed to eligible livestock, except that:

(1) If the feed involved was feed otherwise available to the owner for feeding his eligible livestock, the price adjustment shall be based on the kind of feed grain last acquired under the program and on a quantity of such feed grain equal in feed grain equivalents to the feed involved, as determined by CCC, or

(2) If the feed involved was processed feed acquired from an approved dealer, the price adjustment shall be based on the kind of feed grain for which payment was made to CCC and on a quantity equal to the quantity of such feed grain in the processed feed involved.

(e) *Reporting livestock changes.* If the owner suffers losses among or disposes of any of his eligible livestock or transfers any of his eligible livestock outside the emergency area, he shall report the fact promptly to the county office from which feed grain was purchased under the program. If the owner fails to feed the quantities of feed to his eligible livestock as specified in this section, he shall report the fact promptly to the applicable county office.

#### § 1475.214 Violations.

(a) *Disposition of grain to others.* If the owner has failed to feed the quantities of feed required by § 1475.212(a) to his eligible livestock, he shall not dispose of feed grain acquired under the program (including any processed feed containing any feed grain acquired under the program) to any other person except as permitted in §§ 1475.210(f) and 1475.212(c). If the feed grain acquired from CCC is disposed of to any other person, except as permitted in the regulations of this subpart, or if a delivery order or warrant is used for obtaining other than feed grain, the owner shall be subject to such civil penalties and to such criminal liabilities as are provided by applicable Federal statutes.

(Secs. 1-4 of 73 Stat. 574, as amended; secs. 407 and 421 of 63 Stat. 1055, as amended; secs. 4 and 5 of 62 Stat. 1070, as amended; 7 U.S.C. 1427 note and 1433; 15 U.S.C. 714 b and c)

Effective date: March 13, 1973.

Signed at Washington, D.C., on March 7, 1973.

KENNETH E. FRICK,  
Executive Vice President,  
Commodity Credit Corporation.

#### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FHA Instruction 444.2]

#### PART 1822—RURAL HOUSING LOANS AND GRANTS

##### Subpart A—Section 502 Rural Housing Loan Policies, Procedures, and Authorizations

On pages 28076 and 28077 of the FEDERAL REGISTER of December 20, 1972, there

was published a notice of proposed rule making to provide policies and procedures to assist builders, who are unable to do so, to obtain construction financing from commercial sources. Interested persons were given 30 days in which to submit written comments, suggestions or objections regarding the proposed regulations.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

*Effective date.* These regulations shall become effective on March 13, 1973.

Dated: February 14, 1973.

ARTHUR C. HARMAN, JR.,  
Acting Associate Administrator,  
Farmers Home Administration.

As amended, the new § 1822.19 reads as follows:

#### § 1822.19 Construction financing for section 502 rural housing loans.

(a) *Scope.* The policy of the Farmers Home Administration (FHA) is to encourage the construction or repair of buildings so that section 502 Rural Housing (RH) loans can be closed after the buildings are completed. This section sets forth policies and procedures to assist builders, who are otherwise unable to do so, to obtain construction financing from commercial sources.

(b) *Purpose.* The purpose of construction financing is to reduce the interest cost to the borrower and FHA on funds that would otherwise be deposited in a supervised bank account, reduce the administrative costs of supervised bank accounts, and eliminate the need for borrowers to make loan repayments during the construction period.

(c) *Procedures.* (1) This section is applicable to cases in which:

(i) A conditional commitment has been or will be issued and a loan approved and funds obligated for the applicant in accordance with instructions on conditional commitments involving packaging of applications issued by the national office of the FHA and available at all FHA offices; or

(ii) The applicant owns a building site and will contract for the construction or improvement of the building or buildings. In such a case the applicant will retain ownership of his site and not convey title to the builder, and the lender providing the construction financing will not take a mortgage on the site owned by the applicant or otherwise require the applicant to secure the construction loan; or

(iii) The RH loan is not being made in participation with an FO or an individual SW loan.

(2) *Loan docket.* Loan docket forms will be prepared in accordance with § 1822.12. If the applicant owns the building site he will be required to obtain and submit to the County Supervisor preliminary title evidence to assure that he has a satisfactory title or leasehold interest in the property before he executes Form FHA 424-6, "Construction Contract," and

before FHA executes Form FHA 444-16, "Notice of Loan Approval."

(3) *Notice of loan approval.* When the obligated copy of the Form FHA 440-3, "Record of Actions," is received from the Finance Office, the County Supervisor will complete and sign an original and one copy of Form FHA 444-16.

(i) The original of Form FHA 444-16 will be given to the builder and a copy will be retained in the loan docket.

(ii) The builder may present Form FHA 444-16 and a copy of Forms FHA 444-11, "Conditional Commitment," FHA 440-34, "Option to Purchase Real Property," or FHA 424-6, as appropriate, to a commercial lender of his choice to obtain the construction financing he needs.

(4) *Inspections.* FHA will as a minimum make the inspections specified in Form FHA 444-16 and send copies of Form FHA 424-12, "Inspection Report," to the builder, and if requested, to the commercial lender.

(5) *Construction advances.* The lender is responsible for determining the amount that he will advance to the builder under the construction financing arrangement, and for determining any measures necessary to protect his interest.

(6) *Loan closing.* When construction is completed, the necessary title clearance will be obtained and the County Supervisor will order the loan check and arrange for loan closing as soon as possible, usually within 30 days after satisfactory completion of construction.

(d) *Forms.* All forms listed in these requirements will be available at all FHA offices.

(Sec. 510, 63 Stat. 437, 42 U.S.C. 1480; orders of Acting Secretary of Agriculture, 36 FR 21529, 37 FR 22006; order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 FR 21529)

#### Title B—Aliens and Nationality

##### CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

##### PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

##### Procedures for Access to Service Records

This order revises the regulations of the Immigration and Naturalization Service pertaining to the procedures for making and acting upon requests of members of the public for access to Service records under the Freedom of Information Act (5 U.S.C. 552). The Service regulations are amended in conformity with the Department of Justice regulations, 28 CFR Part 16, Subpart A, published in the Federal Register on February 14, 1973 (38 FR 4391).

Pursuant to 5 U.S.C. 552 and the authority contained in 8 U.S.C. 1103 and 8 CFR 2.1, the following amendments to Part 103 of Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. In § 103.7(b), subparagraph (2) is amended to read as follows:

## RULES AND REGULATIONS

## § 103.7 Fees.

(b) *Amounts of fees.* . . . .  
 (2) For the filing of each Form N-585 or Form I-550, and for the services expended in searching for or making available records or copies thereof under 5 U.S.C. 552, the following user charges are deemed fair and equitable and, except as otherwise provided in § 103.10 (a) (2) and in paragraph (c) of this section, shall be assessed against the person who requests that records be made available:

*Requests.* Each Form N-585 or Form I-550 shall be accompanied by a payment of . . . . . \$3.00

(This charge shall be retained whether or not an identified record is located. However, when additional fees in connection with the request are chargeable under this section, the above-described payment shall be applied against them, and only so much of such fee as exceeds \$3 shall be collected.)

*Clerical searches.* For each one-quarter hour spent by clerical personnel in excess of the first quarter hour in searching for and producing a requested record . . . . . 1.25

*Monitoring inspection.* For each one-quarter hour spent in monitoring the requester's inspection of records . . . . . 1.25

*Copies of documents.* (Maximum of 10 copies will be supplied.) Per page . . . . . 1.10

*Certification.* For certification of true copies, each . . . . . 1.00

*Attestation.* For attestation under seal . . . . . 3.00

*Nonroutine, nonclerical searches.* Where a search cannot be performed by clerical personnel, for example, where the task of determining which records fall within a request and collecting them requires the time of professional or managerial personnel, and where the amount of time that must be expended in the search and collection of the requested records by such higher level personnel is substantial, charges for the search may be made at a rate in excess of the clerical rate, namely for each one-quarter hour spent in excess of the first quarter hour by such higher level personnel in searching for a requested record . . . . . 3.75

*When records must be screened or obtained from a computer.* The Service shall conform its charges with the policies of the Department of Justice, stated in subparagraphs (7) and (8) of 28 CFR 16.9(b), concerning charges for examination and related tasks in screening records and charges for services involving computerized records.

*Notice of anticipated fees in excess of \$25.00.* Where it is anticipated that the fees chargeable under this section will amount to more than \$25.00, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In appropriate cases an advance deposit may be required. The notice or request for an advance deposit shall extend an offer to the requester to confer with knowledgeable Service personnel in an attempt to reformulate the request in a manner which will reduce the fees and meet the needs of the requester.

Dispatch of such a notice or request shall toll the running of the period for response by the Service until a reply is received from the requester.

2. Section 103.10 is amended to read as follows:

## § 103.10 Requests for records.

(a) *Place and manner of requesting records.*—(1) *Place.* Records shall be made available in the Central Office, each regional office, any district office, and the following offices: Agana, Guam; Albany, N.Y.; Cincinnati, Ohio; Dallas, Tex.; Hammond, Ind.; Houston, Tex.; Memphis, Tenn.; Milwaukee, Wis.; Norfolk, Va.; Pittsburgh, Pa.; Providence, R.I.; Reno, Nev.; St. Louis, Mo.; Salt Lake City, Utah; San Diego, Calif.; Spokane, Wash.; additionally, in particular cases, a district director may designate any other Service office.

(2) *Manner of requesting records.* Requests for records may be made in person or by mail. Each request made under this section pertaining to the availability of a record shall include or consist of Form N-585 or Form I-550, shall be accompanied by a fee of \$3 as provided in § 103.7(b) (2), and shall describe the record with sufficient specificity with respect to names, dates, subject matter, and location to permit it to be identified and located. A request for all records falling within a reasonably specific category shall be regarded as conforming to the statutory requirement that records be identifiable if it can reasonably be determined which particular records come within the request, and the records can be searched for, collected, and produced without unduly burdening or interfering with Service operations because of the staff time consumed or the resulting disruption of files. A fee shall not be required when the request is made by Federal or State government agencies, including political subdivisions and municipalities. A single filing fee shall be charged for a request for a search relating to one individual even though information concerning him is in more than one record and in more than one place.

(b) *Authority to grant and deny requests.*—(1) *Grants.* The Associate Commissioner, Management, may grant any type of request. The head of any office specified in paragraph (a) (1) of this section may grant the following types of requests:

(i) Requests for information and records which officers and employees of the Service prior to the enactment of 5 U.S.C. 552 customarily furnished to the public in the regular performance of their duties;

(ii) Requests for records of proceedings in deportation hearings, unless members of the public have been excluded from the hearings by direction of the special inquiry officer pursuant to § 242.16(a) of this chapter;

(iii) Requests for records of proceedings in naturalization examinations and hearings;

(iv) Requests for records of proceedings in any other proceedings before the

Service which were open to the public; and

(v) Requests for records of proceedings in administrative fine cases.

(2) *Denials.* The Commissioner has sole authority to deny a request.

(3) *Authority to state that a record cannot be located or does not exist.* The head of any office specified in paragraph (a) (1) of this section has authority to notify a requester that a record cannot be located from the information supplied, or is known to have been destroyed or otherwise disposed of.

(4) *Authority to certify records.* Whenever authorized under 5 U.S.C. 552 or any other law to furnish information from records to persons entitled thereto, the following officials have authority to make certifications, as follows:

(i) The Associate Commissioner, Management—copies of files, documents, and records in the custody of the Central Office.

(ii) A regional commissioner or district director—copies of files, documents, and records in the custody of his office.

(iii) The Chief, Records Administration and Information Branch, Central Office—the nonexistence of an official record in the records of the Service.

(c) *Prompt response.* Ordinarily a request shall be decided within 30 working days following receipt, or sooner if practicable. If additional time is required, the office processing the request shall acknowledge receipt of the request within the 30-day period stating the reason for the delay and giving an indication of the date on which it is expected that a determination as to disclosure will be forthcoming. An extended deadline will be considered reasonable in all cases if it does not exceed 10 additional working days. If a longer extended deadline is designated, the notice of extension shall state the special circumstances which warrant it and shall be approved by the Commissioner. If the request is not responded to or acknowledged within the 30-day period, or if it is not responded to within an extended deadline, or if the requester considers an extended deadline of more than 10 additional working days unreasonable, the requester may petition the Deputy Attorney General to take appropriate measures to assure prompt action on the request. In order for a requester to treat a failure by the Service to respond as a denial and to file an appeal with the Attorney General, he must have filed a petition with the Deputy Attorney General complaining of the delay, and must have allowed time for action on such petition as prescribed in 28 CFR 16.5(c) (1).

(d) *Disposition of requests.* When a requested record is available, appropriate notification, including notice of any applicable additional fees, shall be furnished the requester. A reply denying a request shall be in writing signed by the Commissioner and shall include: (1) A reference to the specific exemption under the Freedom of Information Act authorizing the withholding of the record, and such further explanation, if any, as is deemed appropriate; and (2) a statement that the denial may be ap-

pealed within 30 days to the Attorney General as prescribed by 28 CFR 16.7, and that judicial review will be thereafter available either in the district in which the requester resides or has a principal place of business or in which the agency records are situated.

(e) *Copies of responses to Deputy Attorney General.* A copy of each notification to a requester of an extended deadline, of a grant (other than in any of the five types of requests enumerated in paragraph (b) (1) of this section), of a denial, or of inability to locate a requested record shall be furnished to the Deputy Attorney General.

Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making and delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendments to §§ 103.7(b) (2) and 103.10 are made to conform to the revised regulations of the Department of Justice (28 CFR Part 16, Subpart A), pertaining to access to Department records under the Freedom of Information Act, which was published in the FEDERAL REGISTER on February 14, 1973 (38 FR 4391), effective March 1, 1973.

*Effective date.* This order shall become effective on March 13, 1973.

Dated: March 8, 1973.

RAYMOND F. FARRELL,  
 Commissioner of Immigration  
 and Naturalization.  
 [FR Doc. 73-4804 Filed 3-12-73; 8:45 am]

Title 12—Banks and Banking  
 CHAPTER II—FEDERAL RESERVE SYSTEM  
 SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM  
 PART 262—RULES OF PROCEDURE  
 Revision of Rules

The Board of Governors of the Federal Reserve System has revised its rules of procedure in order to bring them into conformity with current practice and to make them more informative to the public.

1. Effective March 1, 1973, Part 262 is revised to read as follows:

Sec.  
 262.1 Basis and scope.  
 262.2 Procedure for regulations.  
 262.3 Applications.  
 262.4 Adjudication with formal hearing.  
 262.5 Appearance and practice.  
 262.6 Forms.

AUTHORITY: 5 U.S.C. 552.

§ 262.1 Basis and scope.

This part is issued pursuant to section 552 of Title 5 of the United States Code, which requires that every agency shall publish in the FEDERAL REGISTER statements of the general course and method by which its functions are channeled and determined, rules of procedure, and descriptions of forms available or the places at which forms may be obtained.

§ 262.2 Procedure for regulations.

(a) *Notice.* Notices of proposed regulations of the Board of Governors of

## RULES AND REGULATIONS

the Federal Reserve System (the "Board") or amendments thereto are published in the FEDERAL REGISTER, except as specified in paragraph (e) of this section or otherwise excepted by law. Such notices include a statement of the subjects and issues involved; but the giving of such notices does not necessarily indicate the Board's final approval of any feature of any such proposal. The notices also include a reference to the authority for the proposed regulations or amendments and a statement of the time, place, and nature of public participation.

(b) *Public participation.* The usual method of public submission of data, views, or arguments is in writing. It is ordinarily preferable that they be sent to the Secretary of the Board, Washington, D.C. 20551, with copies to the appropriate Federal Reserve Bank. The locations of the 12 Federal Reserve Banks and the boundaries of the Federal Reserve districts are shown in the appendix to the Board's rules of organization. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of this chapter regarding availability of information.

(c) *Preparation of draft and action by Board.* In the light of consideration of all relevant matter presented or ascertained, the appropriate division of the Board's staff, in collaboration with other divisions, prepares drafts of proposed regulations or amendments, and the staff submits them to the Board. The Board takes such action as it deems appropriate in the public interest. Any other documents that may be necessary to carry out any decision by the Board in the matter are usually prepared by the Legal Division, in collaboration with the other divisions of the staff.

(d) *Effective dates.* Any substantive regulation or amendment thereto issued by the Board is published not less than 30 days prior to the effective date thereof, except as specified in paragraph (e) of this section or as otherwise excepted by law.

(e) *Exceptions as to notice or effective date.* In certain situations, notice and public participation with respect to proposed regulations may be impracticable, unnecessary, contrary to the public interest, or otherwise not required in the public interest, or there may be reason and good cause in the public interest why the effective date should not be deferred for 30 days. The reason or reasons in such cases usually are that such notice, public participation, or deferment of effective date would prevent the action from becoming effective as promptly as necessary in the public interest, would permit speculators or others to reap unfair profits or to interfere with the Board's actions taken with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country, would provoke other consequences contrary to the public interest, would unreasonably interfere with

the Board's necessary functions with respect to management or personnel, would not aid the persons affected, or would otherwise serve no useful purpose. The following may be mentioned as some examples of situations in which advance notice or deferred effective date, or both, will ordinarily be omitted in the public interest: The review and determination of discount rates established by Federal Reserve Banks, and changes in general requirements regarding reserves of member banks, maximum interest rates on time and savings deposits, or credit for purchasing or carrying securities.

§ 262.3 Applications.

(a) *Forms.* Any application, request, or petition (hereafter referred to as "application") for the approval, authority, determination, or permission of the Board with respect to any action for which such approval, authority, determination, or permission is required by law or regulation of the Board (including actions authorized to be taken by a Federal Reserve Bank or others on behalf of the Board pursuant to authority delegated under Part 265 of this chapter) shall be submitted in accordance with the pertinent form, if any, prescribed by the Board. Copies of any such form and details regarding information to be included therein may be obtained from any Federal Reserve Bank. Any application for which no form is prescribed should be signed by the person making the application or by his duly authorized agent, should state the facts involved, the action requested, and the applicant's interest in the matter, and should indicate the reasons why the application should be granted. Applications for access to, or copying of, records of the Board should be submitted as provided in § 261.4(d) of this chapter.

(b) *Filing of applications.* Any application should be sent to the Federal Reserve Bank of the district in which the applicant is located, except as otherwise specified on application forms, and that Bank will forward it to the Board when appropriate.

(c) *Analysis by staff.* In every case, the Reserve Bank makes such investigation as may be necessary, and, except when acting pursuant to delegated authority, reports the relevant facts, with its recommendation, to the Board. In the light of consideration of all relevant matter presented or ascertained, the Board's staff prepares and submits to the Board comments on the subject.

(d) *Action on applications.* The Board takes such action as it deems appropriate in the public interest. Such documents as may be necessary to carry out any decision by the Board are prepared by the Board's staff. With respect to actions taken by a Federal Reserve Bank on behalf of the Board under delegated authority, statements and necessary documents are prepared by the staff of such Federal Reserve Bank.

(e) *Notice of action.* Prompt notice is given to the applicant of the granting or denial in whole or in part of any application. In the case of a denial, except in affirming a prior denial or where

## RULES AND REGULATIONS

the denial is self-explanatory, such notice is accompanied by a simple statement of the grounds for such action.

(f) *Action at Board's initiative.* When the Board, without receiving an application, takes action with respect to any matter as to which opportunity for hearing is not required by statute or Board regulation, similar procedure is followed, including investigations, reports, and recommendations by the Board's staff and by the Reserve Banks, where appropriate.
